President

Wells Fargo Advantage Funds

Analysts began openly discussing the possibility of a crisis within the European banking system and its possible effect on other economies two worries that remained near the forefront as the reporting period ended.

Dear Valued Shareholder:

We are pleased to offer you this annual report for the *Wells Fargo Advantage Global Dividend Opportunity Fund* for the 12-month period that ended October 31, 2012. Much of the period was marked by increased confidence that the U.S. economy was staging a fragile recovery, offset by continued concerns about the possible effects that the ongoing European sovereign debt crisis would have on the global economy. U.S. large-cap stocks noticeably outperformed international large-cap stocks as the U.S. economy showed relative strength.

Macroeconomic optimism faded as global growth slowed and worries rose.

Prior to the 12-month period, global economic numbers supported the case for a gradual recovery. However, concerns about the eurozone sovereign debt situation soon returned to center stage as investors became increasingly concerned that Greece would default on its debt. Because many eurozone banks owned Greek debt and many U.S. banks had financial ties to eurozone banks, investors worried that a Greek default would result in another global financial crisis.

In March 2012, the Greek government came to an agreement with its creditors, allowing it to write down the principal on most of its bonds in exchange for increased financial austerity. Yet, ongoing weakness in the Greek economy made it difficult for the country to meet its austerity targets. Even more worrisome, in May 2012, Spain nationalized Bankia, its fourth-largest bank, after it suffered heavy losses from property loans. The move refocused investor attention to the ongoing problems in southern Europe. Analysts began openly discussing the possibility of a crisis within the European banking system and its possible effect on other economies two worries that remained near the forefront as the reporting period ended.

Central banks continued to provide stimulus.

Major central banks, including the U.S. Federal Reserve Bank (Fed) and the European Central Bank (ECB) continued to inject liquidity into the banks and global capital markets through various quantitative easing policies. Throughout the reporting period, the Federal Open Market Committee (FOMC) kept its key interest rates effectively at zero in an effort to support the U.S. economy and financial system. After its

Edgar Filing: WELLS FARGO ADVANTAGE GLOBAL DIVIDEND OPPORTUNITY FUND - Form N-CSR

September 2012 meeting, the FOMC announced its intention to keep interest rates low until at least mid-2015 and to make open-ended purchases of \$40 billion per month in mortgage-backed securities to support the housing market.

At the beginning of the period, the ECB had a key rate of 1.50%, which it soon lowered twice in response to weakness in the southern European economies. A third cut in July 2012 put the ECB's key rate at a historic low of 0.75%. In September, the ECB announced that it would purchase an unlimited amount of one- to three-year sovereign debt from countries that had formally applied for a bailout.

1. The S&P 500 Index consists of 500 stocks chosen for market size, liquidity, and industry group representation. It is a market-value-weighted index with each stock's weight in the index proportionate to its market value. You cannot invest directly in an index.

2. The Morgan Stanley Capital International Europe, Australasia, and Far East (MSCI EAFE) Index (Net) is an unmanaged group of securities widely regarded by investors to be representations of the stock markets of Europe, Australasia, and the Far East. You cannot invest directly in an index. Source: MSCI. Letter to shareholders (unaudited)

Wells Fargo Advantage Global Dividend Opportunity Fund 3

A relatively solid U.S. economy helped U.S. stocks outperform international stocks.

For most of the period, U.S. economic data remained moderately positive. Reported gross domestic product (GDP) came in at a 1.3% annualized rate in the third quarter of 2011 and then accelerated to a 4.1% annualized rate in the fourth quarter of 2011. Although GDP growth slowed to a 2.0% annualized rate in the first quarter of 2012, a 1.3% annualized rate in the second quarter of 2012, and again a 2.0% annualized rate in the third quarter of 2012, continued economic growth in the U.S. contrasted with the more uncertain picture in Europe. The unemployment rate was a notable exception to generally positive U.S. economic news. Although the unemployment rate declined from 8.7% in November 2011 to 7.9% in October 2012 at least part of the decline could be attributed to a decline in the labor force. (People are only counted as unemployed if they are officially looking for work.) The relatively positive outlook for the U.S. economy generally resulted in a strong domestic stock market and the S&P 500 Index¹ ended the period with a 15.21% gain.

By contrast, economic growth for the 17 countries that comprise the eurozone turned negative in the fourth quarter of 2011, came in flat for the first quarter of 2012, but then turned negative again in the second quarter of 2012. Southern European countries such as Greece, Italy, and Spain continued to grapple with high debt levels, government austerity programs aimed at paying down the debt, and slower economic growth. Since southern European countries are a source of demand for exporters, even stronger, export-driven economies such as Germany were affected by southern Europe's weakness. The MSCI EAFE Index (Net) ended the 12-month period with a moderate 4.61% gain.

We remain committed to our investment strategies, even as many variables are at work in the market.

The full effect of the sovereign debt crisis remains unknown. Elevated unemployment and mortgage debt defaults continue to pressure consumers and businesses alike. For many investors, simply building and maintaining a well-diversified³ investment plan focused on clear financial objectives is the best long-term strategy.

Thank you for choosing to invest with *Wells Fargo Advantage Funds*. We appreciate your confidence in us and remain committed to helping you meet your financial needs. 4 Wells Fargo Advantage Global Dividend Opportunity Fund

Letter to shareholders (unaudited)

Notice to shareholders

At its November 6-7, 2012 meeting, the Board of Trustees unanimously approved the following modifications to the Fund's principal investment strategies; each change became effective on November 7, 2012:

The Fund's principal investment strategy has been changed to expressly reflect that it will primarily invest in common and/or preferred stocks of U.S. and non-U.S. companies and other equity securities that offer an above-average potential for current and/or future dividends. This change reflects an increase in the portion of the Fund's portfolio that is normally invested in preferred stocks, which typically provide greater income potential than common stocks.

In addition, because the majority of preferred stock investments are expected to be in U.S. companies, the normal allocation range for foreign investment has been modified to be a typical range of 30% to 70% of the Fund's total assets in foreign securities, rather than a typical range of 40% to 70% of the Fund's total assets in foreign securities.

In employing its dividend capture strategy, the Fund purchases stock before the ex-dividend date so it becomes entitled to the dividend and then typically sells the stock on or after the ex-dividend date. Over time, in a non-rising market, this strategy may lead to a decline in the net asset value of the Fund. Dividend capture also increases the portfolio turnover rate and related transaction costs of the Fund. In light of this, the Fund expects to use dividend capture to a lesser extent.

Please contact your investment professional or call us directly at **1-800-222-8222** if you have any questions on this Notice to Shareholders.

Average annual total returns¹ (%) as of October 31, 2012

	1 Year	5 Year	Since inception 3-28-07
Based on market value	9.79	(1.71)	(3.11)
Based on net asset value (NAV) per share	5.87	(3.73)	(1.69)

Figures quoted represent past performance, which is no guarantee of future results and do not reflect the deduction of taxes that a shareholder may pay on fund distributions or the sales of fund shares. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted and assumes the reinvestment of dividends and capital gains. To obtain performance information current to the most recent month-end, please call 1-800-222-8222.

The Fund's annualized expense ratio for the year ended October 31, 2012, is 1.08%.

Comparison of NAV vs. market value since inception²

Derivatives involve additional risks, including interest-rate risk, credit risk, the risk of improper valuation, and the risk of non-correlation to the relevant instruments they are designed to hedge or closely track. There are numerous risks associated with transactions in options on securities. As a writer of an index call option, the Fund forgoes the opportunity to profit from increases in the values of securities held by the Fund. However, the Fund has retained the risk of loss (net premiums received) should the price of the Fund's portfolio securities decline. Similar risks are involved with writing call options on individual securities held in the Fund's portfolio. This combination of potentially limited appreciation and potentially unlimited depreciation over time may lead to a decline in the net asset value of the Fund. The Fund's dividend capture strategy may lead to a similar result. Dividend capture strategies involve the Fund purchasing a stock before an ex-dividend date so it becomes entitled to the dividend and then typically selling the stock on or after the stock's ex-dividend date. Any decline in the value of the stock reflecting the dividend payment may over time lead to a decline in the net asset value of the Fund. Dividend capture also increases the portfolio turnover rate and related transaction costs of the Fund. Foreign investments may contain more risk due to the inherent risks associated with changing political climates, foreign market instability, and foreign currency fluctuations. Risks of foreign investing are magnified in emerging or developing

markets. Small- and mid-cap securities may be subject to special risks associated with narrower product lines and limited financial resources compared with their large-cap counterparts, and, as a result, small- and mid-cap securities may decline significantly in market downturns and may be more volatile than those of larger companies due to their higher risk of failure. High-yield, lower-rated bonds may contain more risk due to the increased possibility of default. Illiquid securities may be subject to wide fluctuations in market value. The Fund may be subject to significant delays in disposing of illiquid securities. Accordingly, the Fund may be forced to sell these securities at less than fair market value or may not be able to sell them when the adviser or subadviser believes that it is desirable to do so.

1. Total returns based on market value are calculated assuming a purchase of common stock on the first day and sale on the last day of the period reported. Total returns based on NAV are calculated based on the NAV at the beginning of the period and end of period. Dividends and distributions, if any, are assumed for the purposes of these calculations to be reinvested at prices obtained under the Fund's Automatic Dividend Reinvestment Plan. Total returns do not reflect brokerage commissions or sales charges. If these charges were included, the returns would be lower.

2. This chart does not reflect any brokerage commissions or sales charges.

Performance highlights (unaudited)
MANAGER'S DISCUSSION

Wells Fargo Advantage Global Dividend Opportunity Fund 7

The Fund returned 9.79% during the 12 months ended October 31, 2012, based on market value. During the same period, the Fund's return based on NAV was 5.87%.

Strategy

For financial markets, the 12-month period that ended October 31, 2012 was defined primarily by the economic crisis in Europe. Mounting worries about the stability of the European Monetary Union and the viability of its currency, the euro, caused substantial volatility in European markets, which led to a ripple effect on other global markets. Further complicating this investment picture was the fact that a significant component of European risk we feel can be characterized as "event risk"; that is, the susceptibility of the markets to highly uncertain, usually non-financial events such as an election or the statements of high-ranking officials. A vote or comment could cause markets to soar or plummet depending on investor perceptions of its deeper meaning. These are especially difficult risks for an investor to analyze or assign a level of confidence.

The Fund typically invests some of its assets in high-dividend-paying European stocks in order to capture a substantial portion of its targeted income. However, macroeconomic concerns related to the ongoing credit crisis within the eurozone have depressed European equities and created a great deal of volatility. Within the equity portfolio, we chose to minimize European exposure for most of the reporting period.

