The WisdomTree Australia Dividend Fund (the "Fund") seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Australia Dividend Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2016, the Fund's annual expense ratio was 0.58%.**

² WisdomTree Pacific ex-Japan Equity Income Index through June 17, 2011; WisdomTree Australia Dividend Index thereafter.

³ MSCI Pacific ex-Japan Value Index through June 17, 2011; MSCI Australia Index thereafter.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period of less than one year are cumulative.

The WisdomTree Germany Hedged Equity Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Germany Hedged Equity Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

The WisdomTree International Hedged Quality Dividend Growth Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree International Hedged Quality Dividend Growth Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as

Edgar Filing: WisdomTree Trust - Form N-CSRS

the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2016, the Fund's annual expense ratio was 0.58%.**

¹ Total returns are calculated based on the commencement of Fund trading on the NYSE Arca, Inc. on May 7, 2014.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The WisdomTree Japan Hedged Capital Goods Fund (the "Fund") seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Japan Hedged Capital Goods Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for

direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2016, the Fund's annual expense ratio was 0.48%.**

The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2016, the Fund's annual expense ratio was 0.58%.**

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of cost: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from April 1, 2016 to September 30, 2016.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled **Expenses Paid During the Period 4/1/16 to 9/30/16** to estimate the expenses you paid on your account during the period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

¹ The information reflects the investment objective and strategy of the WisdomTree Pacific ex-Japan Equity Income Fund through June 19, 2011 and the investment objective and strategy of the WisdomTree Australia Dividend Fund thereafter.

Edgar Filing: WisdomTree Trust - Form N-CSRS

- ² Based on average shares outstanding.
- ³ Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).
- ⁴ Annualized.
- ⁵ Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.58%.
- ⁶ The ratios to average net assets do not include net investment income (loss) or expenses of other funds in which the Fund invests.
- ⁷ The expense ratio includes investment advisory fee waivers. Without these investment advisory fee waivers, the expense ratio would have been unchanged.
- ⁸ Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares.
- ⁹ The information reflects the investment objective and strategy of the WisdomTree International Hedged Equity Fund through August 29, 2012 and the investment objective and strategy of the WisdomTree Europe Hedged Equity Fund thereafter.

Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).

³ Annualized.

⁴ Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares.

⁵ The ratios to average net assets do not include net investment income (loss) or expenses of other funds in which the Fund invests.

⁶ The expense ratio includes investment advisory fee waivers. Without these investment advisory fee waivers, the expense ratio would have been unchanged.

⁷ Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.58%.

In the normal course of business, the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and believes such exposure to be remote.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification) is the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants.

The following is a summary of significant accounting policies followed by the Funds:

Use of Estimates The preparation of financial statements in conformity with GAAP, requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The net asset value (NAV) of each Fund's shares is calculated each day a Fund is open for business as of the regularly scheduled close of regular trading on the New York Stock Exchange, normally 4:00 p.m. Eastern time (the NAV Calculation Time). NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Each Fund issues and redeems shares at NAV only in large blocks of shares known as creation units, which only certain institutions or large investors may purchase or redeem. Shares of each Fund are listed on a national securities exchange and trade at market prices. Most investors will buy and sell shares in the secondary market through brokers. Because Fund shares trade at market prices rather than NAV, shares may trade at a price greater than NAV or less than NAV. In calculating each Fund's NAV, investments are valued under policies approved by the Board of Trustees. Equity securities (including preferred stock) traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities (including preferred stock) are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask price. Each Fund may invest in money market funds which are valued at their NAV per share and affiliated exchange-traded funds (ETFs or ETF) which are valued at their last sale or official closing price on the exchange on which they are principally traded or at their NAV per share in instances where the affiliated ETF has not traded on its principal exchange. Fixed income securities (including short-term debt securities with remaining maturities of 60 days or less) generally are valued at current market quotations or mean prices obtained from broker-dealers or independent pricing service providers. Broker-dealers or independent pricing service providers, in determining the value of securities may consider such factors as recent transactions, indications from broker-dealers yields and quoted prices on similar securities, and market sentiment for the type of security. Foreign currency contracts are valued daily using WM/Reuters closing spot and forward rates as of 4:00 p.m. London time, except for the Global ex-U.S. Hedged Dividend Growth Fund, Global ex-U.S. Hedged Real Estate Fund and Korea Hedged Equity Fund, which values forward foreign currency contracts daily using WM/Reuters closing spot and forward rates as of 2:00 p.m. Singapore time. Futures contracts generally are valued at the settlement price, the price at which a futures contract settles once a given trading day has ended, on the primary exchange on which they trade.

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund's investments, which include derivatives, will be fair valued in accordance with the Fund's pricing policy. The Board of Trustees of the Trust has established a pricing committee (the Pricing Committee) which is comprised of senior representatives of WTAM and which reports to the Board of Trustees on a quarterly basis. In the event that a financial instrument cannot be valued based upon a price from a national securities exchange, independent pricing service provider or broker-dealer quotation, or such prices are deemed to not reflect current market value, the Pricing Committee may value the financial instrument in good faith under the policies and procedures approved by the Board of Trustees based on current facts and circumstances. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations, securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund's next NAV Calculation Time that may materially affect the value of a Fund's investment (e.g., government action, natural disaster, or significant market fluctuation). When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities.

Edgar Filing: WisdomTree Trust - Form N-CSRS

Fair Value Measurement In accordance with Codification Topic 820 (ASC 820), Fair Value Measurements and Disclosures, fair value is defined as the price that each Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy of inputs to be used

WisdomTree Developed World ex-U.S. and Currency Hedged Equity Funds 213

Table of Contents**Notes to Financial Statements** (unaudited) (continued)

when determining fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk—for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumptions in determining the fair value of investments)

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation or market activity; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's NAV is computed and that may materially affect the value of the Fund's investments).

The valuation techniques and significant inputs used in determining the fair market value measurements for Level 2 and Level 3 positions are as follows:

Financial instruments are generally valued by independent pricing service providers that use broker-dealer quotations, reported trades or valuation estimates from their internal pricing models. Depending on the type of financial instrument, the independent pricing service providers' internal pricing models may use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Financial instruments that use similar valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate. Over-the-counter financial derivative instruments derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These instruments are normally valued on the basis of broker-dealer quotations or independent pricing service providers. Depending on the product and the terms of the transaction, the value of the financial derivative instruments can be estimated by an independent pricing service provider using a series of techniques including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, credit risks/spreads, interest rates, yield curves, default and exchange rates. Derivative contracts that use valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate.

Determination of a fair value by the Pricing Committee may include significant unobservable inputs and therefore would be reflected as a Level 3 of the fair value hierarchy. The Pricing Committee may employ a market-based valuation approach which may use, among other potential considerations, related or comparable securities, recent transactions, market multiples, and other relevant information to determine fair value. The Pricing Committee may also use an income-based valuation approach in which anticipated future cash flows of the financial instrument are discounted to calculate fair value. The Pricing Committee meets at least on a monthly basis to review and discuss the appropriateness of such fair values using more current information such as, recent security news, recent market transactions, updated corporate action information and/or other macro or security specific events. Also, when observable inputs become available, the Pricing Committee conducts back testing of the methodologies used to value Level 3 financial instruments to substantiate the unobservable inputs used to value those investments. Such back testing includes comparing Level 3 investment values to observable inputs such as exchange-traded prices, transaction prices, and/or vendor prices.

Derivatives and Hedging Disclosure Codification Topic 815 (ASC 815), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The Funds have invested in derivatives, specifically foreign currency contracts during the period ended September 30, 2016 which are detailed in each Fund's Schedule of Investments. All of the derivative instruments disclosed and described herein are subject to risk. Risks may arise upon entering into foreign currency contracts from potential inability of a counterparty to meet the terms of their contracts and from unanticipated movements in the value of the foreign currencies relative to the U.S. dollar or each other. The Funds' derivative agreements contain credit-risk related contingent features which include, but are not limited to, a percentage decline in the Funds' NAV over a specified time period. If an event occurred at September 30, 2016 that triggered a contingent feature, the counterparty to the agreement may require the Funds to post additional collateral or terminate the derivative positions and demand payment. Any collateral posted with respect to the derivative positions would be used to offset or reduce the payment. The maximum exposure to derivatives agreements with credit-risk related contingent features would be the total value of derivatives in net liability positions for each Fund, as disclosed on pages 226 through 228. At September 30, 2016, the Funds did not receive or post collateral with any counterparty for derivatives and no event occurred that triggered a credit-risk-related contingent feature.

As of September 30, 2016, the effects of such derivative instruments on each Fund's financial position as reflected in the Statements of Assets and Liabilities are presented in the summary below:

¹ For the period April 7, 2016 (commencement of operations) through September 30, 2016.

Investment Transactions and Investment Income Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method. Dividend income is recognized on the ex-dividend date, net of any foreign taxes withheld. Interest income including amortization of premiums and discounts, is accrued daily.

