CHAIRMAN'S STATEMENT (Unaudited)

Dear Stockholders,

The second half of our financial year proved to be very challenging for equity markets globally with leadership changes in China, continuing uncertainty surrounding European debt negotiations and a close election in the United States all adding to what the markets fear most: uncertainty.

These global concerns and the impending US fiscal cliff weighed heavily on the Chinese market as investor sentiment turned negative on countries perceived to be heavily dependent on these two regions. Despite these challenges, China continues to be one of the few areas in the world that is projected to see reasonable economic growth heading into 2013. Coupled with stock prices that are looking increasingly reasonable compared to the rest of Asia, this market should represent a good opportunity for long term investors.

The Fund's discount management program that started on the June 4th was temporarily suspended on June 22nd for the share tender and resumed on the 30th of July. The share tender closed on July 23rd with the repurchase of 25% of the outstanding shares. The number of outstanding shares at October 31 is now 16,169,099.

The discount management program reached its share repurchase limit for the financial year on September 20th at a total cost of \$17.468 million. During this period the discount ranged from a low of 5.29% on July 18th to a high of 11.81% on August 6th. There was no clearly discernible pattern to the movement of the discount.

The share tender process impacted the efforts of the portfolio manager in restructuring the Fund due to the need to raise cash. With the tender offer completed, the manager has completed the restructuring and, as I wrote in the previous report, we are confident that performance will return to accustomed levels.

On behalf of the Board, our manager and our outstanding team of service providers, I thank all of you for your support and convey our best wishes for the new year.

Yours sincerely,

Joe O. Rogers

Chairman

INVESTMENT MANAGER'S STATEMENT (Unaudited)

REVIEW OF LISTED AND DIRECT INVESTMENTS

Review

In the first quarter of 2012, Greater China equity markets recovered strongly, driven by improved investors' confidence over the global macroeconomic outlook. However, given the intensifying concerns over the Euro debt crisis, economic slowdown in China and subdued earnings outlook, Greater China equities, especially H-shares, suffered a sharp sell-off across the board in May 2012. Investors were skeptical about the Chinese economy with renewed concerns over a hard landing scenario as the reduction in the Reserve Requirement Ratio of Chinese banks had so far failed to revive real economic activity. In Taiwan, the bargaining power of Taiwanese technology component suppliers weakened amidst the emergence of two very strong global customers, Samsung and Apple.

In the third quarter of 2012, the market re-focused on the worse than expected economic slowdown in China. Although most of the results were very weak and generally below market expectations, share prices had discounted most of the poor earnings data. Hong Kong and Taiwan equity markets rose to four-month highs with increased risk appetite by the end of the third quarter.

In October, the equity markets became more active and sentiment was boosted by positive economic data. Dates were set for the 18th Party Congress in China and this helped to alleviate political concern surrounding the transition of power. The latest economic data reinforced expectations that the China economy bottomed out in the third quarter of 2012. Meanwhile, Chinese banks also released better than expected third quarter earnings results driven by relatively steady net interest margins and stable non-performing loans.

Performance

The Fund underperformed its benchmark, the MSCI Golden Dragon index for the year ending October 31, 2012. During this period the Fund returned -2.85% compared with 8.02% for the index. The Fund's performance since RCM's appointment on February 13, 2012 has been -4.14% on net asset value against the index's return of 1.87%.

During the period the Fund wrote down the value of one of our direct investments, Zong Su Foods, as the company and its chairman are undergoing bankruptcy and legal proceedings with almost no likelihood of recovery of our investment. The Fund had an initial investment of US\$15m and the Board approved a revised valuation of zero on October 24, 2012.

Of the listed assets, the top detractor was Huiyin Household whose share price was undermined by its poor earnings results. This was a position inherited by RCM and the Fund exited the stock completely in late March. Another detractor was Hiwin Technology, whose share price fell amidst a delay in capital expenditures by Chinese companies given the weak macroeconomic outlook. However, we believe that its structural story of capitalizing on the industry automation trend remains intact.

On the positive side, Ruentex Development Co., Ltd. outperformed on expectations of strong profit contributions from one of its businesses over the next couple of years.

INVESTMENT MANAGER'S STATEMENT (continued) (Unaudited)

Outlook

With the change of political leadership in China, the market is likely to discount the potential of policy reform over the next twelve months. Coupled with the Chinese economy bottoming out, we would expect Chinese equities to recover over the next six months driven partly by liquidity inflows.

The Taiwan market underperformed the regional market in October. Recent data suggested that export growth revived in September after a period of softness. However, the rebound was mainly driven by chemical exports, while IT exports remained lackluster. We believe that a recovery of the Taiwan economy, if any, will be largely driven by an upswing in exports to China; while domestic sectors will remain relatively weak. We expect Taiwan IT and technology sectors to remain under pressure in the near to medium term, especially given a weak PC cycle heading into 2013. However, we do see selective opportunities in this sector which can benefit from rising 3G penetration in emerging markets and the increasing popularity of low end smartphones.

ABOUT THE PORTFOLIO MANAGER (Unaudited)

Listed and Direct Investment Manager

The Fund's investment in both listed and direct investments is managed by RCM Asia Pacific Limited (RCM). RCM is part of a global investment organization consisting of separate affiliated entities, owned by Allianz SE, that are located in key financial centers, including Frankfurt, Hong Kong, London, San Francisco, Sydney and Tokyo.

