Dear Stockholder:

You are cordially invited to attend the Annual Meeting of Stockholders of The Interpublic Group of Companies, Inc., to be held at 9:30 A.M. Eastern Time, on Thursday, May 25, 2017. The meeting will be held at the Paley Center for Media, 25 West 52 Street, New York, NY 10019.

This year, we are pleased to once again use the U.S. Securities and Exchange Commission rule that allows companies to furnish their proxy materials on the Internet. As a result, we are mailing to many of our Stockholders a notice of the online availability of our proxy materials instead of paper copies of this proxy statement and our 2016 Annual Report. The notice contains instructions on how to access those documents online. The notice also contains instructions on how Stockholders receiving the notice can request a paper copy of our proxy materials, including this proxy statement, our 2016 Annual Report and a form of proxy card or voting instruction card. This distribution method conserves natural resources and reduces the costs of printing and distributing our proxy materials.

The business to be considered is described in the accompanying Notice of Annual Meeting of Stockholders and Proxy Statement. In addition to these matters, we will present a report on the state of our Company.

We hope you will be able to attend.

Sincerely,

Michael I. Roth

Proxy Statement

INTRODUCTION

The Board of Directors of The Interpublic Group of Companies, Inc. (Interpublic, IPG, the Company, us, we or providing this Proxy Statement in connection with the Annual Meeting of Stockholders, which will be held in the Paley Center for Media, 25 West 52 Street, New York, NY, at 9:30 a.m., Eastern Time, on Thursday,

May 25, 2017. Interpublic's principal executive office is located at 909 Third Avenue, New York, NY 10022. The proxy materials are first being sent to Stockholders beginning on or about April 13, 2017.

This Proxy Statement is also available on our website at <http://www.interpublic.com>.

Why Did I Receive a Notice in the Mail Regarding the Internet Availability of the Proxy Materials Instead of a Paper Copy of the Proxy Materials?

Again this year, we are taking advantage of the U.S. Securities and Exchange Commission rule that allows companies to furnish their proxy materials over the Internet. As a result, we are mailing to many of our Stockholders of record a notice of the Internet availability of the proxy materials in lieu of a paper copy of the proxy materials. All Stockholders receiving this Notice of Availability may access the proxy materials over the Internet or request a paper copy of the proxy materials by mail. In addition, the Notice of Availability has instructions on how you may request access to proxy materials by mail or electronically on an ongoing basis.

Choosing to access your future proxy materials electronically will reduce the costs of distributing our proxy materials and helps conserve natural resources. If you choose to access future proxy materials electronically, in connection with future meetings you will receive an email of a Notice of Availability with instructions containing a link to the website where the proxy materials are available and a link to the proxy voting website. Your election to access proxy materials electronically will remain in effect until it is terminated by you.

Who Can Vote?

You are entitled to vote or direct the voting of your shares of Interpublic common stock (the Common Stock) if you were a stockholder on April 5, 2017, the record date for the Annual Meeting. On April 5, 2017, approximately 395,112,354 shares of Common Stock were outstanding.

Who is the Holder of Record?

You may own your shares of Common Stock either

directly registered in your name at our transfer agent, Computershare; or
indirectly through a broker, bank or other intermediary.

If your shares are registered directly in your name, you are the Holder of Record of these shares, and we are sending these proxy materials directly to you. If you hold shares indirectly through a broker, bank or other intermediary, these materials are being sent to you by or on behalf of that entity.

How Do I Vote?

Your vote is important. We encourage you to vote promptly. You may vote in any one of the following ways:

Holders of Record

By Telephone. You can vote your shares by telephone, by calling 1-866-540-5760. Telephone voting is available 24 hours a day and 7 days a week. If you vote by telephone, you do not need to return a proxy card. Your vote by telephone must be received by 1 a.m. EDT, May 25, 2017.

Frequently Asked Questions

Shares Held by Brokers, Banks and Other Intermediaries

If your shares of Common Stock are held through a broker, bank or other intermediary, you will receive instructions from that entity regarding the voting of your shares.

If you plan to attend the Annual Meeting and vote in person, you will need to contact your broker, bank or other intermediary in advance of the meeting to obtain a legal proxy to permit you to vote by written ballot at the Annual Meeting.

How Many Shares Must be Present to Hold the Annual Meeting?

A quorum is required to transact business at the Annual Meeting. We will have a quorum at the Annual Meeting if the holders of more than 50% of the outstanding shares of Common Stock entitled to vote are present at the meeting, either in person or by proxy.

How are Votes Counted?

For all matters being submitted to a vote of Stockholders, only proxies and ballots that indicate votes *FOR*, *AGAINST* or *ABSTAIN* on the proposals, or that provide the designated proxies with the right to vote in their judgment and discretion on the proposals are counted to determine the number of shares present and entitled to vote.

A New York Stock Exchange (NYSE) member broker that holds shares for the account of a customer has the authority to vote on certain limited matters without instructions from the customer. Of the matters being submitted to a vote of Stockholders at the Annual Meeting, NYSE rules permit member brokers to vote without instructions only on the proposal to ratify the appointment of our independent auditor. On each of the other matters, NYSE members may not vote without customer instruction. A notation by a broker on a returned proxy that it is not permitted to vote on particular matters due to the NYSE rules is referred to as a broker non-vote.

How will my shares be voted at the Annual Meeting?

The individuals named as proxies on the proxy card will vote your shares in accordance with your instructions. Please review the voting instructions and read the entire text of the proposals and the positions of the Board of Directors in the Proxy Statement prior to marking your vote. If your proxy card is signed and returned without specifying a vote or an abstention on a proposal, it will be voted according to the recommendation of the Board of Directors on that proposal.

That recommendation is shown for each proposal on the proxy card.

What are the Board of Directors Voting Recommendations?

For the reasons set forth in more detail later in the Proxy Statement, our Board of Directors recommends a vote:

FOR the Board's nominees for election as directors;

FOR the ratification of the appointment of PricewaterhouseCoopers LLP as Interpublic's independent registered public accounting firm for 2017;

FOR the advisory vote to approve named executive officer compensation; and

FOR the frequency of the vote on the advisory vote to approve named executive officer compensation.

What Vote is Required to Approve Each Proposal?

The table below shows the vote required to approve the matters being submitted to a vote of Stockholders at the Annual Meeting:

Proposals	Vote Required	Do abstentions count as shares present and entitled to vote?	Do broker non-votes count as shares present and entitled to vote?
Election of each Director	Majority of shares present and entitled to vote	Yes	No

**Succession

CEO and management succession planning is one of the board's highest priorities

Our board devotes significant attention to identifying and developing talented senior leaders.

Adoption of Proxy Access

In October 2016, our Board of Directors adopted a proxy access bylaw that permits stockholders owning three percent or more of our outstanding shares of common stock for a period of at least three years to include in our proxy statement nominees for election equal to the greater of two directors or twenty percent of our Board of Directors, so long as the nominating stockholder(s) and the nominee satisfy the requirements specified in our Amended and Restated Bylaws. The number of stockholders who may aggregate their shares to meet the three percent ownership threshold is limited to twenty.

Prior to adopting proxy access, Company management and our Board of Directors closely monitored proxy access developments and engaged with stockholders representing over 45% of our outstanding shares. After considering

feedback from our stockholder engagement, as well as the non-binding stockholder proposal that passed at our 2016 Annual Meeting and our review of market developments, our Board of Directors adopted a proxy access bylaw that best serves the interest of the Company and our stockholders. As we determined through our engagement with stockholders, a substantial majority favored provisions that differed from the specific terms of the nonbinding stockholder proposal that passed at our 2016 Annual Meeting, such as limiting the number of stockholders that are able to aggregate their shares in order to meet the three percent ownership requirement and fixing the number of allowable proxy access nominees at the greater of two directors or twenty percent of our Board of Directors. Stockholders will be able to propose proxy access nominees beginning with our 2017 Annual Meeting.

CORPORATE GOVERNANCE PRINCIPLES AND PRACTICES

Director Independence

In accordance with NYSE listing standards (the NYSE Listing Standards), the Board annually evaluates the independence of each member of the Board of Directors under the independence standards set forth in Interpublic's Corporate Governance Guidelines, and under the NYSE Listing Standards.

Interpublic has ten directors, one of whom, Michael I. Roth, is an employee of Interpublic (referred to in this Proxy Statement as the Management Director) and nine of whom are not employees of Interpublic or its subsidiaries (referred to in this Proxy Statement as Non-Management Directors). At its meeting held on February 16, 2017, the Corporate Governance Committee determined that each of the Non-Management Directors is an independent director under

Interpublic's Corporate Governance Guidelines and the NYSE Listing Standards.

Meeting of Independent Directors

The NYSE Listing Standards require that if the group of Non-Management Directors includes one or more directors who are not independent, then at least once annually, the Non-Management Directors should hold an executive session attended by only independent directors. Although not required under the NYSE Listing Standards (because all of the Non-Management Directors are independent), the Board nevertheless held several executive sessions of its independent directors during 2016, with Mr. Thomas in his role of the Presiding Director serving as the chairperson of the sessions.

Our Corporate Governance Framework

Director Selection Process

The Corporate Governance Committee is charged with the responsibilities described below under the heading Committees of the Board of Directors Corporate Governance Committee.

One of the Committee's responsibilities is to identify and recommend to the Board candidates for election as directors. The Committee, together with the Presiding Director, considers candidates suggested by its members, other directors, senior management and Stockholders as necessary in anticipation of upcoming director elections or due to Board vacancies. The Committee is given broad authorization to retain, at the expense of Interpublic, external legal, accounting or other advisers including search firms to identify candidates and to perform background reviews of potential candidates. The Committee is expected to provide guidance to search firms it retains about the particular qualifications the Board is then seeking.

Each of the directors nominated for election at the 2017 annual meeting were evaluated and recommended to the Board for nomination by the Corporate Governance Committee, and nominated by the Board for election.

All director candidates, including those recommended by Stockholders, are evaluated on the same basis. Candidates are considered in light of the entirety of their credentials, including:

Their business and professional achievements, knowledge, experience and background, particularly in light of the principal current and prospective businesses of Interpublic and the general strategic challenges facing Interpublic and its industry as a whole;

Their integrity and independence of judgment;

Their ability and willingness to devote the time necessary to fulfill Board duties;

Their qualifications for membership on one or more of the committees of the Board;

Their potential contribution to the diversity and culture of the Board;

Their educational background;

Their independence from management under NYSE Listing Standards and Interpublic's Corporate Governance Guidelines;

The needs of the Board and Interpublic; and

The Board's policies regarding the number of boards on which a director may sit, director tenure, retirement and succession as set out in Interpublic's Corporate Governance Guidelines.

