- ¹ Figures before Non-Recurring Charges related to the Transformation Plan and data library impairment
- ² Including c. \$50m of financial restructuring costs to be paid in Q1 2018
- ³ Subject to final IFRS 15 application

Commenting on these results, Jean-Georges Malcor, CGG CEO, said:

In a still challenging market overall, the Group achieved a robust 22% growth in fourth quarter revenue year-on-year, thanks, in particular, to a high level of land equipment sales and the good positioning of our multi-client data library in the strategic basins offshore Brazil and the North Sea. This level of revenue led to positive quarterly operating income for the first time in eight quarters.

After a decline in earnings over the last three years, we recorded a 10% increase in revenue and a 14% growth in EBITDA for the full year 2017, demonstrating the effectiveness and success of our industrial Transformation Plan, particularly the sharp reduction in our cost base.

Following the approval of the safeguard plan in France and the exit from Chapter 11 in the United States at the end of February, our financial restructuring is now finalized. At the closing of the financial restructuring and on a pro forma basis, CGG has a restored balance sheet with a net debt brought back to \$631m, corresponding to a leverage ratio at 1.7 times.

Throughout this difficult period, CGG benefited from the continuous support of its clients and the full commitment of its employees and is now ready for a new momentum. With a restored balance sheet, strong technological positions and proven operational excellence, the Group has begun 2018 with renewed confidence and is ready to take full advantage of a rebound in the market.

Post-closing events

January 15th: Reduction of the share capital from 17,706,519 to 221,331 by reducing the nominal value of the Company s shares from 0.80 to 0.01

January 22nd: Launch of the capital increase with preferential subscription rights for an amount of 112 million, by way of an issuance of shares of the Company each with one warrant attached (Warrants #2)

January 25th: Trading halt on the Convertible Bonds 2019, the Convertible Bonds 2020, and the Senior Notes on the Euro MTF market, from the opening of the market on February 1, 2018

February 9th: Rights issue with preferential subscription right (PSR) of 112 million (including share premium) was fully subscribed

February 21st: Completion of the financial restructuring with settlement-delivery of all securities and instruments.

The financial restructuring with settlement-delivery of all securities and instruments will result in a c. \$0.75 billion gain in our consolidated statement of operations. In addition, the equity will increase by c. \$1.3 billion through the issuance of new shares (coming from the equitization of the unsecured debt, the rights issue and the future exercise of warrants #3, coordination warrants and backstop warrants), to reach a total equity increase of c. \$2.05 billion.

Emergence from Chapter 11 for the fourteen guarantor subsidiaries the very same day

Going concern

The consolidated financial statements as of December 31, 2017 were approved by the Board of Directors on March 8, 2018 on a going concern basis.

The main steps of the implementation of the restructuring plan were implemented successfully and the legal proceedings that have been initiated relating to the French safeguard procedure and to the US Chapter 11 procedure are terminated. On February 21, 2018, CGG finalized the implementation of its financial restructuring plan, which meets the Company s objectives of strengthening its balance sheet and providing financial flexibility to continue investing in the future. This plan comprised (i) the equitization of all the unsecured senior debt, (ii) the extension of the maturities of the secured senior debt and (iii) the provision of additional liquidity (c. \$305m after partial repayment of the secured senior debt) to meet various business scenarios.

The Board of Directors considered that (i) the Group no longer faces material uncertainties that may cast doubt upon its ability to continue as a going concern and that (ii) the Group s liquidity and cash flow are sufficient to meet our expected cash requirements until at least December 31, 2018.

Having considered the above, the Board of Directors concluded that preparing the December 31, 2017 consolidated financial statements on a going concern basis is an appropriate assumption.

First time application of IFRS 15

Revenue recognition for multi-clients original participants contracts (formerly pre commitments) has been subject to an in-depth analysis of the industry practice and of the multi-client business model with CGG s auditors. In line with what was disclosed recently by other seismic players, a preliminary analysis, based purely on IFRS 15 form and applied to present contracts letter, is showing that there is a high risk that all the revenues related to multi-clients original participants contracts would have, under the new norm, to be recognized only at delivery of the final processed data, which may be more than one year after acquisition of the data. Subject to certain contractual documentation improvement and clarifications, CGG supports the conclusion that original participants contracts are services contracts for which revenue should be recognized over time based on data acquisition and processing progress of the survey, continuing the accounting for pre commitments under current industry practice prior to the adoption of IFRS 15 in 2018. Such conclusion has been shared and discussed with other seismic players. However, this conclusion has not yet been endorsed by the auditors and the regulators of the financial markets where CGG shares are publicly traded.

As a reminder, the revenues related to multi-clients original participants amounted to \$269m in 2017.

GGR Total Revenue was \$255 million, up 11% year-on-year and 37% sequentially.

