04.01-NOTES TO THE FINANCIAL STATEMENTS

**NOTES TO THE QUARTERLY FINANCIAL STATEMENTS
AS OF 03/31/2006**

(In thousands of Brazilian reais)

1. OPERATIONS

BRASIL TELECOM S.A. (the Company) is a concessionaire of the Switched Fixed Telephone Service (STFC) and operates in Region II of the General Concession Plan, covering the Brazilian states of Acre, Rondônia, Mato Grosso, Mato Grosso do Sul, Tocantins, Goiás, Paraná, Santa Catarina and Rio Grande do Sul, besides the Federal District. In this area of 2,859,375 square kilometers, which corresponds to 34% of the Brazilian territory, the Company renders since July 1998 the STFC in the modalities of local and intra-regional long distances.

With recognition of the prior fulfillment of the obligations for universalization stated in the General Plan of Universalization Goals (PGMU), required for December 31, 2003, the Company obtained from the National Agency for Telecommunications (ANATEL), on January 19, 2004, issued authorizations for the Company to exploit STFC in the following service modalities: (i) Local and Domestic Long Distance calls in Regions I and III and Sectors 20, 22 and 25 of Region II of the General Concession Plan (PGO); and (ii) International Long Distance calls in Regions I, II and III of PGO. As a result of these authorizations, the Company began to exploit the Domestic and International Long Distance Services in the Regions I, II and III, starting on January 22, 2004. In the case of the Local Service in the new regions and PGO sectors, the service began to be rendered as from January 19, 2005.

The Company s business, as well as the rendered services and the charged fees are regulated by ANATEL.

New concession agreements under the modalities of local and long distance services came into force as of January 1, 2006, effective until December 31, 2025. Additional information about these agreements is mentioned in Note 5.i.

Information related to the quality and universal service targets of the Switched Fixed Telephone Service are available to interested parties on ANATEL s homepage, in the website *www.anatel.gov.br*.

The Company is a subsidiary of Brasil Telecom Participações S.A. (BTP), incorporated on May 22, 1998 as a result of the privatization of the Telebrás group (State-owned holding company of the telecommunication segment).

The Company is registered at the Brazilian Securities and Exchange Commission (CVM) and at the U.S. Securities and Exchange Commission (SEC). Its shares are traded on the São Paulo Stock Exchange (BOVESPA), where it also integrates level 1 of Corporate Governance, and trades its American Depositary Receipts - ADRs on the New York Stock Exchange (NYSE).

These companies, which were not operating on the quarter closing date, aim at rendering services in general comprising, among others, the management activities of real states or assets.

Change in the Management

On July 27, 2005, the Extraordinary Shareholders Meeting dismissed from office the members of the Company's Board of Directors connected with former manager Opportunity. At Board of Directors Meeting held on August, 25, 2005, a new Board of Executive Officers was elected, and the Technical Officer was maintained in his position.

At the Extraordinary Shareholders Meeting held on September 30, 2005, the Board of Directors members of the Company were dismissed from office and new members were elected. On the same date, the Board of Directors meeting resolved to dismiss the Chairman and to elect new members for the Board of Executive Officers, and the Network Officer was reelected. Such resolutions were ratified by the Board of Directors of the Company in meeting held on October 5, 2005.

The process to change the management of Brasil Telecom Participações S.A. and the Company was litigious, according to various material facts published by the Company during 2005 and various lawsuits brought by the former manager, aiming at recovering the management of the Companies, which are still under progress.

Agreements as of April 28, 2005 under the Previous Management

On April 28, 2005, still under previous management, Brasil Telecom Participações S.A. and Brasil Telecom S.A. entered into various agreements involving the Opportunity Group and Telecom Italia (April 28 Agreements).

Among such agreements, Brasil Telecom S.A. and its subsidiary 14 Brasil Telecom Celular S.A. (BTC) executed with TIM International N.V. (TIMI) and TIM Brasil Serviços e Participações S.A. (TIMB) an instrument named as Merger Agreement and a Protocol related thereto.

As mentioned in material facts published, the merger was forbidden by injunctions issued by the Brazilian and U.S. courts. It is also subject-matter of discussion under arbitration involving the controlling shareholders.

The actual management of Brasil Telecom Participações S.A. and of the Company understands that the Merger Agreement, the respective Protocol, and other April 28 agreements, which included the waiver and transaction in lawsuits involving the Companies, were entered into with conflict of interests, breaching the laws and the Bylaws of the Companies, and also, in opposition to shareholders agreements and without the necessary corporate approvals. In addition, the actual management deems that such agreements are contrary to the best interest of the Companies, especially regarding its mobile telephony business. TIMI and TIMB sent to the Company and to Brt Celular a correspondence dated as of May 2, 2006, terminating unilaterally the referred Merger Agreement, reserving supposed rights.

2. PRESENTATION OF FINANCIAL STATEMENTS

Preparation Criteria

The financial statements have been prepared in accordance with accounting practices adopted in Brazil, in compliance with the Brazilian corporate law, rules of the Brazilian Securities and Exchange Commission (CVM) and rules applicable to telephony service concessionaires.

As the Company is registered with the SEC, it is subject to SEC's standards, and it must prepare financial statements and other information by using criteria that comply with that agency's requirements. To comply with these requirements and aiming at meeting the market's information needs, the Company adopts, as a principle, the disclosure of information in both markets in their respective languages.

The notes to the financial statements are presented in thousands of reais, unless otherwise demonstrated. According to each situation, they present information related to the Company and the consolidated statements, identified as PARENT COMPANY and CONSOLIDATED, respectively. When the information is common to both situations, it is indicated as PARENT COMPANY AND CONSOLIDATED.

In compliance with the Resolution 489/05, of CVM, as from 2006 the amounts of judicial deposits linked to the provisions for contingencies are presented in a deductive way from the liabilities established. Aiming at providing a better comparison between the data presented in the quarterly information, an identical reclassification of balances belonging to 2005 was promoted, as well as of the amounts referring to the cash flow.

The accounting estimates were based on objective and subjective factors, based on management's judgment to determine the appropriate amount to be recorded in the financial statements. Significant elements subject to these estimates and assumptions include the residual amount of the fixed assets, allowance for doubtful accounts, inventories and deferred income tax and social contribution, provision for contingencies, valuation of derivative instruments, and assets and liabilities related to benefits to employees. The settlement of transactions involving these estimates may result in significantly different amounts due to the inaccuracy inherent to the process of determining these amounts. Management reviews its estimates and assumptions at least quarterly.

Consolidated Financial Statements

The consolidation was made in accordance with CVM Instruction 247/96 and includes the Company and the companies listed in Note 1.

Some of the main consolidation procedures are:

- Elimination of balances of the asset and liability accounts among the consolidated companies, as well as revenue and expenses of transactions among them;
- Elimination of the balances of the investment accounts and corresponding investor's shareholdings, reserves and accumulated results in the consolidated companies; and
- Segregation of the portions of shareholders' equity and income belonging to minority shareholders, indicated in specific items.

Supplementary Information

The Company is presenting as supplementary information the statements of cash flows, which were prepared in accordance with Accounting Rules and Procedures - NPC 20 of the Brazilian Institute of Independent Auditors - IBRACON. The statement of cash flow is shown together with Note 17.

Report per Segment

The Company is presenting, supplementary to note 42, the report per business segment. A segment is an identifiable component of the company, intended for service rendering (business segment), or provision of products and services

which are subject to different risks and compensations different from those of other segments.

