Solicitation

The enclosed proxy is being solicited by the Board of Directors of the Corporation. The cost of preparing, assembling and mailing the notice of annual meeting, proxy statement and form of proxy is to be borne by the Corporation. In addition to the solicitation of proxies by use of mail, directors, officers or other employees of the Corporation may solicit proxies personally or by telephone and the Corporation may request certain persons holding stock in their names or in the names of their nominees to obtain proxies from and send proxy material to the principals and will reimburse such persons for their expenses in so doing. The date on which this Proxy Statement and the accompanying form of proxy was first mailed to shareholders was March 14, 2017.

Quorum; Voting

A quorum for the transaction of business at the annual meeting will require the presence, in person or by proxy, of shareholders entitled to cast at least a majority of the votes that all shareholders are entitled to cast on a particular matter to be acted upon at the meeting. Abstentions are counted as shares present for determination of a quorum but are not counted as affirmative or negative votes and are not counted in determining the number of votes cast on any matter. Director nominees with the highest number of votes will be elected. The affirmative vote of a majority of the votes cast by all shareholders entitled to vote on the matter is required for the approval of all other matters.

Shareholders have one vote for each share held.

Revocation of Proxies

The enclosed proxy is revocable at any time prior to the actual voting of such proxy by the filing of a written notice revoking it, or a duly executed proxy bearing a later date, with Richard L. All properly executed proxies delivered to us pursuant to this solicitation will be voted at the meeting in accordance with your instructions, if any.

Eligibility to Vote; Record Date

The securities that can be voted at the annual meeting consist of shares of common stock of the Corporation with each share entitling its owner to one vote on all matters properly presented at the meeting. There is no cumulative voting of shares. The Board of Directors has fixed the close of business on February 28, 2017 as the record date for the determination of shareholders entitled to notice of, and to vote at, the annual meeting. On the record date, there were 15,297,360 shares of common stock then outstanding and eligible to be voted at the annual meeting. As of that date, all executive officers and directors of the Corporation as a group (20 persons) beneficially owned 680,502 shares, or 4.4%, of the total number of outstanding shares.

Procedures

Whether you hold shares directly as a registered stockholder of record or beneficially in street name, you may vote without attending the meeting. You may vote by granting a proxy or, for shares held beneficially in street name, by submitting voting instructions to your broker, bank or other trustee or nominee. In most cases, you will be able to do this by using the internet, by telephone or by mail.

Voting by internet or telephone You may submit your proxy over the internet or by telephone by following the instructions for internet or telephone voting provided with your proxy materials and on your proxy card or voter instruction form.

Voting by mail You may submit your proxy by mail by completing, signing, dating and returning your proxy card or, for shares held beneficially in street name, by following the voting instructions included by your broker or other intermediary. If you provide specific voting instructions, your shares will be voted as you have instructed.

Under current New York Stock Exchange (NYSE) rules, which govern NYSE brokerage members, the proposal to ratify the appointment of independent auditors (Proposal 3) is considered a discretionary item. This means that brokerage firms may vote in their discretion on this matter on behalf of clients who have not furnished voting instructions in accordance with NYSE rules. In contrast, the proposals with respect to the election of directors (Proposal 1), say-on-pay (Proposal 2), and the amendment of our Bylaws to implement a majority vote standard for the election of directors in uncontested elections (Proposal 4), are non-discretionary items. This means brokerage firms that have not received voting instructions from their clients on these matters may not vote on these proposals. These so-called broker non-votes will not be considered in determining the number of votes necessary for approval and, therefore, will have no effect on the outcome of the vote for these proposals.

Obtaining an Annual Report on Form 10-K

The Corporation is required to file an annual report on Form 10-K for the 2016 fiscal year with the Securities and Exchange Commission (SEC). Shareholders may obtain, free of charge, a copy of the Form 10-K by writing to Richard L. Greslick, Jr., Secretary, CNB Financial Corporation, P.O. Box 42, Clearfield, Pennsylvania 16830. PROPOSAL 2. ADVISORY VOTE ON EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act added Section 14A to the Securities Exchange Act of 1934, which requires that we provide our shareholders with the opportunity to approve, on a non-binding advisory basis, the compensation of our named executive officers as disclosed in this Proxy Statement in accordance with the compensation disclosure rules of the SEC.

As described in greater detail under the heading "Compensation Discussion and Analysis," we seek to align the interests of our named executive officers with the interests of our shareholders. Our compensation programs are designed to reward our named executive officers for the achievement of short-term results and long-term growth, while at the same time avoiding the encouragement of unnecessary or excessive risk-taking.

The Corporation is presenting the following proposal, which gives you as a shareholder the opportunity to endorse or not endorse our compensation program for named executive officers by voting for or against the following resolution (a "say-on-pay" vote). While the vote on the resolution is advisory in nature and therefore will not bind us to take any particular action, our Board of Directors intends to carefully consider the shareholder vote resulting from the proposal in making future decisions regarding our compensation program.

RESOLVED, that the shareholders approve, on an advisory basis, the compensation of the Corporation's named executive officers, as disclosed in the Compensation Discussion and Analysis, the compensation tables, and the related narrative executive compensation disclosures contained in the Proxy Statement.

Vote Required

The affirmative vote of a majority of the votes cast by all shareholders entitled to vote on this proposal is required to approve this proposal.

Our Recommendation

The Board of Directors unanimously recommends that shareholders vote FOR the proposal.

PROPOSAL 3. RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board of Directors is responsible for selecting the Corporation's independent registered public accounting firm. At its meeting held on March 8, 2017, the Audit Committee appointed Crowe Horwath LLP ("Crowe") as the independent registered public accounting firm for the 2017 fiscal year. Although shareholder approval for this appointment is not required, the Board is submitting the selection of Crowe for ratification to obtain the views of shareholders. If the appointment is not ratified, the Audit Committee will reconsider its selection.

In making the appointment of Crowe as the Corporation's independent registered public accounting firm for the fiscal year 2017, the Audit Committee considered whether Crowe's provision of services other than audit services is compatible with maintaining independence as our independent auditors and decided that the provision of such services is compatible with maintaining independence.

Vote Required

The affirmative vote of a majority of the votes cast by all shareholders entitled to vote on this proposal is required to approve this proposal.

Our Recommendation

The Board of Directors unanimously recommends that shareholders vote FOR ratification of the appointment of independent auditors.

CONCERNING THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Corporation's independent registered public accounting firm for the fiscal year ended December 31, 2016 was Crowe Horwath LLP. The Audit Committee has selected Crowe Horwath LLP to be the independent registered public accounting firm for the fiscal year ending December 31, 2016. Representatives of Crowe Horwath LLP are expected to be present at the annual meeting to respond to appropriate questions and to make such statements as they may desire, including comments on the financial statements of the Corporation.

Audit Fees. The following table sets forth the aggregate fees billed to CNB Financial Corporation for the fiscal years ended December 31, 2016 and 2015 by the Corporation's independent registered public accounting firm Crowe Horwath LLP.

	December 31,	
	2016	2015
Audit Fees	\$ 362,000	\$ 271,500
Audit-Related Fees		
Tax Fees		
All Other Fees		
	\$ 362,000	\$ 271,500

Audit fees represent fees for professional services rendered by Crowe Horwath LLP in connection with the audit of the Corporation's consolidated financial statements and internal control over financial reporting and reviews of the consolidated financial statements included in the Corporation's quarterly reports on Form 10-Q. Audit fees in 2016 include fees related to audit procedures surrounding the business combination of Lake National Bank and core processing conversion. Audit fees in 2015 also included fees related to consent procedures associated with the Corporation's filing of a registration statement on Form S-3 and additional audit procedures surrounding accounting-related transactions.

Auditor Independence. The Audit Committee of the Board believes that the non-audit services provided by Crowe Horwath LLP are compatible with maintaining the auditor's independence. None of the time devoted by Crowe Horwath LLP on its engagement to audit the financial statements for the year ended December 31, 2016 is attributable to work performed by persons other than full-time, permanent employees of Crowe Horwath LLP. The Audit Committee is responsible for approving any service provided by Crowe Horwath LLP.

