1Q05 Earnings Results

Banco Bradesco, Brazil's largest private Bank, posted a Net Income of R\$ 1,205 billion in 1Q05 (equivalent to R\$ 2.45 per stock), compared to a Net Income of R\$ 609 million in 1Q04, i.e., up by 97.9%. The Net Income posted for this period was 13.9% superior compared to the R\$ 1,058 billion of the fourth quarter of 2004. This result represents a 34,7% annualized Return on the average Stockholders' Equity for the quarter (31.7% in 4Q04).

In the first quarter of 2005, 64% of Bradesco's Net Income was originated from financial activities and 35% from Insurance, Private Pension Plans and Savings Bonds activities. The accounted gain related to the sale of the stake in Belgo-Mineira's capital stock, as disclosed in *R/ Express* on February 10, 2005, was fully absorbed by extraordinary provisions constituted in the quarter; therefore, not impacting the result.

Financial margins reached R\$ 3.999 billion in 1Q05, increasing by 20.1% in the last 12 months, and by 13.7% when compared to 4Q04. Fee Income grew by R\$ 342 million between March 2004 and 2005, totaling R\$ 1.661 billion. In the comparison between 4Q04 and 1Q05, fees evolved by R\$ 33 million (adjusted by the additional month of fees from Visanet, which had impacted 4Q04 by R\$ 47 million).

Bradesco's Efficiency Ratio for the accumulated 12 months keeps presenting a consistent improvement, reaching 59.0% in 1Q04, 55.5% in 4Q04 and, finally, 52.7% in 1Q05.

In line with the policy of adding shareholders' value, Bradesco paid, or accrued, R\$ 366.2 million in Interest on Own Capital in 1Q05 (R\$ 326.1 million in 1Q04 and R\$ 340.5 million in 4Q04). On March 1st, Bradesco increased by 21.12% the monthly amount of Interest on Own Capital paid as from April/2005, as following: R\$0.04706 to R\$0.057 (net of Withholding Income Tax - R\$ 0.04845), for the common stocks and R\$0.051766 to R\$0.0627 (net of Withholding Income Tax - R\$ 0.053295), for the preferred stocks.

Bradesco's Market Capitalization surpassed the R\$ 35.5 billion mark, increasing by 75% between March 2004 and March 2005, against the 20.2% evolution of the Ibovespa in the same period, and by 24.3% in the quarter, vis-à-vis the 1.6% of the Ibovespa.

Investor Relations Area**Jean Philippe Leroy 55 11 3684.9229****Luiz Osório Leão Filho 55 11 3684.9302****Andressa Vallilo Ramalho 55 11 3684.6256**www.bradesco.com.br/ir**Assets**

Total Assets surpassed R\$ 191 billion, an 18.8% annual growth, and a 3.4% quarterly growth.

In the q-o-q analysis (1Q04/1Q05), the Securities Portfolio grew by R\$ 11.7 billion, and the Loan Portfolio increased by R\$ 11.1 billion, mainly in the Individuals, Micro, Small and Medium-Sized Companies segments.

When compared to 4Q04, the Securities Portfolio increased by R\$ 2.4 billion, and the Credit Portfolio was up by R\$ 3.2 billion.

Edgar Filing: BANK BRADESCO - Form 6-K

Loan Operations

The Loan Portfolio, including sureties and guarantees, reached the R\$ 75 billion mark, up by 22.3% in relation to 1Q04, and by 5.9%, when compared to the previous quarter.

The Loan Portfolio, not including sureties and guarantees, reached R\$ 66 billion, a 20.2% y-o-y jump, and a 5.1% q-o-q raise.

Over the last twelve months the portfolio increased by R\$ 11.1 billion, and by R\$ 3.2 billion in the quarter, mainly motivated by the higher loan demand by Individuals, subsequent to (i) the Brazilian economy growth, (ii) the rise of real wages, as well as (iii) from the unemployment decrease. In 1Q05, higher demands in the following lines were noticed: Personal Credit, Vehicles finances (CDC) and BNDES Onlendings (MODERFROTAS line, for the acquisition of tractors and agricultural equipment in general).