In determining the needs of the Board and Interpublic, the Committee considers the qualifications of sitting directors and consults with the Presiding Director, other members of the Board (including as part of the Board's annual self-evaluation), the CEO and other members of senior management and, where appropriate, external advisers. All directors are expected to exemplify the highest standards of personal and professional integrity and to assume the responsibility of challenging management through their active and constructive participation and questioning in meetings of the Board and its various committees, as well as in less formal contacts with management.

Director candidates, other than sitting directors, are interviewed by members of the Committee and by other directors, the CEO and other key management personnel, and the results of those interviews are considered by the Committee in its deliberations. The Committee also reviews sitting directors who are considered potential candidates for re-election, in light of the above considerations and their past contributions to the Board.

Stockholders wishing to recommend a director candidate to the Committee for its consideration should write to the Committee, in care of its Chairperson, at The Interpublic Group of Companies, Inc., 909 Third Avenue, New York, NY 10022. Any recommendations will be considered for the next annual election of directors in 2018. A recommendation should include the proposed candidate's name, biographical data and a description of his or her qualifications in light of the criteria listed above.

Succession Planning

Interpublic's Board of Directors is actively involved in talent management. Annually, the Board reviews and analyzes the alignment of Interpublic's strategy on personnel and succession with its overall business strategy. This includes a detailed discussion of Interpublic's global leadership bench, strength and succession plans with a focus on key positions at the senior officer level. In addition, the committees of the Board regularly discuss the talent pipeline for specific critical roles at Interpublic and each of its global agencies. The Board seeks opportunities to provide potential leaders with exposure and visibility to Board members through formal presentations and by holding a number of Board and committee meetings throughout the year at key operating units. In addition, the Board is regularly updated on key talent indicators for the overall workforce, including work environment, diversity, recruiting and development programs.

Code Of Conduct

Interpublic has adopted a set of ethical standards known as the Code of Conduct, which applies to all employees of

Interpublic and its subsidiaries and affiliates. Interpublic's Corporate Governance Guidelines provide that members of the Board of Directors and officers (which includes Interpublic's Chief Executive Officer, Chief Financial Officer, Controller and Chief Accounting Officer and other persons performing similar functions) must comply with the Code of Conduct. In addition, the Corporate Governance Guidelines

BOARD LEADERSHIP STRUCTURE

The Board continually examines its policies to ensure that Interpublic's corporate governance and Board structure are designed to maximize the Company's effectiveness. Currently, the Board believes that Interpublic's Chief Executive Officer is best situated to serve as Chairman because he is the director most familiar with the operations of the Company, and most capable of determining the strategic and operational priorities of Interpublic and leading discussions with the Board. To ensure a proper level of independent board oversight, the Board has also designated a Presiding Director, who has the duties described below. The Board believes that the corporate governance measures it has in place ensure that strong, independent directors effectively oversee our management and provide vigorous oversight of our key issues relating to strategy, risk and integrity.

Interpublic's Board structure allows for independent directors to bring experience, oversight and expertise from outside Interpublic and other industries, while the Chief Executive Officer brings a company-specific knowledge base and expertise. The Board believes that the combined role of

Chairman and Chief Executive Officer promotes more effective strategy development and execution and enhances the information flow between management and the Board, which are essential to effective governance, and coupled with the appointment of a Presiding Director, provides the most efficient and effective leadership structure for Interpublic, and accordingly is in the best interests of Interpublic and our Stockholders.

Presiding Director

The Presiding Director of the Board helps to coordinate communications between the Board and management of Interpublic. In this role, the Presiding Director, convenes and chairs meetings and executive sessions of the Non-Management Directors, coordinates feedback to the Chairman and Chief Executive Officer on behalf of the Non-Management Directors on business issues and management, and coordinates and develops with the Chairman of the Board and Chief Executive Officer the agendas and presentations for meetings of the Board. Mr. Thomas currently serves as the Presiding Director.

THE BOARD'S ROLE IN RISK OVERSIGHT

The Board has an active role in the oversight of the Company's enterprise risk management activities. Elements of the Board's risk management practices include:

An annual review and assessment by the Board of the primary operational and regulatory risks facing Interpublic, their relative magnitude and management's plan for mitigating these risks;

Specific oversight by the Audit Committee of Interpublic's financial risk exposure, including Interpublic's credit and liquidity position. Such oversight includes discussions with management and internal auditors on the magnitude and steps taken to address and mitigate any such risks;

Audit Committee oversight of Interpublic's compliance with its Code of Conduct, including establishing procedures for the receipt of anonymous complaints or concerns from employees on accounting, internal accounting controls and auditing matters; Audit Committee administration of Interpublic's Related Person Transaction Policy (as discussed below);

Corporate Governance Committee management and oversight of potential risks associated with potential issues of independence of any directors and potential conflicts of interest;

Compensation Committee evaluation and management of risks relating to Interpublic's compensation plans and arrangements, as well as Interpublic's overall compensation philosophy and practices; and

Table of Contents

Our Corporate Governance Framework

The establishment of standard policies specifically designed to mitigate potential risks, including requiring Board approval for all business acquisitions above a certain dollar amount.

Each committee also regularly informs the Board of any potential issues or concerns raised when performing its risk management duties.

TRANSACTIONS WITH RELATED PERSONS

Interpublic's Code of Conduct requires directors and employees to avoid activities that could conflict with the interests of Interpublic, except for transactions that are disclosed and approved in advance. Interpublic has adopted a Related Person Transaction Policy under which approval is required for any transaction, agreement or relationship between Interpublic or any of its consolidated subsidiaries and a Related Person (a Related Person Transaction).

Under the Related Person Transaction Policy, a Related Person is defined as any (i) director, nominee for election as a director, an executive officer or any of their immediate

family members (as defined by the Related Person Transaction Policy); (ii) any entity, including not-for-profit and charitable organizations, controlled by or in which any of the foregoing persons have a substantial beneficial ownership interest; or (iii) any person who is known to be, at the time of the transaction, the beneficial owner of more than 5% of the voting securities of Interpublic or an immediate family member of such person.

Under the policy, Related Person Transactions do not include any employee benefit plan, program, agreement or arrangement that has been approved by the Compensation Committee or recommended by the Compensation Committee for approval by the Board.

To facilitate compliance with the policy, the Code of Conduct requires that employees, including directors and executive officers, report circumstances that may create or appear to create a conflict between the personal interests of the individual and the interests of Interpublic, regardless of the amount involved, to Interpublic's Chief Risk Officer using Interpublic's Compliance Report Form. Each director and executive officer annually confirms to the Company his or her compliance with the Related Person Transaction Policy as part of the preparation of Interpublic's Annual Report on Form 10-K and its annual proxy statement. Director nominees and persons promoted to executive officer positions must also confirm such compliance at the time of their nomination or promotion. Management also reviews its records and makes additional inquiries of management personnel and, as appropriate, third parties and other sources of information for the purpose of identifying Related

Person Transactions, including Related Person Transactions involving beneficial owners of more than 5% of Interpublic's voting securities.

The Audit Committee reviews transactions subject to the Related Person Transaction Policy and determines whether or not to approve or disapprove those transactions, by examining whether or not the transactions are fair, reasonable and within Interpublic policy. The Audit Committee makes its determination by taking into account all relevant factors and any controls that may be implemented to protect the interests of Interpublic and its Stockholders. Among the factors that the Audit Committee takes into account in determining whether a transaction is fair and reasonable, as applicable, are the following:

The benefits of the transaction to Interpublic;

The terms of the transaction and whether they are arm's-length and in the ordinary course of Interpublic's business;

The direct or indirect nature of the Related Person's interest in the transaction;

The size and expected term of the transaction; and

Other facts and circumstances that bear on the materiality of the Related Person Transaction under applicable law and listing standards.

No director may participate in any consideration or approval of a Related Person Transaction with respect to which he or she or any of his or her immediate family members is the Related Person. Related Person Transactions not approved or ratified as required by the Related Person Transaction Policy are subject to termination by Interpublic. If the transaction has been completed, the Audit Committee will consider if rescission of the transaction is appropriate and whether disciplinary action is warranted.

Related Person Transactions

Since January 1, 2016, there have been no transactions involving a Related Person identified in the responses to the annual questionnaire sent to each director and executive officer of Interpublic or that otherwise are known to the Audit Committee or Interpublic.

DIRECTOR SHARE OWNERSHIP GUIDELINES

The Board has adopted Common Stock ownership guidelines for Non-Management Directors which set the minimum ownership expectations for Non-Management Directors. On February 18, 2016, the Board approved a change to the guidelines, from a fixed dollar value of \$300,000 to a multiple of five times the annual cash retainer paid to directors. After giving effect to this change, the minimum share ownership requirement is now equal to \$500,000, an increase of \$200,000 from the prior guideline. Non-Management Directors have five years from their initial election to meet this guideline. Outstanding shares of restricted stock are included in a Director's share ownership, but Common Stock underlying unexercised stock options is not included. The Company believes that

the equity component of director compensation serves to further align the Non-Management Directors with the interests of our Stockholders. For information about share ownership of our Non-Management Directors, see *Non-Management Director Compensation* on page 17 and *Share Ownership of Management* on page 62. For a discussion of the share ownership guidelines applicable to Interpublic's executives, see *Compensation Discussion & Analysis - Share Ownership Guidelines* on page 40. All Non-Management Directors standing for re-election have met or exceeded these guidelines, with the exception of Messrs. H. Miller and J. Miller, each of whom joined the Board on March 1, 2015.

The Audit Committee is responsible for the appointment, compensation, retention and oversight of Interpublic's independent registered public accounting firm. As part of these responsibilities, the Audit Committee reviews the independence and performance of the independent accounting firm in connection with the Committee's determination of whether to engage another auditor as Interpublic's independent accounting firm, and is involved in the selection of the independent accounting firm's lead engagement partner. Included in this assessment is the Committee's review of the accounting firm's independence and integrity, its expertise, performance and qualifications, as well as the quality of the firm's personnel and communications.

The Audit Committee and the Board believe that it is in the best interests of Interpublic and our Stockholders to retain PricewaterhouseCoopers to serve as our independent registered public accounting firm. In light of this, the Audit Committee has appointed PricewaterhouseCoopers LLP (PricewaterhouseCoopers) as Interpublic's independent registered public accounting firm for 2017. Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditor

The Audit Committee has established policies and procedures regarding pre-approval of all audit and permissible non-audit services provided by the independent accounting firm and is responsible for the audit fee negotiations associated with the engagement of the independent accounting firm. The permissible non-audit services include the services described above for which we paid Audit Related Fees, Tax Fees and All Other Fees. Under the policy, pre-approval is generally provided for up to one year and any pre-approval is detailed as to the particular service or category of services and is subject to a specific budget. In addition, the Audit Committee may pre-approve particular services on a case-by-case basis. The Audit Committee has delegated pre-approval authority to the Committee's Chairperson for projects less than \$200,000, who must then report any such decision to the Audit Committee at the next scheduled meeting.

