PART I

Item 1. *Business.*

General Development of Business

Skyline Corporation was originally incorporated in Indiana in 1959, as successor to a business founded in 1951. Skyline Corporation and its consolidated subsidiaries (the "Corporation", "Skyline") designs, produces and markets manufactured housing, modular housing and park models to independent dealers and manufactured housing communities located throughout the United States and Canada. Manufactured housing is built to standards established by the U.S. Department of Housing and Urban Development, modular homes are built according to state, provincial or local building codes, and park models are built according to specifications established by the American National Standards Institute.

The Corporation sold 3,679 manufactured homes, 313 modular homes and 447 park models in fiscal 2017.

The Corporation's housing products are marketed under a number of trademarks. They are available in lengths ranging from 30' to 76' and in singlewide widths from 12' to 18', doublewide widths from 18' to 32', and triplewide widths from 36' to 46'. The area of a singlewide ranges from approximately 400 to 1,200 square feet, a doublewide from approximately 700 to 2,400 square feet, and a triplewide from approximately 1,600 to 2,900 square feet.

As noted in "Discontinued Operations" in Item 7, the Corporation sold its recreational vehicle business during fiscal 2015 in order to focus on its core housing business. The Corporation's park model business, which was formerly reported in the recreational vehicle segment, was not disposed as part of the sale and is now reported in the housing segment because net sales do not warrant separate segment reporting.

Financial Information about Segments

The Corporation operates in one business segment: housing. Prior to fiscal 2015, the Corporation reported net sales, operating results and total assets in two business segments; housing and recreational vehicles. During the second quarter of fiscal 2015, however, the Corporation made a strategic decision to exit the recreational vehicle industry in order to focus on its core housing business. In this regard, in October 2014 the Corporation sold substantially all of its recreational vehicle-related assets to Evergreen Recreational Vehicles, LLC. Operating results of the former recreational vehicle business are reported as discontinued operations in the consolidated statements of operations for all periods presented herein, and the recreational vehicle segment is no longer included in segment reporting (see Note 2 to the Consolidated Financial Statements).

Narrative Description of Business

Principal Products and Markets

The Corporation's homes are marketed under a number of trademarks, and are available in a variety of dimensions. Manufactured housing models are built according to standards established by the U.S. Department of Housing and Urban Development.

Modular homes are built according to state, provincial or local building codes. Each home typically includes two to four bedrooms, kitchen, dining area, living room, one or two bathrooms, kitchen appliances, central heating and cooling. Custom options may include but are not limited to: exterior dormers and windows; interior or exterior accent columns; fireplaces and whirlpool tubs. Materials used to construct a manufactured or a modular home are similar to those used in site-built housing. The Corporation also sells homes that are "Energy-Star" compliant.

Park models are marketed under the "Shore Park" trademark. The Corporation's park models are intended to provide temporary living accommodations for individuals seeking leisure travel and outdoor recreation.

The principal markets for manufactured and modular housing are the suburban and rural areas of the continental United States and Canada. The principal buyers continue to be individuals over the age of fifty, but the market tends to broaden when conventional housing becomes more difficult to purchase and finance.

Table of Contents

Item 1. Business (Continued). Principal Products and Markets (Continued)

The park model market is made up of primarily vacationing families and retired couples.

The Corporation provides the retail purchaser of its homes and park models with a full fifteen-month warranty against defects in design, materials and workmanship. The warranties are backed by service departments located at the Corporation's manufacturing facilities and an extensive field service system.

The amount and percentage of net sales contributed by manufactured housing, modular housing and park model products is noted in Item 7.

Method of Distribution

The Corporation's products are distributed by approximately 318 independent dealers at 653 locations throughout the United States and Canada. These are generally not exclusive dealerships and it is believed that most dealers also sell products of other manufacturers.

The Corporation's products are sold to dealers either through floor plan financing with various financial institutions or on a cash basis. Payments to the Corporation are made either directly by the dealer or by financial institutions, which have agreed to finance dealer purchases of the Corporation's products. In accordance with industry practice, certain financial institutions which finance dealer purchases require the Corporation to execute repurchase agreements in which the Corporation agrees, that in the event a dealer defaults on its repayment of the financing, the Corporation will repurchase its products from the financial institution in accordance with a declining repurchase price schedule agreed to by the financial institution and the Corporation. Any loss under these agreements is the difference between the repurchase cost and the resale value of the units repurchased. Further, the risk of loss is spread over numerous dealers.

The Corporation had no losses related to repurchases in fiscal year 2017, and losses of \$50,000 related to repurchases of recreational vehicles in fiscal year 2016.

Additional information regarding these repurchase agreements is included in Note 10, Commitments and Contingencies, in the Notes to Consolidated Financial Statements under Item 8.

Raw Materials and Supplies

The Corporation is basically an assembler and installer of components purchased from outside sources. The major components used by the Corporation are electrical components, lumber, plywood, shingles, vinyl and wood siding, steel, aluminum, insulation, home appliances, furnaces, plumbing fixtures, hardware, floor coverings and furniture. The suppliers are many and range in size from large national companies to very small local companies. At the present time the Corporation is obtaining sufficient materials to fulfill its needs.

Patents, Trademarks, Licenses, Franchises and Concessions

The Corporation does not rely upon any terminable or nonrenewable rights such as patents, licenses or franchises under the trademarks or patents of others, in the conduct of its business.

Seasonal Fluctuations

While the Corporation maintains production of homes and park models throughout the year, seasonal fluctuations in sales do occur. Sales and production of homes are affected by winter weather conditions at the Corporation's northern plants. Park model sales are generally higher in the spring and summer months than in the fall and winter months.

Inventory

The Corporation does not maintain significant finished goods inventories. In addition, there are no inventories sold on consignment.

Table of Contents**Item 1. Business (Continued).*****Dependence Upon Individual Customers***

During fiscal 2017, no individual customer had net sales exceeding 10 percent of total net sales. During fiscal 2016, net sales to Sun Home Services, Inc. (Sun Home) totaled \$22,231,000 or 10 percent of total net sales. Based on past sales to Sun Home, the Corporation could have a material adverse effect on its financial condition and results of operations if the Corporation experienced a loss of this customer or if the volume of sales significantly decreased.

Backlog

The Corporation does not consider the existence and extent of backlog to be significant in its business. The Corporation's production is based on a relatively short manufacturing cycle and customer orders, which continuously fluctuate.

As such, the existence of backlog is insignificant at any given date and does not typically provide a reliable indication of the status of the Corporation's business.

Government Contracts

The Corporation has had no government contracts during the past three years.

Competitive Conditions

The Corporation's primary competitors range from multi-billion dollar corporations to relatively small and specialized manufacturers. The principal methods of competition include but are not limited to price, features, service, warranty and product performance. Service and product performance are believed to be competitive advantages, while lack of vertical integration is considered a competitive disadvantage. The Corporation also competes with companies that provide other forms of housing, such as new and existing site-built homes, apartments, condominiums and townhouses.

The following tables show the Corporation's competitive position on a calendar and fiscal year basis in the product lines it sells.

	Units Shipped Calendar Year 2016			Units Shipped Calendar Year 2015		
	Industry	Skyline	Market Share	Industry	Skyline	Market Share
Manufactured housing	81,169	3,606	4.4%	70,519	2,872	4.1%
Modular housing	13,881	334	2.4%	13,974	341	2.4%
Park models	3,669	419	11.4%	3,649	380	10.4%

	Units Shipped Fiscal Year 2017			Units Shipped Fiscal Year 2016		
	Industry	Skyline	Market Share	Industry	Skyline	Market Share
Manufactured housing	86,999	3,679	4.2%	75,857	3,217	4.2%
Park models	3,886	447	11.5%	3,479	337	9.7%

The competitive position for modular housing on a fiscal year basis is omitted because industry data is only available on a calendar quarter basis.

The Corporation's business is affected by the availability of wholesale and retail financing. Consequently, increases in interest rates and the availability of credit through governmental action or otherwise, have adversely affected the Corporation's business in the past and may do so again in the future.

Environmental Quality

The Corporation believes that compliance with federal, state and local requirements with respect to environmental quality will not require any material capital expenditures for plant or equipment modifications which would adversely affect earnings.

Table of Contents

Item 1. Business (Continued).

Government Regulations

The manufacture, distribution and sale of manufactured housing, modular housing and park models are subject to government regulations in the United States at federal, state and local levels. The U.S. Department of Housing and Urban Development (HUD) has set national manufactured home construction and safety standards and implemented recall and other regulations since 1976. The National Manufactured Housing Construction and Safety Standards Act of 1974, as amended, under which such standards and regulations are promulgated, prohibits states from establishing or continuing in effect any manufactured home standard that is not identical to the federal standards as to any covered aspect of performance. Implementation of these standards and regulations involves inspection agency approval of manufactured home designs, plant and home inspection by states or other HUD-approved third parties, manufacturer certification that the standards are met, and possible recalls if they are not or if homes contain safety hazards.

HUD has promulgated rules requiring producers of manufactured homes to utilize wood products certified by their suppliers to meet HUD's established limits on formaldehyde emissions, and to place in each home written notice to prospective purchasers of possible adverse reaction from airborne formaldehyde in the homes. These rules are designated as preemptive of state regulation. Some components of manufactured and modular housing may also be subject to Consumer Product Safety Commission standards and recall requirements.

Regarding park models, the Corporation has voluntarily subjected itself to third party inspection in order to further assure the Corporation, its dealers, and customers of compliance with established standards.

Manufactured housing, modular housing and park model sales may be subject to the Magnuson Moss Warranty Federal Trade Commission Improvement Act, which regulates warranties on consumer products.

The Corporation's operations are subject to the Federal Occupational Safety and Health Act, and are routinely inspected thereunder.

The transportation and placement (in the case of manufactured and modular housing) of the Corporation's products are subject to state highway use regulations and local ordinances which control the size of units that may be transported, the roads to be used, speed limits, hours of travel, and allowable locations for manufactured homes and communities.

The Corporation is also subject to many state manufacturer licensing and bonding requirements, and to dealer day in court requirements in some states.

The Corporation believes that it is currently in compliance with the above regulations.

Number of Employees

The Corporation employed approximately 1,300 people at May 31, 2017.

Executive Officers of the Corporation

Information regarding the Corporation's executive officers is located in this document under Item 4.5.

Available Information

The Corporation makes available, free of charge, through the Investors section of its internet website its annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, Proxy Statements and all amendments to those reports as soon as practicable after such material is electronically filed or furnished to the United States Securities and Exchange Commission (SEC). The Corporation's internet site is <http://www.skylinecorp.com>. A copy of the Corporation's annual report on Form 10-K will be provided without charge upon written request to Skyline Corporation, Investor Relations Department, Post Office Box 743, Elkhart, Indiana 46515.

