NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts)

(unaudited)

NOTE 1 – BASIS OF PRESENTATION

These interim unaudited condensed consolidated financial statements have been prepared in accordance with United States of America (“U.S.”) generally accepted accounting principles (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and should be read in conjunction with the consolidated financial statements and related notes of Hudson Global, Inc. and its subsidiaries (the “Company”) filed in its Annual Report on Form 10-K for the year ended December 31, 2012.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of operating revenues and expenses. These estimates are based on management’s knowledge and judgments. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the Company’s financial position, results of operations and cash flows at the dates and for the periods presented have been included. The results of operations for interim periods are not necessarily indicative of the results of operations for the full year. The Condensed Consolidated Financial Statements include the accounts of the Company and all of its wholly-owned and majority-owned subsidiaries. All significant intra-entity balances and transactions between and among the Company and its subsidiaries have been eliminated in consolidation.

Certain prior year amounts have been reclassified to conform to the current period presentation.

NOTE 2 – DESCRIPTION OF BUSINESS

The Company is comprised of the operations, assets and liabilities of the three Hudson regional businesses of Hudson Americas, Hudson Asia Pacific, and Hudson Europe (“Hudson regional businesses” or “Hudson”). The Company provides specialized professional-level recruitment and related talent solutions worldwide. The Company’s core service offerings include Permanent Recruitment, Contract Consulting, Legal eDiscovery, Recruitment Process Outsourcing (“RPO”) and Talent Management Solutions.

The Company operates in 20 countries with three reportable geographic business segments: Hudson Americas, Hudson Asia Pacific, and Hudson Europe. See Note 16 for further details regarding the reportable segments.

Corporate expenses are reported separately from the reportable segments and pertain to certain functions, such as executive management, corporate governance, human resources, accounting, tax, marketing, information technology and treasury. A portion of these expenses are attributed to the reportable segments for providing the above services to them and have been allocated to the segments as management service fees and are included in the segments’ non-operating other income (expense).

The Company’s core service offerings include those services described below.

Permanent Recruitment: Offered on both a retained and contingent basis, Hudson’s Permanent Recruitment services leverage its consultants, psychologists and other professionals in the development and delivery of its proprietary methods to identify, select and engage the best-fit talent for critical client roles.

NOTE 3 – RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In July 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2013-11, "Presentation of Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists, an amendment to FASB Accounting Standards Codification Topic 740, Income Taxes" ("FASB ASC Topic 740"). This update clarifies that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward if such settlement is required or expected in the event the uncertain tax position is disallowed. This ASU is effective prospectively for fiscal years, and interim periods within those years, beginning after December 15, 2013. Retrospective application is permitted. The Company does not expect that its adoption of this ASU will have a material impact on the Company's Consolidated Financial Statements.

In March 2013, the FASB issued ASU No. 2013-05, "Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity" ("ASU 2013-05"). ASU 2013-05 provides clarification regarding whether Subtopic 810-10, Consolidation - Overall, or Subtopic 830-30, Foreign Currency Matters - Translation of Financial Statements, applies to the release of cumulative translation adjustments into net income when a reporting entity either sells a part or all of its investment in a foreign entity or ceases to have a controlling financial interest in a subsidiary or group of assets that constitute a business within a foreign entity. ASU 2013-05 is effective prospectively for reporting periods beginning after December 15, 2013, with early adoption permitted. The Company does not expect that its adoption of ASU 2013-05 will have a material impact on the Company's Consolidated Financial Statements.

NOTE 5 – STOCK-BASED COMPENSATION

Incentive Compensation Plan

The Company maintains the Hudson Global, Inc. 2009 Incentive Stock and Awards Plan, as amended and restated on April 26, 2012 (the "ISAP"), pursuant to which it can issue equity-based compensation incentives to eligible participants. Defined Contribution Plan and Non-cash Employer-matching contributions

The Company maintains the Hudson Global, Inc. 401(k) Savings Plan (the "401(k) plan"). The 401(k) plan allows eligible employees to contribute up to 15% of their earnings to the 401(k) plan. The Company has the discretion to match employees' contributions up to 3% of the employees' earnings through a contribution of the Company's common stock to the 401(k) plan. Vesting of the Company's contribution occurs over a five-year period. For the three and nine months ended September 30, 2013 and 2012, the Company's current year expenses and contributions to satisfy the prior years' employer-matching liability for the 401(k) plan were as follows:

NOTE 6 – INCOME TAXES

Under Accounting Standards Codification ("ASC") 270, "Interim Reporting", and ASC 740-270, "Income Taxes – Intra Period Tax Allocation", the Company is required to adjust its effective tax rate for each quarter to be consistent with the estimated annual effective tax rate. Jurisdictions with a projected loss for the full year where no tax benefit can be recognized are excluded from the calculation of the estimated annual effective tax rate. Applying the provisions of ASC 270 and ASC 740-270 could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings versus annual projections.

Effective Tax Rate

The provision for income taxes for the nine months ended September 30, 2013 was \$6 on a pre-tax loss of \$19,093, compared to a benefit from income taxes of \$3,770 on pre-tax loss of \$8,762 for the same period in 2012. The Company's effective income tax rate was 0.0% and 43.0% for the nine months ended September 30, 2013 and 2012, respectively. The change in the effective tax rate was primarily attributable to the Company's inability to benefit from losses in certain foreign jurisdictions and a reduction of FIN 48 liabilities in the 2012 period in connection with a state tax settlement with the Commonwealth of Pennsylvania.

