or

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934**

For the transition period from _____ to _____

Commission file number: 001-34726

LYONDELLBASELL INDUSTRIES N.V.

(Exact name of registrant as specified in its charter)

The Netherlands (State or other jurisdiction of		98-0646235 (I.R.S. Employer
incorporation or organization)		Identification No.)
1221 McKinney St.,	4th Floor, One Vine Street	Delftseplein 27E
Suite 300	London	3013 AA Rotterdam
Houston, Texas	W1J0AH	The Netherlands
USA 77010	The United Kingdom	
(Addresses of registrant's principal executive offices)		

(713) 309-7200

+44 (0) 207 220 2600

+31 (0)10 275 5500

(Registrant's telephone numbers, including area codes)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of large accelerated filer, accelerated filer, and smaller reporting company, and emerging growth company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes No

The registrant had 394,460,282 ordinary shares, 0.04 par value, outstanding at October 24, 2017 (excluding 183,979,881 treasury shares).

Table of Contents**LYONDELLBASELL INDUSTRIES N.V.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****1. Basis of Presentation**

LyondellBasell Industries N.V., together with its consolidated subsidiaries (collectively LyondellBasell N.V.), is a worldwide manufacturer of chemicals and polymers, a refiner of crude oil, a significant producer of gasoline blending components and a developer and licensor of technologies for production of polymers. Unless otherwise indicated, the Company, we, us, our or similar words are used to refer to LyondellBasell N.V.

The accompanying Consolidated Financial Statements are unaudited and have been prepared from the books and records of LyondellBasell N.V. in accordance with the instructions to Form 10-Q and Rule 10-1 of Regulation S-X for interim financial information. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States (U.S. GAAP) for complete financial statements. In our opinion, all adjustments, consisting only of normal recurring adjustments, considered necessary for a fair presentation have been included. The results for interim periods are not necessarily indicative of results for the entire year. These Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and notes thereto included in the Company s Annual Report on Form 10-K for the year ended December 31, 2016.

**2. Accounting and Reporting Changes
Recently Adopted Guidance**

Intangibles-Goodwill and Other In January 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2017-04, *Intangibles Goodwill and other (Topic 350): Simplifying the Test for Goodwill Impairment* to simplify the accounting for goodwill impairment. The guidance removes Step 2 of the goodwill impairment test, which requires a hypothetical purchase price allocation. Goodwill impairment will now be the amount by which a reporting unit s carrying value exceeds its fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. All other goodwill impairment guidance will remain largely unchanged. Entities will continue to have the option to perform a qualitative assessment to determine if a quantitative impairment test is necessary. The same one-step impairment test will be applied to goodwill at all reporting units, even those with zero or negative carrying amounts. Entities will be required to disclose the amount of goodwill at reporting units with zero or negative carrying amounts. The early adoption of this amendment in the first quarter of 2017 did not have a material impact on our Consolidated Financial Statements.

Inventories In July 2015, the FASB issued ASU 2015-11, *Inventory (Topic 330): Simplifying the Measurement of Inventory*. Under this new guidance, entities that measure inventory using any method other than last-in, first-out or the retail inventory method will be required to measure inventory at the lower of cost and net realizable value. The amendments in this ASU, which should be applied prospectively, are effective for annual and interim periods beginning after December 15, 2016. The adoption of this amendment in the first quarter of 2017 did not have a material impact on our Consolidated Financial Statements.

Compensation In March 2016, the FASB issued ASU 2016-09, *Compensation Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. This ASU simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity

or liabilities, and classification on the statement of cash flows. The amendments in this ASU are effective for public entities for annual and interim periods beginning after December 15, 2016. Adoption of the amendments in this guidance in the first quarter of 2017 did not have a material impact on our Consolidated Financial Statements.

Statement of Cash Flows In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*. The updated accounting requirement is intended to

Table of Contents**LYONDELLBASELL INDUSTRIES N.V.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

reduce diversity in practice in the classification of certain transactions in the statement of cash flows. Such transactions include, but are not limited to, debt prepayment or debt extinguishment costs, settlement of zero coupon debt instruments, contingent consideration payments made after a business combination and distributions received from equity method of investments. The amendments in this ASU are effective for public entities for annual and interim periods beginning after December 15, 2017, with early adoption permitted. Early adoption of the amendments in this guidance in the second quarter of 2017 resulted in a reclassification of cash flows related to debt extinguishment costs incurred in March 2017 of \$65 million from operating to financing activity cash flows. Other aspects of the amendment did not have a material impact on our Consolidated Statements of Cash Flows.

Statement of Cash Flows In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows: Restricted Cash*. The ASU requires entities to include restricted cash and restricted cash equivalents in their cash and cash-equivalent balances in the statement of cash flows. Early retrospective adoption of this amendment in the second quarter of 2017 did not have a material impact on our Consolidated Statements of Cash Flows.

Compensation Stock Compensation In May 2017, the FASB issued ASU 2017-09, *Stock Compensation: Scope of Modification Accounting*. The amendments in this update provide guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in *Topic 718, Compensation Stock Compensation*. Early adoption of this amendment in the third quarter of 2017 did not have a material impact on our Consolidated Financial Statements.

Accounting Guidance Issued But Not Adopted as of September 30, 2017

Revenue Recognition In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which supersedes the current revenue recognition requirements in ASC 606, *Revenue Recognition*. Under this guidance, entities should recognize revenues to depict the transfer of promised goods or services to customers in an amount that reflects the consideration the entity expects to receive in exchange for those goods or services. This ASU also requires enhanced disclosures. In August 2015, the FASB issued ASU 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date*, which deferred the original effective date for one year to annual and interim periods beginning after December 15, 2017. Retrospective and modified retrospective application is allowed.

Amendments to Revenue Recognition In 2016 the FASB issued several amendments to *Topic 606, Revenue from Contracts with Customers*. ASU 2016-08, *Principal versus Agent Considerations*, contains amendments that clarify the implementation guidance on principal versus agent considerations. ASU 2016-10, *Identifying Performance Obligations and Licensing* clarifies the guidance in the new revenue standard on identifying performance obligations and accounting for licenses of intellectual property. The FASB also issued ASU 2016-12, *Narrow-Scope Improvements and Practical Expedients*, which further clarifies the new revenue guidance primarily in the areas of collectability, noncash consideration, presentation of sales tax, and transition. The FASB also issued ASU 2016-20 *Technical Corrections and Improvements to Topic 606*, which provides numerous improvements related to the Topic 606. All amendments are effective with the same date as ASU 2014-09. Management is currently assessing the effects of applying the new standard and has preliminarily determined that there will not be a material impact on our Consolidated Financial Statements. We expect to use the modified retrospective transition method. We will complete

any required changes to our systems and processes, including updating our internal controls, during the fourth quarter of 2017.

Financial Instruments In January 2016, the FASB issued ASU 2016-01, *Financial Instruments-Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*. The new guidance in this ASU includes a requirement for equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. Prospective application of this ASU is required for public entities for annual and interim periods beginning on or after December 15, 2017. We do not expect the adoption of this new guidance to have a material impact on our Consolidated Financial Statements.

Table of Contents

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Leases In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, which supersedes the existing guidance for lease accounting in ASC 840, *Leases*. Under the new guidance, for leases with a term longer than 12 months a lessee should recognize a liability for lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. Topic 842 retains a classification distinction between finance leases and operating leases, with the classification affecting the pattern of expense recognition in the income statement. This ASU also requires enhanced disclosures. A modified retrospective transition approach is required for annual and interim periods beginning on or after December 15, 2018. Early adoption is permitted. We are currently assessing the impact of this new guidance on our Consolidated Financial Statements via an extensive review of numerous existing lease contracts and other purchase obligations that contain embedded lease features, all of which are classified as operating leases under the existing guidance.

Financial Instruments In June 2016, the FASB issued ASU 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*. This amendment requires financial assets measured at amortized cost basis to be presented at the net amount expected to be collected, resulting in the use of a current expected credit loss (CECL) model when measuring an impairment of financial instruments. Credit losses related to available-for-sale securities should be recorded in the consolidated income statement through an allowance for credit losses. Estimated credit losses utilizing the CECL model are based on reasonable use of historical experience, current conditions and forecasts that affect the collectability of reported financial assets. This ASU also modifies the impairment model for available-for-sale debt securities by eliminating the concept of other than temporary as well as providing a simplified accounting model for purchased financial assets with credit deterioration since their origination. The guidance will be effective for public entities for annual and interim periods beginning after December 15, 2019. Early adoption is permitted. We are currently assessing the impact of the amendment in this guidance on our Consolidated Financial Statements.

Income Taxes In October 2016, the FASB issued ASU 2016-16, *Accounting for Income Taxes: Intra-Entity Asset Transfers of Assets Other than Inventory*. The ASU is aimed at reducing complexity in accounting standards. Under current GAAP, the tax effects of intra-entity asset transfers (intercompany sales) are deferred until the transferred asset is sold to a third party or otherwise recovered through use. The new guidance eliminates the exception for all intra-entity sales of assets other than inventory, and a reporting entity would recognize tax expense from the sale of assets in the seller's tax jurisdiction when the transfer occurs, even though the pre-tax effects of that transaction are eliminated in consolidation. Any deferred tax asset that arises in the buyer's jurisdiction would also be recognized at the time of the transfer. The new guidance will be effective for public entities for annual periods beginning after December 15, 2017. We are currently assessing the impact of this new guidance on our Consolidated Financial Statements.

Business Combinations In January 2017, the FASB issued ASU 2017-01, *Clarifying the Definition of a Business*. This ASU clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether a transaction should be accounted for as an acquisition (or disposal) of an asset or a business. The amendments will be effective for public entities for annual and interim periods beginning after December 15, 2017. Early adoption is permitted. We do not expect the adoption of this new guidance to have a material impact on our Consolidated Financial Statements.

Other Income Gains and Losses from the Derecognition of Nonfinancial Assets In February 2017, the FASB issued ASU 2017-05, *Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets*. The guidance provides clarification about the term *in substance nonfinancial asset*, other aspects of the scope of Subtopic 610-20 *Other Income*, and how an entity should account for partial sales of nonfinancial assets once the amendments in Update 2014-09 become effective. The amendments will be effective for public entities for annual and interim periods beginning after December 15, 2017. We do not expect the adoption of this new guidance to have a material impact on our Consolidated Financial Statements.

Table of Contents**LYONDELLBASELL INDUSTRIES N.V.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Compensation Retirement Benefits In March 2017, the FASB issued ASU 2017-07, *Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*. The guidance will require changes in presentation of current service cost and other components of net benefit cost. The amendments will be effective for public entities for annual and interim periods beginning after December 15, 2017. We do not expect the adoption of this new guidance to have a material impact on our Consolidated Financial Statements.

Receivables Nonrefundable Fees and Other Costs In March 2017, the FASB issued ASU 2017-08, *Premium Amortization on Purchased Callable Debt Securities*. This new guidance requires the premium on callable debt securities to be amortized to the earliest call date. Under current requirements, premiums on callable debt securities are generally amortized over the contractual life of the security. The amendments will be effective for public entities for annual and interim periods beginning after December 15, 2018. Early adoption is permitted. We do not expect the adoption of this new guidance to have a material impact on our Consolidated Financial Statements.