In accordance with a federal securities law requirement, enacted as part of the recent Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act) and related SEC rules, we are submitting to an advisory vote of Stockholders the compensation of our named executive officers as disclosed in the Compensation Discussion & Analysis, the compensation tables, and the narrative discussion set forth on pages 23 to 60 of this Proxy Statement. In addition to complying with this legal requirement, the Board recognizes that providing Stockholders with an advisory vote on named executive officer compensation may produce useful information on investor sentiment with regard to the Company's executive compensation programs.

At our annual meeting of Stockholders held in May 2016, a substantial majority of the Company's Stockholders voted on an advisory basis to approve the compensation received by our named executive officers in fiscal 2015. The Compensation Committee believes this reflects Stockholders' support of the Company's approach to executive compensation.

As described in the Compensation Discussion & Analysis section of this Proxy Statement, our compensation programs and underlying principles, as developed and administered by the Compensation Committee, are designed to provide a competitive level of compensation necessary to attract, motivate and retain talented and experienced executives who are crucial to our long-term success. The compensation paid to our named executive officers reflects our commitment to pay for performance and includes long-term cash and equity awards that are designed to encourage management to achieve results to the mutual benefit of Stockholders and management. Moreover, a significant portion of our named executive officers' annual cash compensation is paid in the form of annual performance-

based incentives, which are contingent on the Company's achievement of pre-defined performance objectives.

We encourage you to carefully review the Compensation Discussion & Analysis beginning on page 23 of this Proxy Statement for additional details on Interpublic's executive compensation, including Interpublic's compensation philosophy and objectives, as well as the processes our Compensation Committee used to determine the structure and amounts of the compensation paid to our named executive officers in fiscal 2016. The Compensation Committee and the Board believe that these policies and procedures are effective in implementing our compensation philosophy and in achieving its goals.

We are asking you to indicate your support for the compensation of our named executive officers as described in this Proxy Statement. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the philosophy, policies and practices described in this Proxy Statement. Accordingly, we are asking you to vote, on an advisory basis, For the following resolution at the Annual Meeting:

RESOLVED, that the compensation paid to the named executive officers of The Interpublic Group of Companies, Inc., as described in the Compensation Discussion & Analysis, compensation tables and narrative discussion set forth on pages 23 to 60 of this Proxy Statement, is hereby approved.

While the results of this advisory vote are not binding, the Compensation Committee will consider the outcome of the vote in deciding whether to take any action as a result of the vote when making future compensation decisions pertaining to named executive officers.

*The Board of Directors recommends that you vote **FOR** the resolution approving on an advisory basis the compensation of our named executive officers as disclosed in this Proxy Statement.*

Table of Contents

The federal securities laws as amended by the Dodd-Frank Act require us, at least once every six years, to hold an advisory stockholder vote on the frequency with which Interpublic should submit the compensation of the named executive officers to an advisory vote of stockholders. Stockholders may indicate whether they would prefer an advisory vote every one, two, or three years, or whether they wish to abstain. Starting with our annual meeting held in 2011, we have held annual votes on executive compensation.

The Board believes that an annual advisory vote on executive compensation is consistent with having a regular dialogue with our stockholders on corporate governance matters, including executive compensation. An annual stockholder vote allows our stockholders to provide us with direct and immediate feedback regarding the effectiveness of our compensation programs, and provides our Board and compensation committee with the opportunity to consider stockholder views as part of its regular compensation review.

Effect of Proposal

The Board values the opinions of Interpublic's stockholders as expressed through their votes and other communications. Although the resolution is non-binding, the Board will carefully consider the outcome of the frequency vote and other communications from stockholders when making future decisions regarding the frequency of the say-on-pay vote.

Vote Required

The option receiving the greatest number of votes will be considered the frequency recommended by the Company's stockholders.

The Board of Directors of the Company recommends that stockholders vote in favor of an annual advisory vote on the compensation of the Company's named executive officers.

COMPENSATION PRACTICES & CORPORATE GOVERNANCE

Our executive compensation programs are aligned with best practices in corporate governance:

We align pay with performance. Our incentive plans are closely tied to performance, making the ultimate payout from these incentives higher when performance is strong and, conversely, lower (or zero) when performance does not measure up to our targets. This correlation between our performance and pay aligns our NEOs with the interests of our stockholders. The strong and positive alignment of our pay with operating results has been demonstrated by the vote for recommendation from stockholder advisory firms on every say-on-pay vote we have submitted to stockholders.

The incentives provided to our NEOs are performance-based and are predominantly earned based on achieving corporate financial goals. However, one notable exception is that a portion of their annual long-term

incentive target is linked directly to stockholder interests and awarded in restricted shares that ultimately earn value based on the performance of our stock price.

In 2014, in addition to the use of organic revenue growth and operating income before incentives as financial metrics for determining the final earned value of our performance-based long-term incentive awards, a relative total stockholder return (TSR) modifier was added to the performance-based shares granted to our NEOs. Furthermore, for 2015 we introduced a modifier to the annual incentive plan as well. This modifier is based on IPG’s Salary and Related Salaries (SRS) ratio which is a measurement of the relationship between compensation and revenue. This SRS modifier has been introduced to enhance focus on driving improvement to this key metric. It is important to note that a penalty is applied to annual incentives if the SRS target is missed; no reward is given for achieving or exceeding target.

Table of Contents

Compensation Discussion & Analysis

Approximately 90% of the target total 2016 compensation (excluding benefits) for the Chairman & CEO was variable pay, while on average variable pay represented 75% of target total compensation (excluding benefits) for all other NEOs.

Our programs require significant executive share ownership. We adopted share ownership guidelines (SOG) in 2007. These guidelines and requirement levels are reviewed annually and most recently adjusted in 2015. Our CEO's ownership guideline is 6x base salary; all other NEOs have guidelines set at 2x base salary, thereby ensuring further alignment with stockholders. All NEOs are in compliance with their established ownership guideline. Among the NEOs, including the CEO, with tenure that requires them to have already achieved their SOG level, average ownership at the end of 2016 was at over 400% of the established ownership guideline. Beginning in 2013, the company added a new stock holding requirement to the SOG such that executives who have not met their established guideline level in the time allotted are required to hold all net after-tax shares delivered from equity vestings until such time as requirements are met.

Our incentive plans include appropriate safeguards. We prohibit our NEOs and other senior executives from engaging in any transaction involving derivatives designed to hedge against the risk associated with ownership of IPG shares. Our Performance Incentive Plan, approved in 2014, prohibits the re-pricing of stock options without stockholder approval and does not allow for the granting of reload stock options which provide for the grant of additional stock options upon the exercise of previously granted stock options. In addition, we have an active clawback policy under which compensation can be recovered in the event of a significant restatement of our financial results due to fraud or misconduct. Additionally, our NEO annual and long-term incentive programs have a maximum payout equal to 200% of target, thereby further reducing potential risk taking by our leadership team.

We appropriately limit guaranteed compensation. As indicated above, the majority of our compensation is performance based. As shown on page 45 of the Summary Compensation Table, outside of the Executive

Dental Plan coverage and the Charitable Matching Program which is capped at \$20,000 per executive per year, company-paid perquisites are not offered to our most senior executives. We also do not provide for any cash severance payments that exceed 2.99 times the sum of base salary and target annual incentive. Dividends cannot be earned on unvested performance shares.

In 2014, stockholders approved the 2014 Performance Incentive Plan (2014 PIP) which included modifications to the treatment of annual and long-term incentives upon a change-in-control. For annual incentives, the 2009 PIP allowed for the payment of full target annual incentive amounts in the event of a change-in-control at any point in the year. Under the 2014 PIP, pro-rata target annual incentive amounts would be paid if the change-in-control occurs in the first quarter; full target annual incentive amounts would be provided if the change-in-control occurs after the first quarter. For long-term incentives, to better align with current market norms and the best interest of stockholders, for all awards granted in 2014 and future years, IPG moved from so-called single-trigger awards that vested upon a change-in-control regardless of whether the employee is terminated to a double-trigger that only accelerates vesting if there is a termination following a change-in-control.

We do not provide for any excise tax gross-up payments. Section 4999 of the Internal Revenue Code imposes excise taxes if payments made to executives due to a change-in-control exceed certain limits. If IPG were to experience a change-in-control, payments to our executives may be reduced to avoid adverse tax consequences to the executive, but

under no circumstances would IPG provide additional payments to cover these excise taxes.

These practices were validated at our annual meeting of stockholders in May 2016 when a substantial number of votes (97%) were cast in favor of our 2015 executive compensation pay practices.

We believe that our existing programs continue to ensure our executive compensation programs are aligned with best practices in corporate governance and promote a strong relationship between pay and performance.

2016 BUSINESS HIGHLIGHTS

Across the board, 2016 was a successful year, in which we posted strong financial results highlighted by industry-leading organic revenue growth, continued to build our digital and integrated offerings, and garnered the highest level of recognition for the creativity and effectiveness of our work in over a decade. We grew organically in every region

of the world and with broad participation across our agencies, disciplines and client sectors.

The quality of our offerings is at its highest level in many years. Globally, at both the Cannes Festival of Creativity and the Effie Awards, in 2016 IPG agencies performed better than any other holding group in terms of awards per dollars of

revenue. Contributions to these results came from across our agency portfolio. In the most recent Ad Age A-List, Interpublic is the only holding company with multiple agencies in the top 10, and also the only one among our peers to have the full range of marketing services recognized with honors.

Digital activity across all of our operating units continues to be a significant driver of our success. We continue to see the benefits of the major strategic decision we made some time ago to embed digital expertise within all of our agencies, as well as our commitment to the outstanding growth of our digital specialist agencies. Another strategic priority that has fueled our success is a long-standing commitment to investing in our people and creating a differentiated culture that draws so many of the industry's best and most entrepreneurial talent to our group. Our commitment to diversity and inclusion is an integral part of our culture, and we remain focused on diversity as a key ingredient to success in a global ideas business.

CONTINUED REVENUE GROWTH AND OPERATING MARGIN PERFORMANCE

At the outset of the year, the Company communicated targets to the financial community of between 3% and 4% organic revenue growth, which we revised upward in October to between 4% and 5%, as well as 50 basis points of margin improvement from the previous year's operating margin of 11.5%. Our reported 2016 top-line result of 5% organic growth was at the high-end of our target range.

Our top-line result led the industry for the second year in a row and significantly outperformed our peer average for the third year running. This is exceptional performance, which has seen us add over \$1 billion of organic revenue growth over the past three years—a significant accomplishment in such a fast-changing and competitive industry.