3. SUMMARY OF SIGNIFICANT ACCOUNTING PRACTICES

The criteria mentioned in this note refer to the practices adopted by the Company and its subsidiaries that are included in the consolidated balance sheet.

a. Cash and Cash Equivalents: Cash equivalents are temporary high-liquid investments, with immediate maturity. They are recorded at cost, plus income registered until the closing dates of the quarters, and do not exceed market value. Investment funds quotas are appreciated considering the quota values on March 31, 2006.

b. Trade Accounts Receivable: Receivables from users of telecommunications services are recorded at the amount of the fee or the service on the date the service is rendered. Accounts receivable from services include credits for services rendered and not billed until the closing dates of the quarters. Receivables resulting from sales of cell phones and accessories are recorded by the amount of sales made, at the moment in which the goods are delivered and accepted by the customer. The criterion adopted for making the allowance for doubtful accounts takes into account the calculation of the actual percentage of losses incurred on each range of accounts receivable. The historic percentages are applied to the current ranges of accounts receivable, also including accounts coming due and the portion yet to be billed, thus composing the amount that could become a future loss, which is recorded as a provision.

c. Material Inventories: Stated at average acquisition cost, not exceeding replacement cost. Inventories are segregated into inventories for plant expansion and those for maintenance and in relation to consolidated statements, goods inventories for resale, mainly composed of cell phones, accessories and electronic cards - chips. The inventories to be used in expansion are classified in property, plant and equipment (construction in progress), and inventories to be used in maintenance are classified as current and long-term assets, in accordance with the period in which they will be used, and the resale inventories are classified as current assets. Obsolete inventories are recorded as allowance for losses. With regard to cell phones and accessories, the subsidiary BrT Celular records the adjustments for the trading prices held as of the quarter closing date, in the cases in which the acquisitions presented higher values.

d. Investments: Investments in subsidiaries are assessed using the equity method. Goodwill is calculated based on the expectation of future results and its amortization is based on the expected realization/timing over an estimated period of not more than ten years. Other investments are recorded at acquisition cost, less allowance for losses, when applicable. The investments resulting from income tax incentives are recognized on the date of investment, and result in shares of companies with tax incentives or investment fund quotas. In the period between the investment date and receipt of shares or quotas of funds, they remain recognized in long-term assets. The Company adopts the criterion of using the maximum percentage of tax allocation. These investments are periodically valued and the result of the comparison between its original and market costs, when the latter is lower, results in the constitution of allowances for probable losses.

e. Property, Plant and Equipment: Stated at cost of acquisition and/or construction, less accumulated depreciation. Financial charges for financing assets and construction in progress are capitalized.

The costs incurred, when they represent improvements (increase in installed capacity or useful life) are capitalized. Maintenance and repair are charged to the profit and losses accounts, on an accrual basis.

Depreciation is calculated under the straight-line method. Depreciation rates used are based on expected useful lives of the assets and in accordance with the standards of the Public Telecommunications Service. The main rates used are set forth in Note 27.

f. Deferred Charges: Segregated between deferred charges on amortization and formation. Their breakdown is shown in Note 28. Amortization is calculated under the straight-line method, for a five-year period, in accordance with the

legislation in force. When benefits are not expected from an asset, it is written off against non-operating income.

g. Income and Social Contribution Taxes: Corporate income and social contribution taxes are accounted for on an accrual basis. These taxes levied on temporary differences, tax losses and the social contribution negative basis are recorded under assets or liabilities, as applicable, according to the assumption of realization or future demand, within the parameters set forth in the CVM Instruction 371/02.

h. Loans and Financing: These are updated for monetary and/or exchange variations and interest incurred until the quarter closing date. Equal restatement is applied to the guarantee contracts to hedge the debt.

i. Provision for Contingencies: The contingency provisions are made based on a survey of the respective risks and they are quantified according to economic grounds and legal opinions on the contingency proceedings and facts known on the quarter closing date. The basis and nature of the provisions are described in Note 7.

j. Revenue Recognition: Revenues from services rendered are recognized when provided. Local and long distance calls are charged based on time measurement according to the legislation in force. Revenues from sales of payphone cards (Public Use Telephony - TUP), cell phones and accessories are recorded when delivered and accepted by the clients. For prepaid services linked to mobile telephony, the revenue is recognized in accordance with the utilization of services. Revenue is not recognized if there is a significant uncertainty in its realization.

k. Recognition of Expenses: Expenses are recognized on an accrual basis, considering their relation with revenue realization. Expenses related to future periods are deferred.

l. Financial Income (Expense), Net: Financial income comprises interest earned on overdue accounts settled after the term, gains on financial investments and hedges. Financial expenses comprise interest incurred and other charges on loans, financing and other financial transactions.

Interest on shareholders' equity, when credited, is included in the financial expenses balance, and for financial statement presentation purposes, the amounts are reversed to profit and loss accounts and reclassified as a deduction of retained earnings, in the shareholders' equity.

m. Research and Development: Costs for research and development are recorded as expenses when incurred, except for expenses with projects linked to the generation of future revenue, which are recorded under deferred assets and amortized over a five-year period from the beginning of the operations.

n. Benefits to Employees: Private pension plans and other retirement benefits sponsored by the Company and its subsidiaries for their employees are managed under three foundations. Contributions are determined on an actuarial basis, when applicable, and accounted for on an accrual basis. As of December 31, 2001, the Company recorded its actuarial deficit on the balance sheet date against shareholders' equity, net of its tax effects. As from 2002, as new actuarial revaluations show the necessity for adjustments to the provision, they are recognized in the profit and loss accounts. Additional information on private pension plans is described in Note 6.

o. Profit Sharing: The provision for employees and management profit sharing is recognized on an accrual basis, being accounted as operating expense. The calculation of the amount, which is paid in the subsequent year after the provision is recognized, is based on the target program established with the labor union, by means of collective labor agreement, in accordance with Law 10,101/00 and the Company's Bylaws.

p. Earnings or losses per thousand shares: Calculated based on the number of shares outstanding on the quarter closing date, which comprises the total number of shares issued, minus shares held in treasury.

4. RELATED-PARTIES TRANSACTIONS

Related parties transactions refer to operations with Brasil Telecom Participações S.A., the Company's parent company, and with the subsidiaries mentioned in Note 1.

5. MARKET VALUE OF FINANCIAL ASSETS AND LIABILITIES (FINANCIAL INSTRUMENTS) AND RISK ANALYSIS

The Company and its subsidiaries assessed the book value of its assets and liabilities as compared to market or realizable values (fair value), based on information available and valuation methodologies applicable to each case. The interpretation of market data regarding the choice of methodologies requires considerable judgment and determination of estimates to achieve an amount considered adequate for each case. Accordingly, the estimates presented may not necessarily indicate the amounts, which can be obtained in the current market. The use of different assumptions for calculation of market value or fair value may have material effect on the obtained amounts. The selection of assets and liabilities presented in this note took place based on their materiality. Instruments whose values approximate their fair values, for example cash and cash equivalents, accounts receivable, assets and liabilities of taxes, pension funds, among others, and whose risk assessment is not significant, are not mentioned.

In accordance with their natures, the financial instruments may involve known or unknown risks, and the potential of such risks is important for the best judgment. Thus, there may be risks with or without guarantees, depending on circumstantial or legal aspects. Among the principal market risk factors which can affect the Company's business are the following:

a. Credit Risk

The majority of services provided by Brasil Telecom S.A. are related to the Concession Agreement, and a significant portion of these services is subject to the determination of fees by the regulatory agency. The credit policy, in its turn, in case of telecommunications public services, is subject to legal standards established by the concession authority. The risk exists since the Company may incur losses arising from the difficulty in receiving amounts billed to its customers. The Company's default on the quarter was 2.96% of the gross revenue (2.94% in 2005). For the Consolidated it was 3.09% and 3.02%, respectively. By means of internal controls, the level of accounts receivable is constantly monitored, thus limiting the risk of past due accounts by cutting the access to the service (out phone traffic) if the bill is overdue for over 30 days. Exceptions are made for telephone services, which should be maintained for national security or defense.