In the corporate segment, the annual portfolio growth was concentrated in Working Capital and Overdraft transactions, in line with the expected sales growth related to the economic recovery. In the q-o-q comparison, the largest increases occurred in Working Capital and Exports Financing operations. Small and medium-sized (SME) companies have gradually increased their loan demand due to the seasonal effect observed in 1Q05. In the same period, large corporates presented a slight expansion in the demand for loan operations, despite the seasonal effect and the higher volume of capital markets transactions.

Portfolio by type of customer:

In March 2004, AA-C rated operations accounted for 92.5% of the Loan Portfolio, compared to 92.3% in December 2004 (90.4% in 1Q04), evidencing a continuous improvement in the asset quality.

Total provisions reached R\$ 4.3 billion, equivalent to 6.5% of the Portfolio, of which R\$ 3.4 billion were required provisions and R\$ 938 million were additional provisions. In the previous quarter total provisions reached R\$ 4.1 billion, 6.6% of the Portfolio, of which R\$ 3.2 billion were required provisions and R\$ 925 million were additional provisions.

The R\$ 146 million increase in the volume of allowance for loan loss expenses in 1Q05 was motivated by the effect of downgrading the rating of an utility company in the amount of R\$ 166 million.

The coverage ratio, which compares total provisions and the D-H rated operations, stood at 162.2% (169.8% in December 2004, and 153.9% by the end of 1Q04).

Deposits and Liabilities

Total Deposits reached R\$ 71.4 billion, increasing by 20.6% over the last twelve months, and by 4% in 1Q05, demonstrating the strength of Bradesco to add deposits.

The Loan-to-Deposits ratio stood at 92.4% .

Over the last 12 months, Demand Deposits raised by 18.4% and Savings Deposits by 11.5% . In the q-o-q analysis, Demand Deposits dropped by R\$ 374 million and Savings Deposits by R\$ 335 million, due to seasonal effects, and Time Deposits increased R\$ 3.3 billion, reaching R\$ 31.8 billion, because of increasing demand for loans.

Technical Reserves for Insurance, Private Pension Plans and Savings Bonds amounted R\$ 35.3 billion, and increased by 26.4% over the last twelve months and by 4.9% in the quarter, reflecting the Grupo Bradesco de Seguros (Insurance Group) leadership in issuance of premiums, as well as its conservative provisioning criteria.

Capital

By the end of 1Q05, Bradesco's Stockholders' Equity reached R\$ 16.5 billion and the Basel Capital Adequacy Ratio (BIS) reached 15%, considering that the minimum requirement in Brazil is 11%, allowing a potential R\$ 53.6 billion Loan Portfolio expansion.

Asset Management

Total assets under management reached R\$ 104.7 billion, R\$ 2.9 billion of which are third-party funds related to specific services of management, custody and controllership, as demonstrated below:

According to the Ranking Invest Tracker-Estadão Best Funds, Bradesco was elected for the third year in a row as the asset manager with the highest number of 5 stars funds. The Ranking Invest Tracker-Estadão Best Funds was performed by Thomson Financial Brasil, and takes into consideration the grades obtained by the Funds in four characteristics: profitability, risk, adherence and performance.

Financial Margin

The R\$ 483 million financial margin increase in 1Q05 compared to 4Q04, is due to (i) a R\$ 211 million increase in interest income, resulted from the expansion in the average volume of businesses and (ii) a R\$ 272 million growth in the non-interest income, in which is included the gain of R\$ 327 million recorded from the sale of part of our stake in Belgo-Mineira's capital stock.

Fee Income

Fee Income continued evolving due to the increase in the average volume of operations, as well as to the increase in the customer base.

Over the last 12 months, revenues from services rendered evolved R\$ 342 million, especially fees originated by (i) loan operations - R\$ 118 million; (ii) checking account - R\$ 80 million; (iii) cards - R\$ 48 million; (iv) asset management - R\$ 40 million and (v) and consortium

Edgar Filing: BANK BRADESCO - Form 6-K

purchase system - R\$ 15 million.

The R\$ 14 million variation in the quarter is basically due to the effect from the elimination of the gap of consolidation period of Visanet in 4Q04, which affected the fees from cards by R\$ 47 million. Excluding this effect, highlights in 1Q05 fees came from (i) loan operations, up by R\$ 35 million; (ii) checking account, up by R\$ 22 million; and (iii) assets under management, up by R\$ 5 million.

