PRESIDENT'S MESSAGE

Dear Shareholder:

In 2004, Colonial Funds became part of the Bank of America family, one of the largest, most respected financial institutions in the United States. As a direct result of this merger, a number of changes are in the works that we believe offer significant potential benefits for our shareholders. First, some funds may be merged in order to eliminate redundancies, others may be liquidated and fund management teams will be aligned to maximize performance potential. You will receive more detailed information about these changes if your fund is affected and you may be asked to vote on certain fund changes. In this matter, your timely response will enable us to implement the changes in 2005.

As a result of these changes, we believe we will offer shareholders an even stronger lineup of investment options. What will not change as we enter this next phase of consolidation is our commitment to the highest standards of performance and our dedication to superior service. Change for the good has another name: it's called improvement. It helps move us forward, and we believe that it represents progress for all our shareholders in their quest for long-term financial success.

In the pages that follow, you'll find a detailed report from the fund's manager or managers on key factors that influenced your fund's performance. We hope that you will read the manager reports carefully and discuss any questions you might have with your financial advisor.

As always, we thank you for choosing Colonial Funds. We appreciate your continued confidence. And, we look forward to helping you keep your long-term financial goals on target in the years to come.

Sincerely,

/s/ Christopher L. Wilson

Christopher L. Wilson

Head of Mutual Funds, Columbia Management

Christopher Wilson is Head of Mutual Funds for Columbia Management, responsible for the day-to-day delivery of mutual fund services to the firm's investors. With the exception of distribution, Chris oversees all aspects of the mutual fund services operation, including treasury, investment accounting and shareholder and broker services. Chris serves as Columbia Management's liaison to the mutual fund boards of trustees.

Chris joined Bank of America in August 2004.

Economic and market conditions change frequently. There is no assurance that trends described in this report will continue or commence.

Sector and quality breakdowns are calculated as a percentage of total investments. Ratings shown in the quality breakdown represent the lowest rating assigned to a particular bond by one of the following nationally-recognized rating agencies: Standard & Poor's, a division of The McGraw-Hill Companies, Inc., Moody's Investors Service, Inc. or Fitch Ratings Ltd. The majority of the bonds that are non-rated are considered by the advisor to be of non-investment grade quality.

Because the trust is actively managed, there is no guarantee that the trust will continue to invest in these sectors or maintain this quality breakdown in the future.

For the 12-month period ended November 30, 2004, Colonial High Income Municipal Trust generated a total return of 7.44%, based on its market price. Changes in the market price of the trust's shares reflect investor demand and are not necessarily linked directly to changes in the trust's net asset value. The trust returned 4.80%, based on investment at net asset value. The trust came out behind its peer group, the Lipper High Yield Municipal Debt Funds Category,

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

which averaged a 7.64% return.¹ The trust's return at net asset value also trailed a customized peer group consisting of nine leveraged closed-end high-yield municipal funds, which on average returned 6.81% over the period. High-yield municipals were top performers as investors searched for yield in a low interest rate environment.

We sold Treasury futures early in the period to help keep the trust's sensitivity to interest rate changes in line with its Lipper peer group. When yields on 10- and 30-year Treasuries fell--and prices rose--this strategy hurt the trust because the Treasury futures fell in value more than the increase in the value of the hedged municipal bonds. Most of this underperformance occurred early in the year. As the year progressed, the trust made up some of its first quarter underperformance.

Leverage increases the duration (sensitivity to interest rates) of the common shares because the trust borrows at a short term rate and invests in long term assets - the duration of those assets is borne by the common shares. Because many of the funds in the Lipper High Yield Municipal Debt Funds Category are not leveraged, we used futures contracts to reduce the duration of the trust to bring its overall sensitivity to interest rates more in line with the average of the Lipper Category. The customized peer group that only includes leveraged closed-end high yield funds has a longer average duration than the Lipper High Yield Municipal Debt Funds Category. Therefore, the trust will have a longer duration but will be less reliant on hedging to bring its duration in line with its peer group and thus will be less subject to volatility related to relative performance of the Treasury market versus the municipal market.