The Company operates in co-billing, concerning long distance calls with the use of its CSP (Operator Selection Code) originated by subscribers of other fixed and mobile telephony operators. The co-billing accounts receivable are managed by these operators, based on the operational agreements entered into with them and according to the rules set forth by ANATEL. The blocking rules set forth by the regulating agency are the same for the fixed and mobile telephony companies, which are co-billing suppliers. The Company separately controls receivables of this nature and maintain an allowance for losses that may occur, due to the risks of not receiving such amounts.

In respect to mobile telephony, credit risk in cell phones sales and in service rendering in the postpaid category is minimized with the adoption of a credit pre-analysis. Still in relation to postpaid service, whose client base at the end of the quarter was 33.4% (31.3% on 12/31/05), the receivable accounts are also monitored in order to limit default and the block is made to the service (out of phone traffic) if the bill is overdue for over fifteen days.

b. Exchange Rate Risk

Liabilities

The Company has loans and financing contracted in foreign currency. The risk related to these liabilities arises from possible exchange rate fluctuations, which may increase these liabilities balances. Consolidated loans subject to this

risk represent approximately 22.6% (23.3% on 12/31/05) of the total liabilities of loans and consolidated financing, minus the contracted hedge balances. In order to minimize this kind of risk, the Company has been entering into exchange hedge agreements with financial institutions. Of the debt installment consolidated in foreign currency, 67.9% (66% on 12/31/05) is covered by hedge operations and financial investments in foreign currency, resulting in an effective exposition of 11.9% . Unrealized positive or negative effects of these operations are recorded in the profit and loss as gain or loss. Until the end of the quarter, the negative adjustments of these operations amounted to R\$ 64,517 (R\$ 47,771 of negative adjustments in 2005).

Net exposure as per book and market values, at the exchange rate prevailing on the quarter closing date, is as follows:

The method used for calculation of market value (fair value) of loans and financing in foreign currency and hedge instruments was future cash flows associated to each contracted instruments, minus the market rates in force in the quarter date.

c. Interest Rate Risk

Assets

The Company has loans granted to the phone directory company, with interest indexed to the IGP-DI (a national index price), as well as loans resulting from the sale of property, plant and equipment to other telephony companies, remunerated by IPA-OG/Industrial Products of Column 27 (FGV). The Company also has Certificate of Deposits (CDBs) with Banco de Brasília S.A. related to the guarantee to tax incentive granted by the Federal District Government under a program called Programa de *Promoção do Desenvolvimento Econômico e Sustentável do Distrito Federal* PRO-DF, (Program to Promote the Economic and Sustained Development of the Federal District), and the remuneration of these securities is equivalent to 95% of the SELIC rate.

These assets are represented in the balance sheet as follows:

Long-term	3,889	5,713	6,088	7,815

Liabilities

Brasil Telecom S.A. has loans and financing contracted in local currency subject to interest rates linked to indexing units TJLP, UMBNDES, CDI IGP-M and IGP/DI. The inherent risk in these liabilities arises from possible variations in these rates. The Company has contracted derivative hedge contracts to 20.4% (22.7% on 12/31/05) of the liabilities subject to the UMBNDES rate, using exchange rate swap contracts. However, the other market rates are continually monitored to evaluate the need to contract derivatives to protect against the risk of volatility of these rates.

In addition to the loans and financing, the Company issued non-convertible private and public debentures, non-convertible or exchangeable for shares. These liabilities were contracted at interest rates linked to the CDI, and the risk associated with this liability results from the possible increase of the rate.

The above mentioned liabilities on the quarter closing date are as follows:

	PARENT COMPANY

Book value is equivalent to market values where the current contractual conditions for these types of financial instruments are similar to those in which they were originated or they did not present parameters for quotation or contraction.

d. Risk of Not Linking Monetary Restatement Indexes of Loans and Financing to Accounts Receivable

Loan and financing rates contracted by the Company are not linked to amounts of accounts receivable. Thus, a risk arises, since telephony fees adjustments do not necessarily follow increases in local interest rates, which affect the Company's debts.

e. Contingency Risks

Contingency risks are assessed according to loss hypotheses, as probable, possible or remote. Contingencies considered probable risks are recorded as liabilities. Details of these risks are presented in Note 7.

f. Risks Related to Investments

The Company has investments, which are assessed through the equity method and the acquisition cost. The investments assessed by the equity method are presented in Note 26, for which no market value exists, as they are represented by non-listed companies or private limited companies. Provisions are recorded for losses when the future cash flows expected from an investment lead to loss expectations.

On the quarter closing date, an allowance for losses was recorded at the amount of R\$ 18,545 (R\$ 19,028 on 12/31/05) related to VANT's unsecured liability.

The investments assessed at acquisition cost are immaterial in relation to total assets. Their associated risks would not cause significant impacts to the Company in case of loss of part of these investments.

g. Financial Investments Risks

The company has temporary high-liquid investments in exclusive financial investment funds (FIFs), whose assets comprise federal securities based on post-fixed, pre-fixed and foreign exchange rates, all subject to CDI, by means of

the own backing of these securities or through futures contracts traded at the Futures and Commodities Exchange - BM&F, exclusive financial investment funds (FIFs), subject to exchange variation through futures contracts in dollar with the Futures and Commodities Exchange -BM&F, overnight financial investments, in own portfolio of CDB issued by national financial institutions, and own portfolio of CD issued by financial institutions abroad. Overnight investments, in exchange fund and deposit certificates are subject to exchange rate fluctuation risks. The CDB investments, as well as overnight investments that have spread in this type of certificate, are subject to the issuing financial institution credit risk.

The Company maintains financial investments at the amount of R\$ 698,120 (R\$ 1,428,587 on 12/31/05). Income earned to the quarter closing date is recorded as financial revenue and amounts to R\$ 27,949 (R\$ 53,239 in 2005). Amounts recognized in the consolidated financial statements are R\$ 825,878 (R\$ 1,667,009 on 12/31/05), related to investments, and R\$ 36,598 (R\$ 59,693 in 2005), related to earnings.

h. Risk of Early Maturity of Loans and Financing

Liabilities resulting from financing, mentioned in the Note 34, concerning agreements of BNDES, public debentures and most of them referring to financial institutions, have clauses that estimate the early maturity of liabilities or retention of amounts pegged to debt covenants, in the cases in which certain minimum amounts for certain indicators are not reached, such as ratios of indebtedness, liquidity, cash generation and other.

Considering the provisions recognized in the financial statements of the fiscal year ended on 12/31/05, provisions of which informed to the market by means of the Material Fact as of 1/4/06, the Company renegotiated, in February 2006, all the loan and hedge agreements that had financial covenants related to the Earnings before Interest, Taxes, Depreciation and Amortization EBITDA and, in the case of BNDES, the negotiations are still ongoing, aiming at the adequacy of these covenants.

