SOUTH AFRICAN TAX CONSIDERATIONS REGARDING THE DISTRIBUTION OF 731 648 614 SIBANYE GOLD ORDINARY SHARES TO GOLD FIELDS ORDINARY SHAREHOLDERS ("SIBANYE DISTRIBUTION")

In the Pre Listing Statement issued to Gold Fields shareholders on 10 January 2013, Gold Fields informed its shareholders of the proposed unbundling and distribution of the ordinary shares held by Gold Fields in Sibanye Gold to Gold Fields shareholders who were recorded in the share register at the close of business on Friday, 8 February 2013. This was the last business day to trade in Gold Fields shares in order to be recorded in the Gold Fields' shareholder register on the record date, and thereby participate in the distribution (the "LDT"). The distribution (in specie), in terms of section 46 of the South African Income Tax Act, 1962 (Act 58 of 1962)("the Act"), as amended, was made, for South African tax purposes, on the 8

th

of February 2013, being the LDT date.

The distribution was made in the ratio of one Sibanye Gold ordinary share for every one Gold Fields ordinary share held by Gold Fields shareholders on the LDT. The purpose of this announcement is to advise Gold Fields shareholders of (i) the closing prices of both the Sibanye Gold ordinary shares and the Gold Fields ordinary shares on 11 February 2013 and (ii) the ratio in which the expenditure incurred in connection with the acquisition of the Gold Fields

ordinary shares, or their valuation date values, as the case may be, must be allocated to the Sibanye Gold ordinary shares and the Gold Fields ordinary shares (the "Allocation Ratio").

The distribution of the Sibanye Gold shares by Gold Fields is an unbundling transaction as contemplated in section 46 of the Act. Accordingly Gold Fields shareholders should calculate the Allocation Ratio as follows:

$$A = B \times [C / (C + D)]$$

where:

“A” is the expenditure determined which must be allocated to the Sibanye Gold shares;

“B” is the expenditure incurred in relation to the Gold Fields ordinary shares;

“C” is the market value of the Sibanye Gold shares determined as at the end of the day after the LDT date (the LDT date being the day of the Sibanye distribution for South African tax purposes); and

“D” is the market value of Gold Fields ordinary shares, determined as at the end of the day after the LDT date (the LDT date being the day of the Sibanye distribution for South African tax purposes).

Gold Fields shareholders are advised that the Allocation Ratio, based on the relative market values of the Sibanye Gold ordinary shares and the Gold Fields ordinary shares at the close of business on 11 February 2013, is as follows:

Summaries of certain tax considerations arising in respect of the distribution are set out in “Annexures 17 and 18” of the Pre-Listing Statement posted to all Gold Fields Shareholders on the 10th January 2013 (and which has been and remains available on both Sibanye Gold and Gold Fields websites, namely www.sibanyegold.co.za and www.goldfields.co.za

.). Those summaries and this Announcement are general guides and are not intended to constitute a complete analysis of the tax consequences of the distribution. It is not intended to be, nor should it be considered to be, legal or tax advice. Shareholders should therefore consult their own tax advisors on the tax consequences to them of the distribution in both South Africa and their jurisdiction of residence, for which none of Gold Fields, Sibanye Gold or their advisors will be held responsible.
