Komatsu Ltd. and Consolidated Subsidiaries

Three months ended June 30, 2012 and 2011

Notes to Quarterly Consolidated Financial Statements (Unaudited)

1. Basis of Quarterly Financial Statement Presentation and Summary of Significant Accounting Policies

Basis of Quarterly Financial Statement Presentation

Komatsu Ltd. (Company) and consolidated subsidiaries (together Komatsu) prepare and present the accompanying quarterly consolidated financial statements in accordance with accounting principles generally accepted in the United States of America.

Summary of Significant Accounting Policies

The Company adopted the Accounting Standards Update (ASU) 2011-05, Presentation of Comprehensive Income, starting in the first quarter period of FY2012, ending March 31, 2013. The Update requires an entity to report comprehensive income either in a single continuous financial statement (one-statement approach) or in two separate but consecutive statements (two-statement approach). Concerning ASU2011-12, Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items out of Accumulated Other Comprehensive Income in ASU 2011-05, however, the effective date for amendments to the presentation of reclassification of items out of other comprehensive income has been deferred. ASU2011-05 being a disclosure regulation, such adoption did not have any impact on the Company s financial position and results of operations.

Excluding the above, there is no material change for Summary of Significant Accounting Policies stated in annual report for the year ended March 31, 2012.

2. Supplemental Cash Flow Information

Additional cash flow information and noncash investing and financing activities for the three months ended June 30, 2012 and 2011 are as follows:

	Millions of yen	
	Three months ended June 30, 2012	Three months ended June 30, 2011
Additional cash flow information:		
Interest paid	¥ 2,507	¥ 1,848
Income taxes paid	22,301	35,358
Noncash investing and financing activities:		
Capital lease obligations incurred	¥ 976	¥ 241

3. Allowance for Doubtful Receivables

At June 30, 2012 and at March 31, 2012, allowances for doubtful receivables deducted from Trade notes and accounts receivable and Long-term trade receivables are ¥14,026 million and ¥15,243 million, respectively.

4. Inventories

At June 30, 2012 and at March 31, 2012, inventories comprised the following:

	Millions of yen	
	June 30, 2012	March 31, 2012
Finished products, including finished parts held for sale	¥ 421,560	¥ 422,001
Work in process	150,279	141,302
Materials and supplies	43,561	49,056
Total	¥ 615,400	¥ 612,359

5. Investment Securities

Investment securities at June 30, 2012 and at March 31, 2012 primarily consisted of securities available for sale.

Unrealized holding gains and losses are included as a component of accumulated other comprehensive income (loss) until realized.

The cost, gross unrealized holding gains and losses, and fair value for such investment securities by major security types at June 30, 2012 and at March 31, 2012 are as follows:

	Cost	Millions of yen Gross unrealized holding		Fair value
		Gains	Losses	
At June 30, 2012				
Investment securities:				
Marketable equity securities available for sale	¥ 19,891	¥ 19,206	¥ 222	¥ 38,875
Other investment securities at cost	7,484			
	¥ 27,375			
At March 31, 2012				
Investment securities:				
Marketable equity securities available for sale	¥ 19,890	¥ 26,072	¥ 29	¥ 45,933
Other investment securities at cost	8,259			
	¥ 28,149			

Other investment securities primarily include non-marketable equity securities. The fair value of other investment securities was not estimated as it was not practicable to estimate the fair value of investments and no significant events or changes that might have effected the fair value of those investments were observed.

Proceeds from the sales of investment securities available for sale were ¥418 million and ¥410 million for the three months ended June 30, 2012 and 2011, respectively.

Impairment losses and net realized gains or losses from sale of investment securities available for sale during the three months ended June 30, 2012 and 2011 amounted to losses of ¥70 million and gains of ¥130 million, respectively. Such gains and losses were included in other income (expenses), net in the accompanying consolidated statements of income.

The cost of the investment securities sold was computed based on the average-cost method.

