DISSENTER'S RIGHTS OF APPRAISAL

The Nevada Business Corporation Act ("Nevada Law") does not provide for dissenter's rights of appraisal in connection with the corporate action to be taken.

VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

The Board of Directors has fixed the close of business on January 7, 2008 as the record date for the determination of the common shareholders entitled to notice of proposed action by written consent. At the record date, the Company had outstanding 292,550,514 shares of Common Stock, par value \$0.001 per share and 200,000 shares of Preferred Stock, par value \$0.001 per share. The shareholder of who holds the majority voting power on the record date, has signed a consent to the taking of the corporate action described. This consent will be sufficient, without any further action, to provide the necessary stockholder approval of the action.

CORPORATE ACTION TO BE TAKEN

AMENDMENTS TO THE ARTICLES OF INCORPORATION

The Company's current authorized capital stock consists of 500,000,000 shares of Common Stock, par value \$0.001 per share, of which 292,550,514 shares are issued and outstanding, and 200,000 shares of Preferred Stock, of which 100,000 are issued and outstanding as Series "A" Convertible Preferred Stock, par value \$0.001 per share and 100,000 are issued and outstanding as Series "B" Convertible Preferred Stock. Par value \$0.001. Management believes that it is in the best interests of the Company and its shareholders that the authorized Common Stock be increased to 750,000,000 shares of Common Stock. The increase in the authorized Common Stock and Preferred Stock will provide the Company with needed stock to enable it to undertake financing transactions in which the Company may employ the common stock, including transactions to raise working capital through the sale of common stock. Since the Board of Directors believes that the currently authorized number of shares may be not be sufficient to meet anticipated needs in the immediate future, the Board considers it desirable that the Company has the flexibility to issue an additional amount of Common Stock without further stockholder action, unless otherwise required by law or other regulations. The availability of these additional shares will enhance the Company's flexibility in connection with any possible acquisition or merger, stock splits or dividends, financings and other corporate purposes and will allow such shares to be issued without the expense and delay of a special stockholders' meeting, unless such action is required by applicable law or rules of any stock exchange on which the Company's securities may then be listed.

In certain circumstances, a proposal to increase the authorized capital stock may have an anti-takeover effect. The authorization of classes of preferred or common stock with either specified voting rights or rights providing for the approval of extraordinary corporate action may be used to create voting impediments or to frustrate persons seeking to effect a merger or otherwise gain control of the Company by diluting the stock ownership of any persons seeking to obtain control of the Company. Management of the Company might use the additional authorized capital stock to resist or frustrate a third-party transaction which might provide an above-market premium that is favored by a majority of the independent shareholders. Management of the Company has no present plans to adopt any proposals or to enter into other arrangements that may have material anti-takeover consequences. There are no anti-takeover provisions in the Company's Articles of Incorporation, Bylaws or other governing documents.

The second amendment to the Company's Articles of Incorporation will allow the Board of Directors to effect a decrease in the issued and outstanding shares of any class without the need to have a corresponding decrease in the authorized shares of the same class and thereby avoid the need for shareholder approval of such action. The amendment will allow the Board of Directors of the Company, pursuant to NRS 78.2055 of the Nevada Business Corporation Act, to undertake a reverse stock split of the Company's shares issued and outstanding of any class without the need to obtain prior approval from the shareholders who will be affected by the reverse stock split. When such action is taken, the authorized shares of the affected class will not be correspondingly reduced. By undertaking a reverse stock split without a corresponding decrease in the authorized shares, the Company will realize additional authorized shares which can be issued in the future. A direct consequence to the Company's shareholders of this amendment will be that shareholders will not have the opportunity to approve or disapprove any proposed decrease in the issued and outstanding common stock.

DESCRIPTION OF CAPITAL STOCK AND VOTING RIGHTS

The Company's authorized capital consists of 500,000,000 shares of Common Stock, par value \$0.001 per share and 200,000 shares of Preferred Stock, par value \$0.001. As of January 7, 2008, there were 292,550,514 shares of Common Stock outstanding and 200,000 shares of Preferred Stock, which are issued and outstanding as Series "A" Convertible Preferred Stock and Series "B" Convertible Preferred Stock. The holders of Common Stock and the holders of the Preferred Stock are each entitled to vote as a single class on all matters to come before a vote of the stockholders of the Company.
