Report of Independent Registered Public Accounting Firm

Retirement Savings Plan Advisory Committee

State Auto Insurance Companies Retirement Savings Plan

We have audited the accompanying statements of net assets available for benefits of the State Auto Insurance Companies Retirement Savings Plan (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2010 and 2009, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2010 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

STATE AUTO INSURANCE COMPANIES RETIREMENT SAVINGS PLAN

Notes to the Financial Statements

December 31, 2010

**1. Description of the Plan**

**Organization**

The State Auto Insurance Companies Retirement Savings Plan (the Plan), formerly known as the State Auto Insurance Companies Capital Accumulation Plan, is a defined contribution plan which qualifies as a 401(k) plan. The Plan was adopted effective June 1, 1982, by State Automobile Mutual Insurance Company (State Auto Mutual) and its affiliates for the purpose of providing a savings plan for the benefit of its employees.

In 2010, an amendment was made to change the sponsor of the Plan from State Auto Mutual to its affiliate, State Auto Property & Casualty Insurance Company (the Company), which is the employer of all participants covered by the Plan. On December 15, 2010, the Plan was amended and restated in its entirety, effective as of January 1, 2002.

In 2009, the following amendments were made to the Plan:

Amendment to the Plan's eligibility requirements to provide that employees hired on or after June 1, 2009 are eligible to participate in the Plan after the completion of 90 days of employment with the Company;

Amendment to provide for an employer non-elective contribution equal to a stated percentage (as determined by the Compensation Committee in its discretion, from time to time) of an eligible participant's compensation for employees hired on or after January 1, 2010, as well as those participants who irrevocably elected to freeze future benefit accruals under the State Auto Insurance Companies Employee Retirement Plan, a defined benefit pension plan, effective July 1, 2010; and

Amendment to change the name of the Plan to the State Auto Insurance Companies Retirement Savings Plan, effective January 1, 2010.

The following description of the Plan provides only general information. Participants should refer to the Plan document for a complete description of the Plan.

**General**

An employee of the Company is eligible to participate in the Plan as of the first pay period after the completion of 90 days of employment with the Company provided the employee is or will attain age 21 during the calendar year of the employee's hire date. Employees who were hired prior to June 1, 2009, were eligible to participate in the Plan as of the first pay period subsequent to 30 days after the employee's hire date. A participant will be automatically enrolled in the Plan upon meeting eligibility requirements unless a different election is affirmatively made by such participant.

**Transfer of Plan Assets**

In 2007, State Auto Mutual affiliated with Patrons Mutual Insurance Company of Connecticut and Litchfield Mutual Fire Insurance Company (collectively, the Patrons Insurance Group). Effective January 1, 2009, the former employees of the Patrons Insurance Group became participants in the Plan and received credit for their participation and vesting service as measured under the terms of the respective previously administered plan. The net assets of the Patrons Employees 401(k) Profit Sharing Plan, totaling \$2,971,018, were transferred into the Plan in

January 2009.

---

STATE AUTO INSURANCE COMPANIES RETIREMENT SAVINGS PLAN

Notes to the Financial Statements (continued)

December 31, 2010

**Contributions**

Each participant may contribute any whole percentage of their salary between 1% and 50% of his or her salary ( basic contribution ) up to the maximum Internal Revenue Code (the Code ) limit. Subject to certain limitations, the Company makes safe harbor matching contributions for the first 1% of basic contributions of a participant s salary at the rate of \$1.00 for each \$1.00 contributed by the participant and for basic contributions from 2% to 6% of a participant s salary at the rate of \$0.50 for each \$1.00 contributed by the participant. Participants can change their rate of deferral as of any given pay date. Participants who are automatically enrolled in the Plan contribute an automatic 3% of their salary with automatic increases to 4% in the second plan year following enrollment, 5% in the third plan year following enrollment and 6% in the fourth and subsequent plan years following enrollment. Participants may also suspend contributions at any time. Participants may elect to make supplemental contributions in the form of after tax salary deferrals. Total participant contributions may not exceed 50% of a participant s salary.

The Company also makes non-elective contributions of 5% of an eligible participant s salary. Participants eligible for the non-elective contributions are those employees hired on or after January 1, 2010, and those participants who irrevocably elected to freeze their future benefit accruals under the State Auto Insurance Companies Employee Retirement Plan, a defined benefit pension plan, effective July 1, 2010. The percentage of the non-elective contribution is determined by the Compensation Committee of the Plan and can be changed at its discretion.

All Plan participants who are older than 50 as of the beginning of the calendar year or who attain age 50 during the calendar year and are making the maximum Code pre-tax contribution of \$16,500 may make additional Catch-up Contributions of up to \$5,500.