Gross unrealized holding losses and the fair value of available-for-sale securities, aggregated by length of time that individual securities have been in a continuous unrealized loss position at June 30,2012 and March 31, 2012 are as follows:

	Less than 12 months		Millions of yen 12 months or longer		Total	
	Fair value	Gross unrealized holding losses	Fair value	Gross unrealized holding losses	Fair value	Gross unrealized holding losses
At June 30, 2012						
Investment securities:						
Marketable equity securities available for sale	¥ 988	¥ 222	¥	¥	¥ 988	¥ 222
At March 31, 2012						
Investment securities:						
Marketable equity securities available for sale	¥ 272	¥ 29	¥	¥	¥ 272	¥ 29

Komatsu judged the decline in fair value of investment securities to be temporary at June 30, 2012 and at March 31,2012, with considering such factors as financial and operating conditions of issuer, the industry in which the issuer operates and other relevant factors.

6. Share-Based Compensation

The Company intends to transfer the Company's shares to directors and certain employees and certain directors of subsidiaries under an agreement granting the right for them to request such transfers at a predetermined price.

Komatsu recognizes compensation expense using the fair value method. For the three months ended June 30, 2012 and 2011, no compensation expense was recorded as no right was granted.

7. Income Taxes

The effective tax rates for the three months ended June 30, 2012 and 2011 were 33.5% and 16.3%. At the three months ended June 30, 2011, the differences between the effective tax rate and the Japanese statutory tax rate 40.8% include a decrease of the valuation allowance of ¥12,686 million (18.5% on income before income taxes and equity in earnings of affiliated companies) by a change in assessment about the likelihood of recovery of a deferred tax asset related to the decision of the merger between Komatsu Rental Ltd. and the Company during the three months ended June 30, 2011.

8. Net Income Attributable to Komatsu Ltd. per Share

A reconciliation of the numerators and denominators of the basic and diluted net income attributable to Komatsu Ltd. per share computations is as follows:

	Millions of yen	
	Three months ended June 30, 2012	Three months ended June 30, 2011

Net income attributable to Komatsu Ltd. per share:		
Basic	¥ 33.73	¥ 57.55
Diluted	¥ 33.71	¥ 57.50

9. Contingent Liabilities

At June 30, 2012 and at March 31, 2012, Komatsu was contingently liable for discounted and transferred receivables on a recourse basis with the financial institutions of ¥719 million and ¥1,875 million, respectively.

Komatsu provides guarantees to third parties of loans of the employees, affiliated companies, customers and other companies. The guarantees relating to the employees are mainly made for their housing loans. The guarantees of loans relating to the affiliated companies, customers and other companies are made to enhance the credit of those companies.

For each guarantee provided, Komatsu would have to perform under a guarantee, if the borrower defaults on a payment within the contract terms. The contract terms are from 10 years to 30 years in the case of employees with housing loans, and from 1 year to 11 years in the case of loans relating to the affiliated companies, customers and other companies. The maximum amount of undiscounted payments Komatsu would have had to make in the event of default was ¥83,470 million and ¥92,955 million at June 30, 2012 and at March 31, 2012, respectively. The fair value of the liabilities recognized for Komatsu's obligations as guarantors under those guarantees at June 30, 2012 was insignificant. Certain of those guarantees were secured by collateral and insurance issued to Komatsu.

Management of Komatsu believes that losses from those contingent liabilities, if any, would not have a material effect on the consolidated financial statements.

Komatsu is involved in certain legal actions and claims arising in the ordinary course of its business. It is the opinion of management and legal counsel that such litigation and claims will be resolved without material effect on Komatsu's financial statements.

Komatsu has business activities with customers, dealers and associates around the world and its trade receivables from such parties are well diversified to minimize concentrations of credit risks. Management does not anticipate incurring losses on its trade receivables in excess of established allowances.

