Management s Discussion of Funds Performance

(unaudited)

Market Environment Overview

The U.S. equity market, as measured by the S&P 500 Index, returned 8.54% for the 12-month period ended March 31, 2012 (the period). After bottoming in March of 2009, the S&P 500 recorded its third straight year of gains. Measured from March 31, 2009 through March 31, 2012, the three year cumulative total return on the S&P 500 Index was 87.99%. This represents a substantial recovery in the equity market as earnings and dividend levels reached and surpassed previous records.

While the overall return for the period was positive, it was marked by several bouts of volatility. Investors had to deal with events domestically and abroad that impacted the U.S. market: as the S&P 500 Index fell for the first six months of the period and turned around significantly in the second half of the period.

Much of the volatility experienced in the market revolved around concerns over a debt crisis in the developed world. At home in the United States, politicians squabbled over raising the U.S. debt ceiling in the summer of 2011. After the market close on Friday, August 5, 2011, Standard & Poor s downgraded the U.S. government from its AAA rating the highest credit quality rating one can achieve due to escalating debt levels, large deficits, and the lack of a coherent plan from U.S. politicians attacking these fiscal issues. The following Monday, the S&P 500 closed down 6.65% and many market participants shifted assets away from equities and risky assets to perceived safe havens. Paradoxically, there was a flight to the very bonds that were downgraded as many believed the problems in other parts of the world, such as Europe, were worse than those in the United States.

WisdomTree Funds Performance Overview

By the end of September 2011, investors had experienced market uncertainty due to the European debt crisis intensifying. This resulted in the worst quarterly performance for the S&P 500 since 2008 (down 13.87%). To support the economy and credit markets, on September 21, 2011, the Federal Reserve announced Operation Twist, which attempted to push down long-term interest rates by shifting the balance of the Treasury s securities holdings towards longer-term securities and selling shorter-term investments. These Federal Reserve actions, known as a form of quantitative easing, or QE , helped support an environment in which many investors were willing to take on more risk. From September 22, 2011, the market rose more than 26% until the end of March 2012, erasing the negative effects of the previous volatility and leaving the U.S. market, as measured by the S&P 500 Index, up 8.54% for the period.

The following table reflects the WisdomTree Funds performance versus their capitalization-weighted benchmark indexes:

		1-Year NAV		1-Year	
Ticker	WisdomTree Fund	Return	Cap-Weighted Benchmark	Return	Difference
DTD	WisdomTree Total Dividend Fund	11.81%	Russell 3000 [®] Index	7.18%	4.63%
DHS	WisdomTree Equity Income Fund	14.66%	Russell 1000 [®] Value Index	4.79%	9.87%
DLN	WisdomTree LargeCap Dividend Fund	12.82%	S&P 500 [®] Index	8.54%	4.28%
DTN	WisdomTree Dividend ex-Financials Fund	12.99%	Dow Jones U.S. Select Dividend Index SM	11.75%	1.24%
DON	WisdomTree MidCap Dividend Fund	6.99%	S&P MidCap 400 [®] Index	1.98%	5.01%
DES	WisdomTree SmallCap Dividend Fund	4.50%	Russell 2000 [®] Index	-0.18%	4.68%

With all the volatility in the markets during the period, it may not be a surprise that equities considered to be more defensive in nature, such as large cap stocks, or dividend paying stocks fared better than mid cap and small cap stocks and more growth oriented strategies. While the S&P 500 Index was up 8.54%, the Russell 2000 Index, an index of small cap U.S. equities, experienced a decline of -0.18%.

WisdomTree s dividend weighted Funds are designed to track indexes based on the dividend stream generated by the companies included in the underlying WisdomTree

Management s Discussion of Funds Performance

(unaudited) (concluded)

Index. The dividend stream is defined as the sum of the dollar value of dividends indicated to be paid by each company. There are two primary factors that drive performance differentials of the WisdomTree Funds and Indexes versus market cap-weighted benchmarks. The first is aggregate exposure to one or more sectors. The second is stock selection within each sector. Both of these are determined as part of WisdomTree s rules-based index methodology. These exposures are not subjectively determined. Rather, they are objectively determined at the Index rebalancing dates based on the dividend stream.

Five of the ten sectors represented within the S&P 500 Index experienced positive performance over the period. The best performing sector over the period was the Information Technology sector. This was spurred by a lively initial public offering market and by earnings strength from some of its biggest components, such as Apple, Google, and IBM. Also, the more defensive sectors outpaced the market, such as Health Care, Consumer Staples, and Utilities. The Energy sector was the worst performing sector for the period, followed by Materials, as the commodities markets experienced a selloff over the period. Financials also lagged the broader market as questions arose about exposures to the European sovereign debt crisis.

The WisdomTree LargeCap Dividend Fund delivered a return of 12.82%, which was more than 4 percentage points ahead of the S&P 500 Index. This Fund, representative of the broader dividend approach, benefited from its focus on dividend paying stocks in the Utilities, Health Care, and Consumer Staples sectors. It also benefited from being underweight financial stocks, many of which had cut their dividends during the crisis and were therefore underweight in the Fund.

The performance of each WisdomTree Fund compared to its cap-weighted benchmarks was favorable for each Fund in the domestic dividend family over the period. This can be partially explained because the Consumer Staples sector experienced strong gains throughout the period. During the period, this sector was more heavily represented in WisdomTree Funds than in their corresponding cap-weighted benchmarks due to this sector s relatively higher contributions to the dividend stream.

While the WisdomTree Domestic Dividend Funds outperformed their cap-weighted benchmarks for the period, there was a notable sector exposure that created relative drag on performance. The Information Technology sector experienced strong gains during the period. This sector has historically had relatively low dividend payers, which meant that cap-weighted benchmarks were relatively overweight this sector compared to the WisdomTree Dividend Funds during the period.

The WisdomTree Equity Income Fund outperformed its cap-weighted benchmark significantly over the period primarily because it was relatively overweight the Consumer Staples sector, which experienced positive gains over the period as a defensive sector. Additionally, the Fund was significantly underweight Financials, which lagged the broader market for the period.

Fund returns are shown at NAV. Please see Performance Summaries on the subsequent pages for more complete performance information. Please see page 9 for the list of index descriptions.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Funds performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. For the most recent month end performance information visit www.wisdomtree.com.

* The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company.

The WisdomTree Total Dividend Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Dividend Index.

The Fund returned 11.81% at net asset value (NAV) for the fiscal year ended March 31, 2012 (for more complete performance information please see the chart below). The Fund s performance benefited most from its position in the Consumer Staples sector. The Fund s position in the Energy sector created the greatest drag on performance.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV

return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. As of the Fund s current prospectus dated July 29, 2011, the Fund s annual expense ratio was 0.28%.

Three Year	31.77%	31.70%	32.51%	28.55%	29.18%		
Five Year	2.70%	2.72%	2.58%	4.78%	1.26%		
Since Inception ¹	5.25%	5.35%	5.12%	6.77%	4.41%		

¹ Total returns are calculated based on the commencement of Fund trading on the NYSE Arca, Inc. on June 16, 2006.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor s shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares.

TAL International Group, Inc.	0.7%
Lexington Realty Trust	0.7%

* The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company.

The WisdomTree SmallCap Dividend Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree SmallCap Dividend Index.

The Fund returned 4.50% at net asset value (NAV) for the fiscal year ended March 31, 2012 (for more complete performance information please see the chart below). The Fund s performance benefited most from its position in the Financials sector. The Fund s position in the Energy sector created the greatest drag on performance.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV

return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. As of the Fund s current prospectus dated July 29, 2011, the Fund s annual expense ratio was 0.38%.

Performance as of 3/31/12

¹ Total returns are calculated based on the commencement of Fund trading on the NYSE Arca, Inc. on June 16, 2006.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor s shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares.

Description of Indexes (unaudited)

Below are descriptions of each Index referenced in this Report:

The WisdomTree Dividend Index defines the dividend-paying portion of the U.S. stock market.

The **WisdomTree LargeCap Dividend Index** measures the performance of the large-capitalization segment of the U.S. dividend-paying market, selected from the WisdomTree Dividend Index.

The **WisdomTree MidCap Dividend Index** measures the performance of the mid-capitalization segment of the U.S. dividend-paying market, selected from the WisdomTree Dividend Index.

The **WisdomTree SmallCap Dividend Index** measures the performance of the small-capitalization segment of the U.S. dividend-paying market, selected from the WisdomTree Dividend Index.

The **WisdomTree Equity Income Index** measures the performance of companies with high dividend yields, selected from the WisdomTree Dividend Index.

The WisdomTree Dividend ex-Financials Index measures the performance of high dividend-yielding stocks outside the financial sector.

The **WisdomTree Dividend Top 100 Index** measures the performance of the 100 highest dividend-yielding companies in the WisdomTree LargeCap Dividend Index.

The S&P 500[®] Index is a capitalization-weighted index of 500 stocks selected by Standard & Poor s Index Committee, designed to represent the performance of the leading industries in the United States economy.

The **S&P MidCap 400[®] Index** is a capitalization-weighted index that measures the performance of the mid-capitalization range of the U.S. stock market, with stocks selected by the Standard & Poor s Index Committee.

The **Russell 2000[®] Index** is a capitalization-weighted index that measures the performance of the smallest 2,000 securities in the Russell 3000 Index, based on total market capitalization.

The **Russell 3000[®] Index** is a capitalization-weighted index that measures the performance of the 3,000 largest U.S. companies, based on total market capitalization.

The **Russell 1000[®] Value Index** is a capitalization-weighted index that measures the performance of the large-capitalization value segment of the U.S. equity universe, selecting from the Russell 1000 Index.

The **Russell 2000[®] Value Index** is a capitalization weighted index that measures the small-capitalization value segment of the U.S. equity universe, selecting from the Russell 2000 Index.

The **Russell 3000[®] Value Index** is a capitalization weighted index that measures the performance of the value sector of the broad U.S. equity market. The index is a subset of the Russell 3000 Index and consists of those companies or portion of a company, with lower price-to-book ratios and lower forecasted growth within the Russell 3000 Index.

The **Russell MidCap Value[®] Index** is a capitalization weighted index that measures the mid-capitalization value segment of the U.S. equity universe, selecting from the Russell Midcap Index.

The Dow Jones U.S. Select Dividend IndexSM measures the performance of 100 U.S. dividend-paying companies.

Index performance information assumes the reinvestment of net dividends and excludes management fees, transaction costs and expenses. You cannot directly invest in an index.

Table of Contents

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2011 to March 31, 2012.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by 1,000 (for example, an 8,600 account value divided by 1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled Expenses Paid During the Period 10/01/11 to 3/31/12 to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Shareholder Expense Examples (unaudited) (concluded)

	Acc	eginning ount Value 10/01/11	Acc	Ending count Value 3/31/12	Annualized Expense Ratio Based on the Period 10/01/11 to 3/31/12	D P 10,	nses Paid uring the eriod /01/11 to 31/12

Portfolio turnover rate ⁴	22%	8%	25%	45%	19%

¹ Based on average shares outstanding.

- ² Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. The total return would have been lower if certain expenses had not been reimbursed/waived by the investment adviser (Notes 2 and 3).
- ³ The ratios to average net assets do not include net investment income (loss) or expenses of affiliated funds in which the Fund invests.
- ⁴ Portfolio turnover rate is not annualized and excludes the value of portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund s capital shares.

See Notes to Financial Statements.

Notes to Financial Statements

March 31, 2012

1. ORGANIZATION

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of March 31, 2012, the Trust offered 48 investment funds (each a Fund , and collectively, the Funds). These notes relate only to funds listed in the table below:

	Commencement
Fund Name	of Operations
WisdomTree Total Dividend Fund (Total Dividend Fund)	June 16, 2006
WisdomTree Equity Income Fund (Equity Income Fund)	June 16, 2006
WisdomTree LargeCap Dividend Fund (LargeCap Dividend Fund)	June 16, 2006
WisdomTree Dividend ex-Financials Fund (Dividend ex-Financials Fund)	June 16, 2006
WisdomTree MidCap Dividend Fund (MidCap Dividend Fund)	June 16, 2006
WisdomTree SmallCap Dividend Fund (SmallCap Dividend Fund)	June 16, 2006

Each Fund seeks to track the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (WisdomTree Investments). WisdomTree Investments is the parent company of WisdomTree Asset Management, Inc. (WTAM), the investment adviser to each Fund and the Trust. WisdomTree is a registered mark of WisdomTree Investments and has been licensed for use by the Trust. Each Fund described herein is considered to be non-diversified.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification) is the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants.

The following is a summary of significant accounting policies followed by the Funds:

Guarantees In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote. Therefore, no liabilities have been recorded in connection with these indemnifications.