Organic revenue growth for the past three years was as follows:

During 2016, we also built on our record of continued progress in the operating and financial management of our Company. Reported operating margin of 12.0% for the year met the objective communicated to investors. With 270

basis points of margin improvement since 2013, IPG is solidly on track toward achieving our long-standing objective of delivering peer-level margins.

CREDIT RATING UPGRADES, RETURN OF CAPITAL TO STOCKHOLDERS and TOTAL STOCKHOLDER RETURNS

Improvements in operating margin during 2016 were driven by leverage on both our expense for Base Payroll, Benefits and Payroll Tax and our Office & General Expenses, reflecting the continuing strength of our expense disciplines.

Further, our return of capital programs continued to positively impact stockholder value, with a total of over \$3.0 billion in dividends and share repurchases since these programs began in 2011. Reflecting ongoing improvements

in our financial strength, we received an upgrade in April 2016 from one of the major credit rating agencies, Moody's, which, at Baa2 on our senior debt, solidifies our standing within the investment grade category.

The strength of our operating performance and capital initiatives have helped to produce outstanding long-term returns to our stockholders. Our total stockholder return (TSR) for the three and five-year periods, for example, is superior to both the average of our core competitive peer group (OMC, WPP, PUB) and the overall market.

ALIGNING PAY WITH PERFORMANCE

For 2016, approximately 90% of the target total compensation (excluding benefits) for the Chairman & CEO was variable/performance-based pay, while on average performance-based pay represented 75% of target total compensation (excluding benefits) for all other NEOs. For all of our NEOs, 100% of the annual incentives could be earned only if corporate and financial performance goals were met.

For our Chairman & CEO, 75% of his annual long-term incentive target could be earned only if corporate financial performance goals were met (approximately 60% for all other NEOs). The remaining 25% of his annual long-term incentive target was tied directly to stockholder interests and granted in restricted shares tied to our stock price performance (approximately 40% for all other NEOs).

BASE SALARY

Base Salary is central to attract and retain key talent, including our NEOs. Although its prominence in the pay mix declines with seniority, base salary generally remains an important part of compensation discussions with executive talent in our sector and related industries. In considering whether to increase an executive's base salary, the

Committee takes into consideration market pay for comparable executives at peer companies as well as the individual's performance and experience. The Committee made the following decisions about base pay for the NEOs in 2016:

Mr. Krakowsky received an increase from \$900,000 to \$1,000,000 effective January 1, 2016

Mr. Bonzani received an increase from \$700,000 to \$800,000 effective January 1, 2016

PERFORMANCE METRICS

In 2016, as in past years, actual annual incentives earned could vary between 0% and 200% of the individual incentive target, depending on the Company's financial performance and individual performance versus established High Priority

Objectives (HPO's). The chart below details the performance metrics and weightings applied to annual incentive awards for all IPG NEOs in 2015:

Financial Metric	Description	Weighting
ORGANIC REVENUE	- Measures ability to drive revenue growth from existing operations, exclusive of acquisitions, divestitures and currency effects	
GROWTH % (ORG)	- Reflects the competitiveness of our offerings and is defined as the percentage change in IPG's total gross revenue as compared to the prior year, excluding the impact of foreign currency rate fluctuations and the net effect of acquisitions and divestitures	20%
OPERATING INCOME BEFORE INCENTIVES	- Measures business efficiency and profitability and is defined as Operating Income before expenses related to the Annual and Long-term Incentive Plans, and before any restructuring and asset impairment charges divided by gross revenue	60%

MARGIN % (OIBI)		
SRS Ratio Modifier	- Measurement of the relationship between salary and related costs (excluding severance and incentive compensation) and revenue	can reduce OIBI Margin metric
		by 0% to - 15%
HIGH PRIORITY OBJECTIVES (HPO)	- Consist of quantitative and/or qualitative objectives specific to the individual	20%

There has been no change in the design of our annual incentive plan since the 2015 incentive cycle. Performance against the first measure, Organic Revenue Growth (OG), continues to make up 20% of the calculated award. The second measure Operating Income Before Incentives (OIBI) Margin continues to comprise 60% of the calculated award, however, since 2015 we also applied a modifier to this OIBI Margin metric to enhance focus on driving improvement to our Salary and Related Salaries (SRS) ratio, a measurement of the relationship between compensation and revenue. If SRS ratio falls below target, a modifier is applied to reduce amounts earned from the OIBI Margin metric. Note that this modifier cannot increase payments, it can only reduce them.

OG, OIBI Margin and SRS targets are set early each year, as part of the Company's annual budgeting process.

High-priority Objectives (HPOs) are also set early in the year, and may consist of quantitative and/or qualitative objectives specific to the individual. HPOs include goals tied to the Company's overall, or an operating unit's, strategic priorities and typically include talent management, diversity and inclusion and cross-agency collaboration. For quantitative HPOs, specific objectives are established. For qualitative HPOs, specific accomplishments or expectations are defined and the Committee exercises judgment in assessing performance.

With all HPOs, performance is assessed after considering written assessments submitted to the Committee for both the Company as a whole and its principal operating units. Results are then ranked as poor, fair, good, excellent and spectacular, and a rating between 0% to 200%, respectively, of the target is assigned.

LONG-TERM INCENTIVES***2016 TARGET ANNUAL LONG-TERM INCENTIVE OPPORTUNITIES***

For 2016, the Committee set the following long-term incentive expected dollar target values for the NEOs:

Name	Total Target LTI Award Value (value of A+B+C)	Performance Shares ¹ (A)	Performance Cash (B)	Performance Restricted Shares (C)
MICHAEL ROTH	\$10,500,000	\$ 5,250,000	\$ 2,625,000	\$ 2,625,000
		(243,562 target shares)		(121,781 shares)
FRANK MERGENTHALER	\$3,250,000	\$ 1,250,000	\$ 625,000	\$ 1,375,000
		(57,991 target shares)		(63,789 shares)
PHILIPPE KRAKOWSKY	\$3,250,000	\$ 1,125,000	\$ 625,000	\$ 1,375,000
		(57,991 target shares)		(63,789 shares)
ANDREW BONZANI	\$1,500,000	\$ 625,000	\$ 312,500	\$ 562,500
		(28,995 target shares)		(26,095 shares)
CHRISTOPHER CARROLL	\$575,000	\$ 237,500	\$ 118,750	\$ 218,750
		(11,018 target shares)		(10,148 shares)

1. The number of target shares was determined by dividing the target value by the average of the high and low stock price on the date of grant (\$21.555 on February 29, 2016) and rounding down to the nearest whole share. For performance awards, the grant-date fair values estimated in accordance with ASC 718 and reported in the Summary Compensation Table and the Grants of Plan-Based Awards Table are lower than the values reported in this table since the awards do not pay any dividends or dividend equivalents while the awards are outstanding.

In 2016, as in prior years, annual long-term incentive awards were made on the final trading day of February. This allowed for synchronized communication of annual and long-term incentives with each executive, which enforces the concept of total compensation.

At its February meeting, the Committee determined the annual long-term incentive target awards under the Performance Incentive Plan, defined as a dollar expected value, for the Chairman & CEO and, after considering recommendations from the Chairman & CEO approved the

long-term incentive targets for the other NEOs. The Chairman & CEO's long-term incentives were discussed and approved by the full Board.

The determination of the annual long-term incentive award is assessed as part the total compensation review for senior executives and, as in the case of setting salaries, takes into consideration the independent consultant's competitive review and other factors such as each executive's total compensation, pay history, absolute and relative performance, and expected future performance.

The table below reflects the long-term incentive design for all IPG NEOs in 2016. Each of the long-term incentive vehicles employed is designed with unique characteristics that, when viewed in total, balance the need to incentivize executive performance and promote the retention of the executives, as well as provide them with clarity as to how and when the awards can be earned.

1. Total Stockholder Return is a metric that assesses share performance over a defined period of time which reflects the change in stock price plus an assumed reinvestment of dividends into additional shares of stock. For the 2016 performance-based share awards, the modifier will be based on IPG's TSR over a three-year period compared to a group of peer companies. TSR will be based on 30-trading day average opening and closing prices; calculated as (Closing Price + Reinvested Dividends)/Opening Price. For purposes of this award the opening price will be the 30-trading days prior to January 1, 2016 and the closing price will be the 30-trading days up to and including December 31, 2018.

PERFORMANCE-BASED SHARES

Performance Period and Vesting

Performance-based share awards granted to NEOs since 2014, have been based on a longer-term financial performance forecast of 3 years. In 2016, performance share awards were granted for the performance period beginning on January 1, 2016 and ending on December 31, 2018. Vesting will occur on February 28, 2019, provided that the executive remains employed at that time.

Three year cumulative financial objectives are set at the start of each performance period. The Company does not disclose the multiple-year performance goals for its long-term performance plans at any time during the performance cycle, as these data points are not publicly disclosed and would provide insights to competitors that could harm our business. When they were established at its February 2016 meeting, the Committee considered the performance targets for the 2016-2018 performance cycle difficult to attain, while appropriate for the current economic environment.

Performance Metrics

Performance-based share awards granted to NEOs in 2016 continue to be tied to the Cumulative OG (30%) and OIBI Margin (70%) of IPG. In addition, a Relative TSR Modifier is incorporated into this award. This Relative TSR Modifier may provide as much as a 10% upward or downward adjustment to the performance rating determined based on OG and OIBI Margin. The amount of the adjustment is based on how well IPG's 3-year Total Stockholder Return compares to that of its 2015 Comparator Group (detailed on page 38) at the end of the performance period.

Potential Payouts

Under the terms of the awards, the actual value, if any, that the executive would receive at the end of the performance period and subsequent vesting period depends on the extent to which the cumulative performance objectives are achieved at the end of the performance period. Based on year-over-year comparisons, Management and the Committee deem these financial performance targets as relatively difficult to achieve or predict.

Table of Contents

Compensation Discussion & Analysis

In 2016, the final value of the awards before applying the Relative TSR modifier may vary from 0% to 200% of the target amount (a reduction from 300% in years prior), based on IPG's multi-year performance against financial objectives. The Relative TSR modifier can then adjust this rating upwards or downwards by up to 10%.

PERFORMANCE-BASED CASH

Performance Period and Vesting

The 2016 Performance Cash awards are subject to evaluation of financial performance over a two-year performance period, with vesting occurring on the third anniversary of the grant date. In 2016, performance cash awards were granted for the performance period January 1, 2016 through December 31, 2017 with a subsequent additional vesting period of January 1, 2018 to February 28, 2019.

Performance Metrics

For the NEOs 30% of the target award value for performance cash awards was tied to IPG's cumulative organic revenue growth (OG) and 70% was tied to operating income before incentives (OIBI) margin targets.