GAINS FROM HIGHER-YIELDING SECTORS

The trust benefited from its holdings in investor owned utilities, which did well as investor concerns finally eased following the Enron scandal. Nevada Power Co. (0.4% of total investments) was one of the trust's top performers, benefiting from a ruling that allowed it to increase the rates it charges customers.² Pooled multi-family housing and health care also continued to make a positive contribution to performance. In the continuing care retirement sector, bonds such as Kahala Nui Project (0.3% of total investments), a project in Hawaii, rallied nicely as new construction neared completion and residents prepared to move in. However, our

1 Lipper Inc., a widely respected data provider in the industry, calculates an average total return based on net asset value for mutual funds with similar investment objectives as those of the trust.

2 Holdings are disclosed as of November 30, 2004.

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

underperformed due to reduced cash flow from the project.

USING LEVERAGE TO ADD INCOME

The trust's leverage, which comes from its preferred shares, helped boost income. The trust issued preferred shares in 1999, which allow it to borrow against its underlying investments. We invest the proceeds from the preferred shares in longer maturity, higher-yielding bonds, and then pay out to preferred shareholders a short-term rate influenced by the federal funds rate--the overnight rate at which banks lend each other money. Although the fed funds rate rose from 1.00% to 2.00% during the period,³ the trust benefited because short-term interest rates were still relatively low. We were able to keep the trust's dividend yield stable even as short-term interest rates rose. However, this could change in 2005. In addition, the use of leverage increases the likelihood of share price volatility and market risk.

ENVIRONMENT CONTINUES TO FAVOR HIGH-YIELD BONDS

If the economy continues to grow at a reasonable rate and interest rates rise slightly, we believe that the environment for high-income municipal bonds will remain positive. Bonds with high coupons (or stated interest rates) tend to perform well even when interest rates rise because so much of their total return comes from income. In general, high coupon bonds tend to be less sensitive to interest rate changes. Also, high-yield bonds tend to perform well during periods of economic recovery. We plan to continue trimming AAA-rated bonds, while adding BBB-rated issues in an effort to boost income. Going forward, we also expect to continue to reduce the trust's reliance on Treasury futures.

/s/ Maureen G. Newman

Maureen G. Newman has been the portfolio manager of Colonial High Income Municipal Trust since August 1998. Ms. Newman has managed various other municipal funds for Columbia Management Advisors, Inc. or its predecessors or affiliate organizations since May 1996.

Performance data quoted represents past performance and current performance may be lower or higher. Past performance is no guarantee of future results.

The values of fixed-income securities generally move inversely with changes in interest rates such that when interest rates rise, bond values fall and vice versa. Tax-exempt investing offers current tax-free income, but it also involves certain risks. The value of the trust shares will be affected by interest rate changes and the creditworthiness of issues held in the trust. Investing in high-yield securities offers the potential for high current income and attractive total return, but involves certain risks. Lower-rated bond risks include default of the issuer and rising interest rates. Interest income from certain tax-exempt bonds may be subject to the federal alternative minimum tax for individuals and corporations. Please see Federal Income Tax Information.

NOTES TO FINANCIAL STATEMENTS

November 30, 2004

NOTE 1. ORGANIZATION

Colonial High Income Municipal Trust (the "Trust") is a Massachusetts business trust registered under the Investment Company Act of 1940 (the "Act"), as amended, as a diversified, closed-end management investment company.

INVESTMENT GOAL

The Trust seeks to provide high current income, generally exempt from federal income taxes. The Trust's secondary goal is to seek total return.

TRUST SHARES

The Trust may issue an unlimited number of common shares. On August 26, 1999, the Trust issued 4,800 Auction Preferred Shares ("APS").

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements.

SECURITY VALUATION

Debt securities generally are valued by pricing services approved by the Trust's Board of Trustees, based upon market transactions for normal, institutional-size trading units of similar securities. The services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Debt securities for which quotations are readily available are valued at an over-the-counter or exchange bid quotation. Certain debt securities, which tend to be more thinly traded and of lesser quality, are priced based on fundamental analysis of the financial condition of the issuer and the estimated value of any collateral. Valuations developed through pricing techniques may vary from the actual amounts realized upon sale of the securities, and the potential variation may be greater for those securities valued using fundamental analysis.