**Vesting**

Plan participants are fully vested in employee contributions and related net earnings or losses. Plan participants are 100% vested in the safe harbor matching contributions and related earnings or losses after two years. Full vesting in non-elective and other employer contributions and related net earnings and losses occurs upon completion of three years of service. Any employee terminating prior to completing years of service requirements vests in employer contributions and related net earnings and losses at percentages set forth in the Plan document. In addition, employer contributions and related net earnings or losses are fully vested upon retirement at age 65, death or total and permanent disability. Any forfeiture of non-vested employer contributions and related net earnings or losses are first used to restore balances of participants who are re-employed and any remaining forfeiture reduces future employer contributions.

**Participant s Accounts**

Each participant s account is credited with the participant s contributions and allocations of a) the Company s contributions and b) Plan earnings, and is charged with applicable participant loan fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant s account.

**Notes Receivable from Participants**

Notes receivable from participants (loans) are valued at their unpaid balance plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1-5 years, or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant s account and bear interest at a rate based on the current prime rate. Principal and interest is paid ratably through bi-weekly payroll deductions.

**Administrative Expenses**

All administrative expenses, excluding participant loan fees, are paid by the Company.

---

STATE AUTO INSURANCE COMPANIES RETIREMENT SAVINGS PLAN

Notes to the Financial Statements (continued)

December 31, 2010

**Payment of Benefits**

Upon termination of service, participants generally receive a lump-sum amount equal to the value of their vested account less outstanding loan balances.

Participants may semiannually withdraw from their supplemental accumulated contributions and, subject to certain conditions, participants may withdraw from their vested account based on financial hardship. Participants may withdraw the vested portion of employer matching contributions credited to their account, subject to certain conditions.

**Plan Termination**

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it is free to do so at any time, subject to the provisions set forth in the Employee Retirement Income Security Act of 1974. If the Plan terminates at some future date, all participants will become 100% vested in benefits earned as of the termination date.

**2. Significant Accounting Policies**

**Basis of Presentation**

The accounting records of the Plan are maintained in conformity with U.S. generally accepted accounting principles.

**Use of Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Valuation of Investments and Related Investment Income**

The investments of the Plan at December 31, 2010 and 2009 consisted of shares of registered investment companies, interest-bearing cash, a common/collective trust and shares of the State Auto Financial Corporation Common Stock Fund ( Affiliated Stock ). The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 4 for discussion on fair value measurements.

In accordance with the Plan Accounting Defined Contribution Pension Plans Topic of the Financial Accounting Standards Board ( FASB ) Accounting Standards Codification ( ASC ), the Plan's common/collective trust, which includes a fully benefit-responsive investment contract, is reported at fair value based on information reported by Fidelity Management Trust Company (the fund trustee ), with a corresponding adjustment on the statements of net assets available for benefits to reflect the investment at contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Investment income, including appreciation and depreciation in fair value of investments, is allocated to participant accounts daily based upon the ratio of each participant's account to the total fund balance.

**Benefit Payments**

Benefit payments are recognized when paid.

---

STATE AUTO INSURANCE COMPANIES RETIREMENT SAVINGS PLAN

Notes to the Financial Statements (continued)

December 31, 2010

**Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's statements of net assets available for benefits.

**Reclassification**

Notes receivable from participants previously reported as a component of investments have been reclassified to a component of receivables on the statement of net assets available for benefits in order to conform to the current year presentation. Interest on notes receivable from participants previously reported as a component of interest and dividends has been reclassified as interest income on notes receivable from participants on the statement of changes in net assets available for benefits.

**Adoption of New Accounting Pronouncements**

*Improving Disclosures about Fair Value Measurements*

In January 2010, the FASB issued guidance to improve the disclosures related to fair value measurements. The new guidance requires expanded fair value disclosures, including the reasons for significant transfers between Level 1 and Level 2 and the amount of significant transfers into each level disclosed separately from transfers out of each level. For Level 3 fair value measurements, information in the reconciliation of recurring Level 3 measurements about purchases, sales, issuances and settlements shall be presented separately on a gross basis, rather than as one net number. In addition, clarification is provided about existing disclosure requirements, such as presenting fair value measurement disclosures for each class of assets and liabilities that are determined based on their nature and risk characteristics and their placement in the fair value hierarchy (that is, Level 1, 2, or 3), as opposed to each major category of assets and liabilities, as required in the previous guidance. Disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements are required for fair value measurement that fall in either Level 2 or Level 3. The Plan adopted this guidance effective January 1, 2010, except for the gross presentation of purchases, sales, issuances and settlements in the Level 3 reconciliation, which is effective for annual and interim reporting periods beginning after December 15, 2010. The disclosures required by this new guidance are provided in the accompanying Note 4.

*Reporting Loans to Participants by Defined Contribution Pension Plans*

In September 2010, the FASB issued guidance to clarify how loans to participants should be classified and measured by defined contribution pension benefit plans. The new guidance requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The Plan adopted this guidance retrospectively effective December 31, 2010, and reclassified participant loans from plan investments to a component of receivables for both periods presented in the statements of net assets available for benefits. Other than the reclassification requirements, the adoption of this standard did not have a material impact on the Plan's financial statements.

