Internet Delivery of Fund Reports Unless You Request Paper Copies: Effective January 1, 2021, as permitted by the SEC, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request them from the Fund or your financial intermediary. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. If you have not signed up for electronic delivery, we would encourage you to join fellow shareholders who have. You may elect to receive shareholder reports and other communications electronically from the Fund by calling (800) 416-5585 or by contacting your financial intermediary.

You may elect to continue to receive paper copies of all your future shareholder reports free of charge by contacting your financial intermediary or, if you invest directly with a Fund, calling (800) 416-5585 to let the Fund know of your request. Your election to receive reports in paper will apply to all funds held in your account.

Franklin Templeton

Successful investing begins with ambition. And achievement only comes when you reach for it. That's why we continually strive to deliver better outcomes for investors. No matter what your goals are, our deep, global investment expertise allows us to offer solutions that can help.

During our more than 70 years of experience, we've managed through all kinds of markets—up, down and those in between. We're always preparing for what may come next. It's because of this, combined with our strength as one of the world's largest asset managers that we've earned the trust of millions of investors around the world.

Semiannual Report

Templeton Emerging Markets Fund

Dear Shareholder:

This semiannual report for Templeton Emerging Markets Fund covers the period ended February 28, 2019.

Your Fund's Goal and Main Investments

The Fund seeks long-term capital appreciation by investing, under normal market conditions, at least 80% of its net assets in emerging country equity securities.

Performance Overview

The Fund had cumulative total returns of +7.51% based on market price and +2.15% based on net asset value for the six months under review. You can find the Fund's long-term performance data in the Performance Summary on page 6.

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown.

Economic and Market Overview

Emerging market economies in general continued to grow faster than developed market economies during the six months under review. China's economy continued to expand in 2018's fourth quarter, though at its slowest annual rate since 2009. The moderated growth came amid heightened trade tensions with the U.S. and declining domestic demand. India's annual growth rate in 2018's fourth quarter moderated compared to the prior quarter due to weak household demand, government spending and manufacturing. Russia's annual growth rate accelerated in 2018's fourth quarter compared to the prior quarter, mainly due to faster expansion of the information and communication, financial and insurance, and real estate sectors, as well as increased mining output. Brazil's annual growth rate in 2018's fourth quarter moderated compared to the prior quarter as growth in domestic spending and exports were partly offset by a contraction in government spending and slower growth in fixed investment. South Korea's economy grew in 2018's fourth quarter at its fastest annualized rate in more than a year, while Mexico's annual growth rate in the fourth quarter moderated compared to the prior quarter.

Geographic Composition

Based on Total Net Assets as of 2/28/19

Monetary policies varied among emerging market central banks. India's central bank unexpectedly lowered its benchmark interest rate in an effort to boost a slowing economy. Russia's central bank surprised markets with two

benchmark interest rate hikes during the period, citing increased inflationary risks. Mexico's and Chile's central banks raised their benchmark interest rates twice as well, while Turkey's and South Korea's central banks raised their benchmark interest rates once. Brazil's and Taiwan's central banks left their benchmark interest rates unchanged. The People's Bank of China also left its benchmark interest rate unchanged during the period, but it took measures to improve financial liquidity to mitigate the negative effects of the U.S.-China trade dispute and support economic growth.

Emerging market stocks rose during the six months under review, despite increased volatility in late 2018 arising from concerns about global economic growth, rising U.S. interest rates and heightened international trade tensions, particularly between the U.S. and China. Gains in 2019's first two months made up for losses earlier in the period, as markets responded positively to easing U.S.-China trade tensions and indications the U.S. Federal Reserve would slow its pace of interest-rate increases. European stocks benefited from easing political tensions and an appreciating lira in Turkey, though markets were pressured by economic and political uncertainty concerning Italy and Brexit. Asian equities were hobbled by weakness in technology stocks early in the period, though this

The dollar value, number of shares or principal amount, and names of all portfolio holdings are listed in the Fund's Statement of Investments (SOI).

The SOI begins on page 10.

 TEMPLETON EMERGING MARKETS FUND

was partly offset by a rebound in 2019 as well as easing tensions in the Korean peninsula. In this environment, emerging market stocks, as measured by the MSCI EM Index, posted a +0.46% total return for the six months ended February 28, 2019.¹

Investment Strategy

Our investment strategy employs a fundamental, value-oriented, long-term approach. We focus on the market price of a company's securities relative to our evaluation of the company's long-term earnings, asset value and cash flow potential. As we look for investments, we focus on specific companies and undertake in-depth research to construct an action list from which we make our buy decisions. Before we make a purchase, we look at the company's potential for earnings and growth over a five-year horizon. During our analysis, we also consider the company's position in its sector, the economic framework and political environment.

Manager's Discussion

During the six months under review, key contributors to the Fund's absolute performance included Banco Bradesco, Itau Unibanco Holding and Compania de Minas Buenaventura.

Leading Brazilian commercial banks Banco Bradesco and Itau Unibanco benefited from a broad rally in the country's stocks. The victory of a more market-friendly candidate in the presidential elections drove investor confidence in the nation's financials markets. We believe both companies are well-positioned to benefit from a potential upturn in the economy. Banco Bradesco reported solid third- and fourth-quarter 2018 corporate results due to positive loan growth trends and declining non-performing loan ratios. Strong management guidance for 2019 further drove sentiment in the stock. Itau Unibanco's third- and fourth-quarter 2018 earnings and 2019 management guidance were broadly in-line with market expectations.

Shares in Peruvian precious metals company Buenaventura rose during the period, aided by higher gold and silver prices. The company, however, reported weak fourth-quarter results due to lower production volumes and higher costs. Although management expects 2019 gold production to decline largely due to the prioritizing of projects, we believe cost-cutting measures could provide some reprieve. Investors, however,

U.K. 3.0%
remained confident of the company's project pipeline, strong balance sheet and growing gold and silver reserves.

Conversely, key detractors from the Fund's absolute performance included Brilliance China Automotive Holdings, Hon Hai Precision Industry and Taiwan Semiconductor Manufacturing Co. (TSMC).

Brilliance China manufactures and sells automobiles for the Chinese domestic market, predominantly through its joint venture with German luxury car maker BMW (not a Fund holding). BMW's plans to increase its stake from 50% to 75% was poorly received by investors in October 2018 due to concerns about some aspects of the proposed deal terms, Brilliance's reduced stake and the potential impact on earnings. The company's shareholders subsequently approved the deal, though completion is pending approval from Chinese regulators in 2022, when a change in foreign ownership regulation goes into effect. The stock has since corrected, and we believe increased clarity about the joint venture agreement removes an overhang that had hampered its share price since the foreign ownership regulatory changes were announced. Moreover, we believe the case for structural growth in demand for luxury vehicles in China remains due to the trend of consumers desiring higher quality and more exclusive brands or products.

Hon Hai Precision is among the world's largest electronics manufacturing service companies, in terms of design, manufacturing, global logistics and after-market services. Major customers include Apple, Nokia and Sony (not Fund holdings). Although third-quarter 2018 revenues improved from a disappointing previous quarter, weak margins hurt

TEMPLETON EMERGING MARKETS FUND

market sentiment. Investors also became more cautious about the stock due to lackluster global smartphone shipments and weakening iPhone demand.

TSMC is one of the world's leading semiconductor makers, with major global technology companies among its primary clients. Macro concerns such as the U.S.-China trade dispute, a decline in memory chip prices and an increase in inventory levels hurt the company's share price in late 2018. The stock partly recovered in early 2019, but still ended the reporting period down. TSMC was negatively impacted by a weak fourth-quarter 2018 earnings report from U.S. smartphone maker Apple, and while its results were in line with market expectations, the firm reduced its first-quarter 2019 revenue guidance.

In the past six months, we increased the Fund's holdings in India, Hong Kong and South Korea due to, in our analysis, their attractive fundamentals. By sector, we made purchases in financials and consumer staples.² The search for undervalued investments with what we considered attractive fundamentals resulted in establishing new positions in a number of companies, including Cognizant Technology Solutions, a major U.S.-listed global information technology services company with exposure to emerging markets. We also increased our existing investments in LG, a leading South Korean conglomerate, Sberbank of Russia, a dominant Russian bank, and Brilliance China.