PROPOSAL 4: TO AMEND OUR BYLAWS TO IMPLEMENT A MAJORITY VOTE STANDARD FOR THE ELECTION OF DIRECTORS IN UNCONTESTED ELECTIONS, RETAINING A PLURALITY VOTE STANDARD IN CONTESTED ELECTIONS

On February 14, 2016, the Board determined that it would be in the best interests of the Corporation and its shareholders to amend our Bylaws to allow for majority voting in uncontested elections of directors. The Board approved an amendment to our Bylaws to change the standard for the election of directors in uncontested elections from a plurality voting standard to a majority voting standard.

The Board proposes an amendment to our Bylaws to add a new provision changing the standard for the election of directors in uncontested elections from a plurality voting standard to a majority voting standard, and retaining a plurality standard in contested elections. The specific language of the proposed amendment to the Bylaws is set forth as Annex A to this Proxy Statement. Under our current plurality voting standard, a director nominee in a director election can be elected or re-elected with as little as a single affirmative vote, even while a substantial majority of the votes cast are withheld from that director nominee. For example, even if 99% of the shares withhold authority to vote for a candidate, a 1% for vote results in the candidate's election or re-election to the Board. Under the proposed majority voting standard, in uncontested elections a nominee for director would be elected to the Board if the votes cast for such nominee's election exceed the votes cast against such nominee's election. In the event of a contested election, a plurality voting standard will apply to guard against a failed election contest in which no candidate receives a majority of the for votes. The proposed amendment to our Bylaws also sets forth a procedure for the Board to receive and consider resignations for a nominee who is already serving as a director and not elected pursuant to the majority voting standard. Any incumbent director who is nominated for election and fails to receive the required vote for reelection will be required to promptly deliver to the Board an irrevocable offer to resign from the Board. The Board will consider such director's offer to resign, taking into consideration any such factors that the Board deems relevant in deciding whether to accept such director's resignation.

Vote Required

The affirmative vote of a majority of the votes cast by all shareholders entitled to vote on this proposal is required to approve this proposal.

Our Recommendation

The Board of Directors unanimously recommends that shareholders vote FOR amendment of our Bylaws to implement a majority vote standard for the election of directors in uncontested elections.

OTHER MATTERS

The Board of Directors does not intend to bring any other matters before the annual meeting and does not know of any matter which anyone proposes to present for action at the meeting. However, if any other matters properly come before the meeting, the persons named in the accompanying proxy, or their duly constituted substitutes acting at the meeting, will be authorized to vote or otherwise act thereon in accordance with their judgment.

The Corporation believes in the importance of sound and effective corporate governance and has adopted policies and promoted practices which it believes enhance corporate governance of the Corporation.

Board Leadership Structure

The Corporation has elected to have two separate individuals as CEO and Chairman. The Corporation believes that this separation facilitates the independence of the Board and is appropriate for the size and structure of the Corporation.

Risk Oversight

Risk identification and management are essential elements for the successful management of the Corporation. In the normal course of business, the Corporation is subject to various types of risk. These risks are controlled through policies and procedures established throughout the Corporation, which are monitored and reviewed by the Board in accordance with established Corporation policies.

The Corporation's Enterprise Risk Management (ERM) program includes measurement and monitoring of the following risks: credit, market, liquidity, operational, compliance/legal, strategic and reputation. An ERM Risk Assessment Team evaluates, analyzes, and reports annual risk assessment(s) and provides quarterly updates to the ERM Risk Steering Committee, comprised of the Executive Management Team. The Corporation's ERM Board Committee members meet quarterly to review the overall risk profile of the Corporation. The ERM Board Committee met four times during 2016. The ERM Board Committee follows an ERM Policy, Risk Philosophy Statements and Risk Appetite Statements that summarizes the risk appetite of the Corporation as well as the expected reward for the risks.

In addition to the ERM Process, the following risks are specifically addressed as outlined below: market, credit, and liquidity risk.

Market risk is the sensitivity of net interest income and the market value of financial instruments to the direction and frequency of changes in interest rates. Market risk results from various repricing frequencies and the maturity structure of the financial instruments owned by the Corporation. The Corporation uses its asset/liability management policy and systems to control, monitor, and manage market risk. Such policies and systems are monitored by the Management Asset/Liability Committee and by the Asset/Liability Committee of the Board, which meets four times per year.

Credit risk represents the possibility that a customer may not perform in accordance with contractual terms. Credit risk results from loans with customers and the purchase of investment securities. The Corporation manages credit risk by following an established credit policy and through a disciplined evaluation of the adequacy of the allowance for loan losses. Also, the investment policy limits the amount of credit risk that may be taken in the securities portfolio. Such policies and systems are monitored by both the Asset/Liability Committee of the Board and the Loan Committee of the Board, both of which meet four times per year.

Liquidity risk represents the inability to generate or otherwise obtain funds at reasonable rates to satisfy commitments to borrowers and obligations to depositors. The Corporation has established guidelines within its asset liability management policy to manage liquidity risk. These guidelines include contingent funding alternatives. Such guidelines are monitored at least monthly by the Management Asset/Liability Committee and by the Asset/Liability Committee of the Board.

Meetings and Committees of the Board of Directors

The Board of Directors held thirteen meetings during 2016. Fourteen directors attended the 2016 annual meeting of shareholders. Each incumbent director attended at least 75 percent of the aggregate of (i) the total number of meetings held by the Board of Directors during the period that the individual served and (ii) the total number of meetings held by all committees of the Board on which the individual served during the period that the individual served.

The Board of Directors of the Corporation and the Board of Directors of the Bank have a number of joint committees that serve both the Corporation and the Bank. These include an Audit Committee, an Executive Compensation Committee and a Corporate Governance/Nominating Committee.

Audit Committee. The Audit Committee met four times in 2016. The Audit Committee appoints the Corporation's independent registered public accounting firm, reviews and approves the audit plan and fee estimate of the independent registered public accounting firm, appraises the effectiveness of the internal and external audit efforts, evaluates the adequacy and effectiveness of accounting policies and financial and accounting management, approves and evaluates the internal audit function, pre-approves all audit and any non-audit services, and reviews and approves the annual and quarterly financial statements. The Audit Committee has the authority to engage legal counsel or other experts or consultants as it deems appropriate to carry out its responsibilities, at the Corporation's expense. The

members of the Audit Committee are Jeffrey S. Powell, Chairman; Dennis L. Merrey; Robert W. Montler; Joel E. Peterson and Deborah Dick Pontzer. The Corporation's Board adopted a written charter for the Audit Committee on May 3, 2001. The charter is reviewed annually by the Audit Committee and no changes were made in 2016. The charter is available on the Corporation's website at www.cnbbank.bank.

In the opinion of the Corporation's Board, the members of the Audit Committee do not have a relationship with the Corporation or any of its affiliates that would interfere with the exercise of independent judgment in carrying out their responsibilities as directors. None of them is or has for the past three years been an employee of the Corporation or any of its affiliates; no immediate family members of any of them is or has for the past three years been an executive officer of the Corporation or any of its affiliates; and they otherwise meet the standards for independence required by NASDAQ.

The Board has also determined that Mr. Montler qualifies as an audit committee financial expert as such term is currently defined in Item 407(d)(5) of Regulation S-K.

The Audit Committee must pre-approve all permitted non-audit services performed by the Corporation's external audit firm. The Audit Committee may delegate such authority to a subcommittee, provided that any decisions of the subcommittee are presented to the full Audit Committee at its next scheduled meeting.

The Audit Committee has submitted the following report for inclusion in this Proxy Statement:

The Audit Committee has reviewed the audited financial statements for the year ended December 31, 2016 and has discussed them with management. The Audit Committee has also discussed with Crowe the matters required to be discussed by the Public Company Accounting Oversight Board's Auditing Standard No. 16 and by SEC rules. The Audit Committee has received the written disclosures and the letter from Crowe required by applicable requirements of the Public Company Accounting Oversight Board regarding Crowe's communications with the Audit Committee, and has discussed with Crowe their independence. Based on this, the Audit Committee recommended to the Board that the audited financial statements be included in CNB Financial Corporation's Annual Report on Form 10-K for the fiscal year ended December 31, 2016 for filing with the SEC.

Submitted by the Audit Committee:

Jeffrey S. Powell, Chairman	Dennis L. Merrey	Joel E. Peterson
Robert W. Montler	Deborah Dick Pontzer	

This report of the Audit Committee shall not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Exchange Act of 1934 and shall not be deemed filed under that Act.