Derivatives and Hedging In August 2017, the FASB issued ASU 2017-12, *Targeted Improvements to Accounting for Hedging Activities*. The new guidance will make more financial and nonfinancial hedging strategies eligible for hedge accounting and amends the presentation and disclosure requirements while changing how companies assess effectiveness. Overall, it is intended to more closely align hedge accounting with companies' risk management strategies, simplify the application of hedge accounting, and increase transparency as to the scope and results of hedging programs. The amendments will be effective for public entities for annual and interim periods beginning after December 15, 2018. Early adoption is permitted and the Company will adopt the guidance effective January 1, 2018. We do not expect the adoption of this new guidance to have a material impact on our Consolidated Financial Statements.

3. Accounts Receivable

Our allowance for doubtful accounts receivable, which is reflected in the Consolidated Balance Sheets as a reduction of accounts receivable, totaled \$17 million and \$16 million at September 30, 2017 and December 31, 2016, respectively.

4. Inventories

Inventories consisted of the following components:

Millions of dollars	September 30, 2017	December 31, 2016
Finished goods	\$ 2,705	\$ 2,575
Work-in-process	188	154
Raw materials and supplies	1,284	1,080

Total inventories	\$	4,177	\$	3,809
-------------------	----	-------	----	-------

Table of Contents**LYONDELLBASELL INDUSTRIES N.V.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****5. Debt**

Long-term loans, notes and other long-term debt consisted of the following:

Millions of dollars	September 30, 2017	December 31, 2016
Senior Notes due 2019, \$2,000 million, 5.0% (\$3 million of debt issuance cost)	\$ 959	\$ 1,906
Senior Notes due 2021, \$1,000 million, 6.0% (\$8 million of debt issuance cost)	990	988
Senior Notes due 2024, \$1,000 million, 5.75% (\$8 million of debt issuance cost)	992	991
Senior Notes due 2055, \$1,000 million, 4.625% (\$16 million of discount; \$11 million of debt issuance cost)	973	972
Guaranteed Notes due 2044, \$1,000 million, 4.875% (\$11 million of discount; \$10 million of debt issuance cost)	979	979
Guaranteed Notes due 2043, \$750 million, 5.25% (\$21 million of discount; \$7 million of debt issuance cost)	722	721
Guaranteed Notes due 2023, \$750 million, 4.0% (\$6 million of discount; \$4 million of debt issuance cost)	740	739
Guaranteed Notes due 2027, \$300 million, 8.1%	300	300
Guaranteed Notes due 2022, 750 million, 1.875% (\$3 million of discount; \$3 million of debt issuance cost)	880	785
Guaranteed Notes due 2027, \$1,000 million, 3.5% (\$10 million of discount; \$8 million of debt issuance cost)	992	
Other	7	6
Total	8,534	8,387
Less current maturities	(3)	(2)
Long-term debt	\$ 8,531	\$ 8,385

Gains (losses) related to fair value adjustments associated with the fair value hedge accounting of our fixed-for-floating interest rate swaps for the applicable periods are as follows:

	Three Months Ended	Nine Months Ended	Year Ended	Cumulative
Inception	September 30,	September 30,	December 31,	Amount
				Since

Edgar Filing: LyondellBasell Industries N.V. - Form 10-Q

Millions of dollars	Year	2017	2016	2017	2016	2016	Inception
Senior Notes due 2019, 5.0%	2014	\$ (4)	\$ 26	\$ (46)	\$ 11	\$ 42	\$ 38
Senior Notes due 2021, 6.0%	2016	2		(1)		3	2
Guaranteed Notes due 2027, 3.5%	2017			(10)			(10)

These fair value adjustments are recognized in Interest expense in the Consolidated Statements of Income.

Short-term loans, notes, and other short-term debt consisted of the following:

Millions of dollars	September 30, 2017	December 31, 2016
\$2,500 million Senior Revolving Credit Facility	\$	\$
\$900 million U.S. Receivables Securitization Facility		
Commercial paper	317	500
Precious metal financings	59	90
Other	5	4
 Total short-term debt	 \$ 381	 \$ 594

Long-Term Debt

Guaranteed Notes due 2027 In March 2017, LYB International Finance II B.V. (LYB Finance II), a direct, 100% owned finance subsidiary of LyondellBasell Industries N.V., as defined in Rule 3-10(b) of Regulation S-X, issued \$1,000 million of 3.5% guaranteed notes due 2027 at a discounted price of 98.968%.

These unsecured notes, which are fully and unconditionally guaranteed by LyondellBasell Industries N.V., rank equally in right of payment to all of LYB Finance II 's existing and future unsecured indebtedness and to all of LyondellBasell N.V. 's existing and future unsubordinated indebtedness. There are no significant restrictions that would impede LyondellBasell N.V., as guarantor, from obtaining funds by dividend or loan from its subsidiaries.

The indenture governing these notes contains limited covenants, including those restricting our ability and the ability of our subsidiaries to incur indebtedness secured by significant property or by capital stock of subsidiaries that own significant property, enter into certain sale and lease-back transactions with respect to any significant property or enter into consolidations, mergers or sales of all or substantially all of our assets.

The notes may be redeemed before the date that is three months prior to the scheduled maturity date at a redemption price equal to the greater of 100% of the principal amount of the notes redeemed and the sum of the present values of the remaining scheduled payments of principal and interest (discounted at the applicable Treasury Yield plus 20 basis points) on the notes to be redeemed. The notes may also be redeemed on or after the date that is three months prior to the scheduled maturity date of the notes at a redemption price equal to 100% of the principal amount of the notes redeemed plus accrued and unpaid interest.

Senior Notes due 2019 In March 2017, we redeemed \$1,000 million aggregate principal amount of our outstanding 5% senior notes due 2019, and paid \$65 million in make-whole premiums. In conjunction with the redemption of these notes, we recognized non-cash charges of \$4 million for the write-off of unamortized debt issuance costs and \$44 million for the write-off of the cumulative fair value hedge accounting adjustment related to the redeemed notes.

Short-Term Debt

Senior Revolving Credit Facility In June 2017, the term of our \$2,500 million revolving credit facility was extended for one year to June 2022 pursuant to a consent agreement. The revolving credit facility may be used for dollar and euro denominated borrowings, has a \$500 million sublimit for dollar and euro denominated letters of credit, a \$1,000 million uncommitted accordion feature, and supports our commercial paper program. The aggregate balance of outstanding borrowings, including amounts outstanding under our commercial paper program, and letters of credit under this facility may not exceed \$2,500 million at any given time. Borrowings under the facility bear interest at a Base Rate or LIBOR, plus an applicable margin. Additional fees are incurred for the average daily unused commitments.

Table of Contents

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The facility contains customary covenants and warranties, including specified restrictions on indebtedness and liens. In addition, we are required to maintain a leverage ratio at the end of every fiscal quarter of 3.50 to 1.00 or less for the period covering the most recent four quarters. We are in compliance with these covenants as of September 30, 2017. At September 30, 2017, we had \$317 million of outstanding commercial paper, no outstanding letters of credit and no outstanding borrowings under this facility.

Commercial Paper Program We have a commercial paper program under which we may issue up to \$2,500 million of privately placed, unsecured, short-term promissory notes (commercial paper). This program is backed by our \$2,500 million Senior Revolving Credit Facility. Proceeds from the issuance of commercial paper may be used for general corporate purposes, including dividends and share repurchases. Interest rates on the commercial paper outstanding at September 30, 2017 are based on the term of the notes and range from 141 to 155 basis points.

U.S. Receivables Securitization Facility Our \$900 million U.S. accounts receivable securitization facility, which expires in 2018, has a purchase limit of \$900 million in addition to a \$300 million uncommitted accordion feature. This facility provides liquidity through the sale or contribution of trade receivables by certain of our U.S. subsidiaries to a wholly owned, bankruptcy-remote subsidiary on an ongoing basis and without recourse. The bankruptcy-remote subsidiary may then, at its option and subject to a borrowing base of eligible receivables, sell undivided interests in the pool of trade receivables to financial institutions participating in the facility. In the event of liquidation, the bankruptcy-remote subsidiary's assets will be used to satisfy the claims of its creditors prior to any assets or value in the bankruptcy-remote subsidiary becoming available to us. We are responsible for servicing the receivables. This facility also provides for the issuance of letters of credit up to \$200 million. The term of the securitization facility may be extended in accordance with the terms of the agreement. The facility is also subject to customary covenants and warranties, including limits and reserves and the maintenance of specified financial ratios. We are required to maintain a leverage ratio at the end of every fiscal quarter of 3.50 to 1.00 or less for the period covering the most recent four quarters. Performance obligations under the facility are guaranteed by the parent company. Additional fees are incurred for the average daily unused commitments.

At September 30, 2017, there were no borrowings or letters of credit under the facility.

Other At September 30, 2017 and December 31, 2016, our weighted average interest rate on outstanding short-term debt was 1.4% and 0.9%, respectively.

Debt Discount and Issuance Costs

In the nine months ended September 30, 2017 and 2016, amortization of debt discounts and debt issuance costs resulted in amortization expense of \$16 million and \$12 million, respectively, which is included in Interest expense in the Consolidated Statements of Income.

Table of Contents**LYONDELLBASELL INDUSTRIES N.V.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****6. Financial Instruments and Fair Value Measurements**

We are exposed to market risks, such as changes in commodity pricing, currency exchange rates and interest rates. To manage the volatility related to these exposures, we selectively enter into derivative transactions pursuant to our risk management policies.

A summary of the Company's financial instruments, risk management policies, derivative instruments, hedging activities and fair value measurement can be found in Notes 14 and 15 to our Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016. If applicable, updates have been included in the respective sections below.

Financial Instruments Measured at Fair Value on a Recurring Basis The following table summarizes financial instruments outstanding as of September 30, 2017 and December 31, 2016 that are measured at fair value on a recurring basis:

Millions of dollars	September 30, 2017		December 31, 2016		Balance Sheet Classification
	Notional Amount	Fair Value	Notional Amount	Fair Value	
Assets					
Derivatives designated as hedges:					
Commodities	\$ 22	\$	\$ 4	\$	Prepaid expenses and other current assets

Foreign currency	950	120			Other liabilities
Interest rates	2,050	42	1,400	20	Other liabilities
Derivatives not designated as hedges:					
Commodities	192	16	103	11	Accrued liabilities
Foreign currency	631	1	28	1	Accrued liabilities
Non-derivatives:					
Performance share awards	20	20	19	19	Accrued liabilities
Performance share awards	21	21	22	22	Other liabilities
Total	\$ 4,075	\$ 231	\$ 1,572	\$ 73	

All derivatives and available-for-sale securities in the tables above are classified as Level 2, except for our limited partnership investments included in our available-for-sale securities discussed below, that are measured at fair value using the net asset per share (or its equivalent) practical expedient and have not been classified in the fair value hierarchy.

At September 30, 2017, our outstanding foreign currency and commodity contracts not designated as hedges mature from October 2017 to December 2017 and from October 2017 to June 2018, respectively.

Table of Contents**LYONDELLBASELL INDUSTRIES N.V.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Financial Instruments Not Measured at Fair Value on a Recurring Basis The following table presents the carrying value and estimated fair value of our financial instruments that are not measured at fair value on a recurring basis as of September 30, 2017 and December 31, 2016:

Millions of dollars	September 30, 2017		December 31, 2016	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Non-derivatives:				
Assets:				
Short-term loans receivable	\$ 561	\$ 561	\$ 369	\$ 369
Liabilities:				
Short-term debt	\$ 59	\$ 67	\$ 90	\$ 98
Long-term debt	8,528	9,428	8,382	9,147
Total	\$ 8,587	\$ 9,495	\$ 8,472	\$ 9,245

All financial instruments in the table above are classified as Level 2. There were no transfers between Level 1 and Level 2 for any of our financial instruments during the nine months ended September 30, 2017 and the year ended December 31, 2016.