Use of Estimates The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The net asset value (NAV) of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Transactions in Fund shares will be priced at NAV only if you purchase or redeem shares directly from a Fund in creation units, which are typically in blocks of 50,000 shares or more. Fund shares are purchased or sold on a national securities exchange at market prices, which may be higher or lower than NAV. In calculating each Fund's NAV, investments are valued under policies approved by the Board of Trustees.

Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Events occurring after the close of trading on non-U.S. exchanges may result in adjustments to the

valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Fund may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates fair value.

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund s investments will be valued in accordance with the Fund s pricing policy and procedures. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations,

Notes to Financial Statements (continued)

securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund s next NAV calculation time that may materially affect the value of a Fund s investment (*e.g.*, government action, natural disaster, or significant market fluctuation). Price movements in U.S. markets that are deemed to affect the value of foreign securities, or reflect changes to the value of such securities, also may cause securities to be fair valued. When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities. Each Fund may invest in money market funds which are valued at their NAV per share and affiliated ETFs which are valued at their last sale or official closing price on the exchange on which they are principally traded.

Fair Value Measurement In accordance with Codification Topic 820 (ASC 820), Fair Value Measurements and Disclosures, fair value is defined as the price that each Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity s own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund s assumptions in determining the fair value of investments)

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund s NAV is computed and that may materially affect the value of the Fund s investments).

In January 2010, FASB issued Accounting Standards Update No. 2010-06 Improving Disclosures about Fair Value Measurements (ASU 2010-06). ASU 2010-06 requires reporting entities to make new disclosures about amounts and reasons for significant

transfers between Level 1 and Level 2 fair value measurements, as well as inputs and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3. ASU 2010-06 also requires information on purchases and sales, issuances and settlements on a gross basis in the reconciliation of activity in Level 3 fair value measurements. The new and revised disclosures have been implemented for fiscal periods beginning after December 15, 2009 other than the disclosures surrounding the presentation of purchases, sales, issuances and settlements on a gross basis in the reconciliation of Level 3 fair value measurements which have been implemented for fiscal periods beginning after December 15, 2010.

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

The valuation techniques and significant inputs used in determining the fair market value measurements for Level 2 or Level 3 positions are as follows:

Financial instruments are valued by pricing service providers that use broker dealer quotations, reported trades or valuation estimates from their internal pricing models. Depending on the type of financial instrument, the service providers internal models use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Securities

that use similar valuation techniques and inputs as described above are categorized as Level 2 of the fair value hierarchy. Short-term investments having a maturity of 60 days or less are generally valued at amortized cost which approximates fair market value. These investments are categorized as Level 2 of the fair value hierarchy. Over-the-counter financial derivative instruments, such as forward foreign currency contracts derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These contracts are normally valued on the basis of broker dealer quotations or pricing service providers. Depending on the product and the terms of the transaction, the value of the financial derivative contracts can be estimated by a pricing service provider using a series of techniques, including simulation pricing models.

Notes to Financial Statements (continued)

The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, spreads, interest rates, curves, dividends and exchange rates. Financial derivatives that use similar valuation techniques and inputs as described above are categorized as Level 2 of the fair value hierarchy.

In the event that a financial instrument cannot be valued based upon a price from a national securities exchange, pricing service provider or broker quotation, or such prices are deemed to not reflect current market value, WTAM may value the financial instrument in good faith under the policies and procedures approved by the Board of Trustees based on current facts and circumstances. Determination of this value may include significant unobservable inputs and therefore would be reflected as a Level 3 of the fair value hierarchy.

There were no Level 3 securities during or for the year ended March 31, 2012.

No significant transfers between Level 1 or Level 2 fair value measurements occurred during the fiscal year ended March 31, 2012.

The following is a summary of the inputs used as of March 31, 2012 in valuing each Fund s assets carried at fair value:

Total Dividend Fund	Level 1	Level 2	Level 3
Investments in Securities			
Common Stocks*	\$ 242,972,688	\$	\$

Total	\$ 313,317,449	\$ 25,788,985	\$

* Please refer to Schedule of Investments for a breakdown of the valuation by industry.

Derivatives and Hedging Disclosure Codification Topic 815 (ASC 815), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The Funds did not invest in derivative instruments for the fiscal year ended March 31, 2012.

Investment Transactions and Investment Income Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method. Dividend income is recognized on the ex-dividend date. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

Expenses/Reimbursements WTAM has agreed to pay all expenses of the Funds, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust schief compliance officer (CCO); (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Pursuant to a separate contractual arrangement, WTAM has arranged for the provision of CCO services to the Funds and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a service fee paid by each Fund of up to 0.0044% of each Fund s average daily net assets. Trustees fees, which are included in Service Fees on the Statements of Operations, of \$63,197 have been paid on behalf of the Funds of the Trust to the Independent Trustees for the fiscal year ended March 31, 2012.

Securities Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds securities lending agent. It is the Funds policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral in the form of cash and/or high grade debt obligations, equivalent to at least 100% of the market value of securities, is maintained at all times. The collateral can be invested in certain money market mutual funds which also have exposure to the fluctuations of the market. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receive a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund s securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments include short-term obligations issued by the U.S. Government, its agencies, non-U.S. Government agencies, negotiable certificates of deposit (CDs), fixed time deposits and bankers acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker s acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. There can be no guarantee that a Fund will pay dividends. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make

Notes to Financial Statements (continued)

supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital to the extent of a shareholder s tax basis and thereafter as a capital gain.

3. ADVISORY FEES AND TRANSACTIONS

WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM has arranged for Mellon Capital Management (MCM) to provide sub-advisory services to the Funds. MCM is compensated by WTAM at no additional cost to the Funds. WTAM also arranges for transfer agency, custody, fund administration, and all other non-distribution related services necessary for the Funds to operate. Under the Investment Advisory Agreement for each Fund, and as also described in Note 2, WTAM agrees to pay all expenses of the Funds, except compensation and expenses of the Independent Trustees, counsel to the Independent Trustees and the Trust s CCO, interest expenses and taxes, brokerage expenses, and other expenses connected with the execution of portfolio transactions, any distribution fees or expenses, legal fees or expenses and extraordinary expenses.

Pursuant to a separate contractual arrangement, also described in Note 2, WTAM arranges for the provision of CCO services with respect to each Fund and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044% of each Fund s average daily net assets. WTAM expects to receive fees from each Fund, based on a percentage of the Fund s average daily net assets, as shown in the following table.

Fund	Advisory Fee Rate
Total Dividend Fund	0.28%
Equity Income Fund	0.38%
LargeCap Dividend Fund	0.28%
Dividend ex-Financials Fund	0.38%
MidCap Dividend Fund	0.38%
SmallCap Dividend Fund	0.38%

Each Fund may purchase shares of affiliated exchange traded funds in secondary market transactions. For the fiscal year ended March 31, 2012, WTAM waived a portion of its advisory fees based on each Fund s investments in affiliated Funds. The table below indicates the waiver amounts. Please see Note 7 for additional information on Other Affiliated Parties and Transactions.

Fund	Advisory Fees Waived
Total Dividend Fund	\$ 1,466
Equity Income Fund	4,704
LargeCap Dividend Fund	6,009
Dividend ex-Financials Fund	12,198
MidCap Dividend Fund	8,496
SmallCap Dividend Fund	6,978
4. CAPITAL SHARE TRANSACTIONS	

As of March 31, 2012, there were an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund s underlying Index and an amount of cash.

Investors purchasing and redeeming Creation Units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

Notes to Financial Statements (continued)

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments (excluding in-kind capital share transactions and short-term investments) for the fiscal year ended March 31, 2012 were as follows:

Fund	00,000,000,000 Purchases	00,000,000,000 Sales
Total Dividend Fund	\$ 27,845,429	\$ 27,797,799
Equity Income Fund	64,510,359	64,066,814
LargeCap Dividend Fund	124,146,503	123,465,851
Dividend ex-Financials Fund	273,711,598	271,896,705
MidCap Dividend Fund	82,130,027	83,779,109
SmallCap Dividend Fund	77,894,845	77,379,300

For the fiscal year ended March 31, 2012, the cost of purchases and the proceeds from sales resulting from in-kind capital share transactions were as follows:

	00,000,000,000	00,000,000,000
Fund	Purchases	Sales
Total Dividend Fund	\$ 55,475,928	\$ 2,626,818
Equity Income Fund	262,525,579	50,389,685
LargeCap Dividend Fund	696,091,371	203,049,321
Dividend ex-Financials Fund	1,027,379,404	204,542,987
MidCap Dividend Fund	141,738,583	65,464,979
SmallCap Dividend Fund	62,011,780	2,267,829

Gains and losses on in-kind redemptions are not recognized by the Funds for tax purposes.

6. FEDERAL INCOME TAXES

At March 31, 2012, the cost of investments (including securities on loan) for Federal income tax purposes was as follows:

Fund	Tax Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation
Total Dividend Fund	\$ 208,017,458	\$ 43,154,383	\$ (3,308,962)	\$ 39,845,421
Equity Income Fund	407,419,427	37,099,005	(4,407,287)	32,691,718
LargeCap Dividend Fund	1,095,652,333	126,097,162	(9,998,770)	116,098,392
Dividend ex-Financials Fund	1,227,811,554	122,049,439	(17,479,332)	104,570,107
MidCap Dividend Fund	343,732,085	37,892,965	(8,044,421)	29,848,544
SmallCap Dividend Fund	312,358,979	38,846,442	(12,098,987)	26,747,455

At March 31, 2012, the components of accumulated earnings/(loss) on a tax-basis were as follows:

		Undistributed		
	Undistributed	Capital and Other	Net Unrealized	Total Accumulated
Fund	Ordinary Income	Losses	Appreciation	Earnings/(Losses)
Total Dividend Fund	\$ 156,833	\$ (27,117,636)	\$ 39,845,421	\$ 12,884,618
Equity Income Fund	373,665	(66,157,744)	32,691,718	(33,092,361)
LargeCap Dividend Fund	683,066	(85,314,348)	116,098,392	31,467,110

Dividend ex-Financials Fund	1,487,436	(82,444,026)	104,570,107	23,613,517
MidCap Dividend Fund	423,490	(32,349,903)	29,848,544	(2,077,869)
SmallCap Dividend Fund	319,163	(49,882,673)	26,747,455	(22,816,055)

Notes to Financial Statements (continued)

The tax character of distributions paid during the fiscal years ended March 31, 2012 and March 31, 2011, was as follows:

	Year Ended March 31, 2012 Distributions Paid from Ordinary	Year Ended March 31, 2011 Distributions Paid from Ordinary
Fund Total Dividend Fund	Income* \$ 5,704,497	Income* \$ 4,438,769
Equity Income Fund	11,082,460	6,474,781
LargeCap Dividend Fund	25,273,380	14,235,763
Dividend ex-Financials Fund	27,628,769	10,527,617
MidCap Dividend Fund	7,571,610	5,778,694
SmallCap Dividend Fund	9,064,912	7,366,770

* Includes short-term capital gains.

At March 31, 2012, for Federal income tax purposes, the Funds have capital loss carryforwards available to offset future capital gains through the years indicated. To the extent that these loss carryforwards are utilized, capital gains so offset will not be distributed to shareholders.

	Capital Loss Available	Capital Loss Available	Capital Loss Available	Capital Loss Available	- · · ·	Short-Term Long-Term ost-EffectivePost-Effective	Capital Loss Available
Fund	Through 2015	Through 2016	Through 2017	Through 2018	Through 2019No	→ Expiration* Expiration*	Total

* Under the recently enacted Regulated Investment Company Modernization Act of 2010, a Fund is permitted to carry forward any new capital losses for an unlimited period. Additionally, such capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law. The character of these losses is noted above.

Capital losses incurred after October 31 (post-October capital losses) and within the taxable year are deemed to arise on the first business day of each Fund s next taxable year.

During the year ended March 31, 2012, the following Funds incurred and will elect to defer post-October capital losses as follows:

	Short-Term	Long-Term
Fund	Post-October Capital Losses	Post-October Capital Losses
Total Dividend Fund	\$	\$ 554,164
Equity Income Fund		
LargeCap Dividend Fund	1,197,914	1,881,209
Dividend ex-Financials Fund	1,680,534	645,937
MidCap Dividend Fund	1,140,526	2,133,891
SmallCap Dividend Fund		

During the fiscal year ended March 31, 2012, the following Funds utilized capital loss carryforwards of the noted amounts to offset realized gains.