Two-year cumulative financial objectives are set at the start of each performance period. The Company does not disclose the multiple-year performance goals for its long-term performance plans at any time during the performance cycle, as these data points are not publicly disclosed and would provide insights to competitors that could harm our business. When they were established at its February 2016 meeting, the Committee considered the performance targets for the 2016-2017 performance cycle difficult to attain, while appropriate for the current economic environment.

Potential Payouts

Under the terms of the awards, the actual value, if any, that the executive would receive at the end of the performance period and subsequent vesting period depends on the extent to which the cumulative performance objectives are achieved at the end of the performance period. Based on year-over-year comparisons, Management and the Committee deem these financial performance targets as relatively difficult to achieve or predict.

For awards issued in 2016, the final value may vary from 0% to 200% of the target amount (a reduction from 300% in prior years), based on IPG's multi-year performance against financial objectives.

RESTRICTED SHARES

Restricted shares serve primarily as a retention and motivational vehicle, which is enhanced with improved stock price performance.

A portion of the restricted share award is scheduled to vest on both the second and third anniversaries of the grant date. Dividend equivalents are accrued on all outstanding shares on a quarterly basis. The shares and dividend equivalents are subject to forfeiture if the executive leaves Interpublic before the restrictions expire. The Company believes that these vesting provisions promote a long-term focus and provide a strong retention incentive. The number

of target shares was determined by dividing the target value by the average of the high and low stock price on the date of grant (\$21.555 on February 29, 2016) and rounding down to the nearest whole share.

2014 PERFORMANCE PLAN PAYOUTS

On February 28, 2014, the Committee granted performance share awards and performance cash awards, both under the 2009 Performance Incentive Plan (PIP). The performance cycle for these performance share awards was 3 years, beginning on January 1, 2014 and ending on December 31, 2016. The performance cycle for these performance cash awards was 2 years, beginning on January 1, 2014 and ending on December 31, 2015. Both awards vested on February 28, 2017.

In addition to the OG and OIBI Margin metrics, the 2014 performance share awards were the first to include the 3-year relative TSR modifier. When calculating the Relative TSR Modifier, TSR was based on 30-trading day average opening and closing prices; calculated as $(\text{Closing Price} + \text{Reinvested Dividends}) / \text{Opening Price} - 1$. For purposes of this award the opening price was the average of closing prices for the 30-trading days prior to January 1, 2014 and the closing price was the average closing price for the 30-trading days up to and including December 31, 2016. At the completion of the 3-year performance cycle, IPG performed at the 87.9th percentile of the 2014 peer group, which resulted in a +5% adjustment to any earned performance shares from 2014.

ADDITIONAL COMPENSATION INFORMATION**COMPENSATION PHILOSOPHY AND BASIC PRINCIPLES**

OUR EXECUTIVE COMPENSATION PHILOSOPHY REMAINS TO PROVIDE A PERFORMANCE-BASED, MARKET-COMPETITIVE TOTAL COMPENSATION PROGRAM THAT:

Supports our talent needs and business objectives

Ties a significant portion of pay to sustaining and improving operational performance to enhance stockholder value

Aligns with the interests of our stockholders

Our success continues to depend on our ability to attract, motivate and retain a diverse group of talented individuals throughout our organization who will enable us to deliver the best and most contemporary marketing solutions to drive our clients' businesses. Talent is our Company's most vital asset, which is why it represents our most significant expense. We must continue to ensure that the investments we make in our key people are disciplined and designed to drive results. To this end, our compensation programs are guided by the following basic principles:

Our compensation programs will be balanced and are intended to treat all stakeholders equitably.

Our executive compensation programs will include four major elements: base salary, performance-based annual cash incentives, performance and time-based long-term incentives, retirement and other benefit programs. It bears noting that, outside of the Charitable Matching Program which is capped at \$20,000 per executive per year, company-paid perquisites are not offered to our most senior executives.

Our fixed and performance-based compensation will target our competitive market for talent. Actual financial and individual performance may result in total earned compensation that is above or below target for certain individuals.

Our competitive market for executive leadership includes companies with similar talent requirements; these companies are captured in our compensation peer group, which is reviewed annually prior to inclusion in the Proxy statement.

All individual pay decisions will consider the competitive market data and will be based on an executive's

performance against financial and individual objectives, as well as contributions and skills identified in our annual Leadership Talent and Succession Plan Review (Talent Review) process. Exceptional performance against these measures may result in pay levels exceeding the competitive market for certain executives who deliver outstanding results.

We will strive to design incentive programs that are aligned with our short and long-term operating goals and can be responsive to unique market requirements. Target performance levels will be set to be challenging but achievable while maximum performance levels will represent stretch goals. These incentive programs will provide market competitive levels for achievement of target results while also allowing for meaningful and appropriate rewards for superior results, encouraging executives to make carefully considered decisions to drive said superior performance, while discouraging excessive or unjustified risks.

Senior Executives and Non-Management Directors will be required to meet stock ownership guidelines.

When warranted, policies will be vigorously enforced.

The communication and implementation of our compensation programs will be clear, specific and transparent.

HOW COMPENSATION DECISIONS ARE MADE

ROLE OF EXECUTIVE OFFICERS AND MANAGEMENT IN COMPENSATION DECISIONS

The Committee makes all pay decisions related to the NEOs. The Chairman & CEO does not participate in the Committee's deliberations or decisions with regard to his own compensation.

At the Committee's request, the Chairman & CEO does present individual pay recommendations to the Committee for the CFO, the other NEOs and other executives whose compensation arrangements are subject to the Committee's review. The Chairman & CEO's pay recommendations for such executives are informed by his assessments of individual contributions to the Company's financial performance, achievement of specified performance or strategic objectives, Talent Review results, as well as competitive pay data and other factors. These recommendations are then considered by the Committee with the assistance of its independent consultant.

The Chairman & CEO, the EVP, Chief Strategy and Talent Officer, the SVP, General Counsel & Secretary, and the Vice President of Global Executive Compensation & Benefits all attend Committee meetings, but are not present for the Committee's executive sessions, or for any discussion of their own compensation. Other senior executives, as appropriate to the topic, may be asked to attend Committee meetings to provide relevant information or advice, but they also do not

attend executive sessions, or any discussion of their own compensation.

ROLE OF INDEPENDENT CONSULTANT

In 2016, the Committee again retained the services of an external independent executive compensation consultant, Meridian Compensation Partners, LLC (Meridian), to work for the Committee in its review of executive and non-employee Director compensation practices, including the competitiveness of pay levels, executive compensation design issues, market trends, and technical considerations.

At no time during 2016, nor at any other time, has the Committee directed Meridian to perform its services in any particular manner, or using any particular methodology.

The Committee has the final authority to hire and terminate the consultant, and the Committee evaluates the consultant annually. Pursuant to SEC rules, the Committee annually assesses the independence of Meridian and in 2016 the Committee again concluded that no conflict of interest exists that would prevent Meridian from independently representing the Committee. Meridian does not provide any consulting advice to IPG, or any of its subsidiaries, outside the scope of executive compensation and will not do so without the prior consent of the Committee Chair. Meridian meets with the Committee chair and the Committee outside the presence of management.

Compensation Discussion & Analysis

ROLE OF THE COMPENSATION AND LEADERSHIP TALENT COMMITTEE

The Committee is responsible for establishing, implementing and continually monitoring adherence to the Company's compensation philosophy, as well as approving compensation awarded to senior corporate and operating executives, including the NEOs. Among its duties, the Committee is responsible for formulating the compensation recommendations for our Chairman & CEO and approving all compensation recommendations for select senior executives including the NEOs. Following review and discussion, the Committee submits its recommendations for compensation for the Chairman & CEO to the non-employee members of our Board for approval. The Committee is supported in its work by the EVP, Chief Strategy and Talent Officer, his staff, and an independent executive compensation consultant as described above.

The Committee's charter, which sets out its duties and responsibilities and addresses other matters, is reviewed annually and can be found on our website at <http://www.interpublic.com>.

ROLE OF STOCKHOLDER SAY-ON-PAY VOTES

We provide our stockholders with the opportunity to cast an annual advisory vote on executive compensation (a say-on-pay proposal). At our annual meeting of stockholders held in May 2016, a substantial majority of the votes (97%) cast on the say-on-pay proposal at that meeting were voted in favor of the proposal. The Committee believes this affirms stockholders' support of our approach to executive compensation in 2015 and the structural changes that were approved for 2016. The Committee welcomes feedback and dialogue with stockholders and will continue to consider the outcome of the Company's say-on-pay votes and evolving best practices in this area when making future compensation decisions for the NEOs.

SETTING COMPENSATION FOR THE NAMED EXECUTIVE OFFICERS

The Committee reviews and assesses the total compensation of each NEO on an annual basis. Material changes in compensation typically occur only based on

performance, in response to significant changes in an individual's responsibility, due to changes in market conditions, or in limited circumstances when the Company is at risk of losing a highly talented and valued employee.

Compensation decisions are made based on the following information:

External Market Analysis: The Committee annually conducts a review of the competitive market compensation level for each NEO. This review is performed by the independent consultant after the Committee has approved the peer companies to be used for the study. The Committee targets the competitive market for talent for both fixed and total target compensation.

Internal Equity: When making pay decisions, the Committee also takes into account internal equity. The Company has established comparability guidelines based on an executive's purview with regard to revenue,

operating income and headcount responsibility, geographic scope, and job complexity.

Individual Performance and Talent Assessment: The Committee's consideration is also informed by the Company's Talent Review process. The Committee participates in this annual review with the full membership of the Board of Directors. This Board-level review includes a discussion of each of the NEOs, their future career path and successors, as well as succession plans for the IPG CEO position. These reviews inform pay decisions by providing an in-depth look at the NEOs, their responsibilities, relative contributions and future potential, as well as their relative compensation.

Other factors: Additional factors, such as scarce skills, leadership skills, long-term potential and key client relationships are also taken into consideration when reviewing compensation.

USE OF COMPETITIVE DATA FOR COMPENSATION REVIEWS

The Market for Talent

In order to ensure our compensation programs reflect best practices, as well as to maintain competitive compensation program designs and levels, the Committee considers market data and compensation ranges of our peer group. In 2013, the Committee approved a single peer group that reflects both talent peers as well as industry peers. A few changes to this Peer Group were made as part of the 2015 annual review of compensation due to recent Mergers and Acquisition activity (detailed below). The Committee continues to believe that this Peer Group is appropriate.

