Network capacity, as measured by total broadcasting hours in the Company's network, in the second quarter of 2011 was 44,379 hours, compared to network capacity of 45,878 hours in the first quarter of 2011.

As of June 30, 2011, the Company's advertising network covered 21 cities and included 136,522 digital displays on mass transit systems.

Mr. Limin Li, VisionChina Media's chairman and chief executive officer, commented, "Continued growth and deeper integration of our sales force combined with a more optimized network reach and a growing acceptance of our media platform, as an integral part of advertisers' marketing plans, has led to improved utilization of our network. Driven by this improved utilization, we have seen a return of average revenue per broadcasting hour to levels not seen since 2008 and a record high number of customers placing advertisements in a single quarter. We are pleased with the results of our diligent efforts and will continue to work towards increasing revenue with further improved utilization, while adhering to our strict cost control guidelines in the remainder of 2011 and beyond."

Stanley Wang, VisionChina Media's vice president of finance, added, "Record high advertising revenue of \$45.0 million and non-GAAP net income of \$0.9 million reveal a noticeable turnaround in both our business operations and the Chinese advertising industry. We are pleased with the growth of our business in the second quarter of 2011 and will strive for further improved results in the second half of 2011. We are increasingly confident that our business will continue to demonstrate robust operating leverage that will further enhance our bottom line."

Second Quarter 2011 Results

VisionChina Media's total revenues were \$45.0 million in the second quarter of 2011, an increase of 41.6% from \$31.8 million in the second quarter of 2010 and an increase of 38.3% from \$32.5 million in the first quarter of 2011.

Total broadcasting hours in the Company's network in the second quarter of 2011 were 44,379 hours, compared to 47,928 hours in the second quarter of 2010 and 45,878 hours in the first quarter of 2011. The decrease in network capacity compared to the first quarter of 2011 reflects the full quarter impact of the termination of an exclusive agency agreement in February 2011. Average advertising revenue per broadcasting hour was \$1,003 in the second quarter of 2011, compared to \$636 per broadcasting hour in the second quarter of 2010 and \$699 per broadcasting hour in the first quarter of 2011.

In the second quarter of 2011, the Company sold a total of 382,895 advertising minutes in its network, compared to 303,812 advertising minutes sold in the second quarter of 2010 and 321,849 advertising minutes sold in the first quarter of 2011. The Company sold an average of 8.63 advertising minutes per broadcasting hour in the second quarter of 2011, compared to 6.34 advertising minutes per broadcasting hour in the second quarter of 2010 and 7.02 advertising minutes per broadcasting hour in the first quarter of 2011, demonstrating continuous improvement in the utilization of broadcasting hours. Increased recognition of VisionChina Media's network as well as increased advertising spending from returning advertisers provides the Company with a solid basis for continual improvement in utilization.

During the second quarter of 2011, 997 advertisers purchased advertising time on the Company's advertising network, either directly or through advertising agents, compared to 614 advertisers in the second quarter of 2010 and 333 advertisers in the first quarter of 2011.

Media cost, the most significant component of advertising service cost, was \$25.6 million in the second quarter of 2011, representing 80.5% of total advertising service cost, compared to \$23.3 million, or 81.2% of total advertising service cost, in the second quarter of 2010 and \$26.3 million, or 81.5% of total advertising service cost, in the first quarter of 2011. The decrease in media cost compared to the first quarter of 2011 is the result of effective cost reduction measures.

Gross profit in the second quarter of 2011 was \$13.2 million, compared to a gross profit of \$3.1 million in the second quarter of 2010 and gross profit of \$0.2 million in the first quarter of 2011. Advertising service gross margin was 29.3% in the second quarter of 2011, compared to 9.8% in the second quarter of 2010 and 0.7% in the first quarter of 2011, as a result of the aforementioned revenue growth and media cost reduction.

Selling and marketing expenses were \$9.0 million in the second quarter of 2011, an increase of 27.8% from \$7.0 million in the second quarter of 2010 and a decrease of 9.4% from \$9.9 million in the first quarter of 2011. Selling and marketing expenses represented 20.0% of the Company's revenues in the second quarter of 2011, compared to 22.2% in the second quarter of 2010 and 30.5% in the first quarter of 2011.

The increase in general and administrative expenses compared to the first quarter of 2011 is primarily attributable to provision for certain doubtful accounts receivable as well as an increase in legal fees in connection with pending litigation with the selling shareholders of Digital Media Group Company Limited.

Income from equity method investments amounted to \$0.2 million in the second quarter of 2011, compared to a loss of \$0.1 million in the second quarter of 2010 and a loss of \$0.1 million in the first quarter of 2011.