Ms. Christina Chung serves as the portfolio manager for the Fund's portfolio of listed and direct securities. She joined RCM in 1998 and has been a managing director since January 2010. She heads the Greater China Team and is the lead manager of the Hong Kong, China, China A-shares and Greater China equity mandates. She has 23 years' experience in managing Asian regional and single country portfolios for both institutional and retail accounts.

Before joining RCM, she was a senior portfolio manager with Royal Bank of Canada Investment Management. Prior to that, she was a portfolio manager with Search International and an economist with HSBC Asset Management. Christina was educated in Canada. She attained a Bachelor of Administration from Brock University, followed by an M.A. in Economics from the University of Alberta. She became a Certified Management Accountant in 1992 and qualified as a chartered financial analyst, AIMR, in 1995.

THE CHINA FUND, INC.

NOTES TO FINANCIAL STATEMENTS

OCTOBER 31, 2012

NOTE A SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The China Fund, Inc. (the Fund) was incorporated under the laws of the State of Maryland on April 28, 1992, and is a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund's investment objective is long-term capital appreciation which it seeks to achieve by investing primarily in equity securities (i) of companies for which the principal securities trading market is the People's Republic of China (China), (ii) of companies for which the principal securities trading market is outside of China, or constituting direct equity investments in companies organized outside of China, that in both cases derive at least 50% of their revenues from goods and services sold or produced, or have at least 50% of their assets, in China and (iii) constituting direct equity investments in companies organized in China. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Use of estimates: The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period. Actual results could differ from these estimates. The significant estimates made as of, and for the year ended, October 31, 2012 relate to Direct Investments and to the contingent liability resulting from the sale of Captive Finance in March 2007. A reserve of 10% of the net sale proceeds was established to cover any potential liabilities from the representation and warranties provided by the Fund in the transaction. This contingent liability will expire in March 2013.

Security valuation: Portfolio securities listed on recognized United States or foreign security exchanges are valued at the last quoted sales price in the principal market where they are traded. Listed securities with no such sales price and unlisted securities are valued at the mean between the current bid and asked prices, if any, from brokers. Short-term investments having maturities of sixty days or less are valued at amortized cost (original purchase cost as adjusted for amortization of premium or accretion of discount) which when combined with accrued interest approximates market value. Securities for which market quotations are not readily available are valued at fair value in good faith by or at the direction of the Board of Directors considering relevant factors, data and information including, if relevant, the market value of freely tradable securities of the same class in the principal market on which such securities are normally traded. Direct Investments are valued at fair value as determined by or at the direction of the Board of Directors based on financial and other information supplied by the Direct Investment Manager regarding each Direct Investment. Forward currency contracts are valued at the current cost of offsetting the contract. Equity-linked securities are valued at fair value primarily based on the value(s) of the underlying security (or securities), which normally follows the same methodology as the valuation of securities listed on recognized exchanges.

Factors used in determining fair value may include, but are not limited to, the type of security, the size of the holding, the initial cost of the security, the existence of any contractual restrictions on the security's disposition, the price and extent of public trading in similar securities of the issuer or of comparable companies, the availability of quotations from broker-dealers, the availability of values of third parties other than the Investment Manager or Direct Investment Manager, information obtained from the issuer, analysts, and/or the appropriate stock exchange

(if available), an analysis of the company's financial statements, an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold and with respect to debt securities, the maturity, coupon, creditworthiness, currency denomination, and the movement of the market in which they trade.

Repurchase Agreements: In connection with transactions in repurchase agreements, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral by the Fund may be delayed or limited.

Securities Lending: The Fund may lend up to 33 1/3% of the Fund's total assets held by State Street Bank and Trust Company (State Street) as custodian to certain qualified brokers, except those securities which the Fund or the Investment Manager specifically identifies as not being available. By lending its investment securities, the Fund attempts to increase its net investment income through the receipt of interest on the loan. Any gain or loss in the market price of the securities loaned that might occur and any interest or dividends declared during the term of the loan would accrue to the account of the Fund. Risks of delay in recovery of the securities or even loss of rights in the collateral may occur should the borrower of the securities fail financially. Risks may also arise to the extent that the value of the collateral decreases below the value of the securities loaned. Upon entering into a securities lending transaction, the Fund receives cash or other securities as collateral in an amount equal to or exceeding 100% of the current market value of the loaned securities with respect to securities of the U.S. government or its agencies, 102% of the current market value of the loaned securities with respect to U.S. securities and 105% of the current market value of the loaned securities with respect to foreign securities. Any cash received as collateral is generally invested by State Street, acting in its capacity as securities lending agent (the Agent), in the State Street Navigator Securities Lending Prime Portfolio. A portion of the dividends received on the collateral is rebated to the borrower of the securities and the remainder is split between the Agent and the Fund.