Executive Compensation Committee. The Executive Compensation Committee consists of the following independent directors as defined by NASDAQ rules: Richard B. Seager, Chairman; Peter F. Smith; Robert W. Montler, Deborah Dick Pontzer, Jeffrey S. Powell and Nicholas N. Scott. The Committee met seven times during 2016. See Compensation Determination Process for more information about the Executive Compensation Committee.

Corporate Governance/Nominating Committee. The Corporate Governance/Nominating Committee met two times during 2016. The Committee consists of the following independent directors as defined by NASDAQ rules: Peter F. Smith, Chairman; Deborah Dick Pontzer; Jeffrey S. Powell; James B. Ryan; and Robert W. Montler. The Committee was established by resolution of the Board of Directors and recommends to the Board candidates for nomination for election to the Board of Directors. Any shareholder who wishes to have the Committee consider a candidate should submit the name of the candidate, along with any biographical or other relevant information that the shareholder wishes the Committee to consider and the consent of such candidate evidencing his or her willingness to serve as a director, to the President of the Corporation at the address appearing on the Notice of Annual Meeting no later than November 13, 2017. All recommendations are subject to the process described below.

The Committee has the responsibility of reviewing and evaluating candidates for election or appointment to the Board of Directors and compares candidates to the current Board to ensure that the Board has a diverse group of individuals through different professions, experience, education or skill. The process utilized by the Committee to recommend a candidate consists of first reviewing formal expressions of interest by interested individuals which have been communicated to the Committee. In addition, the Committee obtains input from shareholders, directors and management regarding other potential candidates who have not indicated an interest in a Board position.

Utilizing the selection criteria set forth below, the Committee selects a candidate and then conducts an interview in order to further evaluate the individual. Subsequent to the interview the Committee meets to determine whether to recommend the candidate to the Board of Directors for election or appointment. The Board of Directors, exclusive of non-independent directors, either accepts or rejects the Committee's recommendation.

The Committee utilizes various selection criteria to evaluate a candidate for election or appointment to the Board of Directors including, among others, the following minimum criteria:

1. Residency within the market area of CNB Bank.
2. Ability and willingness to commit time necessary to fulfill Board and committee duties.
3. Strong interest in or familiarity with the financial services industry.
4. Successful career in a business or profession suitable to our business plan within the Bank's market area.
5. Character and reputation.

No incumbent director may be nominated without approval of at least 25% of the existing directors and no person not then a director may be proposed for nomination without approval of at least two-thirds of the directors. The Bylaws provide that any director, upon first being appointed or elected to serve as a director, must own the lesser of 1,000 unencumbered shares of common stock of the Corporation or the number of shares equivalent to \$15,000 of market value as of the date of the appointment or election. Further, on or before the third anniversary of the director's first election to the Board, the director must own at least the lesser of 2,500 unencumbered shares of common stock of the Corporation or the number of shares equal to \$25,000 of market value.

Directors Peter F. Smith, Joseph B. Bower, Jr. and Richard L. Greslick, Jr. are ex-officio members of all committees if not otherwise named, except the Audit, Corporate Governance/Nominating, and Executive Compensation Committees as to Mr. Bower and Mr. Greslick.

The Corporate Governance/Nominating Committee has a charter, a copy of which is available on the Corporation's website at www.cnbbank.bank.

Communications with Directors

Any shareholder who wishes to communicate with the directors (or with any individual director) should send a letter to the directors as follows: ATTN: Corporate Secretary Communication to Directors, CNB Financial Corp., PO Box 42, Clearfield, PA 16830-0042. The Corporate Secretary will regularly forward all such correspondence to the directors.

Director Attendance at Annual Meetings

The Corporation typically schedules a meeting of the Board of Directors in conjunction with the annual meeting and expects that the members of the Board of Directors will attend the annual meeting, absent a valid reason, such as a previously scheduled conflict. Fourteen of the individuals then serving as directors attended the annual meeting in April 2016.

Director Education

In 2016, the entire Board of Directors attended two training sessions. The first training session was conducted in April 2016 and focused on corporate governance for financial institutions, including the roles and responsibilities of proxy advisory firms. The second training session was conducted in October 2016 and included segments about cybersecurity, fraud prevention, and strategic technology initiatives with the Corporation's outsourced core processor. In addition, individual board members periodically attend specialized industry conferences based on their committee assignments and training needs that are identified through the board's self-assessment process.

COMPENSATION OF DIRECTORS

Director fees are reviewed annually by the Executive Compensation Committee for recommendation to the Board. The Committee reviews relevant peer group data similar to that used in the executive compensation review. The Committee believes that appropriate compensation is critical to attracting, retaining and motivating directors who have the qualities necessary to direct this Corporation and who meet the guidelines referred to under Corporate Governance/Nominating Committee. In addition, the Executive Compensation Committee annually recommends an equity award of CNB Financial Corporation common stock for directors who have served at least one year on the Board. The equity awards vest ratably over a three year period.

Stock Ownership Policy

In 2016, the Board of Directors adopted Stock Ownership Guidelines for directors of the Corporation and CNB Bank because it believes that it is important for the Corporation's future success that directors own and hold a minimum number of shares of common stock of the Corporation in order to further align their interests and actions with the interests of the Corporation's shareholders. The Stock Ownership Guidelines require directors of the Corporation and CNB Bank and our regional bank presidents to own at all times during the period of their directorship a number of shares of the Corporation's common stock with a market value equal to 500% or more of the director's annual retainer for serving on both the CNB Bank and CNB Financial Corporation boards of director. This ownership threshold must be met within five years of a director joining the board. Compliance with this policy is monitored and reported to the Board of Directors by the Corporation's President & CEO.

- (1) Reflects the aggregate grant date fair value of shares restricted stock awarded under the 2009 Stock Incentive Plan valued at the dollar amount recognized for financial reporting purposes in accordance with the ASC Topic 718.
- (2) Does not include director contributions to the Directors Deferred Compensation Plan. Mr. Merrey and Mr. Powell have participated in this deferred compensation plan for several years and the value of the deferred compensation units that each had accumulated was solely based on the value of CNB Financial Corporation common stock. As a result, their change in value during 2016 was significantly higher than prior years due to the change in stock price from \$18.03 at December 31, 2015 to \$26.74 at December 31, 2016.

The Corporation has established a deferred compensation plan for its non-employee directors which provides for the deferral of up to 100% of director compensation. All deferred compensation is a general liability of the Corporation and Bank. Any appreciation or depreciation in each participant's account value will reflect the performance of the underlying investments. Deferred compensation will serve as a funding source for a Rabbi trust. Investments are expected to closely match the appreciated or depreciated liability. Distributions are received in lump sum or annuity upon normal retirement, death, or disability. Any variance will be adjusted by an expense or gain to the Corporation or Bank. The plan provides tax advantages to the participants and participation in the plan further aligns the interests of participants with those of our shareholders. Accounting treatment for this plan is subject to the Accounting Standards Codification Topic 718.

The Corporation has also established a Survivor Benefit Plan for the benefit of non-employee directors. The purpose of the plan is to provide a \$100,000 to \$150,000 (amount varies by participant) life insurance benefit to designated beneficiaries if a participant dies while serving as a director of the Corporation or, in the case of a non-employee directors who has served as a director of the Corporation for ten or more years (or attain age 70 while serving as a director), following such non-employee director's termination of service. The plan is considered an unfunded plan for tax and ERISA purposes and all obligations arising under the plan are payable from the general assets of the Corporation. Messrs. Bower, Falger and Greslick are ineligible to participate in the plan.

Compensation Discussion and Analysis

This discussion and analysis focuses on the Corporation's Executive Officers, who are named in the tables below and who are referred to as our NEOs. We summarize our philosophy, the strategy and the major details of the Corporation's approach to compensating our NEOs.

Executive Summary

The Strategic Planning Committee of CNB Financial Corporation met on October 25, 2016 to review the progress that the Corporation has made toward achieving its strategic goals that were developed in 2015 in conjunction with the preparation of the Corporation's strategic plan for 2016-2018. This strategic plan guides our business goals and measures for success. Most importantly, the plan describes the strategic goals and initiatives set forth by the Board of Directors.

The foundation of the Corporation's strategic plan is premised on implementation of strategies that will address four major constituent groups:

Community The Corporation will invest in and provide visible leadership in all communities it serves.