Foreign Currency Translation The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates prevailing on the respective dates of such transactions that are deemed appropriate by WTAM. Realized and unrealized foreign exchange gains and losses on investments are included as a component of *net realized gain (loss) from investment transactions* and *net change in unrealized appreciation (depreciation) from investment transactions*, respectively, on the Statements of Operations. Net realized and unrealized foreign exchange gains or losses arising from sales of foreign currencies, including gains and losses of foreign currency contracts, currency gains or losses recognized between the trade and settlement dates on investment transactions, and the difference between the amounts of dividends and foreign withholding taxes recorded on the Funds' books and the U.S. dollar equivalent of the amounts actually received or paid are included in *net realized gain (loss) from foreign currency contracts and foreign currency related transactions* and/or *net change in unrealized appreciation (depreciation) from foreign currency contracts and translation of assets and liabilities denominated in foreign currencies* in the Statements of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of, ordinary income in accordance with U.S. Federal income tax regulations.

Expenses/Reimbursements Under the investment advisory agreement for each Fund, except for Funds that commenced operations on or after March 26, 2013, WTAM has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of trustees who are not interested persons of the Funds (Independent Trustees); (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's Chief Compliance Officer (CCO); (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Under the investment advisory agreement for Funds that commenced operations on or after March 26, 2013, WTAM has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other fees, charges, taxes, levies or expenses (such as stamp taxes) incurred in connection with the execution of portfolio transactions or in connection with creation and redemption transactions (including without limitation any fees, charges, taxes, levies or expenses related to the purchase or sale of an amount of any currency, or the partition or repatriation of any security or other asset, related to the execution of portfolio transactions or any creation or redemption transactions); (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's CCO; (vi) extraordinary expenses (in each case as determined by a majority of the Independent Trustees); (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; (viii) interest and taxes of any kind or nature (including, but not limited to, income, excise, transfer and withholding taxes); (ix) fees and expenses related to the provision of securities lending services; and (x) the advisory fee payable to WTAM.

Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees. WTAM receives a fee, as shown on the Statements of Operations under Service fees, of up to 0.0044% of each Fund's average daily net assets for providing such services and paying such expenses. WTAM provides CCO services to the Trust.

Currency Transactions The Funds may enter into foreign currency forward and foreign currency futures contracts to facilitate local securities settlements or to protect against currency exposure. The Funds, other than the Currency Hedged Equity Funds, do not expect to engage in currency transactions for the purpose of hedging against declines in the value of the Fund's assets that are denominated in one or more foreign currencies. The Funds may not enter into such contracts for speculative purposes.

Forward Foreign Currency Contracts A forward foreign currency contract (Forward Contract) involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A Forward Contract generally does not require an initial margin deposit and no commissions are charged at any stage for trades. However, if a Fund is in an unrealized loss position on a Forward Contract, it may be required to pledge collateral (or additional collateral) to the counterparty. If a Fund is in an unrealized gain position on a Forward Contract, it may receive collateral from the counterparty.

Risks may arise upon entering into Forward Contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. dollar or each other.

Fluctuations in the value of open Forward Contracts are recorded for book purposes as unrealized gains or losses on Forward Contracts by the Funds. Realized gains and losses on Forward Contracts include net gains or losses recognized by the Funds on contracts which have matured or were sold.

Futures Contracts Each Fund may transact in currency futures contracts and interest rate futures contracts. When a Fund purchases a listed futures contract, it agrees to purchase a specified reference asset (e.g., commodity, currency or Treasury security) at a specified future date. When a Fund sells a listed futures contract, it agrees to sell a specified reference asset (e.g., commodity, currency or Treasury security) at a specified future date. The price at which the purchase and sale will take place is fixed when the Fund enters into the contract. The exchange clearing corporation is the ultimate counterparty for all exchange-listed contracts, so credit risk is limited to the creditworthiness of the exchange's clearing corporation.

Upon entering into a futures contract, a Fund is required to deliver to a broker an amount of cash and/or government securities equal to a certain percentage of the contract amount. This amount is known as the initial margin. Subsequent payments, known as variation margin, generally are made or received by the Fund each day or at other agreed-upon time periods depending on the fluctuations in the value of the underlying futures contracts, except that in the case of certain futures contracts payments may be made or received at settlement. Such variation margin is recorded for financial statement purposes on a daily basis as an unrealized gain or loss on futures until the financial futures contract is closed, at which time the net gain or loss is reclassified to realized gain or loss on futures. When a Fund purchases or sells a futures contract, the Fund is required to cover its position in order to limit the risk associated with the use of leverage and other related risks. To cover its position, a Fund will segregate assets consisting of, or take other measures with respect to, cash or liquid securities that, when added to any amounts deposited with a futures commission merchant as margin, will cover its position in a manner consistent with the 1940 Act or the rules and SEC interpretations thereunder. This will function as a practical limit on the amount of leverage which a Fund may undertake and on the potential increase in the speculative character of a Fund's outstanding portfolio securities.

Securities Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. It is the Funds' policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral in the form of cash and/or high-grade debt obligations, equivalent to at least 100% of the market value of securities, is maintained at all times. The cash collateral can be invested in certain money market mutual funds which also have exposure to the fluctuations of the market. The values of the investments of cash collateral for securities on loan along with the obligations to return such collateral are included on the Statements of Assets and Liabilities. The total value of securities received as collateral for securities on loan is included in a footnote following each Schedule of Investments, but is not included within the Statements of Assets and Liabilities because the receiving Fund does not have the right to sell or repledge the securities received as collateral. Each Fund receives compensation for

Edgar Filing: WisdomTree Trust - Form N-CSRS

lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees, all of which are included in the securities lending income earned by the Funds and disclosed on the Statements of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. Dividends received while a security is out on loan are not considered Qualified Dividend Income (QDI) under the specific criteria issued by the Internal Revenue Service and are subject to taxation at the shareholder's ordinary income tax rate instead of the lower long-term capital gains tax rate. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

Master Netting Arrangements ASU No. 2011-11 Disclosures about Offsetting Assets and Liabilities (ASU 2011-11) is generally intended to (i) help investors and other financial statement users to better assess the effect or potential effect of offsetting arrangements on a company's financial position, (ii) improve transparency in the reporting of how companies mitigate credit risk, and (iii) facilitate comparisons between those entities that prepare their financial statements on the basis of GAAP and those entities that prepare their financial statements on the basis of international financial reporting standards. ASU 2011-11 requires entities to disclose (i) gross and net information about both instruments and transactions eligible for offset in the financial statements, and (ii) instruments and transactions subject to an agreement similar to a master netting agreement. ASU 2011-11 is limited in scope to the following financial instruments, to the extent they are offset in the financial statements or subject to an enforceable master netting arrangement or similar agreement: (i) recognized derivative instruments accounted for under ASC 815 (Derivatives and Hedging); (ii) repurchase agreements and reverse repurchase agreements; and (iii) securities borrowing and securities lending transactions.

In order to better define its contractual rights and to secure rights that will help a Fund mitigate its counterparty risk, a Fund may enter into an International Swaps and Derivatives Association, Inc. Master Agreement (ISDA Master Agreement) or similar agreement with its counterparties. An ISDA Master Agreement is a bilateral agreement between a Fund and a counterparty that governs over-the-counter derivatives (OTC), including Forward Contracts, and typically contains, among other things, collateral posting terms, netting and rights of set-off provisions in the event of a default and/or termination event. Under an ISDA Master Agreement, a Fund may, under certain circumstances, offset with the counterparty certain derivative financial instruments payables and receivables to create a single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out netting) or similar event, including the bankruptcy or insolvency of the counterparty.

Collateral requirements generally differ by type of derivative. Collateral terms are contract-specific for OTC derivatives (e.g. foreign exchange contracts, options and certain swaps). Generally, for transactions traded under an ISDA Master Agreement, the collateral requirements are calculated by netting the marked to market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by a Fund and the counterparty. Generally, the amount of collateral due from or to a counterparty must exceed a minimum transfer amount threshold before a transfer is required to be made. To the extent amounts due to a Fund from its derivatives counterparties are not fully collateralized, contractually or otherwise, the Fund bears the risk of loss from a counterparty's non-performance.

A Fund's security lending activities are governed by a Securities Lending Authorization Agreement (Lending Agreement) between the Fund and the lending agent. The Lending Agreement authorizes the lending agent to lend qualifying U.S. and foreign securities held by a Fund to approved borrowers (each a Borrower). To mitigate borrower risk, a Fund typically receives from a Borrower, collateral in the form of U.S. dollar cash and/or securities issued or guaranteed by the U.S. government or its agencies in excess of the market value of the securities loaned. Under the provisions of the Lending Agreement, a Fund shall have, as to the collateral, all of the rights and remedies of a secured party under applicable law. A Fund is exposed to risk of loss if a Borrower defaults on its obligation to return borrowed securities and the value of the collateral a Fund received is insufficient to cover the market value of the securities loaned. Also, the lending agent is permitted to invest the cash collateral it receives from a Borrower into a money market fund which is subject to market fluctuation. Therefore, a Fund is exposed to risk of loss if the value of invested cash collateral is insufficient to satisfy the Fund's obligation to return the full amount owed to such Borrower.

