WHY WE ARE HERE AGAIN

Despite losing by a significant margin in last year's proxy fight, Sardar Biglari remains inexplicably insistent in his campaign against Cracker Barrel. Why do we say inexplicably?

Because of all we accomplished over the past year
What would Biglari have done differently?

We don't know
he hasn't raised specific new ideas or suggestions to
management
or
the
Board,
despite
having
many
opportunities
to
do
so
We
believe
Sardar
Biglari
has
a
conflict
of
interest,
a
history
of
creeping
control
that
is not in the best interest of shareholders, and a questionable track record on
corporate governance
Despite being offered two independent seats (for the second year), he turned the
offer down

Biglari refuses to consider any settlement offer unless he is personally appointed to
the Board

Our shareholders determined he was not right for the Board last year

We agreed and believe he is not right for the Board this year either
This discussion should be about the business and who's got it on the right path

IV. Why We Believe Sardar Biglari is Wrong for This Board

26
WHY WE BELIEVE SARDAR BIGLARI IS STILL WRONG FOR THIS
BOARD
New Cracker Barrel CEO and reconfigured Board laid out a new plan and are successfully executing that
plan
we believe Biglari would be disruptive to current business momentum
We

believe
Biglari's
presence
on
our
Board
would
create
a
conflict
of
interest

he
is
the
CEO
of
a
family

restaurant chain and CEO of a restaurant acquisition vehicle

We believe Biglari would want to be operationally involved but has failed to disclose his specific plans or agenda for the business, either to management or directly to the Board

His repeated public pronouncements highlight his combative approach was offered two independent

board seats for representation (twice) but turned BOTH offers down

Biglari has a history of creeping control

that we believe is not in the best interest of shareholders:

took control of Steak 'n Shake over time without paying a premium

We believe Biglari has a questionable track record on corporate governance: still proposing dual class of high vote / low vote stock at Biglari Holdings and proposed excessive compensation for himself at Biglari Holdings which received negative shareholder and ISS responses

Biglari Holdings just agreed to pay a \$850,000 civil penalty to resolve a Federal Trade Commission complaint for failing to comply with the Hart-Scott-Rodino Act in amassing its initial position in Cracker Barrel

a violation the FTC's Chairman characterized as trying to abuse the law's passive investor exemption

27

BIGLARI HAS ARGUED THAT HE PURCHASED CBRL STOCK FOR INVESTMENT PURPOSES ONLY

WHAT SARDAR BIGLARI RECENTLY CONFIRMED ABOUT
BIGLARI HOLDINGS

We,
however,
are
control

investors

1
Biglari Holdings is an unconventional public company because it is in the business of owning other businesses without regard to any particular industry along with the stipulation that all major capital allocation decisions are made by Sardar Biglari, Chairman and CEO.

2
The logic underlying the dual class structure indicates that we could gain increased flexibility in structuring acquisitions and financing transactions to augment our growth. As a holding company, we believe that the greater flexibility resulting from our proposal would transform into an advantage in our pursuit of other businesses. We may also use such stock to acquire other businesses or combinations thereof.

-
Bob Derrington, Northcoast Research, as quoted in the San Antonio Express; 18-Oct-2012

Mr. Biglari's argument seems to be less focused on corporate governance and shareholder performance, which was the basis of last year's proxy fight, and more focused on demanding that as the largest shareholder he deserves two seats on Cracker Barrel's board.

We are skeptical that the other 82% of Cracker Barrel's shareholders would vote for two executives of a direct competitor, Steak 'n Shake, to join Cracker Barrel's board. We find it interesting that if you exclude the investment in Cracker Barrel, Biglari Holdings has not made many shareholder enhancing decisions the past two years. Assuming the market is reflecting the CBRL investment gain in BH's market valuation, we estimate BH's market value would be down about 10% since it became an active investor in Cracker Barrel on June 13, 2011 (vs. KBCM Restaurant Index +30%). We estimate the CBRL investment represents roughly 55% of BH's enterprise value. We expect Biglari Holdings will lose the proxy fight in November.

-
Chris O' Cull, KeyBanc Capital Markets; 20-Sep-2012

Mr. Biglari has not issued an alternative strategic plan for CBRL but has suggested aggressive goals to drive sales and traffic without supporting details as to how such results would be realized. Under Sandy Cochran, who became CEO in September 2011, the company has performed strongly. Numerous changes have been implemented ranging from board

composition (much higher quality board in our opinion) to marketing, cost management, and willingness to return cash to shareholders.

Whatever Biglari's intentions for CBRL still may be, however, we continue to side with management in this fight,

as the company already has enacted several measures to boost operational performance (as evidenced by CBRL's industry-leading comps in family dining), enhance shareholder value (e.g., increased dividend 14% for FY12, removed operating and corporate-level costs), and improve managerial oversight (e.g., splitting the roles of CEO and Chairman of the Board). **We surmise there will be even less incentive for** shareholders to side with a potential Biglari-sponsored slate of Board nominees this November. Although the potential for a second proxy fight remains, we now think a repeat of last year's contentious fight appears less likely.

Stephen Anderson, Miller Tabak; 6-Aug-2012

Mr. Biglari has a record of creeping takeovers.