	Utilized
	Capital Loss
Fund	Carryforwards
Total Dividend Fund	\$ 381,097
Equity Income Fund	2,652,692
LargeCap Dividend Fund	
Dividend ex-Financials Fund	429,754
MidCap Dividend Fund	1,041,551
SmallCap Dividend Fund	404,213

Notes to Financial Statements (continued)

At March 31, 2012, the effect of permanent book/tax reclassifications resulted in increases (decreases) to the components of net assets as follows:

Fund	Undistributed Net Investment Income/(Loss)	Accumulated Net Realized Loss	Paid-in Capital
Total Dividend Fund	\$ 2,034	\$ (862,885)	\$ 860,851
Equity Income Fund	(613)	(4,855,520)	4,856,133
LargeCap Dividend Fund	(44,161)	(39,949,244)	39,993,405
Dividend ex-Financials Fund	(159,144)	(24,975,755)	25,134,899
MidCap Dividend Fund	41,074	(12,854,408)	12,813,334
SmallCap Dividend Fund	(287,947)	(134,928)	422,875

These differences are primarily due to redemptions-in-kind, the tax treatment of income earned from investments in partnerships, non-deductible expenses, and non-dividend distributions from underlying investments.

GAAP provides guidance on tax provisions that prescribe a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund s understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the fiscal year ended March 31, 2012, the Funds did not have any liabilities for unrecognized tax benefits. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Funds file tax returns with the Internal Revenue Service, the State of New York, and various other states. Generally, each of the tax years in the four-year period ended March 31, 2012, remains subject to examination by taxing authorities.

7. OTHER AFFILIATED PARTIES AND TRANSACTIONS

Affiliated holdings are funds which are managed by the Trust or an affiliate of the Trust. Transactions with affiliated companies during the fiscal year ended March 31, 2012 are as follows:

Affiliated Fund Name	Value at 3/31/2011	Purchases/ Additions	Sales/ Reductions	Value at 3/31/2012	Dividend Income
Total Dividend Fund					
WisdomTree Earnings 500 Fund	\$ 273,651	\$ 139,918	\$ 414,065	\$	\$

Notes to Financial Statements (continued)

8. NEW ACCOUNTING PRONOUNCEMENTS

In April 2011, the FASB issued Accounting Standards Update (ASU) 2011-03 Reconsideration of Effective Control for Repurchase Agreements (ASU 2011-03). The objective of ASU 2011-03 is to improve the accounting for repurchase agreements and similar agreements that both entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. Under previous guidance, whether or not to account for a transaction as a sale was based on, in part, if the entity maintained effective control over the transferred financial assets. ASU 2011-03 removes the transferor s ability criterion from the effective control assessment. This guidance is effective prospectively for interim and annual reporting periods beginning on or after December 15, 2011. Management is currently evaluating the implications of ASU 2011-03 and its impact on the financial statements.

In May 2011, the FASB issued ASU 2011-04 Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS (ASU 2011-04). ASU 2011-04 includes common requirements for measurement of and disclosure about fair value between U.S. GAAP and IFRS. ASU 2011-04 will require reporting entities to disclose the following information for fair value measurements categorized within Level 3 of the fair value hierarchy: quantitative information about the unobservable inputs used in the fair value measurement to changes in unobservable inputs and the interrelationships between those unobservable inputs. In addition, ASU 2011-04 will require reporting entities to make disclosures about amounts and reasons for all transfers in and out of Level 1 and Level 2 fair value measurements. The new and revised disclosures are effective for interim and annual reporting periods beginning after December 15, 2011. At this time, management is evaluating the implications of ASU 2011-04 and its impact on the financial statements.

In December 2011, FASB issued ASU 2011-11 Disclosures about Offsetting Assets and Liabilities . The amendments in this ASU require an entity to disclose information about offsetting and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. The ASU is effective for annual reporting periods beginning on or after January 1, 2013, and for interim periods within those annual reporting periods. The guidance requires retrospective application for all comparative periods presented. Management is currently evaluating the implications of ASU 2011-11 and its impact on the financial statements.

9. LEGAL MATTER

On December 1, 2011, Research Affiliates, LLC filed a complaint in the United States District Court for the Central District of California, naming the Trust, WTAM, and its affiliates, along with other parties, as defendants. The complaint alleges that the fundamentally weighted investment methodology developed by WisdomTree Investments and employed by the Trust infringes three of plaintiff s patents. The complaint seeks both unspecified monetary damages to be determined and an injunction to prevent further infringement. The Trust filed its answer to the complaint on January 17, 2012. The Trust believes it has strong defenses to this lawsuit based on its belief that (i) the Trust s Funds do not practice the indexing methods as claimed in the asserted patents because, for example, the factors used to select Fund assets include market capitalization and the price of the assets, and thus fall outside the scope of the asserted patents, which generally provide that selection of the assets to be used for creation of the index must be based upon factors that are sufficiently independent of market capitalization; and (ii) the patents should be declared invalid because, among other reasons, there is ample evidence that the concept of fundamentals based indexing was widely known and in commercial use by asset managers and index providers well before the patent applications at issue were filed by plaintiff. For example, in support of the defenses that the asserted patents are invalid, the Trust intends to present evidence that as far back as the early 1990s, Robert Jones at Goldman Sachs managed an earnings weighted index fund. As another example, the Trust intends to present evidence that Dow Jones launched a dividend weighted stock index in 2003. These examples support the Trust s view that the asserted patents are invalid at least because earlier publications and activities of investment professionals anticipated or made obvious plaintiff s alleged inventions.

While at this early stage of the proceedings it is not possible to determine the probability of any outcome or the probability or amount of any loss, the Trust is confident in the merits of its position. Nevertheless, an adverse resolution could have a negative impact on the Trust and the Funds. For example, in the event of an unfavorable outcome the Trust may be required to pay ongoing license fees if WisdomTree Investments cannot change its indexes in a manner that does not infringe on the patents. This could increase the Funds expense ratios and have a negative impact on Fund performance. WTAM and WisdomTree Investments have contractually agreed to indemnify the Trust and pay any losses, claims and damages (including legal fees) incurred by the Trust or a Fund in connection with the complaint. The Trust intends to vigorously defend against plaintiff s claims.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of WisdomTree Trust:

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of WisdomTree Total Dividend Fund, WisdomTree Equity Income Fund, WisdomTree LargeCap Dividend Fund, WisdomTree Dividend ex-Financials Fund, WisdomTree MidCap Dividend Fund and WisdomTree SmallCap Dividend Fund (six of the investment funds constituting the WisdomTree Trust (the Trust)) as of March 31, 2012, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Trust s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Trust s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2012, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of WisdomTree Total Dividend Fund, WisdomTree Equity Income Fund, WisdomTree LargeCap Dividend Fund, WisdomTree Dividend ex-Financials Fund, WisdomTree MidCap Dividend Fund and WisdomTree SmallCap Dividend Fund of WisdomTree Trust at March 31, 2012, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

New York, New York

May 25, 2012

Approval of Investment Advisory and Sub-Advisory Agreement (unaudited)

Approval of Investment Advisory Agreement. The Trust and the Investment Adviser have entered into an investment advisory agreement covering each Fund discussed herein. At a meeting held on March 1, 2012, the Board of Trustees (the Board) re-approved the Investment Advisory Agreement for each Fund. The Board reviewed and analyzed the factors it deemed relevant, including: (i) the nature, quality and extent of the services to be provided to the Funds by WTAM; (ii) the performance of the Funds; (iii) the costs of services to be provided and the profits to be realized by WTAM from its relationship with the Funds; (iv) the extent to which economies of scale would be realized as the Funds grow; and (v) whether the fee levels reflect these economies of scale for the benefit of investors.

The Board also considered the nature and quality of the services to be provided by WTAM to the Funds, recognizing WTAM s operational capabilities and resources. The Board also noted the extensive responsibilities that WTAM has as investment adviser to the Funds, including the selection of the Funds Sub-Adviser, oversight of the Sub-Adviser s compliance with Fund policies and objectives, oversight of general Fund compliance with federal and state laws, and the implementation of Board directives as they relate to the Funds.

The Board gave substantial consideration to the fees payable under the Advisory Agreement for each Fund. In this connection, the Board evaluated WTAM s anticipated costs and profitability in serving as investment adviser to the Funds, including the costs associated with the personnel, systems and equipment necessary to manage the Funds and the costs associated with compensating the Sub-Adviser. The Board also examined the fees to be paid by each Fund in light of fees paid to other investment managers by comparable funds and the method of computing each Fund s fee. After comparing the fees with those of comparable funds and in light of the quality and extent of services to be provided and the costs anticipated to be incurred by WTAM, the Board concluded that the level of the fees paid to WTAM with respect to each Fund is fair and reasonable. The Board also re-approved the Sub-Advisory Agreement between WTAM and MCM, on behalf of each Fund, using essentially the same criteria it used in connection with the Advisory Agreement. The Board considered MCM s operational capabilities and resources and MCM s experience in serving as an adviser to ETFs, noting that MCM currently provides investment advisory and management services to other ETFs. The Board considered the investment performance of the Funds, and the expertise and performance of the MCM personnel. The Board also noted that Bank of New York Mellon Corporation, an affiliate of MCM, serves as the Funds administrator, accountant, custodian, transfer agent and securities lending agent and receives compensation for acting in these capacities and is responsible for, among other things, coordinating the Funds audits, financial statements and tax returns, managing expenses and budgeting for the Funds, processing trades on behalf of each Fund and custodying Fund assets. As such, the Board concluded that the benefits accruing to MCM and its affiliates by virtue of their relationship to the Trust are reasonable and fair in comparison with the anticipated costs of providing the relevant services. The Board noted that WTAM, not the Funds, pays the fees to MCM under the Sub-Advisory Agreement for each Fund.

Based on these considerations and the overall high quality of the personnel, operations, financial condition, investment advisory capabilities, methodologies, and performance of WTAM and MCM, the Board determined that the re-approval of the Advisory Agreement and the Sub-Advisory Agreement for each Fund was in the best interests of each Fund. After full consideration of these and other factors, the Board, including a majority of the Independent Trustees, with the assistance of independent counsel, approved the Advisory Agreement and Sub-Advisory Agreement for each Fund.

Frequency Distribution of Discounts & Premiums (unaudited)

The chart below presents information about differences between the per share net asset value (NAV) of each Fund and the market trading price of shares of each Fund. For these purposes, the market price is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. The term premium is sometimes used to describe a market price in excess of NAV and the term discount is sometimes used to describe a market price below NAV. The chart presents information about the size and frequency of premiums or discounts. As with other exchange traded funds, the market price of Fund shares is typically slightly higher or lower than the Fund s per share NAV. Factors that contribute to the differences between market price and NAV include the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

Differences between the closing times of U.S. and non-U.S. markets may contribute to differences between the NAV and market price of Fund shares. Many non-U.S. markets close prior to the close of the U.S. securities exchanges. Developments after the close of such markets as a result of ongoing price discovery may be reflected in a Fund s market price but not in its NAV (or vice versa).

Federal Income Tax Information

The following Federal tax information related to the Funds fiscal year ended March 31, 2012, is provided for information purposes only and should not be used for reporting to federal or state revenue agencies. Federal tax information for the calendar year will be reported to you on Form 1099-DIV in January 2013.

Certain dividends paid by the Funds may be subject to a maximum tax rate of 15%, as provided by the Jobs and Growth Tax Relief Reconciliation Act of 2003. Of the distributions paid during the fiscal year ended March 31, 2012, the following represents the maximum amount of ordinary income distributions that may be considered qualified dividend income:

	Qualified Dividend
Fund	Income
Total Dividend Fund	\$ 4,878,946
Equity Income Fund	8,709,371
LargeCap Dividend Fund	23,317,595
Dividend ex-Financials Fund	22,091,647
MidCap Dividend Fund	3,440,628
SmallCap Dividend Fund	4,392,998

The following represents the percentage of dividends paid during the fiscal year ended March 31, 2012, that qualify for the 70% dividends received deduction for corporate shareholders:

	Dividends-Received
Fund	Deduction
Total Dividend Fund	86%
Equity Income Fund	79%
LargeCap Dividend Fund	92%
Dividend ex-Financials Fund	80%
MidCap Dividend Fund	46%
SmallCap Dividend Fund	50%

General Information (unaudited)

Proxy Voting Policies, Procedures and Record

A complete copy of the Proxy Voting Policy may be obtained by calling 1-866-909-WISE (9473) or writing to: WisdomTree Trust, c/o ALPS Distributors, Inc., 1290 Broadway, Suite 1100, Denver, Colorado 80203.

The Trust is required to disclose annually the Funds complete proxy voting record on Form N-PX covering the most recent 12-month period ended June 30 and to file Form N-PX with the SEC no later than August 31 of each year. The current Form N-PX for the Funds is available at no charge upon request by calling 1-866-909-WISE (9473) or through the Trust s website at www.wisdomtree.com. The Funds Form N-PX is also available on the SEC s website at www.sec.gov.