Conversely, we reduced the Fund's holdings in Russia, Peru, Brazil and Taiwan in favor of opportunities we found more compelling and also to raise funds for income and capital gains distributions during the period. In terms of sectors, we made sales in energy, materials and consumer discretionary.³ In terms of companies, key sales included reductions in Lukoil, a leading Russian oil company, and Buenaventura. We liquidated the Fund's holding in Hering, a Brazilian apparel manufacturer. We also eliminated our exposure to Saudi Arabia through the liquidation of our holding in petrochemical producer Saudi Basic Industries.

It is important to recognize the effect of currency movements on the Fund's performance. In general, if the value of the U.S. dollar goes up compared with a foreign currency, an investment traded in that foreign currency will go down in value because it

will be worth fewer U.S. dollars. This can have a negative effect on Fund performance. Conversely, when the U.S. dollar weakens in relation to a foreign currency, an investment traded in that foreign currency will increase in value, which can contribute to Fund performance. For the six months ended February 28, 2019, the U.S. dollar declined in value relative to most currencies. As a result, the Fund's performance was positively affected by the portfolio's investment predominantly in securities with non-U.S. currency exposure. However, one cannot expect the same result in future periods.

2. The financials sector comprises banks, capital markets, diversified financial services and insurance in the SOI. The consumer staples sector comprises beverages, food and staples retailing, food products and personal products in the SOI.

3. The energy sector comprises oil, gas and consumable fuels in the SOI. The materials sector comprises chemicals, construction materials, and metals and mining in the SOI.

The consumer discretionary sector comprises auto components; automobiles; hotels, restaurants and leisure; internet and direct marketing retail; multiline retail; and textiles, apparel and luxury goods in the SOI.

TEMPLETON EMERGING MARKETS FUND

Performance Summary as of February 28, 2019

Total return reflects reinvestment of the Fund's dividends and capital gain distributions, if any, and any unrealized gains or losses. Total returns do not reflect any sales charges paid at inception or brokerage commissions paid on secondary market purchases. The performance table does not reflect any taxes that a shareholder would pay on Fund dividends, capital gain distributions, if any, or any realized gains on the sale of Fund shares. Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses. Capital gain distributions are net profits realized from the sale of portfolio securities.

TEMPLETON EMERGING MARKETS FUND

PERFORMANCE SUMMARY

All investments involve risks, including possible loss of principal. Special risks are associated with foreign investing, including currency volatility, economic instability, and social and political developments of countries where the Fund invests. Emerging markets are subject to all of the risks of foreign investing generally and involve heightened risks due to these markets' smaller size and lesser liquidity, and lack of established legal, political, business and social frameworks to support securities markets. Some of these heightened risks may include political and social uncertainty (for example, regional conflicts and risk of war); pervasiveness of corruption and crime in these countries' economic systems; delays in settling portfolio securities transactions; risk of loss arising out of the system of share registration and custody used in these countries; greater sensitivity to interest rate changes; currency and capital controls; currency exchange rate volatility; and inflation, deflation or currency devaluation. The Fund is actively managed but there is no guarantee that the manager's investment decisions will produce the desired results.

The Fund may invest in eligible China A shares (Stock Connect Securities) listed and traded on the Shanghai Stock Exchange through the Shanghai-Hong Kong Stock Connect program, as well as eligible China A shares listed and traded on the Shenzhen Stock Exchange through the Shenzhen-Hong Kong Stock Connect program (collectively, Stock Connect) and may invest in China Interbank bonds traded on the China Interbank Bond Market (CIBM) through the China-Hong Kong Bond Connect program (Bond Connect).

Trading through Stock Connect is subject to a number of restrictions that may affect the Fund's investments and returns. For example, investors in Stock Connect Securities are generally subject to Chinese securities regulations and the listing rules of the respective Exchange, among other restrictions. In addition, Stock Connect Securities generally may not be sold, purchased or otherwise transferred other than through Stock Connect in accordance with applicable rules. While Stock Connect is not subject to individual investment quotas, daily and aggregate investment quotas apply to all Stock Connect participants, which may restrict or preclude the Fund's ability to invest in Stock Connect Securities. Trading in the Stock Connect program is subject to trading, clearance and settlement procedures that are untested in China, which could pose risks to the Fund. Finally, the withholding tax treatment of dividends and capital gains payable to overseas investors currently is unsettled. In China, the Hong Kong Monetary Authority Central Money Markets Unit holds Bond Connect securities on behalf of ultimate investors (such as the Fund) in accounts maintained with a China-based custodian (either the China Central Depository & Clearing Co. or the Shanghai Clearing House). This recordkeeping system subjects the Fund to various risks, including the risk that the Fund may have a limited ability to enforce rights as a bondholder and the risks of settlement delays and counterparty default of the Hong Kong sub-custodian. In addition, enforcing the ownership rights of a beneficial holder of Bond Connect securities is untested and courts in China have limited experience in applying the concept of beneficial ownership. Bond Connect uses the trading infrastructure of both Hong Kong and China and is not available on trading holidays in Hong Kong. As a result, prices of securities purchased through Bond Connect may fluctuate

at times when a Fund is unable to add to or exit its position. Securities offered through Bond Connect may lose their eligibility for trading through the program at any time. If Bond Connect securities lose their eligibility for trading through the program, they may be sold but can no longer be purchased through Bond Connect.

The application and interpretation of the laws and regulations of Hong Kong and China, and the rules, policies or guidelines published or applied by relevant regulators and exchanges in respect of the Stock Connect and Bond Connect programs, are uncertain, and they may have a detrimental effect on the Fund's investments and returns.

The Fund may also invest a portion of its assets in Russian securities. The U.S. and other nations have imposed and could impose additional sanctions on certain issuers in Russia due to regional conflicts. These sanctions could result in the devaluation of Russia's currency, a downgrade in Russian issuers' credit ratings, or a decline in the value and liquidity of Russian stocks or other securities. The Fund may be prohibited from investing in securities issued by companies subject to such sanctions. In addition, if the Fund holds the securities of an issuer that is subject to such sanctions, an immediate freeze of that issuer's securities could result, impairing the ability of the Fund to buy, sell, receive or deliver those securities. There is also the risk that countermeasures could be taken by Russia's government, which could involve the seizure of the Fund's assets. Such sanctions could adversely affect Russia's economy, possibly forcing the economy into a recession. These risks could affect the value of the Fund's portfolio.

1. The Fund has a fee waiver associated with any investment it makes in a Franklin Templeton money fund and/or other Franklin Templeton fund, contractually guaranteed through 10/31/19. Fund investment results reflect the fee waiver; without this waiver, the results would have been lower.
2. Total return calculations represent the cumulative and average annual changes in value of an investment over the periods indicated. Return for less than one year, if any, has not been annualized.
3. Assumes reinvestment of distributions based on net asset value.
4. Assumes reinvestment of distributions based on the dividend reinvestment and cash purchase plan.

TEMPLETON EMERGING MARKETS FUND

Important Notice to Shareholders

Share Repurchase Program

The Fund's Board has approved a modification to its existing open-market share repurchase program to authorize the Fund to repurchase an additional 10% of its outstanding shares in open-market transactions, at the discretion of management.

The Board's action provides greater flexibility by enabling the Fund to continue to engage in open-market repurchases under a continuing authorization for up to an additional 10% of its outstanding shares, above and in addition to the initial 10% previously authorized, at the discretion of Fund management. The timing and amount of repurchases would continue to be at the discretion of the investment manager, taking into account various factors, including, but not limited to, the level of the discount, the Fund's performance, portfolio holdings, dividend history, market conditions, cash on hand, the availability of other attractive investments and whether the sale of certain portfolio securities would be undesirable because of liquidity concerns or because the sale might subject the Fund to adverse tax consequences. Any repurchases would be made on a national securities exchange at the prevailing market price, subject to exchange requirements, Federal securities laws and rules that restrict repurchases, and the terms of any outstanding leverage or borrowing of the Fund. If and when the Fund's new 10% threshold is reached, no further repurchases could be completed until authorized by the Board. Until the additional 10% threshold is reached, Fund management will have the flexibility to commence share repurchases if and when it is determined to be appropriate in light of prevailing circumstances. The share repurchase program is intended to benefit shareholders by enabling the Fund to repurchase shares at a discount to net asset value, thereby increasing the proportionate interest of each remaining shareholder in the Fund.