Net Investment Hedges In August 2017 and September 2017, forward exchange contracts and basis swaps with an aggregate notional value of 550 million expired. Upon settlement of these foreign currency contracts, we paid 550 million (\$658 million at the expiry spot rate) to our counterparties and received \$609 million from our counterparties. The \$49 million loss is reflected in foreign currency translation adjustments in Accumulated other comprehensive loss. Cash flows from the settlement of these foreign currency contracts are reported in Cash flows from investing activities in the Consolidated Statements of Cash Flows.

In February 2017, we entered into 617 million of basis swaps to reduce the volatility in stockholders' equity resulting from changes in currency exchange rates of our foreign subsidiaries with respect to the U.S. dollar. We use the critical terms match to assess hedge effectiveness of these basis swaps by comparing the spot rate change in the basis swaps and the spot rate change in the designated net investment.

In September 2016, 450 million of our basis swaps expired. Upon settlement of these basis swap contracts, we paid 450 million (\$506 million at the expiry spot rate) to our counterparties and received \$500 million from our counterparties. The \$6 million loss is reflected in foreign currency translation adjustments in Accumulated other comprehensive loss. Cash flows from the settlement of these basis swap contracts are reported in Cash flows from investing activities in the Consolidated Statements of Cash Flows.

On March 31, 2016, we settled forward exchange contracts with an aggregate notional value of 750 million. Upon settlement of these contracts, we paid 750 million (\$850 million at the expiry spot rate) to our counterparties and received \$795 million from our counterparties. The \$55 million difference, which includes a \$30 million loss in the first quarter of 2016, is reflected in foreign currency translations adjustments in Accumulated other comprehensive loss. Cash flows from the settlement of these forward exchange contracts are reported in Cash flows from investing activities in the Consolidated Statements of Cash Flows.

At September 30, 2017 and December 31, 2016, we had outstanding foreign currency contracts with an aggregate notional value of 742 million (\$789 million) and 675 million (\$743 million), respectively, designated as net

Table of Contents**LYONDELLBASELL INDUSTRIES N.V.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

investment hedges. In addition, we had outstanding foreign-currency denominated debt, with notional amounts totaling 750 million (\$850 million), designated as a net investment hedge at each of September 30, 2017 and December 31, 2016.

There was no ineffectiveness recorded for any of these net investment hedging relationships during the three and nine months ended September 30, 2017 and 2016.

Cash Flow Hedges The following table summarizes our cash flow hedges outstanding at September 30, 2017 and December 31, 2016:

Millions of dollars	September 30, 2017	December 31, 2016	Expiration Date
	Notional Value	Notional Value	
Foreign currency	\$ 2,300	\$ 2,300	2021 to 2027
Interest rates	1,000	1,000	2049
Commodities	110	58	2017 to 2019

The ineffectiveness recorded for these cash flow hedging relationships was losses of less than \$1 million during each of the three months ended September 30, 2017 and 2016 and losses of \$1 million and \$1 million during the nine months ended September 30, 2017 and 2016.

As of September 30, 2017, less than \$1 million (on a pretax basis) and \$2 million (on a pretax basis) are scheduled to be reclassified as decreases to interest expense and cost of sales respectively over the next twelve months.

Fair Value Hedges In February 2017, we entered into U.S. dollar fixed-for-floating interest rate swaps to mitigate changes in the fair value of our \$1,000 million 3.5% guaranteed notes due 2027 associated with the risk of variability in the 3 Month USD LIBOR rate (the benchmark interest rate). The fixed-rate and variable-rate are settled semi-annually and quarterly, respectively.

In the third quarter of 2014, we entered into U.S. dollar fixed-for-floating interest rate swaps to mitigate changes in the fair value of our \$2,000 million 5% senior notes due 2019. In March 2017, concurrent with the redemption of \$1,000 million of our outstanding 5% senior notes due 2019, we dedesignated the related \$2,000 million fair value hedge and terminated swaps in the notional amount of \$1,000 million. At the same time, we redesignated the remaining \$1,000 million notional amount of swaps as a fair value hedge of the remaining \$1,000 million of 5% senior notes outstanding. For information related to charges recognized as a result of the dedesignation of the hedging relationship, see Note 5.

At September 30, 2017 and December 31, 2016, we had outstanding interest rate contracts with aggregate notional amounts of \$3,000 million and \$2,600 million, respectively, designated as fair value hedges. Our interest rate contracts outstanding at September 30, 2017 mature from 2019 to 2027.

The ineffectiveness related to these fair value hedging relationships resulted in net losses of \$4 million and \$11 million for the three months and nine months ended September 30, 2017, respectively, and net gains of \$8 million and \$26 million, respectively, for the three and nine months ended September 30, 2016, respectively.

Investments in Marketable Securities The following table summarizes the amortized cost, gross unrealized gains and losses, and fair value of our available-for-sale and held-to maturity securities that are outstanding as of September 30, 2017 and December 31, 2016:

Millions of dollars	Cost	September 30, 2017		Fair Value
		Gross Unrealized Gains	Gross Unrealized Losses	
Available-for-sale securities:				
Commercial paper	\$ 177	\$	\$	\$ 177
Bonds	621	1		622
Certificates of deposit	150			150
Time deposits	1			1
Limited partnership investments	350	1	(6)	345
Total available-for-sale securities	\$ 1,299	\$ 2	\$ (6)	\$ 1,295

Millions of dollars	Cost	December 31, 2016		Fair Value
		Gross Unrealized Gains	Gross Unrealized Losses	
Available-for-sale securities:				
Commercial paper	\$ 232	\$	\$	\$ 232
Bonds	141			141
Certificates of deposit	347	1		348
Limited partnership investments	350	2		352
Total available-for-sale securities	\$ 1,070	\$ 3	\$	\$ 1,073

Held-to-maturity securities:				
Time deposits	\$ 74	\$	\$	\$ 74

At September 30, 2017 and December 31, 2016, we had marketable securities classified as Cash and cash equivalents of \$725 million and \$351 million, respectively.

No losses related to other-than-temporary impairments of our available-for-sale and held-to-maturity investments have been recorded in Accumulated other comprehensive loss during the three and nine months ended September 30, 2017 and the year ended December 31, 2016.

As of September 30, 2017, our available-for-sale securities had the following maturities: commercial paper securities held by the Company had maturities between five and six months; bonds had maturities between seven and thirty-seven months; certificates of deposit mature within six months; and limited partnership investments mature between one and three months.

Table of Contents**LYONDELLBASELL INDUSTRIES N.V.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The proceeds from maturities and sales of our available-for-sale securities during the three and nine months ended September 30, 2017 and 2016 are summarized in the following table:

Millions of dollars	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Proceeds from maturities of securities	\$ 12	\$ 8	\$ 499	\$ 665
Proceeds from sales of securities				

No gain or loss was realized in connection with the sales of our available-for-sale securities during the three and nine months ended September 30, 2017 and 2016.

During the nine months ended September 30, 2017, we had maturities of our held-to-maturity securities of \$75 million. During the three and nine months ended September 30, 2017, we had no sales of our held-to-maturity securities and we had no transfers of investments classified as held-to-maturity to available-for-sale.

The following table summarizes the fair value and unrealized losses related to available-for-sale and held-to-maturity securities that were in a continuous unrealized loss position for less than and greater than twelve months as of September 30, 2017 and December 31, 2016:

Millions of dollars	September 30, 2017			
	Less than 12 months		Greater than 12 months

Available-for-sale securities:				
Limited partnership investments	\$	\$	\$ 105	\$ (3)

Foreign Currency Gain (Loss) Other income, net, in the Consolidated Statements of Income reflected losses of less than \$1 million and \$6 million for the three and nine months ended September 30, 2017, respectively, and a gain of \$1 million and a loss of \$5 million for the three and nine months ended September 30, 2016, respectively.

Repurchase Agreements At September 30, 2017 and December 31, 2016, we had investments in tri-party repurchase agreements of \$561 million and \$369 million, respectively. Depending upon maturity, these tri-party repurchase agreements are treated as short-term loans receivable and are reflected in Prepaid expenses and other current assets or as long-term loans receivable reflected in Other investments and long-term receivables on our Consolidated Balance Sheets.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

8. Income Taxes

Our effective income tax rate for the three months ended September 30, 2017 was 26.4% compared with 25.4% for the three months ended September 30, 2016. For the nine months ended September 30, 2017, the effective income tax rate was 27.8% compared with 26.4% for the first nine months ended September 30, 2016. Our effective income tax rate fluctuates based on, among other factors, changes in pretax income in countries with varying statutory tax rates, the U.S. domestic production activity deduction, changes in valuation allowances, changes in foreign exchange gains/losses, the amount of exempt income, and changes in unrecognized tax benefits associated with uncertain tax positions.

Compared with the third quarter of 2016, the higher effective tax rate for the third quarter of 2017 was primarily attributable to changes in pretax income in countries with varying statutory tax rates, prior year adjustments to our deferred tax liabilities, and an increase in foreign currency exchange gains, partially offset by an increase in exempt income, and an increase in U.S. domestic production activity deduction. Compared with the first nine months of 2016, the higher effective tax rate for the first nine months of 2017 was primarily attributable to changes in valuation allowances, changes in pretax income in countries with varying statutory tax rates, a decrease in exempt income, and prior year adjustments to our deferred tax liabilities, partially offset by an increase in U.S. domestic production activity deduction.

We operate in multiple jurisdictions throughout the world, and our tax returns are periodically audited or subjected to review by tax authorities. The Company is currently under examination in a number of tax jurisdictions. As a result, there is an uncertainty in income taxes recognized in the Company's financial statements. Tax benefits totaling \$552 million and \$546 million were unrecognized as of September 30, 2017 and December 31, 2016, respectively. Positions challenged by the tax authorities may be settled or appealed by the Company. It is reasonably possible that, within the next twelve months, due to the settlement of uncertain tax positions with various tax authorities and the expiration of statutes of limitations, unrecognized tax benefits could decrease by up to approximately \$90 million.

We monitor income tax developments (including, for example, the U.S. tax reform proposals and the European Union's state aid investigations) in countries where we conduct business. Recently, there has been an increase in attention, both in the U.K. and globally, to the tax practices of multinational companies, including proposals by the Organization for Economic Cooperation and Development with respect to base erosion and profit shifting. Such attention may result in legislative changes that could affect our tax rate. Management does not believe that recent changes in income tax laws will have a material impact on our Consolidated Financial Statements, although new or proposed changes to tax laws could affect our tax liabilities in the future. In October 2016, the U.S. Treasury issued final Section 385 debt-equity regulations that may impact our internal financings in future years. Pursuant to an Executive Order, the Treasury Department reviewed these regulations and recently concluded to partially retain the regulations pending potential enactment of U.S. tax reform, which is expected to make it possible for the regulations to be revoked.

Table of Contents**LYONDELLBASELL INDUSTRIES N.V.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****9. Commitments and Contingencies**

Financial Assurance Instruments We have obtained letters of credit, performance and surety bonds and have issued financial and performance guarantees to support trade payables, potential liabilities and other obligations. Considering the frequency of claims made against the financial instruments we use to support our obligations, and the magnitude of those financial instruments in light of our current financial position, management does not expect that any claims against or draws on these instruments would have a material adverse effect on our Consolidated Financial Statements. We have not experienced any unmanageable difficulty in obtaining the required financial assurance instruments for our current operations.