Uncertain Tax Positions

As of September 30, 2013 and December 31, 2012, the Company had \$3,956 and \$3,845, respectively, of unrecognized tax benefits, including interest and penalties, which if recognized in the future, would lower the Company's annual effective income tax rate. Accrued interest and penalties were \$761 and \$701 as of September 30, 2013 and December 31, 2012, respectively. Estimated interest and penalties are classified as part of the provision for income taxes in the Company's Condensed Consolidated Statements of Operations and Other Comprehensive Income (Loss) and totaled to a provision of \$73 and a benefit of \$881 for the nine months ended September 30, 2013 and 2012, respectively.

In many cases, the Company's unrecognized tax benefits are related to tax years that remain subject to examination by the relevant tax authorities. Tax years with net operating losses ("NOLs") remain open until such losses expire or until the statutes of limitations for those years when the NOLs are used expire. As of September 30, 2013, the Company's open tax years, which remain subject to examination by the relevant tax authorities, were principally as follows:

	Year
Earliest tax years which remain subject to examination by the relevant tax authorities:	
U.S. Federal	2010
Majority of other U.S. state and local jurisdictions	2009
United Kingdom	2011
Australia	2009
Majority of other foreign jurisdictions	2007

The Company believes that its tax reserves are adequate for all years that remain subject to examination or are currently under examination.

Based on information available as of September 30, 2013, it is reasonably possible that the total amount of unrecognized tax benefits could decrease in the range of \$400 to \$650 over the next 12 months as a result of projected resolutions of global tax examinations and controversies and potential expirations of the applicable statutes of limitations.

NOTE 7 – EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share ("EPS") is computed by dividing the Company's net income (loss) by the weighted average number of shares outstanding during the period. When the effects are not anti-dilutive, diluted earnings (loss) per share is computed by dividing the Company's net income (loss) by the weighted average number of shares outstanding and the impact of all dilutive potential common shares, primarily stock options "in-the-money" and unvested restricted stock. The dilutive impact of stock options, unvested restricted stock, and unvested restricted stock units is determined by applying the "treasury stock" method. Performance-based restricted stock awards are included in the computation of diluted earnings per share only to the extent that the underlying performance conditions: (i) are satisfied prior to the end of the reporting period; or (ii) would be satisfied if the end of the reporting period were the end of the related performance period and the result would be dilutive under the treasury stock method. Stock awards subject to vesting or exercisability based on the achievement of market conditions are included in the computation of diluted earnings per share only when the market conditions are met.

A reconciliation of the numerators and denominators of the basic and diluted earnings (loss) per share calculations for the three and nine months ended September 30, 2013 and 2012 were as follows:

For the periods in which net losses are presented, the diluted weighted average number of shares of common stock outstanding did not differ from the basic weighted average number of shares of common stock outstanding because (a) the effects of any potential common stock equivalents (see Note 5 for further details on outstanding stock options, unvested restricted stock units and unvested restricted stock) were anti-dilutive and therefore not included in the calculation of the denominator of dilutive earnings per share.

The weighted average number of shares outstanding used in the computation of diluted net income (loss) per share for the three and nine months ended September 30, 2013 and 2012 did not include the effect of the following potentially outstanding shares of common stock because the effect would have been anti-dilutive:

	Three Months Ended		Nine Months Ended

NOTE 11 – BUSINESS REORGANIZATION EXPENSES

In January 2012, the Company's Chief Executive Officer approved a \$1,000 plan of reorganization ("2012 Plan") to streamline the Company's support operations in each of the Hudson regional businesses to match the aggregated operating segments and to improve support services to the Company's regional and global professional business practices. The 2012 Plan primarily includes costs for actions to reduce support functions to match them to the revised operating structure. In April 2012, the Company's Board of Directors (the "Board") approved an addition to the 2012 Plan of up to \$10,000 for additional actions to accelerate the Company's plans for increased global alignment and redirection of resources from support to client facing activities. For the year ended December 31, 2012, the Company had incurred a total of \$5,453 under the 2012 Plan. In February 2013, the Board approved a further increase of up to \$4,000 for additional actions under the 2012 Plan. For the nine months ended September 30, 2013, restructuring charges associated with these initiatives for the 2012 Plan primarily included employee separation costs for the elimination of 59 positions and a lease termination payment. The headcount reductions identified in this action were completed in the nine months ended September 30, 2013, and the related payments are expected to be principally completed in the first half of 2014. The payments include, but are not limited to, salaries, social pension fund payments, health care and unemployment insurance costs to be paid to or on behalf of the affected employees. The Company's Board approved other reorganization plans in 2009, 2008, and 2006 ("Previous Plans") to streamline the Company's support operations and included actions to reduce support functions to match them to the scale of the business, to exit underutilized properties and to eliminate contracts for certain discontinued services. These actions resulted in costs for lease termination payments, employee termination benefits and contract cancellations. Business reorganization expenses for the three and nine months ended September 30, 2013 and 2012 by plan were as follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2013	2012	2013	2012

The following table contains amounts for Changes in Estimate, Additional Charges, and Payments related to prior restructuring plans that were incurred or recovered during the nine months ended September 30, 2013. The amounts for Changes in Estimate and Additional Charges are classified as business reorganization expenses in the Company's Condensed Consolidated Statements of Operations and Other Comprehensive Income (Loss). Amounts in the "Payments" column represent primarily the cash payments associated with the reorganization plans. Changes in the accrued business reorganization expenses for the nine months ended September 30, 2013 were as follows:

NOTE 12 – COMMITMENTS AND CONTINGENCIES

Consulting, Employment and Non-compete Agreements

The Company has entered into various consulting, employment and non-compete agreements with certain key management personnel and former owners of acquired businesses. Agreements with key members of management are generally one year in length, on an at-will basis, provide for compensation and severance payments under certain circumstances and are automatically renewed annually unless either party gives sufficient notice of termination. Agreements with certain consultants and former owners of acquired businesses are generally two to five years in length.