11. Fair Values of Financial Instruments

(1) Cash and Cash Equivalents, Time Deposits, Trade Notes and Accounts Receivable, Other Current Assets, Short-Term Debt, Trade Notes, Bills and Accounts Payables, and Other Current Liabilities

The carrying amount approximates fair value because of the short maturity of these instruments.

(2) Investment Securities, Marketable Equity Securities

The fair values of investment securities available for sale for which it is practicable to estimate fair value are based on quoted market prices and are recognized on the accompanying consolidated balance sheets.

(3) Long-Term Trade Receivables, Including Current Portion

The fair values of long-term trade receivables are based on the present value of future cash flows through maturity, discounted using estimated current interest rates. The fair values computed on such a basis approximate the carrying amounts.

(4) Long-Term Debt, Including Current Portion(Note 12)

The fair values of each of the long-term debts are based on the quoted price in the most active market or the present value of future cash flows associated with each instrument discounted using the current borrowing rate for similar debt of comparable maturity and is classified in Level 2 in the fair value hierarchy.

(5) Derivatives(Notes 10 and 12)

The fair values of derivative financial instruments, consisting principally of foreign exchange contracts and interest swap agreements, are estimated by obtaining quotes from brokers and are recognized on the accompanying consolidated balance sheets.

The carrying amounts and the estimated fair values of the financial instruments, including financial instruments not qualifying as hedge, at June 30, 2012 and at March 31, 2012, are summarized as follows:

	Millions of yen			
	June 30, 2012		March 31, 2012

Assets	1,957	1,957	1,590	1,590
Liabilities	1,560	1,560	1,177	1,177

Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could affect the estimates.

12. Fair value measurements

Financial Accounting Standards Board Accounting Standard Codification (ASC) 820, Fair Value Measurements and Disclosures defines that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. The three levels of inputs used to measure fair value are as follows:

- Level 1** Quoted prices in active markets for identical assets or liabilities

- Level 2** Inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly

- Level 3** Unobservable inputs for the assets or liabilities

Assets and liabilities that are measured at fair value on a recurring basis

The fair value hierarchy levels of assets and liabilities that are measured at fair value on a recurring basis at June 30, 2012 and at March 31, 2012 are as follows:

Investment securities available for sale

Edgar Filing: KOMATSU LTD - Form 6-K

Marketable equity securities are classified in Level 1 in the fair value hierarchy. Marketable equity securities are measured using a market approach based on the quoted market prices in active markets.

Derivatives (Notes 10 and 11)

Derivatives primarily represent foreign exchange contracts and interest rate swap agreements. The fair value of foreign exchange contracts is based on a valuation model that discounts cash flows resulting from the differential between contract rate and the market-based forward rate and is classified in Level 2 in the fair value hierarchy. The fair value of interest rate swap agreements is based on a valuation model that discounts cash flows based on the terms of the contract and the swap curves and is classified in Level 2 in the fair value hierarchy.

Other

Other primarily represents loans which are measured at fair value under the Fair Value Option of FASB ASC 825, Financial Instruments. The fair value of loans is based on a valuation model based on market yield curve data and credit spread data and is classified in Level 2 in the fair value hierarchy. The credit spread data was obtained through use of credit default swaps for each counterparty.

The following table summarizes information about changes of Level 3 for the three months ended June 30, 2012 and 2011.

15. Business Segment and Geographic Information

Komatsu has two operating segments: 1) Construction, Mining and Utility Equipment 2) Industrial Machinery and Others.

The accounting policies used by the segments are the same as those used in the preparation of the quarterly consolidated financial statements.

Segment profit is determined by subtracting the cost of sales and selling, general and administrative expenses from net sales attributed to the operating segment. Segment profit excludes certain general corporate administration and finance expenses, such as costs of executive management, corporate development, corporate finance, human resources, internal audit, investor relations, legal and public relations. Segment profit also excludes certain charges which may otherwise relate to operating segments, including impairments of long lived assets and goodwill.