Shareholder Reports and Quarterly Portfolio Disclosure

The Funds are required to file their complete schedule of portfolio holdings with the SEC for their first and third fiscal quarters on Form N-Q. Copies of the filings are available, without charge, on the SEC s website at www.sec.gov and are also available by calling the Trust at 1-866-909-WISE (9473). You can also obtain copies of Form N-Q by (i) visiting the SEC s Public Reference Room in Washington, DC (information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330); (ii) sending your request and a duplicating fee to the SEC s Public Reference Room, Washington, DC 20549-0102; or (iii) sending your request electronically to publicinfo@sec.gov.

Information about each Fund s portfolio holdings is available daily, without charge, at www.wisdomtree.com.

The Fund s Statement of Additional Information (SAI) has additional information about the Funds Trustees and Officers and is available without charge upon request. Contact your financial representative for a free prospectus or SAI.

Management s Discussion of Funds Performance

(unaudited)

Market Environment Overview

The U.S. equity market, as measured by the S&P 500 Index, returned 8.54% for the 12-month period ended March 31, 2012 (the period). After bottoming in March of 2009, the S&P 500 recorded its third straight year of gains. Measured from March 31, 2009 through March 31, 2012, the three year cumulative total return on the S&P 500 Index was 87.99%. This represents a substantial recovery in the equity market as earnings and dividend levels reached and surpassed previous records.

While the overall return for the period was positive, it was marked by several bouts of volatility. Investors had to deal with events domestically and abroad that impacted the U.S. market: as the S&P 500 Index fell for the first six months of the period and turned around significantly in the second half of the period.

Much of the volatility experienced in the market revolved around concerns over a debt crisis in the developed world. At home in the United States, politicians squabbled over raising the U.S. debt ceiling in the summer of 2011. After the market close on Friday, August 5, 2011, Standard & Poor s downgraded the U.S. government from its AAA rating the highest credit quality rating one can achieve due to escalating debt levels, large deficits, and the lack of a coherent plan from U.S. politicians attacking these fiscal issues. The following Monday, the S&P 500 closed down 6.65% and many market participants shifted assets away from equities and risky assets to perceived safe havens. Paradoxically, there was a flight to the very bonds that were downgraded as many believed the problems in other parts of the world, such as Europe, were worse than those in the United States.

WisdomTree Funds Performance Overview

By the end of September 2011, investors had experienced market uncertainty due to the European debt crisis intensifying. This resulted in the worst quarterly performance for the S&P 500 since 2008 (down 13.87%). To support the economy and credit markets, on September 21, 2011, the Federal Reserve announced Operation Twist, which attempted to push down long-term interest rates by shifting the balance of the Treasury s securities holdings towards longer-term securities and selling shorter-term investments. These Federal Reserve actions, known as a form of quantitative easing, or QE , helped support an environment in which many investors were willing to take on more risk. From September 22, 2011, the market rose more than 26% until the end of March 2012, erasing the negative effects of the previous volatility and leaving the U.S. market, as measured by the S&P 500 Index, up 8.54% for the period.

The following table reflects the WisdomTree Funds performance versus their capitalization-weighted benchmark indexes:

		1-Year	Cap-Weighted		
		NAV		1-Year	
Ticker	WisdomTree Fund	Return	Benchmark	Return	Difference
EXT	WisdomTree Total Earnings Fund	9.74%	Russell 3000 [®] Index	7.18%	2.56%
EPS	WisdomTree Earnings 500 Fund	10.60%	S&P 500 [®] Index	8.54%	2.06%
EZM	WisdomTree MidCap Earnings Fund	4.92%	S&P MidCap 400 [®] Index	1.98%	2.94%
EES	WisdomTree SmallCap Earnings Fund	4.39%	Russell 2000 [®] Index	-0.18%	4.57%
EZY	WisdomTree LargeCap Value Fund	4.83%	Russell 1000 [®] Value Index	4.79%	0.04%
ROI	WisdomTree LargeCap Growth Fund	6.74%	Russell 1000 [®] Growth Index	11.02%	-4.28%
EPI	WisdomTree India Earnings Fund	-21.96%	MSCI India Index	-20.51%	-1.45%

With all the volatility in the markets during the period, it may not be a surprise that equities considered to be more defensive in nature, such as large cap stocks, or dividend paying stocks fared better than mid cap and small cap stocks and more growth oriented strategies. While the S&P 500 Index was up 8.54%, the Russell 2000 Index, an index of small cap U.S. equities, experienced a decline of -0.18%.

WisdomTree s earnings weighted funds are designed to track indexes based on the earnings stream generated by companies included in the underlying WisdomTree Index.

WisdomTree Domestic and International Earnings Funds 1

Management s Discussion of Funds Performance audited) (concluded)

The earnings stream is defined as the total dollar level of earnings for all companies within each Index. There are two primary factors that drive performance differentials of the WisdomTree Funds and Indexes versus market cap-weighted benchmarks. The first is aggregate exposure to one or more sectors. The second is stock selection within each sector. Both of these are determined as part of WisdomTree s rules-based index methodology. These exposures are not subjectively determined. Rather, they are objectively determined at the Index rebalancing dates based on the earnings stream.

Five of the ten sectors represented within the S&P 500 Index experienced positive performance over the period. The best performing sector over the period was the Information Technology sector. This was spurred by a lively initial public offering market and by earnings strength from some of its biggest components, such as Apple, Google, and IBM. Also, the more defensive sectors outpaced the market, such as Health Care, Consumer Staples, and Utilities. The Energy sector was the worst performing sector for the period, followed by Materials, as the commodities markets experienced a selloff over the period. Financials also lagged the broader market as questions arose about exposures to the European sovereign debt crisis.

By including only companies with profits, WisdomTree s Earnings Funds tend to have a higher quality bias to their investment portfolios than traditional market capitalization weighted indexes. During the period, the strongest gains tended to be in the larger and more defensive stocks. For example, large cap stocks as a group outperformed small cap stocks and defensive sectors as a group outperformed cyclical sectors. As a result, most of the WisdomTree Domestic Earnings Funds outperformed their cap-weighted benchmarks. Domestically, the one exception was the WisdomTree LargeCap Growth Fund, in which performance was hindered mostly by negative stock selection in sectors such as Financials and Information Technology.

Internationally, India is the only region of the world where WisdomTree sets portfolio weights based on earnings. This is because tax regulations in India act as a disincentive to dividend payments. During the period, emerging markets equities lagged the developed world markets. India was in the lower half of countries within the MSCI Emerging Markets Index on the basis of cumulative equity performance from March 31, 2011 through March 31, 2012. The slowdown in India was largely due to concerns about inflation and the effects of increasing energy costs that have persisted for much of the past year. As a result, the India Earnings Fund had the lowest absolute performance of any international WisdomTree Fund, down more than 21% for the period even after favorable equity performance from December 31, 2011 through March 31, 2012.

Fund returns are shown at NAV. Please see Performance Summaries on the subsequent pages for more complete performance information. Please see page 10 for the list of index descriptions.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Funds performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. For the most recent month end performance information visit www.wisdomtree.com.

International Business Machines Corp.	1.4%
Intel Corp.	1.4%
Citigroup, Inc.	1.3%

* The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company.

The WisdomTree Total Earnings Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Earnings Index.

The Fund returned 9.74% at net asset value (NAV) for the fiscal year ended March 31, 2012 (for more complete performance information please see the chart below). The Fund s performance benefited most from its position in the Information Technology sector. The Fund s position in the Energy sector created the greatest drag on performance.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange

where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. As of the Fund s current prospectus dated July 29, 2011, the Fund s annual expense ratio was 0.28%.

Performance as of 3/31/12

* The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company.

The WisdomTree MidCap Earnings Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree MidCap Earnings Index.

The Fund returned 4.92% at net asset value (NAV) for the fiscal year ended March 31, 2012 (for more complete performance information please see the chart below). The Fund s performance benefited most from its position in the Consumer Discretionary sector. The Fund s position in the Energy sector created the greatest drag on performance.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange

where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. As of the Fund s current prospectus dated July 29, 2011, the Fund s annual expense ratio was 0.38%.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2011 to March 31, 2012.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by 1,000 (for example, an 8,600 account value divided by 1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled Expenses Paid During the Period 10/01/11 to 3/31/12 to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Notes to Financial Statements

March 31, 2012

1. ORGANIZATION

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of March 31, 2012, the Trust offered 48 investment funds (each a Fund , collectively, the Funds). These notes relate only to Funds listed in the table below:

Commencement of

Fund Name	Operations
WisdomTree Total Earnings Fund (Total Earnings Fund)	February 23, 2007
WisdomTree Earnings 500 Fund (Earnings 500 Fund)	February 23, 2007
WisdomTree MidCap Earnings Fund (MidCap Earnings Fund)	February 23, 2007
WisdomTree SmallCap Earnings Fund (SmallCap Earnings Fund)	February 23, 2007
WisdomTree LargeCap Value Fund (LargeCap Value Fund)	February 23, 2007
WisdomTree LargeCap Growth Fund (LargeCap Growth Fund)	December 4, 2008
WisdomTree India Farnings Fund (India Farnings Fund) (consolidated)	February 22, 2008

The India Earnings Fund makes its investments through the WisdomTree India Investment Portfolio, Inc. (the Portfolio), a wholly owned subsidiary organized in the Republic of Mauritius. The Portfolio is advised by WisdomTree Asset Management, Inc. (WTAM) and is sub-advised by Mellon Capital Management Corporation, Inc. (MCM). For the India Earnings Fund, the accompanying financial statements reflect the financial position of the Fund and the results of operations on a consolidated basis with the Portfolio. All inter-company accounts and transactions have been eliminated in consolidation. This structure should permit the India Earnings Fund to benefit from a tax treaty between India and Mauritius. The Supreme Court of India upheld the validity of this tax treaty in response to a lower court challenge contesting the treaty s applicability to entities such as the India Earnings Fund. In March of 2012, the Indian Finance Minister introduced a new chapter to the Indian Income Tax Act 1961, which would include certain General Anti-Avoidance Rules (GAAR). The implementation of these rules has been postponed until 2013 and it is currently unclear whether the proposed GAAR rules will be enacted and whether such rules will have any impact on the Fund's ability to benefit from the tax treaty. No assurance can be given that the terms of the treaty will not be subject to re-negotiation in the future or subject to an adverse interpretation under the proposed GAAR. Any change in the provision of this treaty or in its applicability to the India Earnings Fund on its investments and the return received by India Earnings Fund shareholders. References to investments by the India Earnings Fund herein should be understood to refer to investments by the Portfolio.

Each Fund seeks to track the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (WisdomTree Investments). WisdomTree Investments is the parent company of WTAM, the investment adviser to each Fund and the Trust. WisdomTree is a registered mark of WisdomTree Investments and has been licensed for use by the Trust. Each Fund described herein is considered to be non-diversified. The securities in each Index are weighted based on earnings or earnings yield.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification) is the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants.

The following is a summary of significant accounting policies followed by the Funds:

Guarantees In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these

Table of Contents

contracts and expect the risk of loss to be remote. Therefore, no liabilities have been recorded in connection with these indemnifications.

Use of Estimates The preparation of financial statements in conformity with GAAP, requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Notes to Financial Statements (continued)

Investment Valuation The net asset value (NAV) of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Transactions in Fund shares will be priced at NAV only if you purchase or redeem shares directly from a Fund in creation units, which are typically in blocks of 50,000 shares or more. Fund shares are purchased or sold on a national securities exchange at market prices, which may be higher or lower than NAV. In calculating each Fund's NAV, investments are valued under policies approved by the Board of Trustees.

Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Events occurring after the close of trading on non-U.S. exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Fund may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates fair value. Forward foreign currency contracts are valued daily using WM/Reuters closing spot and forward rates as of 4:00 p.m. London time for Europe and the Americas, and Tullett Prebon closing spot and forward rates as of 2:00 p.m. Singapore time for Asia.

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund s investments will be valued in accordance with the Fund s pricing policy and procedures. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations, securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund s next NAV calculation time that may materially affect the value of a Fund s investment (*e.g.*, government action, natural disaster, or significant market fluctuation). Price movements in U.S. markets that are deemed to affect the value of foreign securities, or reflect changes to the value of such securities, also may cause securities to be fair valued. When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities. Each Fund may invest in money market funds which are valued at their NAV per share and affiliated ETFs which are valued at their last sale or official closing price on the exchange on which they are principally traded.

Fair Value Measurement In accordance with Codification Topic 820 (ASC 820), Fair Value Measurements and Disclosures, fair value is defined as the price that each Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classifications of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity s own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

- Level 1 quoted prices in active markets for identical securities
- Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including each Fund s assumption in determining the fair value of investments)

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is

traded but before the time as of which a Fund s NAV is computed and that may materially affect the value of the Fund s investments).