Litigation and Complaints

The Company is subject, from time to time, to various claims, lawsuits, contracts disputes and other complaints from, for example, clients, candidates, suppliers, landlords for both leased and subleased properties, former and current employees, and regulators or tax authorities arising in the ordinary course of business. The Company routinely monitors claims such as these, and records provisions for losses when the claim becomes probable and the amount due is estimable. Although the outcome of these claims cannot be determined, the Company believes that the final resolution of these matters will not have a material adverse effect on the Company's financial condition, results of operations or liquidity.

For matters that have reached the threshold of probable and estimable, the Company has established reserves for legal, regulatory and other contingent liabilities. The Company's reserves were not significant as of September 30, 2013 and December 31, 2012.

Asset Retirement Obligations

The Company has certain asset retirement obligations that are primarily the result of legal obligations for the removal of leasehold improvements and restoration of premises to their original condition upon termination of leases. The current portion of asset retirement obligations are included under the caption "Accrued expenses and other current liabilities" in the Condensed Consolidated Balance Sheets. The non-current portion of asset retirement obligations are included under the caption "Other non-current liabilities" in the Condensed Consolidated Balance Sheets. The Company's asset retirement obligations that are included in the Condensed Consolidated Balance Sheets as of September 30, 2013 and December 31, 2012 were as follows:

	September 30, 2013	December 31, 2012

("RBS"), and on February 22, 2012, June 26, 2012 and December 31, 2012, the Company and certain of its North American and U.K. subsidiaries entered into Amendment No. 1, No. 2 and No. 3, respectively, to the senior secured revolving credit facility with RBS (as amended, the "Revolver Agreement"). The Revolver Agreement provides the Company with the ability to borrow up to \$40,000, including the issuance of letters of credit. The Company may increase the maximum borrowing amount to \$50,000, subject to certain conditions, including lender acceptance. Extensions of credit are based on a percentage of the eligible accounts receivable from the Company's U.K. and North American operations, less required reserves. In connection with the Revolver Agreement, the Company capitalized

approximately \$1,457 of financing costs, which are being amortized over the term of the agreement. The maturity date of the Revolver Agreement is August 5, 2014. Borrowings under the Revolver Agreement are secured by substantially all of the assets of the Company and can be made with an interest rate based on a base rate plus an applicable margin or on the LIBOR rate for the applicable period plus an applicable margin. The applicable margin for each rate is based on the Company's Fixed Charge Coverage Ratio (as defined in the Revolver Agreement) and is determined as follows:

The Singapore overdraft facility expires annually each August, but can be renewed for one-year periods at that time. In People's Republic of China ("China"), the Company's subsidiary can borrow up to \$1,000 for working capital purposes. Interest on borrowings under this overdraft facility is based on the China's six-month rate plus 200 basis points, and it was 7.6% on September 30, 2013. This overdraft facility expires annually each September, but can be renewed for one-year periods at that time. There were no outstanding borrowings under the Belgium, the Netherlands, Singapore and China lending agreements as of September 30, 2013.

The average aggregate monthly outstanding borrowings under the Revolver Agreement, Facility Agreement and the various credit agreements in Belgium, the Netherlands, Singapore and China was \$354 for the nine months ended September 30, 2013. The weighted average interest rate on all outstanding borrowings as of September 30, 2013 was 2.63%.

The Company continues to use the aforementioned credit to support its ongoing global working capital requirements, capital expenditures and other corporate purposes and to support letters of credit. Letters of credit and bank guarantees are used primarily to support office leases.

Executive Overview

The Company has expertise in recruiting mid-level professional talent across all management disciplines in a wide range of industries. We match clients and candidates to address client needs on a part time, full time, and interim basis. Part of that expertise is derived from research on hiring trends and clients' current successes and challenges with their staff. This research has helped enhance our understanding about the number of new hires that do not meet our clients' long-term goals, the reasons why, and the resulting costs to our clients. With operations in 20 countries, and relationships with specialized professionals around the globe, the Company brings a unique ability to match talent with opportunities by assessing, recruiting, developing and engaging the best and brightest people for the Company's clients. The Company combines broad geographic presence, world-class talent solutions and a tailored, consultative approach to help businesses and professionals achieve maximum performance. Hudson's focus is to continually upgrade its service offerings, delivery capability and assessment tools to make candidates more successful in achieving its clients' business requirements.

Over the past two years, the Company has continued to shift and refine its focus from a traditional staffing vendor to providing solutions as a trusted business advisor and partner to both clients and candidates. The Company's proprietary frameworks, assessment tools and leadership development programs, coupled with our broad geographic footprint, has allowed us to design and implement regional and global recruitment solutions that greatly enhance the quality of hiring.