For financial reporting purposes, the Funds elect to not offset assets and liabilities subject to an ISDA Master Agreement or Lending Agreement, if any, in the Statements of Assets and Liabilities. Therefore, all qualifying transactions are presented on a gross basis in the Statements of Assets and Liabilities. As of September 30, 2016, the impact of netting of assets and liabilities and the offsetting of collateral pledged or received based on contractual netting/set-off provisions in the ISDA Master Agreement and the Lending Agreement are detailed in the following table:

Table of Contents**Notes to Financial Statements** (unaudited) (continued)

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments include short-term obligations issued by the U.S. government, its agencies, non-U.S. government agencies, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. In order to qualify for the special tax treatment accorded RICs and their shareholders, each Fund must, among other things, distribute with respect to each taxable year an amount equal to or greater than the sum of 90% of its investment company taxable income and 90% of its net tax-exempt interest income. There can be no guarantee that a Fund will pay dividends. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with the requirements of the Code and the U.S. Treasury regulations. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions that exceed earnings and profit for tax purposes are reported for tax purposes as a return of capital.

3. ADVISORY FEES AND OTHER TRANSACTIONS WITH AFFILIATES

WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM has arranged for Mellon Capital Management Corporation (MCM) to provide sub-advisory services to the Funds. MCM is compensated by WTAM at no additional cost to the Funds. WTAM also arranges for transfer agency, custody, fund accounting, fund administration, securities lending and all other non-distribution related services necessary for the Funds to operate, which are generally under separate agreements entered into between the Trust on behalf of the Funds and the applicable service provider. Under the investment advisory agreement for each Fund, WTAM agrees to pay all expenses of the Funds, except for certain expenses described in Note 2.

Pursuant to a separate contractual arrangement, as also described in Note 2, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044% of each Fund's average daily net assets. WTAM expects to receive advisory fees from each Fund, based on a percentage of the Fund's average daily net assets, as shown in the following table:

* WTAM has contractually agreed to waive a portion of its advisory fee in an amount equal to the AFFEs attributable to the Fund's investments in the Underlying Fund through July 31, 2018, unless earlier terminated by the Board of Trustees of the Trust for any reason.

¹ WTAM has contractually agreed to limit the advisory fee to 0.43% per annum based on the average daily net assets through July 31, 2017, unless earlier terminated by the Board of Trustees of the Trust for any reason.

² WTAM has contractually agreed to limit the advisory fee to 0.38% per annum based on the average daily net assets through July 31, 2017, unless earlier terminated by the Board of Trustees of the Trust for any reason.

Each Fund may purchase shares of affiliated ETFs in secondary market transactions to reduce cash balances. For these transactions, WTAM waives its advisory fees for each Fund's investment in affiliated funds. The waivers may be reduced to offset the incremental costs related to these investments (fund accounting, safekeeping, transaction fees, etc.) that are paid by WTAM out of its advisory fee. The dollar amount of advisory fees waived during the period for the Funds, if any, are shown in the Statements of Operations.

4. CAPITAL SHARE TRANSACTIONS

As of September 30, 2016, there were an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in creation units or multiples thereof. Except when aggregated in creation units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of creation units of a Fund generally consists of the in-kind contribution of a portfolio of equity securities and an amount of cash. Investors purchasing and redeeming creation units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of creation units.

Approval of Investment Advisory and Sub-Advisory Agreements (unaudited)

Consideration of the Renewal of Investment Advisory and Sub-Investment Advisory Agreements

At a meeting of the Board of Trustees (the Board or the Trustees) of the WisdomTree Trust (the Trust) held on September 21-22, 2016 (the Meeting), the Trustees, including those Trustees who are not interested persons (as defined in the Investment Company Act of 1940, as amended) of the Trust (the Independent Trustees), considered the renewal of the Investment Advisory Agreements between WisdomTree Asset Management, Inc. (WTAM) and the Trust, on behalf of applicable series herein (each, a Fund, and, collectively, the Funds), pursuant to which WTAM provides the Funds with investment advisory services (the Advisory Agreements), the Sub-Advisory Agreement (the MCM Sub-Advisory Agreement), pursuant to which Mellon Capital Management Corporation (MCM) coordinates the investment and reinvestment of the assets of the Funds, (the Sub-Advisory Agreement, and, collectively with the Advisory Agreements, the Agreements.

The Independent Trustees requested, and WTAM provided, such information as the Independent Trustees, with advice from independent legal counsel, deemed reasonably necessary to evaluate the Agreements. At a meeting of a committee of Independent Trustees (the Contracts Review Committee) held on August 4, 2016, representatives from WTAM presented preliminary information to the Trustees relating to the continuance of the Agreements, and the Trustees, including each of the Independent Trustees, reviewed and discussed such information. Further information was presented at the Board's request at the Meeting.

The Independent Trustees were assisted in their review by independent legal counsel and met with counsel in executive session separate from WTAM representatives and the Sub-Adviser. In considering the renewal of the Agreements, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Trustee may have attributed different weights to the factors considered.

Analysis of Nature, Extent, and Quality of Services Provided to the Funds. The Board considered information provided to them at the Meeting and in previous presentations throughout the year from WTAM representatives regarding the nature, extent, and quality of the services provided to the Funds, recognizing WTAM's and the Sub-Adviser's operational capabilities and resources. The Board also discussed the role of WisdomTree Investments, Inc. (WTI), the parent of WTAM, as index provider to the Funds, which comprise the substantial majority of assets in the WisdomTree fund complex. The Board noted that the strategies represented by Funds tracking affiliated WTI indexes are unique, based on WTI's intellectual property and are only available for use by applicable Funds through WTAM. The Board noted WTAM's belief that shareholders have invested in such Funds on the strength of WTI's intellectual property and WTAM's industry standing and reputation and with the expectation that WTAM will have a continuing role in providing advisory services to the Funds based on the WTI indexes. The Board also noted the extensive responsibilities that WTAM has as investment adviser to the Funds, including: the selection of, and supervisory responsibilities and activities over, the Sub-Adviser, including oversight of the Sub-Adviser's adherence to each Fund's investment strategy and restrictions, monitoring of the Sub-Adviser's buying and selling of securities and derivatives transactions, review of Sub-Adviser performance, review of proxies voted by the Sub-Adviser and oversight of, and the provision of consultation to, the Sub-Adviser with respect to the creation of custom creation or redemption baskets for authorized participants; oversight of the daily valuation of the Funds' portfolio holdings; oversight of general Fund compliance with federal and state laws; and implementation of Board directives as they relate to the Funds. The Board also considered research support available to, and management capabilities of, the Funds' management personnel and that WTAM provides oversight of day-to-day Fund operations, including fund accounting, tax matters, administration and legal assistance in meeting disclosure and regulatory requirements. Based on management's representations, the Board expected that there would be no reduction in the scope of services required by or provided by WTAM and the Sub-Adviser under the relevant Agreements. The Board noted that WTAM has continued to commit significant resources toward the fund complex and has made substantial investments to improve the services offered by WTAM, which benefit Fund shareholders.

Based on review of this information and the other factors considered at the Meeting, the Board concluded that the nature, extent and quality of services provided by WTAM and the Sub-Adviser under the Advisory Agreements and Sub-Advisory Agreement, respectively, are adequate and appropriate and supported the Board's approval of the renewal of the Agreements.

Comparative Analysis of the Funds' Performance and Management Fee and Expense Ratio. The Board reviewed reports prepared by Broadridge Financial Solutions, Inc. (Broadridge), an independent provider of investment company data, which included information (1) measuring each index Fund's performance by how well it tracked the relevant benchmark index, and (2) comparing each Fund's actual management fees and total expenses with those of a group of comparable funds (the Expense Group) and, with respect to total expenses, with a broader group of funds (the Expense Universe), the information for which was derived in part from fund financial statements available to Broadridge as of the date of its analysis. The Contracts Review Committee and the Independent Trustees previously had reviewed and discussed the methodology Broadridge used to select the Expense Groups and Expense Universes. The Board noted that the Expense Groups and Expense

Universes included only pure-index exchange traded funds (ETFs) as comparison funds. The Board also noted that due to the special characteristics of certain Funds, there are limitations in providing comparable funds in the Expense Groups and Expense Universes, and the information in the Broadridge reports may or may not provide meaningful direct comparisons to the Funds.

Approval of Investment Advisory and Sub-Advisory Agreements (unaudited) (continued)

The Board discussed the Funds' performance, noting that the Funds seek to track their own WisdomTree benchmark index. During the prior year, the Board received periodic reports on the Funds' performance in comparison to their relevant benchmark indexes.

