Table of Contents**AVIV REIT, INC. AND SUBSIDIARIES****Notes to Consolidated Financial Statements (unaudited)****1. Description of Operations and Formation**

Aviv REIT, Inc., a Maryland corporation, and Subsidiaries (the REIT) is the sole general partner of Aviv Healthcare Properties Limited Partnership, a Delaware limited partnership, and Subsidiaries (the Partnership). The Partnership is a majority owned subsidiary that owns all of the real estate properties. In these footnotes, the Company refers generically to Aviv REIT, Inc., the Partnership, and their subsidiaries. The Partnership was formed in 2005 and directly or indirectly owned or leased 247 properties, principally skilled nursing facilities, across the United States at June 30, 2012. The Company generates the majority of its revenues by entering into long-term triple-net leases with qualified local, regional, and national operators. In addition to the base rent, leases provide for tenants to pay the Company an ongoing escrow for real estate taxes. Furthermore, all operating and maintenance costs of the buildings are the responsibility of the tenants. Substantially all depreciation expense reflected in the consolidated statements of operations and comprehensive income relates to the ownership of real estate properties. The Company manages its business as a single business segment as defined in Accounting Standards Codification (ASC) 280, *Segment Reporting*.

The Partnership is the general partner of Aviv Healthcare Properties Operating Partnership I, L.P. (the Operating Partnership), a Delaware limited partnership, and Aviv Healthcare Capital Corporation, a Delaware company. The Operating Partnership has five wholly owned subsidiaries: Aviv Financing I, LLC (Aviv Financing I), a Delaware limited liability company; Aviv Financing II, LLC (Aviv Financing II), a Delaware limited liability company; Aviv Financing III, LLC (Aviv Financing III), a Delaware limited liability company; Aviv Financing IV, LLC (Aviv Financing IV), a Delaware limited liability company; and Aviv Financing V, LLC (Aviv Financing V), a Delaware limited liability company.

On September 17, 2010, the predecessor to the Partnership entered into an agreement (the Merger Agreement), by and among the REIT, Aviv Healthcare Merger Sub LP, a Delaware limited partnership of which the REIT is the general partner (Merger Sub), Aviv Healthcare Merger Sub Partner LLC, a Delaware limited liability company and a wholly owned subsidiary of the REIT, and the predecessor to the Partnership. Pursuant to the Merger Agreement, the predecessor to the Partnership merged (the Merger) with and into Merger Sub, with Merger Sub continuing as the surviving entity with the identical name (the Surviving Partnership). Following the Merger, the REIT remains as the sole general partner of the Surviving Partnership and the Surviving Partnership, as the successor to the predecessor to the Partnership, became the general partner of the Operating Partnership.

All of the business, assets and operations are held by the Operating Partnership and its subsidiaries. The REIT's equity interest in the Surviving Partnership is linked to future investments in the REIT, such that future equity issuances by the REIT (pursuant to the Stockholders Agreement, the REIT's management incentive plan or otherwise as agreed between the parties) will result in a corresponding increase in the REIT's equity interest in the Surviving Partnership. The REIT is authorized to issue 2 million shares of common stock (par value \$0.01) and 1,000 shares of preferred stock (par value \$1,000). As a result of the common control of the REIT (which was newly formed) and the predecessor to the Partnership, the Merger, for accounting purposes, did not result in any adjustment to the historical carrying value of the assets or liabilities of the Partnership. The REIT was funded in September 2010 with approximately \$235 million from its stockholders. The REIT contributed the net proceeds of its capital raise to the Partnership in exchange for Class G Units in the Partnership. Periods prior to September 17, 2010 represent the results of operations and financial condition of the Partnership, as predecessor to the Company. On January 4, 2011, an additional 8,857 shares of common stock were issued by the REIT in connection with a \$10 million equity contribution by the REIT's stockholders. An additional 26,341 shares of common stock were issued by the REIT on October 28, 2011 concurrent with a \$30 million equity contribution by the REIT's stockholders. An additional 30,730 shares of common stock were issued by the REIT on January 23, 2012 in connection with the \$35 million equity contribution by the REIT's stockholders on December 27, 2011. The contribution received prior to year end is recognized as a liability as of December 31, 2011 as the shares of common stock were issued in the three months ended March 31, 2012. An additional 35,519 shares of common stock were issued by the REIT on March 28, 2012 concurrent with the \$40 million equity contribution by the REIT's stockholders. At June 30, 2012, there were 328,488 shares of common stock and 125 shares of preferred stock outstanding. Dividends on each outstanding share of preferred stock accrue on a daily basis at the rate of 12.5% per annum of the sum of \$1,000 plus all accumulated and unpaid dividends thereon which are in arrears. The REIT makes annual distributions on the preferred shares in the aggregate amount of \$15,625 per year. With respect to the payment of dividends or other distributions and the distribution of the REIT's assets upon dissolution, liquidation, or winding up, the preferred stock will be senior to all other classes and series of stock of the REIT. The preferred stock has not been shown separately in the consolidated balance sheets, is immaterial, and is included in additional paid-in-capital.

The operating results of the Partnership are allocated based upon the respective economic interests therein. The REIT's ownership of the Partnership was 62.42% as of June 30, 2012 and the weighted average for the three and six months ended June 30, 2012 and 2011 were 62.42%, 60.80%, 54.4% and 54.4%, respectively.

2. Summary of Significant Accounting Policies

Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Table of Contents

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the REIT, the Partnership, the Operating Partnership, and all controlled subsidiaries. The Company considers itself to control an entity if it is the majority owner of and has voting control over such entity or the power to control a variable interest entity. The portion of the net income or loss attributed to third parties is reported as net income allocable to noncontrolling interests on the consolidated statements of operations and comprehensive income, and such parties' portion of the net equity in such subsidiaries is reported on the consolidated balance sheets as noncontrolling interests. All significant intercompany balances and transactions have been eliminated in consolidation.

Quarterly Reporting

The accompanying unaudited financial statements and notes of the Company as of June 30, 2012 and for the three and six months ended June 30, 2012 and 2011 have been prepared in accordance with GAAP for interim financial information. Accordingly, certain information and footnote disclosures normally included in financial statements prepared under GAAP have been condensed or omitted pursuant to such rules. In the opinion of management, all adjustments considered necessary for a fair presentation of the Company's balance sheets, statements of operations and comprehensive income, statement of changes in equity, and statements of cash flows have been included and are of a normal and recurring nature. These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes for the Company for the years ended December 31, 2011, 2010, and 2009. The consolidated statements of operations and comprehensive income and cash flows for the three and six months ended June 30, 2012 and 2011 are not necessarily indicative of full year results.

The balance sheet at December 31, 2011 has been derived from the audited financial statements at that date, but does not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. For further information, including definitions of capitalized terms not defined herein, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the Securities and Exchange Commission.

Rental Properties

The Company periodically assesses the carrying value of rental properties and related intangible assets in accordance with ASC 360, *Property, Plant, and Equipment* (ASC 360), to determine if facts and circumstances exist that would suggest that assets might be impaired or that the useful lives should be modified. In the event impairment in value occurs and a portion of the carrying amount of the rental properties will not be recovered in part or in whole, a provision will be recorded to reduce the carrying basis of the rental properties and related intangibles to their estimated fair value. The estimated fair value of the Company's rental properties is determined by using customary industry standard methods that include discounted cash flow and/or direct capitalization analysis (Level 3) or estimated cash proceeds received upon the anticipated disposition of the asset from market comparables (Level 2). As part of the impairment evaluation for the six months ended June 30, 2012, buildings in Youngstown, AZ, Fall River, MA, West Chester, OH, Cincinnati, OH, and Zion, IL were impaired for \$557,996, \$141,204, \$3,129,658, \$90,000, and \$460,000, respectively, to reflect the estimated fair values (Level 2). As part of impairment evaluation for the three and six months ended June 30, 2011, no other rental properties or related intangible assets were concluded to be impaired.

Revenue Recognition

Rental income is recognized on a straight-line basis over the term of the lease when collectability is reasonably assured. Differences between rental income earned and amounts due under the lease are charged or credited, as applicable, to deferred rent receivable. Income recognized from this policy is titled deferred rental income. Additional rents from expense reimbursements for real estate taxes and certain other expenses are recognized in the period in which the related expenses are incurred and are reflected as tenant recoveries on the consolidated statements of operations and comprehensive income.

Table of Contents

Below is a summary of the components of rental income for the respective periods:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011

Total rental income	\$ 29,731,502	\$ 23,853,338	\$ 57,823,698	\$ 43,363,239

During the three and six months ended June 30, 2012 and 2011, deferred rental income includes a write-off of deferred rent receivable of \$509,477, \$567,745, \$254,406, and \$3,281,374, respectively, due to the early termination of leases and replacement of operators.

The Company's reserve for uncollectible tenant receivables is reflected in total rental income. The amount incurred during the three and six months ended June 30, 2012 and 2011 was \$1,704,434, \$1,741,317, \$20,136, and \$25,721, respectively.