Within the option overlay portfolio, we took a conservative approach to writing calls on global stock market indexes, especially in Europe. We broadened the markets against which we wrote calls to decrease the strategy's exposure to the volatility in Europe. New countries that we incorporated into the strategy include Japan, the United Kingdom, and select emerging market countries. In addition, because of the heightened uncertainty, we were able to earn attractive premiums in many countries even in the positions that typically garner lower premiums.

Ten largest holdings³ (%) as of October 31, 2012

Vodafone Group plc ADR	6.04
ENI SpA	4.53
Hatteras Financial Corporation	4.05
Hera SpA	3.77
France Telecom SA	3.57
Excel Trust Incorporated	3.56
DISH Network Corporation	3.52
D.E Master Blenders 1753 NV	3.32
Enel SpA	3.06
Vivendi SA	3.00

Sector distribution⁴ as of October 31, 2012**Contributors to performance**

Satellite television provider DISH Network Corporation, which paid a \$3.00 per share special dividend in December 2011, was a major contributor within the stock portfolio, as was courier Deutsche Post AG. Other performance contributors included financials companies Hatteras Financial Corporation, Invesco Mortgage Capital Incorporated, and Annaly Capital Management Incorporated; mobile phone operator Turkcell Iletisim Hizmetleri AS; Italian companies ENI SpA, Hera SpA and TERNA SpA; and British utilities Severn Trent plc and United Utilities Group plc. In addition, the Fund's holdings of preferred stocks were generally positive performance contributors.

Within the option overlay portfolio, performance was positive and relatively stable throughout most of the period, except for the month of August 2012. For the year, the option overlay strategy generated a total return of approximately 0.61% for the Fund.

3. The ten largest holdings are calculated based on the value of the securities divided by total net assets of the Fund. Holdings are subject to change and may have changed since the date specified.

4. Percentages are subject to change and are calculated based on the total long-term investments of the Fund.

Table of Contents

8 Wells Fargo Advantage Global Dividend Opportunity Fund	Performance highlights (unaudited)
Country allocation ⁴ as of October 31, 2012	

Detractors from performance

Performance detractors included telecommunications stocks France Telecom SA and Sprint Nextel Corporation. France Telecom was not only affected by the macroeconomic concerns facing all European companies, but also by the brutal competitive environment in France as new entrant Iliad SA dropped wireless prices. We bought Sprint at a price of around \$3.00 per share in anticipation of a recovery, only to sell it when the company reported quarterly results that came in below analyst expectations. Other performance detractors included Italian media company Mediaset SpA, Italian power company Enel SpA, and Swedish telecommunications company Tele2 AB.

Within the option overlay portfolio, August was a difficult month for performance. Beginning on July 24, 2012, several high-ranking European officials made strong, positive comments about the future of the euro, which caused European stock markets to rise sharply. In the six weeks following those comments, European markets rose between 15% and 35%, depending on the country. This sharp, abrupt rise in the markets created losses on many written call positions for the Fund in August.

Management outlook

Going forward, we anticipate increasing preferred stock positions within the stock portfolio to attempt to increase portfolio yield. In light of this, the Fund expects to use dividend capture to a lesser extent. We will continue to watch Europe for signs of political and economic stability and a possibly more attractive investment environment.

Looking at the option overlay portfolio, we expect stock market volatility to remain elevated over the short term. The ongoing struggles in Europe and the impending fiscal cliff in the United States may keep the levels of uncertainty high. We believe this environment may create some attractive investment opportunities for relatively conservative risk positioning. We will continue to broaden the number of markets against which we write calls. Those new markets include Australia, Canada, China, and Switzerland. Longer-term, we expect to see event-risk decline and markets focus more intently on economic growth, jobs, and corporate earnings. If this occurs, volatility should drop, reducing risk and diminishing option premiums commensurately.

1. Calculated based upon average shares outstanding

2. Total return is calculated assuming a purchase of common stock on the first day and sale on the last day of the period reported. Dividends and distributions, if any, are assumed for purposes of these calculations to be reinvested at prices obtained under the Fund's Automatic Dividend Reinvestment Plan. Total return does not reflect brokerage commissions or sales charges.

Notes to financial statements

Wells Fargo Advantage Global Dividend Opportunity Fund 17

1. ORGANIZATION

Wells Fargo Advantage Global Dividend Opportunity Fund (the Fund) was organized as a statutory trust under the laws of the state of Delaware on December 21, 2006 and is registered as a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income. The Fund's secondary objective is long-term growth of capital.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (normally 4 p.m. Eastern Time).

Equity securities that are listed on a foreign or domestic exchange, except for The Nasdaq Stock Market, Inc. (Nasdaq), are valued at the official closing price or, if none, the last sales price. Securities listed on Nasdaq are valued at the Nasdaq Official Closing Price (NOCP). If no NOCP is available, securities are valued at the last prior sales price. If no sales price is shown on the Nasdaq, the bid price will be used. If no sale occurs on the primary exchange or market for the security that day or if no sale occurs and no bid price is shown on Nasdaq, the prior day's price will be deemed stale and fair values will be determined in accordance with the Fund's Valuation Procedures.

Securities denominated in foreign currencies are translated into U.S. dollars using the rates of exchange in effect on the day of valuation at a time specified by the Management Valuation Team of Wells Fargo Funds Management, LLC (Funds Management).

Many securities markets and exchanges outside the U.S. close prior to the close of the New York Stock Exchange and therefore may not fully reflect trading or events that occur after the close of the principal exchange in which the foreign securities are traded, but before the close of the New York Stock Exchange. If such trading or events are expected to materially affect the value of such securities, then fair value pricing procedures approved by the Board of Trustees are applied. These procedures take into account multiple factors including movements in U.S. securities markets after foreign exchanges close. Foreign securities that are fair valued under these procedures are categorized as Level 2 and the application of these procedures may result in transfers between Level 1 and Level 2. Depending on market activity, such fair valuations may be frequent. Such fair value pricing may result in NAVs that are higher or lower than NAVs based on the last reported sales price or latest quoted bid price. On October 31, 2012, fair value pricing was not used in pricing foreign securities.

Fixed income securities acquired with maturities exceeding 60 days are valued based on evaluated bid prices received from an independent pricing service which may utilize both transaction data and market information such as yield, prices of securities of comparable quality, coupon rate, maturity, type of issue, trading characteristics and other market data. If valuations are not available from the independent pricing service or values received are deemed not representative of market value, values will be obtained from a broker-dealer or otherwise determined based on the Fund's Valuation Procedures.

Debt securities of sufficient credit quality acquired with maturities of 60 days or less generally are valued at amortized cost which approximates fair value. The amortized cost method involves valuing a security at its cost, plus accretion of discount or minus amortization of premium over the period until maturity.

Investments in registered open-end investment companies are valued at net asset value.

Investments which are not valued using any of the methods discussed above are valued at their fair value, as determined by procedures established in good faith and approved by the Board of Trustees. The Board of Trustees has established a Valuation Committee comprised of the Trustees and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities, unless the determination has been delegated to the

Management Valuation Team. The Board of Trustees retains the authority to make or ratify any valuation decisions or approve any changes to the Valuation Procedures as it deems appropriate. On a quarterly basis, the Board of Trustees receives reports on any valuation actions taken by the Valuation Committee or the Management Valuation Team which may include items for ratification.

Table of Contents

18 Wells Fargo Advantage Global Dividend Opportunity Fund

Notes to financial statements

Valuations of fair valued securities are compared to the next actual sales price when available, or other appropriate market information to assess the continued appropriateness of the fair valuation methodology used. These securities are fair valued on a day-to-day basis, taking into consideration changes to appropriate market information and any significant changes to the input factors considered in the valuation process until there is a readily available price provided on the exchange or by an independent pricing service. Valuations received from an independent pricing service or broker quotes are periodically validated by comparisons to most recent trades and valuations provided by other independent pricing services in addition to the review of prices by the adviser and/or subadviser. Unobservable inputs used in determining fair valuations are identified based on the type of security, taking into consideration factors utilized by market participants in valuing the investment, knowledge about the issuer and the current market environment.

Foreign currency translation

The accounting records of the Fund are maintained in U.S. dollars. Assets, including investment securities, and liabilities denominated in foreign currency are translated into U.S. dollars at the rates of exchange at a time specified by the Management Valuation Team on the date of valuation. Purchases and sales of securities, and income and expenses are converted at the rate of exchange on the respective dates of such transactions. Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities resulting in changes in exchange rates.

The changes in net assets arising from changes in exchange rates and the changes in net assets resulting from changes in market prices of securities are not separately presented. Such changes are recorded with net realized and unrealized gains or losses from investments. Gains and losses from certain foreign currency transactions are treated as ordinary income for U.S. federal income tax purposes.

Options

The Fund may be subject to equity price risk and foreign currency exchange rate risk in the normal course of pursuing its investment objectives. The Fund may write covered call options or secured put options on individual securities. When the Fund writes an option, an amount equal to the premium received is recorded as a liability and is subsequently adjusted to the current market value of the written option. Premiums received from written options that expire unexercised are recognized as realized gains from investments on the expiration date. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is treated as a realized gain or loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in calculating the realized gain or loss on the sale. If a put option is exercised, the premium reduces the cost of the security purchased. The Fund, as a writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option.

The Fund may also purchase call or put options. The premium is included in the Statement of Assets and Liabilities as an investment, the value of which is subsequently adjusted based on to the current market value of the option. Premiums paid for purchased options that expire are recognized as realized losses from investments on the expiration date. Premiums paid for purchased options that are exercised or closed are added to the amount paid or offset against the proceeds received for the underlying security to determine the realized gain or loss. The risk of loss associated with purchased options is limited to the premium paid.

Options traded on an exchange are regulated and terms of the options are standardized. Options traded over the counter expose the Fund to counterparty risk in the event the counterparty does not perform. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are reported on the basis of identified cost of securities delivered.

Interest income is accrued daily and bond discounts are accreted and premiums are amortized daily based on the effective interest method. To the extent debt obligations are placed on non-accrual status, any related interest income may be reduced by writing off interest receivables when the collection of all or a portion of interest has become doubtful based on consistently applied procedures. If the issuer subsequently resumes interest payments or when the collectability of interest is reasonably assured, the debt obligation is removed from non-accrual status.

Table of Contents

Notes to financial statements

Wells Fargo Advantage Global Dividend Opportunity Fund 19

Dividend income is recognized on the ex-dividend date, except for certain dividends from foreign securities, which are recorded as soon as the Fund is informed of the ex-dividend date. Dividend income from foreign securities is recorded net of foreign taxes withheld where recovery of such taxes is not assured.

Distributions to shareholders

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with federal income tax regulations, which may differ in amount or character from net investment income and realized gains recognized for purposes of U.S. generally accepted accounting principles.

Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities. Management has analyzed the Fund's tax positions taken on federal, state, and foreign tax returns for all open tax years and does not believe that there are any uncertain tax positions that require recognition of a tax liability.