In January 2010, FASB issued Accounting Standards Update No. 2010-06 Improving Disclosures about Fair Value Measurements (ASU 2010-06). ASU 2010-06 requires reporting entities to make new disclosures about amounts and reasons for significant transfers between Level 1 and Level 2 fair value measurements, as well as inputs and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3. ASU 2010-06 also requires

Notes to Financial Statements (continued)

information on purchases and sales, issuances and settlements on a gross basis in the reconciliation of activity in Level 3 fair value measurements. The new and revised disclosures have been implemented for fiscal periods beginning after December 15, 2009 other than the disclosures surrounding the presentation of purchases, sales, issuances and settlements on a gross basis in the reconciliation of Level 3 fair value measurements which have been implemented for fiscal periods beginning after December 15, 2010.

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

The valuation techniques and significant inputs used in determining the fair market value measurements for Level 2 or Level 3 positions are as follows:

Financial instruments are valued by pricing service providers that use broker dealer quotations, reported trades or valuation estimates from their internal pricing models. Depending on the type of financial instrument, the service providers internal models use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Securities that use similar valuation techniques and inputs as described above are categorized as Level 2 of the fair value hierarchy. Short-term investments having a maturity of 60 days or less are generally valued at amortized cost which approximates fair market value. These investments are categorized as Level 2 of the fair value hierarchy. Over-the-counter financial derivative instruments, such as forward foreign currency contracts derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These contracts are normally valued on the basis of broker dealer quotations or pricing service providers. Depending on the product and the terms of the transaction, the value of the financial derivative contracts can be estimated by a pricing service provider using a series of techniques, including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, spreads, interest rates, curves, dividends and exchange rates. Financial derivatives that use similar valuation techniques and inputs as described above are categorized as Level 2 of the fair value hierarchy.

In the event that a financial instrument cannot be valued based upon a price from a national securities exchange, pricing service provider or broker quotation, or such prices are deemed to not reflect current market value, WTAM may value the financial instrument in good faith under the policies and procedures approved by the Board of Trustees based on current facts and circumstances. Determination of this value may include significant unobservable inputs and therefore would be reflected as a Level 3 of the fair value hierarchy.

No significant transfers between Level 1 or Level 2 fair value measurements occurred during the fiscal year ended March 31, 2012.

The following is a summary of the inputs used as of March 31, 2012 in valuing each Fund s assets carried at fair value:

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value. All transfers into or out of Level 3 are done using the beginning of period method. For the period ended March 31, 2012, there were no transfers into or out of Level 3.

	Common Stocks			
India Earnings Fund (consolidated)	Electric Utilities	Meta	ls & Mining	
Balance as of April 1, 2011	\$	\$		
Realized gain (loss) ¹				
Change in unrealized appreciation (depreciation) ²	(157,647)		(38,429)	
Purchases	531,045		163,896	
Sales				
Transfers into Level 3 ³				
Transfers out of Level 34				
Balance as of March 31, 2012	\$ 373,398	\$	125,467	
Net change in unrealized appreciation/(depreciation) from investments still held as of March 31,				
2012 is: ²	\$ (157,647)	\$	(38,429)	
¹ This amount is included in net realized gain (loss) from investment transactions in the State	ment of Operations.			

This amount is included in net realized gain (loss) from investment transactions in the Statement of Operations.

² This amount is included in the net change in unrealized appreciation (depreciation) from investment transactions in the Statement of Operations. Change in unrealized appreciation (depreciation) includes net unrealized appreciation (depreciation) resulting from changes in investment values during the period and the reversal of previously recorded unrealized appreciation (depreciation) when gains or losses are realized.

- ³ Transfers into Level 3 are as a result of the unavailability of a quoted price in an active market for an identical investment or the unavailability of other significant observable inputs.
- ⁴ Transfers out of Level 3 are as a result of the availability of a quoted price in an active market for an identical investment or the availability of other significant observable inputs.

Notes to Financial Statements (continued)

Derivatives and Hedging Disclosure Codification Topic 815 (ASC 815), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The India Earnings Fund has invested in derivatives, specifically forward currency contracts, during the fiscal year ended March 31, 2012, which are detailed in the table herein. The Fund s derivative agreements contain credit-risk-related contingent features which include, but are not limited to, a percentage decline in the Fund s NAV or net assets over a specified time period. If an event occurred that triggered a contingent feature, the counterparty to the agreement may require the Fund to post additional collateral or terminate the derivative positions and demand payment. Any collateral posted with respect to the derivative positions would be used to offset or reduce the payment. The maximum exposure to derivatives agreements with the credit-risk-related contingent features would be the total of derivatives in net liability positions for the Fund.

At March 31, 2012, there were no open derivative positions in the Funds.

The effect of such derivative instruments on each Fund s financial performance as reflected in the Statement of Operations are presented in the summary below:

Derivatives not designated as hedging	Amount of Realized Gain on Derivatives Recognized in Income ¹	Change in Unrealized Appreciation or (Depreciation) on Derivatives Recognized in Income
India Earnings Fund (consolidated)	Ŭ	
Foreign exchange contracts	\$ 1,107,368	\$

Realized gains (losses) on derivatives are located on the Statement of Operations as follows:

Foreign exchange contracts Net realized gain (loss) from forward foreign currency contracts and foreign currency related transactions

During the fiscal year ended March 31, 2012, the volume of derivative activity for the Funds was as follows:

	Averag	ge Notional
	Forward	Forward
	foreign	foreign
	currency	currency
	contracts	contracts
und	(to deliver)	(to receive)
ndia Earnings Fund (consolidated)		
orward exchange contracts	\$	\$ 645,085

Investment Transactions and Investment Income Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method. Dividend income is recognized on the ex-dividend date, net of any foreign taxes withheld. Interest income including amortization of premiums and discounts, is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

Foreign Currency Translation The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates prevailing on the respective dates of such transactions that are deemed appropriate by WTAM. Realized and unrealized foreign exchange gains and losses on

investments are included as a component of net realized gain (loss) from investment transactions and net change in unrealized appreciation (depreciation) from investment transactions, respectively, on the Statement of Operations. Net realized and unrealized foreign exchange gains or losses arising from sales of foreign currencies, including gains and losses of forward foreign currency contracts, currency gains or losses recognized between the trade and settlement dates on investment transactions, and the difference between the amounts of dividends and foreign withholding taxes recorded on the Funds books and the U.S. dollar equivalent of the amounts actually received or paid are included in net realized gain (loss) from forward foreign currency contracts and foreign currency related transactions and/or net change in unrealized appreciation (depreciation) from forward foreign currency contracts and translation of assets and liabilities denominated in foreign currencies on the Statement of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of, ordinary income in accordance with U.S. Federal income tax regulations.

Expenses/Reimbursements WTAM has agreed to pay all expenses of the Funds (other than the India Earnings Fund), except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses

Notes to Financial Statements (continued)

of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust s chief compliance officer (CCO); (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Pursuant to a separate contractual arrangement, WTAM has arranged for the provision of CCO services to the Funds, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a service fee paid by each Fund of up to 0.0044% of each Fund s average daily net assets. Trustees fees, which are included in Service Fees on the Statements of Operations, of \$73,730 have been paid on behalf of the Funds of the Trust to the Independent Trustees for the fiscal year ended March 31, 2012. Expenses in excess of 0.0044% were paid by WTAM. WTAM has agreed to limit the total expenses of the India Earnings Fund to 0.88% through July 31, 2013.

Currency Transactions The India Earnings Fund may enter into foreign currency forward and foreign currency futures contracts to facilitate local securities settlements or to protect against currency exposure in connection with distributions to shareholders. The India Earnings Fund does not expect to engage in currency transactions for the purpose of hedging against declines in the value of the Fund s assets that are denominated in one or more foreign currencies. The India Earnings Fund may not enter into such contracts for speculative purposes.

Forward Foreign Currency Transactions A forward foreign currency contract (Forward Contract) involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A Forward Contract generally has no margin deposit requirement, and no commissions are charged at any stage for trades.

Risks may arise upon entering into Forward Contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. dollar or each other.

Fluctuations in the value of open Forward Contracts are recorded for book purposes as unrealized gains or losses on Forward Contracts by the Funds. Realized gains and losses on Forward Contracts include net gains or losses recognized by the Funds on contracts which have matured.

There were no Forward Contracts open at March 31, 2012.

Securities Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds securities lending agent. It is the Funds policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral in the form of cash and/or high grade debt obligations, equivalent to at least 100% of the market value of securities, is maintained at all times. The collateral can be invested in certain money market mutual funds which also have exposure to the fluctuations of the market. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receive a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund s securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments include short-term obligations issued by the U.S. Government, its agencies, non-U.S. Government agencies, negotiable certificates of deposit (CDs), fixed time deposits and bankers acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker s acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment

Company (RIC) under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. There can be no guarantee that a Fund will pay dividends. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its

Notes to Financial Statements (continued)

reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions which exceed earnings and profit for tax purposes are reported as a tax return of capital to the extent of a shareholder s tax basis and thereafter as a capital gain. The India Earnings Fund has filed an election to treat the Portfolio as a pass-through entity for tax purposes.

3. ADVISORY FEES AND TRANSACTIONS

WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM has arranged for Mellon Capital Management (MCM) to provide sub-advisory services to the Funds. MCM is compensated by WTAM at no additional cost to the Funds. WTAM also arranges transfer agency, custody, fund administration, and all other non-distribution related services necessary for the Funds to operate. Under the Investment Advisory Agreement for each Fund, and as also described in Note 2, WTAM agrees to pay all expenses of the Funds, except compensation and expenses of the Independent Trustees, counsel to the Independent Trustees and the Trust s CCO, interest expenses and taxes, brokerage expenses, and other expenses connected with the execution of portfolio transactions, any distribution fees or expenses, legal fees or expenses and extraordinary expenses. The Investment Advisory Agreement for the India Earnings Fund does not require WTAM to pay any Fund expenses, except sub-advisory fees.

Pursuant to a separate contractual arrangement, as also described in Note 2, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044% of each Fund s average daily net assets. WTAM provides CCO services to the Trust. WTAM has agreed to limit net annual operating expenses for the India Earnings Fund to 0.88% through July 31, 2013. WTAM expects to receive fees from each Fund, based on a percentage of the Fund s average daily net assets, as shown in the following table:

Advisory

Fund	Fee Rate
Total Earnings Fund	0.28%
Earnings 500 Fund	0.28%
MidCap Earnings Fund	0.38%
SmallCap Earnings Fund	0.38%
LargeCap Value Fund	0.38%
LargeCap Growth Fund	0.38%
India Earnings Fund (consolidated)	0.68%

Each Fund may purchase shares of affiliated exchange traded funds in secondary market transactions. For the fiscal year ended March 31, 2012, WTAM waived a portion of its advisory fees based on each Fund s investment in affiliated Funds. In addition, during the year ended March 31, 2012, the India Earnings Fund was reimbursed for certain expenses that occurred during the previous fiscal year. The table below indicates the waiver and expense reimbursement amounts. Please see Note 7 for additional information on Other Affiliated Parties and Transactions.

Fund	Advisory Fees Waived/ Expense Reimbursement
Total Earnings Fund	\$ 110
Earnings 500 Fund	286
MidCap Earnings Fund	1,624
SmallCap Earnings Fund	1,657
LargeCap Value Fund	271
LargeCap Growth Fund	

India Earnings Fund (consolidated) 4. CAPITAL SHARE TRANSACTIONS

As of March 31, 2012, there was an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units,

82 WisdomTree Domestic and International Earnings Funds

663,000

Notes to Financial Statements (continued)

shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund s underlying Index and an amount of cash. The India Earnings Fund issues and redeems shares on a cash basis only. Investors purchasing and redeeming Creation Units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments (excluding in-kind capital share transactions and short-term investments) for the fiscal year ended March 31, 2012 were as follows:

Fund	000,000,000 Purchases	000,000,000 Sales
Total Earnings Fund	\$ 5,662,390	\$ 5,751,951
Earnings 500 Fund	10,223,264	10,197,683
MidCap Earnings Fund	47,598,902	47,857,568
SmallCap Earnings Fund	53,626,397	55,269,188
LargeCap Value Fund	17,161,622	17,099,884
LargeCap Growth Fund	20,894,698	21,289,606
India Earnings Fund (consolidated)	340,685,032	597,677,253

For the fiscal year ended March 31, 2012, the cost of purchases and the proceeds from sales resulting from in-kind capital share transactions were as follows:

Fund	000,000,000 Purchases	000,000,000 Redemptions
Total Earnings Fund	\$ 11,998,373	\$ 24,134,949
Earnings 500 Fund		
MidCap Earnings Fund	70,380,674	22,994,812
SmallCap Earnings Fund	48,705,563	36,820,199
LargeCap Value Fund	5,605,014	2,096,006
LargeCap Growth Fund	17,355,535	22,558,430
India Earnings Fund (consolidated)		

Gains and losses on in-kind redemptions are not recognized by the Funds for tax purposes.