Multi-Client revenue was \$159 million, up 18% year-on-year and 50% sequentially. 75% of the fleet was allocated to multi-client programs compared to 38% in Q4 2016 and 33% in Q3 2017. Multi-client sales were the highest in Brazil and North Sea.

Prefunding revenue was \$72 million, up 24% year-on-year and 3% sequentially. Multi-client cash capex was at \$89 million, up 67% year-on-year and 66% sequentially. The cash prefunding rate was at 82% versus 109% in Q4 2016.

After-sales were \$87 million, up 14% year-on-year and 144% sequentially.

Subsurface Imaging & Reservoir revenue was \$96 million, stable year-on-year and up 20% sequentially. **GGR EBITDAs** was \$165 million, a 64.5% margin.

GGR Operating Income was \$63 million, a 24.8% margin. The multi-client depreciation rate totaled 53%, leading to a library Net Book Value of \$831 million at the end of December 2017, split 90% offshore and 10% onshore.

GGR Capital Employed was stable at \$2.2 billion at the end of December 2017.

Equipment Total Revenue was \$116 million, up 38% year-on-year and 191% sequentially. This sharp rise can be explained by staggered deliveries from Q3 to Q4 and the usual seasonal pattern at year-end driving a strong activity pick-up this last quarter.

External sales were \$106 million, up 122% year-on-year and 193% sequentially. Internal sales remained limited at \$10m in 2017 versus \$36m in Q4 2016.

Land equipment sales represented 64% of total sales, compared to 44% in the fourth quarter of 2016, driven notably by 508^{XT} deliveries.

Marine equipment sales represented 36% of total sales, compared to 56% in the fourth quarter of 2016, driven notably by various sentinel sections deliveries.

Equipment EBITDAs was \$16 million, a margin of 14.1%.

Equipment Operating Income was \$9 million, a margin of 7.7%.

Equipment Capital Employed was stable at \$0.6 billion at the end of December 2017.

Contractual Data Acquisition Total Revenue was \$42 million, down 19% year-on-year and 58% sequentially.

Contractual Marine Data Acquisition revenue was \$10 million, down 72% year-on-year and 86% sequentially Our vessel availability rate was 82% due to weather standby. This compares to 90% in the fourth quarter of 2016 and 99% in the third quarter of 2017. Our vessel production rate was 97%. This compares to 97% in the fourth quarter of 2016 and 96% in the third quarter of 2017.

The decrease in revenue can mainly be explained by the higher dedication to multi-client surveys, as 75% of the fleet was dedicated to multi-client programs versus 38% in the fourth quarter of 2016 and 33% in the third quarter of 2017.

Land and Multi-Physics Data Acquisition revenue was \$32million, up 92% year-on-year and 14% sequentially. Land and Airborne continued to increase slightly this quarter, in line with the trend seen in Q3. Contractual Data Acquisition EBITDAs was \$(26) million.

Contractual Data Acquisition Operating Income was \$(33) million. Contractual Data Acquisition activities continued to suffer from a competitive market and were further impacted by delays and weather conditions this quarter.

The equity from investments can mainly be explained by the negative contribution from the PTSC JV in Vietnam this quarter.

Contractual Data Acquisition Capital Employed was down at \$0.3 billion at the end of December 2017.

The **Non-Operated Resources Segment** comprises, in terms of EBITDAs and Operating Income, the costs relating to non-operated resources.

Non-Operated Resources EBITDAs was \$(3) million.

Non-Operated Resources Operating Income was \$(4) million. The amortization of excess streamers, mainly, has a negative impact on the contribution of this segment.

The equity from investments includes the impact of 50% of the Global Seismic Shipping (GSS) JV, which we own with Eidesvik. Seven vessels were transferred to GSS in Q2 2017, four of them are cold-stacked.

Non-Operated Resources Capital Employed was up at \$0.1 billion at the end of December 2017.

Fourth quarter 2017 financial results

Group Total Revenue was \$401 million, up 22% year-on-year and 25% sequentially. The respective contributions from the Group s businesses were 64% from GGR, 26% from Equipment and 10% from Contractual Data Acquisition.

Group EBITDAs was \$134 million, a 33.5% margin, and \$109 million after \$(26) million of Non-Recurring Charges (NRC). Excluding Non-Operated Resources (NOR), and to focus solely on the performance of our active Business Lines, Group EBITDAs was \$137 million.

Group Operating Income was \$18 million, a 4.4% margin, and \$(8) million after \$(26) million of NRC. Excluding NOR, and to focus solely on the performance of our active Business Lines, Group Operating Income was \$22 million.

Equity from Investments contribution was \$(9) million and can mainly be explained by the negative contributions from the PTSC JV in Vietnam and the Global Seismic Shipping (GSS) JV this quarter.

Total **non-recurring charges** were \$26 million, mainly related to the financial restructuring.