As set forth in the financing agreements maintained with BNDES, the Company must comply with a set of financial indices and in the event of non-compliance with some of these indices, BNDES is allowed to request the temporary block of amounts, given as guarantee in a linked account. In view of the non-compliance with this clause, the total estimated retention amount is approximately R\$ 247,442, made operational through the partial block of the Company's financial investments, without prejudice of the remuneration to be received by it. After the end of the quarter, blocks in the investment fund in the amount of R\$ 91,439 (R\$ 191,439 for the Consolidated) took place, which were reclassified for the item of contractual retentions, mentioned in note 24, for purposes of presentation of this quarterly information. The release of the blocked amounts will take place when the Company returns to complying with the financial relations set forth in the agreements or it is successful in the adequacy of financial covenants negotiated. BNDES granted a renouncement in relation to the possible declaration of early maturity in view of the new non-compliance with the financial indices.

i. Regulatory Risks

New Concession Agreements

On 12/22/05, new local and domestic long distance concession agreements were entered into by Brasil Telecom S.A., which shall be take effect between January 1, 2006 and December 31, 2025. These new concession agreements, which provide for reviews on a five-year basis, in general have a higher intervention level in the management of the businesses and several provisions defending the consumer's interest, as noticed by the regulation body. The main highlights are:

- The burden of the concession defined as 2% of the net revenue from taxes, calculated every two years, starting in 2006 fiscal year, whose initial payment incurs on 4/30/07 and then successively until the end of the concession. This calculation method, concerning accrual, corresponds to 1% for each fiscal year;

- The definition of new universalization targets, particularly AICE Special Class Individual Access, of mandatory offer and the Telecommunications Service Centers - PST, with full burden for the Concessionaire;
- The possibility of the Regulating Agency to impose mandatory alternative plans;
- The introduction of Regulating Agency's right to intervene and modify agreements of the concessionaire with third parties;
- The inclusion of assets of the parent company, subsidiary, affiliated companies and third parties, indispensable to the concession, as reversible assets;
- The creation of the users' board in each concession;

Additionally, the regulation connected to the new concession agreement provides for changes in the local calls tariff system, which change from pulse to minute in the regular hours, in amounts of the public tariffs and in the readjustment criteria, which had the individual excursion factor reduced from 9% to 5% and will be then defined by a sector index - IST, in which composition the highest weight is IPCA.

On their turn, the interconnection tariffs, as provided for, are then defined as a percentage public tariff until the implementation of cost model by service/modality, estimated for 2008, as defined in the Regulation for Separation and Accounting Allocation (Resolution 396/05).

ANATEL, on February 23, 2006, issued the Resolution 432, postponing for a twelve-month period the dates mentioned in Rule 423, as of 12/6/05, which deals with the Amendment to the Tariff System of STFC Basic Plan in the Local Modality Rendered under Public Scheme.

It is not possible to assess, on the date this quarterly information was prepared, the future impacts to be generated by such regulation change.

Legislative Bill of Change in Telecommunications Act (LGT)

At the beginning of March 2006, the Executive Branch sent to the Brazilian Congress the Legislative Bill 6,677 to amend LGT 9,472, as of 7/16/97, whose content is essentially to enable the adoption of distinctive criteria based on the social-economic condition of the aspirant-user, with the purpose of reducing the social disparities and facilitate the access to telecommunications services publicly provided.

Due to the lack of objective elements it is not possible to evaluate, on the date of the preparation of this quarterly information, the future impacts which will be produced in the Company's businesses, if the referred legislative bill is approved at the Brazilian Congress.

Overlapping of Licenses

When the Company received the certification for achieving the universalization targets for 2003, set forth by ANATEL, it already provided the fixed telephony service (STFC) in the local and domestic long distance modalities (LDN) intra-regional in the Region II of the General Concession Plan (PGO). After achieving the referred targets, ANATEL, in January 2004, issued authorizations that increase the possibility of Company's operation: Local STFC and LDN in the Regions I and III of the PGO (and a few sectors of the Region II); International Long Distance (LDI) in the Regions I, II and III of the PGO; mobile telephony, by means of the subsidiary 14 Brasil Telecom Celular S.A. (BrT Celular), in the Region II of the Personal Mobile Service (SMP). The already existing concession agreements were expanded, enabling LDN calls to any part of the Brazilian territory. If Telecom Italia International N.V. (TII) acquired an indirect controlling interest in the Company, the Company and TIM Brasil Serviços e Participações S.A. (TIM) could be considered affiliates under the new Brazilian telecommunications legislation. That would imply the ability of providing domestic (LDN) and international (LDI) fixed and mobile telephony services throughout the same regions of TIM's, would be subject to risk of being partially closed by ANATEL. On January 16, 2004, ANATEL issued the Act 41,780 establishing an 18-month period for TII to reacquire an indirect controlling interest in the

Company, as long as TII did not participate or vote on issues related to the overlapping of services offered by the Company and TIM, such as domestic and international long-distance and mobile services. On June 30, 2004, the Administrative Council of Economic Defense – CADE, in the records of the Write of Prevention 08700.000018/2004-68, set forth restrictions to the exercise of the control rights on the part of Telecom Italia International N.V. and its representatives at the board of directors of Solpart Participações S.A., Brasil Telecom Participações S.A. and Brasil Telecom S.A.

On April 28, 2005, TII and TIM and the Company and BrT Celular entered into various corporate agreements, including an instrument called Merger Agreement and a Protocol related thereto. Among other reasons alleged, this merger operation was justified by the management of that time as possible solution to overlapping of regulatory licenses and authorizations with TIM, to remove sanctions and penalties, which could be imposed by ANATEL. The operation was forbidden by an injunction issued by the U.S. court. It is also subject-matter of discussion in the Brazilian Court and in arbitration involving controlling shareholders. Whether or not confirming the validity of April 2005 agreements, there is the possibility of assets related to fixed and mobile segments (see Note 42) eventually lose their value, as a result of overlapping of operations or sanctions from ANATEL. On the other hand, it is also possible that corporate agreements as of April 28, 2005 are declared null and void by courts or arbitration, which would remove TII from the control block of Brasil Telecom group, eliminating the overlapping of concessions and consequently, the regulatory risk. Nevertheless, at this moment, it is not possible to anticipate such legal developments and their future effects on the financial statements.

On July 7, 2005, ANATEL declared, by means of Act 51,450, that the counting of 18 month-term to solve the overlapping of licenses would start on the date of effective return of TII to the control group of Brasil Telecom S.A. On July 26, 2005, ANATEL, by means of Order 576/2005, declared that the counting of term had already started on April 28, 2005. Therefore, according to ANATEL, the interested companies shall adopt the measures necessary to eliminate the overlapping of the concessions until the end of referred term in October 2006, under the penalty of applying legal sanctions, which may affect either companies or both of them.

Depending on final decision of ANATEL, these sanctions may have an adverse and material effect on businesses and operations of the Company and of 14 Brasil Telecom Celular S.A.

Regarding the Merger Agreement mentioned in this note, the Company and its subsidiary BrT Celular started on March 15, 2006 arbitration against TII and TIM, aiming at annulling it. The Company disclosed material fact about this matter on March 16, 2006.

TII and TIM sent to the Company and to BrT Celular a correspondence dated as of May 2, 2006, unilaterally terminating the referred Merger Agreement, reserving supposed rights. The Company published a material fact about it on May 2, 2006.

6. BENEFITS TO EMPLOYEES

The benefits described in this note are offered to the employees of the Company and its direct or indirect subsidiaries. These companies are better described jointly, and can be referred to as Brasil Telecom Companies and for the purpose of the supplementary pension plan mentioned in this note, are also denominated Sponsor or Sponsors.

a. Supplementary Pension Plan

The Company sponsors supplementary pension plans related to retirement for its employees and assisted members, and, in the case of the latter, medical assistance in some cases. These plans are managed by the following foundations: (i) Fundação 14 de Previdência Privada (Fundação 14); (ii) Fundação BrTPREV (FBrTPREV) former CRT, a company merged by the Company on 12/28/00; and (iii) Fundação de Seguridade Social (SISTEL), originated from

certain companies of the former Telebrás System.