Reclassifications are made to the Fund's capital accounts for permanent tax differences to reflect income and gains available for distribution (or available capital loss carryforwards) under federal income tax regulations. U.S. generally accepted accounting principles requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share. The primary permanent differences causing such reclassifications are due to dividends from certain securities, foreign currency transactions, and recognition of partnership income. At October 31, 2012, as a result of permanent book-to-tax differences, the following reclassification adjustments were made on the Statement of Assets and Liabilities:

	Overdistributed net	Accumulated net realized losses
Paid-in capital	investment income	on investments
\$353,973	\$(2,785,056)	\$2,431,083

Under the *Regulated Investment Company Modernization Act of 2010*, the Fund is permitted to carry forward capital losses incurred in taxable years which began after December 22, 2010 for an unlimited period. However, any losses incurred are required to be utilized prior to the losses incurred in pre-enactment taxable years. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than be considered all short-term as under previous law. In addition, the Fund may elect to defer any portion of a post-October capital loss or qualified late-year ordinary loss to the first day of the following taxable year. A post-October capital loss is the greatest of the net capital loss, net short-term capital loss or net long-term capital loss for the portion of the taxable year after October 31. A qualified late-year ordinary loss is the net loss comprised of (a) net gain or loss from the sale or other disposition of certain capital assets for the portion of the taxable year after October 31, and (b) other ordinary income or loss for the portion of the taxable year after December 31.

At October 31, 2012, net capital loss carryforwards, which are available to offset future net realized capital gains, were as follows:

Pre-enactment capital loss expiration			Post-enactment capital losses	
2016	2017	2018	Short-term	Long-term
\$164,388,931	\$193,644,982	\$17,121,810	\$25,487,164	\$23,615,522

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to significant unobservable inputs (Level 3). The Fund's investments are classified within the fair value

Table of Contents

20 Wells Fargo Advantage Global Dividend Opportunity Fund

Notes to financial statements

hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

n Level 1 quoted prices in active markets for identical securities

n Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

n Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

As of October 31, 2012, the inputs used in valuing investments in securities, which are carried at fair value, were as follows:

	Quoted prices (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
Investments in securities				
Equity securities				
<i>Common stocks</i>	\$ 279,537,147	\$ 0	\$ 0	\$ 279,537,147
<i>Investment companies</i>	5,056,750	0	0	5,056,750
<i>Preferred stocks</i>	87,320,021	14,130,502	0	101,450,523
Short-term investments				
<i>Foreign government bonds</i>	0	14,257,672	0	14,257,672
<i>Investment companies</i>	11,008,086	0	0	11,008,086
	\$ 382,922,004	\$ 28,388,174	\$ 0	\$ 411,310,178

Further details on the major security types listed above can be found in the Portfolio of Investments.

As of October 31, 2012, the inputs used in valuing the Fund's other financial instruments, which are carried at fair value, were as follows:

	Quoted prices (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
Other financial instruments				
Written options	\$ 0	\$ (94,984)	\$ 0	\$ (94,984)

Transfers in and transfers out are recognized at the end of the reporting period. For the year ended October 31, 2012, the Fund did not have any significant transfers into/out of Level 1 or Level 2.

4. TRANSACTIONS WITH AFFILIATES AND OTHER EXPENSES**Advisory fee**

Funds Management, an indirect wholly owned subsidiary of Wells Fargo & Company (Wells Fargo), is the adviser to the Fund and is entitled to receive a fee at an annual rate of 0.95% of the Fund's average daily total assets. Total assets consist of the net assets of the Fund plus borrowings

or other leverage for investment purposes to the extent excluded in calculating net assets.

Funds Management has retained the services of certain subadvisers to provide daily portfolio management to the Fund. The fees for subadvisory services are borne by Funds Management. Wells Capital Management Incorporated, an affiliate of Funds Management, is a subadviser to the Fund and is entitled to receive a fee from Funds Management at an annual rate of 0.10% of the Fund's average daily total assets. Crow Point Partners, LLC is also a subadviser to the Fund and is entitled to receive a fee from Funds Management at an annual rate of 0.20% of the Fund's average daily total assets.

Administration fee

Funds Management also serves as the administrator to the Fund providing the Fund with facilities, equipment and personnel. Funds Management is entitled to receive an annual administration fee from the Fund equal to 0.05% of the Fund's average daily total assets.

Notes to financial statements

Wells Fargo Advantage Global Dividend Opportunity Fund 21

5. CAPITAL SHARE TRANSACTIONS

The Fund has authorized an unlimited number of shares with no par value. For the year ended October 31, 2012 and the year ended October 31, 2011, the Fund issued 29,018 and 123,866 shares, respectively.

6. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding U.S. government obligations (if any) and short-term securities, for the year ended October 31, 2012 were \$375,020,391 and \$365,255,962, respectively.

7. DERIVATIVE TRANSACTIONS

During the year ended October 31, 2012, the Fund entered into written options to generate income and for economic hedging purposes.

During the year ended October 31, 2012, the Fund had written option activities as follows:

	Call options		Put options	
	Number of contracts	Premiums received	Number of contracts	Premiums received
Options outstanding at October 31, 2011	8,718	\$1,219,500	0	\$ 0
Options written	106,450	8,609,140	419	118,243
Options expired	(92,833)	(7,747,243)	0	0
Options terminated in closing purchase transactions	(12,743)	(1,502,947)	(419)	(118,243)
Options exercised	(782)	(135,197)	0	0
Options outstanding at October 31, 2012	8,810	\$443,253	0	\$ 0

Open call options written at October 31, 2012 were as follow for the Fund:

Expiration date		Number of	Strike	Value
		contracts	price	
11-16-12	CAC Index	376	3,695 EUR	\$ (10,317)
11-16-12	DAX Index	357	7,770 EUR	(4,791)
11-16-12	EEM EQUITY Index	4,092	44 USD	(6,945)
11-16-12	FTSE MIB Index	331	16,939 EUR	(13,171)
11-16-12	IBEX Index	1,660	8,536 EUR	(7,242)
11-16-12	NDX Index	62	2,910 USD	(2,617)
11-16-12	NKY Index	151	9,395 JPY	(36,575)
11-16-12	OMX Index	1,057	1,137 SEK	(2,404)
11-16-12	RTY Index	206	888 USD	(4,060)
11-16-12	SX5E Index	518	2,707 EUR	(6,862)

The Fund had outstanding written options with total premiums received that averaged \$728,051 during the year ended October 31, 2012. As of October 31, 2012, the Fund had segregated \$240,636 as cash collateral for written options.

The fair value, realized gains or losses and change in unrealized gains or losses, if any, on derivative instruments are reflected in the appropriate financial statements.

8. DISTRIBUTIONS TO SHAREHOLDERS

The tax character of distributions paid during the years ended October 31, 2012 and October 31, 2011 were as follows:

	Year ended October 31	
	2012	2011
Ordinary income	\$42,140,874	\$54,923,576
Tax basis return of capital	12,886,750	0

Table of Contents

22 Wells Fargo Advantage Global Dividend Opportunity Fund

Notes to financial statements

As of October 31, 2012, the components of distributable earnings on a tax basis were as follows:

Unrealized	Capital loss
losses	carryforward
\$(26,607,481)	\$(424,258,409)

9. INDEMNIFICATION

Under the Fund's organizational documents, the officers and directors are indemnified against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

10. NEW ACCOUNTING PRONOUNCEMENTS

In December 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) No. 2011-11, *Disclosures about Offsetting Assets and Liabilities*. ASU 2011-11, which amends FASB ASC Topic 210, *Balance Sheet*, creates new disclosure requirements which require entities to disclose both gross and net information for derivatives and other financial instruments that are either offset in the Statement of Assets and Liabilities or subject to an enforceable master netting arrangement or similar agreement. The disclosure requirements are effective for interim and annual reporting periods beginning on or after January 1, 2013. Management is currently assessing the potential impact, in addition to expanded financial statement disclosure, that may result from adopting this ASU.

In May 2011, FASB issued ASU No. 2011-04 *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU No. 2011-04 amends FASB ASC Topic 820, *Fair Value Measurements*, to establish common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP. The ASU is effective prospectively for interim and annual periods beginning after December 15, 2011. Adoption of the ASU will result in additional disclosures in future financial statements, as applicable.

In April 2011, FASB issued ASU No. 2011-03 *Reconsideration of Effective Control for Repurchase Agreements*. ASU No. 2011-03 amends FASB ASC Topic 860, *Transfers and Servicing*, specifically the criteria required to determine whether a repurchase agreement (repo) and similar agreements should be accounted for as sales of financial assets or secured borrowings with commitments. ASU No. 2011-03 changes the assessment of effective control by focusing on the transferor's contractual rights and obligations and removing the criterion to assess its ability to exercise those rights or honor those obligations. This could result in changes to the way entities account for certain transactions including repurchase agreements, mortgage dollar rolls and reverse repurchase agreements. The ASU will become effective on a prospective basis for new transfers and modifications to existing transactions as of the beginning of the first interim or annual period beginning on or after December 15, 2011. Management has evaluated the impact of adopting the ASU and expects no significant changes.

11. SUBSEQUENT DISTRIBUTION

On November 7, 2012, the Fund declared a distribution of \$0.21 per share payable on January 2, 2013 to shareholders of record on December 17, 2012. This distribution is not reflected in the accompanying financial statements.

Report of independent registered public accounting firm

Wells Fargo Advantage Global Dividend Opportunity Fund 23

BOARD OF TRUSTEES AND SHAREHOLDERS OF

WELLS FARGO ADVANTAGE GLOBAL DIVIDEND OPPORTUNITY FUND:

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of the Wells Fargo Advantage Global Dividend Opportunity Fund (the Fund) as of October 31, 2012, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the five-year period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the Standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2012, by correspondence with the custodian, or other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Wells Fargo Advantage Global Dividend Opportunity Fund as of October 31, 2012, the results of its operations for the year then ended, changes in its net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

Other information (unaudited)

TAX INFORMATION

For corporate shareholders, pursuant to Section 854 of the Internal Revenue Code, 42.79% of ordinary income dividends qualify for the corporate dividends-received deduction for the fiscal year ended October 31, 2012.

Pursuant to Section 854 of the Internal Revenue Code, \$32,934,563 of income dividends paid during the fiscal year ended October 31, 2012 has been designated as qualified dividend income (QDI).

Current tax law generally provides for a maximum tax rate for individual taxpayers of 15% on long-term capital gains and qualifying dividends on corporate stocks. This rate is scheduled to expire at the end of 2012. In the absence of further Congressional action, the maximum tax rate on long-term capital gains for individual taxpayers would increase to 20% and income from dividends would be taxed at the rates applicable to ordinary income.