The public may read and copy any materials the Corporation has filed with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549. The public may also obtain information on the

Table of Contents

Item 1. Business (Continued). Available Information (Continued)

operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an internet website (<http://www.sec.gov>) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

Item 1A. Risk Factors.

Investors or potential investors should carefully consider the risks described below. Additional risks of which the Corporation is presently unaware or that the Corporation considers immaterial may also impair business operations and hinder financial performance.

Incurrence of Net Losses

Due to negative economic conditions that impacted the manufactured housing, modular housing and recreational vehicle industries, the Corporation incurred net losses from fiscal years 2008 to 2015. Losses in future years could negatively affect the Corporation's liquidity.

Changing Consumer Preferences

Changes in consumer preferences for manufactured housing, modular housing and park models occur over time, and consequently the Corporation responds to changing demand by evaluating the market acceptability of its products. Delays in responding to changing consumer preferences could have an adverse effect on net sales, operating results and cash flows.

Dependence on Independent Dealers

The Corporation sells its manufactured homes, modular homes and park models to independent dealers. These dealers are not obligated to exclusively sell the Corporation's products, and may choose to sell competitor's products. In addition, a dealer may become financially insolvent and be forced to close its business. Both scenarios could have an adverse effect on net sales, operating results and cash flows.

Cost and Availability of Raw Materials

Prices and availability of raw materials used to manufacture the Corporation's products can change significantly due to fluctuations in supply and demand. In addition, the cost of raw materials is also influenced by transportation costs. The Corporation has historically been able to have an adequate supply of raw materials by maintaining good relations with its vendors. Increased prices have historically been passed on to dealers by raising the price of manufactured housing, modular housing and park models. There is no certainty that the Corporation will be able to pass on future price increases and maintain an adequate supply of raw materials. The inability to raise the price of its products and to maintain a proper supply of materials could have a negative impact on net sales, operating results and cash flows.

Dealer Inventories

As wholesale shipments of manufactured homes, modular homes and park models exceed retail sales, dealer inventories reach a level where dealers decrease orders from manufacturers. As manufacturers respond to reduced demand, many either offer discounts to maintain production volumes or curtail production levels. Both outcomes could have a negative impact on net sales, operating results and cash flows.

Competition

As noted in Item 1, the manufactured housing, modular housing and park model industries are highly competitive with particular emphasis on price and features offered. Some of the Corporation's competitors are vertically integrated by owning retail, consumer finance and insurance operations. This integration may provide competitors with an advantage with dealers. In addition, the Corporation's housing products compete with other forms of housing, such as new and existing site-built homes, apartments, condominiums and townhouses. The inability to effectively compete in this environment could result in lower net sales, operating results and cash flows.

Table of Contents

Item 1A. Risk Factors. (Continued).

Retail Financing Availability

Customers who purchase the Corporation's products generally obtain retail financing from third party lenders. The availability, terms and cost of retail financing depend on the lending practices of financial institutions, governmental policies and economic and other conditions, all of which are beyond the Corporation's control. A customer seeking to purchase a manufactured home without land will generally pay a higher interest rate and have a shorter loan maturity versus a customer financing the purchase of land and a home. This difference is due to most states classifying home-only manufactured housing loans as personal property rather than real property for purposes of taxation and lien perfection.

In past years, many lenders of home-only financing have tightened credit underwriting standards, with some deciding to exit the industry. These actions resulted in decreased availability of retail financing, causing a negative effect on sales and operating results. If retail financing were to be further curtailed, net sales, operating results and cash flows could be adversely affected.

Wholesale Financing Availability

Independent dealers of the Corporation's products generally finance their inventory purchases with wholesale floor plan financing provided by lending institutions. A dealer's ability to obtain financing is significantly affected by the number of lending institutions offering floor planning, and by an institution's lending limits. In past years, the industries in which the Corporation operates experienced a reduction in both the number of lenders offering floor planning and the amount of money available for financing. Any further decline in wholesale financing could have a negative impact on a dealer's ability to purchase manufactured housing, modular housing and park model products, resulting in lower net sales, operating results and cash flows.

Governmental Regulations

As noted in Item 1, the Corporation is subject to various governmental regulations. Implementation of new regulations or amendments to existing regulations could significantly increase the cost of the Corporation's products. In addition, failure to comply with present or future regulations could result in fines or potential civil or criminal liability. Both scenarios could negatively impact net sales, operating results and cash flows.

Contingent Repurchase Agreements

As referenced in Note 10 to the Notes to the Consolidated Financial Statements in Item 8, the Corporation is contingently liable under repurchase agreements with certain financial institutions providing inventory financing for retailers of its products. The Corporation could be required to fulfill some or all of the repurchase agreements, resulting in increased expense and reduced cash flows.

Cyclical and Seasonal Nature of Business

The industries in which the Corporation operates are highly cyclical, and are impacted by but not limited to the following conditions:

Availability of wholesale and retail financing;

Consumer confidence;

Interest rates;

Demographic and employment trends;

Edgar Filing: SKYLINE CORP - Form 10-K

Availability of used or repossessed homes or park model; and

Impact of inflation.

Sales associated with the manufactured housing, modular housing and park model industries are also seasonal in nature with sales being lowest in the winter months. Seasonal changes, in addition to weakness in demand in one or both of the Corporation's market segments, could materially impact the Corporation's net sales, operating results and cash flows.

Table of Contents**Item 1A. Risk Factors. (Continued).****Dependence on Executive Officers and Other Key Personnel**

The Corporation depends on the efforts of its executive officers and certain key employees. An unexpected loss of the service of one or more of these individuals could have an adverse effect on net sales, operating results and cash flows of the Corporation.

Covenant Compliance

The Corporation's secured revolving credit facility necessitates compliance with various financial covenants. During the second and third quarters of fiscal 2017, the Corporation did not meet certain financial covenants. Waiver of the covenant defaults were obtained. The inability to meet covenants in the future represents an event of default, which if not cured or waived could negatively affect the Corporation's ability to obtain financing under the facility and thereby have an adverse effect on liquidity.

Information Technology

The Corporation utilizes information technology and other computer resources (computer systems) to perform various operational tasks, and record and maintain business data. These computer systems are vulnerable to damage or interruption from power outages, telecommunications or internet failures, computer viruses, computer breaches, catastrophic events or human error. If computer systems and corresponding backup systems are damaged or fail to function properly, the Corporation could have disruptions in production and operational delays that could have an adverse effect on sales, operating results and cash flows.

Item 1B. Unresolved Staff Comments.

None

Item 2. Properties.

The Corporation's eight operating manufacturing facilities and three corporate facilities, all of which are owned, are as follows:

Location	Products	Approximate Square Footage
California, San Jacinto	Housing and Park Models	84,000
California, Woodland	Housing and Park Models	81,000
Florida, Ocala	Housing and Park Models	139,000
Indiana, Elkhart	Corporate	37,000
Indiana, Elkhart	Corporate	18,000
Indiana, Elkhart	Corporate	4,000
Kansas, Arkansas City	Housing and Park Models	83,000
Ohio, Sugarcreek	Housing and Park Models	149,000
Oregon, McMinnville	Housing and Park Models	246,000
Pennsylvania, Leola	Housing and Park Models	210,000
Wisconsin, Lancaster	Housing and Park Models	130,000

The Corporation also owns undeveloped land in McMinnville, Oregon. During the fourth quarter of fiscal 2017, a manufactured housing plant located in Mansfield, Texas was sold for a gain of \$1,502,000.

The total unit productive capacity of the Corporation is not readily ascertainable due to the ever-changing product mix. The Corporation believes that its plant facilities, machinery and equipment are well maintained and are in good operating condition.

Table of Contents**Item 3. Legal Proceedings.**

The Corporation is a party to various pending legal proceedings in the normal course of business. Management believes that any losses resulting from such proceedings would not have a material adverse effect on the Corporation's results of operations or financial position.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 4.5 Executive Officers of the Registrant.

Pursuant to General Instruction G.(3) of Form 10-K, the following information is included as an unnumbered item in this Part I in lieu of being included in the Corporation's Proxy Statement for the 2017 Annual Meeting of Shareholders:

The executive officers of the Corporation are as follows:

Name	Age	Position
Richard W. Florea	54	President and Chief Executive Officer
Jeffrey A. Newport	52	Chief Operating Officer
Jon S. Pilarski	54	Vice President, Finance & Treasurer, Chief Financial Officer
Terrence M. Decio	65	Vice President, Marketing and Sales
Robert C. Davis	52	Vice President, Manufacturing
Martin R. Fransted	65	Corporate Controller and Secretary

Richard W. Florea, President and Chief Executive Officer, was appointed as President and Chief Executive Officer of Skyline effective July 27, 2015. Prior to joining Skyline Mr. Florea served as President and Chief Operating Officer for Truck Accessories Group, LLC, a producer of fiberglass caps and tonneaus for light and mid-sized trucks. From 1998 through 2009, he was President and Chief Operating Officer of Dutchmen Manufacturing, Inc., a maker of travel trailers. Mr. Florea was a division sales manager for Skyline from 1994 to 1998.

Jeffrey A. Newport, Chief Operating Officer, joined the Corporation in February 2016. During the previous four years, he served as President of Goldshield Fiberglass, a manufacturer of fiberglass components located in Decatur, Indiana.

Jon S. Pilarski, Vice President, Finance & Treasurer, Chief Financial Officer, joined the Corporation in 1994. He served as Corporate Controller from 1997 to 2007 and was elected Vice President in 2007.

Terrence M. Decio, Vice President, Marketing and Sales, joined the Corporation in 1973. He was elected Vice President in 1985, Senior Vice President in 1991, Senior Executive Vice President in 1993 and Vice President-Marketing and Sales in 2004.

Robert C. Davis, Vice President, Manufacturing, joined the Corporation in 1999. He worked in Corporation Operations from 2009 to 2010, served as Corporate Operations Manager and Senior Operations Manager from 2010 to 2012, and Director of Operations from 2012 to 2013. He was elected Vice President in 2013.

Martin R. Fransted, Corporate Controller and Secretary, joined the Corporation in 1981 and was elected Corporate Controller and Secretary in 2007.

Table of Contents**PART II****Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.**

Skyline Corporation (SKY) is traded on the NYSE American (formerly known as the NYSE MKT LLC). At May 31, 2017, there were 531 shareholders of record of Skyline Corporation common stock. The following table sets forth the high and low sales prices for the Corporation's common stock for each full quarterly period within the fiscal years ended May 31, 2017 and 2016.

	Common Stock Price Range			
	2017		2016	
	High	Low	High	Low
First quarter	\$ 12.29	\$ 7.92	\$ 3.43	\$ 2.90
Second quarter	\$ 13.89	\$ 10.34	\$ 3.82	\$ 2.17
Third quarter	\$ 17.31	\$ 10.19	\$ 5.00	\$ 2.52
Fourth quarter	\$ 13.03	\$ 5.07	\$ 11.86	\$ 4.04

Skyline has not paid any cash dividends on its common stock over the past two fiscal years. Skyline presently intends to retain future earnings, if any, for use in the operation of the business and does not anticipate paying any cash dividends in the foreseeable future.