Biglari

Holdings is essentially sending excess cash from

Steak n Shake to the Lion Fund. These investments in the Lion Fund do not appear in Biglari Holdings' balance sheet due to the requirement to fully consolidate the Lion Fund in BH's financial statements. In addition, the Lion Fund's portfolio has purchased significant interests in BH common stock, which is classified on BH's balance sheet as treasury stock, yet the shares remain outstanding. BH's pro-rata ownership of its common stock through Lion Fund as of June 13, 2012 was roughly 100,000 shares, but the Lion Fund, in total, owns roughly 200,000 shares. Essentially, **Mr. Biglari has voting control of roughly 15% of BH's common stock, but he personally owns roughly 10,000 shares (0.7%).**

We wonder how BH decides between allocating excess cash to the Lion Fund and investing more in Steak n Shake (since Mr. Biglari argues it is doing so well) or just returning it to BH shareholders.

34
BIGLARI AGAIN TURNED DOWN A GOOD FAITH SETTLEMENT
OFFER
Biglari Rejected The Following Settlement Proposal:
Biglari Holdings was offered two board seats subject only to the reasonable requirements that nominees:

Not be affiliated with Biglari Holdings

Not be a current executive officer or director of a competing restaurant company

Comply with CBRL's long-standing publicly disclosed qualification criteria

This offer was subject to the minimal conditions that, Biglari Holdings:

Support the Board-recommended slate of nominees at the 2012 annual meeting that would include the two nominees of Biglari Holdings

Not nominate other candidates or present shareholder proposals at the 2012 annual meeting

Not seek to call or support any special meeting prior to the Company's 2013 annual meeting

Many proxy fights are settled with the appointment of one or more directors that are not affiliated with the dissident, yet Biglari refuses even to consider nominating an independent director, insisting that it has to be him and Cooley

OTHER SHAREHOLDER MATTERS

Compensation

Pay for Performance Culture

Compensation Committee Review and Revisions of Compensation Practices in 2012

Compensation Policies

80% of CEO's target total direct 2012 compensation, and 69% of other named executive officers, is contingent upon

measurable performance

Incentive programs have one, two and three year performance periods to promote both short and long term appreciation of shareholder value

2012 Total Shareholder Return significantly outperformed the S&P 500, 600, and 1,500 Restaurant indices

Revenue growth, improved margins, and strong Return On Invested Capital performance resulted in incentive plan performance in excess of targets

Initiated full review of compensation practices based on say-on-pay vote results and feedback from shareholders and proxy advisory services in connection with 2011 annual meeting

Instituted a number of revisions to compensation practices as a result of this analysis:

Revised overall compensation philosophy to target total compensation paid to our executive officers at median of peer group

Revised stock ownership guidelines to multiple of base salary for executive officers and total cash retainer for non-employee directors:

5x base salary for CEO

3x base salary for CFO and Executive Vice Presidents; 2x base salary for all other executive officers

For non-employee directors, greater of 5,000 shares or 5x the annual cash retainer

No covered persons may sell any shares until threshold is reached

Worked to clarify disclosure in CD&A of compensation performance targets and performance relative to them

Adopted anti-hedging policy for officers and directors

37

OTHER SHAREHOLDER MATTERS

Shareholder-Friendly Rights Plan is Fully Consistent with ISS Guidelines, Including a 20% Threshold Adopted in April 2012 in response to threat that Biglari could gain creeping control without paying a control premium

In

his
2011
Letter
From
the
Chairman,
Biglari
said

We are
control
investors
when
we
own
a
sizeable block of stock engendering influence

Tennessee law preventing shareholders from voting shares above 20% without shareholder approval is not sufficient. By acquiring shares above 20%, Biglari could still prevent other shareholders

from
voting
those
shares
and
gain
greater
influence
by
virtue
of
economic
ownership

Shareholder-friendly provisions include:

Rights
plan
would
not
be
triggered
by
qualifying
offers
(all-cash,
fully
financed
tender
offers
that remain open for at least 60 business days)

Rights plan is focused on creeping acquisitions above 20% and would not deter a non-coercive cash tender offer for all shares

Rights expire if shareholders do not approve rights plan at November 2012 annual meeting

If shareholders approve, rights would expire on April 9, 2015

Shareholder-Friendly Rights Plan

38

WHY YOU SHOULD VOTE THE WHITE PROXY CARD

We have accomplished a great deal over the last year
with more to come

Our reconfigured Board is highly engaged and continuously seeks to create value

We believe Biglari's and Cooley's presence would create a conflict of interest and
would be detrimental to the functioning of our Board

We again made a good faith offer this year to permit Biglari to appoint two independent directors to the Board and again he rejected. Is his fight about having representation or just about him?

We believe Biglari's historic playbook of creeping control and poor corporate governance could harm Cracker Barrel and its shareholders

A NOTE REGARDING PEER SET USED FOR BENCHMARKING

Last year our peer set included:

Biglari Holdings, Brinker International,
Cheesecake Factory, Darden Restaurants, P.F.
Chang's China Bistro, Ruby Tuesday, and

Texas Roadhouse

During the past year P.F. Chang's China Bistro was acquired by Centerbridge Partners and is no longer publicly traded

Based on feedback received we have added Bob Evans Farms and Denny's Corporation both full-service restaurants chains
We believe this subset of casual and family dining restaurants represents the most comparable set of companies to benchmark CBRL performance