Customers The Corporation will provide exceptional personal service and a competitive menu of products for its customers.

Co-Workers The Corporation will provide an enjoyable work environment with competitive compensation and benefits.

Shareholders The Corporation will provide returns to shareholders through targeted returns on average assets and average equity.

During 2016, the Corporation executed its strategy related to our goals for:

Leadership in Local Communities A differentiating factor is the Corporation's level of investment and leadership in local communities. Within each of our market areas, the Corporation developed key community initiatives which were incorporated into our annual budget.

Exceptional Customer Service In order to differentiate from the competition, the Corporation must provide consistently exceptional customer service which in turn will lead to positive customer experiences. An enterprise-wide customer experience plan has been adopted and implemented.

Employee Development A critical component of workplace culture and employee satisfaction is the continued training and development of staff. This is a major initiative of the Corporation's human resources department throughout our strategic planning period. In 2016, we continued with the implementation of CNB Leadership Institute, a two-year customized leadership program for twenty staff members.

A Consistent Approach to Growth The Corporation proactively evaluates targets for de novo and/or acquisition potential. This includes both geographical areas and financial institutions. In 2016, the Corporation acquired Lake National Bank in Mentor, Ohio and started a new division in Buffalo, New York known as Bank on Buffalo. In 2017, the Corporation will continue to operate as CNB Bank, ERIEBANK, FCBank, and Bank on Buffalo. Each market will have a unique marketing and growth strategy with operational support from the CNB Bank support staff but will be led by market presidents.

A Solid Foundation of Technology Deeply entwined in every aspect of our service model is the need for current technology. Strategically, the Corporation needs to be at or ahead of the competition in our delivery of products and in the delivery of functionality for our core customer base. In 2016, the Corporation executed a conversion of its core processing system in order to produce technological enhancements to our customers and achieve greater operational efficiency.

Provided below are key Corporation performance highlights for 2016:

Loans of \$1.87 billion as of December 31, 2016, including loans acquired from Lake National Bank, which closed in July 2016, of \$122.3 million, compared to loans of \$1.58 billion as of December 31, 2015. Organic loan growth in 2016 was 10.6%.

Deposits of \$2.02 billion as of December 31, 2016, including deposits acquired from Lake National Bank of \$139.8 million, compared to deposits of \$1.82 billion as of December 31, 2015. Organic deposit growth in 2016 was 3.2%.

Net interest margin on a fully tax-equivalent basis of 3.78% for the year ended December 31, 2016, compared to 3.73% for the year ended December 31, 2015.

Net income of \$20.5 million, or \$1.42 per share, in 2016, compared to net income of \$22.2 million, or \$1.54 per share, in 2015. Return on average assets and equity was 0.85% and 9.59% in 2016, compared to 0.99 and 11.23% in 2015.

Non-performing assets of \$16.4 million, or 0.64% of total assets as of December 31, 2016, compared to \$13.2 million, or 0.58% of total assets, as of December 31, 2015.

Total shareholder return of 53.4% for the year ended December 31, 2016.

The Corporation made numerous enhancements to its core processing technology and infrastructure in 2016 to support our continued growth, resulting in a decline in net income when compared to 2015. Included in non-interest expenses in 2016 are \$3.7 million of non-recurring items, with costs associated with our core processing system upgrade of \$1.7 million, merger related expenses of \$486 thousand, and a prepayment penalty associated with the early payoff of long-term borrowings of \$1.5 million. Costs for similar items in 2015 totaled \$416 thousand in the aggregate. With the

majority of our infrastructure projects now completed, the Corporation is poised to direct our efforts toward increased profitability and more favorable returns on average equity and assets.

Say on Pay Results

At the 2016 annual meeting of shareholders, 7,542,283 shares, or 81.5% of shares voted excluding broker non-votes, approved, on an advisory basis, the compensation paid to the Corporation's named executive officers as disclosed in the Corporation's proxy statement for that annual meeting. The Executive Compensation Committee of the Board of Directors (ECC) considered this feedback during 2016, resulting in several enhancements to our executive pay program and policies. The Corporation has an annual say-on-pay vote as approved by the shareholders.

After the 2016 shareholder meeting, the Corporation's President & CEO, Senior Executive Vice President & COO, and Executive Vice President & CFO conducted an institutional shareholder outreach program as directed by the Board of Directors. Shareholders contacted represented 35% of all outstanding shares and 92% of shares that were institutionally held. Through conversations held with institutional shareholders who responded to the Corporation's request, management received feedback surrounding implementing performance awards in the long-term incentive plan, majority voting and declassification of the board, and proxy access. The ECC and Board of Directors considered this feedback when designing 2017 executive compensation programs and evaluating governance matters for inclusion in the proxy statement. For additional information surrounding the compensation changes made in response to this shareholder outreach, see the section titled 2017 Compensation Program Changes in Response to Shareholder Feedback.

In late 2016, in consideration of this feedback, the ECC approved incorporating a performance-based component to the long-term incentive program for the CEO that places a significant portion of long-term incentive based on three-year performance. In addition, the ECC implemented stock ownership guidelines to reinforce our goals for executives and directors to have and retain significant stock ownership.

Compensation Philosophy

The ECC defines and has oversight for our executive compensation philosophy.

The ECC's expectation is that our senior management team should drive performance and produce appropriate returns for shareholders. To achieve that goal, our executive compensation is benchmarked, both as to pay and as to performance, and designed with a focus on performance-based pay. We target our compensation program to be consistent with the median pay of financial institutions of similar size, region, and complexity. Our programs are designed to provide variable rewards that will reward for performance.

Compensation Objectives

The primary objectives of the executive compensation program are to:

Attract, retain, and motivate key executives to produce above average operating and shareholder results for the Corporation;

Align the financial interest of the NEOs and shareholders through incentive-based compensation; and

Provide a total compensation program that recognizes individual contributions as well as overall business results.

These key objectives are linked to our compensation program as described in the table that follows:

Key Objectives	How our Compensation Program Supports this Objective
Attract, retain, and motivate key executives to produce above average operating and shareholder results for the Corporation	Provide competitive total compensation opportunities that target pay at median (for median performance) and the ability to pay above market for driving above average results (or below market for sub-par performance) Long-term incentive awards provide retention through multi-year vesting
Align the financial interest of the NEOs and shareholders through incentive-based compensation	Provide incentives that are tied to our business plans and motivate performance that drives shareholder value All NEOs have minimum stock ownership requirements Introduced (in 2017) a new performance-based component to the long-term incentive program for the President & CEO
Provide a total compensation program that recognizes individual contributions as well as overall business results	Each NEO incentive plan is customized to correlate to elements of growth, profitability, and asset quality that the NEO can control through day-to-day business decision and execution of strategic plans All NEO incentive plans include a common component for return on average equity in relation to the median of the Corporation's peer group

Compensation Elements

Our executive compensation program is designed to be simple, straightforward and fair, and consists of the following elements:

Base salary;

Annual incentives;

Long-term incentives (stock); and

Benefits

Target Pay and Mix for Compensation Elements

The ECC reviews both total compensation and each element of compensation when making pay decisions and recommendations to our Board. Although actual compensation can be above or below targets based on individual and Corporation performance, retention considerations and executive experience, we generally target base compensation within a reasonable range of the 50th percentile of the market.

In allocating compensation among these elements, our program is designed to provide a balance of:

Fixed and variable / performance-based compensation;

Cash and equity compensation; and

Compensation designed to encourage:

Short-term (annual) and long-term (multi-year) performance;

Performance of corporate strategic goals, shareholder value, and individual contributions; and

Absolute performance (our own goals) and relative performance (compared to industry).

This balanced approach helps to mitigate the influence of any one element of compensation which might be considered to drive excessive risk taking.

Compensation Highlights

Summarized below are highlights with respect to executive compensation in 2016:

Continued to measure both absolute and relative performance in our annual bonus (helping to ensure a more balanced and risk appropriate program)

Continued to provide a significant portion of executive compensation in incentive-based pay (helping to ensure a pay-for-performance alignment)

Made stock-based grants to select executives to help retain and align the executives with the long-term interests of the Corporation and shareholders

With the assistance of an independent consultant, examined the competitiveness of executive compensation to ensure it meets our objectives of attracting, retaining and motivating executives

Compensation Determination Process

The Role of the Executive Compensation Committee

The ECC is composed of six non-employee, independent directors (as defined in the NASDAQ Corporate Governance Rules) selected from the Board of Directors of the Corporation.