Lease Accounting

The Company, as lessor, makes a determination with respect to each of its leases whether they should be accounted for as operating leases or direct financing leases. The classification criteria is based on estimates regarding the fair value of the leased facilities, minimum lease payments, effective cost of funds, the economic life of the facilities, the existence of a bargain purchase option, and certain other terms in the lease agreements. Assets subject to operating leases are reported as rental properties in the consolidated balance sheets. For facilities leased as direct financing arrangements, an asset equal to the Company's net initial investment is established on the balance sheet titled assets under direct financing leases. Payments received under the financing lease are bifurcated between interest income and principal amortization to achieve a consistent yield over the stated lease term using the interest method. Principal amortization (accretion) is reflected as an adjustment to the asset subject to a financing lease. Such accretion was \$31,230, \$67,341, \$32,747, and \$70,212 for the three and six months ended June 30, 2012 and 2011, respectively.

All of the Company's leases contain fixed or formula-based rent escalators. To the extent that the escalator increases are tied to a fixed index or rate, lease payments are accounted for on a straight-line basis over the life of the lease for operating leases.

Loan Receivables

Loan receivables consist of capital improvement loans to tenants and working capital loans to operators. Loan receivables are carried at their principal amount outstanding. Management periodically evaluates outstanding loans and notes receivable for collectability. When management identifies potential loan impairment indicators, such as nonpayment under the loan documents, impairment of the underlying collateral, financial difficulty of the operator, or other circumstances that may impair full execution of the loan documents, and management believes it is probable that all amounts will not be collected under the contractual terms of the loan, the loan is written down to the present value of the expected future cash flows. Loan impairment is monitored via a quantitative and qualitative analysis including credit quality indicators. No other circumstances exist that would suggest that additional reserves are necessary at the balance sheet dates other than as disclosed in Note 4.

Stock-Based Compensation

The Company follows ASC 718, *Stock Compensation* (ASC 718), which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the consolidated statements of operations and comprehensive income based on their grant date fair values. On September 17, 2010, the Company adopted a 2010 Management Incentive Plan (the Plan) as part of the Merger transaction. A pro-rata allocation of non-cash stock-based compensation expense is made to the Company and noncontrolling interests for awards granted under the Plan. The Plan's non-cash stock-based compensation expense by the Company through June 30, 2012 is summarized in Footnote 9.

Fair Value of Financial Instruments

Edgar Filing: AVIV REIT, INC. - Form 10-Q

ASC 820, *Fair Value Measurements and Disclosures* (ASC 820), establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels are defined as follows:

Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or;

Table of Contents

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument; and

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Effective January 1, 2012, companies are required to separately disclose the amounts and reasons for any transfers of assets and liabilities into and out of Level 1 and Level 2 of the fair value hierarchy. For fair value measurements using significant unobservable inputs (Level 3), companies are required to disclose quantitative information about the significant unobservable inputs used for all Level 3 measurements and a description of the Company's valuation processes in determining fair value. In addition, companies are required to provide a qualitative discussion about the sensitivity of recurring Level 3 measurements to changes in the unobservable inputs disclosed, including the interrelationship between inputs. Companies are also required to disclose information about when the current use of a non-financial asset measured at fair value differs from its highest and best use and the hierarchy classification for items whose fair value is not recorded on the balance sheet but is disclosed in the notes. This does not have a material effect on the Company's consolidated results of operations or financial position. See Note 11 for further discussion.

The Company's interest rate swaps are valued using models developed by the respective counterparty that use as their basis readily observable market parameters and are classified within Level 2 of the valuation hierarchy.

Cash and cash equivalents and derivative financial instruments are reflected in the accompanying consolidated balance sheets at amounts considered by management to reasonably approximate fair value. Management estimates the fair value of its long-term debt using a discounted cash flow analysis based upon the Company's current borrowing rate for debt with similar maturities and collateral securing the indebtedness. The Company had outstanding mortgage and other notes payable obligations with a carrying value of approximately \$651.6 million and \$600.5 million as of June 30, 2012 and December 31, 2011, respectively. The fair values of debt as of June 30, 2012 was \$667.4 million and as of December 31, 2011 was \$597.7 million based upon interest rates available to the Company on similar borrowings (Level 3). Management estimates the fair value of its loan receivables using a discounted cash flow analysis based upon the Company's current interest rates for loan receivables with similar maturities and collateral securing the indebtedness. The Company had outstanding loan receivables with a carrying value of \$33.6 million and \$33.0 million as of June 30, 2012 and December 31, 2011, respectively. The fair values of loan receivables as of June 30, 2012 and as of December 31, 2011 approximate its carrying value based upon interest rates available to the Company on similar borrowings.

Derivative Instruments

In the normal course of business, a variety of financial instruments are used to manage or hedge interest rate risk. The Company has implemented ASC 815, *Derivatives and Hedging* (ASC 815), which establishes accounting and reporting standards requiring that all derivatives, including certain derivative instruments embedded in other contracts, be recorded as either an asset or liability measured at their fair value unless they qualify for a normal purchase or normal sales exception. When specific hedge accounting criteria are not met, ASC 815 requires that changes in a derivative's fair value be recognized currently in earnings. Changes in the fair market values of the Company's derivative instruments are recorded in the consolidated statements of operations and comprehensive income if the derivative does not qualify for or the Company does not elect to apply hedge accounting. If the derivative is deemed to be eligible for hedge accounting, such changes are reported in accumulated comprehensive income within the consolidated statement of changes in equity, exclusive of ineffectiveness amounts, which are recognized as adjustments to net income. In November 2010, the Company entered into two interest rate swaps and account for changes in fair value of such hedges through accumulated other comprehensive (loss) income in equity and in the consolidated statements of operations and comprehensive income in our financial statements via hedge accounting.

Income Taxes

For federal income tax purposes, the Company elected, with the filing of its initial 1120 REIT, U.S. Income Tax Return for Real Estate Investment Trusts, to be taxed as a Real Estate Investment Trust (REIT) effective at the time of the Merger. To qualify as a REIT, the Company must meet certain organizational, income, asset and distribution tests. The Company currently intends to comply with these requirements and maintain REIT status. If the Company fails to qualify as a REIT in any taxable year, the Company will be subject to federal income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not elect REIT status for four subsequent years. However, the Company may still be subject to federal excise tax. In addition, the Company may be subject to certain state and local income and franchise taxes. Historically, the Company and its predecessor have generally only incurred certain state and local income and franchise taxes, but these amounts were immaterial in each of the periods presented. Prior to the Merger, the Partnership was a limited partnership and the consolidated operating results were included in the income tax returns of the individual partners. No uncertain income tax positions exist as of June 30, 2012 or December 31, 2011.

Business Combinations

The Company applies ASC 805, *Business Combinations* (ASC 805), in determining how to account for and identify business combinations by allocating fair value to tangible and identified intangible assets acquired and liabilities assumed using market comparables and historical operating results (Level 3). Acquisition related costs are expensed as incurred.

Discontinued Operations

In accordance with ASC 205-20, *Presentation of Financial Statements - Discontinued Operations* (ASC 205-20), the results of operations to the actual or planned disposition of rental properties are reflected in the consolidated statements of operations and comprehensive income as discontinued operations for all periods presented.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current financial statement presentation, with no effect on the Company's consolidated financial position or results of operations.

Net income	4,159,688	8,925,239	11,717,380	11,266,307

Table of Contents

During the three and six months ended June 30, 2012, revenues attributable to the acquired assets were approximately \$3.3 million and \$3.6 million, respectively, and net income attributable to the acquired assets was approximately \$0.8 million and \$0.6 million, respectively, recognized in the consolidated statements of operations and comprehensive income.

Related to the above business combinations, the Company incurred \$989,040 of acquisition costs that are expensed in general and administrative expenses in the consolidated statements of operations and comprehensive income. In accordance with ASC 805, the Company allocated the approximate purchase price paid for these properties acquired in 2012 as follows:

Land	\$ 13,448,866
Buildings and improvements	96,920,940
Furniture, fixtures, and equipment	9,601,194
Mortgages and other notes payable assumed	(11,459,794)
Borrowings and available cash	\$ 108,511,206

The Company considers renewals on above or below market leases when ascribing value to the in-place lease intangible assets and liabilities, respectively, at the date of a property acquisition. In those instances where the renewal lease rate pursuant to the terms of the lease does not adjust to a current market rent, the Company evaluates whether the stated renewal rate is above or below current market rates and considers the past and current operations of the property, the current rent coverage ratio of the tenant, and the number of years until potential renewal option exercise. If renewal is considered probable based on these factors, an additional lease intangible asset or liability is recorded at acquisition and amortized over the renewal period.

The following summarizes the Company's construction in progress at:

The Acquisition Credit Line

Under the Credit Agreement, the Company also has a \$100 million Acquisition Credit Line. The 2016 Revolver had an outstanding balance of \$26.4 million as of June 30, 2012.

