the Securities Exchange Act of 1934.

Yes No

If "Yes" is marked, indicated below the file number assigned to the
registrant in connection with Rule 12g3-2(b):

GOL Begins Flights to Córdoba, Argentina

São Paulo, January 9, 2006 GOL Linhas Aéreas Inteligentes (Bovespa: GOLL4 and NYSE: GOL), Brazil's low-cost, low-fare airline, announced it launched flights to Córdoba, Argentina. GOL will offer two flights to the city, with different routes, both departing three times per week. Córdoba is GOL's second destination in Argentina—the Company currently flies to Buenos Aires.

The first flight, launched yesterday, flies the following route: Galeão International Airport, in Rio de Janeiro (Brazil) - Porto Alegre (Brazil) - Córdoba (Argentina). The second flight, launching today, departs from Guarulhos International Airport, in São Paulo (Brazil), with stops in Curitiba (Brazil) and Asuncion (Paraguay), landing in Córdoba. The Asuncion - Córdoba route marks the first time GOL will fly directly between South American countries, without a Brazil connection. Beginning operations between two South American countries further shows GOL's commitment to popularizing high quality, low-fare air transportation, says Tarcisio Gargioni, vice-president of Marketing and Services at GOL Linhas Aéreas Inteligentes.

Córdoba has strong commercial ties with Brazil and is one of the most important cities in Argentina—second only to the capital, Buenos Aires. With a population of approximately 1.4 million people, the largest sector of its economy is commerce, followed closely by manufacturing and the automobile industry, civil construction, transportation and real estate. The business flows between Rio de Janeiro, São Paulo, Buenos Aires, Córdoba and Rosário (Argentina) represent one of the most important and developing corridors in South America.

Beginning operations to this additional city in Argentina reflects GOL's commitment to connecting important regions across South America and strengthening the commercial and economic ties between two important members of the MERCOSUR. We firmly believe this route will not only contribute to furthering business between Brazil and Argentina, but will also stimulate passenger flow between the two countries, adds Gargioni.

Tickets are available for purchase by telephone, through your travel agent, or on GOL's website, www.voegol.com.br. Please see the destination table below for more information on flight schedules:

Origin	Destination	Frequency	Departs*	Arrives*

About GOL Linhas Aéreas Inteligentes

GOL Linhas Aéreas Inteligentes, a low cost, low fare airline, is one of the most profitable and fastest growing airlines in the industry worldwide. GOL operates a simplified fleet with a single class of service. The Company has one of the youngest and most modern fleets in the industry resulting in low maintenance, fuel and training costs, with high aircraft utilization and efficiency ratios. In addition, safe and reliable services, which stimulate GOL's brand recognition and customer satisfaction, allow GOL to have the best value proposition in the market. GOL currently offers over 430 daily flights to 48 major business and travel destinations in Brazil, Argentina, Bolivia, Uruguay and Paraguay with substantial expansion opportunities. GOL's growth plans include increasing frequencies in existing markets and adding service to additional markets in both Brazil and other high-traffic South American travel destinations. GOL's shares are listed on the NYSE and the Bovespa. GOL: here everyone can fly!

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