As of October 31, 2012, the Fund had loaned securities which were collateralized by cash and short term investments. The value of the securities on loan and the value of the related collateral were as follows:

Value of Securities	Value of Cash Collateral	Value of Non-Cash Collateral*	Total Collateral
\$62,753,412	\$ 50,090,819	\$ 18,102,297	\$ 68,193,116

* Fund cannot repledge or dispose of this collateral, nor does the Fund earn any income or receive dividends with respect to this collateral.

Foreign currency translations: The records of the Fund are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at the current exchange rates. Purchases and sales of investment securities and income and expenses are translated on the respective dates of such transactions. Net realized gains and losses on foreign currency transactions represent net gains and losses from the disposition of foreign currencies, currency gains and losses realized between the trade dates and settlement dates of security transactions, and the difference between the amount of net investment income accrued and the U.S. dollar amount actually received. The effects of changes in foreign currency exchange rates on investments in securities are

Table of Contents

NOTES TO FINANCIAL STATEMENTS (continued)

not segregated in the Statement of Operations from the effects of changes in market prices of those securities, but are included in realized and unrealized gain or loss on investments. Net unrealized foreign currency gains and losses arise from changes in the value of assets and liabilities, other than investments in securities, as a result of changes in exchange rates.

Forward Foreign Currency Contracts: The Fund may enter into forward foreign currency contracts to hedge against foreign currency exchange rate risks. A forward currency contract is an agreement between two parties to buy or sell currency at a set price on a future date. Upon entering into these contracts, risks may arise from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of the foreign currency relative to the U.S. dollar. The U.S. dollar value of forward currency contracts is determined using forward exchange rates provided by quotation services. Daily fluctuations in the value of such contracts are recorded as unrealized gain or loss on the Statement of Assets and Liabilities. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. Such gain or loss is disclosed in the realized and unrealized gain or loss on foreign currency in the Fund's accompanying Statement of Operations. At October 31, 2012, the Fund did not hold open forward foreign currency contracts.

Option Contracts: The Fund may purchase and write (sell) call options and put options provided the transactions are for hedging purposes and the initial margin and premiums do not exceed 5% of total assets. Option contracts are valued daily and unrealized gains or losses are recorded on the Statement of Assets and Liabilities based upon the last sales price on the principal exchange on which the options are traded. The Fund will realize a gain or loss upon the expiration or closing of the option contract. Such gain or loss is disclosed in the realized and unrealized gain or loss on options in the Fund's accompanying Statement of Operations. When an option is exercised, the proceeds on sales of the underlying security for a written call option, the purchase cost of the security for a written put option, or the cost of the security for a purchased put or call option is adjusted by the amount of premium received or paid.

The risk in writing a call option is that the Fund gives up the opportunity for profit if the market price of the security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the security decreases and the option is exercised. The risk in buying an option is that the Fund pays a premium whether or not the option is exercised. Risks may also arise from an illiquid secondary market or from the inability of counter parties to meet the terms of the contract. At the end of the year, the Fund did not hold any open option contracts.

Equity-Linked Securities: The Fund may invest in equity-linked securities such as linked participation notes, equity swaps and zero-strike options and securities warrants. Equity-linked securities currently held by the Fund, are privately issued securities whose investment results are designed to correspond generally to the performance of a specified stock index or basket of stocks, or a single stock. Equity-linked securities may be used by the Fund to gain exposure to countries that place restrictions on investments by foreigners. To the extent that the Fund invests in equity-linked securities whose return corresponds to the performance of a foreign securities index or one or more foreign stocks, investing in equity-linked securities will involve risks similar to the risks of investing in foreign securities. In addition, the Fund bears the risk that the issuer of any equity-linked securities may default on its

Table of Contents**NOTES TO FINANCIAL STATEMENTS (continued)**

obligation under the terms of the arrangement with the counterparty. Equity-linked securities are often used for many of the same purposes as, and share many of the same risks with, derivative instruments. In addition, equity-linked securities may be considered illiquid.

At October 31, 2012, the Fund held equity-linked securities, in the form of warrants issued by Credit Lyonnais and Citigroup Global Markets Holdings, the issuers. Under the terms of the agreements, each warrant entitles the Fund to receive from the issuers an amount in U.S. dollars linked to the performance of specific equity shares. Under these agreements, the Fund has agreed to pay or provide reimbursement for any taxes imposed on the A Share investments underlying the equity-linked securities. Non-resident corporate investors in China, such as the issuer of the equity-linked securities, are subject to a statutory 10% withholding tax on both dividend and interest income sourced from China, absent an applicable tax treaty; however to date China has not implemented procedures to collect the tax. There can be no assurance that in the future China will not implement such procedures and also subject capital gains to taxation. If China does implement such procedures the Fund may be required to pay or reimburse for any taxes that the issuers of the equity-linked securities became subject to under those procedures.

Direct Investments: The Fund may invest up to 25% of the net proceeds from its offering of its outstanding common stock in direct investments; however, the Board of Directors of the Fund has suspended additional investments in direct investments. Direct investments are generally restricted and do not have a readily available resale market. Because of the absence of any public trading market for these investments, the Fund may take longer to liquidate these positions than would be the case for publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices on these sales could be less than those originally paid by the Fund. Issuers whose securities are not publicly traded may not be subject to public disclosure and other investor protections requirements applicable to publicly traded securities. The value of these securities at October 31, 2012 was \$25,868,089 or 6.5% of the Fund's net assets. The table below details the acquisition date, cost, and value of the Fund's direct investments as determined by the Board of Directors of the Fund. The Fund does not have the right to demand that such securities be registered.