From May 1, 2012 through the maturity date of December 1, 2013, monthly payments of principal and interest are due based on a 20-year amortization schedule. The Company is obligated to pay the remaining principal and interest payments of the loan. A premium of \$2.5 million was associated with the assumption of debt and will be amortized as an adjustment to interest expense on the HUD loan over its term.

The Partnership had established an officer incentive program linked to its future value. Awards vest annually over a five-year period assuming continuing employment by the recipient. The awards can be settled in Class C Units or cash at the Company's discretion at the settlement date of December 31, 2012. For accounting purposes, expense recognition under the program commenced in 2008, and the related expense for the three and six months ended June 30, 2012 and 2011 was approximately \$101,500, \$203,000, \$101,500 and \$203,000, respectively.

As a result of the Merger on September 17, 2010, such incentive program was modified such that 40% of the previously granted award settled immediately on the Merger date with another 20% vesting and settled on December 31, 2010. The remaining 40% vested 20% on December 31, 2011 and 20% will vest on December 31, 2012, and will settle in 2018, subject to the terms and conditions of the amended incentive program agreement. 10. Related Parties

Related party receivables and payables represent amounts due from/to various affiliates of the Company, including advances to members of the Company, amounts due to certain acquired companies and limited liability companies for transactions occurring prior to the formation of the Company, and various advances to entities controlled by affiliates of the Company's management. An officer of the Company received a loan of \$311,748, which was paid off in full as of June 30, 2011. There were no related party receivables or payables as of June 30, 2012, other than amounts owed from the Partnership to the REIT for accrued distributions.

11. Derivatives

During the periods presented, the Company was party to various interest rate swaps, which were purchased to fix the variable interest rate on the denoted notional amount under the original debt agreements.

Edgar Filing: AVIV REIT, INC. - Form 10-Q

At June 30, 2012, the Company was party to two interest rate swaps, with identical terms for \$100 million each. They were purchased to fix the variable interest rate on the denoted notional amount under the Term Loan which was obtained in September, 2010, and qualify for hedge accounting. For presentational purposes they are shown as one derivative due to the identical nature of their economic terms.

Table of Contents

The following table provides the Company's derivative assets and liabilities carried at fair value as measured on a recurring basis as of June 30, 2012 (dollars in thousands):

	Total Carrying Value at June 30, 2012	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Derivative assets	\$	\$	\$	\$
Derivative liabilities	(4,079)		(4,079)	
	\$ (4,079)	\$	\$ (4,079)	\$

The Company's derivative assets and liabilities include interest rate swaps that effectively convert a portion of the Company's variable rate debt to fixed rate debt. The derivative positions are valued using models developed by the respective counterparty that use as their basis readily observable market parameters (such as forward yield curves) and are classified within Level 2 of the valuation hierarchy. The Company considers its own credit risk as well as the credit risk of its counterparties when evaluating the fair value of its derivatives.

12. Commitments and Contingencies

The Company has a contractual arrangement with a tenant to reimburse quality assurance fees levied by the California Department of Health Care Services from August 1, 2005 through July 31, 2008. The Company is obligated to reimburse the fees to the tenant if and when the state withholds these fees from the tenant's Medi-Cal reimbursements associated with 5 facilities that were formerly leased to Trinity Health Systems. The total possible obligation for these fees is \$1.4 million, which the Company has paid.

Judicial proceedings seeking declaratory relief for these fees are in process which if successful would provide for recovery of such amounts from the State of California. The Company has certain rights to seek relief against Trinity Health Systems for monies paid out under the indemnity claim; however, it is uncertain whether the Company will be successful in receiving any amounts from Trinity.

During 2011, the Company entered into a contractual arrangement with a tenant in one of its facilities to reimburse any liabilities, obligations or claims of any kind or nature resulting from the actions of the former tenant in such facility, Brighten Health Care Group. The Company is obligated to reimburse the fees to the tenant if and when the tenant incurs such expenses associated with certain Indemnified Events, as defined therein. The total possible obligation for these fees is estimated to be \$2.3 million, of which approximately \$1.8 million has been paid to date. The remaining \$0.5 million was accrued as a component of other liabilities in the consolidated balance sheets.

In late 2011, after a dispute with a small number of its limited partners, the Partnership filed a declaratory judgment motion in the Delaware Chancery Court seeking confirmation that certain adjustments to the distributions of cash flows of the Partnership were made in accordance with the partnership agreement following the investment in the Partnership by Aviv REIT and related financing transactions. The dispute relates to the relative distributions among classes of limited partners that existed prior to the investment by Aviv REIT.

The Company is involved in various unresolved legal actions and proceedings, which arise in the normal course of our business. Although the outcome of a particular proceeding can never be predicted, we do not believe that the result of any of these other matters will have a material adverse effect on our business, operating results, or financial position.

13. Concentration of Credit Risk

As of June 30, 2012, the Company's portfolio of investments consisted of 247 healthcare facilities, located in 27 states and operated by 35 third party operators. At June 30, 2012, approximately 54.9% (measured as a percentage of total assets) were leased by five private operators: Saber Health Group (15.0%), Daybreak Healthcare (14.5%), Evergreen Healthcare (10.4%), Sun Mar Healthcare (7.8%), and Maplewood (7.3%). No other operator represents more than 6.8% of our total assets. The five states in which the Company had its highest concentration of total assets were Texas (17.8%), California (16.3%), Ohio (7.9%), Connecticut (7.3%) and Pennsylvania (7.3%) at June 30, 2012.

For the six months ended June 30, 2012, the Company's rental income from operations totaled approximately \$57.8 million of which approximately \$8.9 million was from Daybreak Healthcare (15.4%), \$8.5 million was from Saber Health Group (14.7%), \$6.1 million was from Evergreen Healthcare (10.5%), \$4.8 million was from Sun Mar Healthcare (8.3%), and \$4.2 million was from Benchmark Healthcare (7.2%).

Edgar Filing: AVIV REIT, INC. - Form 10-Q

No other operator generated more than 6.2% of the Partnership's rental income from operations for the six months ended June 30, 2012.

Table of Contents**AVIV HEALTHCARE PROPERTIES LIMITED PARTNERSHIP AND SUBSIDIARIES****Notes to Consolidated Financial Statements (unaudited)****1. Description of Operations and Formation**

Aviv Healthcare Properties Limited Partnership, a Delaware limited partnership, and Subsidiaries (the Partnership) was formed in 2005 and directly or indirectly owned or leased 247 properties, principally skilled nursing facilities, across the United States at June 30, 2012. The Partnership generates the majority of its revenues by entering into long-term triple-net leases with qualified local, regional, and national operators. In addition to the base rent, leases provide for tenants to pay the Partnership an ongoing escrow for real estate taxes. Furthermore, all operating and maintenance costs of the buildings are the responsibility of the tenants. Substantially all depreciation expense reflected in the consolidated statements of operations and comprehensive income relates to the ownership of real estate properties. The Partnership manages its business as a single business segment as defined in Accounting Standards Codification (ASC) 280, *Segment Reporting*.

The Partnership is the general partner of Aviv Healthcare Properties Operating Partnership I, L.P. (the Operating Partnership), a Delaware limited partnership, and Aviv Healthcare Capital Corporation, a Delaware company. The Operating Partnership has five wholly owned subsidiaries: Aviv Financing I, LLC (Aviv Financing I), a Delaware limited liability company; Aviv Financing II, LLC (Aviv Financing II), a Delaware limited liability company; Aviv Financing III, LLC (Aviv Financing III), a Delaware limited liability company; Aviv Financing IV, LLC (Aviv Financing IV), a Delaware limited liability company; and Aviv Financing V, LLC (Aviv Financing V), a Delaware limited liability company.

On September 17, 2010, the predecessor to the Partnership entered into an agreement (the Merger Agreement), by and among Aviv REIT, Inc. (the REIT), a Maryland corporation, Aviv Healthcare Merger Sub LP (Merger Sub), a Delaware limited partnership of which the REIT is the general partner, Aviv Healthcare Merger Sub Partner LLC, a Delaware limited liability company and a wholly owned subsidiary of the REIT, and the Partnership. Effective on such date, the REIT is the sole general partner of the Partnership. Pursuant to the Merger Agreement, the predecessor to the Partnership merged (the Merger) with and into Merger Sub, with Merger Sub continuing as the surviving entity with the identical name (the Surviving Partnership). Following the Merger, the REIT remains as the sole general partner of the Surviving Partnership and the Surviving Partnership, as the successor to the predecessor to the Partnership, became the general partner of the Operating Partnership.

All of the business, assets and operations are held by the Operating Partnership and its subsidiaries. The REIT's equity interest in the Surviving Partnership is linked to future investments in the REIT, such that future equity issuances by the REIT (pursuant to the Stockholders Agreement, the REIT's management incentive plan or otherwise as agreed between the parties) will result in a corresponding increase in the REIT's equity interest in the Surviving Partnership. The REIT is authorized to issue 2 million shares of common stock (par value \$0.01) and 1,000 shares of preferred stock (par value \$1,000). At June 30, 2012, there were 328,488 shares of common stock and 125 shares of preferred stock outstanding.

