Forward-Looking Statements

Statements in this Current Report on Form 8-K concerning the Company's future expectations, plans and prospects, including without limitation, statements regarding the Company's expected cash position at the end of 2012, constitute forward-looking statements for the purposes of the safe harbor provisions under The Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those indicated by these forward-looking statements as a result of various important factors, including risks related to: the Company's ability to manage operating expenses; the Company's ability to discover and develop novel drug candidates and delivery approaches and successfully demonstrate the efficacy and safety of its drug candidates; the pre-clinical and clinical results for its product candidates, which may not support further development of such product candidates; actions of regulatory agencies, which may affect the initiation, timing and progress of clinical trials; obtaining, maintaining and protecting intellectual property; the Company's ability to enforce its patents against infringers and defend its patent portfolio against challenges from third parties; obtaining regulatory approval for products; competition from others using technology similar to the Company's and others developing products for similar uses; the Company's ability to obtain additional funding to support its business activities and establish and maintain strategic business alliances and new business initiatives; the Company's dependence on third parties for development, manufacture, marketing, sales and distribution of products; the outcome of litigation; and unexpected expenditures; as well as those risks more fully discussed in the Risk Factors section of its most recent Annual Report on Form 10-K on file with the Securities and Exchange Commission.