Security	Acquisition Date	Cost	Value
China Bright	08/27/2010	\$ 14,969,436	\$ 25,868,089
Zong Su Foods	09/21/2010	15,000,034	
		\$ 29,969,470	\$ 25,868,089

Indemnification Obligations: Under the Fund's organizational documents, its Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

Security transactions and investment income: Security transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded on the

Table of Contents

NOTES TO FINANCIAL STATEMENTS (continued)

ex-dividend date, or, in the case of dividend income on foreign securities, on the ex-dividend date or when the Fund becomes aware of its declaration. Interest income is recorded on the accrual basis. All premiums and discounts are amortized/accreted for both financial reporting and federal income tax purposes.

Dividend and interest income generated in Taiwan is subject to a 20% withholding tax. Stock dividends received are taxable at 20% of the par value of the stock dividends received. The Fund records the taxes paid on stock dividends as an operating expense.

Dividends and distributions: The Fund intends to distribute to its shareholders, at least annually, substantially all of its net investment income and any net realized capital gains. Distributions to shareholders are recorded on the ex-dividend date. Income and capital gains distributions are determined in accordance with income tax regulations, which may differ from U.S. generally accepted accounting principles. Certain capital accounts in the financial statements are periodically adjusted for permanent differences in order to reflect their tax character. These adjustments have no impact on net assets or net asset value per share. Temporary differences which arise from recognizing certain items of income, expense, gain or loss in different periods for financial statement and tax purposes will reverse at some time in the future. The Board of Directors has determined that if the Fund makes any distributions of capital gains realized during the fiscal year ended October 31, 2012, that distribution will be paid in cash, except with respect to stockholders that have elected to participate in the Fund's dividend reinvestment program.

Federal Taxes: It is the Fund's policy to qualify each year as a regulated investment company under Subchapter M of the Internal Revenue Code, as amended (Code) and to distribute to shareholders each year substantially all of its income. Accordingly, no provision for federal income tax is necessary. The Fund recognizes interest and penalties, if any, related to tax liabilities as income tax expense in the Statement of Operations. The Fund may be subject to taxes imposed by governments of countries in which it invests. Such taxes are generally based on either income or gains earned or repatriated. The Fund accrues and applies such taxes to net investment income, net realized gains and net unrealized gains as income and/or gains are earned.

The tax character of distributions the Fund made during the year ended October 31, 2012 was \$3,969,199 from ordinary income and \$64,294,073 from long-term capital gains. For the year ended October 31, 2011 the Fund distributed \$8,534,134 from ordinary income and \$43,276,235 from long-term capital gains.

Tax components of distributable earnings are determined in accordance with income tax regulations which may differ from the composition of net assets reported under GAAP. Accordingly, for the year ended October 31, 2012, the effects of certain differences were reclassified. The fund decreased undistributed net investment income by \$302,714 and increased accumulated net realized gain by \$302,714. These differences were primarily due to the differing tax treatment of foreign currency. Net assets of the Fund were unaffected by the reclassifications and the calculation of net investment income per share in the Financial Highlights excludes these adjustments.

As of October 31, 2012, the components of distributable earnings on a tax basis were \$5,532,013 of undistributed ordinary income, \$46,273,599 of undistributed capital gains, and \$41,682,994 of net unrealized appreciation resulting in a total of \$93,488,606.

Table of Contents**NOTES TO FINANCIAL STATEMENTS (continued)**

At October 31, 2012, the cost of investments for federal income tax purposes was \$392,620,266. Gross unrealized appreciation of investments was \$96,139,332 while gross unrealized depreciation of investments was \$54,719,210, resulting in net unrealized appreciation of investments of \$41,420,122.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is more likely than not to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions for the open tax years as of October 31, 2012 and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns for the prior three fiscal years. The Fund identifies its major tax jurisdictions as U.S. Federal, Maryland and China where the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

NOTE B ADVISORY FEE AND OTHER TRANSACTIONS

RCM Asia Pacific Limited (RCM) is the investment manager for the Fund's listed assets (the Listed Assets), effective February 10, 2012. State Street provides, or arranges for the provision of certain administrative services for the Fund, including preparing certain reports and other documents required by federal and/or state laws and regulations. The Fund pays State Street a fee that is calculated daily and paid monthly at an annual rate based on aggregate average daily assets of the Fund. The Fund also pays State Street an annual fee for certain legal administration services, including corporate secretarial services and preparing regulatory filings.

The Fund has also contracted with State Street to provide custody and fund accounting services to the Fund. For these services, the Fund pays State Street asset-based fees that vary according to the number of positions and transactions plus out-of-pocket expenses.

NOTE C FUND SHARES

At October 31, 2012, there were 100,000,000 shares of \$0.01 par value capital stock authorized, of which 17,890,662 were issued and 16,169,099 were outstanding.

For the year ended October 31, 2012, the Fund repurchased 6,612,663 shares of its common stock, valued at \$151,495,438 from Shareholders participating in the Fund's tender offer and repurchases under the Fund's discount management program.