As a result of the common control of the REIT (which was newly formed) and the predecessor to the Partnership, the Merger, for accounting purposes, did not result in any adjustment to the historical carrying value of the assets or liabilities of the Partnership. The REIT was funded in September 2010 with approximately \$235 million from its stockholders, and such amounts, net of costs, were contributed to the Partnership in September 2010 in exchange for Class G Units in the Partnership. An additional \$75 million was contributed by the REIT's stockholders during 2011, of which \$35 million was recognized as a contribution in January 2012. Additionally, the REIT's stockholders contributed \$40 million on March 28, 2012. As of June 30, 2012, the REIT owned 62.42% of the Partnership and the weighted average for the three and six months ended June 30, 2012 and 2011 were 62.42%, 60.80%, 54.4% and 54.4%, respectively.

2. Summary of Significant Accounting Policies**Estimates**

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Partnership, the Surviving Partnership, the Operating Partnership, and all controlled subsidiaries. The Partnership considers itself to control an entity if it is the majority owner of and has voting

Edgar Filing: AVIV REIT, INC. - Form 10-Q

control over such entity or the power to control a variable interest entity. The portion of the net income or loss attributed to third parties is reported as net income allocable to noncontrolling interests on the consolidated statements of operations and comprehensive income, and such parties' portion of the net equity in such subsidiaries is reported on the consolidated balance sheets as noncontrolling interests. All significant intercompany balances and transactions have been eliminated in consolidation.

Quarterly Reporting

The accompanying unaudited financial statements and notes of the Partnership as of June 30, 2012 and for the three and six months ended June 30, 2012 and 2011 have been prepared in accordance with GAAP for interim financial information. Accordingly, certain information and footnote disclosures normally included in financial statements prepared under GAAP have been condensed or omitted pursuant to such rules. In the opinion of management, all adjustments considered necessary for a fair presentation of the Partnership's balance sheets, statements of operations and comprehensive income, statement of changes in equity, and statements of cash flows have been included and are of a normal and recurring nature. These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes for the Partnership for the years ended December 31, 2011, 2010, and 2009. The consolidated statements of operations and comprehensive income and cash flows for the three and six months ended June 30, 2012 and 2011 are not necessarily indicative of full year results.

The balance sheet at December 31, 2011 has been derived from the audited financial statements at that date, but does not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. For further information, including definitions of capitalized terms not defined herein, refer to the consolidated financial statements and footnotes thereto included in the Partnership's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the Securities and Exchange Commission.

Rental Properties

The Partnership periodically assesses the carrying value of rental properties and related intangible assets in accordance with ASC 360, *Property, Plant, and Equipment* (ASC 360), to determine if facts and circumstances exist that would suggest that assets might be impaired or that the useful lives should be modified. In the event impairment in value occurs and a portion of the carrying amount of the rental properties will not be recovered in part or in whole, a provision will be recorded to reduce the carrying basis of the rental properties and related intangibles to their estimated fair value. The estimated fair value of the Partnership's rental properties is determined by using customary industry standard methods that include discounted cash flow and/or direct capitalization analysis (Level 3) or estimated cash proceeds received upon the anticipated disposition of the asset from market comparables (Level 2). As part of the impairment evaluation for the six months ended June 30, 2012, buildings in Youngstown, AZ, Fall River, MA, West Chester, OH, Cincinnati, OH, and Zion, IL were impaired for \$557,996, \$141,204, \$3,129,658, \$90,000, and \$460,000, respectively, to reflect the estimated fair value (Level 2). As part of impairment evaluation for the three and six months ended June 30, 2011, no other rental properties or related intangible assets were concluded to be impaired.

Revenue Recognition

Rental income is recognized on a straight-line basis over the term of the lease when collectability is reasonably assured. Differences between rental income earned and amounts due under the lease are charged or credited, as applicable, to deferred rent receivable. Income recognized from this policy is titled deferred rental income. Additional rents from expense reimbursements for real estate taxes and certain other expenses are recognized in the period in which the related expenses are incurred and are reflected as tenant recoveries on the consolidated statements of operations and comprehensive income.

Below is a summary of the components of rental income for the respective periods:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Cash rental income	\$ 26,922,596	\$ 22,097,197	\$ 52,965,947	\$ 42,495,319
Deferred rental income	2,440,152	1,393,945	4,120,244	143,527
Rental income from intangible amortization	368,754	362,196	737,507	724,393
Total rental income	\$ 29,731,502	\$ 23,853,338	\$ 57,823,698	\$ 43,363,239

During the three and six months ended June 30, 2012 and 2011, deferred rental income includes a write-off of deferred rent receivable of \$509,477, \$567,745, \$254,406, and \$3,281,374, respectively, due to the early termination of leases and replacement of operators.

The Partnership's reserve for uncollectible tenant receivables is reflected in total rental income. The amount incurred during the three and six months ended June 30, 2012 and 2011 was \$1,704,434, \$1,741,317, \$20,136, and \$25,721, respectively.

Table of Contents

Lease Accounting

The Partnership, as lessor, makes a determination with respect to each of its leases whether they should be accounted for as operating leases or direct financing leases. The classification criteria is based on estimates regarding the fair value of the leased facilities, minimum lease payments, effective cost of funds, the economic life of the facilities, the existence of a bargain purchase option, and certain other terms in the lease agreements. Assets subject to operating leases are reported as rental properties in the consolidated balance sheets. For facilities leased as direct financing arrangements, an asset equal to the Partnership's net initial investment is established on the balance sheet titled assets under direct financing leases. Payments received under the financing lease are bifurcated between interest income and principal amortization to achieve a consistent yield over the stated lease term using the interest method. Principal amortization (accretion) is reflected as an adjustment to the asset subject to a financing lease. Such accretion was \$31,230, \$67,341, \$32,747, and \$70,212 for the three and six months ended June 30, 2012 and 2011, respectively.

All of the Partnership's leases contain fixed or formula-based rent escalators. To the extent that the escalator increases are tied to a fixed index or rate, lease payments are accounted for on a straight-line basis over the life of the lease for operating leases.

Loan Receivables

Loan receivables consist of capital improvement loans to tenants and working capital loans to operators. Loan receivables are carried at their principal amount outstanding. Management periodically evaluates outstanding loans and notes receivable for collectability. When management identifies potential loan impairment indicators, such as nonpayment under the loan documents, impairment of the underlying collateral, financial difficulty of the operator, or other circumstances that may impair full execution of the loan documents, and management believes it is probable that all amounts will not be collected under the contractual terms of the loan, the loan is written down to the present value of the expected future cash flows. Loan impairment is monitored via a quantitative and qualitative analysis including credit quality indicators. No other circumstances exist that would suggest that additional reserves are necessary at the balance sheet dates other than as disclosed in Note 4.

Stock-Based Compensation

The Partnership follows ASC 718, *Stock Compensation* (ASC 718), which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the consolidated statements of operations and comprehensive income based on their grant date fair values. On September 17, 2010, the Company adopted a 2010 Management Incentive Plan (the Plan) as part of the Merger transaction. A pro-rata allocation of non-cash stock-based compensation expense is made to the Partnership for awards granted under the Plan. The Plan's non-cash stock-based compensation expense by the Partnership through June 30, 2012 is summarized in Footnote 9.

Fair Value of Financial Instruments

ASC 820, *Fair Value Measurements and Disclosures* (ASC 820), establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels are defined as follows:

Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or;

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument; and

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Partnership's interest rate swaps are valued using models internally by the respective counterparty that use as their basis readily observable market parameters and are classified within Level 2 of the valuation hierarchy.

Effective January 1, 2012, companies are required to separately disclose the amounts and reasons for any transfers of assets and liabilities into and out of Level 1 and Level 2 of the fair value hierarchy. For fair value measurements using significant unobservable inputs (Level 3),

Edgar Filing: AVIV REIT, INC. - Form 10-Q

companies are required to disclose quantitative information about the significant unobservable inputs used for all Level 3 measurements and a description of the Partnership's valuation processes in determining fair value. In addition, companies are required to provide a qualitative discussion about the sensitivity of recurring Level 3 measurements to changes in the unobservable inputs disclosed, including the interrelationship between inputs. Companies are also required to disclose information about when the current use of a non-financial asset measured at fair value differs from its highest and best use and the hierarchy classification for items whose fair value is not recorded on the balance sheet but is disclosed in the notes. This does not have a material effect on the Partnership's consolidated results of operations or financial position. See Note 11 for further discussion.