The Company's strategic initiatives for the near term include:

- Leveraging the value of our global business as exemplified by the launch of the global practices in Legal eDiscovery and Recruitment Process Outsourcing ("RPO").
- Attracting, developing and retaining the right people to increase productivity and profitability.
- Focusing on selected clients and services to provide higher value recruitment solutions to their businesses.
- Creating a compelling digital presence to help attract both highly-skilled candidates and new clients to grow our business.

Index

Initiated in 2012 and extended into 2013, the Company took steps to accelerate its strategic initiatives with the announcement and implementation of the 2012 plan of reorganization ("2012 Plan"). The 2012 Plan is focused on:

- Redirecting resources to high-potential strategic businesses, such as RPO and Legal eDiscovery, and growth markets of the world.

- Optimizing operations in under-performing sectors and markets to deliver improved performance, re-engineering of the delivery model, and consolidating operations globally.

- Streamlining back office support areas and business processes, establishing a shared services operation and global centers of excellence, to gain efficiencies of operation.

Current Market Conditions

Economic conditions in most of the world's major markets remain mixed. Conditions in the U.S. continue to improve, but most markets in the Euro-zone remain weak. Lack of access to credit for small and medium sized businesses in Europe has limited investment and unemployment remains high. Slower growth in China has adversely affected the wider region, most notably in Australia. The aggregate effect of these conditions has reduced demand throughout the region and lowered demand for corporate hiring.

These uncertain conditions have lowered business confidence and led to more cautious hiring behavior for employers in many markets. This contributed to the Company's third quarter 2013 revenue decline of 12.9% compared to the same period in 2012. If the current conditions persist, we may continue to experience diminished operating results and see a negative impact on our financial condition. We closely monitor the conditions in our markets and respond, as appropriate, to the environment in which we operate. At this time, we are unable to accurately predict the outcome of these events or changes in general economic conditions and their effect on the demand for our services.

Constant Currency

The Company operates on a global basis, with the majority of its gross margin generated outside of the U.S. Accordingly, fluctuations in foreign currency exchange rates can affect our results of operations. For the discussion of reportable segment results of operations, the Company uses constant currency information. Constant currency compares financial results between periods as if exchange rates had remained constant period-over-period. The Company defines the term “constant currency” to mean that financial data for a previously reported period are translated into U.S. dollars using the same foreign currency exchange rates that were used to translate financial data for the current period. The Company’s management reviews and analyzes business results in constant currency and believes these results better represent the Company’s underlying business trends. Changes in foreign currency exchange rates generally impact only reported earnings.

Changes in revenue, gross margin, SG&A and Non-Op, business reorganization expenses, operating income (loss), net income (loss) and EBITDA (loss) include the effect of changes in foreign currency exchange rates. The tables below summarize the impact of foreign currency exchange adjustments on the Company’s operating results for the three and nine months ended September 30, 2013 and 2012.

SG&A and Non-Op is a measure that management uses to evaluate the segments' expenses, which include the following captions on the Condensed Consolidated Statements of Operations and Other Comprehensive Income (a) (Loss): Selling, general and administrative expenses; and other income (expense), net. Corporate management service allocations are included in the segments' other income (expense).

(b) See EBITDA reconciliation in the following section.

Use of EBITDA (Non-GAAP measure)

Management believes EBITDA is a meaningful indicator of the Company's performance that provides useful information to investors regarding the Company's financial condition and results of operations. Management also considers EBITDA to be the best indicator of operating performance and most comparable measure across the regions in which we operate. Management also uses this measure to evaluate capital needs and working capital requirements. EBITDA should not be considered in isolation or as a substitute for operating income, or net income prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") or as a measure of the Company's profitability. EBITDA is derived from net income (loss) adjusted for the provision for (benefit from) income taxes, interest expense (income), and depreciation and amortization.

The reconciliation of EBITDA to the most directly comparable GAAP financial measure is provided in the table below:

Temporary contracting gross margin and gross margin as a percentage of revenue are shown to provide additional information regarding the Company's ability to manage its cost structure and to provide further comparability relative to the Company's peers. Temporary contracting gross margin is derived by deducting the direct costs of temporary contracting from temporary contracting revenue. The Company's calculation of gross margin may differ from that of other companies. See Note 4 to the Condensed Consolidated Financial Statements for direct costs and gross margin information.

For the nine months ended September 30, 2013, the vast majority of the decline in contracting revenue was in Legal. The decline in Legal for both the three month and nine month periods resulted principally from continued economic pressure on our corporate clients to reduce spending in legal matters. In addition, lower than normal M&A activities and government regulatory requests has reduced case volume. The decline in IT revenue resulted from the Company's exit from unprofitable markets and budget reductions at certain larger clients. For the three months ended September 30, 2013, permanent recruitment revenue was flat as compared to the same period in 2012.

Index

For the three months ended September 30, 2013, contracting gross margin as a percentage of revenue was 20.5%, as compared to 19.7% for the same period in 2012. The improvement resulted principally from more efficient utilization of Legal professionals and strategic partner income. The decrease in contracting gross margin as a percentage of revenue resulted from lower volumes relative to fixed direct costs.

For the three months ended September 30, 2013, total gross margin as a percentage of revenue was 26.0%, as compared to 24.5% for the same period in 2012. The improvement was principally due to higher proportional permanent recruitment revenue. For the nine months ended September 30, 2013, total gross margin as a percentage of revenue decreased to 24.2%, as compared to 26.0% for the same period in 2012. Actions taken to streamline business processes, lower gross margin-related compensation and reduced corporate management fees resulted in lower SG&A and Non-Op for the three and nine months ended September 30, 2013 as compared to the same period in 2012. The lower SG&A and Non-Op expenses offset the entire decline in gross margin for both the three and nine months ended September 30, 2013.