	For Year Ended October 31, 2012
Shares outstanding at beginning of year	22,781,762
Shares repurchased	(949,999)
Shares tendered	(5,662,664)
Shares outstanding at end of year	16,169,099

NOTE D DISCOUNT MANAGEMENT PROGRAM

On March 28, 2012, the Fund announced that the Board had approved a Discount Management Program (the Program). Under the Program, the Fund repurchases its common shares in the open market on any day that the Fund's shares are trading at a discount of 8% or more from net asset value the prior day and there is a daily average discount of 8% or more from net asset value over the five-day period ending the prior day. On each day that shares are repurchased, the Fund will repurchase its shares to the maximum extent permitted by law unless the Fund's Investment Manager determines that such a repurchase would be detrimental to the Fund and its stockholders. On each day that shares are repurchased, in addition to the limits set forth above, the Fund will repurchase shares only at such times that the market price represents a discount of 8% or more from the Fund's closing NAV on the prior day. Under the program, the Fund is authorized to repurchase in each twelve month period ended October 31 up to 10% of its common shares outstanding as of October 31 the prior year.

Table of Contents

NOTES TO FINANCIAL STATEMENTS (continued)

The Program is intended to enhance shareholder value, as repurchases made at a discount have the effect of increasing the net asset value per share of the Fund's remaining shares. There is no assurance that the market price of the Fund's shares, either absolutely or relative to net asset value, will increase as a result of any share repurchases. These repurchases may be suspended at any time or from time to time without prior notice.

During the year ended October 31, 2012, the Fund repurchased 949,999 of its shares at an average price of \$21.66 per share (including brokerage commissions) at a weighted average discount of 9.47%. These repurchases had a total cost of \$20,574,646.

NOTE E TENDER OFFER

On March 28, 2012, the Fund announced that the Board had approved in principle a tender offer (the Tender Offer). The Tender Offer commenced on June 22, 2012 and expired on July 23, 2012. The Tender Offer was oversubscribed and, pursuant to the terms of the Tender Offer, tendered shares were accepted for payment on a prorata basis. The Fund accepted 5,662,664 shares for payment on July 24, 2012 at \$23.12 per share, which was equal to 99% of the Fund's net asset value per share as of the close of regular trading on the New York Stock Exchange on July 24, 2012. The 5,662,664 shares totaling \$130,920,792 represented 25% of the Fund's outstanding shares. On a pro rated basis, approximately 45.6% of the shares so tendered were accepted for payment.

NOTE F INVESTMENT TRANSACTIONS

For the year ended October 31, 2012, the Fund's cost of purchases and proceeds from sales of investment securities, other than short-term securities, were \$386,136,943 and \$570,449,059, respectively.

NOTE G INVESTMENTS IN CHINA

The Fund's investments in Chinese companies involve certain risks not typically associated with investments in securities of U.S. companies or the U.S. Government, including risks relating to (1) social, economic and political uncertainty; (2) price volatility, lesser liquidity and smaller market capitalization of securities markets in which securities of Chinese companies trade; (3) currency exchange fluctuations, currency blockage and higher rates of inflation; (4) controls on foreign investment and limitations on repatriation of invested capital and on the Fund's ability to exchange local currencies for U.S. dollars; (5) governmental involvement in and control over the economy; (6) risk of nationalization or expropriation of assets; (7) the nature of the smaller, less seasoned and newly organized Chinese companies, particularly in China; and (8) the absence of uniform accounting, auditing and financial reporting standards, practices and disclosure requirements and less government supervision and regulation.

NOTE I FAIR VALUE MEASUREMENT

As described in note A, the Fund utilizes various methods to measure the fair value of most of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are as follows:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Edgar Filing: CHINA FUND INC - Form N-CSR

Level 2 Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, process for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates, and similar data.

Table of Contents**NOTES TO FINANCIAL STATEMENTS (continued)**

Level 3 Unobservable inputs for the asset or liability to the extent that relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions that a market participant would use in valuing the asset or liability, and that would be based on the best information available.

The availability of observable inputs used to measure fair value can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining the fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in is determined based on the lowest level input that is significant to the measurement in its entirety.

The Fund's policy is to disclose transfers between levels based on valuations at the end of the reporting period. As of October 31, 2012, there were no transfers between Level 1 and Level 2. Fook Woo Group Holdings, Ltd. was transferred from Level 1 to Level 3 and Chaoda Modern Agriculture (Holdings), Ltd. was transferred from Level 2 to Level 3 because trading has been suspended on both securities and both were fair valued under the direction of the Board of Directors. Taiwan Life Insurance Co., Ltd. was transferred from Level 3 to Level 2.

**REPORT OF INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM**

To the Shareholders and The Board of Directors of

The China Fund, Inc.