In addition, for taxable years beginning after December 31, 2012, absent further Congressional action, an additional 3.8% Medicare tax will be imposed on certain net investment income (including ordinary dividends and capital gain distributions received from a Fund and net gains from redemptions or other taxable dispositions of Fund shares) of U.S. individuals, estates and trusts to the extent that such person's modified adjusted gross income (in the case of an individual) or adjusted gross income (in the case of an estate or trust) exceed certain threshold amounts.

PROXY VOTING INFORMATION

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling **1-800-222-8222**, visiting our website at **wellsfargoadvantagefunds.com**, or visiting the SEC website at sec.gov. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge on the Fund's website at **wellsfargoadvantagefunds.com** or by visiting the SEC website at sec.gov.

PORTFOLIO HOLDINGS INFORMATION

The complete portfolio holdings for the Fund are publicly available on the Fund's website (**wellsfargoadvantagefunds.com**) on a monthly, 30-day or more delayed basis. The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q, which is available without charge by visiting the SEC website at sec.gov. In addition, the Fund's Form N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, DC, and at regional offices in New York City, at 233 Broadway, and in Chicago, at 175 West Jackson Boulevard, Suite 900. Information about the Public Reference Room may be obtained by calling 1-800-SEC-0330.

Table of Contents

Automatic dividend reinvestment plan

Wells Fargo Advantage Global Dividend Opportunity Fund 27

AUTOMATIC DIVIDEND REINVESTMENT PLAN

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan (the Plan). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan (Plan Agent), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as dividends) payable either in shares or in cash, nonparticipants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant s account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (newly issued common shares) or (ii) by purchase of outstanding common shares on the open-market (open-market purchases) on the NYSE Amex or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions (market premium), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant s account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium (market discount), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent s open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.

ITEM 2. CODE OF ETHICS

As of the end of the period, October 31, 2012, Wells Fargo Advantage Global Dividend Opportunity Fund has adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to its President and Treasurer. A copy of the code of ethics is filed as an exhibit to this Form N-CSR.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT

The Board of Trustees of Wells Fargo Advantage Global Dividend Opportunity Fund has determined that Judith Johnson is an audit committee financial expert, as defined in Item 3 of Form N-CSR. Mrs. Johnson is independent for purposes of Item 3 of Form N-CSR.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES

(a)

Audit Fees - Provided below are the aggregate fees billed for the fiscal years ended October 31, 2011 and October 31, 2012 for professional services rendered by the principal accountant for the audit of the Registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements.

For the fiscal years ended October 31, 2011 and October 31, 2012, the Audit Fees were \$40,600 and \$50,357, respectively.

(b)

Audit-Related Fees There were no audit-related fees incurred for the fiscal years ended October 31, 2011 and October 31, 2012 for assurance and related services by the principal accountant for the Registrant.

NCSR Global Dividend Opportunity

(c)

Tax Fees - Provided below are the aggregate fees billed for the fiscal years ended October 31, 2011 and October 31, 2012 for professional services rendered by the principal accountant for the Registrant for tax compliance, tax advice, and tax planning.

For the fiscal years ended October 31, 2011 and October 31, 2012, the Tax Fees were \$1,660 and \$1,700, respectively. The incurred Tax Fees are comprised of excise tax review services.

For the fiscal years ended October 31, 2011 and October 31, 2012, the Tax Fees were \$2,480 and \$2,540, respectively. The incurred Tax Fees are comprised of tax preparation and consulting services.

(d)

All Other Fees There were no other fees incurred for the fiscal years ended October 31, 2011 and October 31, 2012.

(e)(1)

The Chairman of the Audit Committees is authorized to pre-approve: (1) audit services to Wells Fargo Advantage Global Dividend Opportunity Fund; (2) non-audit tax or compliance consulting or training services provided to the Fund by the independent auditors (Auditors) if the fees for any particular engagement are not anticipated to exceed \$50,000; and (3) non-audit tax or compliance consulting or training services provided by the Auditors to the Fund's investment adviser and its controlling entities (where pre-approval is required because the engagement relates directly to the operations and financial reporting of the Fund) if the fee to the Auditors for any particular engagement is not anticipated to exceed \$50,000. For any such pre-approval sought from the Chairman, Management shall prepare a brief description of the proposed services. If the Chairman approves of such service, he

Table of Contents

or she shall sign the statement prepared by Management. Such written statement shall be presented to the full Committees at their next regularly scheduled meetings.

(e)(2)

Not Applicable.

(f)

Not Applicable.

(g)

Non-Audit Fees There were no non-audit fees billed for the fiscal years ended October 31, 2011 and October 31, 2012, by the principal accountant for services rendered to the Registrant, and rendered to the Registrant's investment adviser, and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the Registrant.

(h)

The Registrant's audit committee of the board of directors has determined that non-audit services rendered to the registrant's investment adviser, that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of the Regulation S-X, does not compromise the independence of the principal accountant.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS

Not applicable.

ITEM 6. PORTFOLIO OF INVESTMENTS

The Portfolio of investments is included as part of the report to shareholders filed under Item 1 of this Form.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

PROXY VOTING POLICIES AND PROCEDURES REVISED AS OF FEBRUARY 8, 2012

1. Scope of Policies and Procedures. These Policies and Procedures (Procedures) are used to determine how to vote proxies relating to portfolio securities held by the series of Wells Fargo Funds Trust, Wells Fargo Master Trust, Wells Fargo Variable Trust, Asset Allocation Trust, Wells Fargo Advantage Global Dividend Opportunity Fund, Wells Fargo Advantage Income Opportunities Fund, Wells Fargo Advantage Multi-Sector Income Fund, and Wells Fargo Advantage Utilities & High Income Fund (the Trusts) except for those series that exclusively hold non-voting securities (hereafter, all such series, and all such Trusts not having separate series, holding voting securities are referred to as the Funds).

2. Voting Philosophy. The Funds and Wells Fargo Funds Management, LLC (Funds Management) have adopted these Procedures to ensure that proxies are voted in the best interests of Fund shareholders, without regard to any relationship that any affiliated person of the Fund (or an affiliated person of such affiliated person) may have with the issuer. Funds Management exercises its voting responsibility, as a fiduciary, with the goal of maximizing value to shareholders consistent with governing laws and the investment policies of each Fund. While securities are not purchased to exercise control or to seek to effect corporate change through share ownership, the Funds support sound corporate governance practices within companies in which they invest.

3. Responsibilities

Table of Contents

(a) Board of Trustees. The Board of Trustees of each Trust (the Board) has delegated the responsibility for voting proxies relating to the Funds portfolio securities to Funds Management. The Board retains the authority to make or ratify any voting decisions or approve any changes to these Procedures as the Board deems appropriate. Funds Management will provide reports to the Board regarding voting matters when and as reasonably requested by the Board. The Board shall review these Procedures as often as it deems appropriate to consider whether any revisions are warranted. On an annual basis, the Board shall receive and review a report from Funds Management on the proxy voting process.

(b) Funds Management Proxy Committee

- (i) Responsibilities. The Funds Management Proxy Voting Committee (the Proxy Committee) shall be responsible for overseeing the proxy voting process to ensure its implementation in conformance with these Procedures. The Proxy Committee shall monitor Institutional Shareholder Services (ISS), the proxy voting agent for Funds Management, to determine that ISS is accurately applying the Procedures as set forth herein. The Proxy Committee shall review the continuing appropriateness of the Procedures set forth herein, recommend revisions to the Board as necessary and provide an annual update to the Board on the proxy voting process.
- (ii) Voting Guidelines. Appendix A hereto sets forth guidelines regarding how proxies will be voted on the issues specified. ISS will vote proxies for or against as directed by the guidelines. Where the guidelines specify a case by case determination for a particular issue, ISS will forward the proxy to the Proxy Committee for a vote determination by the Proxy Committee. Finally, with respect to issues for which a vote for or against is specified by the Procedures, the Proxy Committee shall have the authority to direct ISS to forward the proxy to the Proxy Committee for a discretionary vote by the Proxy Committee if the Proxy Committee determines that a case-by-case review of such matter is warranted. The Proxy Committee may also consult Fund sub-advisers on certain proxy voting issues on a case-by-case basis as the Proxy Committee deems appropriate or to the extent that a sub-adviser of a Fund makes a recommendation regarding a proxy voting issue. As a general matter, however, proxies are voted consistently on the same matter when securities of an issuer are held by multiple Funds.
- (iii) Proxy Committee. In all cases, the Proxy Committee will exercise its voting discretion in accordance with the voting philosophy of the Funds. In cases where a proxy is forwarded by ISS to the Proxy Committee, the Proxy Committee may be assisted in its voting decision through receipt of: (i) independent research and voting recommendations provided by ISS or other independent sources; (ii) input from the investment sub-adviser responsible for purchasing the security; and (iii) information provided by company management and shareholder groups.
 Voting decisions made by the Proxy Committee will be reported to ISS to ensure that the vote is registered in a timely manner and included in Form N-PX reporting.
- (iv) Securities on Loan. As a general matter, securities on loan will not be recalled to facilitate proxy voting (in which case the borrower of the security shall be entitled to vote the proxy). However, if the Proxy Committee is aware of an item in time to recall the security and has determined in good faith that the importance of the matter to be voted upon outweighs the loss in lending revenue that would result from recalling the security (i.e., if there is a controversial upcoming merger or acquisition, or some other significant matter), the security will be recalled for voting.
- (v) Practical Limitations to Proxy Voting. While Funds Management uses its best efforts to vote proxies, in certain circumstances it may be impractical or impossible for Funds

Table of Contents

Management to vote proxies (e.g., limited value or unjustifiable costs). For example, in accordance with local law or business practices, many foreign companies prevent the sales of shares that have been voted for a certain period beginning prior to the shareholder meeting and ending on the day following the meeting (share blocking). Due to these restrictions, Funds Management must balance the benefits to its clients of voting proxies against the potentially serious portfolio management consequences of a reduced flexibility to sell the underlying shares at the most advantageous time. As a result, Funds Management will generally not vote those proxies in the absence of an unusual, significant vote or compelling economic importance. Additionally, Funds Management may not be able to vote proxies for certain foreign securities if Funds Management does not receive the proxy statement in time to vote the proxies due to custodial processing delays.

- (vi) Conflicts of Interest. Funds Management may have a conflict of interest regarding a proxy to be voted upon if, for example, Funds Management or its affiliates have other relationships with the issuer of the proxy. In most instances, conflicts of interest are avoided through a strict and objective application of the voting guidelines attached hereto. However, when the Proxy Committee is aware of a material conflict of interest regarding a matter that would otherwise require a vote by the Proxy Committee, the Proxy Committee shall address the material conflict by using any of the following methods: (1) instructing ISS to vote in accordance with the recommendation ISS makes to its clients; (2) disclosing the conflict to the Board and obtaining their consent before voting; (3) submitting the matter to the Board to exercise its authority to vote on such matter; (4) engaging an independent fiduciary who will direct the Proxy Committee on voting instructions for the proxy; (5) consulting with outside legal counsel for guidance on resolution of the conflict of interest; (6) erecting information barriers around the person or persons making voting decisions; (7) voting in proportion to other shareholders (mirror voting); or (8) voting in other ways that are consistent with each Fund's obligation to vote in the best interests of its shareholders. Additionally, the Proxy Committee will not permit its votes to be influenced by any conflict of interest that exists for any other affiliated person of the Fund (such as a sub-adviser or principal underwriter) or any affiliated persons of such affiliated persons and the Proxy Committee will vote all such matters without regard to the conflict.