Securities Authorized for Issuance Under Equity Compensation Plans

The following table sets forth information as of May 31, 2017, with respect to the Corporation's Stock Incentive Plan under which our equity securities were authorized for issuance to directors, officers, employees and eligible independent contractors in exchange for consideration in the form of goods or services.

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants, and Rights (a)	Weighted-Average Exercise Price of Outstanding Options, Warrants, and Rights	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column (a))
Equity compensation plans approved by stockholders	274,000	\$ 4.79	411,000
Equity compensation plans not approved by stockholders			
Total	274,000	\$ 4.79	411,000

Additional information regarding the Stock Incentive Plan is in Note 12 of Notes to Consolidated Financial Statements.

The name, address and phone number of the Corporation's stock transfer agent and registrar is:

Computershare Trust Company, N.A.

Table of Contents**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.****Overview**

The Corporation designs, produces and markets manufactured housing, modular housing and park models to independent dealers, developers, campgrounds and manufactured housing communities located throughout the United States and Canada. To better serve the needs of its dealers, developers, campgrounds and communities, the Corporation has multiple facilities in several states. Manufactured housing, modular housing and park models are sold to customers either through floor plan financing with various financial institutions, credit terms, or on a cash basis. While the Corporation maintains production of manufactured housing, modular homes and park models throughout the year, seasonal fluctuations in sales do occur.

Manufactured Housing, Modular Housing and Park Model Industry Conditions

Sales and production of manufactured housing, modular housing and park models are affected by winter weather conditions at the Corporation's northern plants. Manufactured and modular housing are marketed under a number of trademarks, and are available in a variety of dimensions. Park models are marketed under the Shore Park trademark.

Manufactured housing products are built according to standards established by the U.S. Department of Housing and Urban Development. Modular homes are built according to state, provincial or local building codes. Park models are built according to specifications established by the American National Standards Institute, and are intended to provide temporary living accommodations for individuals seeking leisure travel and outdoor recreation.

Sales of manufactured housing, modular housing and park models are affected by the strength of the U.S. economy, interest rate and employment levels, consumer confidence and the availability of wholesale and retail financing. Recent trends regarding calendar year unit shipments of the Corporation's products and their respective industries are as follows:

	2012	2013	2014	2015	2016
Manufactured Housing					
Industry	54,891	60,210	64,344	70,519	81,169

Fiscal 2017 Results

The Corporation experienced the following results during fiscal 2017:

Net sales were \$236,504,000, an approximate 11.7 percent increase from the \$211,774,000 reported in the same period a year ago.

Table of Contents**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued).
Fiscal 2017 Results (Continued)**

Income from continuing operations was \$5,000 as compared to income of \$1,873,000 for the same period a year ago.

No income or loss from discontinued operations as compared to a loss, net of income taxes, of \$195,000 for the same period a year ago.

Net income for fiscal 2017 was \$5,000 as compared to \$1,678,000 for fiscal 2016. On a basic per share basis, net income was \$.00 as compared to \$.20 for the comparable period a year ago.

Net sales attributable to Elkhart and Mansfield were \$22,956,000 as compared to Mansfield's net sales of \$12,588,000 in the same period a year ago.

Net losses attributable to Elkhart and Mansfield before corporate allocation and net gain on sale of property, plant and equipment were \$4,594,000 as compared to \$2,538,000 in the comparable period a year ago.

Discontinued Operations

During September 2014, the Corporation made a strategic decision to exit the recreational vehicle industry in order to focus on its core housing business. As a result, on October 7, 2014, the Corporation completed the sale of certain assets associated with its recreational vehicle segment to Evergreen Recreational Vehicles, LLC.

The following table summarizes the results of discontinued operations:

	Year Ended May 31,	
	2017	2016
	(Dollars in thousands)	
Net Sales	\$	\$ 71
Operating loss of discontinued operations		\$ (195)
Loss before income taxes		(195)
Income tax expense		
Loss from discontinued operations, net of taxes	\$	\$ (195)

Elkhart, Indiana and Mansfield, Texas Facilities

In the third and fourth quarters of fiscal 2017, the Corporation entered into a restructuring plan involving the suspension of operations at facilities in Elkhart, Indiana and Mansfield, Texas. Production ceased at both facilities in the fourth quarter. There were neither one-time termination agreements nor material costs related to the termination of contracts such as leases related to the restructuring. Inventory and fixed asset sale and disposal losses related to the restructuring totaled \$170,000 and \$222,000, respectively. No liability related to the restructuring was recorded as of May 31, 2017. The Corporation anticipates that a portion of customers previously served by these plants will be serviced by its facilities in Arkansas City, Kansas and Sugarcreek, Ohio. Mansfield's real property and equipment was sold in the fourth quarter as noted in Net Gain on Sale of Property, Plant and Equipment.

Table of Contents**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued).
Elkhart, Indiana and Mansfield, Texas Facilities (Continued)**

Net sales and net losses incurred by these facilities, excluding corporate overhead allocations and the net gain on the sale of property, plant and equipment were as follows:

Fiscal 2017 (Unaudited)					
(Dollars in thousands)					
	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter	Year
Net Sales	\$ 5,201	\$ 8,092	\$ 7,573	\$ 2,090	\$ 22,956
Cost of Sales	\$ 5,881	\$ 8,966	\$ 8,087	\$ 2,985	\$ 25,919
Selling and administrative expenses	\$ 475	\$ 488	\$ 431	\$ 237	\$ 1,631
Net (Loss)	\$ (1,155)	\$ (1,362)	\$ (945)	\$ (1,132)	\$ (4,594)

Fiscal 2016 (Unaudited)					
(Dollars in thousands)					
	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter	Year
Net Sales	\$ 3,106	\$ 3,802	\$ 2,305	\$ 3,375	\$ 12,588
Cost of Sales	\$ 3,455	\$ 3,863	\$ 2,694	\$ 3,823	\$ 13,835
Selling and administrative expenses	\$ 381	\$ 405	\$ 217	\$ 288	\$ 1,291
Net (Loss)	\$ (730)	\$ (466)	\$ (606)	\$ (736)	\$ (2,538)

Although the Corporation expects cost reductions as a result of these closings, the amounts of the reported losses are not necessarily predictive of the amounts of the cost savings because sales and production of at least a portion of these homes will potentially occur at other existing facilities as discussed above.

Secured Revolving Credit Facility

On March 20, 2015, the Corporation (Borrower(s)) entered into a Loan and Security Agreement (the Loan Agreement) with First Business Capital Corp. Under the Loan Agreement, First Business Capital will provide a secured revolving credit facility to the Borrowers for a term of three years, renewable on an annual basis thereafter with each renewal for a successive one-year term. The Corporation may obtain loan advances up to a maximum of \$10,000,000 subject to certain collateral-obligation ratios. In addition, loan advances bear interest at 3.75% in excess of *The Wall Street Journal's* published one-year LIBOR rate, and are secured by substantially all of the Borrowers' assets, now owned or hereafter acquired. Interest is payable monthly, in arrears, and all principal and accrued but unpaid interest is due and payable upon termination of the Loan Agreement. First Business Capital also agreed under the Loan Agreement to issue, or cause to be issued by a bank affiliate or other bank, letters of credit for the account of the Corporation. However, no advances have yet been made in connection with such letters of credit.

During the first quarter of fiscal 2016, the Corporation on two occasions did not meet a covenant requiring a monthly loss not exceeding \$500,000. Consequently, the Corporation received in the second quarter a waiver of the defaults that occurred. In addition, the following modifications were made to the Loan Agreement.

A covenant specifying that a monthly loss not exceed \$500,000 was modified to \$1,500,000 for December 2015, \$1,000,000 for January 2016, and \$1,000,000 for February, 2016. Following February 2016, the maximum monthly net loss as noted in the original Loan Agreement returns to \$500,000 for March to May 2016, and \$250,000 thereafter;

Edgar Filing: SKYLINE CORP - Form 10-K

The limit for the lease, purchase or acquisition of any asset increased from \$600,000 per year to \$800,000 per year; and

The monthly bank assessment fee increased from .25% per annum to .35% per annum.

Table of Contents

Item 7. *Management's Discussion and Analysis of Financial Condition and Results of Operations* (Continued). Secured Revolving Credit Facility (Continued)

In June 2016, additional amendments were made to the Loan Agreement:

An increase in the capital expenditure limit for the fiscal year ended May 31, 2016 from \$800,000 in the aggregate to \$1,250,000 in the aggregate;

An increase in the capital expenditure limit for the fiscal year ending May 31, 2017 from \$800,000 in the aggregate to \$1,500,000 in the aggregate. In the absence of any subsequent amendment, the capital expenditure limit for subsequent fiscal years shall remain at \$800,000 in the aggregate per fiscal year; and

A covenant specifying that a monthly net loss in fiscal 2017 not exceed \$250,000 was increased to \$500,000 for June 2016, \$1,000,000 for July 2016, and \$1,000,000 for December 2016. Such increases were effective only for the months identified. In the absence of any subsequent amendment, the maximum monthly net loss for all other months of fiscal year 2017 and thereafter remain at \$250,000.

In November 2016 the Corporation did not meet a covenant requiring a monthly loss not to exceed \$250,000. Subsequent to November 30, 2016, the Corporation received a waiver for the default that occurred in the second quarter. In addition, the Loan Agreement was modified to eliminate the monthly maximum Net Loss covenant effective with the fiscal month ended December 31, 2016.

In the third quarter of fiscal 2017, the Corporation did not meet a covenant requiring the year to date net loss not to exceed \$1,750,000, and a covenant requiring net worth as of February 28, 2017 to not be below \$23,383,000. Subsequent to February 28, 2017, the Corporation received a waiver for the default that occurred in the third quarter and paid to First Business Capital an accommodation fee of \$50,000. The Corporation was in compliance with loan agreement covenants as of May 31, 2017.

On July 21, 2017, the Corporation terminated the Loan Agreement in connection with its entry into a new Credit Agreement with JPMorgan Chase Bank, N.A. having terms more favorable to the Corporation. As of the date of termination, the Corporation did not have any borrowings outstanding under the Loan Agreement. In addition, the Corporation did not incur any early termination penalties in connection with the termination of the Loan Agreement. Information regarding the Credit Agreement with JPMorgan Chase Bank, N.A. is noted in Subsequent Events.