Environmental Remediation Our accrued liability for future environmental remediation costs at current and former plant sites and other remediation sites totaled \$99 million and \$95 million as of September 30, 2017 and December 31, 2016, respectively. At September 30, 2017, the accrued liabilities for individual sites range from less than \$1 million to \$17 million. The remediation expenditures are expected to occur over a number of years, and not to be concentrated in any single year. In our opinion, it is reasonably possible that losses in excess of the liabilities recorded may have been incurred. However, we cannot estimate any amount or range of such possible additional losses. New information about sites, new technology or future developments such as involvement in investigations by regulatory agencies, could require us to reassess our potential exposure related to environmental matters.

The following table summarizes the activity in our accrued environmental liability included in Accrued liabilities and Other liabilities:

Millions of dollars	Nine Months Ended September 30,	
	2017	2016
Beginning balance	\$ 95	\$ 106
Additional provision		3
Changes in estimates	3	10
Amounts paid	(7)	(16)
Foreign exchange effects	8	2
Ending balance	\$ 99	\$ 105

Access Indemnity Demand In December 2010, one of our subsidiaries received demand letters from affiliates of Access Industries (collectively, Access Entities), a more than five percent shareholder of the Company, demanding indemnity for losses, including attorney's fees and expenses, arising out of a pending lawsuit styled *Edward S. Weisfelner, as Litigation Trustee of the LB Litigation Trust v. Leonard Blavatnik, et al.*, Adversary Proceeding No. 09-1375 (REG), in the United States Bankruptcy Court, Southern District of New York. In the *Weisfelner* lawsuit, the plaintiffs seek to recover from Access the return of all amounts earned by the Access Entities related to their purchase of shares of Lyondell Chemical prior to its acquisition by Basell AF S.C.A.; distributions by Basell AF S.C.A. to its shareholders before it acquired Lyondell Chemical; and management and transaction fees and expenses. Trial of the lawsuit was

held in October 2016. In April 2017, the court awarded \$7.2 million to the plaintiffs and denied all other relief, and in May 2017 the court issued its Final Judgment reflecting this ruling. With prejudgment interest included, the total Final Judgment is \$12.6 million. In May 2017, the plaintiffs filed an appeal of this Final Judgment to the Federal District Court for the Southern District of New York. That appeal remains pending.

The Access Entities have also demanded \$100 million in management fees under a 2007 management agreement between an Access affiliate and the predecessor of LyondellBasell AF, as well as other unspecified amounts relating

Table of Contents

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

to advice purportedly given in connection with financing and other strategic transactions. In June 2009, an Access affiliate filed a proof of claim in Bankruptcy Court against LyondellBasell AF seeking no less than \$723 thousand for amounts allegedly owed under the 2007 management agreement. In April 2011, Lyondell Chemical filed an objection to the claim and brought a declaratory judgment action for a determination that the demands are not valid. The declaratory judgment action is stayed pending the outcome of the *Weisfelner* lawsuit.

We do not believe that the 2007 management agreement is in effect or that the Company or any Company-affiliated entity owes any obligations under the management agreement, including for management fees or for indemnification. We intend to vigorously defend our position in any proceedings and against any claims or demands that may be asserted.

Although the court issued its Final Judgment in *Weisfelner* in May 2017 as noted above, it remains on appeal and subject to further potential appeal by the parties. Accordingly, we cannot at this time estimate the reasonably possible loss or range of loss that may be incurred.

409A Matter Certain of the Company's current and former executives were being audited by the Internal Revenue Service for the 2012 tax year regarding the treatment of their Company stock options under Section 409A of the Internal Revenue Code. In early 2017, the audits were settled and the Company has incurred an aggregate of \$1.7 million for all liabilities relating to the 2012 tax year. The Company believes that any additional future liability that may arise related to this issue will not be material.

Indemnification We are parties to various indemnification arrangements, including arrangements entered into in connection with acquisitions, divestitures and the formation and dissolution of joint ventures. Pursuant to these arrangements, we provide indemnification to and/or receive indemnification from other parties in connection with liabilities that may arise in connection with the transactions and in connection with activities prior to completion of the transactions. These indemnification arrangements typically include provisions pertaining to third party claims relating to environmental and tax matters and various types of litigation. As of September 30, 2017, we had not accrued any significant amounts for our indemnification obligations, and we are not aware of other circumstances that would likely lead to significant future indemnification obligations. We cannot determine with certainty the potential amount of future payments under the indemnification arrangements until events arise that would trigger a liability under the arrangements.

As part of our technology licensing contracts, we give indemnifications to our licensees for liabilities arising from possible patent infringement claims with respect to certain proprietary licensed technologies. Such indemnifications have a stated maximum amount and generally cover a period of five to ten years.

10. Stockholders' Equity

Dividend distributions The following table summarizes the dividends paid in the periods presented:

Millions of dollars, except per share amounts	Dividend Per Ordinary Share	Aggregate Dividends Paid	Date of Record
March	\$ 0.85	\$ 343	March 6, 2017
June	0.90	361	June 5, 2017
September	0.90	356	September 6, 2017
	\$ 2.65	\$ 1,060	

Table of Contents**LYONDELLBASELL INDUSTRIES N.V.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Share Repurchase Programs In May 2017, our shareholders approved a proposal to authorize us to repurchase up to an additional 10% of our outstanding ordinary shares through November 2018 (May 2017 Share Repurchase Program). As a result, the authorization of the remaining unpurchased shares under the share repurchase program approved by our shareholders in May 2016 (May 2016 Share Repurchase Program) was superseded.

These repurchases, which are determined at the discretion of our Management Board, may be executed from time to time through open market or privately negotiated transactions. The repurchased shares, which are recorded at cost, are recorded as Treasury stock and may be retired or used for general corporate purposes, including for various employee benefit and compensation plans.

The following table summarizes our share repurchase activity for the periods presented:

Millions of dollars, except shares and per share amounts	Nine Months Ended September 30, 2017		
	Shares Repurchased	Average Purchase Price, Including Commissions	Total Purchase Price, Including Commissions
May 2016 Share Repurchase Program	3,501,084	\$ 85.71	\$ 300
May 2017 Share Repurchase Program	6,516,917	83.54	545
	10,018,001	\$ 84.30	\$ 845

Millions of dollars, except shares and per share amounts	Nine Months Ended September 30, 2016		
	Shares Repurchased	Average Purchase Price, Including Commissions	Total Purchase Price, Including Commissions
May 2015 Share Repurchase Program	15,302,707	\$ 80.15	\$ 1,226
May 2016 Share Repurchase Program	16,091,214	77.73	1,251
	31,393,921	\$ 78.91	\$ 2,477

Due to the timing of settlements, total cash paid for share repurchases for the nine months ended September 30, 2017 and 2016 was \$866 million and \$2,501 million, respectively.

Ordinary Shares The changes in the outstanding amounts of ordinary shares are as follows:

	Nine Months Ended September 30,	
	2017	2016
Ordinary shares outstanding:		
Beginning balance	404,046,331	440,150,069
Share-based compensation	343,663	338,103
Warrants expired or exercised	4,184	200
Employee stock purchase plan	81,964	71,108
Repurchase of ordinary shares	(10,018,001)	(31,393,921)
Ending balance	394,458,141	409,165,559

Table of Contents**LYONDELLBASELL INDUSTRIES N.V.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Treasury Shares The changes in the amounts of treasury shares held by the Company are as follows:

	Nine Months Ended September 30,	
	2017	2016
Ordinary shares held as treasury shares:		
Beginning balance	174,389,139	138,285,201
Share-based compensation	(343,663)	(338,103)
Warrants exercised	509	
Employee stock purchase plan	(81,964)	(71,108)
Repurchase of ordinary shares	10,018,001	31,393,921
Ending balance	183,982,022	169,269,911

Accumulated Other Comprehensive Income (Loss) The components of, and after-tax changes in, Accumulated other comprehensive loss as of and for the nine months ended September 30, 2017 and 2016 are presented in the following table:

Millions of dollars	Financial Derivatives	Investments	Net Unrealized Holding Gains (Losses) on Equity	Net Unrealized Holding Gains (Losses) Attributable to Investees	Defined Pension and Other Postretirement Benefit Plans	Foreign Currency Translation Adjustments	Total

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

12. Segment and Related Information

Our operations are managed through five operating segments, as shown below. We disclose the results of each of our operating segments in accordance with ASC 280, *Segment Reporting*. Each of our operating segments is managed by a senior executive reporting directly to our Chief Executive Officer, the chief operating decision maker. Discrete financial information is available for each of the segments, and our Chief Executive Officer uses the operating results of each of the operating segments for performance evaluation and resource allocation. The activities of each of our segments from which they earn revenues and incur expenses are described below:

Olefins and Polyolefins Americas (O&P Americas). Our O&P Americas segment produces and markets olefins and co-products, polyethylene and polypropylene.

Olefins and Polyolefins Europe, Asia, International (O&P EAI). Our O&P EAI segment produces and markets olefins and co-products, polyethylene, and polypropylene, including polypropylene compounds.

Intermediates and Derivatives (I&D). Our I&D segment produces and markets propylene oxide and its co-products and derivatives, oxyfuels and related products and intermediate chemicals such as styrene monomer, acetlys, ethylene oxide and ethylene glycol.

Refining. Our Refining segment refines heavy, high-sulfur crude oils and other crude oils of varied types and sources available on the U.S. Gulf Coast into refined products, including gasoline and distillates.

Technology. Our Technology segment develops and licenses chemical and polyolefin process technologies and manufactures and sells polyolefin catalysts.

Our chief operating decision maker uses EBITDA as the primary measure for reviewing our segments' profitability and therefore, in accordance with ASC 280, *Segment Reporting*, we have presented EBITDA for all segments. We define EBITDA as earnings before interest, taxes and depreciation and amortization.

Intersegment eliminations and items that are not directly related or allocated to business operations are included in Other. Sales between segments are made primarily at prices approximating prevailing market prices.

Table of Contents**LYONDELLBASELL INDUSTRIES N.V.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Summarized financial information concerning reportable segments is shown in the following table for the periods presented:

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

This discussion and analysis should be read in conjunction with the information contained in our Consolidated Financial Statements and the accompanying notes elsewhere in this report. When we use the terms we, us, our or similar words in this discussion, unless the context otherwise requires, we are referring to LyondellBasell Industries N.V. and its consolidated subsidiaries.

OVERVIEW

Our portfolio of global businesses demonstrated strong performance in the third quarter with the improvement in our I&D segment and continued strong results from our O&P EAI segment. Texas Gulf Coast production losses due to the impacts of Hurricane Harvey on our operations in the third quarter of 2017 were partly offset by margin improvements and, in many cases, were similar to or less than production constraints in the comparable periods of 2016.

Significant items that affected our results during the third quarter and first nine months of 2017 relative to the third quarter and first nine months of 2016 include:

Lower O&P Americas results due to a decline in olefins margins, partly offset by higher polyethylene margins in the third quarter of 2017; and lower polyolefins margins in the first nine months of 2017, partly offset by increased olefins volumes;

Strong O&P EAI results reflect higher polyolefins volumes in the third quarter of 2017, offset in part by declines in olefins and polyethylene margins. Higher olefins margins and higher volumes in the first nine months of 2017, offset in part by lower polyethylene margins;

Higher I&D segment results with strong intermediate chemicals margins in both 2017 periods, partly offset by impacts of turnaround activities; and

Improved Refining segment results due to higher crude oil processing rates and industry margins, partly offset in the first nine months of 2017 by higher maintenance-related fixed costs.