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of The China Fund, Inc. (the Fund), as of October 31, 2012 and the related statement of operations, the statement of cash flows, the statement of changes in net assets, and the financial highlights for the year then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit. The statement of changes in net assets for the year ended October 31, 2011 and the financial highlights for the each of the four years in the period ended October 31, 2011 have been audited by other auditors whose reports dated December 23, 2011 and October 29, 2008 each expressed an unqualified opinion on such financial statements and financial highlights.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2012, by correspondence with the custodian and brokers or through other appropriate auditing procedures where replies from brokers were unable to be obtained. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of The China Fund, Inc. as of October 31, 2012, the results of its operations, its cash flows, the changes in its net assets and the financial highlights for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

DIVIDENDS AND DISTRIBUTIONS;

SUMMARY OF DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund will distribute to shareholders, at least annually, substantially all of its net investment income from dividends and interest earnings and expects to distribute any net realized capital gains annually. Pursuant to the Dividend Reinvestment and Cash Purchase Plan (the "Plan"), adopted by the Fund, each shareholder will automatically be a participant (a "Participant") in the Plan unless Computershare Trust Company, N.A., the Plan Agent, is otherwise instructed by the shareholder in writing, to have all distributions, net of any applicable U.S. withholding tax, paid in cash. Shareholders who do not participate in the Plan will receive all distributions in cash paid by check in U.S. dollars mailed directly to the shareholder by Computershare Trust Company, N.A., as paying agent. Shareholders who do not wish to have distributions automatically reinvested should notify the Fund by contacting Computershare Trust Company, N.A. c/o The China Fund, Inc. at P.O. Box 43078, Providence, Rhode Island 02940-3078, by telephone at 1-800-426-5523 or via the Internet at www.computershare.com/investor.

The Plan will operate whenever a dividend or distribution is declared payable only in cash or in cash or shares of the Fund's common stock, but it will not operate with respect to a dividend or distribution declared payable only in shares of the Fund's common stock (including such a declaration that provides an option to receive cash).

Computershare Trust Company, N.A. ("Computershare" or the "Plan Agent") act as Plan Agent. If the Directors of the Fund declare an income dividend or a capital gains distribution payable either in the Fund's Common Stock or in cash, non-participants in the Plan will receive cash and participants in the Plan will receive Common Stock. The shares of common stock issued by the Fund will be valued at net asset value or, if the net asset value is less than 95% of the market price on the valuation date, then shares will be valued at 95% of the market price. If the net asset value per share of the common stock on the valuation date exceeds the market price, participants will be issued shares at market price. The valuation date will be the dividend or distribution payment date or, if that date is not a trading day on the exchange on which the Fund's shares are then listed, the next preceding trading day. If the Fund should declare a dividend or capital gains distribution payable only in cash, the Plan Agent will, as purchasing agent for the participants, buy shares of common stock in the open market, on the New York Stock Exchange or elsewhere, with the cash in respect of such dividend or distribution, for the participant's accounts on, or shortly after, the payment date.

Participants in the Plan have the option of making additional payments to the Plan Agent annually, in any amount from \$100 to \$3,000 for investment in the Fund's Common Stock. The Plan Agent will use all funds received from participants (as well as any dividends and capital gains distributions received in cash) to purchase Fund shares in the open market on January 15 of each year or the next trading day if January 15th is not a trading day. Participants may make voluntary cash payments by sending a check (in U.S. dollars and drawn on a U.S. Bank) made payable to Computershare along with a completed transaction form which is attached to each statement a Participant receives. The Plan Agent will not accept cash, traveler's checks, money orders or third party checks. Any voluntary cash payments received more than thirty-five days prior to such date will be returned by the Plan Agent, and interest will not be paid on any such amounts. To avoid unnecessary cash accumulations, and also to allow ample time for receipt and processing by the Plan Agent, participants should send in voluntary cash payments to be received by the Plan Agent approximately two days before January 15. A participant may withdraw a voluntary cash payment by written notice, if the notice is received by the Plan Agent not less than 48 hours before such payment is to be

invested. In the event that a Participant's check for a voluntary cash payment is returned unpaid for any reason, the Plan Agent will consider the request for investment of such funds null and void, and shall immediately remove from the Participant's account those shares, if any, purchased upon the prior credit of such funds. The Plan Agent shall be entitled to sell shares to satisfy any uncollected amount plus any applicable fees. If the net proceeds of the sale of such shares are insufficient to satisfy the balance of such uncollected amounts, the Plan Agent shall be entitled to sell such additional shares from the Participant's account as may be necessary to satisfy the uncollected balance.

The Plan Agent will confirm in writing, each trade for a Participant's account and each share deposit or share transfer promptly after the account activity occurs. The statement will show the number of shares held, the number of shares for which dividends are being reinvested, any cash received for purchase of shares, the price per share for any purchases or sales, and any applicable fees for each transaction charged the Participant. In the event the only activity in a Participant's account is the reinvestment of dividends, this activity will be confirmed in a statement on at least a quarterly basis. If the Fund pays an annual dividend and the only activity in a Participant's account for the calendar year is the reinvestment of such dividend, the Participant will receive an annual statement. These statements are a Participant's continuing record of the cost basis of purchases and should be retained for income tax purposes.

The Plan Agent will hold shares of common stock acquired pursuant to the Plan in non-certificated form in the name of the Participant for whom such shares are being held and each Participant's proxy will include those shares of common stock held pursuant to the Plan. The Plan Agent will forward to each Participant any proxy solicitation material received by it. In the case of shareholders, such as banks, brokers or nominees, which hold shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the shareholder as representing the total amount registered in the name of such Participants and held for the account of beneficial owners who participate in the Plan. Upon a Participant's Internet, telephone or written request, the Plan Agent will deliver to her or him, without charge, a certificate or certificates representing all full shares of common stock held by the Plan Agent pursuant to the Plan for the benefit of such Participant.