Subsequent Events

On July 21, 2017, the Corporation (the Loan Parties, and Skyline Corporation and Skyline Homes, Inc., the Borrowers and each a Borrower) entered into a Credit Agreement (the Agreement) with JPMorgan Chase Bank, N.A. (Chase) and other ancillary agreements and documents, including a Security Agreement and Patent and Trademark Security Agreement (collectively referred to along with the Agreement as the Loan Documents). Under the Agreement, Chase will provide a three-year revolving credit facility with loan advances to the Borrowers of up to a maximum of \$10,000,000, subject to a borrowing base set forth in the Agreement (the New Facility). Loan advances bear interest at either 50 basis points above Chase's floating prime rate (CBFR) or 150 basis points in excess of the LIBOR rate for the applicable period (the Adjusted LIBO Rate). Loans are secured by the Loan Parties' assets, now owned or hereafter acquired, except for real property and any life insurance policies owned by any Borrower on the effective date of the Agreement. Interest is payable in arrears on a monthly basis in the case of the CBFR or at the end of the applicable interest rate in the case of the Adjusted LIBO Rate, and all principal and accrued but unpaid interest is due and payable at the maturity of the New Facility. Borrowers may at any time prepay in whole or in part any loan amounts, subject to minimum amounts and breakage costs.

Also under the Agreement, Chase agreed to issue letters of credit for the account of the Borrowers not to exceed \$500,000. No advances have yet been made in connection with such letters of credit.

As part of the closing of the financing, the Company paid Chase a closing fee of \$25,000 plus legal and due diligence costs. The Loan Parties also agreed to pay the following fees to Chase during the term of the New

Table of Contents**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued).
Subsequent Events (Continued)**

Facility: (i) a commitment fee payable in arrears at a rate of .25% per annum on the average daily amount of the available revolving commitment under the New Facility during the prior calendar month; and (ii) monthly letter of credit fees payable in arrears at the applicable Adjusted LIBO Rate on the outstanding amount of letters of credit issued and outstanding during the prior month.

The Loan Documents contain covenants that limit the ability of the Loan Parties to, among other things: (i) incur other indebtedness; (ii) create or incur liens on their assets; (iii) consummate asset sales, acquisitions, or mergers; (iv) pay dividends; (v) make certain investments; (vi) enter into certain transactions with affiliates; and (vii) amend a Loan Party's articles of incorporation or bylaws.

The Agreement also requires compliance with a financial covenant involving a fixed charge coverage ratio as set forth in the Agreement.

If the Borrowers default in their obligations under the Agreement, then the unpaid balances will bear interest at 2.0% per annum in excess of the rate that would apply in the absence of a default. Other remedies available to Chase upon an event of default include the right to accelerate the maturity of all obligations, the right to foreclose on and otherwise repossess the collateral securing the obligations, and all other rights set forth in the Loan Documents.

The events of default under the Agreement include, but are not limited to, the following: (i) certain events of bankruptcy and insolvency; (ii) failure to make required payments; (iii) misrepresentations to Chase; (iv) failure to comply with certain covenants and agreements; (v) changes in control; and (vi) a material adverse change occurs.

Results of Operations Fiscal 2017 Compared to Fiscal 2016**Net Sales and Unit Shipments**

	2017	Percent	2016	Percent	Increase (Decrease)
	(Dollars in thousands)				
Net Sales					
Manufactured Housing	\$ 196,322	83.0	\$ 174,523	82.4	\$ 21,799
Modular Housing	22,243	9.4	24,372	11.5	(2,129)
Park Models	17,939	7.6	12,879	6.1	5,060
Total Net Sales	\$ 236,504	100.0	\$ 211,774	100.0	\$ 24,730
Unit Shipments					
Manufactured Housing	3,679	82.9	3,217	82.2	462
Modular Housing	313	7.0	360	9.2	(47)
Park Models	447	10.1	337	8.6	110
Total Unit Shipments	4,439	100.0	3,914	100.0	525

Net sales increased approximately 11.7 percent. The increase was comprised of a 12.5 percent increase in manufactured housing net sales, an 8.7 percent decrease in modular housing net sales, and a 39.3 percent increase in park model net sales. Current year net manufactured housing sales includes approximately \$10,969,000 attributable to the Elkhart, Indiana facility which commenced operations in June 2016. Modular net sales declined primarily due to decreased demand from Midwest-based dealers as manufactured housing products are able to satisfy demand from retail customers. Park model net sales rose as a result of Management's initiative to increase this product's exposure at substantially all of the Corporation's facilities.

Table of Contents**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued).
Net Sales and Unit Shipments (Continued).**

For fiscal 2017, the percentage increase or decrease in unit shipments from the comparable period last year are as follows:

	Skyline	Industry
Manufactured Housing	14.4%	14.7%
Modular Housing	(13.1%)	Not Available
Park Models	32.6%	11.7%
Total	13.4%	Not Available

Compared to the prior year, the average net sales price for manufactured housing decreased 1.6 percent primarily as a result of homes sold with less square footage and fewer amenities; partially offset by a price increase. The average sales price for modular housing and park models both increased 5.0 percent as a result of a price increase and product sold with greater square footage and additional amenities.

Cost of Sales

	2017	Percent of Net Sales	2016 (Dollars in Thousands)	Percent of Net Sales	Increase
Cost of Sales	\$ 214,527	90.7	\$ 188,461	89.0	\$ 26,066

Cost of sales, in dollars, increased primarily as a result of increased net sales. Current year cost of sales includes approximately \$12,420,000 attributable to the Elkhart, Indiana facility. As a percentage of net sales, cost of sales increased primarily due to higher manufacturing labor costs associated with hiring and training employees at facilities which are increasing production output.

Selling and Administrative Expenses

	2017	Percent of Net Sales	2016 (Dollars in thousands)	Percent of Net Sales	Increase
Selling and administrative expenses	\$ 22,908	9.7	\$ 21,120	10.0	\$ 1,788

Selling and administrative expenses increased primarily as a result of \$632,000 in costs associated with the Elkhart, Indiana facility and an increase in administrative salaries and wages. In addition, the Corporation benefited in prior year from a \$250,000 final payment received in the second quarter on an account that had been previously reserved. As a percentage of net sales, selling and administrative expenses declined due to certain costs remaining relatively constant amid rising sales.

Net Gain on Sale of Property, Plant and Equipment

In the fourth quarter of fiscal 2017, the Corporation sold real property and substantially all of the equipment at its former facility located in Mansfield, Texas. The net sales price was \$2,212,000, resulting in a gain of \$1,502,000. The assets sold were security under the Corporation's Secured Revolving Credit Facility with First Business Capital. First Business Capital released its lien on the real property subject to \$1,100,000 of the net sales proceeds being held in a cash collateral account at First Business Bank, an affiliate of First Business Capital. The gain was offset by \$222,000 in losses associated with the disposal of Mansfield equipment not sold, and the sale or disposal of equipment used by the Corporation's former facility in Elkhart, Indiana.

Table of Contents**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued).****Interest Expense**

	2017	2016 (Unaudited)	Increase (Decrease)
	(Dollars in thousands)		
Interest on life insurance policies loans	\$ 223	\$ 223	\$
Amortization on debt financing costs	103	82	21
Interest on secured revolving credit facility	18	15	3
	\$ 344	\$ 320	\$ 24

Interest expense primarily increased as the result of debt financing costs incurred in the fourth quarter of fiscal 2016 that are being amortized over the remaining term of the Secured Revolving Credit Facility.

Financial Summary by Quarter

	1 st Quarter	2 nd Quarter	3 rd Quarter	4 th Quarter	Year
	(Dollars in thousands, except per share amounts)				
2017					
Net sales	\$ 61,176	\$ 64,226	\$ 51,640	\$ 59,462	\$ 236,504

Liquidity and Capital Resources

	2017	May 31, 2016	Increase (Decrease)
	(Dollars in thousands)		
Cash	\$ 11,384	\$ 7,659	\$ 3,725
Current assets, exclusive of cash	\$ 25,918	\$ 28,159	\$ (2,241)
Current liabilities	\$ 18,385	\$ 18,031	\$ 354
Working capital	\$ 18,917	\$ 17,787	\$ 1,130

Edgar Filing: SKYLINE CORP - Form 10-K

As noted in the Consolidated Statements of Cash Flows for the year ended May 31, 2017, cash increased due to cash provided by operating activities of \$2,868,000 and cash provided by investing activities of \$857,000. Current assets, exclusive of cash, decreased primarily due to a \$2,402,000 decrease in Accounts receivable and a \$923,000 decrease in Workers compensation security deposit; offset by an \$852,000 increase in Inventories.

Table of Contents

Item 7. *Management's Discussion and Analysis of Financial Condition and Results of Operations* (Continued). Liquidity and Capital Resources (Continued)

Accounts receivable decreased due to the timing of payments from customers at May 31, 2017 as compared to May 31, 2016. Workers compensation security deposit decreased to fund workers' compensation claims for the current fiscal year. Raw material inventories increased due to anticipated production scheduled to occur in the first quarter of fiscal 2018. Work in process inventories increased due to increased production at May 31, 2017 as compared to May 31, 2016.

Current liabilities increased primarily as a result of a \$359,000 increase in Customer deposits as the Corporation received deposits from a greater number of customers at May 31, 2017 as compared to May 31, 2016.

Capital expenditures totaled \$1,355,000 for fiscal 2017 as compared to \$1,132,000 for fiscal 2016. The increase is the result of building improvements, purchasing equipment for the Elkhart, Indiana facility, and replacing equipment that had reached its full economic useful life.

The Corporation was in compliance as of May 31, 2017 with loan agreement covenants associated with the Secured Revolving Credit Facility with First Business Capital Corp.

If necessary, the Corporation has the ability to borrow approximately \$2,300,000 under the cash surrender value of certain life insurance policies. Management believes sufficient liquidity exists to meet financial obligation that will occur for at least one year after the date of the filing of this annual report.

Critical Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles requires the Corporation to make certain estimates that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures. Estimates are periodically evaluated using historical experience and various other factors believed to be reasonable under the circumstances. Actual results could differ from these estimates under different assumptions or conditions. The following accounting policies are considered to require a significant estimate:

Deferred Tax Assets

Net deferred tax assets and liabilities are computed based on the difference between the financial statement and income tax bases of assets and liabilities using the enacted tax rates.

The Corporation has a valuation allowance against substantially all of its deferred tax assets. In addition, net deferred tax assets consist of federal net operating loss and tax credit carryforwards, state net operating loss carryforwards and temporary differences between financial and tax reporting. Additional information regarding the decrease in the valuation allowance is referenced in Note 9 of the Notes to Consolidated Financial Statements.

Revenue Recognition

Substantially all of the Corporation's products are made to order. Revenue is recognized upon completion of the following: an order for a unit is received from a dealer or community (customer); written or verbal approval for payment is received from a customer's financial institution or payment is received; a common carrier signs documentation accepting responsibility for the unit as agent for the customer; and the unit is removed from the Corporation's premises for delivery to a customer. Freight billed to customers is considered sales revenue, and the related freight costs are cost of sales. Volume based rebates paid to dealers are classified as a reduction of sales revenue. Sales of parts are classified as revenue.