In the Notes to Financial Statements section, please see note 2 (Shares of Beneficial Interest) for additional information regarding shares repurchased.

Approval of Borrowing Arrangements

On November 28, 2018, the Fund entered into a senior secured revolving credit facility agreement with The Bank of Nova Scotia pursuant to which the Fund may borrow up to a maximum commitment amount of \$30 million, which matures on November 27, 2019. For additional information, please see note 8 on page 21.

franklintempleton.com

Notes to Financial Statements (unaudited)**1. Organization and Significant Accounting Policies**

Templeton Emerging Markets Fund (Fund) is registered under the Investment Company Act of 1940 (1940 Act) as a closed-end management investment company and applies the specialized accounting and reporting guidance in U.S. Generally Accepted Accounting Principles (U.S. GAAP).

The following summarizes the Fund's significant accounting policies.

a. Financial Instrument Valuation

The Fund's investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Fund calculates the net asset value (NAV) per share each business day as of 4 p.m. Eastern time or the regularly scheduled close of the New York Stock Exchange (NYSE), whichever is earlier. Under compliance policies and procedures approved by the Fund's Board of Trustees (the Board), the Fund's administrator has responsibility for oversight of valuation, including leading the cross-functional Valuation Committee (VC). The Fund may utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or as of 4 p.m. Eastern time. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the day that the value of the security is determined. Over-the-counter (OTC) securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities.

Investments in open-end mutual funds are valued at the closing NAV.

The Fund has procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the Fund primarily employs a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed.

Trading in securities on foreign securities stock exchanges and OTC markets may be completed before 4 p.m. Eastern time. In addition, trading in certain foreign markets may not take place on every Fund's business day. Occasionally, events occur between the time at which trading in a foreign security is completed and 4 p.m. Eastern time that might call into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Fund's portfolio securities as determined at the foreign market close and the latest indications of value at 4 p.m. Eastern time. In order to minimize the potential for these differences, the VC monitors price movements following the close of trading in foreign stock markets through a series of country specific market proxies (such as baskets of American Depositary Receipts, futures contracts and exchange traded funds). These price movements are measured against established trigger thresholds for each specific market proxy to assist in determining if an event has occurred that may call into question the reliability of the values of the foreign securities held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services.

When the last day of the reporting period is a non-business day, certain foreign markets may be open on those days that the Fund's NAV is not calculated, which could result in differences between the value of the Fund's portfolio securities on the last business day and the last calendar day of the reporting period. Any significant security valuation changes due to an open foreign market are adjusted and reflected by the Fund for financial reporting purposes.

TEMPLETON EMERGING MARKETS FUND

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. Organization and Significant Accounting Policies (continued)

b. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. The Fund may enter into foreign currency exchange contracts to facilitate transactions denominated in a foreign currency. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Portfolio securities and assets and liabilities denominated in foreign currencies contain risks that those currencies will decline in value relative to the U.S. dollar. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Board.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments in the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

c. Income and Deferred Taxes

It is the Fund's policy to qualify as a regulated investment company under the Internal Revenue Code. The Fund intends to distribute to shareholders substantially all of its taxable income and net realized gains to relieve it from federal income and excise taxes. As a result, no provision for U.S. federal income taxes is required.

The Fund may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in

which it invests. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests. When a capital gain tax is determined to apply, the Fund records an estimated deferred tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

The Fund may recognize an income tax liability related to its uncertain tax positions under U.S. GAAP when the uncertain tax position has a less than 50% probability that it will be sustained upon examination by the tax authorities based on its technical merits. As of February 28, 2019, the Fund has determined that no tax liability is required in its financial statements related to uncertain tax positions for any open tax years (or expected to be taken in future tax years). Open tax years are those that remain subject to examination and are based on the statute of limitations in each

jurisdiction in which the Fund invests.

d. Security Transactions, Investment Income, Expenses and Distributions

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Estimated expenses are accrued daily. Dividend income is recorded on the ex-dividend date except for certain dividends from securities where the dividend rate is not available. In such cases, the dividend is recorded as soon as the information is received by the Fund. Distributions to shareholders are recorded on the ex-dividend date. Distributable earnings are determined according to income tax regulations (tax basis) and may differ from earnings recorded in accordance with U.S. GAAP. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.*

e. Accounting Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

 TEMPLETON EMERGING MARKETS FUND

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

f. Guarantees and Indemnifications

Under the Fund's organizational documents, its officers and trustees are indemnified by the Fund against certain liabilities arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general

indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. Currently, the Fund expects the risk of loss to be remote.

*Effective during the current reporting period, it is no longer required to present certain line items in the Statements of Changes in Net Assets. The below prior period amounts affected by this change are shown as they were in the prior year Statements of Changes in Net Assets.

For the year ended August 31, 2018, distributions to shareholders were as follows:

Net investment income	\$ (4,345,445)
Net realized gains	(15,154,108)

For the year ended August 31, 2018, distributions in excess of net investment income included in net assets was \$(293,826).

2. Shares of Beneficial Interest

At February 28, 2019, there were an unlimited number of shares authorized (without par value). During the periods ended February 28, 2019 and August 31, 2018 there were no shares issued; all reinvested distributions were satisfied with previously issued shares purchased in the open market.

Under the Board approved open-market share repurchase program, the Fund may purchase, from time to time, Fund shares in open-market transactions, at the discretion of management. Since the inception of the program, the Fund has repurchased a total of 1,312,392 shares. Transactions in the Fund's shares were as follows:

Year Ended

	Six Months Ended February 28, 2019		August 31, 2018	
	Shares	Amount	Shares	Amount
Shares repurchased	215,059	\$ 2,974,202	538,586	\$ 8,558,881
Weighted average discount of market price to net asset value of shares repurchased		12.77%		12.11%

3. Transactions with Affiliates

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton. Certain officers and trustees of the Fund are also officers and/or directors of the following subsidiaries:

Subsidiary	Affiliation
Templeton Asset Management Ltd. (Asset Management)	Investment manager
Franklin Templeton Services, LLC (FT Services)	Administrative manager

franklintempleton.com

Semiannual Report

19

 TEMPLETON EMERGING MARKETS FUND

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

3. Transactions with Affiliates (continued)**a. Management Fees**

The Fund pays an investment management fee to Asset Management based on the average daily net assets of the Fund as follows:

Annualized Fee Rate	Net Assets
1.250%	Up to and including \$1 billion
1.200%	Over \$1 billion, up to and including \$5 billion
1.150%	Over \$5 billion, up to and including \$10 billion
1.100%	Over \$10 billion, up to and including \$15 billion
1.050%	Over \$15 billion, up to and including \$20 billion
1.000%	In excess of \$20 billion

b. Administrative Fees

Under an agreement with Asset Management, FT Services provides administrative services to the Fund. The fee is paid by Asset Management based on the Fund's average daily net assets, and is not an additional expense of the Fund.

c. Investments in Affiliated Management Investment Companies

The Fund invests in one or more affiliated management investment companies for purposes other than exercising a controlling influence over the management or policies. Management fees paid by the Fund are waived on assets invested in the affiliated management investment companies, as noted in the Statement of Operations, in an amount not to exceed the management and administrative fees paid directly or indirectly by each affiliate. During the period ended February 28, 2019, the Fund held investments in affiliated management investment companies as follows:

	Number of Shares Held at Beginning of Period	Gross Additions	Gross Reductions	Number of Shares Held at End of Period	Value at End of Period	Dividend Income	Realized Gain (Loss)	Net Change in Unrealized Appreciation (Depreciation)
Non-Controlled Affiliates								
Institutional Fiduciary Trust Money	8,367,054	37,442,896	(32,085,831)	13,724,119	\$ 13,724,119	\$ 127,471	\$	\$

Market
Portfolio,
2.06%

4. Expense Offset Arrangement

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the period ended February 28, 2019, there were no credits earned.

5. Income Taxes

At February 28, 2019, the cost of investments and net unrealized appreciation (depreciation) for income tax purposes were as follows:

Cost of investments	\$ 202,349,878
Unrealized appreciation	\$ 94,734,409
Unrealized depreciation	(12,526,261)
Net unrealized appreciation (depreciation)	\$ 82,208,148

TEMPLETON EMERGING MARKETS FUND

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

Differences between income and/or capital gains as determined on a book basis and a tax basis are primarily due to differing treatment of corporate actions.