(a) Information was not provided because the Company did not consider the change in percentage a meaningful measure for the periods in comparison.

For the three months ended September 30, 2013, EBITDA loss was \$0.6 million, or 0.9% of revenue, as compared to \$2.3 million, or 3.1% of revenue, for the same period in 2012. For the nine months ended September 30, 2013, EBITDA loss was \$6.2 million, or 2.9% of revenue, as compared to \$5.9 million, or 2.5% of revenue, for the same period in 2012. The improvement in EBITDA for the three months ended September 30, 2013, as compared to the same period in 2012 reflected the benefits from the Company's effort to streamline business processes and reduce costs. For nine months ended September 30, 2013, the increase in EBITDA loss were principally due to the declines in gross margin.

For the three months ended September 30, 2013, operating loss was \$0.1 million, as compared to \$0.9 million for the same period in 2012. For the nine months ended September 30, 2013, operating loss was \$3.4 million, as compared to \$1.7 million for the same period in 2012. The differences between operating loss and EBITDA loss for the three and nine months ended September 30, 2013 were principally due to corporate management fees and depreciation.

The following are discussed in reported currency

Corporate Expenses, Net of Corporate Management Fee Allocations

Corporate expenses were \$2.9 million for the three months ended September 30, 2013, as compared to \$0.2 million for the same period in 2012, an increase of \$2.7 million. For the nine months ended September 30, 2013, corporate expenses were \$6.1 million, as compared to \$1.5 million for the same period in 2012, an increase of \$4.6 million. The increases for the three and nine months ended September 30, 2013 were due to lower corporate management fee allocations. For the nine months ended September 30, 2013, gross corporate expenses before allocation decreased by \$1.2 million, or 8.7%, as compared to the same period in 2012.

Provision for (Benefit from) Income Taxes

The provision from income taxes for the nine months ended September 30, 2013 was less than \$0.1 million on \$19.1 million of pre-tax loss, as compared to an income tax benefit of \$3.8 million on \$8.8 million of pre-tax loss for the same period in 2012. The effective tax rate for the nine months ended September 30, 2013 was essentially 0.0%, as compared to 43.0% for the same period in 2012.

The change in the Company's effective tax rate for the nine months ended September 30, 2013 as compared to the same period in 2012 was primarily attributable to the Company's inability to benefit from losses in certain foreign jurisdictions in the current year period. The effective tax rate differed from the U.S. federal statutory rate of 35% primarily due to the Company's inability to recognize tax benefits on net losses in certain foreign jurisdictions, state taxes, withholding taxes, non-deductible expenses, foreign tax rates that vary from that in the U.S. and a reduction of FIN 48 liabilities in the 2012 period in connection with a state tax settlement with the Commonwealth of Pennsylvania.

Net Income (Loss)

Net loss was \$5.0 million for the three months ended September 30, 2013, as compared to \$2.2 million for the same period in 2012, an increase in net loss of \$2.9 million. Liquidity and Capital Resources

As of September 30, 2013, cash and cash equivalents totaled \$33.2 million, as compared to \$38.7 million as of December 31, 2012. The following table summarizes the Company's cash flow activities for the nine months ended September 30, 2013 and 2012:

(In millions)	For the Nine Months Ended September 30,	
	2013	2012

Cash Flows from Operating Activities

For the nine months ended September 30, 2013, net cash used in operating activities was \$1.6 million, as compared to \$8.9 million of net cash provided by operating activities for the same period in 2012, a decrease in net cash provided by operating activities of \$10.5 million. The decrease in net cash provided by operating activities resulted principally from lower net income, offset partially by a slight improvement in working capital. For the three months ended September 30, 2013, cash flow from operating activities increased by \$5.6 million.

Cash Flows from Investing Activities

For the nine months ended September 30, 2013, net cash used in investing activities was \$2.2 million, as compared to net cash used in investing activities of \$7.8 million for the same period in 2012, a decrease in net cash used in investing activities of \$5.6 million. The decrease in net cash used in investing activities was principally related to the non-recurrence of landlord funded leasehold improvements in connection with a newly leased property in 2012.

Cash Flows from Financing Activities

For the nine months ended September 30, 2013, net cash used in financing activities was \$0.8 million, compared to net cash used in financing activities of \$4.1 million for the same period in 2012, a decrease in net cash used in financing activities of \$3.3 million. The decrease in net cash used in financing activities was primarily attributable to lower borrowings by our Australia operations.