Table of Contents

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued).

Product Warranties

As referenced in Note 1 of the Notes to Consolidated Financial Statements, homes and park models are sold with a fifteen-month warranty. Estimated warranty costs are accrued at the time of sale based upon sales, historical claims experience and management's judgment regarding anticipated rates of warranty claims. Significant changes in these factors could have a material impact on future results of operations.

Recently Issued Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2016-02, *Leases*. ASU 2016-02 requires lessees to recognize the following for all leases (with the exception of short-term leases) at the commencement date:

A lease liability, which is a lessee's obligation to make lease payments arising from a lease, measured on a discounted basis; and

A right-of-use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. Public business entities should apply the amendments in ASU 2016-02 for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early application is permitted for all public business entities upon issuance.

Lessees must apply a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. The modified retrospective approach would not require any transition accounting for leases that expired before the earliest comparative period presented.

Lessees may not apply a full retrospective transition approach. The Corporation anticipates implementing this pronouncement without a material effect on financial condition and results of operations.

In July 2015, FASB issued ASU No. 2015-11, *Inventory*, which requires an entity to measure inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. Public business entities should apply ASU No. 2015-11 for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The Corporation anticipates implementing this pronouncement without a material effect on financial condition and results of operations.

In March 2016, FASB issued ASU No. 2016-09, *Improvements to Employee Share-Based Payment Accounting*. ASU 2016-09 simplifies the accounting for share-based payment transactions related to: the income tax consequences related to exercised or vested share-based payment awards; the classification of awards as either assets or liabilities; and the classification in the consolidated statements of cash flows. In addition, ASU 2016-09 provides an accounting policy election to account for forfeitures as they occur. For public entities, this update is effective for annual periods beginning after December 15, 2016, and for annual and interim periods thereafter. Early application is permitted. The Corporation has elected to continue its current policy of estimating forfeitures rather than recognizing forfeitures when they occur, and anticipates implementing this pronouncement without a material effect on financial condition and results of operations upon adoption on June 1, 2017.

In May 2014, FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 66)*. The core principal of ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. For a public entity, this guidance is effective for annual reporting periods after December 15, 2016, including interim periods within that reporting period. Early application is permitted. Subsequent to the issuance of ASU No. 2014-09, FASB issued ASU No. 2015-14, which deferred the effective date of ASU 2014-09 by one year. In addition, FASB subsequently issued ASU 2016-08, *Principal versus Agent*

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued). Recently Issued Accounting Pronouncements (Continued)

Considerations, ASU 2016-10, *Identifying Performance Obligations and Licensing*, ASU 2016-11, *Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016 EITF Meeting*, and ASU 2016-12, *Narrow-Scope Improvements and Practical Expedients*. The Corporation is currently evaluating how the adoption of ASU 2014-09 will impact its financial position and result of operations.

In November 2015, FASB issued ASU No. 2015-17, *Balance Sheet Classification of Deferred Taxes*. ASU 2015-17 requires deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. For public companies this update is effective for annual periods beginning after December 15, 2016, and for annual and interim periods thereafter. Early application is permitted as of the beginning of an interim or annual period. The Corporation adopted this pronouncement at the beginning of fiscal 2017 without a material effect on financial condition and results of operations.

Impact of Inflation

The consolidated financial statements included in this report reflect transactions in the dollar values in which they were incurred and, therefore, do not attempt to measure the impact of inflation. On a long-term basis, the Corporation has adjusted selling prices in reaction to changing costs due to inflation.

Forward Looking Information

The preceding Management's Discussion and Analysis contains forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995. Forward-looking statements are also made elsewhere in this report. The Corporation publishes other forward-looking statements from time to time.

Statements that are not historical in nature, including those containing words such as anticipate, estimate, should, expect, believe, intend, similar expressions, are intended to identify forward-looking statements. We caution to be aware of the speculative nature of forward-looking statements. Although these statements reflect the Corporation's good faith belief based on current expectations, estimates, and projections about (among other things) the industry and the markets in which the Corporation operates, they are not guarantees of future performance.

Whether actual results will conform to management's expectations and predictions is subject to a number of known and unknown risks and uncertainties, including the following:

Consumer confidence and economic uncertainty;

Availability of wholesale and retail financing;

The health of the U.S. housing market as a whole;

Regulations pertaining to the housing and park model industries;

The cyclical nature of the manufactured housing and park model industries;

Edgar Filing: SKYLINE CORP - Form 10-K

General or seasonal weather conditions affecting sales;

Potential impact of natural disasters on sales and raw material costs;

Potential periodic inventory adjustments by independent retailers;

Interest rate levels;

Impact of inflation;

Impact of labor costs;

Competitive pressures on pricing and promotional costs;

Table of Contents

Item 7. *Management's Discussion and Analysis of Financial Condition and Results of Operations* (Continued).
Forward Looking Information (Continued)

Catastrophic events impacting insurance costs;

The availability of insurance coverage for various risks to the Corporation;

Market demographics; and

Management's ability to attract and retain executive officers and key personnel. Consequently, all of the Corporation's forward-looking statements are qualified by these cautionary statements. The Corporation may not realize the results anticipated by management or, even if the Corporation substantially realizes the results management anticipates, the results may not have the consequences to, or effects on, the Corporation or its business or operations that management expects. Such differences may be material. Except as required by applicable laws, the Corporation does not intend to publish updates or revisions of any forward-looking statements management makes to reflect new information, future events or otherwise.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of Skyline Corporation

Elkhart, Indiana

We have audited the accompanying consolidated balance sheets of Skyline Corporation and subsidiary companies (the Corporation) as of May 31, 2017 and 2016, and the related consolidated statements of income, shareholders' equity, and cash flows for the years then ended. We also have audited the Corporation's internal control over financial reporting as of May 31, 2017, based on criteria established in the 2013 Internal Control - Integrated Framework issued by the Committee on Sponsoring Organizations of the Treadway Commission (COSO). The Corporation's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on these consolidated financial statements and an opinion on the Corporation's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the consolidated financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis. The following material weakness has been identified and included in management's report. The Corporation's internal controls over the accuracy and valuation of raw materials inventories did not operate with sufficient precision to prevent or detect the potential occurrence of a material misstatement in compiling the raw material inventory listing from the physical inventory counts or in the valuation of raw materials at cost under the first-in, first-out method. This material weakness was considered in determining the nature, timing, and extent of audit tests applied in our audit of the 2017 consolidated financial statements, and our opinion regarding the effectiveness of the Corporation's internal control over financial reporting does not affect our opinion on those consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Corporation as of May 31, 2017 and 2016, and the results of its operations and its

Table of Contents

cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, because of the material weakness described above, the Corporation has not maintained effective internal control over financial reporting as of May 31, 2017, based on criteria established in the 2013 Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Table of Contents

Skyline Corporation and Subsidiary Companies

Notes to Consolidated Financial Statements

NOTE 1 Nature of Operations, Accounting Policies of Consolidated Financial Statements

Nature of operations Skyline Corporation's core ongoing business activities consists of designing, producing and marketing manufactured housing, modular housing and park models to independent dealers and manufactured housing communities throughout the United States and Canada. Manufactured housing represents homes built according to a national code, modular housing represents homes built to a local code, and park models are built to specifications established by the American National Standards Institute. These dealers and communities often utilize floor plan financing arrangements with lending institutions. The Corporation's net sales are predominately from its housing products.

Note 2 of Notes to Consolidated Financial Statement describes the recreational vehicle segment that was sold in fiscal 2015. Accordingly, the accompanying financial statements (including footnote disclosures unless otherwise indicated) reflect these operations as discontinued operations apart from the Corporation's continuing housing operations.

The following is a summary of the accounting policies that have a significant effect on the consolidated financial statements.

Basis of presentation The consolidated financial statements include the accounts of Skyline Corporation and its wholly-owned subsidiaries of Skyline Homes, Inc., Homette Corporation and Layton Homes Corp. (the Corporation). All intercompany transactions have been eliminated. Certain prior amounts related to deferred tax assets have been reclassified to conform to current period presentation.

Accounting Estimates The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Key estimates would include accruals for warranty and marketing programs as well as valuations for long-lived assets and deferred tax assets.

Revenue recognition Substantially all of the Corporation's products are made to order. Revenue is recognized upon completion of the following: an order for a unit is received from a dealer or community (customer); written or verbal approval for payment is received from a customer's financial institution or payment is received; a common carrier signs documentation accepting responsibility for the unit as agent for the customer; and the unit is removed from the Corporation's premises for delivery to a customer. Freight billed to customers is considered sales revenue, and the related freight costs are cost of sales. Volume based rebates paid to dealers are classified as a reduction of sales revenue. Sales of parts are classified as revenue.

Accounts Receivable Trade receivables are based on the amounts billed to dealers and communities. The Corporation does not accrue interest on any of its trade receivables, nor does it have an allowance for credit losses due to favorable collections experience. If a loss occurs, the Corporation's policy is to recognize it in the period when collectability cannot be reasonably assured. Deposits from customers are classified as current liabilities.

Inventories Inventories are stated at the lower of cost or net realizable value. Cost is determined under the first-in, first-out method. Physical inventory counts are taken at the end of each reporting quarter.

Workers' Compensation Security Deposit Workers' compensation security deposit represents funds placed with the Corporation's worker's compensation insurance carrier to offset future medical net claims and benefits.

Property, Plant and Equipment Property, plant and equipment are stated at cost. Depreciation is computed over the estimated useful lives of the assets using the straight-line method for financial statement

Table of Contents

Skyline Corporation and Subsidiary Companies

Notes to Consolidated Financial Statements (Continued)

NOTE 1. Nature of Operations, Accounting Policies of Consolidated Financial Statements (Continued)

Property, Plant and Equipment (Continued)

reporting and accelerated methods for income tax reporting purposes. Estimated useful lives for significant classes of property, plant and equipment are as follows: Building and improvements 10 to 30 years; machinery and equipment 5 to 8 years.

Long-lived assets are reviewed for impairment whenever events indicate that the carrying amount of an asset may not be recoverable from projected future cash flows. If the carrying value of a long-lived asset is impaired, an impairment charge is recorded for the amount by which the carrying value of the long-lived asset exceeds its fair value. The Company believes no impairment of long-lived assets exists at May 31, 2017.

Warranty The Corporation provides the retail purchaser of its homes and park models with a full fifteen-month warranty against defects in design, materials and workmanship. The warranties are backed by service departments located at the Corporation's manufacturing facilities and an extensive field service system.

Estimated warranty costs are accrued at the time of sale based upon current sales, historical experience and management's judgment regarding anticipated rates of warranty claims. The adequacy of the recorded warranty liability is periodically assessed and the amount is adjusted as necessary.