Other noteworthy items since the beginning of the year include the following:

In September 2017, our senior unsecured debt rating was raised by Standard and Poor's Rating Services to BBB+ from BBB, matching our corporate investment-grade credit rating;

Edgar Filing: LyondellBasell Industries N.V. - Form 10-Q

In July 2017, we announced our final investment decision to build a world-scale PO/TBA plant in Texas with a capacity of 1 billion pounds of PO and 2.2 billion pounds of TBA. Construction is expected to commence in the second half of 2018;

Increased quarterly dividend from \$0.85 to \$0.90 cents in May 2017;

Issuance of \$1,000 million of 3.5% guaranteed notes due 2027 in March 2017, used to redeem \$1,000 million aggregate principal amount of our outstanding 5% senior notes due 2019; and

Repurchases of approximately 3 million and 10 million of our outstanding ordinary shares during the third quarter and first nine months of 2017, respectively.

Table of Contents

Results of operations for the periods discussed are presented in the table below:

Millions of dollars	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2017	2016	2017	2016
Sales and other operating revenues	\$ 8,516	\$ 7,365	\$ 25,349	\$ 21,436
Cost of sales	6,939	5,903	20,531	16,771
Selling, general and administrative expenses	218	188	622	580
Research and development expenses	27	25	77	73
Operating income	1,332	1,249	4,119	4,012
Interest expense	(94)	(72)	(396)	(237)
Interest income	5	4	15	13
Other income, net	114	19	173	104
Income from equity investments	81	81	240	289
Provision for income taxes	380	326	1,154	1,104
Income from continuing operations	1,058	955	2,997	3,077
Loss from discontinued operations, net of tax	(2)	(2)	(14)	(3)
Net income	\$ 1,056	\$ 953	\$ 2,983	\$ 3,074

RESULTS OF OPERATIONS

Revenues Revenues increased by \$1,151 million, or 16%, in the third quarter of 2017 compared to the third quarter of 2016 and by \$3,913 million, or 18%, in the first nine months of 2017 compared to the first nine months of 2016.

Average sales prices in the third quarter and first nine months of 2017 were higher across most products as sales prices generally correlate with crude oil prices, which on average, increased compared to the corresponding periods in 2016. These higher prices led to increases in revenues of 9% and 15%, respectively. Higher volumes in our O&P Americas, O&P-EAI and Refining segments, which were partly offset by lower I&D segment volumes, led to revenue increases in the third quarter and first nine months of 2017 by 5% and 3%, respectively. Favorable foreign exchange impacts resulted in a 2% revenue increase in the third quarter of 2017.

Cost of Sales Cost of sales increased by \$1,036 million, or 18%, in the third quarter of 2017 compared to the third quarter of 2016 and by \$3,760 million, or 22%, in the first nine months of 2017 compared to the first nine months of 2016 primarily due to increases in feedstock and energy costs.

Operating Income Operating income increased by \$83 million in the third quarter of 2017 compared to the third quarter of 2016 and by \$107 million in the first nine months of 2017 compared to the first nine months of 2016.

Operating income for the third quarter of 2017 increased relative to the third quarter of 2016 by \$89 million and \$66 million in our I&D and Refining segments, respectively. These favorable impacts were offset by a decline of \$85 million in our O&P Americas segment.

Operating income for the first nine months of 2017 increased relative to the first nine months of 2016 by \$182 million, \$46 million and \$58 million in our O&P EAI, I&D and Refining segments. These favorable impacts were offset by declines of \$141 million and \$45 million, respectively, in our O&P Americas and Technology segments.

Results for each of our business segments are discussed further in the Segment Analysis section below.

Interest Expense Interest expense increased by \$22 million in the third quarter of 2017 compared to the third quarter of 2016 and by \$159 million in the first nine months of 2017 compared to the first nine months of 2016.

In the first nine months of 2017, we recognized charges totaling \$113 million related to the March 2017 redemption of \$1,000 million of our outstanding 5% senior notes due 2019. These charges included \$65 million of prepayment premiums, \$44 million for adjustments associated with fair value hedges and \$4 million for the write-off of associated unamortized debt issuance costs. For additional information related to the repayment of debt, see Note 5.

Table of Contents

Excluding the effect of interest rate hedges, reductions in interest expense of \$13 million and \$26 million in the third quarter and first nine months of 2017 related to the first quarter 2017 redemption of our 5% senior notes due 2019 were substantially offset in the third quarter and first nine months of 2017 by increased interest expense of \$10 million and \$24 million, respectively, related to debt issuances in March 2017 of our 3.5% guaranteed notes due 2027 and in March 2016 of our 1.875% guaranteed notes due 2022. A reduction in the amount of interest capitalized in the third quarter and first nine months of 2017 resulted in increases in interest expense of \$10 million and \$14 million, relative to the corresponding periods in 2016. Charges from our fair value hedges resulted in increases of interest expense of \$13 million and \$35 million during the third quarter and first nine months of 2017.

Other Income, Net Other income, net of \$114 million in the third quarter of 2017 reflects an increase of \$95 million over the prior year period largely due to a \$108 million gain on the sale of our 27% interest in our Geosel joint venture, which was recognized by our O&P EAI segment.

Other income, net of \$173 million in the first nine months of 2017 increased by \$69 million relative to the same period in 2016. In the first nine months of 2017, we recognized the gain on the sale of our joint venture discussed above, a \$31 million gain on the sale of our Lake Charles, Louisiana site, which was recognized by our O&P Americas segment, and a \$21 million non-cash gain in our O&P EAI segment related to the elimination of an obligation associated with a lease. In the first nine months of 2016, we recognized a \$78 million gain related to the sale of our wholly owned Argentine subsidiary. We allocated \$57 million and \$21 million of this gain to our O&P Americas and O&P EAI segments, respectively.

Equity Income Income from our equity investments declined by \$49 million in the first nine months of 2017 compared to the first nine months of 2016. This decline was relative to very strong 2016 results from our joint ventures in Mexico, Poland and Saudi Arabia.

Income Tax Our effective income tax rate for the third quarter of 2017 was 26.4% compared with 25.4% for the third quarter of 2016 and for the first nine months of 2017 was 27.8% compared with 26.4% for the first nine months of 2016.

Our effective income tax rate fluctuates based on, among other factors, changes in pretax income in countries with varying statutory tax rates, the U.S. domestic production activity deduction, changes in valuation allowances, changes in foreign exchange gains/losses, the amount of exempt income, and changes in unrecognized tax benefits associated with uncertain tax positions.

Our exempt income primarily includes interest income and equity earnings of joint ventures. The interest income is earned by certain of our European subsidiaries through intercompany financings and is either untaxed or taxed at rates substantially lower than the U.S. statutory rate. The equity earnings are attributable to our joint ventures and these earnings when paid through dividends to certain European subsidiaries are eligible for participation exemptions, which exempt the dividend payments from all or portions of normal statutory income tax rates. We currently anticipate the favorable treatment for the interest income and dividends to continue in the near term; however, this treatment is based on current law and tax rulings, which could change. The foreign exchange gains/losses have a permanent impact on our effective income tax rate that can cause unpredictable movement in our effective income tax rate.

Compared with the third quarter of 2016, the higher effective tax rate for the third quarter of 2017 was primarily attributable to changes in pretax income in countries with varying statutory tax rates (1.1%), prior year adjustments to our deferred tax liabilities (1.1%), and an increase in foreign currency exchange gains (0.5%), partially offset by an increase in exempt income (-0.9%) and an increase in U.S. domestic production activity deduction (-0.9%). Compared

with the first nine months of 2016, the higher effective tax rate for the first nine months of 2017 was primarily attributable to changes in valuation allowances (0.6%), changes in pretax income in countries with varying statutory tax rates (0.4%), a decrease in exempt income (0.4%), and prior year adjustments to our deferred tax liabilities (0.3%), partially offset by an increase in U.S. domestic production activity deduction (-0.3%).

Table of Contents

We monitor income tax developments (including, for example, the U.S. tax reform proposals and the European Union's state aid investigations) in countries where we conduct business. Recently, there has been an increase in attention, both in the U.K. and globally, to the tax practices of multinational companies, including proposals by the Organization for Economic Cooperation and Development with respect to base erosion and profit shifting. Such attention may result in legislative changes that could affect our tax rate. Management does not believe that recent changes in income tax laws will have a material impact on our Consolidated Financial Statements, although new or proposed changes to tax laws could affect our tax liabilities in the future. In October 2016, the U.S. Treasury issued final Section 385 debt-equity regulations that may impact our internal financings in future years. Pursuant to an Executive Order, the Treasury Department reviewed these regulations and recently concluded to partially retain the regulations pending potential enactment of U.S. tax reform, which is expected to make it possible for the regulations to be revoked.

Comprehensive Income Comprehensive income increased by \$139 million in the third quarter of 2017 compared to the third quarter of 2016 and by \$115 million in the first nine months of 2017 compared to the first nine months of 2016. The third quarter 2017 increase reflects higher net income in the third quarter of 2017 and the favorable impacts of financial derivative adjustments. The increase in the first nine months of 2017 reflects the favorable impacts of financial derivative adjustments and the net favorable impact of unrealized net changes in foreign currency translation adjustments, partially offset by lower net income.

In the third quarter and first nine months of 2017, the cumulative effects of our derivatives designated as cash flow hedges were losses of \$100 million and \$260 million, respectively. The euro strengthened against the U.S. dollar in the third quarter and first nine months of 2017 resulting in pre-tax losses of \$98 million and \$233 million, respectively, in the third quarter and first nine months of 2017 related to our cross-currency swaps. Pre-tax gains of \$74 million and \$232 million related to our cross-currency swaps were reclassification adjustments included in net income in the third quarter and first nine months of 2017, respectively. Unrealized pre-tax losses of \$5 million and \$23 million in the third quarter and first nine months of 2017, respectively, related to forward-starting interest rate swaps were driven by increases in benchmark interest rates during those periods.

The predominant functional currency for our operations outside of the U.S. is the euro. Relative to the U.S. dollar, the value of the euro increased during the third quarter and first nine months of 2017 resulting in net gains as reflected in the Consolidated Statements of Comprehensive Income. These net gains include pre-tax losses of \$87 million and \$265 million in the third quarter and first nine months of 2017, respectively, which represent the effective portion of our net investment hedges.

Table of Contents**Segment Analysis**

We use earnings before interest, income taxes, and depreciation and amortization (EBITDA) as our measure of profitability for segment reporting purposes. This measure of segment operating results is used by our chief operating decision maker to assess the performance of and allocate resources to our operating segments. Intersegment eliminations and items that are not directly related or allocated to business operations are included in Other. For additional information related to our operating segments, as well as a reconciliation of EBITDA to its nearest GAAP measure, Income from continuing operations before income taxes, see Note 12, *Segment and Related Information*, to our Consolidated Financial Statements.

Our continuing operations are divided into five reportable segments: O&P Americas; O&P EAI; I&D; Refining; and Technology. Revenues and the components of EBITDA for the periods presented are reflected in the table below.

Millions of dollars	Three Months Ended		Nine Months Ended	
	September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016
Sales and other operating revenues:

Olefins and Polyolefins Americas Segment

Overview Third quarter 2017 EBITDA decreased due to lower olefins margins, partly offset by higher polyethylene margins compared to the third quarter of 2016. EBITDA for the first nine months of 2017 declined due to lower polyolefins and olefins margins and higher fixed costs, partially offset by higher olefins volumes. EBITDA for the first nine months of 2017 also included a \$31 million gain on the sale of our Lake Charles, Louisiana, site. EBITDA for the first nine months of 2016 included a \$57 million gain on the sale of our wholly owned Argentine subsidiary.