6. Investment Transactions

Purchases and sales of investments (excluding short term securities) for the period ended February 28, 2019, aggregated \$27,196,285 and \$35,773,724, respectively.

7. Concentration of Risk

Investing in foreign securities may include certain risks and considerations not typically associated with investing in U.S. securities, such as fluctuating currency values and changing local and regional economic, political and social conditions, which may result in greater market volatility. Current political and financial uncertainty surrounding the European Union may increase market volatility and the economic risk of investing in securities in Europe. In addition, certain foreign securities may not be as liquid as U.S. securities.

The United States and other nations have imposed and could impose additional sanctions on certain issuers in Russia due to regional conflicts. These sanctions could result in the devaluation of Russia's currency, a downgrade in Russian issuers' credit ratings, or a decline in the value and liquidity of Russian stocks or other securities. Such sanctions could also adversely affect Russia's economy. The Fund may be prohibited from investing in securities issued by companies subject to such sanctions. In addition, if the Fund holds the securities of an issuer that is subject to such sanctions, an immediate freeze of that issuer's securities could result, impairing the ability of the Fund to buy, sell, receive or deliver those securities. There is also the risk that countermeasures could be taken by Russia's government, which could involve the seizure of the Fund's assets. These risks could affect the value of the Fund's portfolio. While the Fund holds securities of certain issuers impacted by the sanctions, existing investments do not presently violate the applicable terms and conditions of the sanctions. The sanctions currently do not affect the Fund's ability to sell these securities. At February 28, 2019, the Fund had 8.1% of its net assets invested in Russia.

8. Credit Facility

On November 28, 2018, the Fund entered into a senior secured revolving credit facility agreement (Credit Facility) with The Bank of Nova Scotia (BNS) pursuant to which the Fund may borrow up to a maximum commitment amount of \$30 million, which matures on November 27, 2019. The Credit Facility provides a source of funds to the Fund to purchase additional investments as part of its investment strategy.

Under the terms of the Credit Facility, the Fund shall, in addition to interest charged on any borrowings made by the Fund at the applicable rate, pay an annual commitment fee of 0.25% based on the unused portion of the Credit Facility or 0.15% whenever the outstanding borrowings exceed 75% of the commitment amount. As security for the obligations of the Fund under the Credit Facility, the Fund has granted to BNS a security interest in the assets of the Fund.

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSRS

At February 28, 2019, the Fund had outstanding borrowings of \$10,000,000, which approximates fair value, and incurred interest expenses at a rate equal to the 6-month U.S. Dollar London Interbank Offered Rate plus 0.80%. The borrowings are categorized as Level 2 within the fair value hierarchy. The average borrowings and the average interest rate for the days outstanding during the period ended February 28, 2019, were \$10,000,000 and 3.70%, respectively.

TEMPLETON EMERGING MARKETS FUND

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

9. Fair Value Measurements

The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's financial instruments and are summarized in the following fair value hierarchy:

Level 1 quoted prices in active markets for identical financial instruments

Level 2 other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of financial instruments)

The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level.

At February 28, 2019, all of the Fund's investments in financial instruments carried at fair value were valued using Level 1 inputs. For detailed categories, see the accompanying Statement of Investments.

10. Subsequent Events

The Fund has evaluated subsequent events through the issuance of the financial statements and determined that no events have occurred that require disclosure.

GDR Global Depositary Receipt

Tax Information (unaudited)

At August 31, 2018, more than 50% of the Fund's total assets were invested in securities of foreign issuers. In most instances, foreign taxes were withheld from income paid to the Fund on these investments. As shown in the table below, the Fund hereby reports to shareholders the foreign source income and foreign taxes paid, pursuant to Section 853 of the Internal Revenue Code. This written statement will allow shareholders of record on December 17, 2018, to treat their proportionate share of foreign taxes paid by the Fund as having been paid directly by them. The shareholder shall consider these amounts as foreign taxes paid in the tax year in which they receive the Fund distribution.

The following table provides a detailed analysis of foreign tax paid, foreign source income, and foreign source qualified dividends as reported by the Fund to shareholders of record.

Foreign Tax Paid Per Share	Foreign Source Income Per Share	Foreign Source Qualified Dividends Per Share
\$0.0543	\$0.2531	\$0.1286

Foreign Tax Paid Per Share is the amount per share available to you, as a tax credit (assuming you held your shares in the Fund for a minimum of 16 days during the 31-day period beginning 15 days before the ex-dividend date of the Fund's distribution to which the foreign taxes relate), or, as a tax deduction.

Foreign Source Income Per Share is the amount per share of income dividends attributable to foreign securities held by the Fund, plus any foreign taxes withheld on these dividends. The amounts reported include foreign source qualified dividends that have not been adjusted for the rate differential applicable to such dividend income.¹

Foreign Source Qualified Dividends Per Share is the amount per share of foreign source qualified dividends plus any foreign taxes withheld on these dividends. These amounts represent the portion of the Foreign Source Income Per Share that were derived from qualified foreign securities held by the Fund.¹

In February 2019, shareholders received Form 1099-DIV which included their share of taxes paid and foreign source income distributed during the calendar year 2018. The Foreign Source Income reported on Form 1099-DIV was not adjusted for the rate differential on foreign source qualified dividend income. Shareholders are advised to check with their tax advisors for information on the treatment of these amounts on their 2018 individual income tax returns.

¹Qualified dividends are taxed at reduced long term capital gains tax rates. In determining the amount of foreign tax credit that may be applied against the U.S. tax liability of individuals receiving foreign source qualified dividends, adjustments may be required to the foreign tax credit limitation calculation to reflect the rate differential applicable to such dividend income. The rules however permit certain individuals to elect not to apply the rate differential

adjustments for capital gains and/or dividends for any taxable year. Please consult your tax advisor and the instructions to Form 1116 for more information.

TEMPLETON EMERGING MARKETS FUND

Annual Meeting of Shareholders: March 4, 2019 (unaudited)

The Annual Meeting of Shareholders of Templeton Emerging Markets Fund (the Fund) was held at the Fund's offices, 300 S.E. 2nd Street, Fort Lauderdale, Florida, on March 4, 2019. The purpose of the meeting was to elect three Trustees of the Fund and to ratify the selection of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Fund for the fiscal year ending August 31, 2019. At the meeting, the following persons were elected by the shareholders to serve as Trustees of the Fund: Constantine D. Tseretopoulos, Rupert H. Johnson, Jr., and Gregory E. Johnson.*Shareholders also ratified the selection of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Fund for the fiscal year ending August 31, 2019. No other business was transacted at the meeting with respect to the Fund.

The results of the voting at the Annual Meeting are as follows:

1. Election of three Trustees:

Term Expiring 2022	For	% of Outstanding Shares	% of Shares Present	Withheld	% of Outstanding Shares	% of Shares Present
Constantine D. Tseretopoulos	13,049,284	77.60%	86.70%	2,002,237	11.91%	13.30%
Rupert H. Johnson, Jr.	13,039,821	77.54%	86.63%	2,011,700	11.96%	13.37%
Gregory E. Johnson	13,074,391	77.74%	86.86%	1,977,130	11.76%	13.14%

There were no broker non-votes received with respect to this item.

2. Ratification of the selection of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Fund for the fiscal year ending August 31, 2019:

	Shares Voted	% of Outstanding Shares	% of Shares Present
For	14,676,351	87.27%	97.51%
Against	263,448	1.57%	1.75%
Abstain	111,723	0.66%	0.74%

**Harris J. Ashton, Ann Torre Bates, Mary C. Choksi, Edith E. Holiday, J. Michael Luttig, David W. Niemiec, Larry D. Thompson, and Robert E. Wade are Trustees of the Fund who are currently serving and whose terms of office continued after the Annual Meeting of Shareholders.*

Dividend Reinvestment and Cash Purchase Plan

The Fund offers a Dividend Reinvestment and Cash Purchase Plan (the Plan) with the following features:

Shareholders must affirmatively elect to participate in the Plan. If you decide to use this service, share dividends and capital gains distributions will be reinvested automatically in shares of the Fund for your account.