Funds Management may also have a conflict of interest regarding a proxy to be voted on if a member of the Board has an affiliation, directly or indirectly, with a public or private company (an Identified Company). Identified Companies include a Board member's employer, as well as any company of which the Board member is a director or officer or a 5% or more shareholder. The Proxy Committee shall address such a conflict by instructing ISS to vote in accordance with the recommendation ISS makes to its clients.

- (vii) Meetings. The Proxy Committee shall convene as needed and when discretionary voting determinations need to be considered, and shall have the authority to act by vote of a majority of the Proxy Committee members available at that time. The Proxy Committee shall also meet at least semi-annually to review the Procedures and the performance of ISS in exercising its proxy voting responsibilities.

- (viii) Membership. The voting members of the Proxy Committee shall be Tom Biwer, Travis Keshemberg, Patrick McGuinnis and Erik Sens. Andrew Owen shall be a non-voting member and serve in an advisory capacity on the Proxy Committee. Changes to the membership of the Proxy Committee will be made only with Board approval. Upon departure from Funds Management, a member's position on the Proxy Committee will automatically terminate.

4. Disclosure of Policies and Procedures. Each Fund shall disclose in its statement of additional information a description of the policies and procedures it uses to determine how to vote proxies relating to securities held in its

Table of Contents

portfolio. In addition, each Fund shall disclose in its semi- and annual reports that a description of its proxy voting policies and procedures is available without charge, upon request, by calling 1-800-222-8222, on the Fund's web site at www.wellsfargo.com/advantagefunds and on the Securities and Exchange Commission's website at <http://www.sec.gov>.

5. Disclosure of Proxy Voting Record. Each Trust shall file with the Commission an annual report on Form N-PX not later than August 31 of each year (beginning August 31, 2004), containing the Trust's proxy voting record for the most recent twelve-month period ended June 30.

Each Fund shall disclose in its statement of additional information and semi- and annual reports that information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge on the Fund's web site at www.wellsfargo.com/advantagefunds or by accessing the Commission's web site at www.sec.gov.

Each Fund shall disclose the following information on Form N-PX for each matter relating to a portfolio security considered at any shareholder meeting held during the period covered by the report and with respect to which the Fund was entitled to vote:

The name of the issuer of the portfolio security;

The exchange ticker symbol of the portfolio security;

The Council of Uniform Securities Identification Procedures (CUSIP) number for the portfolio security (unless the CUSIP is not available through reasonably practicable means, in which case it will be omitted);

The shareholder meeting date;

A brief identification of the matter voted on;

Whether the matter was proposed by the issuer or by a security holder;

Whether the Fund cast its vote on the matter;

How the Fund cast its vote (e.g. for or against a proposal, or abstain; for or withhold regarding election of directors); and

Whether the Fund cast its vote for or against management.

Form N-PX shall be made available to Fund shareholders through the SEC web site.

APPENDIX A

TO

PROXY VOTING POLICIES AND PROCEDURES

Funds Management will vote proxies relating to portfolio securities held by the Trusts in accordance with the following proxy voting guidelines. To the extent the specific guidelines below do not address a proxy voting proposal, Funds Management will vote pursuant to ISS' current U.S. and International proxy voting guidelines. Proxies for securities held by the Wells Fargo Advantage Social Awareness Fund related to social and

environmental proposals will be voted pursuant to ISS current SRI Proxy Voting Guidelines. In addition, proxies related to issues not addressed by the specific guidelines below or by ISS current U.S. and International proxy voting guidelines will be forwarded to the Proxy Committee for a vote determination by the Proxy Committee.

Uncontested Election of Directors or Trustees

THE FUNDS will generally vote for all uncontested director or trustee nominees. The Nominating Committee is in the best position to select nominees who are available and capable of working well together to oversee management of the company. THE FUNDS will not require a performance test for directors. FOR

THE FUNDS will generally vote for reasonably crafted shareholder proposals calling for directors to be elected with an affirmative majority of votes cast and/or the elimination of the plurality standard for electing directors, unless the company has adopted formal FOR

Table of Contents

corporate governance principles that present a meaningful alternative to the majority voting standard.

THE FUNDS will withhold votes for a director if the nominee fails to attend at least 75% of the board and committee meetings without a valid excuse. WITHHOLD

THE FUNDS will vote against routine election of directors if any of the following apply: company fails to disclose adequate information in a timely manner, serious issues with the finances, questionable transactions, conflicts of interest, record of abuses against minority shareholder interests, bundling of director elections, and/or egregious governance practices. AGAINST

THE FUNDS will withhold votes from the entire board (except for new nominees) where the director(s) receive more than 50% withhold votes out of those cast and the issue that was the underlying cause of the high level of withhold votes has not been addressed. WITHHOLD

THE FUNDS will withhold votes from members of the Audit Committee and/or the full board if poor accounting practices, which rise to a level of serious concern, such as: fraud; misapplication of GAAP; and material weaknesses identified in Section 404 disclosures, are identified. WITHHOLD

THE FUNDS will withhold votes from members of the Audit Committee if the company receives an adverse opinion on the company's financial statements from its auditor. WITHHOLD

THE FUNDS will withhold votes from members of the Audit Committee if there is persuasive evidence that the audit committee entered into an inappropriate indemnification agreement with its auditor that limits the ability of the company, or its shareholders, to pursue legitimate legal recourse against the audit firm. WITHHOLD

THE FUNDS will withhold votes from all directors (except for new nominees) if the company has adopted or renewed a poison pill without shareholder approval since the company's last annual meeting, does not put the pill to a vote at the current annual meeting, and does not have a requirement or does not commit to put the pill to shareholder vote within 12 months. In addition, THE FUNDS will withhold votes on all directors at any company that responds to the majority of the shareholders voting by putting the poison pill to a shareholder vote with a recommendation other than to eliminate the pill. WITHHOLD

THE FUNDS will withhold votes from compensation committee members if they fail to submit one-time transferable stock options (TSOs) to shareholders for approval. WITHHOLD

Limitation on Number of Boards a Director May Sit On

THE FUNDS will withhold votes from directors who sit on more than six boards. WITHHOLD

THE FUNDS will withhold votes from CEO directors who sit on more than two outside boards besides their own. WITHHOLD

Ratification of Auditors

THE FUNDS will vote against auditors and withhold votes from audit committee members AGAINST/

Table of Contents

if non-audit fees are greater than audit fees, audit-related fees, and permitted tax fees, combined. THE FUNDS will follow the disclosure categories being proposed by the SEC in applying the above formula. WITHHOLD

With the above exception, THE FUNDS will generally vote for proposals to ratify auditors unless: FOR

an auditor has a financial interest in or association with the company, and is therefore not independent, or there is reason to believe that the independent auditor has rendered an opinion that is neither accurate nor indicative of the company's financial position. AGAINST
AGAINST

THE FUNDS will vote against proposals that require auditors to attend annual meetings as auditors are regularly reviewed by the board audit committee, and such attendance is unnecessary. AGAINST

THE FUNDS will vote for shareholder proposals requesting a shareholder vote for audit firm ratification. FOR

THE FUNDS will vote against shareholder proposals asking for audit firm rotation. This practice is viewed as too disruptive and too costly to implement for the benefit achieved. AGAINST

Company Name Change/Purpose

THE FUNDS will vote for proposals to change the company name as management and the board is best suited to determine if such change in company name is necessary. FOR

However, where the name change is requested in connection with a reorganization of the company, the vote will be based on the merits of the reorganization. CASE-BY-CASE

In addition, THE FUNDS will generally vote for proposals to amend the purpose of the company. Management is in the best position to know whether the description of what the company does is accurate, or whether it needs to be updated by deleting, adding or revising language. FOR

Employee Stock Purchase Plans/401(k) Employee Benefit Plans

THE FUNDS will vote for proposals to adopt, amend or increase authorized shares for employee stock purchase plans and 401(k) plans for employees as properly structured plans enable employees to purchase common stock at a slight discount and thus own a beneficial interest in the company, provided that the total cost of the company's plan is not above the allowable cap for the company. FOR

Similarly, THE FUNDS will generally vote for proposals to adopt or amend thrift and savings plans, retirement plans, pension plans and profit plans. FOR

Anti-Hedging/Pledging/Speculative Investments Policy

THE FUNDS will consider proposals prohibiting named executive officers from engaging in derivative or speculative transactions involving company stock, including hedging, holding stock in a margin account, or pledging stock as collateral for a loan on a case-by-case basis. The company's existing policies regarding responsible use of company stock will be considered. CASE-BY-CASE

Table of Contents

Approve Other Business

THE FUNDS will generally vote for proposals to approve other business. This transfer of authority allows the corporation to take certain ministerial steps that may arise at the annual or special meeting. FOR

However, THE FUNDS retains the discretion to vote against such proposals if adequate information is not provided in the proxy statement, or the measures are significant and no further approval from shareholders is sought. AGAINST

Independent Board of Directors/Board Committees

THE FUNDS will vote for proposals requiring that two-thirds of the board be independent directors. An independent board faces fewer conflicts and is best prepared to protect stockholders' interests. FOR

THE FUNDS will withhold votes from insiders and affiliated outsiders on boards that are not at least majority independent. WITHHOLD

THE FUNDS will withhold votes from compensation committee members where there is a pay-for-performance disconnect (for Russell 3000 companies). WITHHOLD

THE FUNDS will vote for proposals requesting that the board audit, compensation and/or nominating committees be composed of independent directors, only. Committees should be composed entirely of independent directors in order to avoid conflicts of interest. FOR

THE FUNDS will withhold votes from any insiders or affiliated outsiders on audit, compensation or nominating committees. THE FUNDS will withhold votes from any insiders or affiliated outsiders on the board if any of these key committees has not been established. WITHHOLD

THE FUNDS will vote against proposals from shareholders requesting an independent compensation consultant. AGAINST

Director Fees

THE FUNDS will vote for proposals to set director fees. FOR

Minimum Stock Requirements by Directors

THE FUNDS will vote against proposals requiring directors to own a minimum number of shares of company stock in order to qualify as a director, or to remain on the board. Minimum stock ownership requirements can impose an across-the-board requirement that could prevent qualified individuals from serving as directors. AGAINST

Indemnification and Liability Provisions for Directors and Officers

THE FUNDS will vote for proposals to allow indemnification of directors and officers, when the actions taken were on behalf of the company and no criminal violations occurred. THE FUNDS will also vote in favor of proposals to purchase liability insurance covering liability in connection with those actions. Not allowing companies to indemnify directors and officers to the degree possible under the law would limit the ability of the company to attract qualified individuals. FOR

Alternatively, THE FUNDS will vote against indemnity proposals that are overly broad.