The Company's Bylaws stipulate approval of the supplementary pension plan policy, and the joint liability attributed to the defined benefit plans is linked to the acts signed with the foundations, with the agreement of the Secretaria de Previdência Complementar - SPC, where applicable to the specific plans.

The plans sponsored are valued by independent actuaries on the fiscal year closing date. In the case of the defined benefit plans described in this explanatory note, immediate recognition of the actuarial gains and losses is adopted. Liabilities are provided for plans which show deficits. This measure has been applied since the 2001 financial year, when the regulations of CVM Resolution 371/00 were adopted. In cases that show positive actuarial situations, no assets are recorded due to the legal impossibility of reimbursing these surpluses.

The characteristics of the supplementary pension plans sponsored by the Company are described below.

FUNDAÇÃO 14

As from the split of the only pension plan managed by SISTEL, the PBS, in January 2000, already predicted the evolution trend for a new stage. Such stage would result in an own and independent management model for TCSPREV pension plan, by means of a specific entity to manage and to operate them, and this fact has become more and more evident throughout the years. This trend also occurred in other main SISTEL pension plan sponsoring companies, which created their respective supplementary pension plan foundations. In this scenario, Fundação 14 de Previdência Privada was created in 2004, with the purpose of taking over the management and operation of the TCSPREV pension plan, which started as from March 10, 2005, whose process was backed by the segment's specific legislation and properly approved by the Secretaria de Previdência Complementar - SPC (the Brazilian pension's regulatory authority).

In accordance with the Transfer Agreement entered into between Fundação Sistel de Seguridade Social and Fundação 14 de Previdência Privada, SISTEL, by means of the Management Agreement, has been rendering management and operation services of TCSPREV and PAMEC-BrT plans to Fundação 14, after the transferring of these plans, which took place on March 10, 2005, for a period of up to 18 months, while Fundação 14 organizes itself to take over the management and operation services of its plans.

Plans

TCSPREV (Defined Contribution, Settled Benefit and Defined Benefit)

This defined contribution and settled benefit plan was introduced on 2/28/00. On 12/31/01, all pension plans sponsored by the Company with SISTEL were merged, being exceptionally and provisionally approved by the Secretaria de Previdência Complementar - SPC of document sent to that Agency, due to the need for adjustments to the regulations. Thus, TCSPREV is comprised of defined contribution groups with settled and defined benefits. The plans that were merged into the TCSPREV were the PBS-TCS, PBT-BrT, BrT Management Agreement, and the Unusual Contractual Relation Instrument, and the conditions established in the original plans were maintained. In March 2003, this plan was no longer offered to the sponsors - new contracted ones. However, this plan, concerning the defined contribution, started being offered as of March 2005. TCSPREV currently provides assistance to nearly 62.5% of the staff.

PAMEC-BrT - Health Care Plan for Supplementary Pension Beneficiaries (Defined Benefit)

Destined for health care of retirees and pensioners subject to Grupo PBT-BrT, which was merged into TCSPREV on 12/31/01.

Contributions Established for the Plans

TCSPREV

Contributions to this plan, by group of participants, are established based on actuarial studies prepared by independent actuaries according to regulations in force in Brazil, using the capitalization system to determine the costs. Currently, contributions are made by the participants and the sponsor only for the internal groups PBS-TCS (defined benefit) and TCSPREV (defined contribution). In the TCSPREV group, the contributions are credited in individual accounts of each participant, equally by employee and sponsor, and the basic contribution percentages vary between 3% and 8% of the participant's salary, according to participant's age and limited to R\$ 19,520.40 for 2006. Participants have the option to contribute voluntarily or sporadically to the plan above the basic contribution, but without parity of the Company. In the case of the PBS-TCS group, the sponsor's contribution corresponds to 12% of the payroll of the participants; while the employees' contribution varies according to the age, service time and salary. An entry fee may also be payable depending on the age of entering the plan. The sponsors are responsible for the cost of all administrative expenses and risk benefits. Until the quarter, contributions by the sponsor to the TCSPREV group represented 5.03% of the payroll of the plan participants. For employees, the contributions represented 4.90% .

The contributions of the party-company in the quarter were R\$ 4,206 (R\$ 3,750 in 2005).

PAMEC-BrT

The contribution for this plan was fully paid in July 1998, through a single payment. New contributions are limited to future necessity to cover expenses, if that occurs.

FUNDAÇÃO SISTEL DE SEGURIDADE SOCIAL (SISTEL)

The supplementary pension plan, which remains under SISTEL's management, comes from the period before the Telebrás Spin-off and assists participants who had the status of beneficiaries in January 2000 (PBS-A). SISTEL also manages the PAMA/PAMA-PCE pension plan, formed by participants assisted by the PBS-A Plan, the PBS's plans segregated by sponsor in January 2000 and PBS-TCS - Internal Group, merged into the TCSPREV plan in December 2001.

Plans

PBS-A (Defined Benefit)

Maintained jointly with other sponsors subject to the provision of telecommunications services and destined for participants that had the status of beneficiaries on 1/31/00.

PAMA - Health Care Plan for Retirees / PCE Special Coverage Plan (Defined Contribution)

Maintained jointly with other sponsors subject to the provision of telecommunications services and destined for participants that had the status of beneficiaries on 1/31/00, for the beneficiaries of the PBS-TCS Group, merged into TCSPREV on 12/31/01 and for the participants of PBS's defined benefit plans sponsored by other companies. According to a legal and actuarial appraisal, the Company's responsibility is exclusively limited to future contributions. During 2004, an optional migration of retirees and pensioners of PAMA took place for new coverage conditions (PCE). The participants who opted for the migration began to contribute to PCE.

Contributions Established for the Plans

PBS-A

Contributions may occur in case of accumulated deficit. On 12/31/05, the actuarial appraisal date, the plan presented a surplus.

PAMA/PCE

This plan is sponsored by contributions of 1.5% on payroll of active participants subject to PBS plans, segregated and sponsored by several SISTEL sponsors. In the case of Brasil Telecom, the PBS-TCS was merged into the TCSPREV plan on 12/31/01, and began to constitute an internal group of the plan. Contributions by retirees and pensioners who migrated to PCE are also carried out.

The contributions to PAMA, in the part attributed to the Sponsor, in the quarter were R\$ 37 (R\$ 29 in 2005).

FUNDAÇÃO BrTPREV

It is the manager originated from the plans sponsored by former CRT, company incorporated by the Company at the end of 2000. The main purpose of the Company sponsoring FBrTPREV is to maintain the supplementary retirement, pension and other provisions in addition to those provided by the official social security system to participants.

Plans

BrTPREV

Defined contribution plan and settled benefits, launched in October 2002, destined for the concession of pension plan benefits supplementary to those of the official pension plan and that initially assisted only employees subject to the Subsidiary Rio Grande do Sul. This pension plan remained open to new employees of the Company and its subsidiaries from March 2003 to February 2005, when its offering was suspended. Currently, BrTPREV provides assistance to nearly 33.2% of the staff.

Fundador Brasil Telecom and Alternativo Brasil Telecom

Defined benefits plans destined to provide supplementary social security benefits in addition to those of the official social security, closed to the entry of new participants. Currently, these plans assist approximately 0.1% of the staff.

Contributions Established for the Plans

BrTPREV

Contributions to this plan are established based on actuarial studies prepared by independent actuaries according to the regulations in force in Brazil, using the capitalization system to determine costs. Contributions are credited in

individual accounts of each participant, the employee's and Company's contributions being equal, the basic percentage contribution varying between 3% and 8% of the participation salary, according to the participant's age and limited to R\$ 20,193.00 for 2006. Participants have the option to contribute voluntarily or sporadically to the plan above the basic contribution, but without parity of the sponsor. The sponsor is responsible for the administrative expenses and risk benefits. The Company's contributions on the quarter represented 8.41% of the payroll of the plan participants, whilst the employee contribution was 4.83%.