The ECC has the overall responsibility for reviewing, establishing, and administering policies which govern NEO compensation programs. It determines the compensation of the NEOs for recommendation to the entire Board. In discharging these responsibilities, the ECC seeks to maintain a position of equity with respect to the balancing of interests of the shareholders with those of the NEOs.

The ECC has a charter, a copy of which is available on the Corporation's website at www.cnbbank.bank. The ECC meets regularly regarding compensation issues and regularly receives input from its independent compensation consultant.

The Role of the Compensation Consultant

The ECC has the sole authority to retain and terminate a compensation consultant and to approve the consultant's fees and all other terms of the engagement. The ECC has direct access to outside advisors and consultants throughout the year.

Through early 2016, the ECC continued to retain the services of Meyer-Chatfield Compensation Advisors (M-C). In May, the ECC engaged Meridian Compensation Partners, LLC (Meridian), an independent compensation consulting firm with specialization in the banking industry, to assist the ECC through the second half of the year. Meridian worked with the ECC to conduct executive benchmarking, review market trends and best practices and to assist with the development of a new 2017 performance-based long-term incentive plan for the President & CEO. Both consultants reported directly to the ECC and carried out its responsibilities as assigned by the ECC. The ECC reviewed both M-C and Meridian relative to the NASDAQ independence standards and has both advisors to be independent and identified no conflicts of interest.

The Role of Management

At the request of the ECC, NEOs of the Corporation may be present at ECC meetings for discussion purposes, except that the President & CEO may not be present during any voting or deliberations of the ECC concerning his compensation. Other NEOs are also not present during deliberations on their compensation. The NEOs have no involvement in the decisions made by the ECC, nor do they have a vote on any matters brought before the ECC.

The ECC meets with the President & CEO to discuss his input on performance and compensation recommendations for his reports, but ultimately decisions regarding other NEOs are made solely based upon the ECC's deliberations, as well as input from the compensation consultant, as requested. The ECC considers feedback from the President & CEO, as well as input from the compensation consultant as requested, to make decisions regarding the compensation of the President & CEO.

Competitive Benchmarking

On an annual basis, the ECC reviews competitive market data and conducts a comprehensive compensation assessment. To assist in making compensation decisions in 2016, M-C was engaged by the ECC to conduct a comprehensive review of our NEO total compensation program. The purpose of the review was to provide an independent and objective analysis of all elements of compensation (individually and in aggregate) relative to market

and peer group practices. An assessment of the pay mix and the pay for performance relationship were also presented to the ECC.

The primary data source used in examining the competitive market for the NEOs is information publicly disclosed by a peer group of other publicly traded financial corporations. A peer group was developed by M-C using objective parameters that reflect banks of similar size, geographic region, and business model (factors that influence NEO compensation in banks). M-C excluded banks in large metropolitan areas as they are not similar to the Corporation. The peer group was approved by the ECC. Peer groups are reviewed and updated as appropriate, since the comparable banks may change depending on acquisitions and business focus of the bank or our peer institutions. Overall, the goal is to have 18 to 24 comparative financial corporations that approximate our asset size and region and provide a market perspective for NEO total compensation.

The following 18 financial institutions comprise the peer group used in the 2016 review:

Arrow Financial Corporation	First Defiance Financial	Lakeland Financial Corp.
Bridge Bancorp	First Financial Corp.	Metro Bancorp Inc.
City Holding Co.	First of Long Island Corp.	Peoples Bancorp, Inc.
Enterprise Financial Services	Horizon Bancorp	Seacoast Banking Corp. of FL
Financial Institutions, Inc.	Kearny Financial Corp.	Suffolk Bancorp.
First Community Bancshares, Inc.	Lakeland Bancorp	Univest Corporation of Pennsylvania

In addition to the peer group data, the consultant used survey sources to identify general compensation trends. The data reflected banks representing similar asset size and region to the Corporation.

In the fall of 2016, the ECC engaged Meridian to conduct a comprehensive competitive analysis to assess the competitiveness of the total compensation program and assess pay for performance relationship. This analysis was used for 2017 pay decisions and as a basis for developing the President & CEO's performance based LTI program (described under 2017 Compensation Program Changes in Response to Shareholder Feedback).

2016 Compensation Program and Pay Decisions

The Corporation's compensation program consists of four elements: base salary, annual incentives, long-term /stock-based compensation, and benefits. The following section summarizes the role of each element, how decisions are made and the resulting 2016 decision process as it relates to our NEOs.

Base Salary

The Corporation believes that a competitive base salary is essential to hire and retain NEOs and that it should provide competitive fixed pay related to the role and contribution of the executive

Our compensation consultant provides competitive market data based on its competitive assessment considering a composite of market data from the custom proxy peer group as well as other data sources of banking compensation information. The ECC uses this data to provide reference for making base salary decisions for each NEO. The ECC targets market median but considers each executive's specific role, experience, contribution and performance in setting base salaries.

In December of each year, the ECC reviews and sets each NEO's base pay to reflect competitive market conditions, individual experience, expertise, and performance. Input from the President & CEO is considered in setting the salaries of other NEOs while the ECC is solely responsible for determining the President & CEO's salary.

In December 2015, the ECC reviewed the NEOs' salaries considering the market range for the positions and the relative salaries of the executive team, as well as competitive market data, individual performance and contributions. Salary adjustments for 2016 were made for the NEOs in December 2015, to closer align the executives with the Bank's compensation philosophy. The 2016 salary adjustments were as follows:

Named Executive Officer	Title	2015 Salary	% Increase	2016 Salary
Joseph B. Bower, Jr.	President & Chief Executive Officer	\$ 458,000	6%	\$ 485,000
Brian W. Wingard	Executive V.P. & Chief Financial Officer	\$ 210,000	7%	\$ 224,000
Richard L. Greslick, Jr.	Senior Executive V.P. & Chief Operating Officer	\$ 221,000	10%	\$ 243,000
Mark D. Breakey	Senior Executive V.P. & Chief Credit Officer	\$ 211,000	6%	\$ 224,000
Joseph E. Dell, Jr.	Senior Executive V.P. & Chief Commercial Banking Officer	\$ 211,000	9%	\$ 230,000

Annual Incentives

The primary objective of our annual incentive program is to motivate and reward key members of management for achieving specific corporate, department, and individual goals that support our strategic plan. Through our 2016 NEO Incentive Plan, we offer a select group of key executives, whose efforts largely determine the achievement of corporate goals and objectives, an annual cash incentive opportunity. For each NEO, there are individual and group objectives, as well as relative and absolute metrics, which vary among executives according to their areas of responsibility.

Edgar Filing: CNB FINANCIAL CORP/PA - Form DEF 14A

The 2016 NEO annual incentives are outlined in the table below. For NEOs other than the President & CEO, the ECC sets goals and payout ratios based on recommendations by the President & CEO. The President & CEO's goals and payout ratios are determined by the ECC. The annual incentive for all NEOs is capped at 40% of base salary.

The following notes describe each of the relative and absolute metrics from the table. The metric type is keyed to the notes by the number in parenthesis.