Participants will not be charged a fee in connection with the reinvestment of dividends or capital gains distributions. The Plan Agent's transaction fees for the handling of the reinvestment of dividends and distributions will be paid by the Fund. However, Participants will be charged a per share fee (currently \$0.05) incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends or capital gains distributions and with purchases from voluntary cash payments made by the Participant. A \$2.50 transaction fee and a per share fee of \$0.15 will also be charged by the Plan Agent upon any request for sale. Per share fees include any brokerage commissions the Plan Agent is required to pay.

The automatic reinvestment of dividends and distributions will not relieve participants of any income tax which may be payable on such dividends and distributions. Participants will receive tax information annually for their personal records and to help them prepare their federal income tax return. For further information as to tax consequences of participation in the Plan, Participants should consult with their own tax advisors.

DIVIDENDS AND DISTRIBUTIONS;

SUMMARY OF DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN (continued)

These terms and conditions may be amended or supplemented by the Plan Agent or the Fund at any time or times but, except when necessary or appropriate to comply with applicable law or the rules or policies of the Securities and Exchange Commission or any other regulatory authority, only by mailing to the Shareholders appropriate written notice at least 30 days prior to the effective date thereof. The amendment or supplement shall be deemed to be accepted by the Participants unless, prior to the effective date thereof, the Plan Agent receives written notice of the termination of a Participant's account under the Plan. Any such amendment may include an appointment by the Plan Agent in its place and stead of a successor Plan Agent under these terms and conditions, with full power and authority to perform all or any of the acts to be performed by the Plan Agent under these terms and conditions. Upon any such appointment of a successor Plan Agent for the purposes of receiving dividends and distributions, the Fund will be authorized to pay to such successor Plan Agent, for the Participants' accounts, all dividends and distributions payable on the shares of common stock held in the Participants' name or under the Plan for retention or application by such successor Plan Agent as provided in these terms and conditions.

Requests for copies of the Plan, which sets forth all of the terms of the Plan, and all correspondence concerning the Plan should be directed to Computershare Trust Company, N.A., the Plan Agent for The China Fund, Inc., in writing at P.O. Box 43078, Providence, Rhode Island, 02940-3078, by telephone at 1-800-426-5523 or via the Internet at www.computershare.com/investor.

- (a) (1) The Board of Directors of the Fund has determined that the Fund has one member serving on the Fund's Audit Committee that possesses the attributes identified in Instruction 2(b) of Item 3 to Form N-CSR to qualify as an audit committee financial expert.

- (2) The name of the audit committee financial expert is Michael F. Holland. Mr. Holland has been deemed to be independent as that term is defined in Item 3(a)(2) of Form N-CSR.

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees

For the fiscal year ended October 31, 2012, Tait, Weller & Baker LLP (Tait Weller), the Fund's independent registered public accounting firm, billed the Fund aggregate fees of US\$75,000 for professional services rendered for the audit of the Fund's annual financial statements and review of financial statements included in the Fund's annual report to shareholders.

For the fiscal year ended October 31, 2011, Ernst & Young LLP (E&Y), the Fund's previous independent registered public accounting firm, billed the Fund aggregate fees of US\$108,150 for professional services rendered for the audit of the Fund's annual financial statements and review of financial statements included in the Fund's annual report to shareholders.

(b) Audit-Related Fees

For the fiscal year ended October 31, 2012, Tait Weller did not bill the Fund any fees for assurances and related services that are reasonably related to the performance of the audit or review of the Fund's financial statements and are not reported under the section Audit Fees above.

For the fiscal year ended October 31, 2011, E&Y did not bill the Fund any fees for assurances and related services that are reasonably related to the performance of the audit or review of the Fund's financial statements and are not reported under the section Audit Fees above.

Table of Contents

(c) Tax Fees

For the fiscal year ended October 31, 2012, Tait Weller billed the Fund aggregate fees of US\$10,000 for professional services rendered for tax compliance, tax advice, and tax planning. The nature of the services comprising the Tax Fees was the review of the Fund's income tax returns and tax distribution requirements.

For the fiscal year ended October 31, 2011, E&Y billed the Fund aggregate fees of US\$10,300 for professional services rendered for tax compliance, tax advice, and tax planning. The nature of the services comprising the Tax Fees was the review of the Fund's income tax returns and tax distribution requirements.

(d) All Other Fees

For the fiscal year ended October 31, 2012, Tait Weller did not bill the Fund for other fees.

For the fiscal year ended October 31, 2011, E&Y did not bill the Fund for other fees.

(e) The Fund's Audit Committee Charter requires that the Audit Committee pre-approve all audit and non-audit services to be provided to the Fund by the Fund's independent registered public accounting firm; provided, however, that the preapproval requirement with respect to the provision of non-auditing services to the Fund by the Fund's independent accountants may be waived by the Audit Committee under the circumstances described in the Securities Exchange Act of 1934, as amended (the "1934 Act").