The contributions of the party-company in the quarter were R\$ 3,420 (R\$ 2,252 in 2005).

Fundador Brasil Telecom and Alternativo Brasil Telecom

The regular contribution by the sponsor on the quarter was of 4.13% on the payroll of plan participants, who contributed at variable rates according to age, service time and salary; the average rate on the quarter was 4.13%. With the Alternativo Plan - Brasil Telecom, the participants also pay an entry fee depending on the age of joining the plan.

The normal contributions of the Sponsor in the quarter were R\$ 4 (R\$ 4 in 2005.)

The mathematical reserve to amortize, corresponding to the current value of the Company's supplementary contribution, as a result of the actuarial deficit of the plans managed by FBrTPREV, have the settlement within the maximum established period of twenty years, as from January 2002, according to Circular 66/SPC/GAB/COA from the Supplementary Pension Department dated 1/25/02. Of the maximum period established, 15 years and 9 months still remain for complete settlement, and in the quarter the amount of R\$ 34,179 (R\$ 25,440 in 2005) was amortized.

b. Stock option plan for management and employees

The Extraordinary Shareholders' Meeting held on April 28, 2000, approved the general plan to grant stock call options to officers and employees of the Company and its subsidiaries. The plan authorizes a maximum limit of 10% of the shares of each class of Company stock. Shares derived from exercising options guarantee the beneficiaries the same rights granted to other Company shareholders. The administration of this plan was entrusted to a management committee appointed by the Board of Directors, which decided only to grant preferred stock options. The plan is divided into two separate programs:

Program A

This program is granted as an extension of the performance objectives of the Company established by the Board of Directors for a five-year period. Until March 31, 2006, no option had been granted.

Program B

The exercise price is established by the management committee based on the market price of one thousand shares on the date of the grant of option and will be monetarily restated by the IGP-M between the date of signing the contracts and the payment date.

The right to exercise the option is given in the way and terms presented as follows:

	First Grant		Second Grant		Third Grant	
	As from	Deadline	As from	Deadline	As from	Deadline
33%	1/1/04	12/31/08	12/19/05	12/31/10	12/21/05	12/31/11
33%	1/1/05	12/31/08	12/19/06	12/31/10	12/21/06	12/31/11
34%	1/1/06	12/31/08	12/19/07	12/31/10	12/21/07	12/31/11

The acquisition periods can be anticipated as a result of the occurrence of events or special conditions established in the option contract. Until March 31, 2006, options were not granted.

Information related to the general plan to grant call options is summarized below:

	03/31/2006	
	Preferred stock options (thousand)	Average exercise price R\$
Balance on 12/31/05	410,737	13.00
Extinguished Options	81,779	13.00
Balance on 03/31/06	328,958	13.00

There has been no granting of call options exercised until the quarter closing date and the representation of the options balance in relation to the total of outstanding shares is 0.06% (0.08% on December 31, 2005).

Considering the hypothesis that the options will be fully exercised, the opportunity cost of the respective premiums, calculated based on the Black & Scholes method, would be R\$ 527 (R\$ 390 in 2005).

c. Other Benefits to Employees

Other benefits are granted to employees, such as: health/dental care, meal allowance, group life insurance, occupational accident allowance, sickness allowance, transportation allowance, and others.

7. PROVISIONS FOR CONTINGENCIES

a. Contingent Liabilities

The Company and its subsidiaries periodically assess their contingency risks, and also review their lawsuits taking into consideration the legal, economic, tax and accounting aspects. The assessment of these risks aims to classifying them according to the chances of unfavorable outcome among the alternatives of probable, possible or remote, taking into account, as applicable, the opinion of the legal advisors.

For those contingencies, which the risks are classified as probable, provisions are recognized. Contingencies classified as possible or remote are discussed in this note. In certain situations, due to legal requirements or precautionary measures, judicial deposits are made to guarantee the continuity of the cases in litigation. These lawsuits are under discussion in administrative and judicial spheres and in several levels, from lower courts to the extraordinary ones.

It is also worth mentioning that the notice presented below shows, in some cases, identical objects with different classifications of risk level, fact that is justified by specific factual or procedural status related to each lawsuit.

Labor Claims

The provisions for labor claims include an estimate by the Company's management, supported by the opinion of its legal counselors, of the probable losses related to lawsuits filed by employees, former employees of the Company, and of service providers related to the labor matter.

Tax Suits

Provisions for tax contingencies mainly refer to issues related to tax collections resulting from different interpretations of the legislation on the part of the Company's legal advisors and tax authorities.

Civil Suits

The provisions for civil contingencies refers to an estimate of lawsuits related to contractual adjustments arising from Federal Government economic plans, and other cases related to community telephony plans and suit for damages and consumer lawsuits.

Classification by Risk Level

Contingencies for Probable Risk

Contingencies for probable risk of loss, for which provisions are recorded under liabilities, have the following balances:

Nature	PARENT COMPANY		CONSOLIDATED	
	03/31/06	12/31/05	03/31/06	12/31/05

Long-term	402,298	421,695	412,522	430,090

Labor

The variations which took place in the current year, until the quarter closing date, are the following:

	PARENT COMPANY	CONSOLIDATED
Provisions on 12/31/05	564,129	567,273
Variations to the Result	29,312	30,281
Monetary Restatement	17,222	17,344

Subtotal II (Judicial Deposits)	(317,525)	(318,067)
Balance on 03/31/06, Net of Judicial Deposits	223,080	226,596

The main objects that affect the provisions for labor claims are the following:

- (i) Risk Premium - related to the claim of additional payment for hazardous activities, based on Law 7369/85, regulated by Decree 93,412/86, due to the supposed risk of contact by the employee with the electric power system;

- (ii) Salary Differences and Consequences - related, mainly, to requests for salary increases due to supposedly unfulfilled union negotiations. They are related to the repercussion of the salary increase supposedly due on the others sums calculated based on the employees' salaries;
- (iii) Career Plan - related to the request for application of the career and salaries plan for employees of the Santa Catarina Branch (formerly Telesc), with promotions for seniority and merit, supposedly not granted by the former Telesc;
- (iv) Joint/Subsidiary Responsibility - related to the request to ascribe responsibility to the Company, made by outsourced personnel, due to supposed nonobservance of their labor rights by their direct employers;
- (v) Overtime - refers to the pleading for salary and additional payment due to labor supposedly performed beyond the contracted work time;
- (vi) Reintegration - pleading due to supposed inobservance of employee's special condition, guaranteeing the impossibility of terminating labor contract without cause;
- (vii) Request for the application of regulation, which established the payment of the percentage incurring on the Company's income, attributed to the Santa Catarina Branch; and
- (viii) Supplement of FGTS fine arising from understated inflation - it refers to requests to supplement indemnification of FGTS fine, due to the recomposition of accounts of this fund by understated inflation. Brasil Telecom S.A. filed a lawsuit against Caixa Econômica Federal, with a view to ensuring the reimbursement of all amounts paid for this purpose.

b. Contingent Assets

As follows, the tax claims promoted by the Company are shown, through which the recovery of tax paid is claimed, calculated differently from interpretation sustained by its legal advisers, the assessment of success in future filing of appeals is assessed as probable:

PIS/COFINS: judicial dispute about the application of Law 9,718/98, which increased the calculation basis for PIS and COFINS. The period comprised by Law was from February 1999 to November 2002 for PIS and from February 1999 to January 2004 for COFINS. The amount estimated recoverable is R\$ 125,212 (R\$ 116,220 in 12/31/05). In November 2005, STF (Federal Supreme Court) concluded the judgment of certain lawsuits dealing with such issue and considered unconstitutional the increase of calculation basis introduced by said Law.