Short-term debt obligations maturing within 60 days are valued at amortized cost, which approximates market value.

Investments in other investment companies are valued at net asset value.

Futures contracts are valued at the settlement price established each day by the board of trade or exchange on which they are traded.

Investments for which market quotations are not readily available, or quotations which management believes are not appropriate, are valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board of Trustees.

SECURITY TRANSACTIONS

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

FUTURES CONTRACTS

The Trust may invest in municipal and U.S. Treasury futures contracts. The Trust will invest in these instruments to hedge against the effects of changes in the value of portfolio securities due to anticipated changes in interest rates and/or market conditions, for duration management, or when the transactions are economically appropriate to the reduction of risk inherent in the management of the Trust and not for trading purposes. The use of futures contracts involves certain risks, which include: (1) imperfect correlation between the price movement of the instruments and the underlying securities, (2) inability to close out positions due to differing trading hours, or the temporary absence of a liquid market, for either the instrument or the underlying securities, or (3) an inaccurate prediction by Columbia Management Advisors, Inc. of the future direction of interest rates. Any of these risks may involve amounts exceeding the variation margin recorded in the Trust's Statement of Assets and Liabilities at any given time.

Upon entering into a futures contract, the Trust deposits cash or securities with the broker in an amount sufficient to meet the initial margin requirement. Subsequent payments are made or received by the Trust equal to the daily change

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

in the contract value and are recorded as variation margin receivable or payable and offset in unrealized gains or losses. The Trust also identifies portfolio securities as segregated with the custodian in a separate account in an amount equal to the futures contract. The Trust recognizes a realized gain or loss when the contract is closed or expires.

19

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

November 30, 2004

RESTRICTED SECURITIES

Restricted securities are securities that may only be resold upon registration under federal securities laws or in transactions exempt from registration. In some cases, the issuer of restricted securities has agreed to register such securities for resale at the issuer's expense either upon demand by the Trust or in connection with another registered offering of the securities. Many restricted securities may be resold in the secondary market in transactions exempt from registration. Such restricted securities may be determined to be liquid under criteria established by the Board of Trustees. The Trust will not incur any registration costs upon such resale.

DELAYED DELIVERY SECURITIES

The Trust may trade securities on other than normal settlement terms, including securities purchased or sold on a "when-issued" basis. This may increase the risk if the other party to the transaction fails to deliver and causes the Trust to subsequently invest at less advantageous prices. The Trust identifies cash or liquid portfolio securities as segregated with the custodian in an amount equal to the delayed delivery commitment.

INCOME RECOGNITION

Interest income is recorded on the accrual basis. Premium and discount are amortized and accreted, respectively, on all debt securities. Corporate actions and dividend income are recorded on the ex-date.

FEDERAL INCOME TAX STATUS

The Trust intends to qualify each year as a "regulated investment company" under Subchapter M of the Internal Revenue Code, as amended, and will distribute substantially all of its tax exempt or taxable income, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, the Trust intends to distribute in each calendar year substantially all of its net investment income, capital gains and certain other amounts, if any, such that the Trust should not be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

DISTRIBUTIONS TO SHAREHOLDERS

Distributions to common shareholders are recorded on the ex-date. Distributions to Auction Preferred shareholders are recorded daily and payable at the end of

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

each dividend period. Each dividend payment period for the APS is generally seven days. The applicable dividend rate for the APS on November 30, 2004 was 1.57% for Series T and 1.61% for Series W. For the year ended November 30, 2004, the Trust declared dividends to Auction Preferred shareholders amounting to \$1,308,975, representing an average dividend rate of 1.09% per APS.

NOTE 3. FEDERAL TAX INFORMATION

The timing and character of income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. Reclassifications are made to the Trust's capital accounts for permanent tax differences to reflect income and gains available for distribution (or available capital loss carryforwards) under income tax regulations.