Table of Contents

For example, THE FUNDS will oppose proposals to indemnify directors for acts going beyond mere carelessness, such as gross negligence, acts taken in bad faith, acts not otherwise allowed by state law or more serious violations of fiduciary obligations. AGAINST

Nominee Statement in the Proxy

THE FUNDS will vote against proposals that require board nominees to have a statement of candidacy in the proxy, since the proxy statement already provides adequate information pertaining to the election of directors. AGAINST

Director Tenure/Retirement Age

THE FUNDS will vote against proposals to limit the tenure of directors as such limitations based on an arbitrary number could prevent qualified individuals from serving as directors. However, THE FUNDS is in favor of inserting cautionary language when the average director tenure on the board exceeds 15 years for the entire board. AGAINST

The Funds will vote for proposals to establish a mandatory retirement age for directors provided that such retirement age is not less than 65. FOR

Board Powers/Procedures/Qualifications

THE FUNDS will consider on a case-by-case basis proposals to amend the corporation's By-laws so that the Board of Directors shall have the power, without the assent or vote of the shareholders, to make, alter, amend, or rescind the By-laws, fix the amount to be reserved as working capital, and fix the number of directors and what number shall constitute a quorum of the Board. In determining these issues, THE FUNDS will rely on the proxy voting Guidelines. CASE-BY-CASE

Adjourn Meeting to Solicit Additional Votes

THE FUNDS will examine proposals to adjourn the meeting to solicit additional votes on a case-by-case basis. As additional solicitation may be costly and could result in coercive pressure on shareholders, THE FUNDS will consider the nature of the proposal and its vote recommendations for the scheduled meeting. CASE-BY-CASE

THE FUNDS will vote for this item when:

THE FUNDS is supportive of the underlying merger proposal; the company provides a sufficient, compelling reason to support the adjournment proposal; and the authority is limited to adjournment proposals requesting the authority to adjourn solely to solicit proxies to approve a transaction THE FUNDS supports. FOR

Reimbursement of Solicitation Expenses

THE FUNDS will consider contested elections on a case-by-case basis, considering the following factors: long-term financial performance of the target company relative to its industry; management's track record; background of the proxy contest; qualifications of director or trustee nominees (both slates); evaluation of what each side is offering shareholders as well as the likelihood that the proposed objectives and goals can be met; and stock ownership positions. CASE-BY-CASE

Board Structure: Staggered vs. Annual Elections

Table of Contents

THE FUNDS will consider the issue of classified boards on a case-by-case basis. In some cases, the division of the board into classes, elected for staggered terms, can entrench the incumbent management and make them less responsive to shareholder concerns. On the other hand, in some cases, staggered elections may provide for the continuity of experienced directors on the Board. CASE-BY-CASE

Removal of Directors

THE FUNDS will consider on a case-by-case basis proposals to eliminate shareholders' rights to remove directors with or without cause or only with approval of two-thirds or more of the shares entitled to vote. CASE-BY-CASE

However, a requirement that a 75% or greater vote be obtained for removal of directors is abusive and will warrant a vote against the proposal. AGAINST

Board Vacancies

THE FUNDS will vote against proposals that allow the board to fill vacancies without shareholder approval as these authorizations run contrary to basic shareholders' rights. AGAINST

Alternatively, THE FUNDS will vote for proposals that permit shareholders to elect directors to fill board vacancies. FOR

Cumulative Voting

THE FUNDS will vote on proposals to permit or eliminate cumulative voting on a case-by-case basis based upon the existence of a counter balancing governance structure and company performance, in accordance with its proxy voting guideline philosophy. CASE-BY-CASE

THE FUNDS will vote for against cumulative voting if the board is elected annually. AGAINST

Board Size

THE FUNDS will vote for proposals that seek to fix the size of the board, as the ability for management to increase or decrease the size of the board in the face of a proxy contest may be used as a takeover defense. FOR

However, if the company has cumulative voting, downsizing the board may decrease a minority shareholder's chances of electing a director.

By increasing the size of the board, management can make it more difficult for dissidents to gain control of the board. Fixing the size of the board also prevents a reduction in the board size as a means to oust independent directors or those who cause friction within an otherwise homogenous board.

Shareholder Rights Plan (Poison Pills)

THE FUNDS will generally vote for proposals that request a company to submit its poison pill for shareholder ratification. FOR

Alternatively, THE FUNDS will analyze proposals to redeem a company's poison pill, or requesting the ratification of a poison pill on a case-by-case basis. CASE-BY-CASE

Poison pills are one of the most potent anti-takeover measures and are generally adopted by

Table of Contents

boards without shareholder approval. These plans harm shareholder value and entrench management by deterring stock acquisition offers that are not favored by the board.

Fair Price Provisions

THE FUNDS will consider fair price provisions on a case-by-case basis, evaluating factors such as the vote required to approve the proposed mechanism, the vote required to approve the proposed acquisition, the vote required to repeal the fair price provision, and the mechanism for determining the fair price. CASE-BY-CASE

THE FUNDS will vote against fair price provisions with shareholder vote requirements of 75% or more of disinterested shares. AGAINST

Greenmail

THE FUNDS will generally vote in favor of proposals limiting the corporation's authority to purchase shares of common stock (or other outstanding securities) from a holder of a stated interest (5% or more) at a premium unless the same offer is made to all shareholders. These are known as anti-greenmail provisions. Greenmail discriminates against rank-and-file shareholders and may have an adverse effect on corporate image. FOR

If the proposal is bundled with other charter or bylaw amendments, THE FUNDS will analyze such proposals on a case-by-case basis. In addition, THE FUNDS will analyze restructurings that involve the payment of pale greenmail on a case-by-case basis. CASE-BY-CASE

Voting Rights

THE FUNDS will vote for proposals that seek to maintain or convert to a one-share, one-vote capital structure as such a principle ensures that management is accountable to all the company's owners. FOR

Alternatively, THE FUNDS will vote against any proposals to cap the number of votes a shareholder is entitled to. Any measure that places a ceiling on voting may entrench management and lessen its interest in maximizing shareholder value. AGAINST

Dual Class/Multiple-Voting Stock

THE FUNDS will vote against proposals that authorize, amend or increase dual class or multiple-voting stock which may be used in exchanges or recapitalizations. Dual class or multiple-voting stock carry unequal voting rights, which differ from those of the broadly traded class of common stock. AGAINST

Alternatively, THE FUNDS will vote for the elimination of dual class or multiple-voting stock, which carry different rights than the common stock. FOR

Confidential Voting

THE FUNDS will vote for proposals to adopt confidential voting. FOR

Vote Tabulations

AGAINST

THE FUNDS will vote against proposals asking corporations to refrain from counting abstentions and broker non-votes in their vote tabulations and to eliminate the company's discretion to vote unmarked proxy ballots. Vote counting procedures are determined by a

Table of Contents

number of different standards, including state law, the federal proxy rules, internal corporate policies, and mandates of the various stock exchanges.

Equal Access to the Proxy

THE FUNDS will evaluate Shareholder proposals requiring companies to give shareholders access to the proxy ballot for the purpose of nominating board members, on a case-by-case basis taking into account the ownership threshold proposed in the resolution and the proponent's rationale for the proposal at the targeted company in terms of board and director conduct. CASE-BY-CASE

Disclosure of Information

THE FUNDS will vote against shareholder proposals requesting fuller disclosure of company policies, plans, or business practices. Such proposals rarely enhance shareholder return and in many cases would require disclosure of confidential business information. AGAINST

Annual Meetings

THE FUNDS will vote for proposals to amend procedures or change date or location of the annual meeting. Decisions as to procedures, dates or locations of meetings are best placed with management. FOR

Alternatively, THE FUNDS will vote against proposals from shareholders calling for a change in the location or date of annual meetings as no date or location proposed will be acceptable to all shareholders. AGAINST

THE FUNDS will generally vote in favor of proposals to reduce the quorum necessary for shareholders' meetings, subject to a minimum of a simple majority of the company's outstanding voting shares. FOR

Shareholder Advisory Committees/Independent Inspectors

THE FUNDS will vote against proposals seeking to establish shareholder advisory committees or independent inspectors. The existence of such bodies dilutes the responsibility of the board for managing the affairs of the corporation. AGAINST

Technical Amendments to the Charter of Bylaws

THE FUNDS will generally vote in favor of charter and bylaw amendments proposed solely to conform to modern business practices, for simplification, or to comply with what management's counsel interprets as applicable law. FOR

However, amendments that have a material effect on shareholder's rights will be considered on a case-by-case basis. CASE-BY-CASE

Bundled Proposals

THE FUNDS will vote for bundled or conditional proxy proposals on a case-by-case basis, as THE FUNDS will examine the benefits and costs of the packaged items, and determine if the effect of the conditioned items are in the best interests of shareholders. CASE-BY-CASE

Dividends

Table of Contents

THE FUNDS will vote for proposals to allocate income and set dividends.	FOR
THE FUNDS will also vote for proposals that authorize a dividend reinvestment program as it allows investors to receive additional stock in lieu of a cash dividend.	FOR
However, if a proposal for a special bonus dividend is made that specifically rewards a certain class of shareholders over another, THE FUNDS will vote against the proposal.	AGAINST
THE FUNDS will also vote against proposals from shareholders requesting management to redistribute profits or restructure investments. Management is best placed to determine how to allocate corporate earnings or set dividends.	AGAINST

Reduce the Par Value of the Common Stock

THE FUNDS will vote for proposals to reduce the par value of common stock.	FOR
--	-----

Preferred Stock Authorization

THE FUNDS will generally vote for proposals to create preferred stock in cases where the company expressly states that the stock will not be used as a takeover defense or carry superior voting rights, or where the stock may be used to consummate beneficial acquisitions, combinations or financings.	FOR
Alternatively, THE FUNDS will vote against proposals to authorize or issue preferred stock if the board has asked for the unlimited right to set the terms and conditions for the stock and may issue it for anti-takeover purposes without shareholder approval (blank check preferred stock).	AGAINST
In addition, THE FUNDS will vote against proposals to issue preferred stock if the shares to be used have voting rights greater than those available to other shareholders.	AGAINST
THE FUNDS will vote for proposals to require shareholder approval of blank check preferred stock issues for other than general corporate purposes (white squire placements).	FOR

Preemptive Rights

THE FUNDS will generally vote for proposals to eliminate preemptive rights. Preemptive rights are unnecessary to protect shareholder interests due to the size of most modern companies, the number of investors and the liquidity of trading.	FOR
--	-----

Share Repurchase Plans

THE FUNDS will vote for share repurchase plans, unless: there is clear evidence of past abuse of the authority; or the plan contains no safeguards against selective buy-backs.	FOR AGAINST AGAINST
---	---------------------------

Corporate stock repurchases are a legitimate use of corporate funds and can add to long-term shareholder returns.