The Company is awaiting the judgments of lawsuits and did not recognize the amount attributed to outstanding contingency in the financial statements

8. SHAREHOLDERS EQUITY

a. Capital Stock

The Company is authorized to increase its capital stock, according to a resolution of the Board of Directors, in a total limit of five hundred and sixty billion (560,000,000,000) common or preferred shares, observing the legal limit of two thirds (2/3) for the issue of new preferred shares without voting rights.

By means of a resolution of the General Shareholders' Meeting or the Board of Directors, the Company's capital may be increased by the capitalization of retained earnings or reserves prior to this allocated by the General Shareholders Meeting. Under these conditions, the capitalization may be effected without modifying the number of shares.

The capital stock is represented by common and preferred stocks, with no par value, and it is not mandatory to maintain the proportion between the shares in the case of capital increases.

By means of a resolution of the General Shareholders Meeting or the Board of Directors, the preemptive right for the issue of shares, subscription bonuses or debentures convertible into shares may be excluded, in the cases stipulated in article 172 of Corporation Law.

The preferred shares do not have voting rights, except in the cases specified in paragraphs 1 to 3 of article 12 of the Bylaws, but are assured priority in receiving the minimum non-cumulative dividend of 6% per annum, calculated on the amount resulting from dividing the capital stock by the total number of the Company's shares or 3% per annum, calculated on the amount resulting from dividing the net book shareholders' equity by the total number of the Company's shares, whichever is greater.

Subscribed and paid-up capital as of the date of the end of the quarter is R\$ 3,435,788 (R\$ 3,435,788 as of 12/31/05) represented by shares without par value as follows:

b. Treasury Stock

Transactions related to treasury stock are derived from the following events:

Merger

Until 12/31/05, the Company held in treasury preferred stocks acquired in the first half of 1998 by the former Companhia Riograndense de Telecomunicações - CRT, the company that was merged by Brasil Telecom S.A. on December 28, 2000. Since the merger, the company has outstanding shares to comply with judicial rules, resulting from ownership claims of the subscribers derived from the merged company. The amount originally paid was considered a cost of replacement, according to the control made by the Company.

The movement of treasury stock derived from the merged company was the following:

	03/31/06		12/31/05	
	Preferred shares (thousands)	Amount	Preferred shares (thousands)	Amount
Opening balance in the quarter	1,282	30	1,282	30
Quantity of shares being traded again on the market	(1,282)	(30)	-	-
Closing balance in the year	-	-	1,282	30

The retained earnings account represented the origin of the funds invested in the acquisition of these treasury stocks.

Stock Repurchase Program – Years from 2002 to 2004

Shares resulting from buyback programs are held in treasury, and on 9/13/04 a material fact of the current proposal approved by the Company's Board of Directors was published, for the repurchase of preferred stocks issued by the Company, for holding in treasury or cancellation, or subsequent sale, under the following terms and conditions: (i) the premium account in the share subscription represented the origin of the funds invested in the purchase of shares; (ii) the authorized quantity for the purchase of own preferred shares for being held in treasury was limited to 10% of outstanding preferred shares; and (iii) the period determined for the acquisition was 365 days, in accordance with CVM Instruction 390/03.

The quantity of treasury stocks arising from the programs for repurchase of shares was the following:

	03/31/06		12/31/05	
	Preferred shares	Amount	Preferred shares	Amount

	(thousands)		(thousands)	
Opening balance in the quarter	13,678,100	154,692	8,105,600	92,420

Weighted Average	11.31	11.31
Minimum	10.31	10.31
Maximum	13.80	13.80

The unit cost in the acquisition considers the totality of stock repurchase programs.

Until the quarter closing date, there were no disposals of preferred shares purchased based on repurchase programs.

Market Value of Treasury Stocks

The market value of treasury stocks on the quarter closing date was the following:

	03/31/06	12/31/05
Number of preferred shares held in treasury (thousands of shares)	13,678,100	13,679,382
Quotation per thousand shares on BOVESPA (R\$)	10.20	10.05
Market value	139,517	137,478

The Company maintains the balance of treasury stocks in a separate account. For presentation purposes, the values of treasury stocks are deducted from the reserves that originated the buyback, and are presented as follows:

	Premium on Subscription of Shares		Other Capital Reserves		Retained Earnings	
	03/31/06	12/31/05	03/31/06	12/31/05	03/31/06	12/31/05

c. Capital Reserves

Capital reserves are recognized in accordance with the following practices:

Reserve for Premium on Subscription of Shares: results from the difference between the amount paid on subscription and the portion allocated to capital.

Reserve for Donations and Subsidies for Investments: registered as a result of donations and subsidies received, the contra entry of which represents an asset received by the Company.

Reserve for Special Monetary Restatement as per Law 8.200/91: registered as a result of special monetary restatement adjustments of permanent assets to compensate the distortions in the monetary restatement indices prior to 1991.

Other Capital Reserves: formed by the contra entry of the interest on works in progress up to 12/31/98 and funds invested in income tax incentives.

d. Profit Reserves

The profit reserves are recognized in accordance with the following practices:

Legal Reserve: allocation of five percent of the annual net income up to twenty percent of paid-up capital or thirty percent of capital plus capital reserves. The legal reserve is only used to increase capital stock or to absorb losses.

Retained Earnings: recorded at the end of each fiscal year, composed of remaining balances of net income or loss for the year, adjusted according to the terms of article 202 of Law 6404/76, or by the recording of adjustments from prior years, if applicable.

e. Dividends and Interest on Shareholders Equity

Dividends are calculated at the end of the fiscal year. Mandatory minimum dividends are calculated in accordance with article 202 of Law 6,404/76, and the preferred or priority dividends are calculated in accordance with the Company's Bylaws.

As a result of a resolution by the Board of Directors, the Company may pay or credit, as dividends, interest on shareholders' equity (JSCP), under the terms of article 9, paragraph 7, of Law 9,249, as of 12/26/95. The interest paid or credited will be offset with the minimum mandatory annual dividend amount, in accordance with article 43 of the Company's Bylaws.

The following table shows the periods in which the deferred tax assets corresponding to income tax and social contribution on net income (CSLL) are expected to be realized, which are derived from temporary differences between book value on the accrual basis and the taxable income, as well as in the tax loss and in the negative basis of social contribution, when existing. The realization periods are based on a technical study that used forecast future taxable income, generated in fiscal years when the temporary differences will become deductible expenses for tax purposes. These assets are recorded in accordance with CVM Instruction 371/02 requirements, and in view of the closing of the fiscal years the technical study is submitted to the approval of the board of executive officers and the Board of Directors, as well as its examination by the Fiscal Council.

The recoverable amount expected after 2015 is a result of a provision to cover an actuarial insufficiency of pension plans that is being settled according to the maximum remaining period of 15 years and nine months, in line with the period established by the Supplementary Pension Department (SPC). Despite the time limit stipulated by the SPC and according to the estimated future taxable income, the Company presents conditions to fully offset the deferred taxes in a period lower than ten years, if it opts to fully anticipate the payment of the debt. Tax credits in the amount of R\$ 133,759, attributed to the Consolidated, were not recorded due non-existence of necessary requirements for the history and/or future forecast of taxable income in VANT, BrT Multimídia, BrT CSH and BrT CS Ltda, subsidiaries that the Company holds direct or indirect control.