Whenever the Fund declares dividends in either cash or shares of the Fund, if the market price is equal to or exceeds net asset value at the valuation date, the participant will receive the dividends entirely in new shares at a price equal to the net asset value, but not less than 95% of the then current market price of the Fund's shares. If the market price is lower than net asset value or if dividends and/or capital gains distributions are payable only in cash, the participant will receive shares purchased on the New York Stock Exchange or otherwise on the open market.

A participant has the option of submitting additional cash payments to the Plan Administrator, in any amounts of at least \$100, up to a maximum of \$5,000 per month, for the purchase of Fund shares for his or her account. These payments can be made by check payable to American Stock Transfer and Trust Company, LLC (the Plan Administrator) and sent to American Stock Transfer and Trust Company, LLC, P.O. Box 922, Wall Street Station, New York, NY 10269-0560 Attention: Templeton Emerging Markets Fund. The Plan Administrator will apply such payments (less a \$5.00 service charge and less a pro rata share of trading fees) to purchases of Fund shares on the open market.

The automatic reinvestment of dividends and/or capital gains does not relieve the participant of any income tax that may be payable on dividends or distributions.

Whenever shares are purchased on the New York Stock Exchange or otherwise on the open market, each participant will pay a pro rata portion of trading fees. Trading fees will be deducted from amounts to be invested. The Plan Administrator's fee for a sale of shares through the Plan is \$15.00 per transaction plus a \$0.12 per share trading fee.

A participant may withdraw from the Plan without penalty at any time by written notice to the Plan Administrator sent to American Stock Transfer and Trust Company, LLC, P.O. Box 922, Wall Street Station, New York, NY 10269-0560. Upon withdrawal, the participant will receive, without charge, share certificates issued in the participant's name for all full shares held by the Plan Administrator; or, if the participant wishes, the Plan Administrator will sell the participant's shares and send the proceeds to the participant, less a service charge of \$15.00 and less trading fees of \$0.12 per share. The Plan Administrator will convert any fractional shares held at the time of withdrawal to cash at the current market price and send a check to the participant for the net proceeds.

For more information, please see the Plan's Terms & Conditions located at the back of this report.

Direct Deposit Service for Registered Shareholders

Cash distributions can now be electronically credited to a checking or saving account at any financial institution that participates in the Automated Clearing House (ACH) system. The Direct Deposit service is provided for registered shareholders at no charge. To enroll in the service, access your account online by going to www.astfinancial.com or dial (800) 416-5585 (toll free) and follow the instructions. Direct Deposit will begin with the next scheduled distribution payment date following enrollment in the service.

Direct Registration

If you are a registered shareholder of the Fund, purchases of shares of the Fund can be electronically credited to your Fund account at American Stock Transfer and Trust Company, LLC through Direct Registration. This service provides shareholders with a convenient way to keep track of shares through book entry transactions, electronically move book-entry shares between broker-dealers, transfer agents and DRS eligible issuers, and eliminate the possibility of lost certificates. For additional information, please contact American Stock Transfer and Trust Company, LLC at (800) 416-5585.

Shareholder Information

Shares of Templeton Emerging Markets Fund are traded on the New York Stock Exchange under the symbol EMF. Information about the net asset value and the market price is available at franklintempleton.com.

For current information about dividends and shareholder accounts, call (800) 416-5585. Registered shareholders can access their Fund account on-line. For information go to American Stock Transfer and Trust Company, LLC's web site at www.astfinancial.com and follow the instructions.

The daily closing net asset value as of the previous business day may be obtained when available by calling Franklin Templeton Fund Information after 7 a.m. Pacific time any business day at (800) DIAL BEN/342-5236. The Fund's net asset value and dividends are also listed on the NASDAQ Stock Market, Inc.'s Mutual Fund Quotation Service (NASDAQ MFQS).

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSRS

Shareholders not receiving copies of reports to shareholders because their shares are registered in the name of a broker or a custodian can request that they be added to the Fund's mailing list, by writing Templeton Emerging Markets Fund, 100 Fountain Parkway, P.O. Box 33030, St. Petersburg, FL 33733-8030.

Shareholder Information

Proxy Voting Policies and Procedures

The Fund's investment manager has established Proxy Voting Policies and Procedures (Policies) that the Fund uses to determine how to vote proxies relating to portfolio securities. Shareholders may view the Fund's complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at (954) 527-7678 or by sending a written request to: Franklin Templeton Companies, LLC, 300 S.E. 2nd Street, Fort Lauderdale, FL 33301, Attention: Proxy Group. Copies of the Fund's proxy voting records are also made available online at franklintempleton.com and posted on the U.S. Securities and Exchange Commission's website at sec.gov and reflect the most recent 12-month period ended June 30.

Quarterly Statement of Investments

The Fund files a complete statement of investments with the U.S. Securities and Exchange Commission for the first and third quarters for each fiscal year as an exhibit to its report on Form N-PORT. Shareholders may view the filed Form N-PORT by visiting the Commission's website at sec.gov. The filed form may also be viewed and copied at the Commission's Public Reference Room in Washington, DC. Information regarding the operations of the Public Reference Room may be obtained by calling (800) SEC-0330.

TERMS AND CONDITIONS OF DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

1. American Stock Transfer and Trust Company, LLC (AST), will act as Plan Administrator and will open an account for participating shareholders (participant) under the Dividend Reinvestment and Cash Purchase Plan (the Plan) in the same name as that in which the participant s present shares are registered, and put the Plan into effect as of the first record date for a dividend or capital gains distribution after AST receives the authorization duly executed by such participant.

2. Whenever Templeton Emerging Markets Fund (the Fund) declares a distribution from capital gains or an income dividend payable in either cash or shares of the Fund (Fund shares), if the market price per share on the valuation date equals or exceeds the net asset value per share, participants will receive such dividend or distribution entirely in Fund shares, and AST shall automatically receive such Fund shares for participant accounts including aggregate fractions. The number of additional Fund shares to be credited to participant accounts shall be determined by dividing the equivalent dollar amount of the capital gains distribution or dividend payable to participating holders by the net asset value per share of the Fund shares on the valuation date, provided that the Fund shall not issue such shares at a price lower than 95% of the current market price per share. The valuation date will be the payable date for such distribution or dividend.

3. Whenever the Fund declares a distribution from capital gains or an income dividend payable only in cash, or if the Fund s net asset value per share exceeds the market price per share on the valuation date, AST shall apply the amount of such dividend or distribution payable to participants to the purchase of Fund shares on the open market (less their pro rata share of trading fees incurred with respect to open market purchases in connection with the reinvestment of such dividend or distribution). If, before AST has completed its purchases, the market price exceeds the net asset value per share, the average per share purchase price paid by AST may exceed the net asset value of the Fund s shares, resulting in the acquisition of fewer shares than if the dividend or capital gains distribution had been paid in shares issued by the Fund at net asset value per share. Such purchases will be made promptly after the payable date for such dividend or distribution, and in no event more than 30 days after such date except where temporary curtailment or suspension of purchase is necessary to comply with applicable provisions of the Federal securities laws.

4. A participant has the option of submitting additional payments to AST, in any amounts of at least \$100, up to a maximum of \$5,000 per month, for the purchase of Fund shares for his or her account. These payments may be made electronically through AST at www.astfinancial.com or by check payable to American Stock Transfer and Trust Company, LLC and sent to American Stock Transfer and Trust Company, LLC, P.O. Box 922, Wall Street Station, New York, NY 10269-0560, Attention: Templeton Emerging Markets Fund. AST shall apply such payments (less a \$5.00 service charge and less a pro rata share of trading fees) to purchases of Fund shares on the open market, as discussed below in paragraph 6. AST shall make such purchases promptly on approximately the 15th of each month or, during a month in which a dividend or distribution is paid, beginning on the dividend payment date, and in no event more than 30 days after receipt, except where necessary to comply with provisions of the Federal securities laws. Any voluntary payment received less than two business days before an investment date shall be invested during the following month unless there are more than 30 days until the next investment date, in which case such payment will be returned to the participant. AST shall return to the participant his or her entire voluntary cash payment upon written notice of withdrawal received by AST not less than 48 hours before such payment is to be invested. Such written notice shall be sent to AST by the participant, as discussed below in paragraph 14.