The Board also reviewed the range of actual management fees and total expenses of the Expense Group funds and, with respect to total expenses, Expense Universe funds, as well as the advisory fees and total expenses of certain funds not included in the Broadridge reports that WTAM considers to be significant competitors of the Funds, and discussed the results of the comparisons. With respect to comparisons of actual management fees, the Board noted the Funds' unitary fee structure and that the Expense Groups and Expense Universes generally included both ETFs with and without a unitary fee structure. The Board also noted that certain comparison funds in certain Expense Groups and Expense Universes benefited from waivers of all or a portion of their management fees and reimbursement of certain operating expenses. The Board noted that the total expenses of many of the Funds were within five basis points of the median and average total expenses of the funds in the Funds' respective Expense Groups. In those specific instances where a Fund's total expenses departed more significantly from comparative funds, the Independent Trustees sought explanations from WTAM, which generally attributed the disparities to the limitations within peer data and/or the unique attributes of a Fund or certain comparison funds.

The Board considered the fees to the Sub-Adviser in relation to the fees paid to WTAM by the Funds and the respective services provided by the Sub-Adviser and WTAM. The Board also noted that the Sub-Adviser's fees are paid by WTAM (out of its fee paid by the relevant Funds) and not the Funds. The Board considered the meaningful differences in the services that WTAM provides to the Funds as compared to the Sub-Adviser, including that the role of the Sub-Adviser in making investment recommendations with respect to a Fund tracking an index is a rules-based function, with oversight by WTAM in seeking to ensure compliance with such rules. The Board also considered the entrepreneurial and expense risk borne by WTAM that is associated with Funds' unitary fee structure, which frequently includes minimum fees (such as those to the Sub-Adviser), regardless of whether the asset size of a Fund has grown to a sufficient size.

Based on this review and the other factors considered at the Meeting, the Board concluded that, with respect to each Fund, the Fund's performance, the fees paid to WTAM and the Sub-Adviser and the Fund's total expenses supported the Board's approval of the renewal of the relevant Agreements.

Analysis of Profitability and Economies of Scale. WTAM representatives reviewed the expenses allocated and profit received by WTAM and the resulting profitability percentage for managing each Fund and the aggregate profitability percentage to WTAM for managing the WisdomTree fund complex, and the method used to determine the expenses and profit.

The Board considered the profitability analysis (1) as part of its evaluation of whether the fees under the Agreements bear a reasonable relationship to the mix of services provided by WTAM and the Sub-Adviser, including the nature, extent and quality of such services, and (2) in light of the relevant circumstances for each Fund and the extent to which economies of scale would be realized if the Fund grows and whether fee levels reflect these economies of scale for the benefit of Fund shareholders. WTAM representatives noted that a discussion of economies of scale is predicated on a Fund having achieved a substantial size and that, if a Fund's assets had been decreasing, the possibility that WTAM may have realized any economies of scale would be less. WTAM representatives also noted that, as a result of shared and allocated costs among the WisdomTree funds, the extent of economies of scale could depend substantially on the level of assets in the fund complex as a whole. The Board noted that certain Funds had grown rapidly over a relatively short period of time after longer periods of slow or no growth, during which there were years of losses for WTAM in managing such Funds that had only recently turned profitable and years of substantial cumulative losses to WTAM in managing the fund complex as a whole. WTAM representatives stated that there has been significant volatility in the assets of individual Funds and in the fund complex as a whole over time (including volatility in profitability) and that it was not clear that current asset levels will be maintained. WTAM representatives noted that assets in certain Funds have diminished at times at a rapid rate (including during the last year) and could continue to do so. WTAM representatives also noted that economies of scale currently are shared with the Funds by way of the unitary fee structure of the Trust, as well as through additional investment in the WisdomTree business. The Board noted that the Contracts Review Committee had focused on the issue of economies of scale during its meetings. The Board also noted that it would continue to monitor the sharing of economies of scale, focusing in particular on Funds that have experienced significant asset growth, to determine the appropriateness of adding breakpoints in the future. The Board also considered potential benefits to WTAM and the Sub-Adviser from acting as investment adviser and sub-investment adviser, respectively, and noted that there were no soft dollar arrangements in effect for trading the Funds investments. Based on this review, the Board concluded that the profitability results were consistent with the services rendered and service levels provided by WTAM and the entrepreneurial risk WTAM has undertaken over time.

At the conclusion of these discussions, the Board agreed that it had been furnished with sufficient information to make an informed business decision with respect to the renewal of the Agreements. In evaluating the Agreements, the Board considered the conclusions and determinations discussed above and also relied on its previous knowledge, gained through meetings and other

interactions with WTAM and the Sub-Adviser, of the Funds and the services provided to the Funds by WTAM and the Sub-Adviser. The Board also relied on information received on a routine and regular basis throughout the year relating to the operations of the Funds and the investment advisory and other services provided under the Agreements. In light of the foregoing, the Board, including a majority of the Independent Trustees, determined to approve the renewal of the Agreements.

The WisdomTree Funds are exchange traded funds (ETFs) registered with the United States Securities and Exchange Commission as separate series (Funds) of WisdomTree Trust (Trust). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the Trust. None of the WisdomTree entities are affiliated with Foreside Fund Services, LLC, the Funds distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you cannot invest directly in an index.

There are risks associated with investing including possible loss of principal. Foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country or region may be significantly impacted by events and developments associated with the region which can adversely affect performance. Funds focusing on a single sector and/or smaller companies generally experience greater price volatility. Investments in emerging, offshore or frontier markets are generally less liquid and less efficient than investments in developed markets and are subject to additional risks, such as risks of adverse governmental regulation and intervention or political developments. Inflation protected securities do not eliminate risks associated with inflation or deflation. Investments in currency involve additional special risks, such as credit risk and interest rate fluctuations. Derivative investments can be volatile and these investments may be less liquid than other securities, and more sensitive to the effect of varied economic conditions. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting such issuers. Due to the investment strategy of certain Funds they may make higher capital gain distributions than other ETFs. Please read the Fund s prospectus for specific details regarding the Fund s risk profile.

Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.

The WisdomTree Asia Pacific ex-Japan Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Asia Pacific ex-Japan Index.

The following performance table is provided for comparative purposes and represents

the period noted. The Fund's per share NAV is the value of one share of the Fund and is

Edgar Filing: WisdomTree Trust - Form N-CSRS

calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs.

Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively

impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2016, the Fund's annual expense ratio was 0.48%.**

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. The WisdomTree Emerging Markets High Dividend Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Emerging Markets High Dividend Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange.

where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2016, the Fund's annual expense ratio was 0.63%.**

The WisdomTree India Earnings Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree India Earnings Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market

price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2016, the Fund's annual expense ratio was 0.83%.**

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of cost: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from April 1, 2016 to September 30, 2016.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled **Expenses Paid During the Period 4/1/16 to 9/30/16** to estimate the expenses you paid on your account during the period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

- ² Based on average shares outstanding.
- ³ Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).
- ⁴ Includes a voluntary reimbursement from the sub-advisor for investment losses on certain foreign exchange transactions during the period. Excluding this voluntary reimbursement, total return would have been unchanged.
- ⁵ The ratios to average net assets do not include net investment income (loss) or expenses of other funds in which the Fund invests.
- ⁶ The expense ratio includes investment advisory fee waivers. Without these investment advisory fee waivers, the expense ratio would have been unchanged.
- ⁷ Annualized.
- ⁸ Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.48%.
- ⁹ Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares.
- ¹⁰ The information reflects the investment objective and strategy of the WisdomTree China Dividend ex-Financials Fund through June 30, 2015 and the investment objective and strategy of the WisdomTree China ex-State-Owned Enterprises Fund thereafter.
- ¹¹ Effective July 1, 2015, the investment advisor contractually agreed to limit the advisory fee to 0.53% through July 31, 2017, unless earlier terminated by the Board of Trustees of the Trust.
- ¹² Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.63%.

Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. For the periods in which the investment advisor waived advisory fees, the total return would have been lower if certain expenses had not been waived (Notes 2 and 3).

- ³ The ratios to average net assets do not include net investment income (loss) or expenses of other funds in which the Fund invests.
- ⁴ The expense ratio includes investment advisory fee waivers. Without these investment advisory fee waivers, the expense ratio would have been unchanged.
- ⁵ Annualized.
- ⁶ Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.63%.
- ⁷ Reflects the Fund's advisory fees, after waiver, and the fees and expenses of the WisdomTree India Earnings Fund that were paid indirectly by the Fund. The Fund invests a portion of its assets in the WisdomTree India Earnings Fund in order to achieve exposure to securities in India.
- ⁸ Portfolio turnover rate is not annualized and excludes the value of the portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares.
- ⁹ Included in the expense ratio are non-recurring professional expenses. Without these expenses, the expense ratio would have been unchanged.
- ¹⁰ Included in the expense ratio are proxy expenses. Without these proxy expenses, the expense ratio would have been 0.58%.

WisdomTree Middle East Dividend Fund (Middle East Dividend Fund)	July 16, 2008

The India Earnings Fund makes its investments through the WisdomTree India Investment Portfolio, Inc. (the Portfolio), a wholly owned subsidiary organized in the Republic of Mauritius (Mauritius). The Portfolio was incorporated under the provisions of the Mauritius Companies Act, 2001 and holds a Global Business License Category 1 issued by the Financial Services Commission. The Portfolio is advised by WisdomTree Asset Management, Inc. (WTAM) and is sub-advised by Mellon Capital Management Corporation (MCM).