Executive and Director Compensation Plans

Table of Contents

THE FUNDS will analyze on a case-by-case basis proposals on executive or director compensation plans, with the view that viable compensation programs reward the creation of stockholder wealth by having high payout sensitivity to increases in shareholder value. Such proposals may seek shareholder approval to adopt a new plan, or to increase shares reserved for an existing plan.	CASE-BY-CASE
THE FUNDS will review the potential cost and dilutive effect of the plan. After determining how much the plan will cost, ISS evaluates whether the cost is reasonable by comparing the cost to an allowable cap. The allowable cap is industry-specific, market cap-base, and pegged to the average amount paid by companies performing in the top quartile of their peer groups. If the proposed cost is below the allowable cap, THE FUNDS will vote for the plan. ISS will also apply a pay for performance overlay in assessing equity-based compensation plans for Russell 3000 companies.	FOR
If the proposed cost is above the allowable cap, THE FUNDS will vote against the plan.	AGAINST
Among the plan features that may result in a vote against the plan are:	AGAINST
plan administrators are given the authority to reprice or replace underwater options; repricing guidelines will conform to changes in the NYSE and NASDAQ listing rules.	
THE FUNDS will vote against equity plans that have high average three-year burn rate. (The burn rate is calculated as the total number of stock awards and stock options granted any given year divided by the number of common shares outstanding.) THE FUNDS will define a high average three-year burn rate as the following: The company's most recent three-year burn rate exceeds one standard deviation of its four-digit GICS peer group segmented by Russell 3000 index and non-Russell 3000 index; and the company's most recent three-year burn rate exceeds 2% of common shares outstanding. For companies that grant both full value awards and stock options to their employees, THE FUNDS shall apply a premium on full value awards for the past three fiscal years.	AGAINST
Even if the equity plan fails the above burn rate, THE FUNDS will vote for the plan if the company commits in a public filing to a three-year average burn rate equal to its GICS group burn rate mean plus one standard deviation. If the company fails to fulfill its burn rate commitment, THE FUNDS will consider withholding from the members of the compensation committee.	FOR
THE FUNDS will calculate a higher award value for awards that have Dividend Equivalent Rights (DER's) associated with them.	CASE-BY-CASE
THE FUNDS will generally vote for shareholder proposals requiring performance-based stock options unless the proposal is overly restrictive or the company demonstrates that it is using a substantial portion of performance-based awards for its top executives.	FOR
THE FUNDS will vote for shareholder proposals asking the company to expense stock options, as a result of the FASB final rule on expensing stock options.	FOR
THE FUNDS will generally vote for shareholder proposals to exclude pension fund income in the calculation of earnings used in determining executive bonuses/compensation.	FOR
THE FUNDS will generally vote for TSO awards within a new equity plan if the total cost of the equity plan is less than the company's allowable cap.	FOR
THE FUNDS will generally vote against shareholder proposals to ban future stock option	AGAINST

Table of Contents

grants to executives. This may be supportable in extreme cases where a company is a serial repricer, has a huge overhang, or has highly dilutive, broad-based (non-approved) plans and is not acting to correct the situation.

THE FUNDS will evaluate shareholder proposals asking companies to adopt holding periods for their executives on a case-by-case basis taking into consideration the company's current holding period or officer share ownership requirements, as well as actual officer stock ownership in the company. CASE-BY-CASE

For certain OBRA-related proposals, THE FUNDS will vote for plan provisions that (a) place a cap on annual grants or amend administrative features, and (b) add performance criteria to existing compensation plans to comply with the provisions of Section 162(m) of the Internal Revenue Code. FOR

In addition, director compensation plans may also include stock plans that provide directors with the option of taking all or a portion of their cash compensation in the form of stock. THE FUNDS will consider these plans based on their voting power dilution. CASE-BY-CASE

THE FUNDS will generally vote for retirement plans for directors. FOR

THE FUNDS will evaluate compensation proposals (Tax Havens) requesting share option schemes or amending an existing share option scheme on a case-by-case basis. CASE-BY-CASE

Stock options align management interests with those of shareholders by motivating executives to maintain stock price appreciation. Stock options, however, may harm shareholders by diluting each owner's interest. In addition, exercising options can shift the balance of voting power by increasing executive ownership.

Bonus Plans

THE FUNDS will vote for proposals to adopt annual or long-term cash or cash-and-stock bonus plans on a case-by-case basis. These plans enable companies qualify for a tax deduction under the provisions of Section 162(m) of the IRC. Payouts under these plans may either be in cash or stock and are usually tied to the attainment of certain financial or other performance goals. THE FUNDS will consider whether the plan is comparable to plans adopted by companies of similar size in the company's industry and whether it is justified by the company's performance. CASE-BY-CASE

Deferred Compensation Plans

THE FUNDS will generally vote for proposals to adopt or amend deferred compensation plans as they allow the compensation committee to tailor the plan to the needs of the executives or board of directors, unless FOR

the proposal is embedded in an executive or director compensation plan that is contrary to guidelines AGAINST

Disclosure on Executive or Director Compensation Cap or Restrict Executive or

Table of Contents

Director Compensation

THE FUNDS will generally vote for shareholder proposals requiring companies to report on their executive retirement benefits (deferred compensation, split-dollar life insurance, SERPs, and pension benefits).	FOR
THE FUNDS will generally vote for shareholder proposals requesting to put extraordinary benefits contained in SERP agreements to a shareholder vote, unless the company's executive pension plans do not contain excessive benefits beyond what is offered under employee-wide plans.	FOR
THE FUNDS will generally vote against proposals seek to limit executive and director pay.	AGAINST

Tax-Gross-Up Payments

THE FUNDS will examine on a case-by-case basis proposals calling for companies to adopt a policy of not providing tax gross-up payments to executives.	CASE-BY-CASE
--	--------------

Relocation Benefits

The FUNDS will not consider relocation benefits as a problematic pay practice in connection with management say-on-pay proposals.

Exchange Offers/Re-Pricing

The FUNDS will not vote against option exchange programs made available to executives and directors that are otherwise found acceptable.

Golden and Tin Parachutes

THE FUNDS will vote for proposals that seek shareholder ratification of golden or tin parachutes as shareholders should have the opportunity to approve or disapprove of these severance agreements.	FOR
--	-----

Alternatively, THE FUNDS will examine on a case-by-case basis proposals that seek to ratify or cancel golden or tin parachutes. Effective parachutes may encourage management to consider takeover bids more fully and may also enhance employee morale and productivity. Among the arrangements that will be considered on their merits are:	CASE-BY-CASE
---	--------------

arrangements guaranteeing key employees continuation of base salary for more than three years or lump sum payment of more than three times base salary plus retirement benefits;

guarantees of benefits if a key employee voluntarily terminates;

guarantees of benefits to employees lower than very senior management; and

indemnification of liability for excise taxes.

By contrast, THE FUNDS will vote against proposals that would guarantee benefits in a management-led buyout.	AGAINST
--	---------

Stakeholder Laws

THE FUNDS will vote against resolutions that would allow the Board to consider stakeholder interests (local communities, employees, suppliers, creditors, etc.) when faced with a takeover offer.	AGAINST
---	---------

Table of Contents

Similarly, THE FUNDS will vote for proposals to opt out of stakeholder laws, which permit directors, when taking action, to weight the interests of constituencies other than shareholders in the process of corporate decision-making. Such laws allow directors to consider nearly any factor they deem relevant in discharging their duties. FOR

Mergers/Acquisitions and Corporate Restructurings

THE FUNDS will consider proposals on mergers and acquisitions on a case-by-case basis. THE FUNDS will determine if the transaction is in the best economic interests of the shareholders. THE FUNDS will take into account the following factors: CASE-BY-CASE

- anticipated financial and operating benefits;
- offer price (cost versus premium);
- prospects for the combined companies;
- how the deal was negotiated;
- changes in corporate governance and their impact on shareholder rights.

In addition, THE FUNDS will also consider whether current shareholders would control a minority of the combined company's outstanding voting power, and whether a reputable financial advisor was retained in order to ensure the protection of shareholders' interests. CASE-BY-CASE

On all other business transactions, i.e. corporate restructuring, spin-offs, asset sales, liquidations, and restructurings, THE FUNDS will analyze such proposals on a case-by-case basis and utilize the majority of the above factors in determining what is in the best interests of shareholders. Specifically, for liquidations, the cost versus premium factor may not be applicable, but THE FUNDS may also review the compensation plan for executives managing the liquidation. CASE-BY-CASE

Appraisal Rights

THE FUNDS will vote for proposals to restore, or provide shareholders with rights of appraisal. FOR

Rights of appraisal provide shareholders who are not satisfied with the terms of certain corporate transactions (such as mergers) the right to demand a judicial review in order to determine the fair value of their shares.

Mutual Fund Proxies

THE FUNDS will vote mutual fund proxies on a case-by-case basis. CASE-BY-CASE

Proposals may include, and are not limited to, the following issues:

- eliminating the need for annual meetings of mutual fund shareholders;
- entering into or extending investment advisory agreements and management contracts;
- permitting securities lending and participation in repurchase agreements;
- changing fees and expenses; and
- changing investment policies.

APPENDIX B

TO

PROXY VOTING POLICIES AND PROCEDURES

Table of Contents

Members of Funds Management Proxy Voting Committee

Thomas C. Biwer, CFA

Mr. Biwer has 38 years experience in finance and investments. He has served as an investment analyst, portfolio strategist, and corporate pension officer. He received B.S. and M.B.A. degrees from the University of Illinois and has earned the right to use the CFA designation.

Erik J. Sens, CFA

Mr. Sens has 22 years of investment industry experience. He has served as an investment analyst and portfolio manager. He received undergraduate degrees in Finance and Philosophy from the University of San Francisco and has earned the right to use the CFA designation.

Travis L. Keshemberg, CFA

Mr. Keshemberg has 17 years experience in the investment industry. He has served as a overlay portfolio manager and investment consultant. He holds a Masters Degree from the University of Wisconsin Milwaukee and Bachelors degree from Marquette University. He has earned the right to use the CFA, CIPM and CIMA designations.