## STATE AUTO INSURANCE COMPANIES RETIREMENT SAVINGS PLAN

Notes to the Financial Statements (continued)

December 31, 2010

**3. Investments**

The following table sets forth the investments, at fair value, which represent 5% or more of assets available for benefits at December 31, 2010 and 2009:

	December 31	
	2010	2009
<u>Investments in shares of registered investment companies:</u>		
Fidelity Contrafund K	<b>\$ 41,353,680</b>	
Fidelity Contrafund		39,869,691
MFS Value Fund Class A	<b>17,841,881</b>	18,425,625

<i>Total realized and unrealized appreciation</i>	<b>\$ 16,620,494</b>	26,927,816

---

STATE AUTO INSURANCE COMPANIES RETIREMENT SAVINGS PLAN

Notes to the Financial Statements (continued)

December 31, 2010

#### 4. Fair Value Measurements

Below is the fair value hierarchy that categorizes into three levels the inputs to valuation techniques that are used to measure fair value:

Level 1 includes observable inputs which reflect quoted prices for identical assets or liabilities in active markets at the measurement date.

Level 2 includes observable inputs for assets or liabilities other than quoted prices included in Level 1, and it includes valuation techniques which use prices for similar assets and liabilities.

Level 3 includes unobservable inputs which reflect the reporting entity's estimates of the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

Transfers between level categorizations may occur due to changes in the availability of market observable inputs. Transfers in and out of level categorizations are reported as having occurred at the beginning of the year in which the transfer occurred. There were no transfers between level categorizations during the years ended December 31, 2010 and 2009.

The following is a description of the valuation methods used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2010.

*Registered investment companies:* Registered investment companies are public investment vehicles valued using net asset value (NAV) provided by the administrator of the mutual fund. The NAV is an unadjusted quoted price on an active market and classified within Level 1 of the fair value hierarchy. At December 31, 2009, the Plan held one fund with underlying investments in real estate whose NAV was not a quoted price on an active market and was therefore classified in Level 3 of the fair value hierarchy.

*Interest-bearing cash:* The carrying value approximates fair value and is classified within Level 1 of the fair value hierarchy.

*Common/collective trust:* The common/collective trust is a public investment vehicle valued using the NAV provided by the fund trustee based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the fair value hierarchy. The fund manager's objective is preservation of capital and the fund invests primarily in fixed income, bond and money market funds. There are no unfunded commitments related to the common collective trust and units are redeemable at NAV.

*Affiliated Stock:* The fair value is based on the unadjusted closing price reported on the active market on which the security is traded and is classified within Level 1 of the fair value hierarchy.

Edgar Filing: State Auto Financial CORP - Form 11-K

## STATE AUTO INSURANCE COMPANIES RETIREMENT SAVINGS PLAN

Notes to the Financial Statements (continued)

December 31, 2010

For assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3), the following table sets forth a reconciliation of the beginning and ending balances for 2010 and 2009:

	Registered investment companies - Other	
	2010	2009
Balance, January 1	\$ 176,622	
Realized gains (losses) relating to assets sold	7,897	
Unrealized gains (losses) relating to assets held at reporting date		(81,553)
Purchases, sales, issuances, and settlements, net*	(184,519)	258,175
Transfers in and/or out of Level 3, net		
Balance, December 31	\$	176,622

\* \$258,175 included in the transfer of assets in 2009.

### 5. Federal Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service ( IRS ) dated August 16, 2002, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt. The Plan applied for an updated determination letter on January 31, 2011 but has not yet received a response from the IRS.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

### 6. Reconciliation to Form 5500

The following table sets forth a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2010	2009
Net assets available for benefits per the financial statements	\$ 189,745,679	173,805,892
Contribution receivables	(61,150)	(61,150)
	144,442	(328,843)

Edgar Filing: State Auto Financial CORP - Form 11-K

Current year	<b>144,442</b>	(328,843)
Prior year	<b>328,843</b>	991,604
<i>Net increase in net assets available for benefits per Form 5500</i>	<b>\$ 16,413,072</b>	30,779,837

**7. Transactions with Parties-In-Interest**

The Plan invests in shares of registered investment companies managed by Fidelity Management Trust Company, custodian of the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Participants may also invest in Affiliated Stock.

**8. Subsequent Event**

During 2009, the Company acquired Rockhill Insurance Group ( Rockhill ). Effective January 1, 2011, the former employees of Rockhill became participants in the Plan and received credit under the Plan for their participation and vesting service as measured under the terms of the defined contribution plan previously administered by Rockhill. In addition, net assets of \$17,166,116 under this previously administered plan were merged into the Plan in February 2011.