Income Taxes The Corporation recognizes deferred tax assets based on differences between the carrying values of assets for financial and tax reporting purposes. The realization of the deferred tax assets is dependent upon the generation of sufficient future taxable income.

Generally accepted accounting principles require that an entity consider both negative and positive evidence in determining whether a valuation allowance is warranted. In comparing negative and positive evidence, losses in fiscal years 2008 to 2015 is considered significant, negative, objective evidence that deferred tax assets may not be realized in the future, and generally is assigned more weight than subjective positive evidence of the realizability of deferred tax assets. As a result of its extensive evaluation of both positive and negative evidence, management maintains a valuation allowance against substantially all of its deferred tax assets. The Corporation reports a liability, if any, for unrecognized tax benefits resulting from uncertain tax positions taken or expected to be taken in a tax return. The Corporation recognizes interest and penalties, if any, related to unrecognized tax benefits in income tax expense.

Earnings per Share Basic earnings per common share is computed based on the weighted-average number of common shares outstanding during the reporting period. Diluted earnings per share is computed based on the combination of dilutive common share equivalents, comprised of shares issuable under the Corporation's Stock Incentive Plan and the weighted-average number of common shares outstanding during the reporting period.

Dilutive common share equivalents include the dilutive effect of in-the-money options to purchase shares, which is calculated based on the average share price for each period using the treasury stock method, as well as restricted stock awards. 225,000 of 274,000 stock options granted under the 2015 Stock Incentive Plan had a dilutive effect on earnings per share for the year ended May 31, 2017.

Consolidated statements of cash flows The Corporation's cash flows were not affected by income taxes in fiscal 2017 and 2016. Cash flows were affected by interest paid of approximately \$241,000 in fiscal 2017. Cash flows were affected by interest paid of approximately \$237,000 in fiscal 2016.

Recently issued accounting pronouncements In February 2016, the Financial Accounting Standards Board, (FASB), issued Accounting Standards Update (ASU) No. 2016-02, *Leases*. ASU 2016-02 requires lessees to recognize the following for all leases (with the exception of short-term leases) at the commencement date:

A lease liability, which is a lessee's obligation to make lease payments arising from a lease, measured on a discounted basis; and

Table of Contents

Skyline Corporation and Subsidiary Companies

Notes to Consolidated Financial Statements (Continued)

NOTE 1. Nature of Operations, Accounting Policies of Consolidated Financial Statements (Continued)

Recently issued accounting pronouncements (continued)

A right-of-use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. Public business entities should apply the amendments in ASU 2016-02 for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early application is permitted for all public business entities upon issuance.

Lessees must apply a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. The modified retrospective approach would not require any transition accounting for leases that expired before the earliest comparative period presented. Lessees may not apply a full retrospective transition approach. The Corporation anticipates implementing this pronouncement without a material effect on financial condition and results of operations.

In July 2015, FASB issued ASU No. 2015-11, *Inventory*, which requires an entity to measure inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. Public business entities should apply ASU No. 2015-11 for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The Corporation anticipates implementing this pronouncement without a material effect on financial condition and results of operations.

In March 2016, FASB issued ASU No. 2016-09, *Improvements to Employee Share-Based Payment Accounting*. ASU 2016-09 simplifies the accounting for share-based payment transactions related to: the income tax consequences related to exercised or vested share-based payment awards; the classification of awards as either assets or liabilities; and the classification in the consolidated statements of cash flows. In addition, ASU 2016-09 provides an accounting policy election to account for forfeitures as they occur. For public entities, this update is effective for annual periods beginning after December 15, 2016, and for annual and interim periods thereafter. Early application is permitted. The Corporation has elected to continue its current policy of estimating forfeitures rather than recognizing forfeitures when they occur, and anticipates implementing this pronouncement without a material effect on financial condition and results of operations upon adoption on June 1, 2017.

In May 2014, FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 66)*. The core principal of ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. For a public entity, this guidance is effective for annual reporting periods after December 15, 2016, including interim periods within that reporting period. Early application is permitted. Subsequent to the issuance of ASU No. 2014-09, FASB issued ASU No. 2015-14, which deferred the effective date of ASU 2014-09 by one year. In addition, FASB subsequently issued ASU 2016-08, *Principal versus Agent Considerations*, ASU 2016-10, *Identifying Performance Obligations and Licensing*, ASU 2016-11, *Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016 EITF Meeting*, and ASU 2016-12, *Narrow-Scope Improvements and Practical Expedients*. The Corporation is currently evaluating how the adoption of ASU 2014-09 will impact its financial position and result of operations.

In November 2015, FASB issued ASU No. 2015-17, *Balance Sheet Classification of Deferred Taxes*. ASU 2015-17 requires deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. For public companies this update is effective for annual periods beginning after December 15,

Table of Contents**Skyline Corporation and Subsidiary Companies****Notes to Consolidated Financial Statements (Continued)****NOTE 1. Nature of Operations, Accounting Policies of Consolidated Financial Statements (Continued)***Recently issued accounting pronouncements (continued)*

2016, and for annual and interim periods thereafter. Early application is permitted as of the beginning of an interim or annual period. The Corporation adopted this pronouncement at the beginning of fiscal 2017 without a material effect on financial condition and results of operations.

NOTE 2 Discontinued Operations

During September 2014, the Corporation made a strategic decision to exit the recreational vehicle industry in order to focus on its core housing business. As a result, on October 7, 2014, the Corporation completed the sale of certain assets associated with its recreational vehicle segment to Evergreen Recreational Vehicles, LLC.

The following table summarizes the results of discontinued operations:

	Year Ended May 31,	
	2017	2016
	(Dollars in thousands)	
Net Sales	\$	\$ 71
Operating loss of discontinued operations	\$	\$ (195)
Income (loss) before income taxes		(195)
Income tax expense		
Income (loss) from discontinued operations, net of taxes	\$	\$ (195)

NOTE 3 Inventories

Total inventories from continuing operations consist of the following:

	May 31,	
	2017	2016
	(Dollars in thousands)	
Raw materials	\$ 7,734	\$ 7,198
Work in process	4,030	3,447
Finished goods	469	736

\$ 12,233 \$ 11,381

NOTE 4 Net Gain on Sale of Property, Plant and Equipment

In the fourth quarter of fiscal 2017, the Corporation sold real property and substantially all of the equipment at its former facility located in Mansfield, Texas. The net sales price was \$2,212,000, resulting in a gain of \$1,502,000. The assets sold were security under the Corporation's Secured Revolving Credit Facility with First Business Capital. First Business Capital released its lien on the real property subject to \$1,100,000 of the net sales proceeds being held in a cash collateral account at First Business Bank, an affiliate of First Business Capital. The gain was offset by \$222,000 in losses associated with the disposal of Mansfield equipment not sold, and the sale or disposal of equipment used by the Corporation's former facility in Elkhart, Indiana.

NOTE 5 Other Assets

Other assets consist primarily of the cash surrender value of life insurance policies which totaled \$7,093,000 and \$6,885,000 at May 31, 2017 and 2016, respectively.

Table of Contents**Skyline Corporation and Subsidiary Companies****Notes to Consolidated Financial Statements (Continued)****NOTE 6 Warranty**

A reconciliation of accrued warranty is as follows:

	Year Ended May 31,	
	2017	2016
	(Dollars in thousands)	
Balance at the beginning of the period	\$ 7,317	\$ 6,911
Accruals for warranties	7,757	6,898
Settlements made during the period	(7,517)	(6,492)
Balance at the end of the period	7,557	7,317
Non-current balance	2,800	2,500
Accrued warranty	\$ 4,757	\$ 4,817

NOTE 7 Life Insurance Loans

Life insurance loans have no fixed repayment schedule, and have interest rates ranging from 4.2 percent to 7.4 percent. The weighted average interest rate is 5.2 percent. Prepaid interest associated with the life insurance loans totaled approximately \$88,000 at May 31, 2017 and May 31, 2016, respectively; which is recorded in Other current assets.

NOTE 8 Customer Concentration

During fiscal 2017, no individual customer had net sales exceeding 10 percent of total net sales. During fiscal 2016, net sales to Sun Home Services, Inc. (Sun Home) totaled \$22,231,000 or 10 percent of total net sales. Based on past sales to Sun Home, the Corporation could have a material adverse effect on its financial condition and results of operations if the Corporation experienced a loss of this customer or if the volume of sales significantly decreased.

NOTE 9 Income Taxes

The Corporation had no federal and state income tax benefit or expense for the years ended May 31, 2017 and 2016.

The difference between the Corporation's statutory federal income tax rate of 34 percent in fiscal 2017 and 2016, and the effective income tax rate is due primarily to state income taxes and changes in deferred tax assets valuation allowance and are as follows:

	Year Ended May 31,	
	2017	2016
	(Dollars in thousands)	
Income taxes at statutory federal rate	\$ 2	\$ 637
Income taxes on permanent differences	215	167

Edgar Filing: SKYLINE CORP - Form 10-K

State income taxes	38	199
State net operating loss	104	252
New Energy Efficient Home Credit	(142)	(237)
Decrease in deferred tax assets valuation allowance	(348)	(1,031)
Other, net	131	13
Income tax expense	\$	\$
Effective tax rate	0%	0%

Table of Contents**Skyline Corporation and Subsidiary Companies****Notes to Consolidated Financial Statements (Continued)****NOTE 9. Income Taxes (Continued)**

Components of the net noncurrent deferred tax assets include:

	Year Ended May 31,	
	2017	2016
	(Dollars in thousands)	
Accrued marketing programs	\$ 142	\$ 181
Accrued warranty expense	2,979	2,888
Accrued workers compensation	1,151	1,011
Accrued vacation	178	346
Liability for certain post-retirement benefits	1,762	1,850
Federal net operating loss carryforward	32,119	32,380
Federal tax credit carryforward	1,910	1,787
State net operating loss carryforward	7,566	7,717
Depreciation	684	714
Other	221	134
Total gross noncurrent deferred tax assets	48,712	49,008
Valuation allowance	(48,660)	(49,008)
Net noncurrent deferred tax assets	\$ 52	\$

At May 31, 2017, the Corporation had gross federal net operating loss carryforwards of approximately \$94 million and gross state net operating loss carryforwards of approximately \$103 million. The federal net operating loss and tax credit carryforwards have a life expectancy of between eleven and eighteen years. The state net operating loss carryforwards have a life expectancy, depending on the state where a loss was incurred, between one and twenty years.

The Corporation has recorded a full valuation allowance against this asset, aside from \$52,000 associated with an alternative minimum tax credit recognized primarily in fiscal year 2017. If the Corporation, after considering future negative and positive evidence regarding the realization of deferred tax assets, determines that a lesser valuation allowance is warranted, it would record a reduction to income tax expense and the valuation allowance in the period of determination. For fiscal 2017, the Corporation reported the utilization of previously fully-reserved federal net operating loss carryforwards of \$166,000 and state operating loss carryforwards of \$47,000 and released corresponding amounts of the valuation allowance to offset federal and state income tax expense.