5. For all purposes of the Plan: (a) the market price of the Fund s shares on a particular date shall be the last sale price on the New York Stock Exchange on that date if a business day and if not, on the preceding business day, or if there is

no sale on such Exchange on such date, then the mean between the closing bid and asked quotations for such shares on such Exchange on such date, and (b) net asset value per share of the Fund's shares on a particular date shall be as determined by or on behalf of the Fund.

6. Open market purchases provided for above may be made on any securities exchange where Fund shares are traded, in the over-the-counter market or in negotiated transactions and may be on such terms as to price, delivery and otherwise as AST shall determine. Participant funds held by AST uninvested will not bear interest, and it is understood that, in any event, AST shall have no liability in connection with any inability to purchase Fund shares within 30 days after the payable date for any dividend or distribution as herein provided, or with the timing of any purchases effected. AST shall have no responsibility as to the value of the Fund shares acquired for participant accounts. For the purposes of purchases in the open market, AST may aggregate purchases with those of other participants, and the average price (including trading fees) of all shares purchased by AST shall be the price per share allocable to all participants.

7. AST will hold shares acquired pursuant to this Plan, together with the shares of other participants acquired pursuant to this Plan, in its name or that of its nominee. AST will forward to participants any proxy solicitation material and will vote any shares so held for participants only in accordance with the proxies returned by participants to the Fund. Upon written request, AST will deliver to participants, without charge, a certificate or certificates for all or a portion of the full shares held by AST.

8. AST will confirm to participants each acquisition made for an account as soon as practicable but not later than ten business days after the date thereof. AST will send to participants a detailed account statement showing total dividends and distributions, date of investment, shares acquired and price per share, and total shares of record for the account. Although participants may from time to time have an undivided fractional interest (computed to three decimal places) in a share of the Fund, no certificates for a fractional share will be issued. However, dividends and distributions on fractional shares will be credited to participant accounts. In the event of termination of an account under the Plan, AST will adjust for any such undivided fractional interest in cash at the market price of the Fund's shares on the date of termination.

9. Any share dividends or split shares distributed by the Fund on shares held by AST for participants will be credited to participant accounts. In the event that the Fund makes available to its shareholders transferable rights to purchase additional Fund shares or other securities, AST will sell such rights and apply the proceeds of the sale to the purchase of additional Fund shares for the participant accounts. The shares held for participants under the Plan will be added to underlying shares held by participants in calculating the number of rights to be issued.

10. AST's service charge for capital gains or income dividend purchases will be paid by the Fund when shares are issued by the Fund or purchased on the open market. AST will deduct a \$5.00 service charge from each voluntary cash payment. Participants will be charged a pro rata share of trading fees on all open market purchases.

11. Participants may withdraw shares from such participant's account or terminate their participation under the Plan by notifying AST in writing. Such withdrawal or termination will be effective immediately if notice is

TERMS AND CONDITIONS OF DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN (continued)

received by AST not less than two days prior to any dividend or distribution record date; otherwise such withdrawal or termination will be effective after the investment of any current dividend or distribution or voluntary cash payment. The Plan may be terminated by AST or the Fund upon 90 days' notice in writing mailed to participants. Upon any withdrawal or termination, AST will cause a certificate or certificates for the full shares held by AST for participants and cash adjustment for any fractional shares (valued at the market value of the shares at the time of withdrawal or termination) to be delivered to participants, less any trading fees. Alternatively, a participant may elect by written notice to AST to have AST sell part or all of the shares held for him and to remit the proceeds to him. AST is authorized to deduct a \$15.00 service charge and a \$0.12 per share trading fee for this transaction from the proceeds. If a participant disposes of all shares registered in his name on the books of the Fund, AST may, at its option, terminate the participant's account or determine from the participant whether he wishes to continue his participation in the Plan.

12. These terms and conditions may be amended or supplemented by AST or the Fund at any time or times, except when necessary or appropriate to comply with applicable law or the rules or policies of the U.S. Securities and Exchange Commission or any other regulatory authority, only by mailing to participants appropriate written notice at least 90 days prior to the effective date thereof. The amendment or supplement shall be deemed to be accepted by participants unless, prior to the effective date thereof, AST receives written notice of the termination of a participant account under the Plan. Any such amendment may include an appointment by AST in its place and stead of a successor Plan Administrator under these terms and conditions, with full power and authority to perform all or any of the acts to be performed by AST under these terms and conditions. Upon any such appointment of a Plan Administrator for the purpose of receiving dividends and distributions, the Fund will be authorized to pay to such successor Plan Administrator, for a participant's account, all dividends and distributions payable on Fund shares held in a participant's name or under the Plan for retention or application by such successor Plan Administrator as provided in these terms and conditions.

13. AST shall at all times act in good faith and agree to use its best efforts within reasonable limits to ensure the accuracy of all services performed under this Agreement and to comply with applicable law, but shall assume no responsibility and shall not be liable for loss or damage due to errors unless such error is caused by AST's negligence, bad faith or willful misconduct or that of its employees.

14. Any notice, instruction, request or election which by any provision of the Plan is required or permitted to be given or made by the participant to AST shall be in writing addressed to American Stock Transfer and Trust Company, LLC, P.O. Box 922, Wall Street Station, New York, NY 10269-0560, Attention: Templeton Emerging Markets Fund, or www.astfinancial.com or such other address as AST shall furnish to the participant, and shall have been deemed to be given or made when received by AST.

15. Any notice or other communication which by any provision of the Plan is required to be given by AST to the participant shall be in writing and shall be deemed to have been sufficiently given for all purposes by being deposited postage prepaid in a post office letter box addressed to the participant at his or her address as it shall last appear on AST's records. The participant agrees to notify AST promptly of any change of address.

16. These terms and conditions shall be governed by and construed in accordance with the laws of the State of New York and the rules and regulations of the U.S. Securities and Exchange Commission, as they may be amended from time to time.

Investors should be aware that the value of investments made for the Fund may go down as well as up. Like any investment in securities, the value of the Fund's portfolio will be subject to the risk of loss from market, currency, economic, political and other factors. The Fund and its investors are not protected from such losses by the investment manager. Therefore, investors who cannot accept this risk should not invest in shares of the Fund.

To help ensure we provide you with quality service, all calls to and from our service areas are monitored and/or recorded.

Constantine D. Tseretopoulos.

Item 6. Schedule of Investments. N/A

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The board of trustees of the Fund has delegated the authority to vote proxies related to the portfolio securities held by the Fund to the Fund's investment manager Templeton Asset Management Ltd. in accordance with the Proxy Voting Policies and Procedures (Policies) adopted by the investment manager.

The investment manager has delegated its administrative duties with respect to the voting of proxies for securities to the Proxy Group within Franklin Templeton Companies, LLC (Proxy Group), an affiliate and wholly owned subsidiary of Franklin Resources, Inc. All proxies received by the Proxy Group will be voted based upon the investment manager's instructions and/or policies. The investment manager votes proxies solely in the best interests of the Fund and its shareholders.

To assist it in analyzing proxies of equity securities, the investment manager subscribes to Institutional Shareholder Services, Inc. (ISS), an unaffiliated third-party corporate governance research service that provides in-depth analyses of shareholder meeting agendas, vote recommendations, vote execution services, ballot reconciliation services, recordkeeping and vote disclosure services. In addition, the investment manager subscribes to Glass, Lewis & Co., LLC (Glass Lewis), an unaffiliated third-party analytical research firm, to receive analyses and vote recommendations on the shareholder meetings of publicly held U.S. companies, as well as a limited subscription to its international research. Also, the investment manager has a supplemental subscription to Egan-Jones Proxy Services (Egan-Jones), an unaffiliated third party proxy advisory firm, to receive analyses and vote recommendations. Although analyses provided by ISS, Glass Lewis, Egan-Jones, and/or another independent third party proxy service provider (each a Proxy Service) are thoroughly reviewed and considered in making a final voting decision, the investment manager does not consider recommendations from a Proxy Service or any third party to be determinative of the investment manager's ultimate decision. Rather, the investment manager exercises its independent judgment in making voting decisions. For most proxy proposals, the investment manager's evaluation should result in the same position being taken for all Funds. In some cases, however, the evaluation may result in a Fund voting differently, depending upon the nature and objective of the Fund, the composition of its portfolio and other factors. As a matter of policy, the officers, directors/trustees and employees of the investment manager and the Proxy Group will not be influenced by outside sources whose interests conflict with the interests of the Fund and its shareholders. Efforts are made to resolve all conflicts in the best interests of the investment manager's clients. Material conflicts of interest are identified by the Proxy Group based upon analyses of client, distributor, broker-dealer and vendor lists, information periodically gathered from directors and officers, and information derived from other sources, including public filings. In situations where a material conflict of interest is identified, the Proxy Group may vote consistent with the voting recommendation of a Proxy Service; or send the proxy directly to the Fund's board or a committee of the board with the investment manager's recommendation regarding the vote for approval.