Each Fund seeks to track the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (WisdomTree Investments). WisdomTree Investments is the parent company of WTAM, the investment adviser to each Fund and the Trust. WisdomTree is a registered trademark of WisdomTree Investments and has been licensed for use by the Trust. Each Fund described herein is considered to be non-diversified. The securities in each Index are weighted based on earnings or earnings yield.

In the normal course of business, the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and believes such exposure to be remote.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification) is the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants.

The following is a summary of significant accounting policies followed by the Funds:

Use of Estimates The preparation of financial statements in conformity with GAAP, requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Edgar Filing: WisdomTree Trust - Form N-CSRS

Basis of Consolidation The financial statements for the India Earnings Fund include the accounts of a wholly-owned and controlled Mauritius subsidiary (the Subsidiary). The Fund s accompanying financial statements reflect the financial position and the results of operations on a consolidated basis with its Subsidiary. All intercompany accounts and transactions have been eliminated in the consolidation.

Table of Contents**Notes to Financial Statements** (unaudited) (continued)

Investment Valuation The net asset value (NAV) of each Fund 's shares is calculated each day a Fund is open for business as of the regularly scheduled close of regular trading on the New York Stock Exchange, normally 4:00 p.m. Eastern time (the NAV Calculation Time). NAV per share is calculated by dividing a Fund 's net assets by the number of Fund shares outstanding. Each Fund issues and redeems shares at NAV only in large blocks of shares known as creation units, which only certain institutions or large investors may purchase or redeem. Shares of each Fund are listed on a national securities exchange and trade at market prices. Most investors will buy and sell shares in the secondary market through brokers. Because Fund shares trade at market prices rather than NAV, shares may trade at a price greater than NAV or less than NAV. In calculating each Fund 's NAV, investments are valued under policies approved by the Board of Trustees. Equity securities (including preferred stock) traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities (including preferred stock) are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask price. Each Fund may invest in money market funds which are valued at their NAV per share and affiliated exchange-traded funds (ETFs or ETF) which are valued at their last sale or official closing price on the exchange on which they are principally traded or at their NAV per share in instances where the affiliated ETF has not traded on its principal exchange. Fixed income securities (including short-term debt securities with remaining maturities of 60 days or less) generally are valued at current market quotations or mean prices obtained from broker-dealers or independent pricing service providers. Broker-dealers or independent pricing service providers, in determining the value of securities may consider such factors as recent transactions, indications from broker-dealers yields and quoted prices on similar securities, and market sentiment for the type of security. Foreign currency contracts are valued daily using WM/Reuters closing spot and forward rates as of 4:00 p.m. London time.

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund 's investments, which include derivatives, will be fair valued in accordance with the Fund 's pricing policy. The Board of Trustees of the Trust has established a pricing committee (the Pricing Committee) which is comprised of senior representatives of WTAM and which reports to the Board of Trustees on a quarterly basis. In the event that a financial instrument cannot be valued based upon a price from a national securities exchange, independent pricing service provider or broker-dealer quotation, or such prices are deemed to not reflect current market value, the Pricing Committee may value the financial instrument in good faith under the policies and procedures approved by the Board of Trustees based on current facts and circumstances. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current market quotations, securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund 's next NAV Calculation Time that may materially affect the value of a Fund 's investment (e.g., government action, natural disaster, or significant market fluctuation). When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities.

Fair Value Measurement In accordance with Codification Topic 820 (ASC 820), Fair Value Measurements and Disclosures, fair value is defined as the price that each Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy of inputs to be used when determining fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk—for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity 's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund 's assumptions in determining the fair value of investments)

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

Edgar Filing: WisdomTree Trust - Form N-CSRS

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation or

market activity; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's NAV is computed and that may materially affect the value of the Fund's investments).

The valuation techniques and significant inputs used in determining the fair market value measurements for Level 2 and Level 3 positions are as follows:

Financial instruments are generally valued by independent pricing service providers that use broker-dealer quotations, reported trades or valuation estimates from their internal pricing models. Depending on the type of financial instrument, the independent pricing service providers internal pricing models may use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Financial instruments that use similar valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate. Over-the-counter financial derivative instruments derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These instruments are normally valued on the basis of broker-dealer quotations or independent pricing service providers. Depending on the product and the terms of the transaction, the value of the financial derivative instruments can be estimated by an independent pricing service provider using a series of techniques including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, credit risks/spreads, interest rates, yield curves, default and exchange rates. Derivative contracts that use valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate.

Determination of a fair value by the Pricing Committee may include significant unobservable inputs and therefore would be reflected as a Level 3 of the fair value hierarchy. The Pricing Committee may employ a market-based valuation approach which may use, among other potential considerations, related or comparable securities, recent transactions, market multiples, and other relevant information to determine fair value. The Pricing Committee may also use an income-based valuation approach in which anticipated future cash flows of the financial instrument are discounted to calculate fair value. The Pricing Committee meets at least on a monthly basis to review and discuss the appropriateness of such fair values using more current information such as, recent security news, recent market transactions, updated corporate action information and/or other macro or security specific events. Also, when observable inputs become available, the Pricing Committee conducts back testing of the methodologies used to value Level 3 financial instruments to substantiate the unobservable inputs used to value those investments. Such back testing includes comparing Level 3 investment values to observable inputs such as exchange-traded prices, transaction prices, and/or vendor prices.

The following is a summary of the fair valuations according to the inputs used as of September 30, 2016 in valuing each Fund's assets:

Derivatives and Hedging Disclosure Codification Topic 815 (ASC 815), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The Funds have invested in derivatives, specifically foreign currency contracts during the period ended September 30, 2016 which are detailed in each Fund's Schedule of Investments. All of the derivative instruments disclosed and described herein are subject to risk. Risks may arise upon entering into foreign currency contracts from potential inability of a counterparty to meet the terms of their contracts and from unanticipated movements in the value of the foreign currencies relative to the U.S. dollar or each other. The Funds' derivative agreements contain credit-risk related contingent features which include, but are not limited to, a percentage decline in the Funds' NAV over a specified time period. If an event occurred at September 30, 2016 that triggered a contingent feature, the counterparty to the agreement may require the Funds to post additional collateral or terminate the derivative positions and demand payment. Any collateral posted with respect to the derivative positions would be used to offset or reduce the payment. The maximum exposure to derivatives agreements with credit-risk related contingent features would be the total value of derivatives in net liability positions for each Fund, as disclosed on pages 91 and 92. At September 30, 2016, the Funds did not receive or post collateral with any counterparty for derivatives and no event occurred that triggered a credit-risk-related contingent feature.

As of September 30, 2016, the effects of such derivative instruments on each Fund's financial position as reflected in the Statements of Assets and Liabilities are presented in the summary below:

Investment Transactions and Investment Income Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method. Dividend income is recognized on the ex-dividend date, net of any foreign taxes withheld. Interest income including amortization of premiums and discounts, is accrued daily.

Foreign Currency Translation The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates prevailing on the respective dates of such transactions that are deemed appropriate by WTAM. Realized and unrealized foreign exchange gains and losses on investments are included as a component of *net realized gain (loss) from investment transactions* and *net change in unrealized appreciation (depreciation) from investment transactions*, respectively, on the Statements of Operations. Net realized and unrealized foreign exchange gains or losses arising from sales of foreign currencies, including gains and losses of foreign currency contracts, currency gains or losses recognized between the trade and settlement dates on investment transactions, and the difference between the amounts of dividends and foreign withholding taxes recorded on the Funds' books and the U.S. dollar equivalent of the amounts actually received or paid are included in *net realized gain (loss) from foreign currency contracts and foreign currency related transactions* and/or *net change in unrealized appreciation (depreciation) from foreign currency contracts and translation of assets and liabilities denominated in foreign currencies* in the Statements of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of, ordinary income in accordance with U.S. Federal income tax regulations.

Expenses/Reimbursements Under the investment advisory agreement for each Fund, except for Funds that commenced operations on or after March 26, 2013, WTAM has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of trustees who are not interested persons of the Funds (Independent Trustees); (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's Chief Compliance Officer (CCO); (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Under the investment advisory agreement for Funds that commenced operations on or after March 26, 2013, WTAM has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other fees, charges, taxes, levies or expenses (such as stamp taxes) incurred in connection with the execution of portfolio transactions or in connection with creation and redemption transactions (including without limitation any fees, charges, taxes, levies or expenses related to the purchase or sale of an amount of any currency, or the partition or repatriation of any security or other asset, related to the execution of portfolio transactions or any creation or redemption transactions); (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's CCO; (vi) extraordinary expenses (in each case as determined by a majority of the Independent Trustees); (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; (viii) interest and taxes of any kind or nature (including, but not limited to, income, excise, transfer and withholding taxes); (ix) fees and expenses related to the provision of securities lending services; and (x) the advisory fee payable to WTAM.

Notes to Financial Statements (unaudited) (continued)

The internal expenses of pooled investment vehicles in which the Funds may invest (acquired fund fees and expenses) are not expenses of the Funds and are not paid by WTAM.

Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent

Trustees. WTAM receives a fee, as shown on the Statements of Operations under Service fees, of up to 0.0044% of each Fund's average daily net assets for providing such services and paying such expenses. WTAM provides CCO services to the Trust.

Currency Transactions The Funds may enter into foreign currency contracts to facilitate local securities settlements or to protect against currency exposure. The Funds do not expect to engage in currency transactions for the purpose of hedging against declines in the value of the Fund's assets that are denominated in one or more foreign currencies. The Funds may not enter into such contracts for speculative purposes.

Forward Foreign Currency Contracts A forward foreign currency contract (Forward Contract) involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A Forward Contract generally does not require an initial margin deposit and no commissions are charged at any stage for trades. However, if a Fund is in an unrealized loss position on a Forward Contract, it may be required to pledge collateral (or additional collateral) to the counterparty. If a Fund is in an unrealized gain position on a Forward Contract, it may receive collateral from the counterparty.

Risks may arise upon entering into Forward Contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. dollar or each other.

Fluctuations in the value of open Forward Contracts are recorded for book purposes as unrealized gains or losses on Forward Contracts by the Funds. Realized gains and losses on Forward Contracts include net gains or losses recognized by the Funds on contracts which have matured or were sold.

Securities Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. It is the Funds' policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral in the form of cash and/or high-grade debt obligations, equivalent to at least 100% of the market value of securities, is maintained at all times. The cash collateral can be invested in certain money market mutual funds which also have exposure to the fluctuations of the market. The values of the investments of cash collateral for securities on loan along with the obligations to return such collateral are included on the Statements of Assets and Liabilities. The total value of securities received as collateral for securities on loan is included in a footnote following each Schedule of Investments, but is not included within the Statements of Assets and Liabilities because the receiving Fund does not have the right to sell or repledge the securities received as collateral. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees, all of which are included in the securities lending income earned by the Funds and disclosed on the Statements of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. Dividends received while a security is out on loan are not considered Qualified Dividend Income (QDI) under the specific criteria issued by the Internal Revenue Service and are subject to taxation at the shareholder's ordinary income tax rate instead of the lower long-term capital gains tax rate. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

Master Netting Arrangements ASU No. 2011-11 Disclosures about Offsetting Assets and Liabilities (ASU 2011-11) is generally intended to (i) help investors and other financial statement users to better assess the effect or potential effect of offsetting arrangements on a company's financial position, (ii) improve transparency in the reporting of how companies mitigate credit risk, and (iii) facilitate comparisons between those entities that prepare their financial statements on the basis of GAAP and those entities that prepare their financial statements on the basis of international financial reporting standards. ASU 2011-11 requires entities to disclose (i) gross and net information about both instruments and transactions eligible for offset in the financial statements, and (ii) instruments and transactions subject to an agreement similar to a master netting agreement. ASU 2011-11 is limited in scope to the following financial instruments, to the extent they are offset in the financial statements or subject to an enforceable master netting arrangement or similar agreement: (i) recognized derivative instruments accounted for

Edgar Filing: WisdomTree Trust - Form N-CSRS

under ASC 815 (Derivatives and Hedging); (ii) repurchase agreements and reverse repurchase agreements; and (iii) securities borrowing and securities lending transactions.

In order to better define its contractual rights and to secure rights that will help a Fund mitigate its counterparty risk, a Fund may enter into an International Swaps and Derivatives Association, Inc. Master Agreement (ISDA Master Agreement) or similar agreement with its counterparties. An ISDA Master Agreement is a bilateral agreement between a Fund and a counterparty that

90 WisdomTree Global/Global ex-U.S. and Emerging/Frontier Markets Funds

Table of Contents**Notes to Financial Statements** (unaudited) (continued)

governs over-the-counter derivatives (OTC), including Forward Contracts, and typically contains, among other things, collateral posting terms, netting and rights of set-off provisions in the event of a default and/or termination event. Under an ISDA Master Agreement, a Fund may, under certain circumstances, offset with the counterparty certain derivative financial instruments payables and receivables to create a single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out netting) or similar event, including the bankruptcy or insolvency of the counterparty.

Collateral requirements generally differ by type of derivative. Collateral terms are contract-specific for OTC derivatives (e.g. foreign exchange contracts, options and certain swaps). Generally, for transactions traded under an ISDA Master Agreement, the collateral requirements are calculated by netting the marked to market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by a Fund and the counterparty. Generally, the amount of collateral due from or to a counterparty must exceed a minimum transfer amount threshold before a transfer is required to be made. To the extent amounts due to a Fund from its derivatives counterparties are not fully collateralized, contractually or otherwise, the Fund bears the risk of loss from a counterparty's non-performance.

A Fund's security lending activities are governed by a Securities Lending Authorization Agreement (Lending Agreement) between the Fund and the lending agent. The Lending Agreement authorizes the lending agent to lend qualifying U.S. and foreign securities held by a Fund to approved borrowers (each a Borrower). To mitigate borrower risk, a Fund typically receives from a Borrower, collateral in the form of U.S. dollar cash and/or securities issued or guaranteed by the U.S. government or its agencies in excess of the market value of the securities loaned. Under the provisions of the Lending Agreement, a Fund shall have, as to the collateral, all of the rights and remedies of a secured party under applicable law. A Fund is exposed to risk of loss if a Borrower defaults on its obligation to return borrowed securities and the value of the collateral a Fund received is insufficient to cover the market value of the securities loaned. Also, the lending agent is permitted to invest the cash collateral it receives from a Borrower into a money market fund which is subject to market fluctuation. Therefore, a Fund is exposed to risk of loss if the value of invested cash collateral is insufficient to satisfy the Fund's obligation to return the full amount owed to such Borrower.

For financial reporting purposes, the Funds elect to not offset assets and liabilities subject to an ISDA Master Agreement or Lending Agreement, if any, in the Statements of Assets and Liabilities. Therefore, all qualifying transactions are presented on a gross basis in the Statements of Assets and Liabilities. As of September 30, 2016, the impact of netting of assets and liabilities and the offsetting of collateral pledged or received based on contractual netting/set-off provisions in the ISDA Master Agreement and the Lending Agreement are detailed in the following table:

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments include short-term obligations issued by the U.S. government, its agencies, non-U.S. government agencies, negotiable certificates of deposit (CDs), fixed time deposits and bankers acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker s acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund s policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. In order to qualify for the special tax treatment accorded RICs and their shareholders, each Fund must, among other things, distribute with respect to each taxable year an amount equal to or greater than the sum of 90% of its investment company taxable income and 90% of its net tax-exempt interest income. There can be no guarantee that a Fund will pay dividends. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with the requirements of the Code and the U.S. Treasury regulations. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions that exceed earnings and profit for tax purposes are reported for tax purposes as a return of capital. The India Earnings Fund has filed an election to treat the Portfolio as a pass-through entity for tax purposes.

3. ADVISORY FEES AND OTHER TRANSACTIONS WITH AFFILIATES

WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM has arranged for MCM to provide sub-advisory services to the Funds. MCM is compensated by WTAM at no additional cost to the Funds. WTAM also arranges for transfer agency, custody, fund accounting, fund administration, securities lending and all other non-distribution related services necessary for the Funds to operate, which are generally under separate agreements entered into between the Trust on behalf of the Funds and the applicable service provider. Under the investment advisory agreement for each Fund, WTAM agrees to pay all expenses of the Funds, except for certain expenses described in Note 2.

Pursuant to a separate contractual arrangement, as also described in Note 2, WTAM arranges for the provision of CCO services with respect to each Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and

counsel to the Independent Trustees in exchange for a fee of up to 0.0044% of each Fund's average daily net assets. WTAM expects to receive advisory fees from each Fund, based on a percentage of the Fund's average daily net assets, as shown in the following table:

Fund	Advisory Fee Rate
Asia Pacific ex-Japan Fund	0.48%
China ex-State-Owned Enterprises Fund	0.63%*
Emerging Markets Consumer Growth Fund	0.63%
Emerging Markets ex-State-Owned Enterprises Fund	0.58%

Global ex-U.S. Quality Dividend Growth Fund	0.58%
Global ex-U.S. Real Estate Fund	0.58%
Global High Dividend Fund	0.58%
India Earnings Fund (consolidated)	0.83%
Middle East Dividend Fund	0.88%

* WTAM has contractually agreed to limit the advisory fee to 0.53% per annum based on the average daily net assets through July 31, 2017, unless earlier terminated by the Board of Trustees of the Trust for any reason.

Each Fund may purchase shares of affiliated ETFs in secondary market transactions to reduce cash balances. For these transactions, WTAM waives its advisory fees for each Fund's investment in affiliated funds. The waivers may be reduced to offset the incremental costs related to these investments (fund accounting, safekeeping, transaction fees, etc.) that are paid by WTAM out of its advisory fee. The dollar amount of advisory fees waived during the period for the Funds, if any, are shown in the Statements of Operations.

Affiliated holdings are funds which are managed by, or an affiliate of, WTAM. Transactions with affiliated funds during the six months ended September 30, 2016 are as follows:

4. CAPITAL SHARE TRANSACTIONS

As of September 30, 2016, there were an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in creation units or multiples thereof. Except when aggregated in creation units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for

Edgar Filing: WisdomTree Trust - Form N-CSRS

the purchase of creation units of a Fund generally consists of the in-kind contribution of a portfolio of equity securities and an amount of cash. The India Earnings Fund and Middle East Dividend Fund issue and redeem shares on a

cash basis only. Investors purchasing and redeeming creation units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of creation units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments (excluding purchases and sales resulting from in-kind capital share transactions and short-term investments) and the cost of purchases and the proceeds from sales resulting from in-kind capital share transactions (excluding short-term investments) for the six months ended September 30, 2016 are shown in the following table. Realized gains and losses on sales resulting from in-kind capital share redemptions, as shown on the Statements of Operations, are not recognized by the Funds for tax purposes.

7. MAURITIUS INCOME TAX

The Portfolio holds a tax residency certificate issued by the Mauritian Revenue authorities which entitles it to claim the benefits of the double taxation avoidance agreement entered between the Government of India and Mauritius (tax treaty). Since the India Earnings Fund makes its investments through the Portfolio, a wholly owned subsidiary organized in the Republic of Mauritius, this structure should permit the India Earnings Fund to benefit from the tax treaty. The Supreme Court of India upheld the validity of this tax treaty in response to a lower court

Edgar Filing: WisdomTree Trust - Form N-CSRS

challenge contesting the treaty's applicability to entities such as the Portfolio. In March 2012, the Indian Finance Minister introduced a new chapter to the Indian Income Tax Act, 1961 (IT Act), which included certain General Anti-Avoidance Rules (GAAR). The Finance Act, 2015 (FA 2015) amended the IT Act to defer the applicability of GAAR to financial years beginning on or after April 1, 2017. The Government of India has also committed to grandfather all investments made into India up-to April 1, 2017 from the applicability of GAAR, irrespective of the date of exit of the investments.

Notes to Financial Statements (unaudited) (concluded)

The taxable profits derived from the worldwide income of the wholly owned subsidiary of the India Earnings Fund, i.e. the Portfolio, is subject to income tax at the rate of 15% in the Republic of Mauritius. As with all Mauritian tax residents, the Portfolio is entitled to a foreign tax credit (FTC) on its foreign sourced income. The FTC is based on the lower of the Mauritian tax or the foreign taxes incurred. Where documentary evidence is not available to substantiate the foreign taxes suffered, the FTC can be presumed to be 80% of the Mauritius tax on its foreign source income. The presumed FTC effectively reduces the Mauritian income tax rate on the foreign sourced income of the Portfolio to a maximum of 3%. Interest income on call and deposit accounts with Mauritian banks is exempt from tax, and there is no tax on capital gains in Mauritius. Effective August 8, 2012, in connection with the new advisory agreement, the Mauritius income tax is paid by WTAM.

8. DEMAND NOTE

During the period ended September 30, 2016, the India Earnings Fund had a demand note agreement with Bank of America, N.A. which allowed the Fund to borrow up to \$275,000,000 until the stated maturity date of October 3, 2016. During the period ended September 30, 2016, the Fund utilized the demand note and borrowed for a period of 7 days with an average outstanding loan balance of \$175,957,143 and a weighted average interest rate of 2.74% per annum. Interest expense related to the loan for the fiscal year ended September 30, 2016 was \$92,378. At September 30, 2016, the Fund did not have any amounts outstanding under the demand note agreement.

9. ADDITIONAL INFORMATION

The Board of Trustees, after careful consideration, approved the liquidation of the Commodity Country Equity Fund, the Global ex-U.S. Utility Fund and the Global Natural Resources Fund on September 28, 2016.

The last day of secondary market trading of shares of the Funds on their respective exchanges was September 22, 2016. Shareholders were able to sell Fund shares through a broker in the standard manner through this date. Customary brokerage charges may apply to such transactions. Each Fund was closed to new investors as of September 22, 2016.

Beginning on or about this date, each Fund was in the process of liquidating its portfolio assets. This caused each Fund to increase its cash holdings and deviate from the investment objective and strategies stated in its prospectus. Shareholders remaining in the Funds had their shares automatically redeemed and received cash in an amount equal to the net asset value of their shares as of the close of business on September 28, 2016. This amount included any accrued capital gains and dividends. Shareholders remaining in the Funds were not charged any transaction fees by the Funds.

Whether an investor sold their shares or were automatically redeemed, an investor will generally recognize a capital gain (or loss) equal to the amount received above (or below) the adjusted cost basis in such shares.

Approval of Investment Advisory and Sub-Advisory Agreements (unaudited)

Consideration of the Renewal of Investment Advisory and Sub-Investment Advisory Agreements

At a meeting of the Board of Trustees (the Board or the Trustees) of the WisdomTree Trust (the Trust) held on September 21-22, 2016 (the Meeting), the Trustees, including those Trustees who are not interested persons (as defined in the Investment Company Act of 1940, as amended) of the Trust (the Independent Trustees), considered the renewal of the Investment Advisory Agreements between WisdomTree Asset Management, Inc. (WTAM) and the Trust, on behalf of applicable series herein (each, a Fund, and, collectively, the Funds), pursuant to which WTAM provides the Funds with investment advisory services (the Advisory Agreements), the Sub-Advisory Agreement (the MCM Sub-Advisory Agreement), pursuant to which Mellon Capital Management Corporation (MCM) coordinates the investment and reinvestment of the assets of the Funds, (the Sub-Advisory Agreement, and, collectively with the Advisory Agreements, the Agreements).

The Independent Trustees requested, and WTAM provided, such information as the Independent Trustees, with advice from independent legal counsel, deemed reasonably necessary to evaluate the Agreements. At a meeting of a committee of Independent Trustees (the Contracts Review Committee) held on August 4, 2016, representatives from WTAM presented preliminary information to the Trustees relating to the continuance of the Agreements, and the Trustees, including each of the Independent Trustees, reviewed and discussed such information. Further information was presented at the Board's request at the Meeting.

The Independent Trustees were assisted in their review by independent legal counsel and met with counsel in executive session separate from WTAM representatives and the Sub-Adviser. In considering the renewal of the Agreements, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Trustee may have attributed different weights to the factors considered.

Analysis of Nature, Extent, and Quality of Services Provided to the Funds. The Board considered information provided to them at the Meeting and in previous presentations throughout the year from WTAM representatives regarding the nature, extent, and quality of the services provided to the Funds, recognizing WTAM's and the Sub-Adviser's operational capabilities and resources. The Board also discussed the role of WisdomTree Investments, Inc. (WTI), the parent of WTAM, as index provider to the Funds, which comprise the substantial majority of assets in the WisdomTree fund complex. The Board noted that the strategies represented by Funds tracking affiliated WTI indexes are unique, based on WTI's intellectual property and are only available for use by applicable Funds through WTAM. The Board noted WTAM's belief that shareholders have invested in such Funds on the strength of WTI's intellectual property and WTAM's industry standing and reputation and with the expectation that WTAM will have a continuing role in providing advisory services to the Funds based on the WTI indexes. The Board also noted the extensive responsibilities that WTAM has as investment adviser to the Funds, including: the selection of, and supervisory responsibilities and activities over, the Sub-Adviser, including oversight of the Sub-Adviser's adherence to each Fund's investment strategy and restrictions, monitoring of the Sub-Adviser's buying and selling of securities and derivatives transactions, review of Sub-Adviser performance, review of proxies voted by the Sub-Adviser and oversight of, and the provision of consultation to, the Sub-Adviser with respect to the creation of custom creation or redemption baskets for authorized participants; oversight of the daily valuation of the Funds' portfolio holdings; oversight of general Fund compliance with federal and state laws; and implementation of Board directives as they relate to the Funds. The Board also considered research support available to, and management capabilities of, the Funds' management personnel and that WTAM provides oversight of day-to-day Fund operations, including fund accounting, tax matters, administration and legal assistance in meeting disclosure and regulatory requirements. Based on management's representations, the Board expected that there would be no reduction in the scope of services required by or provided by WTAM and the Sub-Adviser under the relevant Agreements. The Board noted that WTAM has continued to commit significant resources toward the fund complex and has made substantial investments to improve the services offered by WTAM, which benefit Fund shareholders.

Based on review of this information and the other factors considered at the Meeting, the Board concluded that the nature, extent and quality of services provided by WTAM and the Sub-Adviser under the Advisory Agreements and Sub-Advisory Agreement, respectively, are adequate and appropriate and supported the Board's approval of the renewal of the Agreements.

Comparative Analysis of the Funds' Performance and Management Fee and Expense Ratio. The Board reviewed reports prepared by Broadridge Financial Solutions, Inc. (Broadridge), an independent provider of investment company data, which included information (1) measuring each index Fund's performance by how well it tracked the relevant benchmark index, and (2) comparing each Fund's actual management fees and total expenses with those of a group of comparable funds (the Expense Group) and, with respect to total expenses, with a broader group of funds (the Expense Universe), the information for which was derived in part from fund financial statements available to Broadridge as of the date of its analysis. The Contracts Review Committee and the Independent Trustees previously had reviewed and discussed the methodology Broadridge used to select the Expense Groups and Expense Universes. The Board noted that the Expense Groups and Expense

Edgar Filing: WisdomTree Trust - Form N-CSRS

Universes included only pure-index exchange traded funds (ETFs) as comparison funds. The Board also noted that due to the special characteristics of certain Funds, there are limitations in providing comparable funds in the Expense Groups and Expense Universes, and the information in the Broadridge reports may or may not provide meaningful direct comparisons to the Funds.

Table of Contents

Approval of Investment Advisory and Sub-Advisory Agreements (unaudited) (continued)

The Board discussed the Funds' performance, noting that the Funds seek to track their own WisdomTree benchmark index. During the prior year, the Board received periodic reports on the Funds' performance in comparison to their relevant benchmark indexes.

The Board also reviewed the range of actual management fees and total expenses of the Expense Group funds and, with respect to total expenses, Expense Universe funds, as well as the advisory fees and total expenses of certain funds not included in the Broadridge reports that WTAM considers to be significant competitors of the Funds, and discussed the results of the comparisons. With respect to comparisons of actual management fees, the Board noted the Funds' unitary fee structure and that the Expense Groups and Expense Universes generally included both ETFs with and without a unitary fee structure. The Board also noted that certain comparison funds in certain Expense Groups and Expense Universes benefited from waivers of all or a portion of their management fees and reimbursement of certain operating expenses. The Board noted that the total expenses of many of the Funds were within five basis points of the median and average total expenses of the funds in the Funds' respective Expense Groups. In those specific instances where a Fund's total expenses departed more significantly from comparative funds, the Independent Trustees sought explanations from WTAM, which generally attributed the disparities to the limitations within peer data and/or the unique attributes of a Fund or certain comparison funds.

The Board considered the fees to the Sub-Adviser in relation to the fees paid to WTAM by the Funds and the respective services provided by the Sub-Adviser and WTAM. The Board also noted that the Sub-Adviser's fees are paid by WTAM (out of its fee paid by the relevant Funds) and not the Funds. The Board considered the meaningful differences in the services that WTAM provides to the Funds as compared to the Sub-Adviser, including that the role of the Sub-Adviser in making investment recommendations with respect to a Fund tracking an index is a rules-based function, with oversight by WTAM in seeking to ensure compliance with such rules. The Board also considered the entrepreneurial and expense risk borne by WTAM that is associated with Funds' unitary fee structure, which frequently includes minimum fees (such as those to the Sub-Adviser), regardless of whether the asset size of a Fund has grown to a sufficient size.

Based on this review and the other factors considered at the Meeting, the Board concluded that, with respect to each Fund, the Fund's performance, the fees paid to WTAM and the Sub-Adviser and the Fund's total expenses supported the Board's approval of the renewal of the relevant Agreements.

Analysis of Profitability and Economies of Scale. WTAM representatives reviewed the expenses allocated and profit received by WTAM and the resulting profitability percentage for managing each Fund and the aggregate profitability percentage to WTAM for managing the WisdomTree fund complex, and the method used to determine the expenses and profit.

The Board considered the profitability analysis (1) as part of its evaluation of whether the fees under the Agreements bear a reasonable relationship to the mix of services provided by WTAM and the Sub-Adviser, including the nature, extent and quality of such services, and (2) in light of the relevant circumstances for each Fund and the extent to which economies of scale would be realized if the Fund grows and whether fee levels reflect these economies of scale for the benefit of Fund shareholders. WTAM representatives noted that a discussion of economies of scale is predicated on a Fund having achieved a substantial size and that, if a Fund's assets had been decreasing, the possibility that WTAM may have realized any economies of scale would be less. WTAM representatives also noted that, as a result of shared and allocated costs among the WisdomTree funds, the extent of economies of scale could depend substantially on the level of assets in the fund complex as a whole. The Board noted that certain Funds had grown rapidly over a relatively short period of time after longer periods of slow or no growth, during which there were years of losses for WTAM in managing such Funds that had only recently turned profitable and years of substantial cumulative losses to WTAM in managing the fund complex as a whole. WTAM representatives stated that there has been significant volatility in the assets of individual Funds and in the fund complex as a whole over time (including volatility in profitability) and that it was not clear that current asset levels will be maintained. WTAM representatives noted that assets in certain Funds have diminished at times at a rapid rate (including during the last year) and could continue to do so. WTAM representatives also noted that economies of scale currently are shared with the Funds by way of the unitary fee structure of the Trust, as well as through additional investment in the WisdomTree business. The Board noted that the Contracts Review Committee had focused on the issue of economies of scale during its meetings. The Board also noted that it would continue to monitor the sharing of economies of scale, focusing in particular on Funds that have experienced significant asset growth, to determine the appropriateness of adding breakpoints in the future. The Board also considered potential benefits to WTAM and the Sub-Adviser from acting as investment adviser and sub-investment adviser, respectively, and noted that there were no soft dollar arrangements in effect for trading the Funds investments. Based on this review, the Board concluded that the profitability results were consistent with the services rendered and service levels provided by WTAM and the entrepreneurial risk WTAM has undertaken over time.

Edgar Filing: WisdomTree Trust - Form N-CSRS

At the conclusion of these discussions, the Board agreed that it had been furnished with sufficient information to make an informed business decision with respect to the renewal of the Agreements. In evaluating the Agreements, the Board considered the conclusions and determinations discussed above and also relied on its previous knowledge, gained through meetings and other

interactions with WTAM and the Sub-Adviser, of the Funds and the services provided to the Funds by WTAM and the Sub-Adviser. The Board also relied on information received on a routine and regular basis throughout the year relating to the operations of the Funds and the investment advisory and other services provided under the Agreements. In light of the foregoing, the Board, including a majority of the Independent Trustees, determined to approve the renewal of the Agreements.

The WisdomTree Funds are exchange traded funds (ETFs) registered with the United States Securities and Exchange Commission as separate series (Funds) of WisdomTree Trust (Trust). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the Trust. None of the WisdomTree entities are affiliated with Foreside Fund Services, LLC, the Funds distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you cannot invest directly in an index.

There are risks associated with investing including possible loss of principal. Foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country or region may be significantly impacted by events and developments associated with the region which can adversely affect performance. Funds focusing on a single sector and/or smaller companies generally experience greater price volatility. Investments in emerging, offshore or frontier markets are generally less liquid and less efficient than investments in developed markets and are subject to additional risks, such as risks of adverse governmental regulation and intervention or political developments. Inflation protected securities do not eliminate risks associated with inflation or deflation. Investments in currency involve additional special risks, such as credit risk and interest rate fluctuations. Derivative investments can be volatile and these investments may be less liquid than other securities, and more sensitive to the effect of varied economic conditions. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting such issuers. Due to the investment strategy of certain Funds they may make higher capital gain distributions than other ETFs. Please read the Fund s prospectus for specific details regarding the Fund s risk profile.

The Dow Jones Global ex-U.S. Select Real Estate Securities Index is calculated, distributed and marketed by Dow Jones Indexes, a licensed trademark of CME Group Index Services LLC, and has been licensed for use.

Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.

The WisdomTree Dividend ex-Financials Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Dividend ex-Financials Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2016, the Fund's annual expense ratio was 0.38%.**

² WisdomTree Dividend Top 100 Index through May 7, 2009; WisdomTree Dividend ex-Financials Index thereafter.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. The WisdomTree LargeCap Value Fund (the Fund) seeks to track the price and yield performance, before fees and expenses, of the WisdomTree LargeCap Value Index.

The following performance table is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market price return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as

Edgar Filing: WisdomTree Trust - Form N-CSRS

the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2016, the Fund's annual expense ratio was 0.38%.**

² WisdomTree Low P/E Index through June 19, 2009; WisdomTree LargeCap Value Index thereafter.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

Performance data for the most recent month-end is available at www.wisdomtree.com. WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Fund NAV returns are calculated using the Fund's daily 4:00 p.m. NAV. Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market price returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of the Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore, index returns do not reflect deductions for fees or expenses and the index is not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes a shareholder would pay on the sale of Fund shares or on Fund distributions. **As of the Fund's current prospectus dated August 1, 2016, the Fund's annual expense ratio was 0.28%.**

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of cost: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from April 1, 2016 to September 30, 2016.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled **Expenses Paid During the Period 4/1/16 to 9/30/16** to estimate the expenses you paid on your account during the period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.