Patrick E. McGuinnis, CFA

Mr. McGuinnis has 12 years of experience in the investment industry as an analyst. He holds B.S. and M.S. degrees in Finance from the University of Wisconsin and has earned the right to use the CFA designation.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES

PORTFOLIO MANAGERS

Timothy P. O'Brien

Mr. O'Brien is jointly responsible for managing the Fund, which he has managed since 2007. Mr. O'Brien is a Managing Partner of Crow Point Partners LLC, an investment management firm and the sub-adviser for three Wells Fargo Advantage Funds. Prior to forming Crow Point in 2006, he was a Managing Director and Senior Portfolio Manager with the Value Equity team of Evergreen Investments Equity Management group. Education: B.A., University of Massachusetts, MBA in finance, Wharton School. He has been awarded the Chartered Financial Analyst (CFA) designation by the CFA Institute.

Jeffrey P. Mellas, CAIA

Mr. Mellas is jointly responsible for managing the Fund, which he has managed since 2010. Mr. Mellas joined Wells Capital Management in 2003 as Managing Director of Quantitative Asset Management and Portfolio Manager. In this role, Mr. Mellas oversees quantitative investment management efforts on behalf of institutional separate accounts, mutual investment funds and collective investment funds. Prior to joining Wells Capital Management, Mr. Mellas was with Alliance Capital Management since 1995, as Vice President and Global Portfolio Strategist. Education: B.A., Economics, University of Minnesota; M.B.A., Finance and International Business, New York University. Additional studies: International Management Program at Hute Etudes Commerciales, Paris, France, and Université de Valery, Montpellier, France. He has earned the right to use the CAIA designation and is a member of the Chartered Alternative Investment Analyst Association.

OTHER FUNDS AND ACCOUNTS MANAGED

The following table provides information about the registered investment companies and other pooled investment vehicles and accounts managed by the portfolio manager of the Fund as of the Fund's most recent period ended October 31, 2012.

Timothy P. O'Brien

Edgar Filing: WELLS FARGO ADVANTAGE GLOBAL DIVIDEND OPPORTUNITY FUND - Form N-CSR

Number of above accounts	0	0	0
Total assets of above accounts (millions)	\$ 0.0	\$ 0.0	\$ 0.0

MATERIAL CONFLICTS OF INTEREST

The Portfolio Managers face inherent conflicts of interest in their day-to-day management of the Funds and other accounts because the Funds may have different investment objectives, strategies and risk profiles than the other accounts managed by the Portfolio Managers. For instance, to the extent that the Portfolio Managers manage accounts with different investment strategies than the Funds, they may from time to time be inclined to purchase securities, including initial public offerings, for one account but not for a Fund. Additionally, some of the accounts managed by the Portfolio Managers may have different fee structures, including performance fees, which are or have the potential to be higher or lower, in some cases significantly higher or lower, than the fees paid by the Funds. The differences in fee structures may provide an incentive to the Portfolio Managers to allocate more favorable trades to the higher-paying accounts.

To minimize the effects of these inherent conflicts of interest, the Sub-Advisers have adopted and implemented policies and procedures, including brokerage and trade allocation policies and procedures, that they believe address the potential conflicts associated with managing portfolios for multiple clients and ensure that all clients are treated fairly and equitably. Additionally, some of the Sub-Advisers minimize inherent conflicts of interest by assigning the Portfolio Managers to accounts having similar objectives. Accordingly, security block purchases are allocated to all accounts with similar objectives in proportionate weightings. Furthermore, the Sub-Advisers have adopted a Code of Ethics under Rule 17j-1 of the 1940 Act and Rule 204A-1 under the Investment Advisers Act of 1940 (the Advisers Act) to address potential conflicts associated with managing the Funds and any personal accounts the Portfolio Managers may maintain.

Crow Point.

Crow Point manages other investment vehicles, including some that may have investment objectives and strategies similar to the Fund s. The management of multiple funds and other accounts may require the portfolio manager to devote less than all of his or her time to the Fund, particularly if the other funds and accounts have different objectives, benchmarks and time horizons. The portfolio manager may also be required to allocate his or her investment ideas across multiple funds and accounts. In addition, if a portfolio manager identifies a limited investment opportunity, such as an initial public offering, that may be suitable for more than one fund or other account, the Fund may not be able to take full advantage of that opportunity due to, for example, an allocation of that investment across all eligible funds and accounts. Further, security purchase and sale orders for multiple accounts often are aggregated for purpose of execution. Although such aggregation generally benefits clients, it may cause the price or brokerage costs to be less favorable to a particular client than if similar transactions were not being executed concurrently for other accounts. It may also happen that the Fund s advisor or subadvisor will determine that it would be in the best interest, and consistent with the investment policies, of another account to sell a security (including by means of a short sale) that the Fund holds long, potentially resulting in a decrease in the market value of the security held by the Fund.

Table of Contents

The structure of a portfolio manager’s or an investment advisor’s compensation may create an incentive for the portfolio manager or investment advisor to favor accounts whose performance has a greater impact on such compensation. The portfolio manager may, for example, have an incentive to allocate favorable or limited opportunity investments or structure the timing of investments to favor such accounts. Similarly, if a portfolio manager holds a larger personal investment in one fund than he or she does in another, the portfolio manager may have an incentive to favor the fund in which he or she holds a larger stake.

In general, Crow Point has policies and procedures that attempt to address the various potential conflicts of interest described above. However, there is no guarantee that such procedures will detect or address each and every situation where a conflict arises.

All employees of Crow Point are bound by the company’s Code of Ethics and compliance policies and procedures. Crow Point’s chief compliance officer monitors and reviews compliance regularly. Crow Point’s Code of Ethics and compliance procedures have been reviewed and accepted by Wells Fargo Funds Management. In addition, side-by-side trading rules have been agreed between Wells Fargo Funds Management and Crow Point as part of existing sub-advisory arrangements which are intended to ensure that shareholders of the sub-advised Wells Fargo funds are treated equitably by Crow Point with respect to investments, trading and allocations.

Wells Capital Management

Wells Capital Management’s Portfolio Managers often provide investment management for separate accounts advised in the same or similar investment style as that provided to mutual funds. While management of multiple accounts could potentially lead to conflicts of interest over various issues such as trade allocation, fee disparities and research acquisition, Wells Capital Management has implemented policies and procedures for the express purpose of ensuring that clients are treated fairly and that potential conflicts of interest are minimized.

COMPENSATION

The Portfolio Managers were compensated by their employing sub-adviser from the fees the Adviser paid the Sub-Adviser using the following compensation structure:

Crow Point. Portfolio managers at Crow Point are paid a fixed salary and participate in the profits of the firm in proportion to their equity ownership in the firm.

Wells Capital Management Compensation. The compensation structure for Wells Capital Management’s Portfolio Managers includes a competitive fixed base salary plus variable incentives (Wells Capital Management utilizes investment management compensation surveys as confirmation). Incentive bonuses are typically tied to pretax relative investment performance of all accounts under his or her management within acceptable risk parameters. Relative investment performance is generally evaluated for 1, 3, and 5 year performance results, with a predominant weighting on the 3- and 5- year time periods, versus the relevant benchmarks and/or peer groups consistent with the investment style. This evaluation takes into account relative performance of the accounts to each account’s individual benchmark and/or the relative composite performance of all accounts to one or more relevant benchmarks consistent with the overall investment style. In the case of each Fund, the benchmark(s) against which the performance of the Fund’s portfolio may be compared for these purposes generally are indicated in the Performance sections of the Prospectuses.

BENEFICIAL OWNERSHIP OF THE FUND

The following table shows for each Portfolio Manager the dollar value of the Fund beneficially owned by the Portfolio Manager as of October 31, 2012:

Wells Fargo Advantage Global Dividend Opportunity Fund	
Timothy P. O'Brien	\$ 10,001-\$50,000
Jeffrey P. Mellas	none

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASES

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Table of Contents

The Governance Committee (the Committee) of the Board of Trustees of the registrant (the Trust) has adopted procedures by which a shareholder of any series of the Trust may submit properly a nominee recommendation for the Committee's consideration.

The shareholder must submit any such recommendation (a Shareholder Recommendation) in writing to the Trust, to the attention of the Trust's Secretary, at the address of the principal executive offices of the Trust.

The Shareholder Recommendation must be delivered to, or mailed and received at, the principal executive offices of the Trust not less than forty-five (45) calendar days nor more than seventy-five (75) calendar days prior to the date of the Committee meeting at which the nominee would be considered.

The Shareholder Recommendation must include: (i) a statement in writing setting forth (A) the name, age, date of birth, business address, residence address and nationality of the person recommended by the shareholder (the candidate); (B) the series (and, if applicable, class) and number of all shares of the Trust owned of record or beneficially by the candidate, as reported to such shareholder by the candidate; (C) any other information regarding the candidate called for with respect to director nominees by paragraphs (a), (d), (e) and (f) of Item 401 of Regulation S-K or paragraph (b) of Item 22 of Rule 14a-101 (Schedule 14A) under the Securities Exchange Act of 1934, as amended (the Exchange Act), adopted by the Securities and Exchange Commission (or the corresponding provisions of any regulation or rule subsequently adopted by the Securities and Exchange Commission or any successor agency applicable to the Trust); (D) any other information regarding the candidate that would be required to be disclosed if the candidate were a nominee in a proxy statement or other filing required to be made in connection with solicitation of proxies for election of directors pursuant to Section 14 of the Exchange Act and the rules and regulations promulgated thereunder; and (E) whether the recommending shareholder believes that the candidate is or will be an interested person of the Trust (as defined in the Investment Company Act of 1940, as amended) and, if not an interested person, information regarding the candidate that will be sufficient for the Trust to make such determination; (ii) the written and signed consent of the candidate to be named as a nominee and to serve as a Trustee if elected; (iii) the recommending shareholder's name as it appears on the Trust's books; (iv) the series (and, if applicable, class) and number of all shares of the Trust owned beneficially and of record by the recommending shareholder; and (v) a description of all arrangements or understandings between the recommending shareholder and the candidate and any other person or persons (including their names) pursuant to which the recommendation is being made by the recommending shareholder. In addition, the Committee may require the candidate to interview in person and furnish such other information as it may reasonably require or deem necessary to determine the eligibility of such candidate to serve as a Trustee of the Trust.

ITEM 11. CONTROLS AND PROCEDURES

(a) The President and Treasurer have concluded that the Wells Fargo Advantage Global Dividend Opportunity Fund (the Trust) disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) provide reasonable assurances that material information relating to the Trust is made known to them by the appropriate persons based on their evaluation of these controls and procedures as of a date within 90 days of the filing of this report.

(b) There were no significant changes in the Trust's internal controls over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the second quarter of the period covered by this report that materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS

(a)(1) Code of Ethics pursuant to Item 2 of Form N-CSR is filed and attached hereto as Exhibit 10a.

(a)(2) Certification pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) is filed and attached hereto as Exhibit 99.CERT.

Table of Contents

(a)(3) Not applicable.

(b) Certification pursuant to Rule 30a-2(b) under the Investment Company Act of 1940 (17 CFR 270.30a-2(b)) is filed and attached hereto as Exhibit 99.906CERT.