6. FEDERAL INCOME TAXES

At March 31, 2012, the cost of investments (including securities on loan) for Federal income tax purposes was as follows:

Fund	Tax Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
Total Earnings Fund	\$ 39,169,648	\$ 5,904,133	\$ (1,579,355)	\$ 4,324,778
Earnings 500 Fund	61,178,425	11,328,128	(3,077,523)	8,250,605
MidCap Earnings Fund	151,886,152	21,126,940	(3,864,122)	17,262,818
SmallCap Earnings Fund	146,915,494	20,826,036	(7,711,168)	13,114,868
LargeCap Value Fund	27,566,033	4,149,081	(515,653)	3,633,428
LargeCap Growth Fund	18,630,036	2,951,924	(962,816)	1,989,108

India Earnings Fund (consolidated)	956,200,548	114,182,590	(155,947,387)	(41,764,797)

Notes to Financial Statements (continued)

At March 31, 2012, the components of accumulated earnings/(loss) on a tax-basis were as follows:

Fund	 tributed ry Income	 ndistributed ital and Other Losses	Ар	Unrealized preciation/ preciation)	Un	urrency realized preciation	 l Accumulated nings/(Losses)
Total Earnings Fund	\$ 17,976	\$ (6,249,932)	\$	4,324,778	\$		\$ (1,907,178)
Earnings 500 Fund	27,480	(19,797,594)		8,250,605			(11,519,509)
MidCap Earnings Fund	96,368	(13,853,114)		17,262,818			3,506,072
SmallCap Earnings Fund	106,260	(15,675,153)		13,114,868			(2,454,025)
LargeCap Value Fund	8,589	(11,425,485)		3,633,428			(7,783,468)
LargeCap Growth Fund	2,180	(283,287)		1,989,108			1,708,001
India Earnings Fund (consolidated)	344,964	(138,472,651)		(41,764,797)		10,482	(179,882,002)

The tax character of distributions paid during the fiscal years ended March 31, 2012 and March 31, 2011, was as follows:

	Year Ended March 31, 2012 Distributions Paid from Ordinary	Year Ended March 31, 2011 Distributions Paid from Ordinary
Fund	Income*	Income*
Total Earnings Fund	\$ 875,900	\$ 879,348
Earnings 500 Fund	1,245,174	1,308,638
MidCap Earnings Fund	1,297,193	1,186,680
SmallCap Earnings Fund	1,778,298	1,365,764
LargeCap Value Fund	506,854	362,140
LargeCap Growth Fund	319,110	145,072
India Earnings Fund (consolidated)	8,702,508	6,420,668

* Includes short-term capital gains.

At March 31, 2012, for Federal income tax purposes, the Funds have capital loss carryforwards available to offset future capital gains through the years indicated. To the extent that these loss carryforwards are utilized, capital gains so offset will not be distributed to shareholders.

* Under the recently enacted Regulated Investment Company Modernization Act of 2010, a Fund is permitted to carry forward any new capital losses for an unlimited period. Additionally, such capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law. The character of these losses is noted above.

Capital losses incurred after October 31 (post-October capital losses) and within the taxable year are deemed to arise on the first business day of each Fund s next taxable year.

During the fiscal year ended March 31, 2012, the following Funds incurred and will elect to defer post-October capital losses as follows:

Short-Term Post-October	Long-Term Post-October
Capital Losses	Capital Losses
\$ 39,069	\$ 441,524
122,065	853,643
4,018,536	962,574
4,712,668	2,576,823
173,444	1,257,535
	Post-October Capital Losses \$ 39,069 122,065 4,018,536 4,712,668

Notes to Financial Statements (continued)

During the fiscal year ended March 31, 2012, the following funds utilized capital loss carryforwards of the noted amounts to offset realized gains.

Fund	Utilized Capital Loss Carryforwards
Total Earnings Fund	\$
Earnings 500 Fund	
MidCap Earnings Fund	
SmallCap Earnings Fund	
LargeCap Value Fund	1,147,246
LargeCap Growth Fund	
India Earnings Fund (consolidated)	

At March 31, 2012, the effect of permanent book/tax reclassifications resulted in increases (decreases) to the components of net assets as follows:

Fund	Undistributed Net Investment Income/(Loss)	Accumulated Net Realized Gain/ (Loss)	Paid-in Capital
Total Earnings Fund	\$ (494)	\$ (1,710,353)	\$ 1,710,847
Earnings 500 Fund	(781)	753	28
MidCap Earnings Fund	10,037	(3,995,341)	3,985,304
SmallCap Earnings Fund	(6,253)	(8,675,947)	8,682,200
LargeCap Value Fund	229	(409,550)	409,321
LargeCap Growth Fund	(276)	(2,373,086)	2,373,362
India Earnings Fund (consolidated)	(612,585)	612,585	
SmallCap Earnings Fund LargeCap Value Fund LargeCap Growth Fund	(6,253) 229 (276)	(8,675,947) (409,550) (2,373,086)	8,682,200 409,321

These differences are primarily due to redemptions-in-kind, the tax treatment of income earned from investments in partnerships, foreign currency transactions, non-dividend distributions from underlying funds and Passive Foreign Investment Companies (PFICs).

GAAP provides guidance on tax provisions that prescribe a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Funds understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the fiscal year ended March 31, 2012, the Funds did not have any liabilities for unrecognized tax benefits. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Funds file tax returns with the Internal Revenue Service, the State of New York, and various other states, and with respect to the India Earnings Fund, the Republic of Mauritius. Generally, each of the tax years in the four-year period ended March 31, 2012, remains subject to examination by taxing authorities.

Notes to Financial Statements (concluded)

7. OTHER AFFILIATED PARTIES AND TRANSACTIONS

Affiliated holdings are Funds which are managed by the Trust or an affiliate of the Trust. Transactions with affiliated companies during the fiscal year ended March 31, 2012 are as follows:

Affiliated Fund Name	Value at 3/31/2011	Purchases/ Additions	Sales/ Reductions	Value at 3/31/2012	Dividend Income
Total Earnings Fund					
LargeCap Growth Fund	\$ 392,157	\$ 472,390	\$ 753,302	\$ 91,512	\$ 2,245
Earnings 500 Fund

8. LOAN					

During the year ended March 31, 2012, the India Earnings Fund had a demand note agreement with Morgan Stanley Bank, N.A. which allowed the Fund to borrow up to \$300,000,000 until the stated maturity date of September 30, 2011. During the year ended March 31, 2012, the Fund utilized the demand note and borrowed for a period of 35 days with an average outstanding loan balance of \$34,809,479 and a weighted average interest rate of 2.19% per annum. Interest expense related to the loan for the year ended March 31, 2012 was \$73,100. At March 31, 2012, the Fund did not have any loan amounts outstanding.

9. NEW ACCOUNTING PRONOUNCEMENTS

In April 2011, the FASB issued Accounting Standards Update (ASU) 2011-03 Reconsideration of Effective Control for Repurchase Agreements (ASU 2011-03). The objective of ASU 2011-03 is to improve the accounting for repurchase agreements and similar agreements that both entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. Under previous guidance, whether or not to account for a transaction as a sale was based on, in part, if the entity maintained effective control over the transferred financial assets. ASU 2011-03 removes the transferor s ability criterion from the effective control assessment. This guidance is effective prospectively for interim and annual reporting periods beginning on or after December 15, 2011. Management is currently evaluating the implications of ASU 2011-03 and its impact on the financial statements.

In May 2011, the FASB issued ASU 2011-04 Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS (ASU 2011-04). ASU 2011-04 includes common requirements for measurement of and disclosure about fair value between U.S. GAAP and IFRS. ASU 2011-04 will require reporting entities to disclose the following information for fair value measurements categorized within Level 3 of the fair value hierarchy: quantitative information about the unobservable inputs used in the fair value measurement to changes in unobservable inputs and the interrelationships between those unobservable inputs. In addition, ASU 2011-04 will require reporting entities to make disclosures about amounts and reasons for all transfers in and out of Level 1 and Level 2 fair value measurements. The new and revised disclosures are effective for interim and annual reporting periods beginning after December 15, 2011. At this time, management is evaluating the implications of ASU 2011-04 and its impact on the financial statements.

In December 2011, FASB issued ASU 2011-11 Disclosures about Offsetting Assets and Liabilities . The amendments in this ASU require an entity to disclose information about offsetting and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. The ASU is effective for annual reporting periods beginning

Notes to Financial Statements (concluded)

on or after January 1, 2013, and for interim periods within those annual reporting periods. The guidance requires retrospective application for all comparative periods presented. Management is currently evaluating the implications of ASU 2011-11 and its impact on the financial statements.

10. LEGAL MATTER

On December 1, 2011, Research Affiliates, LLC filed a complaint in the United States District Court for the Central District of California, naming the Trust, WTAM, and its affiliates, along with other parties, as defendants. The complaint alleges that the fundamentally weighted investment methodology developed by WisdomTree Investments and employed by the Trust infringes three of plaintiff s patents. The complaint seeks both unspecified monetary damages to be determined and an injunction to prevent further infringement. The Trust filed its answer to the complaint on January 17, 2012. The Trust believes it has strong defenses to this lawsuit based on its belief that (i) the Trust s Funds do not practice the indexing methods as claimed in the asserted patents because, for example, the factors used to select Fund assets include market capitalization and the price of the assets, and thus fall outside the scope of the asserted patents, which generally provide that selection of the assets to be used for creation of the index must be based upon factors that are sufficiently independent of market capitalization; and (ii) the patents should be declared invalid because, among other reasons, there is ample evidence that the concept of fundamentals based indexing was widely known and in commercial use by asset managers and index providers well before the patent applications at issue were filed by plaintiff. For example, in support of the defenses that the asserted patents are invalid, the Trust intends to present evidence that as far back as the early 1990s, Robert Jones at Goldman Sachs managed an earnings weighted index fund. As another example, the Trust intends to present evidence that Dow Jones launched a dividend weighted stock index in 2003. These examples support the Trust s view that the asserted patents are invalid at least because earlier publications and activities of investment professionals anticipated or made obvious plaintiff s alleged inventions.

While at this early stage of the proceedings it is not possible to determine the probability of any outcome or the probability or amount of any loss, the Trust is confident in the merits of its position. Nevertheless, an adverse resolution could have a negative impact on the Trust and the Funds. For example, in the event of an unfavorable outcome the Trust may be required to pay ongoing license fees if WisdomTree Investments cannot change its indexes in a manner that does not infringe on the patents. This could increase the Funds expense ratios and have a negative impact on Fund performance. WTAM and WisdomTree Investments have contractually agreed to indemnify the Trust and pay any losses, claims and damages (including legal fees) incurred by the Trust or a Fund in connection with the complaint. The Trust intends to vigorously defend against plaintiff s claims.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of WisdomTree Trust:

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of WisdomTree Total Earnings Fund, WisdomTree Earnings 500 Fund, WisdomTree MidCap Earnings Fund, WisdomTree SmallCap Earnings Fund, WisdomTree LargeCap Value Fund, WisdomTree LargeCap Growth Fund and WisdomTree India Earnings Fund (seven of the investment funds constituting the WisdomTree Trust (the Trust)) as of March 31, 2012, and the related statements of operations for the year then ended, the changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Trust s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Trust s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the

Trust s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement

presentation. Our procedures included confirmation of securities owned as of March 31, 2012, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of WisdomTree Total Earnings Fund, WisdomTree Earnings 500 Fund, WisdomTree MidCap Earnings Fund, WisdomTree SmallCap Earnings Fund, WisdomTree LargeCap Value Fund, WisdomTree LargeCap Growth Fund and WisdomTree India Earnings Fund of WisdomTree Trust at March 31, 2012, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the indicated periods, in conformity with U.S. generally accepted accounting principles.

New York, New York

May 25, 2012

Approval of Investment Advisory and Sub-Advisory Agreement (unaudited)

Approval of Investment Advisory Agreement. The Trust and the Investment Adviser have entered into an investment advisory agreement covering each Fund discussed herein. At a meeting held on March 1, 2012, the Board of Trustees (the Board) re-approved the Investment Advisory Agreement for each Fund. The Board reviewed and analyzed the factors it deemed relevant, including: (i) the nature, quality and extent of the services to be provided to the Funds by WTAM; (ii) the performance of the Funds; (iii) the costs of services to be provided and the profits to be realized by WTAM from its relationship with the Funds; (iv) the extent to which economies of scale would be realized as the Funds grow; and (v) whether the fee levels reflect these economies of scale for the benefit of investors.