In December 2015, Meridian Compensation Partners conducted its annual market review to assess the competitiveness of each NEOs target total compensation (consisting of base salary, target annual incentive and target long-term incentives). Compensation data were analyzed for comparable positions at the 2015 Compensation Peer Group (detailed below) as well as size-relevant data from several published survey sources. Meridian compares each of IPG's covered positions to comparable positions at peer companies and within the published survey sources based

on title and described roles and responsibilities. Retirement benefits are reviewed independently, with the last review conducted in 2011.

Using the size-adjusted data, the 2015 study concluded that executives in aggregate, were positioned near the median of the market for total target compensation. The Committee utilized this information, as well as other incumbent specific factors, to determine whether any pay adjustments were warranted for 2016.

Since the modifications made to IPG's peer group in 2013, we continue to believe that the group contains a good representation of IPG's industry competitors and size-relevant, talent-focused comparators. That being said, a few changes to our Peer Group were made as part of the 2015 annual review of compensation due to recent mergers and acquisition activity: AOL was acquired by Verizon and has therefore been removed; Time Inc. has been added and Gannett Co. Inc. completed a spin-off resulting in 2 business units Gannett (Publishing) and Tegna (broadcasting/digital), both of which have been added. The final peer group included:

The median revenue in 2015 for these peer companies was approximately \$6.4b as compared to IPG's 2015 revenue of \$7.6b.

RETIREMENT BENEFITS***PURPOSE***

The Company views retirement benefits as a key component of our executive compensation program because they encourage and reward long-term service. Therefore, we offer our NEOs and other employees a comprehensive benefits program that provides the opportunity to accumulate retirement income.

PROGRAM DESCRIPTIONS

Our retirement programs include the Company's qualified 401(k) savings plan, the Capital Accumulation Plan (CAP), the Senior Executive Retirement Income Plan (SERIP) and Executive Special Benefit Agreement (ESBA)

The Company's 401(k) savings plan is a tax-qualified retirement savings plan pursuant to which all U.S.-based employees, including the NEOs, are able to contribute compensation on a before-tax basis, subject to dollar limits prescribed by federal tax laws. For employees with less than 10 years of service, the Company matches 50% of the first 6% of compensation contributed. For employees with 10 or more years of service, the Company matches 75% of the first

Compensation Discussion & Analysis

6% of compensation that is contributed. The Company's 401(k) savings plan also allows after-tax contributions up to limits prescribed by federal tax laws. The match applies to the total amount contributed on both a before- and after-tax basis.

From time to time, the Company may provide an additional performance-based matching contribution to the 401(k) plan based on the Committee's assessment of the Company's annual performance, including the Company's operating margin for its consolidated U.S. businesses relative to pre-set targets. The objective of this feature is to induce greater participation in the 401(k) savings plan and to allow all U.S. employees to benefit from the Company's strong performance. For 2016, the Committee approved an additional matching contribution equal to 8% of participant matched contributions.

The CAP plan provides participants with an annual dollar credit to an interest-bearing account. Under the terms of the CAP, interest is credited on December 31st of each year at an interest rate equal to the closing 10-year U.S. Treasury yield on the last business day of the immediately preceding calendar year. For a more detailed description of the CAP, see "Nonqualified Deferred Compensation Arrangements - The Interpublic Capital Accumulation Plan" on page 51. Messrs. Roth, Mergenthaler, Krakowsky, Bonzani and Carroll participate in CAP at the levels described on page 51.

The SERIP provides a defined annual annuity to selected executives for a 15-year period following retirement upon satisfying specific vesting provisions. Participation is limited to a select group of very senior executives and requires Committee approval. Mr. Roth is the only NEO, who participates in the SERIP, and Mr. Roth no longer accumulates pay or service credit in the plan as his future benefit is fully vested. For a more detailed description of the SERIP, see "Pension Arrangements - The Interpublic Senior Executive Retirement Income Plan" on page 50.

The ESBA also provides a defined annual annuity to selected executives for a 15-year period following retirement upon satisfying specific vesting provisions. This type of agreement is frozen to new participants; participation is limited to a select group of very senior executives and requires Committee approval. Mr. Krakowsky is the only NEO who participates in the ESBA, and Mr. Krakowsky no longer

accumulates pay or service credit in the plan as his future benefit is fully vested. For a more detailed description of the ESBA please refer to page 50.

Benefits Review And Decision Process

As part of its competitive pay review, the independent consultant periodically provides the Committee with a comparison of IPG's benefits programs to those of a sample of competing companies. This benefits program review is conducted in the context of total compensation, and the review considers compensation and benefits in total.

Decisions regarding new or enhanced participation in these programs, other than 401(k), are made after considering the total compensation as one component to a total pay discussion. For a number of the NEOs, retirement and other benefits are the subject of individual employment agreements (which are described in greater detail beginning on page 53, under the heading "Employment Agreements" and which give IPG the ability to increase, but not decrease, the specific benefit).

On a case-by-case basis, the Committee, and the Management Human Resources Committee (MHRC) consisting of IPG's Chairman & CEO, the EVP, CFO, the EVP, Chief Strategy and Talent Officer, and the SVP, General Counsel & Secretary to which the Committee delegates certain responsibilities, consider the appropriateness of CAP and SERIP participation and benefits although all such decisions for NEOs are made solely by the Compensation Committee. In making recommendations to the Committee or MHRC, the Company considers an individual's role, level in the organization, total compensation level, performance, length of service, and other factors. When making determinations to issue additional CAP and SERIP awards, the Company also considers an individual's current retirement positioning, including all forms of accrued qualified and non-qualified retirement benefits previously awarded or earned and the value of the individual's Company match in the 401(k) savings plan or if not a participant for any year it assumes the executive contributed the maximum amount permitted to the plan.

SEVERANCE AND CHANGE OF CONTROL BENEFITS

In order to provide market-competitive total compensation packages to our executive officers, as well as to ensure the ongoing retention of these individuals in the event of potential takeovers that would create uncertainty as to their future employment, the Company offers severance and change of control benefits upon the occurrence of several specified events.

The NEOs may receive severance benefits from the Company under the terms of their employment agreements (described in greater detail beginning on page 53 under the heading "Employment Agreements"), the Company's Executive Severance Plan and/or change of control agreements, depending on the circumstances of a potential termination.

Table of Contents

Compensation Discussion & Analysis

Under the 2014 PIP, if a Change of Control occurs in the first quarter, NEOs receive an accelerated and prorated payout at target of their annual incentive. If a Change of Control occurs after the first quarter, NEOs receive a full accelerated payout at target of their annual incentives. Upon a Change of Control, the vesting of long-term incentives would remain in

tact unless there is a qualifying termination (upon which vesting is accelerated). Under our change in control agreements, individuals are eligible for enhanced severance benefits, contingent on a Change of Control being followed by a Qualifying Termination.

SHARE OWNERSHIP GUIDELINES

We have adopted share ownership guidelines for non-employee directors, NEOs and other senior executives. The purpose of these share ownership guidelines is to:

More closely align the financial interests of executives and non-employee directors with the Company's stockholders.

Communicate the commitment and personal investment of executives and directors in the Company.

Persons subject to the guidelines are also prohibited from engaging in any transaction involving derivatives that is designed to hedge against the market risk associated with ownership of IPG shares.

The share ownership guidelines are expressed as multiples of base salary. The multiple for the Chairman & CEO was increased from five times base salary to six times base salary in October 2012. Executives in the program have five years from 2008 (or from the date at which he or she joins the Company or is promoted into a position in which the guidelines apply) to reach the established guideline level. Beginning in 2013, those executives who have not met their established guideline level in the time allotted will be required to hold all net after-tax shares delivered from equity vestings until requirements are met.

Name	Share Ownership Guideline	2016 Compliance With Share Ownership
------	------------------------------	---

MICHAEL ROTH	6x	Yes
FRANK MERGENTHALER	2x	Yes
PHILIPPE KRAKOWSKY	2x	Yes
ANDREW BONZANI	2x	Yes
CHRISTOPHER CARROLL	2x	Yes

The Committee regularly reviews the levels of stock ownership against the stock ownership guideline levels applicable to the NEOs and other senior executives. As of December 31, 2016, all NEOs who are required to have reached their stock ownership guidelines had met or exceeded these guidelines (average ownership of over 400% of target).

TAX AND ACCOUNTING IMPLICATIONS

DEDUCTIBILITY OF EXECUTIVE COMPENSATION

Section 162(m) of the U.S. Internal Revenue Code (the Code) prohibits the Company from taking a tax deduction for compensation paid in excess of \$1,000,000 to a NEO (other than the principal financial officer). However, performance-based compensation, as defined in the tax law, is fully deductible if the plan under which the compensation is paid has been approved by stockholders and meets other requirements. The Company's policy is to qualify the compensation paid under its incentive compensation programs as tax deductible to the extent feasible and consistent with its overall compensation objectives.

As part of its responsibility, the Committee reviews and considers the deductibility of executive compensation. The Company believes that compensation paid in 2016 under its

executive incentive plans is deductible for federal income tax purposes, except as indicated below. In certain situations, the Committee may approve compensation that is not deductible in order to ensure competitive levels of total compensation for its NEOs. In this regard, for 2016, with respect to each NEO who is covered by Section 162(m) of the Code, to the extent that the sum of the executive's base salary, the fair market value of restricted stock awards that vested during the year and the additional bonus awards exceeded \$1,000,000, the excess was not deductible for federal income tax purposes.

Beginning in 2015, the annual and long-term incentive plans include a pool funding to ensure awards to NEOs meet the requirements for tax deductibility under Section 162(m) of

Table of Contents

Compensation Discussion & Analysis

the Tax Code. The maximum pool that can be used to pay annual and long-term incentives to NEOs is equal 8% of IPG's Operating Income during the applicable performance period. The amounts awarded for 2016 annual incentive awards are well below this cap (the first set of long-term incentives granted under this pool will not vest until February 28, 2018).

The Company has guidelines for reviewing the impact of the accounting and tax treatment of various forms of compensation covered by the PIP. The guidelines identify specific responsibilities and actions required by the Human Resources, Accounting and Tax departments for all group and individual actions. These guidelines are designed to ensure that accounting and tax treatment of the awards granted under the plan are properly addressed.

NON-QUALIFIED DEFERRED COMPENSATION

Effective since January 1, 2005, most of the Company's deferred compensation and nonqualified retirement benefit arrangements, including most of the Company's severance arrangements; have been subject to Section 409A of the Internal Revenue Code which provides that nonqualified deferred compensation plans follow certain rules on the timing and form of payments. Noncompliance with these rules could result in adverse tax consequences for the executives. The Company has made significant efforts to ensure that affected arrangements comply with the new requirements.

ACCOUNTING FOR STOCK-BASED COMPENSATION

Beginning on January 1, 2006, the Company began accounting for stock-based payments including its grants of stock options, restricted shares and performance shares in accordance with the requirements of FASB ASC Topic 718.