Ethylene Raw Materials Production economics for the industry have favored natural gas liquids (NGLs) in recent years. While ethane continues to be the preferred U.S. olefins feedstock over time, there were periods during the third quarter and first nine months of 2017 when crude oil based liquids (heavy liquids), had comparable or favored economics. These favorable economics resulted from co-product price increases, a more significant component of heavy liquid economics than for ethane, which outpaced feedstock price increases. We produced approximately 85% and 87% of our U.S. ethylene production from NGLs during the third quarters of 2017 and 2016, respectively, and 87% and 88%, respectively, during the first nine months of 2017 and 2016.

The following table sets forth selected financial information for the O&P Americas segment including Income from equity investments, which is a component of EBITDA:

Millions of dollars	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2017	2016	2017	2016
Sales and other operating revenues	\$ 2,449	\$ 2,342	\$ 7,600	\$ 6,668
Income from equity investments	8	12	33	54

EBITDA	616	682	2,198	2,314
--------	-----	-----	-------	-------

Revenues Revenues for our O&P Americas segment increased by \$107 million, or 5%, in the third quarter of 2017 compared to the third quarter of 2016 and by \$932 million, or 14%, in the first nine months of 2017 compared to the first nine months of 2016.

Table of Contents

Average sales prices for most products increased in the third quarter and first nine months of 2017, consistent with feedstock prices that are correlated with the price of crude oil, which on average increased relative to the third quarter and first nine months of 2016. These higher sales prices were responsible for increases in revenues of 2% and 12% in the third quarter and first nine months of 2017, respectively.

Better product availability compared to the third quarter and first nine months of 2016, which was negatively affected by expansion at our Corpus Christi, Texas facility and turnaround activities, led to higher olefins sales volumes. These increased volumes, which were partially offset by a decrease in olefins and polyolefins sales volumes resulting from reduced production related to Hurricane Harvey, were responsible for revenue increases of 3% and 2%, respectively, in the third quarter and first nine months of 2017.

EBITDA EBITDA decreased by \$66 million, or 10%, in the third quarter of 2017 compared to the third quarter of 2016 and by \$116 million, or 5%, in the first nine months of 2017 compared to the first nine months of 2016.

Margins in the third quarter were lower than the prior year period due to a 6 cents per pound decline in olefins spreads driven equally by lower average ethylene sales prices and increased cost of ethylene production. This decline was offset in part by a 5 cents per pound increase in polyethylene spreads due to the lower cost of ethylene feedstock. This net decrease in margins resulted in a 7% reduction in third quarter 2017 EBITDA. The decline in polyolefins volumes in the third quarter of 2017 due to reduced production resulting from hurricane-related downtime at our Texas Gulf Coast facilities, including the shutdown of our La Porte, Texas facility, led to an additional 2% decline in EBITDA.

In the first nine months of 2017, margins were lower compared to the first nine months of 2016 largely due to decreases in olefins and polypropylene spreads of 1 cent per pound and 6 cents per pound, respectively. These lower margins, which primarily reflect the impact of the increased cost of ethylene and propylene feedstocks, resulted in an 8% decline in EBITDA compared to the first nine months of 2016. Lower income from our equity investments relative to the prior year period resulted in a 1% decline in EBITDA. The net impact of the gain on sale of our wholly owned Argentine subsidiary in the first quarter of 2016 and the first quarter 2017 gain on sale of the Lake Charles, Louisiana site also resulted in a 1% decline in EBITDA compared to the prior year. These decreases were partly offset by a 5% improvement in EBITDA primarily because of the higher olefins volumes in the first nine months 2017 discussed above.

Olefins and Polyolefins Europe, Asia, International Segment

Overview Third quarter 2017 EBITDA was higher relative to the third quarter of 2016 due to the impacts of higher polyolefins volumes and favorable foreign exchange, partially offset by lower margins for olefins and polyethylene. EBITDA also improved in the first nine months of 2017 over the corresponding period in 2016. This improvement was driven by higher olefins margins and the impact of higher volumes across most products, partly offset by lower polyethylene margins and lower income from our equity investments.

EBITDA in the first nine months of 2017 includes a \$108 million gain on the third quarter 2017 sale of our 27% interest in Geosel and the beneficial impact of \$21 million related to the elimination of an obligation associated with a lease. In the first nine months of 2016, EBITDA reflected gains totaling \$11 million from the sales of our joint venture in Japan and idled assets in Australia recognized in the third quarter and a \$21 million gain from the sale of our wholly owned Argentine subsidiary.

The following table sets forth selected financial information for the O&P EAI segment including Income from equity investments, which is a component of EBITDA:

Millions of dollars	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2017	2016	2017	2016
Sales and other operating revenues	\$ 3,152	\$ 2,634	\$ 9,184	\$ 7,933
Income from equity investments	69	67	202	232
EBITDA	698	584	1,926	1,669

Table of Contents

Revenues Revenues increased by \$518 million, or 20%, in the third quarter of 2017 compared to the third quarter of 2016 and by \$1,251 million, or 16%, in the first nine months of 2017 compared to the first nine months of 2016.

Average sales prices in the third quarter and first nine months of 2017 were higher across most products as sales prices generally correlate with crude oil prices, which on average, increased compared to the third quarter and first nine months of 2016. These higher average sales prices were responsible for revenue increases of 5% and 12%, respectively, in the third quarter and first nine months of 2017. Better product availability compared to the third quarter and first nine months of 2016, which was affected by turnaround activity and inventory requirements, led to higher sales volumes across most products. These increased volumes resulted in revenue increases of 11% and 4%, respectively, in the third quarter and first nine months of 2017.

Foreign exchange impacts that, on average, were favorable for the third quarter of 2017 resulted in a revenue increase of 4% compared to the third quarter of 2016.

EBITDA EBITDA increased by \$114 million, or 20%, in the third quarter of 2017 compared to the third quarter of 2016, and by \$257 million, or 15%, in the first nine months of 2017 compared to the first nine months of 2016.

In the third quarter of 2017, higher volumes across most products and favorable foreign exchange impacts led to increases in EBITDA of 8% and 4%, respectively. The combined impact of the third quarter 2017 gain on sale of our interest in Geosel and the absence of the third quarter 2016 gains related to the sales of our joint venture in Japan and idled assets in Australia also resulted in a 17% increase in EBITDA. These increases were partly offset by a 9% decline in EBITDA due to per pound decreases in olefins and polyethylene margins of 1 cent and 3 cents, respectively, relative to the prior year period.

An increase in olefin margins driven by higher ethylene and co-product sales prices was partly offset in the first nine months of 2017 by a 4 cents per pound decrease in European polyethylene spreads due to a more balanced European market. This net increase resulted in a 6% improvement in EBITDA in the first nine months of 2017 compared to the corresponding period in 2016. Higher volumes across most products during the period added another 5% to EBITDA. The net impact of the gain on the 2017 sale of our interest in Geosel and benefit from the elimination of an obligation associated with a lease, and 2016 gains on the sales of our wholly owned Argentine subsidiary, and our joint venture in Japan and idled assets in Australia resulted in an additional 6% increase in EBITDA. These increases were partially offset by a reduction in income from equity investments in Poland and Saudi Arabia in the first nine months of 2017 relative to very strong 2016 results.

Intermediates and Derivatives Segment

Overview Higher EBITDA for our I&D segment in the third quarter and first nine months of 2017 relative to the third quarter and first nine months of 2016 reflects stronger margins for intermediate chemicals products supported by industry outages and increased Asia demand, partially offset by the negative impacts of turnarounds at our Botlek, Netherlands, PO/TBA and Channelview, Texas, methanol facilities on sales. Improved PO and derivative results also benefited the third quarter of 2017. EBITDA for the third quarter and first nine months was also negatively impacted by reduced sales volumes due to Hurricane Harvey.

The following table sets forth selected financial information for the I&D segment including Income from equity investments, which is a component of EBITDA:

Millions of dollars	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2017	2016	2017	2016
Sales and other operating revenues	\$ 2,077	\$ 1,805	\$ 6,241	\$ 5,276
Income from equity investments	4	2	5	3
EBITDA	402	304	1,080	1,027

Table of Contents

Revenues Revenues increased by \$272 million, or 15%, in the third quarter of 2017 compared to the third quarter of 2016 and by \$965 million, or 18%, in the first nine months of 2017 compared to the first nine months of 2016.

Higher average sales prices in the third quarter and first nine months of 2017 for most products, which reflect the impacts of higher feedstock and energy costs and recent industry supply constraints, were responsible for revenue increases of 14% and 19%, respectively. These increases were partially offset by a revenue decrease of 1% in each of the third quarter and first nine months of 2017, primarily due to lower sales volumes for oxyfuels and related products. This volume driven decline was largely due to two major turnarounds at our Botlek, Netherlands, and Channelview, Texas, facilities, and to a lesser extent, to the negative effect of Hurricane Harvey on the operations of our U.S. Gulf Coast facilities.

The remaining change in revenues reflects foreign exchange impacts that, on average, were favorable for the third quarter of 2017.

EBITDA EBITDA increased \$98 million, or 32%, in the third quarter of 2017 compared to the third quarter of 2016 and by \$53 million, or 5%, in the first nine months of 2017 compared to the first nine months of 2016.

Higher margins for intermediate chemicals and PO and derivatives led to a 35% improvement in third quarter 2017 EBITDA relative to the third quarter of 2016. PO and derivative margins were driven by increased seasonal demand supported by industry outages, while intermediate chemicals margins benefited from increased sales prices due to tight supply. The impact of lower volumes discussed above resulted in a 3% decrease in EBITDA for the third quarter of 2017.

Higher intermediate chemicals margins driven by higher average sales prices were the main driver of a 9% increase in EBITDA in the first nine months of 2017, more than offsetting a 4% decrease in EBITDA stemming from the impact of lower volumes discussed above.

Refining Segment

Overview EBITDA for our Refining segment benefited from higher crude processing rates in the third quarter and first nine months of 2017 as the impacts of planned and unplanned maintenance outages in 2017 were less than in the corresponding periods of 2016. Higher industry margins, which include the favorable impact related to industry production outages associated with Hurricane Harvey in the third quarter of 2017, also benefited the 2017 periods but was offset by higher maintenance-related fixed costs in the first nine months of 2017.

The following table sets forth selected financial information and heavy crude oil processing rates for the Refining segment and the U.S. refining market margins for the applicable periods. Light Louisiana Sweet, is a light, sweet crude oil, while Maya is a heavy, sour crude oil. References to industry benchmarks for refining market margins are to industry prices reported by Platts, a division of S&P Global.

Millions of dollars	Three Months Ended		Nine Months Ended	
	September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016
Sales and other operating revenues	\$ 1,670	\$ 1,330	\$ 4,736	\$ 3,574
EBITDA	58	(10)	53	(9)

Edgar Filing: LyondellBasell Industries N.V. - Form 10-Q

Heavy crude processing rates, thousands of barrels per day	240	209	233	192
Market margins, dollars per barrel				
Light crude oil 2-1-1	\$ 16.71	\$ 11.46	\$ 13.94	\$ 10.58
Light crude Maya differential	5.10	7.52	6.71	8.74
Total Maya 2-1-1	\$ 21.81	\$ 18.98	\$ 20.65	\$ 19.32

Table of Contents

Revenues Revenues increased by \$340 million, or 26%, in the third quarter of 2017 compared to the third quarter of 2016 and by \$1,162 million, or 33% in the first nine months of 2017 compared to the first nine months of 2016.