- (1) **Relative metric** The median return on average equity (ROAE) for the most recent 12 month period of the peer group described under the competitive benchmarking header is calculated. If the Corporation's ROAE exceeds the median of the peer group by 30 basis points, 5% of the eligible incentive for the ROAE category is earned. The ROAE incentive is maximized when the Corporation's ROAE exceeds the median of the peer group by 200 basis points. The incentive percentage earned between 30 basis points and 200 basis points is interpolated. For 2016, the NEOs earned 25.9% of the eligible ROAE incentive, based on a result that exceeded the median of the peer group by 44 basis points.
- (2) **Relative metric** The average non-performing assets ratio for the most recent quarter end of the peer group described under the competitive benchmarking header is calculated. If the Corporation's non-performing assets ratio is equal to or better than the peer group, 25% of the eligible incentive is earned. The non-performing assets ratio incentive is maximized when the Corporation's ratio is less than 50% of the peer average, with opportunities to earn 50% and 75% of the eligible incentive if the Corporation's ratio is less than 80% and 65%, respectively, of the peer average. For 2016, the NEOs earned 25% of the eligible non-performing assets ratio incentive, based on a result that was 88% of the peer average.
- (3) **Absolute metric** FCBank is a division of CNB Bank and, given the Corporation's strategic focus on growing loans in this division, a 2016 incentive was included whereby 50% of the eligible incentive would be earned by meeting the division's loan budget of \$360 million. In addition, 25% of the eligible incentive would be earned if 90% of the budgeted loan growth was achieved, and 75% and 100% of the eligible incentive would be earned by achieving 102.5% and 105.0%, respectively, of the budget target. For 2016, the NEOs earned 50% of the eligible FCBank loan growth incentive by achieving 102.3% of the budgeted loan growth.
- (4) **Absolute metric** The Corporation's consolidated loan growth target for 2016 was \$1,728,342,000. The 2016 consolidated loan growth incentive was based on a 50% payout of the eligible incentive for achieving the target, with 25% of the eligible payout for achieving 97.5% of the target and 75% and 100% payout for achieving 102.5% and 104.0%, respectively, of the budget target. For 2016, the NEOs earned 50% of the eligible consolidated loan growth incentive by achieving 101.8% of the budgeted loan growth.
- (5) **Absolute metric** The Corporation's nonpersonal deposit target for 2016 was \$708,480,000, excluding nonpersonal deposits acquired in connection with the merger of Lake National Bank in the third quarter of 2016. The 2016 nonpersonal deposit growth incentive was based on a 50% payout of the eligible incentive for achieving the target, with 25% of the eligible payout for achieving 97.5% of the target and 75% and 100% payout for achieving 102.5% and 105.0%, respectively, of the budget target. For 2016, the NEOs earned 75% of the eligible consolidated nonpersonal deposit growth incentive by achieving 104.1% of the budgeted nonpersonal deposit growth.
- (6) **Absolute metric** The Corporation's consolidated loan loss target for 2016 was 0.25% of the average consolidated loan balance. The 2016 consolidated loan loss incentive was based on a 50% payout of the eligible incentive for achieving the target, with 25% of the eligible payout for achieving between 0.25% and

0.30% of the target and 75% and 100% payout for achieving between 0.20% and 0.25% less than 0.20%, respectively, of the budget target. For 2016, the NEOs earned 25% of the eligible consolidated loan loss incentive by achieving losses of 0.265% of the average consolidated loan balance.

- (7) **Absolute metric** CNB Bank's loan loss target for 2016 was 0.25% of the bank's average loan balance. The 2016 bank loan loss incentive was based on a 50% payout of the eligible incentive for achieving the target, with 25% of the eligible payout for achieving between 0.25% and 0.30% of the target and 75% and 100% payout for achieving between 0.20% and 0.25% and less than 0.20%, respectively, of the budget target. For 2016, the NEOs earned 100% of the eligible bank loan loss incentive by achieving losses of 0.098% of the average consolidated loan balance.
- (8) **Absolute metric** CNB Bank's loan delinquency target for 2016 was 1.15% of the bank's loan balance at year end. The 2016 bank loan delinquency incentive percentage was based on a 50% payout of the eligible incentive for achieving the target, with 25% of the eligible payout for achieving a delinquency percentage of 1.40% and 75% and 100% payout for achieving delinquency percentages of 1.00% and 0.75%, respectively. For 2016, the NEOs earned 100% of the eligible bank loan loss incentive by achieving a loan delinquency percentage of 0.66% for CNB Bank.
- (9) **Absolute metric** CNB Bank's target for number of households served as of December 31, 2016 was an increase of 1.25% over the number of households served as of December 31, 2015. The household growth incentive percentage was based on a 50% payout of the eligible incentive for achieving the target, with 25% of the eligible payout for achieving a household growth of 1.0%, and a 75% and 100% payout for achieving household growth of 1.50% and 2.0%, respectively. For 2016, the NEOs earned 100% of the eligible household growth incentive by achieving household growth of 5.0%.
- (10) **Relative metric** The Corporation's efficiency ratio is the total non-interest expenses divided by net interest income plus non-interest income, excluding realized and unrealized gains and losses on investment securities. If the Corporation's efficiency ratio is lower than the 30th percentile of the peer group described under the competitive benchmarking header, at least 25% of the eligible incentive is earned. The eligible incentive earned increases to 50% if the Corporation's efficiency ratio is lower than the 27.5th percentile of the peer group, 75% if lower than the 25th percentile, and 100% if lower than the 22.5th percentile. For 2016, the NEOs did not earn any of the eligible efficiency ratio incentive since the Corporation's efficiency ratio was in the 55th percentile.
- (11) **Absolute metric** The Corporation's non-interest income ratio is the non-interest income as described in note 10 above divided by average assets. The Corporation's target non-interest income ratio was 0.64% for the year ended December 31, 2016. The non-interest income incentive percentage was based on a 50% payout of the eligible incentive for achieving the target, with 25% of the eligible payout for achieving a non-interest income ratio of 0.60% and a 75% and 100% payout for achieving a non-interest income ratio of 0.68% and 0.70%, respectively. For 2016, the NEOs earned 50% of the eligible non-interest income ratio incentive by achieving a ratio of 0.67%.

Long-Term Incentives

We believe that our NEOs should be invested in the Corporation and share the risks and rewards of all shareholders. The purpose of the Corporation's stock-based compensation program is to align NEOs with the long-term interests of the Corporation and shareholders, encourage stock ownership, and enhance our ability to retain top performers.

During 2016, the ECC used the award of restricted common stock under the 2009 Stock Incentive Plan to recognize and reward executives for their performance and contribution to our success and to support our retention goals through vesting over four years. We believe this strategy establishes a tie to the shareholders as well as provides for the retention of our NEOs.

Decisions regarding the size of stock-based awards are made by the ECC after careful consideration of corporate and individual performance, market data, retention considerations, impact on dilution, and existing equity holdings of each NEO. We will not time or select the grant dates of any stock-based awards in coordination with our release of material non-public information, nor will we have any program, plan or practice to do so.

The long-term incentive grants awarded in February 2016 are summarized below. All shares vest equally over four annual installments.

Named Executive Officer	Restricted Stock Award		Restricted Stock Award	
	# of Shares	Value (1)	% of Base Salary	
Joseph B. Bower, Jr.	4,250	\$ 74,928	15%	
Brian W. Wingard	2,600	\$ 45,838	20%

Joseph E. Dell, Jr.	2,700	\$ 47,601	21%	

(1) Restricted stock award value computed using the closing price on the date of the award multiplied by the number of shares awarded.

Benefits

The Corporation maintains a 401(k) Savings Plan to help retain employees and provide for their retirement. Further information is provided under the Retirement Plan header.

We believe that the Corporation's non-qualified deferred compensation plans are an important element in retaining NEOs, as well as assisting them provide for retirement. For that reason, we provide:

The Supplemental Executive Retirement Plan (SERP) Certain NEOs participate in a SERP, which is designed to attract and retain qualified and experienced executive officers. Each SERP is embodied in an agreement between the Bank and the respective NEO. The narrative that follows the Pension Benefits Table contains a detailed description of the SERP.

The Executive Deferred Compensation Plan NEOs can participate in the plan, which allows them to defer up to 75% of base compensation and 100% of annual incentive compensation until a date in the future, generally, upon termination of employment. If 100% of incentive compensation is deferred, the executive is responsible for payment of applicable payroll taxes. At the election of the plan participant, all of a portion of the deferrals can be deemed to be invested in Corporation common stock, and the proportionate value of a participant's account generally tracks the performance of actual common stock. The Corporation provides no inducement (match or discretionary contribution) for NEOs who participate but believes that having this phantom stock option available helps align the interest of participants with that of shareholders by focusing on the Corporation's long-term performance.

The Corporation provides select executives with perquisites that the ECC believes are reasonable and consistent with its overall compensation philosophy and consistent with standards that are customary in the financial services industry. Specifically, the Corporation provides Messrs. Bower, Dell and Greslick the use of a vehicle as well as payment of club dues, both of which are included in taxable income. The Corporation also provides payment of club dues for Messrs. Wingard and Breakey, which are included in their taxable income. The ECC believes that these perquisites assist the NEOs in the performance of their respective job duties by providing greater opportunities to develop and expand business contacts.