Credit Agreements

Credit Agreement with RBS Citizens Business Capital

On August 5, 2010, the Company and certain of its North American and U.K. subsidiaries ("Loan Parties") entered into a senior secured revolving credit facility with RBS Citizens Business Capital, a division of RBS Asset Finance, Inc. ("RBS"), and on February 22, 2012, June 26, 2012 and December 31, 2012, the Company and certain of its North American and U.K. subsidiaries entered into Amendment No. 1, No. 2 and No. 3, respectively, to the senior secured revolving credit facility with RBS (as amended, the "Revolver Agreement"). The Revolver Agreement provides the Company with the ability to borrow up to \$40.0 million, including the issuance of letters of credit. The Company may increase the maximum borrowing amount to \$50.0 million, subject to certain conditions, including lender acceptance. Extensions of credit are based on a percentage of the eligible accounts receivable from the Company's U.K. and North American operations, less required reserves. In connection with the Revolver Agreement, the Company incurred and capitalized approximately \$1.5 million of deferred financing costs, which are being amortized over the term of the agreement. The maturity date of the Revolver Agreement is August 5, 2014. Borrowings under the Revolver Agreement are secured by substantially all of the assets of the Company and can be made with an interest rate based on a base rate plus an applicable margin or on the LIBOR rate for the applicable period plus an applicable margin. The applicable margin for each rate is based on the Company's Fixed Charge Coverage Ratio (as defined in the Revolver Agreement) and is determined as follows:

Index

Level	Fixed Charge Coverage Ratio	Base Rate Revolving Loans	LIBOR Revolving Loans or Letter of Credit Obligations
I	Greater than or equal to 1.25:1.0	1.25	% 2.25 %
II	Less than 1.25:1.0 but greater than or equal to 1.10:1.0	1.50	% 2.50 %
III	Less than 1.10:1.0	1.75	% 2.75 %

The details of the Revolver Agreement as of September 30, 2013 were as follows:

(In millions)	September 30, 2013
Borrowing base	\$28.4
Less: adjustments to the borrowing base	
Minimum availability	(10.0)
Outstanding letters of credits	(1.6)
Adjusted borrowing base	16.8
Less: outstanding borrowing	—
Additional borrowing availability	\$16.8
Interest rates on outstanding borrowing	5.00 %

The Revolver Agreement contains various restrictions and covenants including:

- a requirement to maintain a minimum excess availability of \$10.0 million until such time that, for two consecutive (1) fiscal quarters, the Company's Fixed Charge Coverage Ratio is at least 1.2x (such occurrence, a "Trigger Event"), at which time the Company's required minimum excess availability is reduced \$5.0 million;
- (2) upon the occurrence of a Trigger Event, maintain a minimum required Fixed Charge Coverage Ratio of 1.1x;
- (3) Maintain a minimum EBITDA (as defined in the Revolver Agreement) for the Company's North American and U.K. operations of at least \$1.0 million;
- (4) a limit on the payment of dividends of not more than \$5.0 million per year and subject to certain conditions;
- (5) restrictions on the ability of the Company to make additional borrowings, acquire, merge or otherwise fundamentally change the ownership of the Company or repurchase the Company's stock;
- (6) a limit on investments, and a limit on acquisitions of not more than \$25.0 million in cash and \$25.0 million in non-cash consideration per year, subject to certain conditions set forth in the Revolver Agreement;
- (7) a limit on dispositions of assets of not more than \$4.0 million per year;
and
- a limit on the aggregate cumulative amount of cash outflows from Loan Parties to affiliates of the Company that are not Loan Parties not to exceed the aggregate cumulative amount of cash inflows from (i) affiliates that are not Loan Parties to Loan Parties, (ii) equity offerings by the Company and (iii) the proceeds of divestiture or asset sales, in the case of each of the following periods, by more than \$5.0 million for any quarterly compliance testing period beginning after March 1, 2013 or in the aggregate through December 31, 2013 or for any twelve-month period ending as of the end of each fiscal quarter commencing with the twelve-month period ending December 31, 2013.

The Company was in compliance with all covenants under the Revolver Agreement as of September 30, 2013.

Credit Agreement with Westpac Banking Corporation

On November 29, 2011, certain Australian and New Zealand subsidiaries of the Company entered into a Facility Agreement, dated November 29, 2011 (the “Facility Agreement”), with Westpac Banking Corporation and Westpac New Zealand Limited (collectively, “Westpac”). On September 30, 2013, we entered into a waiver letter (the “Waiver”) to waive a financial covenant under the Facility Agreement.

The Facility Agreement provides three tranches: (a) an invoice discounting facility of up to \$18.6 million (AUD20 million) (“Tranche A”) for an Australian subsidiary of the Company, the availability under which facility is based on an agreed percentage of eligible accounts receivable; (b) an overdraft facility of up to \$2.9 million (NZD3.5 million) (“Tranche B”) for a New Zealand subsidiary of the Company; and (c) a financial guarantee facility of up to \$4.7 million (AUD5 million) (“Tranche C”) for the Australian subsidiary.

The Facility Agreement does not have a stated maturity date and can be terminated by Westpac upon 90 days written notice. Borrowings under Tranche A may be made with an interest rate based on the Invoice Finance 30-day Bank Bill Rate (as defined in the Facility Agreement) plus a margin of 0.75%. Borrowings under Tranche B may be made with an interest rate based on the Commercial Lending Rate (as defined in the Facility Agreement) plus a margin of 0.83%. Each of Tranche A and Tranche B bears a fee, payable monthly, equal to 0.65% of the size of Westpac’s commitment under such tranche. Borrowings under Tranche C may be made incurring a fee equal to 1.10% of the face value of the financial guarantee requested. Amounts owing under the Facility Agreement are secured by substantially all of the assets of the Australian subsidiary, its Australian parent company and the New Zealand subsidiary (collectively, the “Obligors”) and certain of their subsidiaries.