Cash and cash equivalents and derivative financial instruments are reflected in the accompanying consolidated balance sheets at amounts considered by management to reasonably approximate fair value. Management estimates the fair value of its long-term debt using a discounted cash flow analysis based upon the Partnership's current borrowing rate for debt with similar maturities and collateral securing

Table of Contents

the indebtedness. The Partnership had outstanding mortgage and other notes payable obligations with a carrying value of approximately \$651.6 million and \$600.5 million as of June 30, 2012 and December 31, 2011, respectively. The fair values of debt as of June 30, 2012 was \$667.4 million and as of December 31, 2011 was \$597.7 million based upon interest rates available to the Partnership on similar borrowings (Level 3). Management estimates the fair value of its loan receivables using a discounted cash flow analysis based upon the Partnership's current interest rates for loan receivables with similar maturities and collateral securing the indebtedness. The Partnership had outstanding loan receivables with a carrying value of \$33.6 million and \$33.0 million as of June 30, 2012 and December 31, 2011, respectively. The fair values of loan receivables as of June 30, 2012 and as of December 31, 2011 approximate its carrying value based upon interest rates available to the Partnership on similar borrowings.

Derivative Instruments

In the normal course of business, a variety of financial instruments are used to manage or hedge interest rate risk. The Partnership has implemented ASC 815, *Derivatives and Hedging* (ASC 815), which establishes accounting and reporting standards requiring that all derivatives, including certain derivative instruments embedded in other contracts, be recorded as either an asset or liability measured at their fair value unless they qualify for a normal purchase or normal sales exception. When specific hedge accounting criteria are not met, ASC 815 requires that changes in a derivative's fair value be recognized currently in earnings. Changes in the fair market values of the Partnership's derivative instruments are recorded in the consolidated statements of operations and comprehensive income if the derivative does not qualify for or the Partnership does not elect to apply hedge accounting. If the derivative is deemed to be eligible for hedge accounting, such changes are reported in accumulated comprehensive income within the consolidated statement of changes in equity, exclusive of ineffectiveness amounts, which are recognized as adjustments to net income. In November 2010, the Partnership entered into two interest rate swaps and account for changes in fair value of such hedges through accumulated comprehensive (loss) income in equity and in the consolidated statements of operations and comprehensive income in our financial statements via hedge accounting.

Income Taxes

As a limited partnership, the consolidated operating results are included in the income tax returns of the individual partners. Accordingly, the Partnership does not provide for federal income taxes. State income taxes were not significant in any of the periods presented. No uncertain income tax positions exist as of June 30, 2012 or December 31, 2011.

Business Combinations

The Partnership applies ASC 805, *Business Combinations* (ASC 805), in determining how to account for and identify business combinations by allocating fair value to tangible and identified intangible assets acquired and liabilities assumed using market comparables and historical operating results (Level 3). Acquisition related costs are expensed as incurred.

Discontinued Operations

In accordance with ASC 205-20, *Presentation of Financial Statements - Discontinued Operations* (ASC 205-20), the results of operations to the actual or planned disposition of rental properties are reflected in the consolidated statements of operations and comprehensive income as discontinued operations for all periods presented.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current financial statement presentation, with no effect on the Partnership's consolidated financial position or results of operations.

The following table illustrates the effect on total revenues and net income as if we had consummated the acquisitions during the six months ended June 30, 2012 as of January 1, 2011 (unaudited):

	For the three months ended		For the six months ended	
	June 30,		June 30,	
	2012	2011	2012	2011
Total revenues	\$ 33,556,962	\$ 29,938,505	\$ 67,882,872	\$ 55,417,125
Net income	4,159,688	8,925,239	11,717,380	11,266,307

During the three and six months ended June 30, 2012, revenues attributable to the acquired assets were approximately \$3.3 million and \$3.6 million, respectively, and net income attributable to the acquired assets was approximately \$0.8 million and \$0.6 million, respectively, recognized in the consolidated statements of operations and comprehensive income.

Acquisition-related costs are not expected to have a continuing significant impact on our financial results and therefore have been excluded from these proforma results.

Table of Contents

Related to the above business combinations, the Partnership incurred \$989,040 of acquisition costs that are expensed in general and administrative expenses in the consolidated statements of operations and comprehensive income. In accordance with ASC 805, the Partnership allocated the approximate purchase price paid for these properties acquired in 2012 as follows:

Land	\$ 13,448,866
Buildings and improvements	96,920,940
Furniture, fixtures, and equipment	9,601,194
Mortgages and other notes	(11,459,794)
Borrowings and available cash	\$ 108,511,206

The Partnership considers renewals on above or below market leases when ascribing value to the in-place lease intangible assets and liabilities, respectively, at the date of a property acquisition. In those instances where the renewal lease rate pursuant to the terms of the lease does not adjust to a current market rent, the Partnership evaluates whether the stated renewal rate is above or below current market rates and considers the past and current operations of the property, the current rent coverage ratio of the tenant, and the number of years until potential renewal option exercise. If renewal is considered probable based on these factors, an additional lease intangible asset or liability is recorded at acquisition and amortized over the renewal period.

The following summarizes the Partnership's construction in progress at:

	June 30, 2012	December 31, 2011
Beginning Balance, January 1, 2012 and 2011, respectively	\$ 28,293,083	\$ 2,580,110

Placed in service	(15,410,283)	
	\$ 19,036,251	\$ 28,293,083

During 2012 and 2011, the Partnership capitalized expenditures for improvements related to various development projects. In 2012, the Partnership placed into service three additions to three properties located in Washington. In accordance with ASC 835 *Capitalization of Interest* (ASC 835), the Partnership capitalizes interest based on the average balance of construction in progress for the period using the weighted-average interest rate on all outstanding debt, which approximated 7.0% for the three and six months ended June 30, 2012. The balance of capitalized interest within construction in progress at June 30, 2012 and December 31, 2011 was \$500,113 and \$682,273, respectively. The amount capitalized during the three and six months ended June 30, 2012, and 2011, relative to interest incurred was \$209,413, \$503,210, \$97,538, and \$145,943, respectively.

The Partnership's reserve for uncollectible loan receivables balances at June 30, 2012 and December 31, 2011 was \$5,651,138 and \$2,176,149, respectively and any movement in the reserve is reflected in general and administrative expenses in the consolidated statements of operations and comprehensive income.

During 2012 and 2011, the Partnership funded loans for both working capital and capital improvement purposes to various operators and tenants. All loans held by the Partnership accrue interest. The payments received from the operator or tenant cover both interest accrued as well as amortization of the principal balance due. Any payments received from the tenant or operator made outside of the normal loan amortization schedule are considered principal prepayments and reduce the outstanding loan receivables balance.

Table of Contents

Principal payments on the Term Loan are payable in monthly installments beginning on November 1, 2010. The payment schedule for the Term Loan is based upon a 25-year mortgage style amortization as defined in the Credit Agreement. The Acquisition Credit Line

Under the Credit Agreement, the Partnership also has a \$100 million Acquisition Credit Line. The Senior Notes bear interest at a rate of 7.75% per annum, payable semiannually to holders of record at the close of business on the February 1 or the August 1 immediately preceding the interest payment date on February 15 and August 15 of each year. A premium of \$2.75 million and \$1.00 million was associated with the offering of the \$100 million of Senior Notes on April 5, 2011 and the \$100 million of Senior Notes on March 28, 2012, respectively. The premium will be amortized as an adjustment to the yield on the Senior Notes over their term. The Partnership used the proceeds, amongst other things, to pay down approximately \$87.7 million of the Acquisition Credit Line, \$5.5 million of the 2016 Revolver and \$6.1 million of the Construction Loan during 2012 and \$201.6 million on the Term Loan and the balance of \$28.7 million on the Acquisition Credit Line during 2011.

2014 Revolver

In conjunction with the Senior Notes issuance on February 4, 2011, the Partnership, under Aviv Financing IV, LLC, entered into a \$25 million revolver with Bank of America (the 2014 Revolver). On each payment date, the Partnership pays interest only in arrears on any outstanding principal balance of the 2014 Revolver. The interest rate under the Partnership's 2014 Revolver is generally based on LIBOR (subject to a floor of 1.0% and subject to the Partnership's option to elect to use a prime base rate) plus a margin that is determined by the Partnership's leverage ratio from time to time. As of June 30, 2012 the interest rates are based upon the base rate 3.25% at June 30, 2012 and December 31, 2011, respectively) plus the applicable percentage based on the consolidated leverage ratio (3.25% at June 30, 2012 and December 31, 2011, respectively). The Revolver commitment terminates in February 2014 with a one-year extension option, provided that certain conditions precedent are satisfied. On January 23, 2012, the outstanding balance was repaid and the properties securing the 2014 Revolver were released. However, the 2014 Revolver remains effective, and we may add properties to Aviv Financing IV, LLC in the future, thereby creating borrowing availability under the facility.

2016 Revolver

There were no related party receivables or payables as of June 30, 2012, other than amounts owed from the Partnership to the REIT for accrued distributions.

11. Derivatives

During the periods presented, the Partnership was party to various interest rate swaps, which were purchased to fix the variable interest rate on the denoted notional amount under the original debt agreements.

At June 30, 2012, the Partnership was party to two interest rate swaps, with identical terms for \$100 million each. They were purchased to fix the variable interest rate on the denoted notional amount under the Term Loan which was obtained in September, 2010, and qualify for hedge accounting. For presentational purposes they are shown as one derivative due to the identical nature of their economic terms.