COMPENSATION RISK

The Company regularly reviews its compensation policies and practices, including any risks that may be inherent in the design of the Company's compensation plans. In early 2016, the Company reviewed its risk assessment process and the resulting analysis with the Committee, which concluded that

the compensation plans reflect the appropriate compensation goals and philosophy and any risk arising from the Company's compensation policies and practices was not deemed likely to have a material adverse impact on the Company's performance or financial results.

COMPENSATION RECOVERY IN THE EVENT OF A FINANCIAL RESTATEMENT

The Company has adopted a clawback policy under which, in the event of a significant restatement of financial results due to fraud or misconduct, it will review payments made to senior executives on the basis of having met or exceeded specific performance targets during the restatement period. If any bonuses paid based on such performance targets would have been lower had they been calculated based on such restated results, the Board of Directors will, to the full extent permitted by governing law, seek to recoup for the benefit of the Company all such bonuses to senior

executives whose fraud or misconduct, as determined by the Board of Directors, resulted in such restatement. For purposes of this policy, the term senior executives means executive officers as defined under the Securities Exchange Act of 1934, as amended, and the term bonuses means awards under The Interpublic Group of Companies, Inc. 2014 Performance Incentive Plan or any equivalent incentive plan which supersedes such plan, including, among other awards, annual incentives, stock options, performance cash and performance shares.

- (2) Reflects the number of shares under restricted stock award grants (Restricted Stock Awards) made under the 2014 PIP that will vest on February 28, 2019. All Restricted Stock Awards are credited with quarterly dividends, when and as declared by the Board of Directors, on the Common Stock. All Restricted Stock Awards, and any dividends paid on the restricted stock, are subject to forfeiture if the award recipient terminates employment before the third anniversary of the grant date.

- (4) Reflects the number of shares under Restricted Stock Awards made under the 2014 PIP that will vest on February 28, 2017.
- (5) Represents the number of unvested shares of Common Stock that the named executive officer has earned under performance share awards granted in 2014, for which the performance ended on December 31, 2016. The award remained subject to forfeiture had the employment of the award recipient terminated prior to the February 28, 2017 vesting date, which did not occur.
- (6) The value shown is calculated by multiplying (i) the number of shares shown in the column headed Number of Shares or Units of Stock That Have Not Vested by (ii) the closing price of the Common Stock (\$23.41), as reported by the NYSE on December 30, 2016.

- (8) Represents the maximum number of shares of Common Stock that the named executive officer would receive under a performance share award granted in 2015, for which the performance period will end on December 31, 2017. Any shares earned will remain subject to forfeiture if the employment of the award recipient terminates prior to February 28, 2018.
- (9) The values shown in this column are calculated by multiplying (i) the number of shares shown in the column headed Equity Incentive Plan Awards: Number of Unearned Shares, Units or Other Rights That Have Not Vested by (ii) the closing price of the Common Stock (\$23.41), as reported by the NYSE on December 30, 2016.

PENSION ARRANGEMENTS

Executive Special Benefit Agreement

Mr. Krakowsky entered into an Executive Special Benefit Agreement (an ESBA) in 2002, which provides that if he retires, resigns or otherwise terminates employment with Interpublic after his 60th birthday, or his employment terminates due to death, Interpublic will pay him \$245,000 per year for 15 years. If he retires, resigns or is terminated from employment with Interpublic on or after his 55th birthday, but prior to his 60th birthday, he will receive between \$171,500 and \$230,300 per year for 15 years, depending upon his age at the time of his termination. If his employment terminates (other than by reason of death) prior to his 55th birthday, he would receive \$50,000 per year for eight years.

If Mr. Krakowsky has a Qualifying Termination (as defined under the heading Severance and Change of Control Benefits on page 56), the amount of his annual ESBA benefit will be the amount that would have been payable if he had continued working for Interpublic through the end of his severance period.

If Mr. Krakowsky's employment terminates within two years after a Change of Control (as defined under the heading Severance and Change of Control Benefits below) of Interpublic, his ESBA benefits would be paid in a lump sum, rather than installments. The amount of the lump sum would be the then-present value of the benefit described above, except that if Mr. Krakowsky's termination is a Qualifying Termination and Mr. Krakowsky's age as of December 31st of the year in which the Change of Control occurs is 58 or older, the lump-sum would be based on the then-present value of \$245,000 per year for 15 years.

If Mr. Krakowsky dies before all required payments are made to him under these ESBA's, Interpublic would make the remaining payments to his beneficiaries.

The Interpublic Senior Executive Retirement Income Plan

Interpublic provides retirement benefits to certain U.S.-based senior executives of Interpublic and its subsidiaries under the Senior Executive Retirement Income Plan (SERIP). Of the named executive officers, only Mr. Roth participates in SERIP. Mr. Roth is entitled to receive an annual benefit of \$110,000 for 15 years that is fully vested.

The SERIP provides monthly payments for 10 or 15 years beginning two years after Mr. Roth's termination of employment. The amount of each participant's benefit is determined at the discretion of Interpublic, with approval from the Compensation Committee, and is set forth in a Participation Agreement entered into with the executive when the executive's participation in the SERIP is approved; the Participation Agreement may be amended from time to time, including to increase (but not to decrease) the amount of the SERIP benefit. In general, the SERIP provides that 30% of a participant's benefit becomes vested after three years of participation in the SERIP, and the vested percentage increases by 10% at the end of each of the next seven years. However, the Compensation Committee or its designee may approve an alternative vesting schedule on a case-by-case basis. If an executive breaches a non-competition or non-solicitation agreement, the executive's entire benefit will be forfeited (even if the benefit had already vested). If a participant has a Qualifying Termination, the SERIP generally provides for continued vesting through the end of the

participant's severance period.

If a participant's employment terminates within two years after a Change of Control, the participant's vested SERIP benefit will be accelerated and paid in a lump sum, rather than installments. The amount of the lump sum would be based on the then-present value of the future payments, to the extent vested. In general, the vested percentage would be determined as described above, provided that if the termination is a Qualifying Termination and, as of December 31st of the year in which the Change of Control occurs, (i) the participant's age is 55 or older and (ii) the participant is within two years of full vesting, the participant's entire benefit under SERIP will be fully vested.

(1) The calculation of the present value of accumulated benefit assumes a discount rate of 4.20 percent. No preretirement decrements were used in the calculation of present values. Contingent benefits arising from death, early retirement or other termination of employment were not valued.

(2) For Mr. Krakowsky, the amount shown is the present value of the maximum benefit that he would be entitled to receive under his ESBA if his employment by Interpublic continues until he reaches age 60. The terms and conditions of the ESBA are described in greater detail on page 50 under the heading Executive Special Benefit Agreement.

NONQUALIFIED DEFERRED COMPENSATION ARRANGEMENTS**The Interpublic Capital Accumulation Plan**

Interpublic maintains a Capital Accumulation Plan (the CAP) under which senior management employees of Interpublic and its subsidiaries selected by the Management Human Resources Committee (the MHRC) are entitled to receive deferred compensation benefits. Under CAP, a participating employee receives annual credits of a specified dollar amount (a dollar credit) and interest each December 31st. The amount of each year's interest credit is equal to the 10-year U.S. Treasury yield curve annual rate (also known as the constant maturity rate) as of the last business day of the immediately preceding calendar year. Each participant's account balance becomes fully vested as to both prior and future dollar and interest credits when the participant has completed three years of participation in the CAP,

except that all interest credits since the inception of the participant's participation in the plan are subject to forfeiture if the participant breaches a non-competition or non-solicitation agreement. If a participant has a Qualifying Termination, the CAP provides for continued vesting through the end of the participant's severance period and a special dollar credit equal to the dollar credits that would have been added to the participant's account (based on the credit amount in effect at time of the Qualifying Termination) if he had continued working for Interpublic until the due date for his last severance payment. Any portion of a participant's benefit that is not vested upon termination of employment (taking into account accelerated vesting upon a Qualifying Termination) will be forfeited.

If a participant has a Qualifying Termination within two years after a Change of Control, (i) the participant will become fully vested and (ii) the participant's account will be credited with an amount equal to the dollar credits that would have been added to his account (based on the credit amount in effect at time of the Qualifying Termination) if he had continued working for Interpublic until the end of his severance period.

Each named executive officer is a participant in the CAP and for 2016 received the following annual dollar credit:

Name	Annual Dollar Credit
Mr. Roth	\$ 350,000
Mr. Mergenthaler	\$ 200,000
Mr. Krakowsky	\$ 50,000
Mr. Bonzani	\$ 50,000
Mr. Carroll	\$ 50,000

For 2016, each participant received an interest credit equal to 2.270% of his account balance as of December 31, 2016 (determined before the 2016 dollar credit was added). Each named executive officer's CAP account balance is fully vested.

In general, each named executive officer's vested account balance is payable in a lump sum two years after the termination of his employment with Interpublic and its subsidiaries. However, if the participant's employment terminates within two years after a Change of Control, payment will be accelerated.

(2) No earnings on deferred amounts are included in the Change in Pension Value and Nonqualified Deferred Compensation Earnings column of the Summary Compensation Table for 2016, 2015 or 2014 because the interest credits under the CAP did not constitute above-market or preferential earnings as defined by SEC rules.

(3) The aggregate balances shown in this column include the following dollar credits that were included in the All Other Compensation column of the Summary Compensation Table for each of 2015 and 2014 on page 43, other than for Mr. Bonzani, who was not a participant in the CAP for such years:

EMPLOYMENT AGREEMENTS, TERMINATION OF EMPLOYMENT AND CHANGE OF CONTROL ARRANGEMENTS**Employment Agreements**

Each of the named executive officers has an employment agreement with Interpublic. Each employment agreement includes provisions describing the named executive officer's position and responsibilities, his salary and eligibility for incentive compensation and other benefits and perquisites. Each agreement also includes covenants pursuant to which the named executive officer agrees not to divulge confidential information of Interpublic and its subsidiaries and agrees for a period of time after termination of employment to refrain from soliciting employees of Interpublic and its subsidiaries and from soliciting or handling the business of clients of Interpublic.

Annual Bonus - Each employment agreement provides for each executive officer to receive an annual bonus target bonus, with the actual award ranging between 0% and 200% of the target depending on Interpublic financial performance, his individual performance, and management discretion.

Long-Term Incentive Awards - Each employment agreement also provides for participation in Interpublic's performance-based long-term incentive programs. Each year's awards may consist of stock options, restricted stock, performance-based share and cash awards or another form of incentive award at the sole discretion of the Compensation Committee.

Employment Agreement Base Salary and Incentive Compensation Information

The following table provides the annual salary, annual incentive target percentage and long-term incentive target award value for each executive officer for 2016.