Where a material conflict of interest has been identified, but the items on which the investment manager's vote recommendations differ from a Proxy Service and relate specifically to (1) shareholder proposals regarding social or environmental issues, (2) Other Business without describing the matters that might be considered, or (3) items the investment manager wishes to vote in opposition to the recommendations of an issuer's management, the Proxy Group may defer to the vote recommendations of the investment manager rather than sending the proxy directly to the Fund's board or a board committee for approval.

To avoid certain potential conflicts of interest, the investment manager will employ echo voting or pass-through voting, if possible, in the following instances: (1) when the Fund invests in an underlying fund in reliance on any one of Sections 12(d)(1)(F), or (G) of the 1940 Act, the rules thereunder, or pursuant to a SEC exemptive order thereunder; (2) when the Fund invests uninvested cash in affiliated money market funds pursuant to the rules under the 1940 Act or any exemptive orders thereunder (cash sweep arrangement); or (3) when required pursuant to the Fund's governing documents or applicable law. Echo voting means that the investment manager will vote the shares in the same proportion as the vote of all of the other holders of the underlying fund's shares. With respect to instances when a Franklin Templeton U.S. registered investment company invests in an underlying fund in reliance on any one of Sections 12(d)(1)(F) or (G) of the 1940 Act, the rules thereunder, or pursuant to an SEC exemptive order thereunder, and there are no other unaffiliated shareholders also invested in the underlying fund, the Investment Manager will vote in accordance with the recommendation of such investment company's board of trustees or directors. In addition, to avoid certain potential conflicts of interest, and where required under a fund's governing documents or applicable law, the Investment Manager will employ pass-through voting when a Franklin Templeton U.S. registered investment company invests in an underlying fund in reliance on Section 12(d)(1)(E) of the 1940 Act, the rules thereunder, or pursuant to an SEC exemptive order thereunder. In pass-through voting, a feeder fund will solicit voting instructions from its shareholders as to how to vote on the master fund's proposals.

The recommendation of management on any issue is a factor that the investment manager considers in determining how proxies should be voted. However, the investment manager does not consider recommendations from management to be determinative of the investment manager's ultimate decision. As a matter of practice, the votes with respect to most issues are cast in accordance with the position of the company's management. Each issue, however, is considered on its own merits, and the investment manager will not support the position of the company's management in any situation where it deems that the ratification of management's position would adversely affect the investment merits of owning that company's shares.

Engagement with issuers. The investment manager believes that engagement with issuers is important to good corporate governance and to assist in making proxy voting decisions. The investment manager may engage with issuers to discuss specific ballot items to be voted on in advance of an annual or special meeting to obtain further information or clarification on the proposals. The investment manager may also engage with management on a range of environmental, social or corporate governance issues throughout the year.

Investment manager's proxy voting policies and principles The investment manager has adopted general proxy voting guidelines, which are summarized below. These guidelines are not an exhaustive list of all the issues that may

arise and the investment manager cannot anticipate all future situations. In all cases, each proxy and proposal (including both management and shareholder proposals) will be considered based on the relevant facts and circumstances on a case-by-case basis.

Board of directors. The investment manager supports an independent, diverse board of directors, and prefers that key committees such as audit, nominating, and compensation committees be comprised of independent directors. The investment manager supports boards with strong risk management oversight. The investment manager will generally vote against management efforts to classify a board and will generally support proposals to declassify the board of directors. The investment manager will consider withholding votes from directors who have attended less than 75% of meetings without a valid reason. While generally in favor of separating Chairman and CEO positions, the investment manager will review this issue as well as proposals to restore or provide for cumulative voting on a case-by-case basis, taking into consideration factors such as the company's corporate governance guidelines or provisions and performance. The investment manager generally will support non-binding shareholder proposals to require a majority vote standard for the election of directors; however, if these proposals are binding, the investment manager will give careful review on a case-by-case basis of the potential ramifications of such implementation.

In the event of a contested election, the investment manager will review a number of factors in making a decision including management's track record, the company's financial performance, qualifications of candidates on both slates, and the strategic plan of the dissidents and/or shareholder nominees.

Ratification of auditors of portfolio companies. The investment manager will closely scrutinize the independence, role and performance of auditors. On a case-by-case basis, the investment manager will examine proposals relating to non-audit relationships and non-audit fees. The investment manager will also consider, on a case-by-case basis, proposals to rotate auditors, and will vote against the ratification of auditors when there is clear and compelling evidence of a lack of independence, accounting irregularities or negligence. The investment manager may also consider whether the ratification of auditors has been approved by an appropriate audit committee that meets applicable composition and independence requirements.

Management and director compensation. A company's equity-based compensation plan should be in alignment with the shareholders' long-term interests. The investment manager believes that executive compensation should be directly linked to the performance of the company. The investment manager evaluates plans on a case-by-case basis by considering several factors to determine whether the plan is fair and reasonable, including the ISS quantitative model utilized to assess such plans and/or the Glass Lewis evaluation of the plans. The investment manager will generally oppose plans that have the potential to be excessively dilutive, and will almost always oppose plans that are structured to allow the repricing of underwater options, or plans that have an automatic share replenishment evergreen feature. The investment manager will generally support employee stock option plans in which the purchase price is at least 85% of fair market value, and when potential dilution is 10% or less.

Severance compensation arrangements will be reviewed on a case-by-case basis, although the investment manager will generally oppose golden parachutes that are considered to be excessive. The investment manager will normally support

proposals that require a percentage of directors' compensation to be in the form of common stock, as it aligns their interests with those of shareholders.

The investment manager will review non-binding say-on-pay proposals on a case-by-case basis, and will generally vote in favor of such proposals unless compensation is misaligned with performance and/or shareholders' interests, the company has not provided reasonably clear disclosure regarding its compensation practices, or there are concerns with the company's remuneration practices.

Anti-takeover mechanisms and related issues. The investment manager generally opposes anti-takeover measures since they tend to reduce shareholder rights. However, as with all proxy issues, the investment manager conducts an independent review of each anti-takeover proposal. On occasion, the investment manager may vote with management when the research analyst has concluded that the proposal is not onerous and would not harm the Fund or its shareholders' interests. The investment manager generally supports proposals that require shareholder rights plans (poison pills) to be subject to a shareholder vote and will closely evaluate such plans on a case-by-case basis to determine whether or not they warrant support. In addition, the investment manager will generally vote against any proposal to issue stock that has unequal or subordinate voting rights. The investment manager generally opposes any supermajority voting requirements as well as the payment of greenmail. The investment manager generally supports fair price provisions and confidential voting. The investment manager will review a company's proposal to reincorporate to a different state or country on a case-by-case basis taking into consideration financial benefits such as tax treatment as well as comparing corporate governance provisions and general business laws that may result from the change in domicile.

Changes to capital structure. The investment manager realizes that a company's financing decisions have a significant impact on its shareholders, particularly when they involve the issuance of additional shares of common or preferred stock or the assumption of additional debt. The investment manager will review, on a case-by-case basis, proposals by companies to increase authorized shares and the purpose for the increase. The investment manager will generally not vote in favor of dual-class capital structures to increase the number of authorized shares where that class of stock would have superior voting rights. The investment manager will generally vote in favor of the issuance of preferred stock in cases where the company specifies the voting, dividend, conversion and other rights of such stock and the terms of the preferred stock issuance are deemed reasonable. The investment manager will review proposals seeking preemptive rights on a case-by-case basis.

Mergers and corporate restructuring. Mergers and acquisitions will be subject to careful review by the research analyst to determine whether they would be beneficial to shareholders. The investment manager will analyze various economic and strategic factors in making the final decision on a merger or acquisition. Corporate restructuring proposals are also subject to a thorough examination on a case-by-case basis.