Higher product prices led to revenue increases of 23% and 29%, respectively, relative to the comparative periods in 2016 due to average crude oil price increases of approximately \$8 and \$11 per barrel in the third quarter and first nine months of 2017, respectively. Heavy crude oil processing rates increased by 15% and 21% in the third quarter and first nine months of 2017, respectively, leading to volume driven revenue increases of 3% and 4% during those same periods.

EBITDA EBITDA increased by \$68 million, or 680%, in the third quarter of 2017 compared to the third quarter of 2016 and by \$62 million, or 689%, in the first nine months of 2017 compared to the first nine months of 2016.

Higher production accounted for approximately 20% of the improvement in EBITDA in the third quarter of 2017 and all of the improvement in EBITDA for the first nine months of 2017. Crude oil processing rates in 2017 were higher than 2016, as the 2016 periods were negatively impacted by a coker unit fire in the second quarter and planned turnaround activity on a crude unit and a coker unit processing train in the first quarter. Downtime at crude units reduced crude oil processing rates in both 2016 comparison periods.

Refining margins, which increased due to industry outages related to Hurricane Harvey, accounted for approximately 80% of the EBITDA improvement in the third quarter of 2017. Higher refining margins also benefited EBITDA in the first nine months of 2017; however, the benefit was offset by the higher maintenance-related fixed costs mentioned above.

Technology Segment

Overview EBITDA for the Technology segment was relatively unchanged in the third quarter of 2017 compared to the third quarter 2016. A decline in EBITDA in the first nine months of 2017 reflects lower licensing revenues, partially offset by higher catalyst sales volumes, compared to the first nine months of 2016.

The following table sets forth selected financial information for the Technology segment:

Millions of dollars	Three Months Ended		Nine Months Ended	
	September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016
Sales and other operating revenues	\$ 98	\$ 102	\$ 325	\$ 363
EBITDA	47	45	155	201

Revenues Revenues decreased by \$4 million, or 4%, in the third quarter of 2017 compared to the third quarter of 2016, and by \$38 million, or 10%, in the first nine months of 2017 compared to the first nine months of 2016.

Revenue decreases in the third quarter of 2% and 4%, respectively, were attributable to catalyst sales volumes and average sales prices that were lower compared to the third quarter of 2016. A decline in process licenses issued in prior periods also resulted in a revenue decrease of 3% in the third quarter of 2017. These decreases were offset in part by a revenue increase of 5% driven by foreign exchange impacts that, on average, were favorable in the third quarter of 2017.

A decline in licensing revenues was responsible for a revenue decrease of 14% in the first nine months of 2017 relative to the corresponding period in 2016. This decrease was partially offset by revenue increases in the first nine months of 2017 of 3% and 1%, respectively, related to increased catalyst sales volumes and higher average sales prices for catalysts.

EBITDA EBITDA increased by \$2 million, or 4%, in the third quarter of 2017 compared to the third quarter of 2016, and decreased by \$46 million, or 23%, in the first nine months of 2017 compared to the first nine months of 2016.

Table of Contents

The benefit from higher catalyst margins, which was reduced roughly one half by lower licensing and services margins, led to a 9% increase in third quarter 2017 EBITDA. This net margin improvement was partly offset by a 5% volume-driven decrease resulting from lower catalyst volumes in the third quarter of 2017 relative to the corresponding prior year period. Lower licensing and services margins were largely responsible for a 27% EBITDA decrease in the first nine months of 2017. This decline was partly offset by a 4% improvement in EBITDA resulting from an increase in catalyst volumes during the first nine months of 2017.

Table of Contents**FINANCIAL CONDITION**

Operating, investing and financing activities of continuing operations, which are discussed below, are presented in the following table:

Millions of dollars	Nine Months Ended	
	September 30, 2017	2016
Source (use) of cash:		
Operating activities	\$ 3,724	\$ 3,893
Investing activities	(1,254)	(1,530)
Financing activities	(2,191)	(2,567)

Operating Activities Cash of \$3,724 million generated by operating activities in the first nine months of 2017 reflects earnings adjusted for non-cash items and \$376 million of cash consumed by the main components of working capital—accounts receivable, inventories and accounts payable. Higher sales prices and increased volumes in our O&P EAI segment led to the increase in accounts receivable and an increase in feedstock pricing in our O&P EAI segment led to the increase in accounts payable in the first nine months of 2017. Higher olefin co-product and propylene prices in our O&P Americas segment in the first nine months of 2017, which were partially offset by an inventory drawdown during turnaround activities at our I&D segment's Botlek, Netherlands facility, led to the increase in inventories.

Cash of \$3,893 million generated in the first nine months of 2016 primarily reflected earnings adjusted for non-cash items and cash used by the main components of working capital. The non-cash items in 2016 included a \$78 million gain related to the sale of our wholly owned Argentine subsidiary and adjustments for related working capital, and gains totaling \$11 million related to sales of our joint venture in Japan and idled assets in Australia.

The main components of working capital used cash of \$226 million during the first nine months of 2016. Higher product sales prices in our O&P Americas segment at the end of the third quarter of 2016 combined with the impact of higher quarter-end sales volumes in our O&P Americas and I&D segments relative to the end of the fourth quarter of 2015 led to the increase in accounts receivable. Higher accounts payable partly offset the receivables increases, primarily in our O&P Americas segment, due to additional purchases of product for resale during turnaround activities.

Investing Activities We invest cash in investment-grade and other high-quality instruments that provide adequate flexibility to redeploy funds as needed to meet our cash flow requirements while maximizing yield. In the first nine months of 2017 and 2016, we invested \$653 million and \$683 million, respectively, in securities that are classified as Short-term investments. The majority of these investments are deemed available-for-sale; however, we also invested in some securities deemed held-to-maturity. We received proceeds of \$75 million upon maturity of our held-to-maturity securities during the first nine months of 2017. In the first nine months of 2017 and 2016, we also invested \$512 million and \$500 million, respectively, in tri-party repurchase agreements, which are classified as short-term loans receivable. We received proceeds upon the sale and maturity of certain of our available-for-sale securities and repurchase agreements of \$499 million and \$381 million, respectively, in the first nine months of 2017, and \$665 million and \$603 million, respectively, in the corresponding periods of 2016.

Joint Venture Activity In September 2017, we sold our 27% interest in our Geosel joint venture and received proceeds of \$155 million.

In April 2017, we increased our interest in the entity that holds our equity interest in Al Waha Petrochemicals Ltd. from 83.79% to 100% by paying \$21 million to exercise a call option to purchase the remaining 16.21% interest held by a third party.

In September 2016, we purchased a net additional interest in our joint venture in Korea for \$36 million. In February 2016, we received proceeds of \$72 million for the sale of our joint venture in Japan.

Table of Contents

Financial Instruments Activity Upon expiration in September 2017 and August 2017, we settled foreign currency contracts, each with a notional value of 275 million, which were designated as net investment hedges of our investments in foreign subsidiaries. Payments to and proceeds from our counterparties resulted in a net cash outflow of \$49 million.

Upon expiration in September 2016 and March 2016, we settled foreign currency contracts with notional values of 450 million and 750 million, respectively, which were designated as net investment hedges of our investments in foreign subsidiaries. Payments to and proceeds from our counterparties resulted in net cash outflows totaling \$61 million. See Note 6 to the Consolidated Financial Statements for additional information regarding these foreign currency contracts.

Sale of Wholly Owned Subsidiary In February 2016, we received net cash proceeds of \$137 million for the sale of our wholly owned Argentine subsidiary.

Capital Expenditures The following table summarizes capital expenditures for the periods presented:

Millions of dollars	Nine Months Ended	
	September 30, 2017	September 30, 2016
Capital expenditures by segment:		
O&P Americas	\$ 546	\$ 1,026
O&P EAI	123	189
I&D	263	246
Refining	184	179
Technology	21	24
Other	9	12
Consolidated capital expenditures of continuing operations	\$ 1,146	\$ 1,676

In the first nine months of 2017 and 2016, our capital expenditures included construction related to our new Hyperzone polyethylene plant at our La Porte, Texas facility, construction related to our new PO/TBA plant in Texas, debottlenecks of certain assets to enhance production, turnaround activities at several sites as well as other plant improvement projects. The lower level of capital expenditures for our O&P Americas in the first nine months of 2017 is largely due to the completion of the 800 million pound ethylene expansion at our Corpus Christi, Texas facility in the fourth quarter of 2016.

Financing Activities In the first nine months of 2017 and 2016, we made payments of \$866 million and \$2,501 million, respectively, to acquire approximately 10 million and 31 million, respectively, of our outstanding ordinary shares. We also made dividend payments totaling \$1,060 million and \$1,049 million during the first nine months of 2017 and 2016, respectively. For additional information related to these share repurchases and dividend payments, see Note 10 to the Consolidated Financial Statements.

We made net repayments of \$178 million and received net proceeds of \$177 million in the first nine months of 2017 and 2016, respectively, through the issuance and repurchase of commercial paper instruments under our commercial paper program.

Edgar Filing: LyondellBasell Industries N.V. - Form 10-Q

In March 2017, we issued \$1,000 million of 3.5% guaranteed notes due 2027 and received net proceeds of \$990 million. The proceeds from these notes, together with available cash, were used to repay \$1,000 million of our outstanding 5% senior notes due 2019. We paid \$65 million in premiums in connection with this prepayment.

In March 2016, we issued 750 million of 1.875% guaranteed notes due 2022 and received net proceeds of \$812 million. The net proceeds from these notes were used for general corporate purposes, including repurchases of LyondellBasell N.V.'s ordinary shares.

Table of Contents

Additional information related to these notes can be found in the Liquidity and Capital Resources section below and in Note 5 to the Consolidated Financial Statements.

Liquidity and Capital Resources As of September 30, 2017, we had \$2,499 million of unrestricted cash and cash equivalents and marketable securities classified as Short-term investments and held \$561 million of tri-party repurchase agreements classified as Prepaid expenses and other current assets. For additional information related to our purchases of marketable securities see Investing Activities above and Note 6 to the Consolidated Financial Statements.

At September 30, 2017, we held \$584 million of cash in jurisdictions outside of the U.S., principally in the United Kingdom. There are currently no legal or economic restrictions that materially would impede our transfers of cash.

We also had total unused availability under our credit facilities of \$2,955 million at September 30, 2017, which included the following:

\$2,183 million under our \$2,500 million revolving credit facility, which backs our \$2,500 million commercial paper program. In June 2017, the term of our \$2,500 million revolving credit facility was extended for one year to June 2022 pursuant to a consent agreement. Availability under this facility is net of outstanding borrowings, outstanding letters of credit provided under the facility and notes issued under our commercial paper program. A small portion of our availability under this facility is impacted by changes in the euro/U.S. dollar exchange rate. At September 30, 2017, we had \$317 million of outstanding commercial paper, no outstanding letters of credit and no outstanding borrowings under the facility; and

\$772 million under our \$900 million U.S. accounts receivable securitization facility. Availability under this facility is subject to a borrowing base of eligible receivables, which is reduced by outstanding borrowings and letters of credit, if any. This facility had no outstanding borrowings or letters of credit at September 30, 2017.