The details of the Facility Agreement as of September 30, 2013 were as follows:

Tranche C:

Other Credit Agreements

The Company also has lending arrangements with local banks through its subsidiaries in the Netherlands, Belgium, Singapore and Mainland China. As of September 30, 2013, the Netherlands subsidiary could borrow up to \$2.2 million (€1.6 million) based on an agreed percentage of accounts receivable related to its operations. The Belgium subsidiary has a \$1.4 million (€1 million) overdraft facility. Borrowings under the Belgium and the Netherlands lending arrangements may be made with an interest rate based on the one-month EURIBOR plus a margin, and were 2.63% as of September 30, 2013. The lending arrangement in the Netherlands expires annually each June, but can be renewed for one-year periods at that time. The lending arrangement in Belgium has no expiration date and can be terminated with a 15-day notice period. In Singapore, the Company's subsidiary can borrow up to \$0.8 million (SGD1 million) for working capital purposes. Interest on borrowings under this overdraft facility is based on the Singapore Prime Rate plus 1.75%, and it was 6.00% on September 30, 2013. The Singapore overdraft facility expires annually each August, but can be renewed for one-year periods at that time. In People's Republic of China ("China"), the Company's subsidiary can borrow up to \$1 million for working capital purposes. Interest on borrowings under this overdraft facility is based on the China's six-month rate plus 200 basis points, and it was 7.60% on September 30, 2013. This overdraft facility expires annually each September, but can be renewed for one-year periods at that time. There were no outstanding borrowings under the Belgium, the Netherlands, Singapore and China lending agreements as of September 30, 2013.

The average aggregate monthly outstanding borrowings under the Revolver Agreement, Facility Agreement and the various credit agreements in Belgium, the Netherlands, Singapore and China was \$0.4 million for the nine months ended September 30, 2013. The weighted average interest rate on all outstanding borrowings as of September 30, 2013 was 2.63%.

The Company continues to use the aforementioned credit to support its ongoing global working capital requirements, capital expenditures and other corporate purposes and to support letters of credit. Letters of credit and bank guarantees are used primarily to support office leases.

Liquidity Outlook

As of September 30, 2013, the Company had cash and cash equivalents on hand of \$33.2 million supplemented by additional borrowing availability of \$16.8 million under the Revolver Agreement, and \$22.0 million of additional borrowing availability under the Facility Agreement and other lending arrangements in Belgium, the Netherlands, Singapore and China. The Company believes that it has sufficient liquidity to satisfy its needs through at least the next 12 months, based on the Company's total liquidity as of September 30, 2013. The Company's near-term cash requirements during 2013 are primarily related to funding operations, restructuring actions and capital expenditures. For the full year 2013, the Company expects to make capital expenditures of approximately \$3.0 million to \$4.0 million, and payments in connection with the business reorganization plans of \$5.0 million to \$6.0 million. The Company is closely managing its capital spending and will perform capital additions where economically prudent, while continuing to invest strategically for future growth.

As of September 30, 2013, \$4.8 million of the Company's cash and cash equivalents noted above were held in the United States (U.S.) and the remainder were held internationally, primarily in the United Kingdom (\$10.7 million), Australia (\$7.8 million), and Mainland China (\$3.4 million). The majority of the Company's offshore cash is available to it as a source of funds, net of any tax obligations or assessments. Unrepatriated cumulative earnings of certain foreign subsidiaries are considered to be invested indefinitely outside of the United States, except where the Company is able to repatriate these earnings to the United States without a material incremental tax provision. In managing its day-to-day liquidity and its capital structure, the Company does not rely on the unrepatriated earnings as a source of funds. The Company has not provided for federal income or foreign withholding taxes on these undistributed foreign earnings. The Company has not done so because a distribution of these foreign earnings with material incremental tax provision is unlikely to occur in the foreseeable future. Accordingly, it is not practicable to determine the amount of tax associated with such undistributed earnings.

For the nine months ended September 30, 2013, the ongoing weakness in Europe and the slowing of other major economies continued to negatively impact the markets in which the Company operates. The Company believes that future external market conditions remain uncertain, particularly the access to credit, rates of near-term projected

economic growth and levels of unemployment in the markets in which it operates. Due to these uncertain external market conditions, the Company cannot provide assurance that its actual cash requirements will not be greater in the future than those currently expected, especially if market conditions deteriorate substantially. If sources of liquidity are not available or if the Company cannot generate sufficient cash flow from operations, the Company could be required to obtain additional sources of funds through additional operating improvements, capital market transactions, asset sales or financing from third parties, or a combination of those sources. The Company cannot provide assurance that these additional sources of funds will be available or, if available, would have reasonable terms.

Contingencies

From time to time in the ordinary course of business, the Company is subject to compliance audits by federal, state, local and foreign government regulatory, tax and other authorities relating to a variety of regulations, including wage and hour laws, unemployment taxes, workers' compensation, immigration, and income, value-added and sales taxes. The Company is also subject to, from time to time in the ordinary course of business, various claims, lawsuits and other complaints from, for example, clients, candidates, suppliers, landlords for both leased and subleased properties, former and current employees, and regulators or tax authorities. Periodic events and management actions such as business reorganization initiatives can change the number and type of audits, claims, lawsuits, contract disputes or complaints asserted against the Company. Events can also change the likelihood of assertion and the behavior of third parties to reach resolution regarding such matters.