The ECC believes that the Corporation's continued success depends, to a significant degree, on the skills and competence of certain members of our executive management team. The Corporation and the Bank have entered into executive employment contracts with Messrs. Bower, Greslick, and Wingard, and the Bank has entered into executive employment contracts with Messrs. Breakey and Dell (collectively, the Employment Contracts). These Employment Contracts are intended to ensure that the Corporation and the Bank will continue to maintain and retain experienced executive management.

The term of the Employment Contract for Mr. Bower is January 1, 2016 to December 31, 2018 and provides that it may only be extended by affirmative action of the board, while the Employment Contracts for Messrs. Greslick, Wingard, Dell and Breakey provide that the contract shall automatically renew for successive terms of one year unless either party gives the other party ninety days written notice of his or its intent not to renew the contract prior to the end of the then current term. The current terms of the Employment Contracts for Messrs. Greslick, Wingard, Dell, and Breakey expire on December 31, 2017.

The Employment Contracts provide for a base salary to be established annually by the Board of Directors and for annual increases, stock, stock options/rights and bonuses as may from time to time be awarded by the Board of Directors. The Employment Contracts also provide certain fringe benefits, including a family country club membership for each of Messrs. Bower, Breakey, Greslick, Wingard and Dell (the Senior Executives), as well as an automobile for Messrs. Bower, Greslick and Dell. Each Employment Contract contains a covenant not to compete against the Corporation and the Bank, their parent, affiliates or subsidiaries during the term of employment and thereafter until the earlier of (i) the third anniversary of the executive's termination of employment or (ii) the date of a change in control of the Corporation or the Bank. In addition, each Employment Contract contains a covenant to protect the Corporation's and the Bank's confidential information.

The Employment Contracts also provide for severance payments in the event a Senior Executive is terminated without cause, regardless of whether such termination is in connection with a change of control, or voluntarily terminates employment under certain specific circumstances following a change of control. Such circumstances include a reduction in title or responsibilities, assignment of duties or responsibilities inconsistent with current responsibilities, a reduction in salary or other benefits, and reassignment to a location greater than 25 miles from the current location. Following such a termination of employment, Messrs. Bower and Greslick will be entitled to receive a lump sum cash payment equal to 2.99 times his base salary for the year in which his employment ends and Messrs. Breakey, Wingard and Dell will be entitled to receive a lump sum cash payment equal to 2.50 times his base salary for the year in which his employment ends. Additionally, Messrs. Bower and Greslick would be entitled to receive a payment in the amount of 2.99 times the average incentive bonus paid over the preceding three year period. Messrs. Breakey, Wingard and Dell will be entitled to receive a payment in the amount of 2.50 times the average incentive bonus paid over the preceding three year period. The potential payments that would have occurred assuming a change of control event at December 31, 2016 were \$1,753,643 for Mr. Bower, \$887,653 for Mr. Greslick, \$702,934 for Mr. Breakey, \$663,019 for Mr. Wingard, and \$773,131 for Mr. Dell.

Cash and benefits paid to a Senior Executive under the Employment Contracts together with payments under other benefit plans following a change of control may constitute an excess parachute payment under Section 280G of the Code, resulting in the imposition of a 20% excise tax on the recipient and the denial of the deduction for such excess amounts to the Corporation or the Bank. If amounts payable to the Senior Executive would be excess parachute payments, then the Senior Executive's severance benefits will be reduced to that amount that would result in no portion being an excess parachute payment unless payment of the full severance amount would result in the executive receiving an amount equal to or greater than 110% of the reduced amount on an after-tax basis. The Employment Contracts do not provide for tax indemnity for any such potential excise taxes that may be due by the Senior Executives.

2017 Compensation Program Changes in Response to Shareholder Feedback

In consideration of shareholder feedback and the competitive benchmarking analysis conducted by Meridian, the ECC designed and implemented a new performance based long-term incentive program to be introduced as part of the President & CEO's compensation starting in 2017. The 2017 Long-Term Incentive Program (LTIP) will consist of 25% of base pay granted as performance units and 15% of base salary granted as time vested restricted stock. This reflects a total long-term incentive opportunity of 40% of base salary, which is conservatively competitive with the market median of the compensation peer group.

The performance units will vest after three years (i.e. 2019) based on the Corporation's performance of EPS Growth and Return on Average Equity as compared to SNL's US Bank \$1billion - \$5 billion Index. The metrics were selected to reflect performance goals that are aligned with long-term shareholder value. The metrics are weighted equally with payouts ranging from 0% to 150% of target dependent on the Corporation's ranking at the end of the three-year period (see below table for payout range). Performance between threshold, target and stretch will be interpolated. The first payout will vest in 2020 after an assessment of relative performance is determined.

Measure	Weight	Threshold	Target	Stretch
Relative EPS Growth	50%	35 th percentile	50 th percentile	75 th percentile or greater
Relative Return on Average Equity	50%	35 th percentile	50 th percentile	75 th percentile or greater
Payout Range (% of Target)	100%	50%	100%	150%

Impact of Accounting and Tax

The ECC and management consider the accounting and tax (individual and corporate) consequences of the compensation plans prior to making changes to the plans.

Section 162(m) of the Internal Revenue Code may limit our ability to deduct for U.S. federal income tax purposes compensation in excess of \$1,000,000 paid to our CEO and other NEOs in any one fiscal year.

The ECC has considered the impact of the Financial Accounting Standards Board ASC Topic 718 (formerly known as FASB Statement 123R) on the Corporation's equity incentives as a key retention tool.

Stock Ownership Policy

In 2014, the Board of Directors adopted Stock Ownership Guidelines for executive officers of the Corporation and CNB Bank and our regional bank presidents because it believes that it is important for the Corporation's future success that senior management own and hold a minimum number of shares of common stock of the Corporation in order to further align their interests and actions with the interests of the Corporation's shareholders. The Stock Ownership Guidelines require executive officers of the Corporation and CNB Bank and our regional bank presidents to own at all times during the period of their employment a number of shares of the Corporation's common stock with a market value equal to 150% or more of the executive's then-base salary. The Stock Ownership Guidelines provide that until a person subject to the Stock Ownership Guidelines achieves full compliance with such guidelines, the person may not dispose of any shares of restricted common stock that vest, other than for tax purposes. The Stock Ownership Guidelines are administered and enforced by the ECC, and compliance is monitored and reported to the ECC by the Corporation's President & CEO.

In February 2017, the Board of Directors adopted a separate Stock Ownership Guideline for the President & CEO, which requires that Mr. Bower own a number of shares of the Corporation's common stock with a market value equal to 300% or more of his then-base salary by February 2020. Until Mr. Bower achieves full compliance with this guideline, he may not dispose of any shares of restricted common stock that vest, other than for tax purposes.

Hedging Policy

In addition, all directors and employees of the Corporation are prohibited from engaging in any speculative transaction designed to hedge or offset any decrease in the market value of the Corporation's securities, including hedging of the Corporation's common stock. Effective August 11, 2015, the Corporation also prohibited any pledging of the Corporation's securities in a margin account and restricted all other pledging of the Corporation's securities by requiring directors and employees to obtain prior approval of the Senior Executive Vice President/Chief Operating Officer before entering into any such agreement. Corporation securities that were pledged as of August 11, 2015 as collateral for a loan are grandfathered and may continue to be pledged until released pursuant to the terms of relevant agreements.

Clawback/Recoupment Policy

In February 2017, the Board of Directors adopted an updated clawback policy on the recoupment of incentive compensation. The policy provides that the Executive Compensation Committee may, in its sole discretion, subject to the terms of the policy and to the extent legally permitted, require the return, repayment, or forfeiture of any annual or long-term incentive compensation payment or award made or granted to any current or former executive officer during the 3-year period preceding a triggering event. A triggering event is defined as restatement of previously reported financial statements due to the material noncompliance with any financial reporting requirement under the securities laws or misconduct by an executive officer.

Reducing the Possibility of Excess Risk-Taking

The ECC has determined that the risks arising from the compensation policies and practices for employees of the Corporation are not reasonably likely to have a material adverse effect on the Corporation as a whole.

The ECC noted several design features of the Corporation's cash and stock-based incentive programs that reduce the likelihood of excessive risk-taking:

The program design provides a balanced mix of cash and equity, annual and long-term incentives.

