GOL Obtains Long-term Financing from the BNDES

São Paulo, May 29, 2006 GOL Linhas Aéreas Inteligentes (Bovespa: GOLL4 and NYSE: GOL), Brazil's low-cost, low-fare airline, announces that its Board of Directors has authorized its operating company GOL Transportes Aéreos S.A. to enter into a R\$ 75.7 mm loan with the BNDES (Brazilian National Economic and Social Development Bank). The tenor of the BNDES loan is six years with an interest rate of 2.65% over the long-term borrowing rate TJLP (currently set at 8.15% in Reais).

The direct credit line approved by the BNDES will be used to finance a significant part of the Company's multi-year investment plan for the three-year period ending in fiscal 2006, with a focus on the construction of facilities at the GOL Aircraft Maintenance Center at the Confins International Airport in Minas Gerais, the acquisition of nationally manufactured equipment, the acquisition and customization of nationally manufactured software, and the technical training of employees. The BNDES financing aims to support the Company's long-term growth in the civil aviation market, improvement in productivity and efficiency ratios, and help create jobs for highly-skilled personnel.