Table of Contents

The following table provides the Partnership's derivative assets and liabilities carried at fair value as measured on a recurring basis as of June 30, 2012 (dollars in thousands):

	Total Carrying Value at June 30, 2012	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Derivative assets	\$	\$	\$	\$
Derivative liabilities	(4,079)		(4,079)	
	\$ (4,079)	\$	\$ (4,079)	\$

The Partnership's derivative assets and liabilities include interest rate swaps that effectively convert a portion of the Partnership's variable rate debt to fixed rate debt. The derivative positions are valued using models developed by the respective counterparty that use as their basis readily observable market parameters (such as forward yield curves) and are classified within Level 2 of the valuation hierarchy. The Partnership considers its own credit risk as well as the credit risk of its counterparties when evaluating the fair value of its derivatives.

12. Commitments and Contingencies

The Partnership has a contractual arrangement with a tenant to reimburse quality assurance fees levied by the California Department of Health Care Services from August 1, 2005 through July 31, 2008. The Partnership is obligated to reimburse the fees to the tenant if and when the state withholds these fees from the tenant's Medi-Cal reimbursements associated with 5 facilities that were formerly leased to Trinity Health Systems. The total possible obligation for these fees is \$1.4 million, which the Partnership has paid.

Judicial proceedings seeking declaratory relief for these fees are in process which if successful would provide for recovery of such amounts from the State of California. The Company has certain rights to seek relief against Trinity Health Systems for monies paid out under the indemnity claim; however, it is uncertain whether the Company will be successful in receiving any amounts from Trinity.

During 2011, the Partnership entered into a contractual arrangement with a tenant in one of its facilities to reimburse any liabilities, obligations or claims of any kind or nature resulting from the actions of the former tenant in such facility, Brighten Health Care Group. The Partnership is obligated to reimburse the fees to the tenant if and when the tenant incurs such expenses associated with certain Indemnified Events, as defined therein. The total possible obligation for these fees is estimated to be \$2.3 million, of which approximately \$1.8 million has been paid to date. The remaining \$0.5 million was accrued as a component of other liabilities in the consolidated balance sheets.

In late 2011, after a dispute with a small number of its limited partners, the Partnership filed a declaratory judgment motion in the Delaware Chancery Court seeking confirmation that certain adjustments to the distributions of cash flows of the Partnership were made in accordance with the partnership agreement following the investment in the Partnership by Aviv REIT and related financing transactions. The dispute relates to the relative distributions among classes of limited partners that existed prior to the investment by Aviv REIT.

The Partnership is involved in various unresolved legal actions and proceedings, which arise in the normal course of our business. Although the outcome of a particular proceeding can never be predicted, we do not believe that the result of any of these other matters will have a material adverse effect on our business, operating results, or financial position.

Overview

We operate a self-administered real estate investment trust, or REIT, that focuses on the ownership of healthcare properties, principally skilled nursing facilities (SNFs). We generate our revenues through long-term triple-net leases with a diversified group of high quality operators throughout the United States. Through our predecessor entities, we have been in the business of financing operators of SNFs for over 30 years. We believe that we have one of the largest SNF portfolios in the United States which as of June 30, 2012 consisted of 249 properties, of which 215 were SNFs, with 22,597 licensed beds in 27 states leased to 35 operators.

We believe we are well positioned to benefit from our diversified portfolio of properties and extensive network of operator relationships. We focus on cultivating close relationships with our tenants by working closely with them to help them achieve their business objectives. As a result of these efforts, we are in a position to effectively manage our portfolio, make additional investments and continue to expand our business.

We lease our properties to a diversified group of 35 operators with no single operator representing more than 15.8% of our revenues as of June 30, 2012. We have a geographically diversified portfolio of properties located in 27 states, with no state representing more than 19.0% of our revenues as of June 30, 2012. Our properties are leased to third party tenants under long-term triple-net leases. The operators are responsible for all operating costs and expenses related to the property, including facility maintenance and insurance required in connection with the properties and the business conducted on the properties, taxes levied on or with respect to the properties (other than taxes on our income) and all utilities and other services necessary or appropriate for the properties and the business conducted on the properties. Our leases are typically master leases with initial terms of 10 years or more, annual rent escalation provisions of 2% to 3%, guarantees, cross-default provisions and security deposits and typically do not have operator purchase options. As of June 30, 2012, the leases for 247 of our 249 properties were supported by personal and/or corporate guarantees. As of June 30, 2012, our leases had an average remaining term of 8.4 years.

We finance investments through borrowings under our credit facilities, unsecured senior notes, private placements of equity securities, project-specific first mortgages or a combination of these methods. We compete with other public and private companies who provide lease and/or mortgage financing to operators of a variety of different types of healthcare properties. While the overall landscape for healthcare finance is competitive, we are disciplined and selective about the investments we make and have a strong track record of identifying qualified operators and attractive markets in which to invest. As a key part of our growth strategy, we evaluate acquisition opportunities on an ongoing basis and are in various stages of due diligence, preliminary discussions or competitive bidding with respect to a number of potential transactions, some of which would be significant. None of these potential significant transactions is so far advanced as to make the transaction reasonably certain.

Factors Affecting Our Business and the Business of Our Tenants

The continued success of our business is dependent on a number of macroeconomic and industry trends. Many of these trends will influence our ongoing ability to find suitable investment properties while other factors will impact our tenants' ability to conduct their operations profitably and meet their obligations to us.

Industry Trends

One of the primary trends affecting our business is the long-term increase in the average age of the U.S. population. This increase in life expectancy is expected to be a primary driver for growth in the healthcare and SNF industry. We believe this demographic trend is resulting in an increased demand for services provided to the elderly. We believe that the low cost healthcare setting of a SNF will benefit our tenants and facilities in relation to higher-cost healthcare providers. We believe that these trends will support a growing demand for the services provided by SNF operators, which in turn will support a growing demand for our properties.

The growth in demand for services provided to the elderly has resulted in an increase in healthcare spending. The Centers for Medicare and Medicaid Services, or CMS, and the Office of the Actuary forecast that U.S. healthcare expenditures will increase from approximately \$2.7 trillion in 2011 to approximately \$4.8 trillion in 2021. Furthermore, according to CMS, national expenditures for SNFs are expected to grow from approximately \$151 billion in 2011 to approximately \$255 billion in 2021, representing a compound annual growth rate, or CAGR, of 5.4%.

Liquidity and Access to Capital

Our single largest cost is the interest expense we incur on our debt obligations. In order to continue to expand and optimize our capital to expand our portfolio, we rely on access to the capital markets on an ongoing basis. We seek to balance this reliance by maintaining ready access to funds to make investments as the opportunities arise. We have extensive experience in and a successful track record of raising debt and equity capital over the past 30 years.

Our indebtedness outstanding is comprised principally of term loans secured by first mortgages, unsecured obligations under the Senior Notes and borrowings under our Term Loan and 2016 Revolver.

Substantially all of such indebtedness is scheduled to mature in late 2015 or thereafter.

Factors Affecting Our Tenants' Profitability

Our revenues are derived from rents we receive from triple-net leases with our tenants. Certain economic factors present both opportunities and risks to our tenants and, therefore, influence their ability to meet their obligations to us. These factors directly affect our tenants' operations and, given our reliance on their performance under our leases, present risks to us that may affect our results of operations or ability to meet our financial obligations. The recent U.S. economic slowdown and other factors have resulted in cost-cutting at both the federal and state levels, which, in certain situations, resulted in a reduction of reimbursement rates and levels to our tenants under both the Medicare and Medicaid programs.

Our tenants' revenues are largely derived from third-party sources. Therefore, we indirectly rely on these same third-party sources to obtain our rents. The majority of these third-party payments come from the federal Medicare program and state Medicaid programs. Our tenants also receive payments from other third-party sources, such as private insurance companies or private-pay residents, but these payments typically represent a small portion of our tenants' revenues. The sources and amounts of our tenants' revenues are determined by a number of factors, including licensed bed capacity, occupancy rates, the acuity profile of residents and the rate of reimbursement. Changes in the acuity profile of the residents as well as the mix among payor types, including private pay, Medicare and Medicaid, may significantly affect our tenants' profitability and, in turn, their ability to meet their obligations to us. Managing, billing and successfully collecting third-party payments is a relatively complex activity that requires significant experience and is critical to the successful operation of a SNF.

Labor and related expenses typically represent our tenants' largest cost component. Therefore, the labor markets in which our tenants operate affect their ability to operate cost effectively and profitably. In order for our tenants to be successful, they must possess the management capability to attract and maintain skilled and motivated workforces. Much of the required labor needed to operate a SNF requires specific technical experience and education. As a result, our tenants may be required to increase their payroll costs to attract labor and adequately staff their operations. Increases in labor costs due to higher wages and greater employee benefits required to attract and retain qualified personnel could affect our tenants' ability to meet their obligations to us.

