Item 8.01 Other Events.

On May 28, 2013, Universal Property & Casualty Insurance Company (UPCIC) and American Platinum Property and Casualty Insurance Company (APPCIC), and together with UPCIC, the Insurance Entities), each a wholly-owned subsidiary of Universal Insurance Holdings, Inc. (the Company), completed the placement of the Company's 2013-2014 reinsurance program effective June 1, 2013.

Reinsurance Generally

In the normal course of business, the Company seeks to limit the maximum net loss to the Insurance Entities that can arise from large risks, from having risks in concentrated areas of exposure and from catastrophes such as hurricanes or other similar loss occurrences. The Insurance Entities therefore purchase certain reinsurance from other insurers or reinsurers to mitigate these potential losses. The Company's intention is to limit its exposure and the exposure of its Insurance Entities, thereby protecting stockholders' equity and the Insurance Entities' capital and surplus, even in the event of catastrophic occurrences, through reinsurance agreements. Without these reinsurance agreements, the Insurance Entities would be more substantially exposed to catastrophic losses with a greater likelihood that those losses could exceed their available capital and surplus. Any such catastrophic event, or multiple catastrophes, could have a material adverse effect on the Insurance Entities' solvency and our results of operations, financial condition and liquidity.

Below is a description of our 2013-2014 reinsurance program. Although the terms of the individual contracts vary, we believe that the overall terms of the 2013-2014 reinsurance program are more favorable than the 2012-2013 reinsurance program.

The Insurance Entities are responsible for insured losses related to catastrophic events in excess of coverage provided by their reinsurance programs. The Insurance Entities also remain responsible for insured losses notwithstanding the failure of any reinsurer to make payments otherwise due to the Insurance Entities. The Insurance Entities' inability to satisfy valid insurance claims resulting from catastrophic events could have a material adverse effect on the Company's results of operations, financial condition and liquidity.

UPCIC Reinsurance Program

Effective June 1, 2013, UPCIC entered into two quota share reinsurance contracts, both of which provide coverage through May 31, 2014 and one of which extends and provides coverage through May 31, 2015. Under the quota share contracts, through May 31, 2014, UPCIC cedes 45% of its gross written premiums, losses and loss adjustment expenses for policies with coverage for wind risk with a ceding commission equal to 26.7% of ceded gross written premiums. In addition, the quota share contract has a limitation for any one occurrence not to exceed \$125,000,000 from losses arising out of events that are assigned a catastrophe serial number by the Property Claims Services (PCS) office (of which UPCIC's net liability on the first \$125,000,000 of losses in a first event, second event and third event scenario is \$27,500,000 for events affecting Florida; \$16,500,000 in a first and second event scenario for events affecting

Georgia, Maryland, Massachusetts, North Carolina and South Carolina; \$5,500,000 in a first and second event scenario for events affecting Hawaii), and an aggregate limitation from losses arising out of events that are assigned a catastrophe serial number by the PCS office not to exceed \$280,000,000. The contracts limit the amount of premium which can be deducted for inuring reinsurance.

Effective June 1, 2013 through May 31, 2014, under various excess catastrophe contracts, UPCIC obtained catastrophe coverage of 45% of \$698,500,000 in excess of the quota share occurrence cap of \$125,000,000, covering certain loss occurrences including hurricanes. The catastrophe coverage has a second full limit available with additional premium calculated pro rata as to amount and 100% as to time, as applicable. Effective June 1, 2013 through May 31, 2014, under various excess catastrophe contracts, UPCIC also obtained catastrophe coverage of 55% of \$773,500,000 in excess of \$50,000,000, covering certain loss occurrences including hurricanes. Of this capacity, 7.6% has 2 free reinstatements, 29.3% has one free reinstatement, and 63.1% has a second full limit available with additional premium calculated pro rata as to amount and 100% as to time, as applicable. For capacity with reinstatement premium, UPCIC purchased reinstatement premium protection which reimburses UPCIC for its cost to reinstate the catastrophe coverage up to the top of the estimated Florida Hurricane Catastrophe Fund (FHCFC). The total cost of UPCIC's private catastrophe reinsurance program, effective June 1, 2013 through May 31, 2014, is \$104,889,225 to UPCIC and \$60,780,600 to the quota share reinsurers. Specifically, UPCIC obtained catastrophe coverage in two separate contracts for a third event. The first contract covers 45% of \$95,000,000 excess of \$30,000,000 in excess of \$190,000,000 otherwise recoverable. The total cost of the first third event catastrophe excess of loss reinsurance contract is \$5,567,000, of which UPCIC's cost is \$0, and the quota share reinsurer's cost is the entire amount. The second contract covers 15% of \$25,000,000 in excess of \$100,000,000 in excess of \$50,000,000 otherwise recoverable. The total cost of the second third event catastrophe excess of loss reinsurance contract is \$187,500, of which UPCIC is responsible for the entire amount.

Effective June 1, 2013 through May 31, 2014, UPCIC entered into a property per risk excess contract covering its policies that do not provide wind coverage.