Fee Income 1Q05 covered 68.8% of Total Expenses (Personnel + Other Administrative Expenses), against an index of 65.1% obtained in the last quarter.

Expenses

Bradesco continues to focus in the ongoing improvement of its operating efficiency.

The variation in the period is mainly due to: (i) the payroll increase resulted from the collective bargaining agreement (8.5%) in September/04 R\$ 109 million; (ii) higher employee profit sharing expenses R\$ 20 million; and (iii) reduction in personnel expenses, related to the synergies obtained in administrative processes.

The R\$ 78 million decrease in personnel expenses in the q-o-q analysis was influenced by extraordinary or seasonal effects. If these effects are excluded, the recurring decrease in expenses was of R\$ 15 million in the period.

As a consequence, the accumulated Efficiency Ratio in the 12-month period decreased from 55.5% in 4Q04 to 52.7% in this quarter.

Insurance, Private Pension Plans and Savings Bonds

This segment reported Net Income of R\$ 427 million (R\$ 164 million in 1Q04). Net Income had totaled R\$ 312 million in 4Q04.

In the Vehicle Segment, premiums increased by 42.4% in 1Q05 in relation to 1Q04, attesting the success of the acceptance policy and of the implementation of a pricing policy in line with each customer characteristics (Profile).

Bradesco's Vehicle Insurance market share increased to 18.0%, thus maintaining the absolute leadership in the segment.

With a priority focus on Mass Insurance, particularly Home Insurance, which presents low claims ratio, the contribution of Basic Lines reached 10.7% .

In the Life segment, in which Bradesco also maintains leadership with a 17.3% market share, we emphasize low ticket products, targeting the low income individuals segment, specially the products "Vida Máxima Mulher Bradesco" (Life Insurance for Women) and "Vida Segura Bradesco" (Bradesco Safe Life).

Considering Private Pension Plans, Bradesco focuses the strategy of increasing PGBL and VGBL products sales. Market share rose to 35.0%, thus maintaining the absolute leadership in the segment.

In the Savings Bonds segment, the Portfolio profile was maintained, with larger participation of monthly payment bonds.

Bradesco Saúde presented in 1Q05 loss of R\$ 213.5 million, due to the extraordinary provisions in the amount of R\$ 324 million. The Company continues prioritizing sales of Corporate Plans, which has been accounting for nearly 73% of the total insured portfolio. The growth in the number of insured customers in this segment reflects the Company's high level of specialization, which is the greatest differential in the current Brazilian Supplementary Health market. Approximately 12 thousand companies in Brazil chose Bradesco Saúde, and 32 out of the 100 largest Brazilian companies are customers in the Health/Dental insurance line.

Premiums in Insurance, Private Pension Plans and Savings Bonds summed up R\$ 3.6 billion in 1Q05, against R\$ 3.4 billion in the same period of 2004, accounting a 5.4% growth.

Technical Reserves for Insurance, Private Pension Plans and Savings Bonds reached the amount of R\$ 35.3 billion, accounting for 39% of the market.

Extraordinary events

The extraordinary gain recorded in the sale of part of our stake in Belgo-Mineira's capital stock, as disclosed in the RI Express released on February 10, 2005, was fully absorbed by extraordinary provisions in Health Insurance and for Loan Losses Allowances due to the downgrading

Edgar Filing: BANK BRADESCO - Form 6-K

of the rating of an utility company, constituted in 1Q05, which did not impact the final result. Therefore the Net Income was not affected by those effects.

Other Highlights

Bradesco acquired for R\$ 80 million, through its subsidiary Finasa, the 33 branches network of Grupo Morada, which is present in the financial market for more than 36 years. As a result of this deal, which transfers the consumer finance business, Bradesco raised its presence to 3,600 affiliated outlets.

IR Area Highlights

On March 19 and 20, Bradesco's IR team participated in the Open Stock Exchange event, which allowed individuals to visit BOVESPA's facilities, in an opportunity for publicly-held companies and stock brokers to have a booth and present its products and strategies to the visitors.
