**Risks Relating to Our Senior Common Stock and this Offering:**

There is no established public trading market for shares of Senior Common Stock, and we have no plans to list these shares on a national securities exchange.

We established the offering price of shares of Senior Common Stock on an arbitrary basis, and, as a result, the actual value of your investment may be substantially less than what you pay.

The calculation of the Exchange Ratio could result in a deterrent to your exchanging shares of Senior Common Stock for

shares of Listed Common Stock if shares of Listed Common Stock are trading at lower levels at the time that you desire to exchange your shares.

Your  
ability  
to  
redeem  
shares  
of  
Senior  
Common  
Stock  
pursuant  
to  
our  
share  
redemption  
program  
is  
limited  
to  
the  
proceeds

generated by our distribution reinvestment plan, and the share redemption program may be amended, suspended or terminated by our Board at any time without stockholder approval.

If you do not agree with the decisions of our Board, then you will not be able to influence changes in our policies and operations

because  
holders  
of  
shares  
of  
Senior  
Common  
Stock  
will  
generally  
have  
no  
voting  
rights.

Our charter contains restrictions on the ownership and transfer of shares of our capital stock, and these restrictions may inhibit your ability to sell your shares

of  
Senior Common Stock promptly, or at all.

Our Dealer Manager is one of our affiliates, and, therefore, an investor in shares of Senior Common Stock would not have the benefit of an independent underwriter who has performed an independent due diligence review.

Highly  
leveraged  
tenants  
and

borrowers

may

to

pay

mortgage

payments,

which

could

adversely

affect

our cash available to make distributions to holders of our Senior Common Stock.

3

Risk Factors (continued)

Risks Relating to Our Company and Our Operations

Our business strategy relies heavily on external financing, which may expose us to risks associated with leverage such as restrictions on additional borrowing and payment of distributions to stockholders, risks associated

with  
balloon

payments,  
and  
risk  
of  
loss  
of  
our  
equity  
upon  
foreclosure.

We are subject to certain risks associated with real estate ownership and lending which could reduce the value of our investments, including but not limited to, changes in the general economic climate; changes in local conditions such as an oversupply of space or reduction in demand for real estate; changes in interest rates and the availability of financing; competition from other available space; and changes in laws and governmental regulations, including those governing real estate usage, zoning and taxes.

Our  
properties  
may  
be  
subject  
to  
impairment  
charges,  
which  
could  
adversely  
affect  
our  
results  
of  
operations and FFO.

Illiquidity  
of  
real  
estate  
investments  
may  
make  
it  
difficult  
for  
us  
to  
sell  
properties  
in  
response  
to  
market  
conditions

and  
our  
properties  
may  
include  
special  
use  
and  
single  
or  
multi-tenant  
properties  
that  
may  
be  
difficult to sell or re-lease upon tenant defaults or early lease terminations which could harm our financial  
condition and ability to make distributions.

Our  
real  
estate  
investments  
have  
a  
limited  
number  
of  
tenants,  
many  
of  
which  
are  
small-  
and  
medium-sized  
businesses, and are concentrated in a limited number of industries, which subjects us to an increased risk of  
significant  
loss  
if  
any  
one  
of  
these  
tenants  
is  
unable  
to  
pay  
or  
if  
particular

industries  
experience  
downturns.  
4

Risk Factors (continued)  
Risks  
Relating  
to  
Our  
Company  
and

Our  
Operations  
(continued  
from  
previous  
slide)

We may be unable to renew leases, lease vacant space or re-lease space as leases expire, which could adversely affect our business and our ability to make distributions to our stockholders.

We  
may  
enter  
into  
sale-leaseback  
transactions,  
whereby  
we  
would  
purchase  
a  
property  
and  
then  
lease  
the  
same  
property  
back  
to  
the  
person  
from  
whom  
we  
purchased  
it.

If  
a  
sale-leaseback  
transaction  
is  
re-

characterized in a tenant's bankruptcy proceeding, our financial condition could be adversely affected.

We are dependent upon our key management personnel, who are employed by our Adviser, for our future success. The departure of any of our executive officers or key employees could have a material adverse effect on our ability to implement our business strategy and to achieve our investment objectives.

Our  
success  
depends  
on  
the

performance  
of  
our  
Adviser  
and  
if  
our  
Adviser  
makes  
inadvisable  
investment

or management decisions, our operations could be materially adversely impacted.

We may have conflicts of interest with our Adviser and other affiliates, including but not limited to the following conflicts: (i) our Adviser may realize substantial compensation on account of its activities on our behalf,

and  
may,  
therefore,  
be  
motivated

to  
approve  
acquisitions  
solely  
on  
the  
basis  
of  
increasing

compensation to itself; (ii) we may experience competition with our affiliates for financing transactions; (iii) our Adviser may earn fee income from our borrowers or tenants; and (iv) our Adviser and other affiliates could compete for the time and services of our officers and directors.

If  
we  
fail  
to  
qualify  
as  
a  
REIT,  
our  
operations  
and  
dividends  
to  
stockholders  
would  
be  
adversely  
impacted.

To the extent that our distributions represent a return of capital for tax purposes, you could recognize an increased capital gain upon a subsequent sale of your stock.