All of the audit and tax services described above for which Tait Weller billed the Fund fees for the fiscal years ended October 31, 2012, were pre-approved by the Audit Committee.

All of the audit and tax services described above for which E&Y billed the Fund fees for the fiscal year ended October 31, 2011, were pre-approved by the Audit Committee.

For the fiscal years ended October 31, 2012 and October 31, 2011, the Fund's Audit Committee did not waive the pre-approval requirement of any non-audit services to be provided to the Fund by Tait Weller or E&Y, respectively.

(f) Not applicable.

(g) For the fiscal year ended October 31, 2012, Tait Weller did not bill the Fund any non-audit fees. For the fiscal year ended October 31, 2012, Tait Weller did not provide any non-audit services to RCM Asia Pacific Limited ("RCM," or the "Investment Adviser") or any other entity in the Fund's Investment Company Complex.

For the fiscal year ended October 31, 2011, Ernst & Young provided non-audit services to certain entities in the Fund's Investment Company Complex that were not required to be pre-approved by the Fund's Audit Committee. Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(1) As of October 31, 2012, the portfolio manager of the registrant is as follows:

Christina Chung

Managing Director, Senior Portfolio Manager

Investment experience: 23 Years

Christina joined RCM in 1998 and has been a managing director since January 2010. She is head of the Greater China Equity Team and lead manager of the Hong Kong, China, China A-shares and Greater China equity mandates. She has 23 years' experience in managing Asian regional and single country portfolios for both institutional and retail accounts. Before joining RCM, she was a senior portfolio manager with Royal Bank of Canada Investment Management. Prior to that, she was a portfolio manager with Search International and an economist with HSBC Asset Management. Christina was educated in Canada. She attained a Bachelor of Administration from Brock University, followed by an M.A. in Economics from the University of Alberta. She became a Certified Management Accountant in 1992 and qualified as a chartered financial analyst, AIMR, in 1995.

(a)(2)

Christina Chung

As of October 31, 2012, Ms. Chung managed and advised ten mutual funds with a total of approximately US\$1,962.32 million in assets and 13 other accounts with a total of approximately US\$2,211.71 million in assets.

Of these other accounts, two accounts, with a total of approximately US\$217.17 million in assets, are entitled to performance based fees.

Conflicts of Interest:

To the extent permitted by law, RCM AP may enter into performance-related fee arrangements, provided that all applicable regulatory requirements are met. RCM AP may manage accounts that pay a performance-related fee alongside accounts that pay asset-based fees. Performance-related fee arrangements vary depending on the particular client's needs and individual circumstances. Performance-related fees may create an incentive for RCM AP to make investments that are riskier or more speculative than would be the case in the absence of a performance-related fee arrangement. They may also create an incentive for us to favor certain accounts over others. In addition, under certain circumstances, RCM AP may receive compensation under a performance-related fee arrangement that is larger than it otherwise might receive under asset-based fee arrangements.

RCM AP has written compliance policies and procedures designed to mitigate or manage these conflicts of interest, including policies and procedures to seek fair and equitable allocation of investment opportunities (including IPOs) and trades among all client accounts. During

Edgar Filing: CHINA FUND INC - Form N-CSR

weekly meetings, the regional CIO and portfolio managers review the performance on all of RCM AP's client accounts, which would include, those that pay performance related fees, where applicable, and those that do not, and review the report for, among other things, potential performance differences between these accounts. The reviews would be part of the way RCM AP would manage potential conflicts that could create incentives for its investment personnel to favor one account over another. There is no guarantee that any such policies or procedures will cover every situation in which a conflict of interest arises.

Table of Contents

Compensation:

The primary components of RCM's compensation system are base salary, an annual cash incentive payment (bonus), and a Long Term Incentive Plan Award (LTIPA):

Base salary typically reflects scope, responsibilities and experience required in a particular role.

Bonus compensation is designed to primarily reflect the achievements of an individual against set goals and over a certain time period. For an investment professional these goals will typically be 70% quantitative and 30% qualitative, the former reflecting investment performance over a three-year rolling time period (50% in the 1st year, 25% in the 2nd year and 25% in the 3rd year) and the latter reflecting contributions to broader team goals, contributions made to client review meetings, to product development or product refinement initiatives.

The goal of LTIPA as the non-cash, longer term incentive portion of the compensation system, is to strengthen further the alignment between RCM's clients, senior professionals, and corporate parent. This is achieved by the program having a three year time horizon and a valuation metric which is driven by the overall performance of operating results at the level of RCM AP as well as Allianz Global Investors, RCM's parent. LTIPA is awarded annually for senior professionals it typically amounts to between 20-30% of total compensation - and pays in cash after three years, with the value determined as a multiple of the initial award and growth in operating results. Therefore, under normal circumstances, it is expected that a senior professional will have at all times at least one year of total compensation invested in three tranches of LTIPA. In terms of the criteria driving the specific allocation amounts, they are typically similar to the ones driving bonus; however, more emphasis is given to entrepreneurial initiatives, to achievements above and beyond the normal scope of the role and the deferred nature of the awards also allows RCM to emphasize the longer term nature of many of the projects critical for it to deliver results on a sustainable basis.
