NOTES TO SCHEDULE OF INVESTMENTS (UNAUDITED)

November 30, 2013

1. Organization. The Taiwan Fund, Inc. (the Fund), a Delaware corporation, is registered under the Investment Company Act of 1940, as amended (the Act), as a diversified closed-end management investment fund.

The Fund concentrates its investments in the securities listed on the Taiwan Stock Exchange. Because of this concentration, the Fund may be subject to additional certain risks not typically associated with investing in securities of U.S. companies or the U.S. government, including (1) volatility of the Taiwan securities market, (2) restrictions on repatriation of capital invested in Taiwan, (3) fluctuations in the rate of exchange between the NT dollar and the U.S. dollar, and (4) political and economic risks. In addition, ROC accounting, auditing, financial and other reporting standards are not equivalent to U.S. standards and, therefore, certain material disclosures may not be made, and less information may be available to investors investing in Taiwan than in the United States. There is also generally less regulation by governmental agencies and self-regulatory organizations with respect to the securities industry in Taiwan than there is in the United States.

2. Basis of Presentation. The preparation of the Schedule of Investments is in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) and requires management to make estimates and assumptions that affect the reported amounts and disclosures in the Schedule of Investments during the reporting period. Management believes the estimates and security valuations are appropriate; however, actual results may differ from those estimates, and the security valuations reflected in the Schedule of Investments may differ from the value the Funds ultimately realize upon sale of the securities.

Security Valuation. All securities, including those traded over-the-counter, for which market quotations are readily available are valued at the last sales price prior to the time of determination of the Fund's net asset value per share or, if there were no sales on such date, at the closing price quoted for such securities (but if bid and asked quotations are available, at the mean between the last current bid and asked prices, rather than such quoted closing price). These securities are generally categorized as Level 1 securities in the fair value hierarchy. In certain instances where the price determined above may not represent fair market value, the value is determined in such manner as the Board of Directors (the Board) may prescribe. Foreign securities may be valued at fair value according to procedures approved by the Board if the closing price is not reflective of current market values due to trading or events occurring in the valuation time of the Fund. In addition, substantial changes in values in the U.S. markets subsequent to the close of a foreign market may also affect the values of securities traded in the foreign market. These securities may be categorized as Level 2 or Level 3 securities in the fair value hierarchy, depending on the valuation inputs. Short-term investments, having a maturity of 60 days or less are valued at amortized cost, which approximates market value, with accrued interest or discount earned included in interest receivable.

The Fund has adopted fair valuation accounting standards which establish a definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion in changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 quoted unadjusted prices for identical instruments in active markets to which the Fund has access at the date of measurement.

Edgar Filing: TAIWAN FUND INC - Form N-Q

Level 2 quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model derived valuations in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers.

Level 3 model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Fund's own assumptions that market participants would use to price the asset or liability based on the best available information.

Investment in Securities	Level 1	Level 2	Level 3	Total
Common Stocks [^]	\$ 164,574,791	\$	\$	\$ 164,574,791
Total	\$ 164,574,791	\$	\$	\$ 164,574,791

[^] See schedule of investments for industry breakout.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The Fund's policy is to disclose transfers between Levels based on valuations at the end of the reporting period. As of November 30, 2013, there were no transfers between Levels 1, 2, or 3 based on the valuation input levels.

NOTES TO SCHEDULE OF INVESTMENTS (*unaudited*) (*continued*)

November 30, 2013

Foreign Currency Translation. The financial accounting records of the Fund are maintained in U.S. dollars. Investment securities, other assets and liabilities denominated in a foreign currency are translated into U.S. dollars at the current exchange rate. Purchases and sales of securities, income receipts and expense payments are translated into U.S. dollars at the exchange rate on the dates of the transactions.

Security Transactions. Security transactions are accounted as of the trade date.

3. Tax Basis of Investments. Cost of investments for federal income tax purposes is substantially the same as for financial statement purposes. At November 30, 2013, the aggregate cost basis of the Fund's investment securities for financial reporting purposes was \$132,796,569. Net unrealized depreciation of the Fund's investment securities was \$31,778,222 of which \$39,777,307 related to appreciated investment securities and \$7,999,085 related to depreciated investment securities.

ITEM 2. CONTROLS AND PROCEDURES

- (a) The registrant's principal executive and principal financial officers have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act) (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this Form N-Q that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rule 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934 (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 3. EXHIBITS

The certifications required by Rule 30a-2(a) of the 1940 Act (17 CFR 270.30a-2(a)), are attached as exhibits to this filing.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
