ITEM 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

On March 10, 2006, Flexible Solutions International, Inc. (the "Company") issued a press release (the "Press Release") announcing financial results for the fourth quarter and full year ended December 31, 2005. On March 13, 2006, the Company filed a Current Report on Form 8-K (the "Report") related

Edgar Filing: FLEXIBLE SOLUTIONS INTERNATIONAL INC - Form 8-K/A

to the same Press Release. The results of operations disclosed in the Press Release and the Report contained Non-GAAP financial measures, but omitted a reconciliation of the Non-GAAP financial measures versus the comparable financial measures reported consistent with accounting principles generally accepted in the United States ("GAAP"), as well as other explanatory information. This Amendment No. 1 to the Company's Report is being filed in order to include that GAAP to Non-GAAP reconciliation and the additional explanatory information regarding management's use of the Non-GAAP financial measures disclosed.

In the Company's Press Release and Report, the Company refers to "operating cash flow," which is a Non-GAAP financial measure. The closest comparable GAAP financial measure is net earnings. The Company obtains the number for operating cash flow by removing depreciation and the Black-Scholes derived expenses of stock options issued to consultants from net earnings. The Company believes that the operating cash flow measure is useful to shareholders and prospective investors interested in determining if the Company is using or gaining cash from operations, un-obscured by non-cash items, and whether financing activities may be necessary. Management uses this measure internally as a tool (among many) for determining the performance of corporate operations, planning expenditures and gauging future capital requirements.

The table below contains supplemental information regarding the Company's income from operations for the three months ended December 31, 2005 and 2004, and the full year ended December 31, 2005 and 2004, adjusted to exclude depreciation and expenses attributable to stock options issued to consultants. This financial information is a Non-GAAP financial measure as defined by SEC Regulation G. The GAAP financial measure most directly comparable is net income. The reconciliation of each of the Non-GAAP financial measures is as follows:
