NOVA COMMUNICATIONS LTD.

Consolidated Notes to Financial Statements
March 31, 2005

1. Summary of significant accounting policies

Business: Nova Communications Ltd. (the "Company" or "Nova") is incorporated under the laws of the State of Nevada.

Business combinations and basis of consolidation: On August 30, 2004, the Company acquired 51% of Aqua Xtremes, Inc. ("Aqua") in a business combination accounted for as a purchase. Aqua designs, manufactures, and markets water sports equipment. In December 2004, Aqua formed Xtreme Engines, Inc. ("Engines") and owns 100% of its common stock. Engines manufactures jet-powered engines for use in Aqua's water sports equipment.

The consolidated financial statements include the accounts of Nova and its 51% owned subsidiary Aqua and Aqua's 100% owned subsidiary Engines from the date of Aqua's purchase and Engines formation. All intercompany accounts and transactions have been eliminated.

Losses exceed the minority interest in the equity capital of Aqua. Accordingly, losses applicable to the minority interest are charged against Nova as there is no obligation of the minority stockholder to guarantee such losses. If future earnings of Aqua do materialize, Nova

Edgar Filing: NOVA COMMUNICATIONS LTD - Form 10QSB

will be credited to the extent of such losses previously absorbed.

Effective May 9, 2005, Nova acquired the remaining 49% of the issued and outstanding common stock of Aqua.

Interim reporting: Nova's year-end for accounting and tax purposes is December 31. Aqua and Engines' year-end for tax purposes is June 30. In the opinion of Management, the accompanying consolidated financial statements as of March 31, 2005 and 2004 and for the three months then ended, consisting of only normal recurring adjustments, except as noted elsewhere in the notes to the consolidated financial statements, necessary to present fairly its financial position, results of its operations and cash flows. The results of operations for the three months ended March 31, 2005 and 2004 are not necessarily indicative of the results to be expected for the full year.

Cash equivalents: For purposes of the statement of cash flows, the Company and its subsidiaries consider cash equivalents to be highly liquid instruments if, when purchased, their original due dates were within three months.

Equipment: Equipment is carried at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the depreciable assets, which range from five to fifteen years.

Consolidated Notes to Financial Statements March 31, 2005

1. Summary of significant accounting policies (continued)

Stock options and warrants: The Company uses a fair value based method of accounting for stock based compensation to employees.

The Company also accounts for stock options and warrants issued to non-employees for services under the fair value method of accounting.

Net loss per common share: Net loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding during the period. The weighted average number of common stock shares outstanding was 4,985,999 for the three months ended March 31, 2005 (2,891,111 for the three months ended March 31, 2004). Common stock to be issued is not considered to be a common stock equivalent as the effect on net loss per common share would be anti-dilutive.

Use of estimates: The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Management of the Company has made certain estimates and assumptions regarding the collectability of notes receivable. Such estimates and assumptions primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

2. Operations

Edgar Filing: NOVA COMMUNICATIONS LTD - Form 10QSB

Aqua has begun manufacturing and marketing revolutionary water sports equipment. One of its most notable products is the Xboard(TM), a jet-powered personal watercraft.

To date, the Company has been dependent upon advances from shareholders and debt and equity financing for development and operations. The Company will continue to be dependent upon these sources until the Company ultimately achieve profitability, if ever. However, there can be no assurances that the Company will be able to continue to receive advances from shareholders or raise additional debt or equity financing.

The consolidated financial statements as of March 31, 2005 do not reflect adjustments relating to the recorded asset amounts, or the amounts of liabilities that would be necessary should the Company not be able to continue in existence.

3. Advances receivable

The Company has advanced funds to a company for cash flow purposes. The advances are unsecured, non-interest bearing, and due on demand.