The Board also considered the nature and quality of the services to be provided by WTAM to the Funds, recognizing WTAM s operational capabilities and resources. The Board also noted the extensive responsibilities that WTAM has as investment adviser to the Funds, including the selection of the Funds Sub-Adviser, oversight of the Sub-Adviser s compliance with Fund policies and objectives, oversight of general Fund compliance with federal and state laws, and the implementation of Board directives as they relate to the Funds.

The Board gave substantial consideration to the fees payable under the Advisory Agreement for each Fund. In this connection, the Board evaluated WTAM s anticipated costs and profitability in serving as investment adviser to the Funds, including the costs associated with the personnel, systems and equipment necessary to manage the Funds and the costs associated with compensating the Sub-Adviser. The Board also examined the fees to be paid by each Fund in light of fees paid to other investment managers by comparable funds and the method of computing each Fund s fee. After comparing the fees with those of comparable funds and in light of the quality and extent of services to be provided and the costs anticipated to be incurred by WTAM, the Board concluded that the level of the fees paid to WTAM with respect to each Fund is fair and reasonable. The Board also re-approved the Sub-Advisory Agreement between WTAM and MCM, on behalf of each Fund, using essentially the same criteria it used in connection with the Advisory Agreement. The Board considered MCM s operational capabilities and resources and MCM s experience in serving as an adviser to ETFs, noting that MCM currently provides investment advisory and management services to other ETFs. The Board considered the investment performance of the Funds, and the expertise and performance of the MCM personnel. The Board also noted that Bank of New York Mellon Corporation, an affiliate of MCM, serves as the Funds administrator, accountant, custodian, transfer agent and securities lending agent and receives compensation for acting in these capacities and is responsible for, among other things, coordinating the Funds audits, financial statements and tax returns, managing expenses and budgeting for the Funds, processing trades on behalf of each Fund and custodying Fund assets. As such, the Board concluded that the benefits accruing to MCM and its affiliates by virtue of their relationship to the Trust are reasonable and fair in comparison with the anticipated costs of providing the relevant services. The Board noted that WTAM, not the Funds, pays the fees to MCM under the Sub-Advisory Agreement for each Fund.

Based on these considerations and the overall high quality of the personnel, operations, financial condition, investment advisory capabilities, methodologies, and performance of WTAM and MCM, the Board determined that the re-approval of the Advisory Agreement and the Sub-Advisory Agreement for each Fund was in the best interests of each Fund. After full consideration of these and other factors, the Board, including a majority of the Independent Trustees, with the assistance of independent counsel, approved the Advisory Agreement and Sub-Advisory Agreement for each Fund.

Frequency Distribution of Discounts & Premiums (unaudited)

The chart below presents information about differences between the per share net asset value (NAV) of each Fund and the market trading price of shares of each Fund. For these purposes, the market price is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. The term premium is sometimes used to describe a market price in excess of NAV and the term discount is sometimes used to describe a market price below NAV. The chart presents information about the size and frequency of premiums or discounts. As with other exchange traded funds, the market price of Fund shares is typically slightly higher or lower than the Fund s per share NAV. Factors that contribute to the differences between market price and NAV include the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

Differences between the closing times of U.S. and non-U.S. markets may contribute to differences between the NAV and market price of Fund shares. Many non-U.S. markets close prior to the close of the U.S. securities exchanges. Developments after the close of such markets as a result of ongoing price discovery may be reflected in a Fund s market price but not in its NAV (or vice versa).

Supplemental Information (unaudited)

Federal Income Tax Information

The following Federal tax information related to the Funds fiscal year ended March 31, 2012, is provided for information and purposes only and should not be used for reporting to federal or state revenue agencies. Federal tax information for the calendar year will be reported to you on Form 1099-DIV in January 2013.

Certain dividends paid by the Funds may be subject to a maximum tax rate of 15%, as provided by the Jobs and Growth Tax Relief Reconciliation Act of 2003. Of the distributions paid during the fiscal year ended March 31, 2012, the following represents the maximum amount of ordinary income distributions that may be considered qualified dividend income:

	Qualified Dividend
Fund	Income
Total Earnings Fund	\$ 875,900
Earnings 500 Fund	1,245,174
MidCap Earnings Fund	983,617
SmallCap Earnings Fund	1,255,651
LargeCap Value Fund	506,854
LargeCap Growth Fund	319,110
India Earnings Fund (consolidated)	9,252,605

The following represents the percentage of dividends paid during the fiscal year ended March 31, 2012, that qualify for the 70% dividends received deduction for corporate shareholders:

Fund	Dividends-Received Deduction
Total Earnings Fund	100%
Earnings 500 Fund	100%
MidCap Earnings Fund	76%
SmallCap Earnings Fund	69%
LargeCap Value Fund	100%
LargeCap Growth Fund	99%
India Earnings Fund (consolidated)	0%

The Fund intends to elect to pass through to shareholders the credit for taxes paid during the fiscal year ended March 31, 2012, to foreign countries. The gross foreign source income and foreign taxes paid are as follows:

Fund	Gross Foreign Income	Foreign Taxes Paid
Total Earnings Fund	\$	\$
Earnings 500 Fund		
MidCap Earnings Fund		
SmallCap Earnings Fund		
LargeCap Value Fund		
LargeCap Growth Fund		
India Earnings Fund (consolidated)	18,263,811	550,097

General Information (unaudited)

Proxy Voting Policies, Procedures and Record

A complete copy of the Proxy Voting Policy may be obtained by calling 1-866-909-WISE (9473) or writing to: WisdomTree Trust, c/o ALPS Distributors, Inc., 1290 Broadway, Suite 1100, Denver, Colorado 80203.

The Trust is required to disclose annually the Funds complete proxy voting record on Form N-PX covering the most recent 12-month period ended June 30 and to file Form N-PX with the SEC no later than August 31 of each year. The current Form N-PX for the Funds is available at no charge upon request by calling 1-866-909-WISE (9473) or through the Trust s website at www.wisdomtree.com. The Funds Form N-PX is also available on the SEC s website at www.sec.gov.

Shareholder Reports and Quarterly Portfolio Disclosure

The Funds are required to file their complete schedule of portfolio holdings with the SEC for their first and third fiscal quarters on Form N-Q. Copies of the filings are available, without charge, on the SEC s website at www.sec.gov and are also available by calling the Trust at 1-866-909-WISE (9473). You can also obtain copies of Form N-Q by (i) visiting the SEC s Public Reference Room in Washington, DC (information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330); (ii) sending your request and a duplicating fee to the SEC s Public Reference Room, Washington, DC 20549-0102; or (iii) sending your request electronically to publicinfo@sec.gov.

Information about each Fund s portfolio holdings is available daily, without charge, at www.wisdomtree.com.

The Fund s Statement of Additional Information (SAI) has additional information about the Funds Trustees and Officers and is available without charge upon request. Contact your financial representative for a free prospectus or SAI.

The WisdomTree Funds are exchange traded funds (ETFs) registered with the United States Securities and Exchange Commission as separate series (Funds) of WisdomTree Trust (Trust). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the Trust. None of the WisdomTree entities are affiliated with ALPS Distributors, Inc., the Funds distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you cannot invest directly in an index.

There are risks associated with investing, including possible loss of principal. Funds focusing their investments on certain sectors and/or smaller companies increase their vulnerability to any single economic or regulatory development. This may result in greater share price volatility. Foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. The WisdomTree India Earnings Fund focuses its investments in India, thereby increasing the impact of events and developments associated with the region which can adversely affect performance. Investments in emerging, offshore or frontier markets such as India are generally less liquid and less efficient than investments in developed markets and are subject to additional risks, such as risks of adverse governmental regulation and intervention or political developments. Due to the investment strategy of certain Fund s they may make higher capital gain distributions than other ETFs. Please read each Fund s prospectus for specific details regarding the Fund s risk profile.

Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.

Management s Discussion of Funds Performance

Market Environment Overview

The international equity markets, measured by the MSCI EAFE Index, a broad measure of equity performance for the developed world outside the U.S. and Canada, returned -5.77% in the 12-month period that ended March, 31, 2012 (the period). Compared to peak levels reached in 2007, the MSCI EAFE Index is still down on a cumulative basis by more than 25%. The emerging markets, shown through the MSCI Emerging Markets Index, failed to keep pace with the developed world markets for the period. The MSCI Emerging Markets Index returned -8.80% over the period. This was more than 15 percentage points behind the S&P 500 and roughly 3 percentage points behind the MSCI EAFE Index.

One of the main factors for the negative equity performance internationally remained the uncertainties of the peripheral European countries mounting debts and their impact on the European Union or, EU, as well as the global economy. Largely as a result of these uncertainties the MSCI EAFE Index experienced a significant decline in the first eight months of the period through November 2011. In December 2011, the European Central Bank (ECB) announced an emergency operation aimed at reducing fears about the stability of European banks. This program, dubbed LTRO for Long-Term Refinancing Operation, gave European banks the ability to pledge a wide swath of collateral with the ECB in return for loans with a three-year term and 1% interest rate charge. The LTROs alleviated a lot of the pressure of bank funding and helped reduce pressures on European governments, as the banks had more capital that they could use to buy sovereign bonds. The international markets rallied significantly following the LTRO activities in December 2011 to erase much of the losses they experienced in the first 8 months of the period.

With all this volatility in the markets and fears about global growth prospects, there were only two sectors Consumer Staples and Health Care that contributed positively to the MSCI EAFE returns over the period. The Consumer Discretionary sector was essentially flat and the remaining seven sectors (Information Technology, Energy, Industrials, Telecommunication Services, Financials, Materials, and Utilities) contributed negatively to the MSCI EAFE performance for the period. Telecommunication Services, Financials, Materials, and Utilities each experienced losses of more than 15% for the period.

WisdomTree Funds Performance Overview

Measured in local currency, the MSCI EAFE Index returned -4.12% over the period. The foreign currency component of the developed world returns subtracted a little less than 2 percentage points to the returns of the MSCI EAFE Index. During the period, the euro depreciated against the U.S. dollar, weakening by more than 5% over the period. Weakening currencies relative to the U.S. dollar decrease the value of foreign investments measured in U.S. dollars and tend to lower returns experienced by U.S. investors who invest overseas.

The following table reflects the WisdomTree Funds performance versus capitalization- weighted benchmark indexes:

		1-Year		1-Year	
Ticker	WisdomTree Fund	NAV Return	Cap-Weighted Benchmark	Return	Difference

DRW	WisdomTree Global ex-U.S. Real Estate Fund	-3.99%	Dow Jones Global ex-U.S. Select Real Estate Securities Index	-0.95%	-3.04%

WisdomTree s international dividend weighted Funds are designed to track indexes based on the dividend stream generated by the companies included in the index. The dividend stream is defined as the sum of all dividends paid over the prior 12 months for each company. There are two primary factors that drive performance differentials versus market cap-weighted benchmarks. The first is aggregate exposure to one or more sectors or countries. The second is stock selection within each sector or country. Both of these are determined as part of WisdomTree s rules-based index methodology. These exposures are not subjectively determined. Rather, they are objectively determined at the Index rebalancing dates based on the dividend stream.

WisdomTree s best performing region and Funds for the year were Japan. Both the WisdomTree Japan SmallCap Dividend Fund (DFJ) and the WisdomTree Japan Hedged Equity Fund (DXJ) had positive absolute returns for the period. These two examples of positive absolute performance are notable given that Japan was devastated by the earthquake, tsunami, and nuclear disasters only a year ago in March 2011 and exporters were hurt by a strengthening yen for most of the period. Small cap Japanese stocks are more domestically sensitive and more closely tied to the local economy and did well as the country spent billions to rebuild. The WisdomTree Japan SmallCap Dividend Fund returned 7.36% for the period. This was more than 2 percentage points higher than the MSCI Japan Small Cap Index return of 5.15%.

The only other WisdomTree Fund to provide positive absolute returns for the period was the WisdomTree Middle East Dividend Fund (GULF). Even though geopolitical risk was heightened in the Middle East as tensions in the region escalated to violence in countries such as Egypt, Syria, Tunisia, Bahrain, Yemen, and Libya, the WisdomTree Middle East Dividend Fund returned 1.35%, which was more than 4.5 percentage points higher than the MSCI Arabian Markets ex-Saudi Arabia Index return of -3.34%.

Management s Discussion of Funds Performance

(concluded)

While emerging markets, as measured by the MSCI Emerging Markets Index, were down 8.80%, both the WisdomTree Emerging Markets Equity Income Fund (DEM) and the WisdomTree Emerging Markets SmallCap Dividend Fund (DGS) experienced relatively favorable performance for the period only down -1.03% and -6.88% respectively. The MSCI Emerging Markets Index was more exposed to India, China, and Russia compared to the WisdomTree Funds. These markets suffered as investors fled risky assets. WisdomTree Emerging Markets Funds are dividend focused and as such India, China and Russia were under represented in both DEM and DGS, which helped the Funds performance. Both DEM and DGS benefited from exposure to Taiwan, which had positive returns for the period.