Net financial costs were \$46 million:

Cost of debt was \$47 million. The total amount of interest paid during the quarter was \$13 million, as we suspended most coupons payment during the financial restructuring

Other financial items were positive \$1 million **Income Taxes** were \$12 million.

Group Net Income was \$(75) million after NRC.

After minority interests, **Net Income attributable to the owners of CGG** was a loss of (77) million / (63) million. EPS was negative at (1.67) / (1.36).

Cash Flow

Cash Flow from operations was \$143 million compared to \$129 million for the fourth quarter of 2016. After cash Non-Recurring Charges, the Cash Flow from operations was \$117 million.

Global Capex was \$124 million, up 36% year-on-year and 88% sequentially.

Industrial capex was \$22 million, down 22% year-on-year and up 387% sequentially

Research & Development capex was \$12 million, up 44% year-on-year and 61% sequentially

Multi-client cash capex was \$89 million, up 67% year-on-year and 66% sequentially

Edgar Filing: CGG - Form 6-K

After the payment of interest expenses and Capex and before cash NRC, **Free Cash Flow** was at \$13 million compared to \$2 million for the fourth quarter of 2016. After cash NRC, Free Cash Flow was at \$(13) million.

Full-Year 2017 Financial Results

Group Total Revenue was \$1,320 million, up 10% compared to 2016. The respective contributions from the Group s businesses were 62% from GGR, 16% from Equipment and 22% from Contractual Data Acquisition.

Group EBITDAs was \$372 million, a 28.2% margin, and \$186 million after \$(186) million of NRC. Excluding NOR, and to focus solely on the performance of our active Business Lines, Group EBITDAs was \$387 million.

Group Operating Income was \$(77) million, a (5.8)% margin, and \$(264) million after \$(186) million of NRC. Excluding NOR, and to focus solely on the performance of our active Business Lines, Group Operating Income was \$(43) million.

GGR operating income margin was at 15.9%. Multi-Client sales reached \$469 million, up 22%, with a cash prefunding rate of 107%. Our highest marine multi-client sales were made in Brazil, the North Sea and Gulf of Mexico. The depreciation rate was 63% leading to a Net Book Value of \$831 million at the end of December.

Subsurface Imaging delivered a resilient performance: we maintained our market share. While reservoir businesses were impacted by clients capex cut.

Equipment operating income margin was at (14.9)%. Despite very efficient cost management and manufacturing flexibility, profitability was impacted by very low volumes.

Contractual Data Acquisition operating income margin was at (31.7)% due to weak pricing conditions in Marine, despite our fleet s good operational performance with a high production rate at 97%. 52% of our fleet was dedicated to the contractual market as we executed two large contracts with high-end multi-source vessel setup. Positive impact of lower marine cost base in 2017 was partly offset by the non-recurrent R&D tax credit received in 2016. Land acquisition suffered from delays in Algeria and early termination in Angola.

NOR operating income was at \$(34) million.

Equity from Investments contribution was \$(20) million, mainly explained by the negative contribution from the PTSC JV (in Vietnam) and Global Seismic Shipping (GSS) JV.

Total non-recurring charges (NRC) were \$186 million:

\$102 million of Financial Restructuring costs

\$84 million of Group Transformation Plan charges, mainly related to Global Seismic Shipping set up **Net financial costs** were \$207 million:

Edgar Filing: CGG - Form 6-K

Cost of debt was \$211 million, including \$21 million of accelerated amortization of historical issuing fees. The total amount of interest paid was \$85 million, as we suspended most coupons payment during the financial restructuring

Other financial items were positive at \$4 million **Income Taxes** were \$24 million.

Group Net Income was \$(514) million after NRC.

After minority interests, **Net Income attributable to the owners of CGG** was a loss of \$(515) million / (459) million. EPS was negative at \$(11.18) / (9.96).

Cash Flow

Cash Flow from operations was \$299 million before NRC, compared to \$522 million in 2016. Cash Flow from operations was \$198 million after cash NRC.

Global Capex was \$335 million, down 15% year-on-year:

Industrial capex was \$50 million, down 24% year-on-year

Research & development capex was \$34 million, stable year-on-year

Multi-client cash capex was \$251 million, down 15% year-on-year After the payment of interest expenses and Capex and before NRC, **Free Cash Flow** was \$(96) million compared to \$(7) million in 2016. After cash NRC, Free Cash Flow was \$(197) million.

Balance Sheet

Group gross debt was \$2.955 billion¹ at the end of December 2017. Available cash was \$315 million and Group **net debt** was \$2.640 billion.

The Group s liquidity amounted to \$315 million at the end of December 2017.

Leverage ratio and interest cover ratio are not applicable as of December 31, 2017 as a result of the French safeguard procedure and US Chapter 11 procedure.

¹ After completion of the financial restructuring, the financial debt decreases from \$2,955 million as of December 31, 2017 down to \$1,205 million as of February 21, 2018
