## **SECTION 1 CONFLICT MINERALS DISCLOSURE**

### **Item 1.01 Conflict Minerals Disclosure and Report**

Cirrus Logic, Inc. (the Company) has evaluated its current product lines and determined that certain products that we manufactured, or contracted to manufacture, during calendar year 2014 use conflict minerals that are necessary to the functionality or production of those products. Conflict minerals are defined by the Securities and Exchange Commission (SEC) as cassiterite, columbite-tantalite, gold, wolframite, or their derivatives, which are limited to tin, tantalum, tungsten, and gold (the 3TG minerals). The Company conducted a good faith reasonable country of origin inquiry regarding those 3TG minerals to determine whether any of the 3TG minerals originated in the Democratic Republic of the Congo, the Republic of the Congo, the Central African Republic, South Sudan, Uganda, Rwanda, Burundi, Tanzania, Zambia, and Angola (the Covered Countries), and whether any of the 3TG minerals may be from recycled or scrap sources. Based on its inquiry, the Company concluded that it was required to conduct due diligence on the source or chain of custody of its 3TG minerals. Accordingly, we have filed a Conflict Minerals Report as Exhibit 1.01 to this Form SD.
