Item 2.05 Costs Associated with Exit or Disposal Activities

On September 12, 2012, Brooks Automation, Inc. (Brooks or the Company) committed to a reduction in force in order to reduce its operating costs and improve profitability in light of the expected near-term macro-economic environment. In addition, the Company previously committed to a downsizing, refocusing and relocation of the Company s life sciences operation in Oberdiessbach, Switzerland (the Swiss Restructuring). Through both of these actions, the Company expects to reduce its workforce by approximately 150 employees, 66 of which are contingent employees and 19 of which are part of the Swiss Restructuring. The total reduction represents approximately 10 percent of the Company s workforce. Brooks currently expects to substantially complete the reduction in force prior to the end of the fourth quarter of fiscal 2012.

Brooks expects to incur approximately \$2.4 to \$2.8 million in cash charges related to the reduction in force and the Swiss Restructuring, most of which will be recognized in the fourth quarter of fiscal 2012. Greater than 90 percent of these expected charges are the result of severance and other workforce reduction costs, while the remainder relate to the Swiss Restructuring. The Company estimates that these combined actions will result in a reduction in annual operating expenses of approximately \$11 million, not including any restructuring charges.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
