OPERATING RESULTS

Net sales, gross profit and operating income for the fourth quarter of 2013 and the same quarter of 2012 were presented excluding the discontinued operations (primarily our Wuxi facility). Net sales in the fourth quarter of 2013 were \$234.9 million, a decrease of 24.7%, compared to the net sales of \$312.2 million for the same quarter of 2012. Gross profit in the fourth quarter of 2013 was \$20.5 million, a decrease of 27.1%, compared to \$28.1 million in the fourth quarter of last year. Gross profit margin for the fourth quarter of 2013 was 8.7%, a decrease of 0.3%, compared to 9.0% in the fourth quarter of last year. Operating income for the fourth quarter of 2013 was \$5.0 million, a decrease of 76.1%, compared to \$20.8 million in the fourth quarter of last year.

With respect to the discontinued operations (primarily our Wuxi facility), for the fourth quarter of 2013 and the same period of 2012, the net sales were nil and \$156.4 million, gross (loss) profit were (\$0.1) million and \$20.8 million, and operating income were \$0.3 million and \$18.0 million, respectively.

After considering the income from discontinued operations (net of tax), net income in the fourth quarter of 2013 was \$9.2 million, or \$0.20 per diluted share, a decrease of 74.7%, compared to net income of \$36.6 million, or \$0.80 per diluted share, in the fourth quarter of last year. The decrease was primarily the result of the loss of orders for the Company's operations in Wuxi, represented by the income difference between the \$0.6 million income from discontinued operations (net of tax) in the fourth quarter of 2013 compared with \$16.9 million income in same period last year. Net income from continuing operations (in Shenzhen) decreased to \$8.7 million in the fourth quarter of 2013 from \$19.7 million in same period last year, mainly due to the accrual of layoff compensation of \$12.5 million as a part of our core business transformation.

Net sales, gross profit and operating income for the twelve months ended December 31, 2013 and the same period of 2012 were presented excluding the discontinued operations (primarily our Wuxi facility). For the twelve months ended December 31, 2013, net sales were \$855.8 million, an increase of 26.2%, compared to the net sales of \$678.1 million for the same period of 2012. Gross profit in the twelve months ended December 31, 2013 was \$67.6 million, a decrease of 0.9%, compared to \$68.2 million in the same period of last year. Gross profit margin for the twelve months ended December 31, 2013 was 7.9%, a decrease of 2.2%, compared to 10.1% in the same period of last year. Operating income for the twelve months ended December 31, 2013 was \$35.5 million, a decrease of 21.7%, compared to \$45.3 million in the same period of last year.

For the twelve months ended December 31, 2013 and December 31, 2012, our discontinued operations recognized net sales of \$47.1 million and \$494.0 million, gross (loss) profit of (\$0.5) million and \$37.0 million, and operating (loss) income of (\$37.9) million and \$25.9 million, respectively. After considering the (loss) income from our discontinued operations (net of tax), net income for the twelve months ended December 31, 2013 was \$0.3 million, or \$0.01 per diluted share, compared to net income of \$66.9 million, or \$1.48 per diluted share, in the same period of last year. The decrease was primarily attributable to the absence and losses from discontinued operations, which included the impairment loss of fixed assets of \$35.0 million and net deferred tax expenses of \$3.7 million.

Please see page 7 of the Company's Condensed Consolidated Statements of Comprehensive Income for further details. This information has also been published on the Company's website at <http://www.namtai.com/quarterly/quarterly.htm> in the quarterly earnings report of Q4 2013 on page 7, Condensed Consolidated Statements of Comprehensive Income.

COMPANY OUTLOOK

The Company recorded revenue of \$234.9 million in the fourth quarter of 2013, excluding discontinued operations. This revenue was mainly attributed to the production of high-resolution LCMs for smartphones at the Company's Shenzhen facility.

As announced previously, the Company has discontinued its production operations of LCMs for tablets in Wuxi at the end of June 2013 due to a lack of customer orders. As for the high-resolution LCMs for smartphones, the Company received orders from a customer to extend the production throughout the third and fourth quarters of 2013. The production of these orders had substantially completed by December 2013 and the shipment will be completed within January 2014. There are presently no more outstanding orders for smartphone LCMs. There are, however, still a few minor LCM orders for automobile applications requested by another customer, which would allow us to extend a small amount of production up to the end of April 2014. We currently have no more orders for any LCM production thereafter and estimate that the aforesaid final orders will only generate net sales of around \$50 million in the first half of 2014.

Also announced previously, we have been forced to cease our core business of LCM production by the end of April 2014, due to a customer's repeated and continuous changes in its formal purchasing orders without suitable commitment and, as a result, a strong likelihood that no reasonable profit margin can be gained anymore from continuing production. We have decided our core business of LCM production will formally cease by the end of April 2014. After April 2014, we intend to sell all of our machinery and production lines in all our facilities. We expect the sales will be finalized around end of July 2014.

Upon the cessation of our core business of LCM production, our management will thoroughly focus our efforts on developing two parcels of property in Gushu, Shenzhen, and Guangming, Shenzhen, respectively, by converting these two parcels of land into high-end commercial complexes. Upon which, we will become the landlord and manager of the commercial complexes and, as a result of which, our core business will be transformed from the EMS industry to property development and management. We project that the development of these two properties will take approximately four years each to complete following our board's approval, which is scheduled in July 2014. During this development period, all overheads expenses, development costs and dividend will be funded from interest income and rental income, together with Company's cash on hand and bank facilities, which we believe is sufficient.

The information contained in or that can be accessed through the websites mentioned in this announcement does not form part of this announcement.

PAYMENT OF QUARTERLY DIVIDENDS FOR 2014

As announced on November 4, 2013, the Company has set the payment schedule of quarterly dividends for 2014. The dividend for Q1 2014 was paid on January 17, 2014. The following table updates the previously announced schedule for declaration and payment of quarterly dividends in 2014.

Quarterly Payment	Record Date	Payment Date	Dividend (per share)	Status
Q1 2014	December 31, 2013	January 17, 2014	\$ 0.02	PAID
Q2 2014	March 31, 2014	before April 30, 2014	\$ 0.02

Q4 2014	September 30, 2014	before October 31, 2014	\$ 0.02	
Total for Full Year 2014			\$ 0.08	

The Company's decision to continue dividend payments in 2014 does not necessarily mean that cash dividend payments will continue thereafter. Whether future dividends after 2014 will be declared will depend upon Company's future growth and earnings at each relevant period, of which there can be no assurance, and the Company's cash flow needs for business transformation. Accordingly, there can be no assurance that cash dividends on the Company's common shares will be declared beyond those declared for 2014, we also cannot assure you what the amounts of such dividends will be or whether such dividends, once declared for a specific period, will continue for any future period, or at all.