The economic circumstances in the recent past have given rise to many news reports and bulletins from clients, tax authorities and other parties about changes in their procedures for audits, payment, plans to challenge existing contracts and other such matters aimed at being more aggressive in the resolution of such matters in their own favor. The Company believes that it has appropriate procedures in place for identifying and communicating any matters of this type, whether asserted or likely to be asserted, and it evaluates its liabilities in light of the prevailing circumstances. Changes in the behavior of third parties could cause the Company to change its view of the likelihood of a claim and what might constitute a trend. In the last twelve months, the Company has seen an increase in employee disputes arising from our business reorganization initiatives. Employment laws vary in the markets in which we operate, and in some cases, employees and former employees have extended periods during which they may bring claims against the Company. The Company is unable to determine if the recent rise in claims represents a trend. For matters that have reached the threshold of probable and estimable, the Company has established reserves for legal, regulatory and other contingent liabilities. The Company's reserves were not significant as of September 30, 2013. Although the outcome of these matters cannot be determined, the Company believes that none of the currently pending matters, individually or in the aggregate, will have a material adverse effect on the Company's financial condition, results of operations or liquidity.

Recent Accounting Pronouncements

In July 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2013-11, "Presentation of Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists, an amendment to FASB Accounting Standards Codification Topic 740, Income Taxes" ("FASB ASC Topic 740"). This update clarifies that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward if such settlement is required or expected in the event the uncertain tax position is disallowed. This ASU is effective prospectively for fiscal years, and interim periods within those years, beginning after December 15, 2013. Retrospective application is permitted. The Company does not expect that its adoption of this ASU will have a material impact on the Company's Consolidated Financial Statements.

In March 2013, the FASB issued ASU No. 2013-05, "Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity" ("ASU 2013-05"). ASU 2013-05 provides clarification regarding whether Subtopic 810-10, Consolidation - Overall, or Subtopic 830-30, Foreign Currency Matters - Translation of Financial Statements, applies to the release of cumulative translation adjustments into net income when a reporting entity either sells a part or all of its investment in a foreign entity or ceases to have a controlling financial interest in a subsidiary or group of assets that constitute a business within a foreign entity. ASU 2013-05 is effective prospectively for reporting periods beginning after December 15, 2013, with early adoption permitted. The Company does not expect that its adoption of ASU 2013-05 will have a material impact on the Company's Consolidated Financial Statements.

FORWARD-LOOKING STATEMENTS

This Form 10-Q contains statements that the Company believes to be “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact included in this Form 10-Q, including statements regarding the Company’s future financial condition, results of operations, business operations and business prospects, are forward-looking statements. Words such as “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “predict,” “believe” and similar words, expressions and variations of these words and expressions are intended to identify forward-looking statements. All forward-looking statements are subject to important factors, risks, uncertainties and assumptions, including industry and economic conditions, that could cause actual results to differ materially from those described in the forward-looking statements. Such factors, risks, uncertainties and assumptions include, but are not limited to, (1) global economic fluctuations, (2) risks related to fluctuations in the Company’s operating results from quarter to quarter, (3) the ability of clients to terminate their relationship with the Company at any time, (4) competition in the Company’s markets, (5) risks associated with the Company’s investment strategy, (6) risks related to international operations, including foreign currency fluctuations, (7) the Company’s dependence on key management personnel, (8) the Company’s ability to attract and retain highly-skilled professionals, (9) the Company’s ability to collect its accounts receivable, (10) the negative cash flows and operating losses that the Company has experienced in recent periods and may experience from time to time in the future, (11) restrictions on the Company’s operating flexibility due to the terms of its credit facilities, (12) the Company’s ability to achieve anticipated cost savings through the Company’s cost reduction initiatives, (13) the Company’s heavy reliance on information systems and the impact of potentially losing or failing to develop technology, (14) risks related to providing uninterrupted service to clients, (15) the Company’s exposure to employment-related claims from clients, employers and regulatory authorities, and current and former employees in connection with the Company’s business reorganization initiatives and limits on related insurance coverage, (16) the Company’s ability to utilize net operating loss carry-forwards, (17) volatility of the Company’s stock price, (18) the impact of government regulations, and (19) restrictions imposed by blocking arrangements. These forward-looking statements speak only as of the date of this Form 10-Q. The Company assumes no obligation, and expressly disclaims any obligation, to update any forward-looking statements, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company conducts operations in various countries and faces both translation and transaction risks related to foreign currency exchange. For the nine months ended September 30, 2013, the Company earned approximately 85% of its gross margin outside the U.S., and it collected payments in local currency and paid related operating expenses in such corresponding local currency. Revenues and expenses in foreign currencies translate into higher or lower revenues and expenses in U.S. dollars as the U.S. dollar weakens or strengthens against other currencies. Therefore, changes in exchange rates may affect our consolidated revenues and expenses (as expressed in U.S. dollars) from foreign operations.

Amounts invested in our foreign operations are translated into U.S. dollars at the exchange rates in effect at the balance sheet date. The resulting translation adjustments are recorded as a component of accumulated other comprehensive income in the stockholders’ equity section of the Condensed Consolidated Balance Sheets. The translation of the foreign currency into U.S. dollars is reflected as a component of stockholders’ equity and does not impact our reported net income.

As more fully described in Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” the Company has credit agreements with RBS Citizens Business Capital, Westpac Banking Corporation and other credit agreements with lenders in Belgium, the Netherlands, Singapore and People’s Republic of China. The Company does not hedge the interest risk on borrowings under the credit agreements, and accordingly, it is exposed to interest rate risk on the borrowings under such credit agreements. Based on our annual average borrowings in the current year, a 1% increase or decrease in interest rates on our borrowings would not have a material impact on our earnings.