Edgar Filing: AVIV REIT, INC. - Form 10-Q

While our revenues are generated from the rents our tenants pay to us, we seek to establish our rent at an appropriate level so that our tenants are able to succeed. This requires discipline to ensure that we do not overpay for the properties we acquire. While we operate in a competitive environment, we carefully assess the long-term risks facing our tenants as we consider an investment. Because our leases are long-term arrangements, we are required to assess both the short and long-term capital needs of the properties we acquire. SNFs are generally highly specialized real estate assets. We believe we have developed broad expertise in assessing the short and long-term needs of this asset class.

Table of Contents

On July 29, 2011, CMS released its final rule regarding 2012 Medicare payment rates for SNFs, which became effective October 1, 2011. The rule recalibrates the method of calculating Medicare reimbursement rates, and is expected to cause the reimbursement rates for SNFs to be reduced by approximately 11.1% on a system-wide basis for fiscal year 2012. CMS has released a notice on April 27, 2012 stating that there will be no change in the method of payment for fiscal year 2013.

Liquidity and Capital Resources

We expect to meet our short-term liquidity requirements generally through net cash provided by operations, existing cash balances and, if necessary, short-term borrowings. We believe that the net cash provided by operations and availability under our 2016 Revolver will be adequate to fund our operating requirements, debt service and the payment of dividends in accordance with REIT requirements of the federal income tax laws for the next twelve months. We expect to meet our long-term liquidity requirements, such as scheduled debt maturities and property acquisitions, through long-term secured and unsecured borrowings and the issuance of additional equity securities.

We intend to repay indebtedness incurred under our credit facilities from time to time, to provide capacity for acquisitions or otherwise, out of cash flow and from the proceeds of issuances of additional equity interests and other securities.

We intend to invest in additional properties and portfolios as suitable opportunities arise and adequate sources of financing are available. We are currently evaluating additional potential investments consistent with the normal course of our business. These potential investments are in various stages of evaluation with both existing and new tenants and include acquisitions, development projects, income producing capital expenditures and other investment opportunities. There can be no assurance as to whether or when any portion of these investments will be completed. Our ability to complete investments is subject to a number of risks and variables, including our ability to negotiate mutually agreeable terms with the counterparties and our ability to finance the purchase price. We may not be successful in identifying and consummating suitable acquisitions or investment opportunities, which may impede our growth and negatively affect our results of operations and may result in the use of a significant amount of management resources. We expect that future investments in properties will depend on and will be financed by, in whole or in part, our existing cash, the proceeds from issuances of securities or borrowings (including under our Acquisition Credit Line and our 2016 Revolver).

Indebtedness Outstanding

Our indebtedness outstanding is comprised principally of borrowings under our Term Loan, Acquisition Credit Line, 2016 Revolver, and the Senior Notes. We have a total indebtedness of approximately \$651.6 million inclusive of our debt premium as of June 30, 2012. Substantially all of such indebtedness is scheduled to mature in late 2015 or thereafter.

As of June 30, 2012, we were in compliance with the financial covenants of our outstanding debt and lease agreements and the indenture governing our Senior Notes.

Term Loan and Acquisition Credit Line

On September 17, 2010, Aviv Financing I entered into a five year credit agreement with General Electric Capital Corporation, which provides a \$405.0 million mortgage term loan and a \$100.0 million acquisition credit line, which we refer to as the Term Loan and the Acquisition Credit Line, respectively. The Partnership provides a limited unsecured guarantee of the Term Loan and the Acquisition Credit Line.

The interest rate applicable to the Term Loan and the Acquisition Credit Line is based upon LIBOR, subject to a 1.25% floor, plus 4.5%. At our option the interest rate may be calculated at the prime rate plus 4.5%. The interest rate under the Term Loan and the Acquisition Credit Line was 5.75% on June 30, 2012.

The Acquisition Credit Line is available for draw until September 2013 and can be paid down and redrawn until that time. The Acquisition Credit Line may be used for financing acquisitions and certain property improvements. Draws on the Acquisition Credit Line are limited to 70% of the total cost of the applicable acquisition or renovation and draws for renovation projects are further limited to an aggregate of \$25.0 million outstanding at any one time.

The initial term of the Term Loan and the Acquisition Credit Line expires in September 2015, with two one-year extension options provided that certain conditions precedent for the extensions are satisfied, including, without limitation, payment of a fee equal to 0.25% of the then existing principal balance of the Term Loan and the Acquisition Credit Line and meeting certain debt service coverage and debt yield tests.

The Term Loan and the Acquisition Credit Line contain customary covenants that include restrictions on the ability to make acquisitions and other investments, pay dividends, incur additional indebtedness, and sell or otherwise transfer certain assets as well as customary events of default. The Term Loan and the Acquisition Credit Line generally require the consolidated borrowers under the facility to maintain a debt service coverage ratio of 1.50:1.00 and a distribution coverage ratio of 1.10:1.00. In addition, the Partnership and its consolidated subsidiaries must maintain a debt service coverage ratio of 1.25:1.00 and a debt yield ratio of greater than 17.25%. We are permitted to include cash on hand in calculating such debt service coverage ratios.

Edgar Filing: AVIV REIT, INC. - Form 10-Q

Immediately following any draw on the Acquisition Credit Line, both before and after giving effect to such draw, the consolidated borrowers under the Term Loan and the Acquisition Credit Line must have a pro forma debt yield ratio of at least 18%. Our debt yield ratio is the ratio of (i) either consolidated EBITDA or rental revenue for the most recently completed two fiscal quarter period times two to (ii) the average daily outstanding principal balance of loans outstanding under the Term Loan and the Acquisition Credit Line during the period.

Table of Contents*7.75% Senior Notes due 2019*

On February 4, 2011 we, through the Partnership and Aviv Healthcare Capital Corporation (collectively, the Issuers), issued \$200.0 million aggregate principal amount of senior unsecured notes (the Senior Notes) in a private placement. The Issuers are majority owned subsidiaries of Aviv REIT. Such Senior Notes were sold at par, resulting in gross proceeds of \$200.0 million and net proceeds of approximately \$194.3 million after deducting commissions and expenses. The net proceeds from the offering of such Senior Notes were used to repay all outstanding indebtedness under our acquisition credit line and to partially repay our outstanding mortgage term loan.

On April 5, 2011 we issued an additional \$100.0 million aggregate principal amount of Senior Notes in a private placement. Such Senior Notes were sold at a premium, resulting in gross proceeds of \$102.8 million and net proceeds of approximately \$99.8 million after deducting commissions and expenses. The net proceeds from the offering of such Senior Notes were used to partially repay indebtedness outstanding under our mortgage term loan and together with proceeds from additional equity investments made by Aviv REIT's shareholders, to fund pending investments.

On July 21, 2011, the Issuers launched an exchange offer in order to provide investors with an opportunity to exchange the Senior Notes issued in the aforementioned private placements for freely tradable notes that have been registered under the Securities Act of 1933 (the Securities Act). The exchange was consummated on August 22, 2011, and 100% of the Senior Notes were exchanged for registered Senior Notes.

On March 28, 2012, we issued an additional \$100 million aggregate principal amount of Senior Notes in a private placement. Such Senior Notes were sold at a premium, resulting in gross proceeds of \$101.0 million and net proceeds of approximately \$99.1 million after deducting commissions and expenses. The net proceeds from the offering of such Senior Notes were used to pay down the 2016 Revolver, the Acquisition Credit Line and the Construction Loan. On May 11, 2012, the Issuers launched an exchange offer in order to provide investors with an opportunity to exchange the Senior Notes for notes that have been registered under the Securities Act. The exchange was consummated on June 11, 2012, and 100% of the Senior Notes were exchanged for registered Senior Notes.

The obligations under the Senior Notes are fully and unconditionally guaranteed, jointly and severally, on an unsecured basis, by Aviv REIT and certain of our existing and, subject to certain exceptions, future subsidiaries.

The Senior Notes are redeemable at the option of the Issuers, in whole or in part, at any time, and from time to time, on or after February 15, 2015, at the redemption prices set forth in the indenture governing the Senior Notes (the Indenture), plus accrued and unpaid interest to the applicable redemption date. In addition, prior to February 15, 2015, the Issuers may redeem all or a portion of the Senior Notes at a redemption price equal to 100% of the principal amount of the Senior Notes redeemed, plus a make-whole premium, plus accrued and unpaid interest to the applicable redemption date. At any time, or from time to time, on or prior to February 15, 2014, the Issuers may redeem up to 35% of the principal amount of the Senior Notes, using the proceeds of specific kinds of equity offerings, at a redemption price of 107.75% of the principal amount to be redeemed, plus accrued and unpaid interest, if any, to the applicable redemption date.