Michael I. Roth Employment Agreement

Mr. Roth's employment agreement also provides that he is entitled to (i) participate in the CAP and (ii) participate in such other employee benefits and programs as are available from time to time to other key management executives generally.

If Mr. Roth's employment is terminated involuntarily without Cause (as defined under the heading "Severance and Change of Control Benefits" below), his employment agreement provides for salary continuation for 12 months from the date notice of his termination is provided, at the rate in effect before his termination. If Mr. Roth obtains alternative employment before the end of the severance period, the amount of his severance pay will be reduced (but not below zero) by the amount of the non-contingent compensation payable to Mr. Roth in connection with his new employment for service before the end of the severance period.

After an involuntary termination without Cause, Mr. Roth will also be eligible to receive (i) cash payments to subsidize the cost of medical, dental, and vision benefits at active employee rates until the end of the severance period and a subsequent COBRA period, and (ii) a cash payment equal to the amount of matching contributions that Interpublic would have

contributed on his behalf to the Interpublic Savings Plan if he had continued participating in that plan until the end of the severance period. The subsidy for medical, dental and vision benefits would end if Mr. Roth accepts employment with another employer offering similar benefits. Mr. Roth may terminate his employment at any time by giving notice to Interpublic at least three months in advance.

Frank Mergenthaler Employment Agreement

Mr. Mergenthaler's employment agreement also provides that he is entitled to (i) participate in the CAP, with a current annual dollar credit of \$200,000, and (ii) participate in such other employee benefits and programs as are available from time to time to other key management executives generally.

In the event of a Qualifying Termination of Mr. Mergenthaler's employment, his employment agreement provides for a lump-sum payment equal to the sum of (i) one year's base salary at the rate in effect before his termination, (ii) his target bonus for the year of termination, plus (iii) a pro-rated portion of his target bonus for the year in which the termination occurs and (iv) any other awards and benefits to which he is entitled in accordance with their terms. In addition, if Mr. Mergenthaler or any of his dependents elects continuation

health coverage under COBRA, his employment agreement provides for a lump sum payment equal to the sum of the premiums for the first year of such COBRA coverage. Mr. Mergenthaler may terminate his employment at any time by giving notice to Interpublic at least six months in advance.

Philippe Krakowsky Employment Agreement

Mr. Krakowsky's employment agreement also provides that he is entitled to (i) participate in Interpublic's Capital Accumulation Plan, with an annual dollar credit of \$50,000 and (ii) participate in such other employee benefits and programs as are available from time to time to other key management executives generally.

If Mr. Krakowsky's employment is terminated involuntarily without Cause, his employment agreement provides for salary continuation for 12 months from the date notice of his termination is provided, at the rate in effect before his termination; provided that if Mr. Krakowsky obtains alternative employment before the end of the severance period, the amount of his severance pay will be reduced (but not below zero) by the amount of the non-contingent compensation payable to Mr. Krakowsky in connection with his new employment for service before the end of the severance period.

Mr. Krakowsky is also eligible to receive a bonus for the year in which his employment is terminated. After an involuntary termination, Mr. Krakowsky would also be eligible to receive: (i) continued vesting of all restricted stock and options until the end of the severance period, (ii) cash payments to subsidize the cost of medical, dental, and vision benefits at active employee rates until the end of the severance period and a subsequent COBRA period, (iii) a cash payment equal to the amount of matching contributions that Interpublic would have contributed on his behalf to the Interpublic Savings Plan if he had continued participating in that plan until the end of the severance period and (iv) a cash payment in lieu of continued life insurance for 12 months from the notice date. The subsidy for medical, dental and vision benefits would end if Mr. Krakowsky accepts

employment with another employer offering similar benefits. Mr. Krakowsky may terminate his employment at any time by giving notice to Interpublic at least six months in advance.

Andrew Bonzani Employment Agreement

Mr. Bonzani's agreement also provides that he is entitled to participate in such other employee benefits and programs as are available from time to time to other key management executives generally.

In the event of a Qualifying Termination, his employment agreement provides for severance pay under the Executive Severance Plan (described below), with a salary continuation period of 18 months.

Christopher Carroll Employment Agreement

Mr. Carroll's employment agreement also provides that he is entitled to participate in (i) Interpublic's Capital Accumulation Plan, with an annual dollar credit of \$50,000, and (ii) such other employee benefits and programs as are available from time to time to other key management executives generally.

If Mr. Carroll's employment is terminated involuntarily without Cause, his employment agreement provides for (i) salary continuation, at the rate in effect before his termination, for 12 months from when notice of his termination is provided and (ii) lump sum payment of his target bonus for the year of termination. After his termination date, Mr. Carroll will be eligible to receive (i) cash payments to subsidize the cost of medical, dental, and vision benefits at active employee rates until the end of the severance period and a subsequent COBRA period, and (ii) a cash payment equal to the amount of matching contributions that Interpublic would have contributed on his behalf to the Interpublic Savings Plan if he had continued participating in that plan until the end of the severance period. Mr. Carroll may terminate his employment at any time by giving notice to Interpublic at least six-months in advance.

Executive Severance Plan

Under the Interpublic Executive Severance Plan (ESP), certain senior management employees, including the named executive officers, are entitled to receive severance and other welfare benefits, in the event of a Qualifying Termination. In general, the ESP provides for salary continuation, at the executive's base salary rate in effect for the year of termination, for a specified number of months, which varies generally according to the seniority of the executive. If the executive's Qualifying Termination occurs within two years after a Change of Control, severance is payable in a lump sum, rather than over the severance period.

Under the ESP the named executive officers are entitled to the following salary continuation periods:

Name	Salary Continuation Period
Mr. Roth	24 months
Mr. Mergenthaler	18 months
Mr. Krakowsky	18 months
Mr. Bonzani	18 months
Mr. Carroll	12 months

Table of Contents

Executive Compensation

The ESP also provides for cash payments in lieu of continued medical, dental and vision benefits at active employee rates for the salary continuation period, followed by a COBRA period.

Benefits under the ESP are not in addition to severance benefits under individual employment agreements. Rather, severance benefits that are paid under individual

employment agreements are credited against amounts payable under the ESP.

The ESP requires the executive to agree to certain post-termination covenants which, if violated, would result in the forfeiture of the executive's future severance payments and benefits. Benefits under the ESP are also conditioned on the executive executing a mutual release.

Change of Control Agreements

Each named executive officer has entered into a change of control agreement with Interpublic that provides for severance and other benefits in the event of a Qualifying Termination within two years after a Change of Control. These benefits are instead of, and not in addition to, the benefits the executive otherwise would be entitled to receive under the executive's employment agreement and the ESP.

Each of these change of control agreements provides for a lump-sum severance payment equal to a specified multiple of the executive's base salary plus his target bonus. For purposes of this calculation, salary and target bonus are each determined based on the rate in effect for the executive for the year of the Change of Control or for the year of the Qualifying Termination, whichever is greater.

The multiple applied and the corresponding months of service under the change of control agreements are:

Name	Multiple	Months of Severance
Mr. Roth	3	36 months
Mr. Mergenthaler	2	24 months
Mr. Krakowsky	2	24 months
Mr. Bonzani	2	24 months
Mr. Carroll	2	24 months

In addition, under the agreement the named executive officer's benefit under the CAP will be subject to the following adjustments: (i) annual dollar credits will be added for his severance period as if his severance were paid in semi-monthly installments over his severance period (rather than in a lump sum); (ii) he will receive a prorated annual

dollar credit for the year in which the severance period expires, and (iii) in addition to the interest credits added under the terms of the CAP each December 31st, the executive will receive a pro-rated interest credit for the year in which the severance period expires, at the rate applied under CAP for the year in which the executive's CAP balance is paid.

The agreement also provides that, if the named executive officer is a participant in the SERIP, the vested percentage of his SERIP benefit will be determined as if his severance were paid in monthly installments over his severance period (rather than in a lump sum).

Each agreement also provides for cash payments to subsidize the cost of medical, dental and vision benefits during the months for which severance is provided, in lieu of the benefit subsidies otherwise payable under the executive's employment agreement and the ESP.

Each agreement requires the executive to agree to certain post-termination covenants, which restrict solicitation of employees and clients, and if violated, would result in the forfeiture of the executive's severance payments and benefit.

SEVERANCE AND CHANGE OF CONTROL BENEFITS

The preceding narrative describes the severance and other benefits to which the named executive officers may be entitled under the various agreements, plans and arrangements in connection with or following a termination of the executive's employment. Below is a table that quantifies the benefits that each named executive officer would have received had his employment terminated as of December 31, 2016 under the following circumstances:

Triggering Event ⁽¹⁾	Description
Termination for Cause or Voluntary Termination Without Good Reason	<p>In general (subject to certain variations in each executive's employment agreement), Interpublic would have Cause to terminate an executive's employment if the executive (a) materially breaches a provision in his employment agreement and fails to cure such breach within a 15-day period; (b) misappropriates funds or property of Interpublic; (c) attempts to secure any personal profit related to the business of Interpublic without proper prior written approval; (d) engages in fraud, material dishonesty, gross negligence, gross malfeasance or insubordination, or willful (i) failure to follow Interpublic's Code of Conduct or (ii) misconduct in the performance of his duties, excluding, in either case, acts taken in good faith that do not cause material harm to Interpublic; (e) refuses or fails to attempt in good faith to perform his duties as an employee or to follow a reasonable good-faith direction of the Board of Directors or the person to whom the executive reports directly if such refusal or failure is not cured within a 15-day period; (f) has committed or is formally charged or indicted for a felony or a crime involving dishonesty, fraud or moral turpitude or (g) engages in conduct that is clearly prohibited by the policy of Interpublic prohibiting discrimination or harassment based on age, gender, race, religion, disability, national origin or any other protected category.</p>
Qualifying Termination	<p>In general, an executive would have Good Reason to terminate his employment if Interpublic, without the executive's consent, (a) materially reduces the executive's base salary; (b) materially diminishes the authority, duties or responsibilities of the executive or the supervisor to whom the executive is required to report; (c) materially diminishes the budget over which the executive has authority; (d) requires the executive to relocate to an office more than 50 miles outside the city in which he is principally based or (e) materially breaches an employment agreement with the executive. Before resigning for Good Reason, the executive generally must give Interpublic notice and an opportunity to cure the adverse action.</p>
Change of Control	<p>An involuntary termination of the executive's employment without Cause or a resignation by the executive for Good Reason.</p> <p>In general, a Change of Control will be deemed to have occurred if: (i) any person, other than Interpublic or any of its subsidiaries, becomes the beneficial owner of more than 50% of the combined voting power of Interpublic's then outstanding voting securities; (ii) any person, other than Interpublic or any of its subsidiaries, acquires (during a 12-month</p>