Income tax returns are filed in the U.S. federal jurisdiction and in several state jurisdictions. For the majority of taxing jurisdictions the Corporation is no longer subject to examination by taxing authorities for years before 2013. The Corporation did not incur any interest or penalties related to income tax matters in fiscal years 2017 and 2016.

The Corporation has no unrecognized tax benefits in its financial statements during fiscal years 2017 and 2016, and does not expect any significant changes related to unrecognized tax benefits in the twelve months following May 31, 2017.

NOTE 10 Commitments and Contingencies

Edgar Filing: SKYLINE CORP - Form 10-K

The Corporation was contingently liable at May 31, 2017 and 2016, under repurchase agreements with certain financial institutions providing inventory financing for dealers of its products. Under these arrangements,

Table of Contents**Skyline Corporation and Subsidiary Companies****Notes to Consolidated Financial Statements (Continued)****NOTE 10 Commitments and Contingencies (Continued)**

which are customary in the manufactured housing and park model industries, the Corporation agrees to repurchase units in the event of default by the dealer at declining prices over the term of the agreement. The period to potentially repurchase units is between 12 to 24 months.

The maximum repurchase liability is the total amount that would be paid upon the default of the Corporation's independent dealers.

The maximum potential repurchase liability for continuing and discontinued operations, without reduction for the resale value of the repurchased units, was approximately \$30 million at May 31, 2017 and approximately \$25 million at May 31, 2016. As a result of favorable experience regarding repurchased units, which is largely due to the strength of dealers selling the Corporation's products, the Corporation maintained at May 31, 2017 and May 31, 2016, a \$100,000 loss reserve that is a component of other accrued liabilities. The risk of loss under these agreements is spread over many dealers and financial institutions. The loss, if any, under these agreements is the difference between the repurchase cost and the resale value of the units. The Corporation estimates the fair value of this commitment considering both the contingent losses and the value of the guarantee. This amount has historically been insignificant. The Corporation believes that any potential loss under the agreements in effect at May 31, 2017 will not be material to its financial position or results of operations.

The amounts of obligations from repurchased units, all of which were from discontinued operations, and incurred net losses for the periods presented are as follows:

	Year Ended May 31,	
	2017	2016
	(Dollars in thousands)	
Number of units repurchased		6
Obligations from units repurchased	\$	\$ 115
Net losses on repurchased units	\$	\$ 50

The Corporation is a party to various pending legal proceedings in the normal course of business. Management believes that any losses resulting from such proceedings would not have a material adverse effect on the Corporation's results of operations or financial position.

The Corporation utilizes a combination of insurance coverage and self-insurance for certain items, including workers' compensation and group health benefits. Liabilities for workers' compensation are recognized for estimated future medical costs and indemnity costs. Liabilities for group health benefits are recognized for claims incurred but not paid. Insurance reserves are estimated based upon a combination of historical data and actuarial information. Actual results could differ from these estimates.

NOTE 11 Secured Revolving Credit Facility

On March 20, 2015, the Corporation (Borrower(s)) entered into a Loan and Security Agreement (the Loan Agreement) with First Business Capital Corp. (First Business Capital). Under the Loan Agreement, First Business Capital will provide a secured revolving credit facility to the Borrowers for a term of three years, renewable on an annual basis thereafter with each renewal for a successive one-year term. The Corporation may obtain loan advances up to a maximum of \$10,000,000 subject to certain collateral-obligation ratios. In addition, loan advances bear interest at 3.75% in excess of *The Wall Street Journal*'s published one-year LIBOR rate, and are secured by substantially all of the Borrowers' assets, now owned or hereafter acquired. Interest is payable monthly, in arrears, and all principal and accrued but unpaid interest is due and payable upon termination of the

Table of Contents

Skyline Corporation and Subsidiary Companies

Notes to Consolidated Financial Statements (Continued)

NOTE 11 Secured Revolving Credit Facility (Continued)

Loan Agreement. First Business Capital also agreed under the Loan Agreement to issue, or cause to be issued by a bank affiliate or other bank, letters of credit for the account of the Corporation. However, no advances have yet been made in connection with such letters of credit.

During the first quarter of fiscal 2016, the Corporation on two occasions did not meet a covenant requiring a monthly loss not exceeding \$500,000. Consequently, the Corporation received in the second quarter a waiver of the defaults that occurred. In addition, the following modifications were made to the Loan Agreement.

A covenant specifying that a monthly loss not exceed \$500,000 was modified to \$1,500,000 for December 2015, \$1,000,000 for January 2016, and \$1,000,000 for February, 2016. Following February 2016, the maximum monthly net loss as noted in the original Loan Agreement returns to \$500,000 for March to May 2016, and \$250,000 thereafter;

The limit for the lease, purchase or acquisition of any asset increased from \$600,000 per year to \$800,000 per year; and

The monthly bank assessment fee increased from .25% per annum to .35% per annum.
In June 2016, additional amendments were made to the Loan Agreement:

An increase in the capital expenditure limit for the fiscal year ended May 31, 2016 from \$800,000 in the aggregate to \$1,250,000 in the aggregate;

An increase in the capital expenditure limit for the fiscal year ending May 31, 2017 from \$800,000 in the aggregate to \$1,500,000 in the aggregate. In the absence of any subsequent amendment, the capital expenditure limit for subsequent fiscal years shall remain at \$800,000 in the aggregate per fiscal year; and

A covenant specifying that a monthly net loss in fiscal 2017 not exceed \$250,000 was increased to \$500,000 for June 2016, \$1,000,000 for July 2016, and \$1,000,000 for December 2016. Such increases were effective only for the months identified. In the absence of any subsequent amendment, the maximum monthly net loss for all other months of fiscal year 2017 and thereafter remain at \$250,000. In November 2016, the Corporation did not meet a covenant requiring a monthly loss not to exceed \$250,000. Subsequent to November 30, 2016, the Corporation received a waiver for the default that occurred in the second quarter. In addition, the Loan Agreement was modified to eliminate the monthly maximum Net Loss covenant effective with the fiscal month ended December 31, 2016.

In the third quarter of fiscal 2017, the Corporation did not meet a covenant requiring the year to date net loss not to exceed \$1,750,000, and a covenant requiring net worth as of February 28, 2017 to not be below \$23,383,000. Subsequent to February 28, 2017, the Corporation received a waiver for the default that occurred in the third quarter and paid to First Business Capital an accommodation fee of \$50,000. The Corporation was in compliance with loan agreement covenants as of May 31, 2017.

On July 21, 2017, the Corporation terminated the Loan Agreement in connection with its entry into a new Credit Agreement with JPMorgan Chase Bank, N.A. having terms more favorable to the Corporation. As of the date of termination, the Corporation did not have any borrowings

Edgar Filing: SKYLINE CORP - Form 10-K

outstanding under the Loan Agreement. In addition, the Corporation did not incur any early termination penalties in connection with the termination of the Loan Agreement. Information regarding the Credit Agreement with JPMorgan Chase Bank, N.A. is noted in Note 18, Subsequent Events, of Notes to Consolidated Financial Statements.

Table of Contents**Skyline Corporation and Subsidiary Companies****Notes to Consolidated Financial Statements (Continued)****NOTE 12 Stock-Based Compensation**

In the first quarter of fiscal 2016, the Corporation's Board of Directors approved the 2015 Stock Incentive Plan ("Plan"), which allows the granting of stock options and other equity awards to directors, officers, employees, and eligible independent contractors of the Corporation and is intended to retain and reward key employees' performance and efforts as they relate to the Corporation's long-term objectives and strategic plan. The Plan was subsequently approved by shareholders at the Corporation's annual shareholder meeting on September 21, 2015. A total of 700,000 shares of Common Stock have been reserved for issuance under the Plan. Stock option awards are granted with an exercise price equal to the market price of the Corporation's stock at the date of grant and vest over a period of time as determined by the Corporation at the date of grant up to the contractual ten-year life at which time the options expire. Restricted stock awards are priced no less than 100 percent of market price of the Corporation's stock at the date of grant, and the awards made to date fully vest after five years.

Stock Options The following tables summarize option activity for the years ended May 31, 2017 and 2016:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (in thousands)
Options outstanding at June 1, 2015		\$		
Granted	225,000	3.28		
Options outstanding at May 31, 2016	225,000	\$ 3.28	9.14	\$ 1,584
Granted	49,000	11.75		
Options outstanding at May 31, 2017	274,000	\$ 4.79	8.40	\$ 128
Vested and exercisable options at May 31, 2017	45,000	\$ 3.28	8.14	\$ 89

The weighted average grant-date fair value of options granted during fiscal 2017 and 2016 were \$7.58 and \$2.19, respectively.

	Number of Shares	Weighted Average Grant-Date Fair Value
Non-vested options at May 31, 2015		\$
Granted	225,000	2.19
Vested		
Non-vested options at May 31, 2016	225,000	\$ 2.19
Granted	49,000	7.58
Vested	(45,000)	2.19
Non-vested options at May 31, 2017	229,000	\$ 3.34

Edgar Filing: SKYLINE CORP - Form 10-K

Stock-based compensation expense for fiscal 2017 and 2016 was approximately \$144,000 and \$82,000, respectively. Total unrecognized compensation expense related to stock options outstanding at May 31, 2017 was approximately \$637,000 and is to be recorded over a weighted-average life of 3.4 years.

The Corporation records all stock-based payments, including grants of stock options, in the consolidated statements of operations based on their fair values at the date of grant. The Corporation currently uses the

Table of Contents**Skyline Corporation and Subsidiary Companies****Notes to Consolidated Financial Statements (Continued)****NOTE 12 Stock Based Compensation (Continued)**

Black-Scholes option pricing model to determine the fair value of stock options. The determination of the fair value of stock options on the date of grant using an option-pricing model is affected by stock price as well as assumptions that include expected stock price volatility over the term of the awards, expected life of the awards, risk-free interest rate, and expected dividends.

The fair value of the options granted during fiscal 2017 and 2016 were estimated at the date of grant using the following weighted average assumptions:

	2017	2016
Volatility	64.3%	55.8%
Risk-free interest rate	2.14%	2.22%
Expected option life in years	7.50	9.72
Dividend yield	0%	0%

Volatility is estimated based on historical volatility measured monthly for a time period equal to the expected life of the option ending on the date of grant. The risk-free interest rate is determined based on observed U.S. Treasury yields in effect at the time of the grant for maturities equivalent to the expected life of the options. The expected option life (estimated average period of time the options will be outstanding) is estimated based on the expected exercise date of the options. The expected dividend yield of zero is estimated based on the dividend yield at the time of grant as adjusted for any expected changes during the life of the options.