The Indenture governing the Senior Notes contains restrictive covenants that, among other things, restrict the ability of Aviv REIT, the Issuers and their restricted subsidiaries to: (i) incur or guarantee additional indebtedness; (ii) incur or guarantee secured indebtedness; (iii) pay dividends or distributions on, or redeem or repurchase, their capital stock; (iv) make certain investments or other restricted payments; (v) sell assets; (vi) create liens on their assets; (vii) enter into transactions with affiliates; (viii) merge or consolidate or sell all or substantially all of their assets; and (ix) pay dividends or other amounts to Aviv REIT. The Indenture also provides for customary events of default, including, but not limited to, the failure to make payments of interest or premium, if any, on, or principal of, the Senior Notes, the failure to comply with certain covenants and agreements specified in the Indenture for a period of time after notice has been provided, the acceleration of other indebtedness resulting from the failure to pay principal on such other indebtedness prior to its maturity, and certain events of insolvency. If any event of default occurs, the principal of, premium, if any, and accrued interest on all the then outstanding Senior Notes may become due and payable immediately.

*Revolving Credit Facilities*2014 Revolver

On February 4, 2011, the Partnership, under Aviv Financing IV, L.L.C., an indirect wholly-owned subsidiary of the Partnership, entered into a \$25 million secured revolving credit facility with Bank of America (the 2014 Revolver). On each payment date, the Partnership pays interest only in arrears on any outstanding principal balance of the 2014 Revolver. The interest rate under the 2014 Revolver is generally based on the Prime lending rate, but has a LIBOR option (subject to a floor of 1.0%), plus, in the case of both Prime and LIBOR, a margin that is determined by our leverage ratio from time to time. The initial term of the 2014 Revolver expires in February 2014 with a one-year extension option. We have the right to increase the amount of the 2014 Revolver by up to \$75.0 million (resulting in total availability of \$100.0 million), provided that

certain conditions precedent are satisfied.

Table of Contents

As of December 31, 2011, the 2014 Revolver had an outstanding balance of \$15 million. Subsequently, the balance was repaid, the properties securing the 2014 Revolver were released, and the borrowing availability under the 2014 Revolver was reduced to \$0. The 2014 Revolver is currently secured only by a pledge of the capital stock of Aviv Financing IV, L.L.C. (our subsidiary which may in the future act as the holding company of subsidiaries owning properties on which first lien mortgages securing the 2014 Revolver may be granted). Subsequent to December 31, 2011, no such property-owning subsidiaries existed. However, the 2014 Revolver remains effective, and we may add properties to such subsidiaries in the future, thereby creating borrowing availability under the facility. The borrowing availability under the 2014 Revolver is subject to a borrowing base calculation based on, among other factors, the lesser of (i) the amount of a hypothetical mortgage based on the net revenues for the prior four quarters (on a pro forma basis for recently acquired properties) and (ii) 65% of the appraised value, in each case, of the properties securing the 2014 Revolver. The maximum availability under the 2014 Revolver may be permanently reduced at our option.

2016 Revolver

On January 31, 2012, the Partnership, under Aviv Financing V, L.L.C., an indirect wholly-owned subsidiary of the Partnership, entered into a \$187.5 million secured revolving credit facility with General Electric Capital Corporation (the 2016 Revolver). On each payment date, the Partnership pays interest only in arrears on any outstanding principal balance of the 2016 Revolver. The interest rate under the 2016 Revolver is generally based on LIBOR option (subject to a floor of 1.0%), plus 4.25%. The initial term of the 2016 Revolver expires in January 2016 with a one-year extension option, provided that certain conditions precedent are satisfied. The proceeds from the 2016 Revolver are available for general corporate purposes. The amount of the 2016 Revolver may be increased up to \$87.5 million (resulting in total availability of up to \$275 million), provided that certain conditions precedent are satisfied.

At June 30, 2012, the 2016 Revolver was secured by first lien mortgages on 34 of our properties, a pledge of the capital stock of our subsidiaries that own such properties and of Aviv Financing V, L.L.C. (the holding company of such property-owning subsidiaries) and other customary collateral, including an assignment of leases and rents with respect to such mortgaged properties. The borrowing availability under the 2016 Revolver is subject to a borrowing base calculation based on, among other factors, the lesser of (i) 70% of the appraised value of the properties securing the 2016 Revolver, (ii) the aggregate EBITDAR (earnings before interest expense, income taxes, depreciation and amortization, rent expense paid to the Partnership and certain other extraordinary items) reported by the tenants of the properties securing the 2016 Revolver for the most recent two fiscal quarters *multiplied by 2 divided by 18.6%* and (iii) rental revenue from the properties securing the 2016 Revolver for the most recent two fiscal quarters *multiplied by 2 divided by 15.5%*. As of June 30, 2012, the borrowing availability under the 2016 Revolver based on clause (i) of the preceding sentence was \$68.4 million. As of June 30, 2012, the 2016 Revolver had an outstanding principal balance of \$26.4 million.

The maximum availability under the 2016 Revolver may be permanently reduced, at the Partnership's option, provided that, if such reduction is a partial reduction of the maximum availability under the 2016 Revolver and occurs prior to January 31, 2013, a fee of 0.5% will be due on the amount of such reduction. The outstanding principal under the 2016 Revolver may be repaid in whole or in part without premium or penalty, provided that such prepayments (i) are made in a minimum principal amount of \$2,000,000 and integral multiples of \$1,000,000 in excess thereof and (ii) are made no more than once per month.

The 2016 Revolver provides that no loans or other extensions of credit can be made under the 2016 Revolver unless the maximum amount available under the 2014 Revolver (based on the borrowing base calculation as of the relevant date) has been drawn.

Revolving Credit Facilities Generally

The 2014 Revolver and 2016 Revolver contain customary covenants that include restrictions on the ability to make acquisitions and other investments, pay dividends, incur additional indebtedness, and sell or otherwise transfer certain assets as well as customary events of default. The 2014 Revolver and 2016 Revolver also require us to comply with specified financial covenants, which include a maximum leverage ratio, a minimum fixed charge coverage ratio and a minimum tangible net worth requirement. We are permitted to use cash on hand in calculating our leverage ratio under both the 2014 Revolver and 2016 Revolver.

- Cash Flows of Aviv REIT*

Six Months Ended June 30, 2012 Compared to Six Months Ended June 30, 2011

Cash provided by operations decreased \$14.6 million or 43.9% from \$33.2 million for the six months ended June 30, 2011 to \$18.6 million for the same period in 2012. The decrease was primarily due to the increase of \$3.8 million in deferred rental income primarily due to the decrease in deferred rent write offs of \$2.7 million as compared to the same period in 2011. The decrease can also be attributed to the gain of \$4.4 million on sale of assets, and decrease in non-cash loss on extinguishment of debt of \$3.8 million as compared to the same period in 2011.

Cash used in investing activities increased \$27.3 million or 38.2% from \$71.6 million for the six months ended June 30, 2011 to \$98.9 million for the same period in 2012. The increase is due to the increase in acquisition and investment activity of \$42.6 million offset by the sale of rental properties of \$30.5 million in the six months ended June 30, 2012, as compared to the same period in 2011.

Cash provided by financing activities increased \$2.4 million from \$50.1 million for the six months ended June 30, 2011 to \$52.5 million for the same period in 2012. The increase was primarily due to the net decrease of \$31.1 million in additional debt funding received and an increase of \$30 million additional net equity issuances during the period, as compared to the same period in 2011, used for investment activity.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Our future income, cash flows and fair values relevant to financial instruments are dependent upon prevalent market interest rates. Market risk refers to the risk of loss from adverse changes in market prices and interest rates. We use some derivative financial instruments to manage, or hedge, interest rate risks related to our borrowings. We do not use derivatives for trading or speculative purposes and only enter into contracts with major financial institutions based on their credit rating and other factors.

We entered into a swap arrangement on November 5, 2010 to hedge \$200 million of floating rate debt. If LIBOR were to increase by 100 basis points, we do not expect there would be any significant effect on the interest expense on our pro forma variable rate debt as our floating rate credit agreement is subject to a LIBOR floor of 125 basis points. Interest rate risk amounts were determined by considering the impact of hypothetical interest rates on our financial instruments. These analyses do not consider the effect of any change in overall economic activity that could occur in that environment. Further, in the event of a change of that magnitude, we may take actions to further mitigate our exposure to the change. However, due to the uncertainty of the specific actions that would be taken and their possible effects, these analyses assume no changes in our financial structure. The fair value of our debt outstanding as of June 30, 2012 was approximately \$667.4 million.

PART II. OTHER INFORMATION.

Item 1. LEGAL PROCEEDINGS.

In late 2011, after a dispute with a small number of its limited partners, the Partnership filed a declaratory judgment motion in the

Delaware Chancery Court seeking confirmation that certain adjustments to the distributions of cash flows of the Partnership were made in accordance with the partnership agreement following the investment in the Partnership by Aviv REIT and related financing transactions. The dispute relates to the relative distributions among classes of limited partners that existed prior to the investment by Aviv REIT.

In addition, we are involved in various unresolved legal actions and proceedings, which arise in the normal course of our business. Although the outcome of a particular proceeding can never be predicted, we do not believe that the result of any of these other matters will have a material adverse effect on our business, operating results, or financial position.