For the year ended November 30, 2004, permanent book and tax basis differences resulting primarily from differing treatments for expired capital loss carryforwards, discount accretion/premium amortization on debt securities and market discount reclassifications were identified and reclassified among the components of the Trust's net assets as follows:

UNDISTRIBUTED NET INVESTMENT INCOME	ACCUMULATED NET REALIZED LOSS	PAID-IN CAPITAL
\$(48,189)	\$2,863,576	\$(2,815,387)

Net investment income and net realized gains (losses), as disclosed on the Statement of Operations, and net assets were not affected by this reclassification.

The tax character of distributions paid during the years ended November 30, 2004 and November 30, 2003 was as follows:

	NOVEMBER 30, 2004	NOVEMBER 30, 2003
Distributions paid from:		
Tax-Exempt Income	\$16,226,738	\$16,377,912

Unrealized appreciation and depreciation at November 30, 2004, based on cost of investments for federal income tax purposes was:

Unrealized appreciation	\$ 18,694,489
Unrealized depreciation	(18,857,348)

Net unrealized depreciation	\$ (162,859)
	=====

The following capital loss carryforwards, determined as of November 30, 2004, may be available to reduce taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code:

YEAR OF EXPIRATION	CAPITAL LOSS CARRYFORWARD
-----	-----
2005	\$ 5,926,653
2007	3,941,668
2008	14,340,573

2010	12,980,738
2011	4,761,736
2012	4,055,363

	\$50,205,447

Capital loss carryforwards of \$2,815,387 expired during the year ended November 30, 2004 for the Trust.

Expired capital loss carryforwards are recorded as a reduction of paid-in capital.

NOTE 4. FEES AND COMPENSATION PAID TO AFFILIATES

Columbia Management Advisors, Inc. ("Columbia") is the investment advisor to the Trust. Prior to April 1, 2004, Columbia was an indirect, wholly owned subsidiary of FleetBoston Financial Corporation ("FleetBoston"). Effective April 1, 2004, FleetBoston, including the Trust's investment advisor, was acquired by Bank of America Corporation ("BOA"). The acquisition did not change the way the Trust is managed, the investment personnel assigned to manage the Trust or the fees paid by the Trust.

INVESTMENT ADVISORY FEE

Columbia provides administrative and other services to the Trust in addition to investment advisory services. Columbia receives a monthly investment advisory fee at the annual rate of 0.75% of the Trust's average weekly net assets, including assets applicable to the APS.

PRICING AND BOOKKEEPING FEES

Columbia is responsible for providing pricing and bookkeeping services to the Trust under a pricing and bookkeeping agreement. Under a separate agreement (the "Outsourcing Agreement"), Columbia has delegated those functions to State Street Corporation ("State Street"). As a result, Columbia pays the total fees received to State Street under the Outsourcing Agreement.

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

Under its pricing and bookkeeping agreement with the Trust, Columbia receives from the Trust an annual flat fee of \$10,000 paid monthly, and in any month that the Trust's average weekly net assets, including assets applicable to APS, exceed \$50 million, an additional monthly fee. The additional fee rate is calculated by taking into account the fees payable to State Street under the Outsourcing Agreement. This rate is applied to the average weekly net assets, including assets applicable to APS, of the Trust for that month. The Trust also pays additional fees for pricing services based on the number of securities held by the Trust. For the year ended November 30, 2004, the Trust's effective pricing and bookkeeping fee rate, inclusive of out-of-pocket expenses, was 0.050% of the Trust's average weekly net assets, including assets applicable to APS.

CUSTODY CREDITS

The Trust has an agreement with its custodian bank under which custody fees may be reduced by balance credits. These credits are recorded as a reduction of total expenses on the Statement of Operations. The Trust could have invested a portion of the assets utilized in connection with the expense offset arrangement in an income-producing asset if it had not entered into such an agreement.

FEEES PAID TO OFFICERS AND TRUSTEES

With the exception of one officer, all officers of the Trust are employees of Columbia or its affiliates and receive no compensation from the Trust. Effective August 23, 2004, the Board of Trustees appointed a Chief Compliance Officer to the Trust in accordance with federal securities regulations. The Trust, along with other affiliated trusts, will pay its pro-rata share of the expenses associated with the Office of the Chief Compliance Officer. The Trust's fee will not exceed \$15,000 per year.