In March 2017, our direct, 100% owned subsidiary, LYB International Finance II B.V., issued \$1,000 million of 3.5% guaranteed notes due 2027 at a discounted price of 98.968%. These unsecured notes, which are fully and unconditionally guaranteed by LyondellBasell Industries N.V., rank equally in right of payment to all of LYB International Finance II B.V.'s existing and future unsecured indebtedness and to all of LyondellBasell N.V.'s existing and future unsubordinated indebtedness. The net proceeds from these notes, together with available cash, were used to repay \$1,000 million aggregate principal amount of our outstanding 5% Senior Notes due 2019 in March 2017.

At September 30, 2017, we had total debt, including current maturities, of \$8,915 million, and \$551 million of outstanding letters of credit, bank guarantees and surety bonds issued under uncommitted credit facilities.

In accordance with our current interest rate risk management strategy and subject to management's evaluation of market conditions and the availability of favorable interest rates among other factors, we may from time to time enter into interest rate swap agreements to economically convert a portion of our fixed rate debt to variable rate debt or convert a portion of variable rate debt to fixed rate debt.

For additional information related to our credit facilities and Notes discussed above, see Note 5 to the Consolidated Financial Statements.

In May 2017, our shareholders approved a proposal to authorize us to repurchase up to an additional 10%, or approximately 40 million of our outstanding ordinary shares through November 2018 (May 2017 Share Repurchase Program). As a result, the authorization of the remaining unpurchased shares under the share repurchase program approved by our shareholders in May 2016 (May 2016 Share Repurchase Program) was superseded. Our share repurchase program does not have a stated dollar amount, and purchases may be made through open market purchases, private market transactions or other structured transactions. Repurchased shares could be retired or used for general corporate purposes, including for various employee benefit and compensation plans. During the first nine

Table of Contents

months of 2017, we have purchased approximately 10 million shares under these programs for approximately \$845 million. As of October 24, 2017, we had approximately 34 million shares remaining under the current authorization. The timing and amount of additional shares repurchased will be determined by our Management Board based on its evaluation of market conditions and other factors. For additional information related to our share repurchase programs, see Note 10 to the Consolidated Financial Statements.

We may repay or redeem our debt, including purchases of our outstanding bonds in the open market, using cash and cash equivalents, cash from our short-term investments and tri-party repurchase agreements, cash from operating activities, proceeds from the issuance of debt, proceeds from asset divestitures, or a combination thereof. In connection with any repayment or redemption of our debt, we may incur cash and non-cash charges, which could be material in the period in which they are incurred.

In July 2017, we announced our final investment decision to build a world-scale PO/TBA plant in Texas with a capacity of 1 billion pounds of PO and 2.2 billion pounds of TBA. The project is estimated to cost approximately \$2.4 billion, with construction estimated to commence in the second half of 2018. We anticipate the project to be completed in the middle of 2021.

We plan to fund our ongoing working capital, capital expenditures, debt service and other funding requirements with cash from operations, which could be affected by general economic, financial, competitive, legislative, regulatory, business and other factors, many of which are beyond our control. Cash and cash equivalents, cash from our short-term investments and tri-party repurchase agreements, cash from operating activities, proceeds from the issuance of debt, or a combination thereof, may be used to fund the repurchase of shares under our share repurchase program.

We intend to continue to declare and pay quarterly dividends, with the goal of increasing the dividend over time, after giving consideration to our cash balances and expected results from operations.

We believe that our available liquidity and cash from operating activities provide us with sufficient financial resources to meet our anticipated capital requirements and obligations as they come due.

CURRENT BUSINESS OUTLOOK

Hurricane Harvey reduced inventories across the petrochemical industry and contributed to further delays in the startup of new U.S. capacity. As we look toward the remainder of 2017, we continue to see firm olefin and polyolefin markets as supply chains restock from the production lost during Hurricane Harvey. New polyethylene capacity is aligned with seasonal demand and supportive of improved demand for ethylene while the industry awaits the startup of additional crackers during 2018. Global demand for polyolefins remains strong.

Most intermediate and derivatives products are well-positioned as we enter the fourth quarter and are expected to balance typical seasonal weakness in oxyfuels. U.S. Gulf Coast refining markets appear to have reset favorably after the hurricanes with stronger distillate spreads and improved heavy to light differentials.

We estimate that additional lost sales and expenses from the storm, primarily related to the outage at our La Porte, Texas facility will negatively impact fourth quarter 2017 results by approximately \$100 million. Unplanned maintenance on the cracker at our Wesseling, Germany facility in October 2017 is expected to negatively impact our O&P EAI segment's fourth quarter 2017 results by approximately \$40 million.

ACCOUNTING AND REPORTING CHANGES

For a discussion of the potential impact of new accounting pronouncements on our consolidated financial statements, see Note 2 to the Consolidated Financial Statements.

Table of Contents

CAUTIONARY STATEMENT FOR THE PURPOSES OF THE SAFE HARBOR PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This report includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. You can identify our forward-looking statements by the words anticipate, estimate, believe, continue, could, intend, may, plan, potential, predict, should, will, projection, forecast, goal, guidance, outlook, effort, target and similar expressions.

We based the forward-looking statements on our current expectations, estimates and projections about ourselves and the industries in which we operate in general. We caution you that these statements are not guarantees of future performance as they involve assumptions that, while made in good faith, may prove to be incorrect, and involve risks and uncertainties we cannot predict. Accordingly, our actual outcomes and results may differ materially from what we have expressed or forecast in the forward-looking statements. Any differences could result from a variety of factors, including the following:

the cost of raw materials represents a substantial portion of our operating expenses, and energy costs generally follow price trends of crude oil and/or natural gas; price volatility can significantly affect our results of operations and we may be unable to pass raw material and energy cost increases on to our customers due to the significant competition that we face, the commodity nature of our products and the time required to implement pricing changes;

our U.S. operations have benefited from low-cost natural gas and natural gas liquids; decreased availability of these materials (for example, from their export or regulations impacting hydraulic fracturing in the U.S.) could reduce the current benefits we receive;

if crude oil prices fell materially, or decrease relative to U.S. natural gas prices, we would see less benefit from low-cost natural gas and natural gas liquids and it could have a negative effect on our results of operations;

industry production capacities and operating rates may lead to periods of oversupply and low profitability; for example, there has been substantial capacity expansion announced in the U.S. olefins industry;

we may face operating interruptions (including leaks, explosions, fires, weather-related incidents, mechanical failure, unscheduled downtime, supplier disruptions, labor shortages, strikes, work stoppages or other labor difficulties, transportation interruptions, spills and releases and other environmental incidents) at any of our facilities, which would negatively impact our operating results; for example, because the Houston refinery is our only refining operation, we would not have the ability to increase production elsewhere to mitigate the impact of any outage at that facility;

environmental and other regulations may negatively impact our business by, among other things, restricting our operations, increasing costs of operations or requiring significant capital expenditures;

we may not be able to protect our market position or otherwise pass on cost increases to our customers due to the significant competition we face as a result of the commodity nature of many of our products;

changes in general economic, business, political and regulatory conditions in the countries or regions in which we operate could increase our costs, restrict our operations and reduce our operating results;

the negative outcome of any legal, tax and environmental proceedings or changes in laws or regulations regarding legal, tax and environmental matters may increase our costs or otherwise limit our ability to achieve savings under current regulations;

our ability to implement business strategies and execute our organic growth plans may be negatively affected or restricted by, among other things, our ability to complete projects on time and on budget and other events that may affect our ability to develop projects and strategies;

Table of Contents

uncertainties associated with worldwide economies could create reductions in demand and pricing, as well as increased counterparty risks, which could reduce liquidity or cause financial losses resulting from counterparty default;

any loss or non-renewal of favorable tax treatment under agreements or treaties, or changes in laws, regulations or treaties, may substantially increase our tax liabilities;

we may be required to reduce production or idle certain facilities because of the cyclical and volatile nature of the supply-demand balance in the chemical and refining industries, which would negatively affect our operating results;

we rely on continuing technological innovation, and an inability to protect our technology, or others technological developments could negatively impact our competitive position;

we have substantial international operations, and continued economic uncertainties, fluctuations in exchange rates, valuations of currencies and our possible inability to access cash from operations in certain jurisdictions on a tax-efficient basis, if at all, could negatively affect our liquidity and our results of operations;

we are subject to the risks of doing business at a global level, including wars, terrorist activities, political and economic instability and disruptions and changes in governmental policies, which could cause increased expenses, decreased demand or prices for our products and/or disruptions in operations, all of which could reduce our operating results;

if we are unable to comply with the terms of our credit facilities, indebtedness and other financing arrangements, those obligations could be accelerated, which we may not be able to repay; and

we may be unable to incur additional indebtedness or obtain financing on terms that we deem acceptable, including for refinancing of our current obligations; higher interest rates and costs of financing would increase our expenses.

Any of these factors, or a combination of these factors, could materially affect our future results of operations and the ultimate accuracy of the forward-looking statements. These forward-looking statements are not guarantees of future performance, and our actual results and future developments may differ materially from those projected in the forward-looking statements. Our management cautions against putting undue reliance on forward-looking statements or projecting any future results based on such statements or present or prior earnings levels.

All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section and any other cautionary statements that may accompany such forward-looking statements. Except as otherwise required by applicable law, we disclaim any duty to update any forward-looking statements.

Table of Contents

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our exposure to market and regulatory risks is described in Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2016. Our exposure to such risks has not changed materially in the nine months ended September 30, 2017.

Item 4. CONTROLS AND PROCEDURES

As of September 30, 2017 with the participation of our management, our Chief Executive Officer (principal executive officer) and our Chief Financial Officer (principal financial officer) carried out an evaluation, pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934, as amended (the Act), of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Act). Based upon that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were operating effectively as of September 30, 2017.

There have been no changes in our internal control over financial reporting, as defined in Rule 13a-15(f) of the Act, in the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****Item 1. LEGAL PROCEEDINGS**

Information regarding our litigation and other legal proceedings can be found in Note 9, *Commitments and Contingencies*, to the Consolidated Financial Statements, which is incorporated into this Item 1 by reference.

The following is a description of environmental proceedings to which a governmental authority is a party and potential monetary sanctions are reasonably likely to be \$100,000 or more.

In March 2017, the Texas Commission on Environmental Quality (the TCEQ) issued a proposed Agreed Order to Houston Refining LP. The proposed Agreed Order stems from agency record reviews conducted from May to July 2016 and September to October 2016 and an agency investigation conducted in April 2016. In June 2017, TCEQ issued a revised Agreed Order that carries a total administrative penalty of \$77,626. The Agreed Order is currently awaiting final TCEQ approval.

Additional information about such environmental proceedings can be found in Part I, Item 3 of our 2016 Annual Report on Form 10-K, which is incorporated into this Item 1 by reference.

Item 1A. RISK FACTORS

There have been no material changes from the risk factors disclosed in Item 1A of our 2016 Annual Report on Form 10-K.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Period		Issuer Purchases of Equity Securities			
		Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs
July 1	July 31	1,771,723	\$ 85.32	1,771,723	34,865,351
August 1	August 31	1,278,308	\$ 88.19	1,278,308	33,587,043
September 1	September 30	16,327	\$ 88.91	16,327	33,570,716
Total		3,066,358	\$ 86.53	3,066,358	33,570,716

(1)

On May 24, 2017, we announced a share repurchase program of up to 40,087,633 of our ordinary shares through November 23, 2018, which superseded any prior repurchase authorizations. The maximum number of shares that may yet be purchased is not necessarily an indication of the number of shares that will ultimately be purchased.

Item 4. MINE SAFETY DISCLOSURES

Not applicable.