Restricted Stock In the third quarter of fiscal 2017, the Corporation issued 15,000 shares of restricted stock valued at approximately \$216,000. No restricted stock was vested at May 31, 2017, and the non-vested shares had a weighted average grant date fair value of \$14.40 per share. The value was determined using the market price of the Corporation's common stock at the date of grant. The restricted stock's value is to be expensed over a five-year vesting period using a straight-line method. Compensation expense for fiscal 2017 was approximately \$17,000, and unrecognized compensation expense at May 31, 2017 was approximately \$199,000.

NOTE 13 Earnings Per Share

Basic earnings per common share is computed based on the weighted-average number of common shares outstanding during the reporting period. Diluted earnings per common share is computed based on the combination of dilutive common share equivalents, comprised of shares issuable under the Corporation's Stock Incentive Plan and the weighted-average number of common shares outstanding during the reporting period.

Dilutive common share equivalents include the dilutive effect of in-the-money options to purchase shares, which is calculated based on the average share price for each period using the treasury stock method, as well as shares of restricted stock.

Table of Contents**Skyline Corporation and Subsidiary Companies****Notes to Consolidated Financial Statements (Continued)****NOTE 13 Earnings Per Share (Continued)**

The following table sets forth the computation of basic and diluted earnings per share (dollars in thousands, except per share amounts):

	Year Ended May 31,	
	2017	2016
Net income	\$ 5	\$ 1,678
Weighted average share outstanding:		
Basic	8,391,244	8,391,244
Common stock equivalents treasury stock method	121,130	
Diluted	8,512,374	8,391,244
Net income per share:		
Basic	\$.00	\$.20
Diluted	\$.00	\$.20

For fiscal 2017 and fiscal 2016, there were 57,994 and 13,914 anti-dilutive common stock equivalents excluded from the computation of diluted earnings per share, respectively.

NOTE 14 Restructuring Activities

In the third and fourth quarters of fiscal 2017, the Corporation entered into a restructuring plan involving the suspension of operations at the Elkhart, Indiana and Mansfield, Texas facilities. The restructuring does not represent a strategic shift in operations due to an expectation to have a portion of customers of these two facilities serviced by manufacturing facilities located in Arkansas City, Kansas and Sugarcreek, Ohio.

The suspension of operations in Mansfield was due to the plant being unable to profitably operate since it was converted from producing recreational vehicles to manufactured housing in fiscal 2014. The suspension in Elkhart was due to the plant being unable to profitably operate since it opened in June 2016. There were neither one-time termination agreements nor material costs related to the termination of contracts such as leases related to the restructuring. Inventory and fixed asset sale and disposal losses related to the restructuring totaled \$170,000 and \$222,000, respectively. The Corporation does not have a liability related to the restructuring as of May 31, 2017. As referenced in Note 4, Net Gain on Sale of Property, Plant and Equipment, to Notes to Consolidated Financial Statements, the Mansfield facility was sold in the fourth quarter.

NOTE 15 Treasury Stock

The Corporation's Board of directors from time to time has authorized the repurchase of shares of the Corporation's common stock, in the open market or through negotiated transactions, at such times and at such prices as management may decide. In fiscal 2017 and 2016, the Corporation did not acquire any shares of its common stock.

NOTE 16 401(K) Plan

The Corporation has an employee savings plan (the 401(k) Plan) that is intended to provide participating employees with an additional method of saving for retirement. The 401(k) Plan covers all employees who meet certain minimum participation requirements. The Corporation does not provide a matching contribution to the 401(k) Plan, but can make discretionary profit sharing contributions. No profit sharing contributions were made in fiscal 2017 and 2016.

Table of Contents

Skyline Corporation and Subsidiary Companies

Notes to Consolidated Financial Statements (Continued)

NOTE 17 Retirement and Death Benefit Plans

The Corporation has entered into various arrangements with certain employees or former employees for benefits to be paid in the following manner:

to an employee's estate in the event of death

an employee in the event of retirement or disability to be paid over 10 years beginning at the date of retirement or disability

in the event of death, the employee's beneficiary will receive the balance due the employee

The Corporation also purchased life insurance contracts on the covered employees or former employees. The present value of the principal cost of such arrangements is being accrued over the period from the date of such arrangements to full eligibility using a discount rate of 4.0 percent in fiscal 2017 and fiscal 2016. The current and non-current amounts accrued for such arrangements totaled \$5,122,000 and \$5,340,000 at May 31, 2017 and 2016, respectively. In fiscal 2017 the amount credited to operations under these arrangements was approximately \$17,000. In fiscal 2016 the amount charged to operations under these arrangements was approximately \$10,000.

NOTE 18 Subsequent Events

On July 21, 2017, the Corporation (the "Loan Parties," and Skyline Corporation and Skyline Homes, Inc., the "Borrowers" and each a "Borrower") entered into a Credit Agreement (the "Agreement") with JPMorgan Chase Bank, N.A. ("Chase") and other ancillary agreements and documents, including a Security Agreement and Patent and Trademark Security Agreement (collectively referred to along with the Agreement as the "Loan Documents"). Under the Agreement, Chase will provide a three-year revolving credit facility with loan advances to the Borrowers of up to a maximum of \$10,000,000, subject to a borrowing base set forth in the Agreement (the "New Facility"). Loan advances bear interest at either 50 basis points above Chase's floating prime rate ("CBFR") or 150 basis points in excess of the LIBOR rate for the applicable period (the "Adjusted LIBO Rate"). Loans are secured by the Loan Parties' assets, now owned or hereafter acquired, except for real property and any life insurance policies owned by any Borrower on the effective date of the Agreement. Interest is payable in arrears on a monthly basis in the case of the CBFR or at the end of the applicable interest rate in the case of the Adjusted LIBO Rate, and all principal and accrued but unpaid interest is due and payable at the maturity of the New Facility. Borrowers may at any time prepay in whole or in part any loan amounts, subject to minimum amounts and breakage costs.

Also under the Agreement, Chase agreed to issue letters of credit for the account of the Borrowers not to exceed \$500,000. No advances have yet been made in connection with such letters of credit.

As part of the closing of the financing, the Company paid Chase a closing fee of \$25,000 plus legal and due diligence costs. The Loan Parties also agreed to pay the following fees to Chase during the term of the New Facility: (i) a commitment fee payable in arrears at a rate of .25% per annum on the average daily amount of the available revolving commitment under the New Facility during the prior calendar month; and (ii) monthly letter of credit fees payable in arrears at the applicable Adjusted LIBO Rate on the outstanding amount of letters of credit issued and outstanding during the prior month.

The Loan Documents contain covenants that limit the ability of the Loan Parties to, among other things: (i) incur other indebtedness; (ii) create or incur liens on their assets; (iii) consummate asset sales, acquisitions, or mergers; (iv) pay dividends; (v) make certain investments; (vi) enter into certain transactions with affiliates; and (vii) amend a Loan Party's articles of incorporation or bylaws.

The Agreement also requires compliance with a financial covenant involving a fixed charge coverage ratio as set forth in the Agreement.

Table of Contents

Skyline Corporation and Subsidiary Companies

Notes to Consolidated Financial Statements (Continued)

NOTE 18. Subsequent Events (Continued)

If the Borrowers default in their obligations under the Agreement, then the unpaid balances will bear interest at 2.0% per annum in excess of the rate that would apply in the absence of a default. Other remedies available to Chase upon an event of default include the right to accelerate the maturity of all obligations, the right to foreclose on and otherwise repossess the collateral securing the obligations, and all other rights set forth in the Loan Documents.

The events of default under the Agreement include, but are not limited to, the following: (i) certain events of bankruptcy and insolvency; (ii) failure to make required payments; (iii) misrepresentations to Chase; (iv) failure to comply with certain covenants and agreements; (v) changes in control; and (vi) a material adverse change occurs.

Item 9. *Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.*

None

Item 9A. *Controls and Procedures* Evaluation of Disclosure Controls and Procedures

As of May 31, 2017, the Corporation conducted an evaluation, under the supervision and with the participation of management including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934 (the "Exchange Act")). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Corporation's internal control over financial reporting was not effective as of May 31, 2017, due to the material weakness described below in Management's Report on Internal Control Over Financial Reporting.

Management's Report of Internal Control Over Financial Reporting

Management of the Corporation is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act. Internal control over financial reporting provides reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles in the United States.

The Corporation's internal control over financial reporting includes policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the Corporation's assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that the Corporation's receipts and expenditures are being made only in accordance with authorizations of management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Corporation's assets that could have a material effect on the financial statements.

Management of the Corporation has assessed the effectiveness of the Corporation's internal control over financial reporting based on criteria established in the 2013 *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Management's assessment included an evaluation of the design of the Corporation's internal control over financial reporting, and testing of the operational effectiveness of the Corporation's internal control over financing reporting. Based on this assessment, management identified a material weakness in the Corporation's internal control over financial reporting as of May 31, 2017 as it relates to the accuracy and valuation of

raw

Table of Contents

Item 9A. Controls and Procedures (Continued)

Management's Report of Internal Control Over Financial Reporting (Continued)

materials and inventories. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

The following material weakness has been identified and included in management's assessment. The Corporation's internal controls over the accuracy and valuation of raw materials inventories did not operate with sufficient precision to prevent or detect a the potential occurrence of material misstatement in compiling the raw material inventory listing from the physical inventory counts or in the valuation of raw materials at cost under the first-in, first-out method.

The Corporation's internal control over financial reporting as of May 31, 2017 has been audited by Crowe Horwath LLP, an independent registered accounting firm, as stated in their report, which appears herein.

In order to remediate the material weakness described above, the Corporation is currently evaluating improvements in internal controls over the accuracy and valuation of raw materials inventory and will implement those improvements as soon as practicable in fiscal 2018.

Changes in Internal Control Over Financial Reporting

As of May 31, 2017, management, with the participation of the Corporation's Chief Executive Officer and Chief Financial Officer, evaluated internal control over financial reporting. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that no changes in internal control over financial reporting occurred during the quarter ended May 31, 2017 that have materially affected, or are reasonably likely to affect materially, internal control over financial reporting, except as noted above with respect to the accuracy and valuation of raw materials inventory.

Chief Executive Officer and Chief Financial Officer Certifications

The Corporation's Chief Executive Officer and Chief Financial Officer have filed with the Securities and Exchange Commission the certifications required by Section 302 of the Sarbanes-Oxley Act of 2002 as Exhibits 31.1 and 31.2 to the Corporation's Annual Report on Form 10-K for the fiscal year ended May 31, 2017. In addition, on September 26, 2016, the Corporation's Chief Executive Officer certified to NYSE American that he was not aware of any violation by the Corporation of the NYSE American corporate governance listing standards as in effect on September 19, 2016. The foregoing certification was unqualified.