21

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

November 30, 2004

The Trust's Trustees may participate in a deferred compensation plan which may be terminated at any time. Obligations of the plan will be paid solely out of the Trust's assets.

OTHER

Columbia provides certain services to the Trust related to Sarbanes-Oxley compliance. For the year ended November 30, 2004, the Trust paid \$1,603 to Columbia for such services. This amount is included in "Other expenses" on the Statement of Operations.

NOTE 5. PORTFOLIO INFORMATION

For the year ended November 30, 2004, the cost of purchases and proceeds from sales of securities, excluding short-term obligations, were \$41,390,938 and \$48,634,859, respectively.

NOTE 6. PREFERRED SHARES

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

The Trust currently has outstanding 4,800 APS (2,400 shares each of Series T and W). The APS are redeemable at the option of the Trust on any dividend payment date at the redemption price of \$25,000 per share, plus an amount equal to any dividends accumulated on a daily basis unpaid through the redemption date (whether or not such dividends have been declared).

Under the Act, the Trust is required to maintain asset coverage of at least 200% with respect to the APS as of the last business day of each month in which any APS are outstanding. Additionally, the Trust is required to meet more stringent asset coverage requirements in accordance with the guidelines prescribed by the APS' rating agencies. Should these requirements not be met, or should dividends accrued on the APS not be paid, the Trust may be restricted in its ability to declare dividends to common shareholders or may be required to redeem certain APS. At November 30, 2004, there were no such restrictions on the Trust.

NOTE 7. DISCLOSURE OF SIGNIFICANT RISKS AND CONTINGENCIES

CONCENTRATION OF CREDIT RISK

The Trust holds investments that are insured by private insurers who guarantee the payment of principal and interest in the event of default or that are supported by a letter of credit. Each of the Trust's insurers is rated AAA by Moody's Investor Services Inc., except for Radian Asset Assurance, Inc., which is rated AA by Standard and Poor's. At November 30, 2004, investments supported by private insurers that represent greater than 5% of the total investments of the Trust were as follows:

INSURER	% OF TOTAL INVESTMENTS
Ambac Assurance Corp.	8.5%
MBIA Insurance Corp.	5.1
Financial Security Assurance, Inc.	5.0

GEOGRAPHIC CONCENTRATION

The Trust has greater than 5% of its total investments at November 30, 2004 invested in debt obligations issued by the states of California, Colorado, Florida, Illinois and Texas and their respective political subdivisions, agencies and public authorities. The Trust is more susceptible to economic and political factors adversely affecting issuers of these states municipal securities than are municipal bond funds that are not concentrated to the same extent in these issuers.

HIGH-YIELD SECURITIES

Investing in high-yield securities may involve greater credit risk and considerations not typically associated with investing in U.S. government bonds and other higher quality fixed income securities. These securities are non-investment grade securities, often referred to as "junk bonds." Economic downturns and industry events may disrupt the high yield market and impair the ability of issuers to repay principal and interest. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high-yield securities may be less liquid to the extent there is no established secondary market.

INDUSTRY FOCUS

The Trust may focus its investments in certain industries, subjecting it to greater risk than a trust that is more diversified.

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

LEGAL PROCEEDINGS

Columbia, Columbia Funds Distributor, Inc. ("CFDI"), and certain of their affiliates (collectively, "the Columbia Group") have received information requests and subpoenas from various regulatory and law enforcement authorities in connection with their investigations of late trading and market timing in mutual funds as well as other industry wide issues. The Columbia Group has not uncovered any instances where Columbia or CFDI were knowingly involved in late trading of mutual fund shares.