The two WisdomTree International Funds with the lowest returns over the period were the WisdomTree Global Natural Resources Fund and the WisdomTree Europe SmallCap Dividend Fund. The WisdomTree Europe SmallCap Dividend Fund s decline can be associated with the continuing troubles in the European economy with the ongoing debt crisis. This Fund has both exposure to the euro, which declined 5% over the period, as well as cyclical sectors, such as those that were negatively impacted by fears over the continuing weakness in the European economies. Commodity sectors such as those in the WisdomTree Global Natural Resources Fund, experienced the greatest declines in the global markets. Commodity prices are sensitive to economic conditions and there were ongoing questions about global growth prospects emanating from the same European issues mentioned above.

Fund returns are shown at NAV. Please see Performance Summaries on the subsequent pages for more complete performance information. Please see pages 25-27 for the list of index descriptions.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Funds performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. For the most recent month end performance information visit www.wisdomtree.com.

The WisdomTree DEFA Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Dividend Index of Europe, Far East Asia and Australasia (the WisdomTree DEFA Index).

The Fund returned -6.18% at net asset value (NAV) for the fiscal year ended March 31, 2012 (for more complete performance information please see the chart below). The Fund s performance benefited most from its investment in the United Kingdom. The Fund s position in France created the greatest drag on performance.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. As of the Fund s current prospectus dated July 29, 2011, the Fund s annual expense ratio was 0.48%.

The WisdomTree Global Equity Income Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Global Equity Income Index.

The Fund returned -2.70% at net asset value (NAV) for the fiscal year ended March 31, 2012 (for more complete performance information please see the chart below). The Fund's performance benefited most from its investment in the United States. The Fund's position in France created the greatest drag on performance.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. As of the Fund s current prospectus dated July 29, 2011, the Fund s annual expense ratio was 0.58%.

The WisdomTree Global ex-U.S. Growth Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Global ex-U.S. Growth Index.

The Fund returned -5.20% at net asset value (NAV) for the fiscal year ended March 31, 2012 (for more complete performance information please see the chart below). The Fund s performance benefited most from its investments in the Consumer Discretionary sector. The Fund s position in the Materials sector created the greatest drag on performance.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. As of the Fund s current prospectus dated July 29, 2011, the Fund s annual expense ratio was 0.60%.

The WisdomTree Japan SmallCap Dividend Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Japan SmallCap Dividend Index.

The Fund returned 7.36% at net asset value (NAV) for the fiscal year ended March 31, 2012 (for more complete performance information please see the chart below). The Fund's performance benefited most from its investments in the Consumer Discretionary sector. The Fund's position in the Materials sector created the greatest drag on performance.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to

calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. As of the Fund s current prospectus dated July 29, 2011, the Fund s annual expense ratio was 0.58%.

The WisdomTree International SmallCap Dividend Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree International SmallCap Dividend Index.

The Fund returned -3.41% at net asset value (NAV) for the fiscal year ended March 31, 2012 (for more complete performance information please see the chart below). The Funds performance benefited most from its investment in Japan. The Funds position in Australia created the greatest drag on performance.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. As of the Fund s current prospectus dated July 29, 2011, the Fund s annual expense ratio was 0.58%.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor s shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares.

* The ten largest holdings are subject to change, and there are no guarantees the Fund will remain invested in any particular company.

The WisdomTree Global ex-U.S. Utilities Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Global ex-U.S. Utilities Index.

The Fund returned -7.41% at net asset value (NAV) for the fiscal year ended March 31, 2012 (for more complete performance information please see the chart below). The Fund s performance benefited most from its investment in the United Kingdom. Investment in France created the greatest drag on performance.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund s per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund s performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. As of the Fund s current prospectus dated July 29, 2011, the Fund s annual expense ratio was 0.58%.

Description of Indexes (unaudited)

Below are descriptions of each Index referenced in this Report:

The **WisdomTree DEFA Index** measures the performance of dividend-paying companies in the industrialized world, excluding Canada and the United States.

The **WisdomTree DEFA International Hedged Equity Index** measures the performance of dividend-paying companies in the industrialized world, excluding Canada and the United States, and is designed to neutralize exposure to fluctuations between the value of the U.S. dollar and non-U.S. currencies reflected in the index. This index is based on the WisdomTree DEFA Index.

The **WisdomTree DEFA Equity Income Index** measures the performance of companies with high dividend yields selected from the WisdomTree DEFA Index.

The **WisdomTree Global Equity Income Index** measures the performance of high dividend-paying companies selected from the WisdomTree Dividend Index and the WisdomTree World ex-U.S. Index.

The **WisdomTree Europe Equity Income Index** measures the performance of companies with high dividend yields selected from the WisdomTree Europe Dividend Index.

The **WisdomTree Europe SmallCap Dividend Index** measures the performance of the small-capitalization segment of the European dividend-paying market.

The **WisdomTree Japan Dividend Index** measures the performance of dividend-paying companies incorporated in Japan, listed on the Tokyo Stock Exchange and that meet other requirements necessary to be included in the WisdomTree DEFA Index.

The **WisdomTree Global ex-U.S. Growth Index** measures the stock performance of growth companies selected from developed and emerging markets outside the U.S.

The **WisdomTree Japan Equity Income Index** measures the performance of companies with high dividend yields selected from the WisdomTree Japan Dividend Index.

The WisdomTree Japan SmallCap Dividend Index measures the performance of dividend-paying small-capitalization companies in Japan.

The **WisdomTree Japan Hedged Equity Index** is designed to provide exposure to Japanese equity markets while at the same time neutralizing exposure to fluctuations of the Japanese Yen movements relative to the U.S. dollar. This index is based on the WisdomTree Japan Dividend Index.

The **WisdomTree Pacific ex-Japan Dividend Index** measures the performance of dividend-paying companies incorporated in the Pacific region, excluding Japan.

The **WisdomTree Asia Pacific ex-Japan Index** measures the performance of dividend-paying companies incorporated in emerging market and developed countries in the Pacific region, excluding Japan.

The **WisdomTree Pacific ex-Japan Equity Income Index** measures the performance of companies with high dividend yields selected from the WisdomTree Pacific ex-Japan Dividend Index.

The WisdomTree Australia Dividend Index measures the performance of dividend-paying companies incorporated in Australia.

The **WisdomTree International LargeCap Dividend Index** measures the performance of the large-capitalization segment of the dividend-paying market in the industrialized world outside the U.S. and Canada.

The **WisdomTree International Dividend ex-Financials Index** measures the performance of high dividend-yielding international stocks outside the financial sector.

The **WisdomTree International Dividend Top 100 Index** measures the performance of the 100 highest dividend-yielding companies in the WisdomTree International LargeCap Dividend Index.

The **WisdomTree International MidCap Dividend Index** measures the performance of the mid-capitalization segment of the dividend-paying market in the industrialized world outside the U.S. and Canada.

Description of Indexes (unaudited) (continued)

The **WisdomTree International SmallCap Dividend Index** measures the performance of the small-capitalization segment of the dividend-paying market in the industrialized world outside the U.S. and Canada.

The **WisdomTree Emerging Markets Equity Income Index** measures the performance of the highest dividend-yielding stocks selected from the WisdomTree Emerging Markets Dividend Index.

The **WisdomTree Emerging Markets SmallCap Dividend Index** measures the performance of primarily small-capitalization stocks selected from the WisdomTree Emerging Markets Dividend Index.

The **WisdomTree Middle East Dividend Index** measures the performance of companies in the Middle East region that pay regular cash dividends on shares of common stock and that meet specified requirements as of the index measurement date.

The **WisdomTree International Sector Indexes** which encompasses Basic Materials, Energy and Utilities, are derived from the WisdomTree DEFA Index, and measure the performance of dividend-paying companies in developed markets outside the U.S. and Canada, within their specific international sectors.

The **WisdomTree Commodity Country Equity Index** measures the performance of dividend-paying companies in developed and emerging market countries outside the U.S. and Canada in the Commodities sector.

The **WisdomTree Global Natural Resources Index** measures the performance of dividend-paying companies in developed and emerging market countries outside the U.S. and Canada in the Natural Resources sector.

The **WisdomTree Global ex-U.S. Utilities Index** measures the performance of dividend-paying companies in developed and emerging market countries outside the U.S. and Canada in the Utilities sector.

The **WisdomTree International Real Estate Index** measures the performance of companies in developed markets outside of the U.S. and Canada that pay regular cash dividends and that WisdomTree Investments classifies as being part of the International Real Estate sector.

The **WisdomTree Global ex-U.S. Real Estate Index** measures the performance of companies in developed and emerging markets outside of Canada and the U.S., which WisdomTree classifies as being Global Real Estate securities.

The **MSCI EAFE Index** is a market cap-weighted index composed of companies representative of the developed market structure of 21 developed countries in Europe, Australasia and Japan.

The MSCI EAFE Value Index measures the performance of value stocks in the MSCI EAFE Index.

The **MSCI EAFE Mid Cap Index** is a free float-adjusted market capitalization index that is designed to measure the performance of mid-capitalization equities in the developed markets excluding the U.S. & Canada.

The MSCI EAFE Small Cap Index measures the performance of small-capitalization stocks in the MSCI EAFE Index.

The MSCI Europe Small Cap Index measures the performance of small-capitalization stocks in the MSCI Europe Index.

The MSCI Europe Value Index measures the performance of value stocks in the MSCI Europe Index.

The MSCI AC World Index measures the performance of the world stock market indexes covered by MSCI.

The **MSCI Pacific ex-Japan Index** is a subset of the MSCI EAFE Index and measures the performance of stocks in Australia, Hong Kong, Singapore and New Zealand.

The MSCI AC Asia Pacific ex-Japan Index measures the performance of large- and mid-capitalization segments of emerging market and developed market countries in the Asia Pacific region, excluding Japan.

Description of Indexes (unaudited) (continued)

The MSCI Pacific ex-Japan Value Index measures the performance of value stocks in the MSCI Pacific ex-Japan Index.

The MSCI Australia Index measures the performance of large- and mid-capitalization segments of the Australia market.

The MSCI Japan Index is a capitalization weighted index that measures the performance of stocks in Japan.

The MSCI Japan Value Index measures the performance of value stocks in the MSCI Japan Index.

The **MSCI ACWI ex-U.S.A. Index** measures the performance of large- and mid-capitalization segments of the developed and emerging markets covered by MSCI, excluding the U.S.

The **MSCI AC World ex-U.S.A. Growth Index** measures the performance of growth stocks in the developed and emerging markets covered by MSCI excluding the U.S.

The MSCI Japan Small Cap Index measures the performance of small cap stocks in the MSCI Japan Index.

The **MSCI Japan Local Currency Index** is a free float-adjusted market capitalization index that is designed to measure developed market equity performance in Japan and uses the same methodology as its corresponding MSCI Japan Index. The price used for each security in the local currency index is the local price, on the primary exchange on which a security is traded, with no conversion into U.S. dollars.

The **MSCI Emerging Markets Index** is a free float-adjusted market capitalization index that is designed to measure emerging markets equity performance.

The **MSCI Emerging Markets Small Cap Index** is a free float-adjusted market capitalization index that is designed to measure the performance of small capitalization equities in the emerging markets.

The **MSCI Arabian Markets ex-Saudi Arabia Index** is a free float-adjusted market capitalization index that is designed to measure the performance of stocks in the Gulf Cooperation Council (GCC) countries and the neighboring region: the United Arab Emirates, Kuwait, Qatar, Bahrain, Oman, Egypt, Jordan, and Morocco.

The **MSCI EAFE Local Currency Index** is a free float-adjusted market capitalization weighted index that is designed to measure developed market equity performance, excluding the U.S. and Canada. The index is calculated using the same methodology as its corresponding MSCI EAFE Index in U.S. dollars, with the key difference being the currency in which the securities are quoted in. The price used for each security in the local currency index is the local price, on the primary exchange on which a security is traded, with no conversion into U.S. dollars.

The S&P Developed ex-U.S. BMI Sector Indexes are indexes that track specific sectors of developed global markets outside the United States.

The **S&P** Global Natural Resources Index is comprised of the largest publicly traded companies in natural resources and commodities businesses that meet specific investability requirements.

The **Dow Jones Global ex-U.S. Select Real Estate Securities Index** is a float-adjusted market capitalization weighted index that defines and measures the investable universe of publicly traded real estate securities in countries outside the U.S.

Index performance information assumes the reinvestment of net dividends and excludes management fees, transaction costs and expenses. You cannot directly invest in an index.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2011 to March 31, 2012.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by 1,000 (for example, an 8,600 account value divided by 1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled Expenses Paid During the Period 10/01/11 to 3/31/12 to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.