Environmental and social issues. The investment manager considers environmental and social issues alongside traditional financial measures to provide a more comprehensive view of the value, risk and return potential of an investment. Companies may face significant financial, legal and reputational risks resulting from poor environmental and social practices, or negligent oversight of environmental or social issues. Franklin Templeton's Responsible Investment Principles and Policies describes the investment manager's approach

to consideration of environmental, social and governance issues within the investment manager's processes and ownership practices.

In the investment manager's experience, those companies that are managed well are often effective in dealing with the relevant environmental and social issues that pertain to their business. As such, the investment manager will generally give management discretion with regard to environmental and social issues. However, in cases where management and the board have not demonstrated adequate efforts to mitigate material environmental or social risks, have engaged in inappropriate or illegal conduct, or have failed to adequately address current or emergent risks that threaten shareholder value, the investment manager may choose to support well-crafted shareholder proposals that serve to promote or protect shareholder value. This may include seeking appropriate disclosure regarding material environmental and social issues. The investment manager will review shareholder proposals on a case-by-case basis and may support those that serve to enhance value or mitigate risk, are drafted appropriately, and do not disrupt the course of business or require a disproportionate or inappropriate use of company resources.

The investment manager will consider supporting a shareholder proposal seeking disclosure and greater board oversight of lobbying and corporate political contributions if the investment manager believes that there is evidence of inadequate oversight by the company's board, if the company's current disclosure is significantly deficient, or if the disclosure is notably lacking in comparison to the company's peers.

Governance matters. The investment manager generally supports the right of shareholders to call special meetings and act by written consent. However, the investment manager will review such shareholder proposals on a case-by-case basis in an effort to ensure that such proposals do not disrupt the course of business or require a disproportionate or inappropriate use of company resources.

Proxy access. In cases where the investment manager is satisfied with company performance and the responsiveness of management, it will generally vote against shareholder proxy access proposals not supported by management. In other instances, the investment manager will consider such proposals on a case-by-case basis, taking into account factors such as the size of the company, ownership thresholds and holding periods, nomination limits (e.g., number of candidates that can be nominated), the intentions of the shareholder proponent, and shareholder base.

Global corporate governance. Many of the tenets discussed above are applied to the investment manager's proxy voting decisions for international investments. However, the investment manager must be flexible in these worldwide markets. Principles of good corporate governance may vary by country, given the constraints of a country's laws and acceptable practices in the markets. As a result, it is on occasion difficult to apply a consistent set of governance practices to all issuers. As experienced money managers, the investment manager's analysts are skilled in understanding the complexities of the regions in which they specialize and are trained to analyze proxy issues germane to their regions.

The investment manager will generally attempt to process every proxy it receives for all domestic and foreign securities. However, there may be situations in which the investment manager may be unable to successfully vote a proxy, or may choose not to vote a proxy, such as where: (i) a proxy ballot was

not received from the custodian bank; (ii) a meeting notice was received too late; (iii) there are fees imposed upon the exercise of a vote and it is determined that such fees outweigh the benefit of voting; (iv) there are legal encumbrances to voting, including blocking restrictions in certain markets that preclude the ability to dispose of a security if the investment manager votes a proxy or where the investment manager is prohibited from voting by applicable law, economic or other sanctions, or other regulatory or market requirements, including but not limited to, effective Powers of Attorney; (v) additional documentation or the disclosure of beneficial owner details is required; (vi) the investment manager held shares on the record date but has sold them prior to the meeting date; (vii) a proxy voting service is not offered by the custodian in the market; (viii) due to either system error or human error, the investment manager's intended vote is not correctly submitted; (ix) the investment manager believes it is not in the best interest of the Fund or its shareholders to vote the proxy for any other reason not enumerated herein; or (x) a security is subject to a securities lending or similar program that has transferred legal title to the security to another person.

In some non-U.S. jurisdictions, even if the investment manager uses reasonable efforts to vote a proxy on behalf of the Fund, such vote or proxy may be rejected because of (a) operational or procedural issues experienced by one or more third parties involved in voting proxies in such jurisdictions; (b) changes in the process or agenda for the meeting by the issuer for which the investment manager does not have sufficient notice; or (c) the exercise by the issuer of its discretion to reject the vote of the investment manager. In addition, despite the best efforts of the Proxy Group and its agents, there may be situations where the investment manager's votes are not received, or properly tabulated, by an issuer or the issuer's agent.

The investment manager or its affiliates may, on behalf of one or more of the proprietary registered investment companies advised by the investment manager or its affiliates, determine to use its best efforts to recall any security on loan where the investment manager or its affiliates (a) learn of a vote on a material event that may affect a security on loan and (b) determine that it is in the best interests of such proprietary registered investment companies to recall the security for voting purposes.

Procedures for meetings involving fixed income securities. From time to time, certain custodians may process events for fixed income securities through their proxy voting channels rather than corporate action channels for administrative convenience. In such cases, the Proxy Group will receive ballots for such events on the ISS voting platform. The Proxy Group will solicit voting instructions from the investment manager for each Fund involved. If the Proxy Group does not receive voting instructions from the investment manager, the Proxy Group will take no action on the event. The investment manager may be unable to vote a proxy for a fixed income security, or may choose not to vote a proxy, for the reasons described under the section entitled Proxy Procedures.

The Proxy Group will monitor such meetings involving fixed income securities for conflicts of interest in accordance with these procedures for fixed income securities. If a fixed income issuer is flagged as a potential conflict of interest, the investment manager may nonetheless vote as it deems in the best interests of the Fund. The investment manager will report such decisions on an annual basis to the Fund board as may be required.

Shareholders may view the complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge

by calling the Proxy Group collect at (954) 527-7678 or by sending a written request to: Franklin Templeton Companies, LLC, 300 S.E. 2nd Street, Fort Lauderdale, FL 33301-1923, Attention: Proxy Group. Copies of the Fund's proxy voting records are available online at franklintempleton.com and posted on the SEC website at www.sec.gov. The proxy voting records are updated each year by August 31 to reflect the most recent 12-month period ended June 30.

Item 8. Portfolio Managers of Closed-End Management Investment Companies. N/A

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Program	(d) Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs
Month #1 (9/1/18 - 9/30/18)	45,612.000	14.36	45,612.000	16,987,774.00
Month #2 (10/1/18 - 10/31/18)	63,960.000	13.71	63,960.000	16,942,162.00
Month #3 (11/1/18 - 11/30/18)	61,122.000	13.89	61,122.000	16,878,202.00
Month #4 (12/1/18 - 12/31/18)	28,950.000	12.84	28,950.000	16,817,080.00
Month #5 (1/1/19 - 1/31/19)	3,320.000	13.60	3,320.000	16,788,130.00
Month #6 (2/1/19 - 2/28/19)	12,095.000	14.59	12,095.000	16,784,810.00
Total	215,059.000		215,059.000	16,772,715.00

The Board previously authorized an open-market share repurchase program pursuant to which the Fund may purchase, from time to time, Fund shares in open-market transactions, at the discretion of management. Effective December 13, 2018, the Board approved a modification to its existing open-market share repurchase program to authorize the Fund to repurchase an additional 10% of the Fund's shares outstanding in open market transactions, at the discretion of management. Since the inception of the program, the Fund had repurchased a total of 1,312,392 shares.

Item 10. Submission of Matters to a Vote of Security Holders.

There have been no changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Trustees that would require disclosure herein.

Item 11. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures. The Registrant maintains disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934, as amended, and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the

Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Within 90 days prior to the filing date of this Shareholder Report on Form N-CSRS, the Registrant had carried out an evaluation, under the supervision and with the participation of the Registrant's management, including the Registrant's principal executive officer and the Registrant's principal financial officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on such evaluation, the Registrant's principal executive officer and principal financial officer concluded that the Registrant's disclosure controls and procedures are effective.

(b) Changes in Internal Controls: Effective November 1, 2018, the Registrant's controls were enhanced through the implementation of a daily secondary review of market events following the close of trading on foreign stock markets to ensure the appropriate application of market level fair value.

Item 12. Disclosure of Securities Lending Activities for Closed-End Management Investment Company.