22

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

November 30, 2004

On February 24, 2004, the Securities and Exchange Commission ("SEC") filed a civil complaint in the United States District Court for the District of Massachusetts against Columbia and CFDI, alleging that they had violated certain provisions of the federal securities laws in connection with trading activity in mutual fund shares. Also on February 24, 2004, the New York Attorney General ("NYAG") filed a civil complaint in New York Supreme Court, County of New York against Columbia and CFDI alleging that Columbia and CFDI had violated certain New York anti-fraud statutes. If either Columbia or CFDI is unsuccessful in its defense of these proceedings, it could be barred from serving as an investment advisor or distributor for any investment company registered under the Investment Company Act of 1940, as amended (a "registered investment company"). Such results could prevent Columbia, CFDI or any company that is an affiliated person of Columbia and CFDI from serving as an investment advisor or distributor for any registered investment company, including your fund. Your fund has been informed by Columbia and CFDI that, if these results occur, they will seek exemptive relief from the SEC to permit them to continue to serve as your fund's investment advisor and distributor. There is no assurance that such exemptive relief will be granted. On March 15, 2004, Columbia and CFDI entered into agreements in principle with the SEC Division of Enforcement and NYAG in settlement of the charges. Under the agreements, Columbia and CFDI agreed, among other things, to the following conditions: payment of \$70 million in disgorgement; payment of \$70 million in civil penalties; an order requiring Columbia and CFDI to cease and desist from violations of the antifraud provisions and other provisions of the federal securities laws; governance changes designed to maintain the independence of the mutual fund boards of trustees and ensure compliance with securities laws and their fiduciary duties; and retention of an independent consultant to review Columbia's and CFDI's compliance policies and procedures. The agreement requires the final approval of the SEC. In a separate agreement with the NYAG, the Columbia Group and its affiliate Banc of America Capital Management, LLC have agreed to collectively reduce mutual fund fees by \$160 million over a five-year period.

In connection with the events described in detail above, various parties have filed suit against certain funds, their Boards and/or FleetBoston (and affiliated entities). More than 300 cases (including those filed against entities unaffiliated with the funds, their Boards and/or FleetBoston and its affiliated entities) have been consolidated in a multi-district proceeding and transferred to the Federal District Court in Maryland. Recently, certain Columbia funds and affiliated entities have been named as defendants in several derivative actions under various sections of the Investment Company Act of 1940,

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-CSR

as amended, alleging, among other things, that the fees and expenses paid by those funds are excessive. The funds and the other defendants to these actions, including Columbia and various of its affiliates, certain other mutual funds advised by Columbia and its affiliates, and various directors of such funds, have denied these allegations and are contesting the plaintiffs' claims. These suits and certain regulatory investigations are ongoing, however, based on currently available information, Columbia believes that these lawsuits are without merit, that the likelihood they will have a material adverse impact on any fund is remote, and that the lawsuits are not likely to materially affect its ability to provide investment management services to its clients, including the funds.

- (a) The Trust changed its fiscal year end from December 31 to November 30.
- (b) Per share data was calculated using average shares outstanding during the period.
- (c) Effective December 1, 2001, the Trust adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began accreting market discount on all debt securities. The effect of this change, for the year ended November 30, 2002, was to increase the ratio of net investment income to average net assets from 8.31% to 8.36% and increase the ratio of net investment income (adjusted for dividend payments to preferred shareholders) from 7.48% to 7.53%. The impact to net investment income and net realized and unrealized loss per share was less than \$0.01. Per share data and ratios for periods prior to November 30, 2002, have not been restated to reflect this change in presentation.
- (d) The per share net investment income amount does not reflect the period's reclassification of differences between book and tax basis net investment income.
- (e) Total return at market value assuming all distributions reinvested at prices calculated in accordance with the Dividend Reinvestment Plan.
- (f) Not annualized.
- (g) The benefits derived from custody credits and directed brokerage arrangements, if applicable, had an impact of less than 0.01%.
- (h) Ratios reflect average net assets available to common shares only.
- (i) Annualized.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE TRUSTEES AND THE SHAREHOLDERS OF COLONIAL HIGH INCOME MUNICIPAL TRUST

In our opinion, the accompanying statement of assets and liabilities, including the investment portfolio, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Colonial High Income Municipal Trust (the "Trust") at November 30, 2004, and the results of its operations, the changes in its net assets and its financial highlights for the periods indicated, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Trust's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States), which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management.
