**Item 1.01 Entry Into a Material Definitive Agreement.**

On September 17, 2014, Soligenix, Inc. (the “Company”) entered into a contract (the “Contract”) with the National Institutes of Health (the “NIH”), which Contract will be funded by the National Institute of Allergy and Infectious Diseases. The Contract is for a preclinical and clinical program designed to advance the development of the Company’s thermostabilization technology, ThermoVax™, combined with the Company’s ricin toxin vaccine, Rivax™, as a medical countermeasure to prevent the effects of ricin exposure.

The Contract consists of a guaranteed base period of approximately two years providing financial support of approximately \$5.8 million and seven optional segments that can be initiated solely at the discretion of the NIH. If all seven contract options are exercised, the term of the Contract would be extended for a total term of six years. The total funding amount to be paid by the NIH under the Contract would be up to \$24.7 million if the seven options are exercised by the NIH. The total award will support the preclinical, manufacturing and clinical development activities necessary to advance heat stable RiVax™ for approval by the U.S. Food and Drug Administration.

The foregoing is only a brief description of the material terms of the Contract and does not purport to be a complete description of the rights and obligations of the parties thereunder. The foregoing description is qualified in its entirety by reference to the Contract, which is filed as Exhibit 10.1 to this Current Report on Form 8-K.