We set performance goals that we believe are reasonable in light of past performance and market conditions.

We include both absolute performance goals and relative performance goals in our annual bonus program in order to appropriately balance risk/reward when developing strategic goals.

Equity grants typically vest over a four-year period to encourage our NEOs to maintain a long-term perspective.

Our NEOs are subject to stock ownership guidelines which we believe align our NEOs' interests with the interests of our shareholders.

We use restricted stock because restricted stock retains value even in a depressed market and NEOs will be less likely to take unreasonable risks to get, or keep, options in-the-money.

The ECC has downward discretion over incentive program payouts.

The annual bonus has a maximum payout level that is 40% of salary.

For compensation benchmarking purposes, we employ an appropriate peer group derived from a standardized process.

Compensation Committee Report

The ECC met with management to review and discuss the Compensation Discussion and Analysis disclosures in this Proxy Statement. Based on such review and discussion, the ECC recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and incorporated by reference in the Corporation's Form 10-K for the 2016 fiscal year, and the Corporation's Board of Directors has approved that recommendation.

Stock Incentive Plan

The CNB Financial Corporation 2009 Stock Incentive Plan (the 2009 Stock Incentive Plan) was initially adopted by the Corporation's Board of Directors and subsequently approved by the Corporation's shareholders at its annual meeting held in 2009. Certain full or part-time employees of the Corporation, any parent, subsidiary or affiliate thereof, or persons who serve the Corporation or an affiliate as a director, are eligible to receive awards under the 2009 Stock Incentive Plan. Awards may be granted in the form of non-statutory stock options or restricted stock awards. The 2009 Stock Incentive Plan provides that the option exercise price for each share of common stock covered by a stock option will not be less than the fair market value of a share of common stock on the date the option is granted and that the term of the option may not exceed ten years from the grant date. For this purpose, fair market value is determined by reference to the closing price of the common stock on the date of grant or, if the grant date is not a trading day, the trading day immediately preceding the grant date.

Restricted stock awards will become vested pursuant to the terms of the applicable restricted stock award agreement. All awards of restricted stock reflected in the Outstanding Equity Awards at 2016 Fiscal Year-End table reflect a four-year vesting schedule (25% per year). During 2016, the ECC approved additional restricted stock grants to certain named executive officers to encourage sustained long-term growth. These awards are reflected above in the Grants of Plan-Based Awards in 2016 table.

Mark D. Breakey	Supplemental Executive Retirement Plan (1)	25	646,880
Joseph E. Dell, Jr.		N/A	

(1) The Supplemental Executive Retirement Plan is described below. This plan is offset by tax-free earnings from Bank owned life insurance.

Retirement Plan

The Corporation maintains the CNB Bank Employee's Savings and Profit Sharing Plan and Trust (referred to herein as the Plan). The Plan permits eligible employees to make pre-tax contributions up to 70% of salary. Employees 21 years of age or over with a minimum of one year full time service are eligible for matching contributions by the Corporation at 100% of elective contributions not to exceed 3% of plan salary plus 50% of elective contributions that exceed 3% of plan salary but do not exceed 5% of plan salary. A profit sharing non-contributory pension plan component is in place for employees 21 years of age or over with a minimum of one year full time service and allows employer contributions of 6% based on current year's compensation plus 5.7% of the compensation for all employees in excess of \$118,500, subject to a \$265,000 salary limit. The Corporation's total contributions to the Plan for all employees were approximately \$652,000 for the 401(k) savings plan component and \$1,276,000 for the profit sharing non-contributory pension plan component.

Supplemental Executive Retirement Plan

The Internal Revenue Code places certain limitations on pension benefits that may be paid from the trusts of tax-qualified plans. Because of these limitations and in order to provide certain executives with adequate retirement income, the Bank has entered into supplemental retirement agreements (also called salary continuation plan agreements or SERP) which provide retirement benefits to the named executives in the manner discussed below.

The Bank has entered into agreements with Messrs. Bower, Greslick and Breakey to provide each executive with an annual supplemental retirement benefit at age 65 equal to a percentage of the executive's final average compensation (i.e., average annual base salary for prior three years plus average annual bonus for prior five years) paid for twenty years reduced, as applicable, by amounts attributable to Social Security, the annual benefit that could be provided by contributions by the Corporation and Bank (other than the executive's elective deferrals) to the CNB Bank Employee Savings and Profit Sharing Plan and Trust and the earnings on those amounts, calculated on an actuarial equivalent basis. The annual supplemental retirement benefit percentage at age 65 is 75% for Messrs. Bower and Greslick and 65% for Mr. Breakey.

Reduced amounts will be payable under each SERP in the event the NEO takes early retirement after age 55. Reduced amounts will also be paid in twenty equal annual installments to a designated beneficiary if the executive dies or becomes disabled prior to the commencement of benefits and any unpaid installments will be paid to such beneficiary if the executive dies after the commencement of benefits.

The SERP is considered an unfunded plan for tax purposes and a top hat plan for purposes of ERISA. All obligations arising under the SERP are payable from the general assets of the Bank.

The SERP also provides for termination and change of control benefits with such benefits payable over a twenty year period. If a termination or change of control would have occurred at December 31, 2016, the following aggregate amounts would have been paid: Mr. Bower change in control \$4,883,949, termination - \$0; Mr. Greslick change of control - \$1,798,338, termination - \$0; and Mr. Breakey change of control \$1,270,196, termination - \$1,109,137.

Executive Deferred Compensation Plan

We have established a deferred compensation plans for executive officers. Annually, executive officers can defer up to 75% of their base compensation and 100% of all bonuses. If 100% of incentive compensation is deferred, the executive is responsible for payment of applicable payroll taxes. All deferred compensation is a general liability of the Bank. Any appreciation or depreciation in each participant's account value will reflect the performance of the underlying investments. Deferred compensation will serve as a funding source for a Rabbi trust. Investments are expected to closely match the appreciated or depreciated liability. Distributions are received in lump sum or annuity upon normal retirement, death, or disability. Any variance will be adjusted by an expense or gain to the Bank. The plan provides tax advantages to the participants and participation in the plan further aligns the interests of participants with those of our shareholders. Accounting treatment for this plan is subject to the Accounting Standards Codification Topic 718.

Nonqualified Deferred Compensation

The following table includes information about the activity in, amounts earned, and balances of each named executive officer's account under the CNB Financial Corporation Executive Deferred Compensation Plan.

ANNEX A

PROPOSED AMENDMENT TO BYLAWS

If Proposal 4 is approved by shareholders, Section 4.02(b) of Article IV of the Corporation's Bylaws will be amended and restated as set forth below. Proposed additions are indicated by underline.

Section 4.02. Qualifications and selection of directors.

- (b) Election of directors. Except as otherwise provided in these bylaws, directors of the corporation shall be elected by the shareholders. ~~In elections for directors, voting shall be by ballot and the candidates receiving the highest number of votes shall be elected.~~ If at any meeting of shareholders, directors of more than one class are to be elected, each class of directors shall be elected in a separate election. In elections for directors, voting shall be by ballot and, if a quorum is present, directors shall be elected by a majority of votes cast (as defined herein), unless the election is contested, in which case directors shall be elected by a plurality of the votes cast. An election shall be contested if, as determined by the board of directors, the number of nominees exceeds the number of directors to be elected. For the purposes of this Section 4.02(b), a majority of votes cast means that the number of shares voted for a director exceeds the number of votes cast against that director. Any incumbent director who is nominated for election and fails to receive the required vote for reelection shall promptly deliver to the board of directors an irrevocable offer to resign from the board of directors. The board of directors will consider such director's offer to resign, taking into consideration any such factors that the board of directors deems relevant in deciding whether to accept such director's resignation, including any recommendation of the Corporate Governance/Nominating Committee. Any director whose offer to resign is under consideration may not participate in any deliberation or vote of the board of directors (or committee thereof) regarding such offer, but may participate in the deliberation or vote of any other business transacted by the board of directors (or committee thereof). Within ninety (90) days after the date of certification of the election results, the board of directors will determine whether to accept or reject such director's offer to resign. Notwithstanding the foregoing, in the event that no nominee for director receives the vote required pursuant to this Section 4.02(b), any and all directors may participate in the board of directors' deliberation and vote regarding the directors' offers to resign.
