## Section 2. Financial Information

### Item 2.02. Results of Operations and Financial Condition.

On October 31, 2013, State Auto Financial Corporation (the **Company**) issued a press release disclosing the Company's results of operations for the three- and nine-month periods ended September 30, 2013 (the **Release**). The full text of the Release is furnished as Exhibit 99.1 to this Current Report on Form 8-K.

The Release included a non-GAAP financial measure, net income (loss) from operations per diluted share. Net income (loss) from operations differs from GAAP net income (loss) only by the exclusion of realized capital gains (losses), net of applicable taxes, on investment activity for the periods being reported. For the three-month periods ended September 30, 2013 and 2012, GAAP net income (loss) was \$0.45 per diluted share and \$(0.14) per diluted share, respectively, while net income (loss) from operations was \$0.33 per diluted share and \$(0.25) per diluted share for the same respective periods. For the three-month period ended September 30, 2013, realized capital gains, net of applicable taxes, increased the GAAP net income per diluted share by \$0.12. For the three-month period ended September 30, 2012, realized capital gains, net of applicable taxes, decreased the GAAP net loss per diluted share by \$0.11.

Management uses net income (loss) from operations because it believes this calculation better indicates the Company's operating performance than GAAP net income (loss) in that net income (loss) from operations excludes the sometimes volatile realized capital gains/losses, net of applicable federal income taxes, that can produce inconsistent results.

The Release also included non-GAAP financial measures as to the combined ratio. The GAAP combined ratio for the three- and nine-month periods ended September 30, 2013, was 101.4 and 101.7, respectively. Excluding the impact of the homeowners quota share arrangement<sup>(1)</sup>, the combined ratio for the three- and nine-month periods ended September 30, 2013 would have been 97.9 and 99.3, respectively. Excluding the impact of the homeowners quota share arrangement<sup>(1)</sup> and the runoff of business related to the termination of several programs written through the Company's former RED unit, the combined ratio for the nine-month period ended September 30, 2013, would have been 97.8. Management believes this non-GAAP financial measure provides investors with meaningful information concerning the Company's first nine months' 2013 combined ratio.

- (1) Homeowners quota share arrangement: On December 31, 2011, the State Auto Group entered into a quota share reinsurance agreement with a syndicate of unaffiliated reinsurers covering its homeowners book of business.