Other Taxes Recoverable

They are comprised of federal withholding taxes and payments made, calculated based on legal estimates, which will be offset against future tax obligations. The ICMS recoverable arises, for the most part, from credits recorded in the acquisition of fixed assets, whose compensation with ICMS payable may occur in up to 48 months, according to Supplementary Law 102/00.

Current	17,043	-	74,818	55,516
Long-term	-	-	259,594	252,274

The authorizations for Personal Mobile Services (SMP) are represented by the terms signed, in 2002 and 2004, by the subsidiary 14 Brasil Telecom Celular S.A. with ANATEL, to offer SMP Services for the next fifteen years in the same area of operation where the Company has a concession for fixed telephony. Out of the contracted value, 10% was paid at the time of signing the contract, and the remaining balance was fully recognized in the subsidiary's liabilities to be amortized in equal, consecutive annual installments, with maturities foreseen for the years 2006 to 2010 (balance of five installments), and 2007 to 2012 (balance of six installments), depending on the fiscal year when the agreements were executed. The remaining balance is adjusted by the variation of IGP-DI, plus 1% per month.

The concession of STFC refers to the provision established according to the accrual basis, taking as basis the application of 1% on the net revenue of taxes. According to the current concession agreement, the payment in favor of ANATEL will have a maturity every two years, defined for April of the odd years and will be equivalent to 2% of the net revenue estimated in the immediately previous year. The first payment is estimated for April 2007.

The amount of other authorizations on the quarter closing date belonged to VANT and refers to the authorization granted to the use of radiofrequency blocks associated with the exploitation of multimedia communication services, obtained from ANATEL. On April 2006 the transfer registration of such granting to BrTMultimídia took place, which assumed the outstanding balance, with a variation of the IGP-M, plus 1% a month. The settlement of this obligation will be paid in six equal, consecutive and annual installments, counted as from May 2006.

36. PROVISIONS FOR PENSION PLANS

They refer to the recognition of the actuarial deficit of the pension plans of defined benefit managed by FBrTPREV and Fundação 14 appraised by independent actuaries at the end of each fiscal year in accordance with Deliberation

CVM 371/00.

To minimize the effects to be determined in the actuarial revaluation of the end of the year, the effects of the variation of INPC and pro-rata interest of 6% p.a. on the liabilities of the plans are monthly recognized, deduced from earnings of assets belonging to them. These charges recorded in the result in the quarter represented R\$ 3,985. In the quarter, R\$ 2,401 was also recognized, resulting from administrative costs and non-actuarial variation which took place in the liabilities of the foundations. Additionally, aiming to follow the increase expectation of the longevity of the participants of the sponsored plans, the Company contracted with its independent actuaries a study to enable to add to the recognized provision the economic effects of this trend, resulting in the complement of R\$ 4,781 to the provision established.

The amount paid to Fundação BrTPREV in the quarter totaled R\$ 34,179 (R\$ 25,440 in 2005) and refers to the amortizing contributions and administrative costs.

The funds for sponsored supplementary pensions are detailed in Note 6.

Self-financing funds - Rio Grande do Sul branch

They correspond to the credits of capital participation, paid by engaged subscribers, for acquisition of the right of use of switched fixed telephone service, still under the elapsed self-financing modality. It happened that, as the shareholders of the Company had fully subscribed the capital increase made to repay in shares the credits for capital participation, there were no unsold shares to be delivered to the engaged subscribers. Part of these engaged subscribers, who did not accept the Company's Public Offering for return of the referred credits in cash, as established in article 171, paragraph 2, of Law 6,404/76, are awaiting resolution of the ongoing lawsuit, filed by the Public Prosecution Service and Other, aiming at reimbursement in shares.

Self-financing Installment Reimbursement - PCT

This refers to the payment, either in cash or as offset installments in invoices for services of engaged subscribers derived from the Community Telephony Plan - PCT, in return to the obligation of repayment in shares. For these cases, there is settlement or judicial decision.

39. FUNDS FOR CAPITALIZATION

The expansion plans (self-financing) were the means by which the telecommunications companies financed part of the network investments. With the issue of Administrative Rule 261/97 by the Ministry of Communications, this mechanism for raising funds was eliminated, and the existing amount of R\$ 7,974 (R\$ 7,974 on 12/31/05) is derived from plans sold prior to the issue of the Administrative Rule, the corresponding assets to which are already incorporated in the Company's fixed assets through the Community Telephony Plan - PCT. For reimbursement in shares, it is necessary to await the judicial ruling on the suits brought by the interested parties.

41. COMMITMENTS

Services Rendered due to Acquisition of Assets

BrT SCS Bermuda acquired fixed assets from an already existing company. Together with the assets of underwater cables acquired, it assumed the obligation of providing data traffic services, initially contracted with the company that sold the assets, which was a beneficiary of the financial resources of the respective advances. The time remaining for the providing of such assumed services is approximately eighteen years.

42. INFORMATION PER BUSINESS SEGMENT CONSOLIDATED

Information per segments is presented in relation to the Company and its subsidiaries business, which was identified based on their performance and management structure, as well as the internal management information.

The operations carried out among the business segments presented were based on conditions equivalent to the market.

The income by segment, as well as the equity items presented, takes into consideration the items directly attributable to the segment, also taking into account those which can be allocated on reasonable basis.

Retention of Cash and Cash Equivalents

As from April 11, 2006 Banco do Brasil made retentions in the investment funds accounts, integrating the high-liquid investments of the Company and Freelance S.A., in the amounts of R\$ 91,439 and R\$ 100,000, respectively, resulting in the consolidated retained amount of R\$ 191,439. The retention arises from the non-compliance with certain financial indices set forth in the financing agreements that the Company maintains with BNDES, as mentioned in note 5.h. The retained amounts were the purpose of reclassification of the item cash and cash equivalents to the item of contractual retentions, note 24.

The retained amount will be normally remunerated while it remains in the block condition. The release will take place from the moment the Company resets the financial indices defined in the agreements entered into with BNDES or is successful in the adequacy of the financial covenants entered into.

Fixed Plant **The utilization rate was steady during 1Q06 and reached 88.2% in March.** BrT has a technical reserve of nearly 1.3 million lines installed in order to immediately meet a demand increase, without the need of additional investments. **At the end of 1Q06, Brasil Telecom's plant was comprised of 10.8 million lines installed, 9.5 million of which were in service.**

The participation of the hybrid terminal LigMix in the plant in service reached 8.7% by the end of March, compared to 8.2% in December. The hybrid terminal is available in the centers with idle capacity upon verification of customer's default, or in marketing campaigns targeted at low income customers.

Exceeding Local Pulses **In 1Q06, Brasil Telecom reached 2.3 billion exceeding pulses,** representing a 4.2% reduction compared to 4Q05. This variation results from the seasonality, once the

first quarter coincides with vacation and carnival period and the weighing of business days is lower than the average presented in other quarters of the year. The increase in the plant of ADSL accesses and the expansion of the mobile plant also contributed to this performance.

Long-Distance Traffic Long-distance traffic decreased 0.8% compared to the 4Q05 and **totaled 1.4 billion minutes in 1Q06**. The factors that explain this reduction are the seasonality and the higher competition.

LD Market Share **Brasil Telecom closed 1Q06 with a 61.3% market share in the inter-regional segment and a 34.9% share in the international segment** (quarterly average).

Brasil Telecom ended March with an average quarterly market share of 84.9% in the intra-regional segment, 2.0 p.p. higher than the 82.9% recorded in 1Q05. In the inter-regional and international segments, Brasil Telecom conquered 10.3 p.p. and 5.8 p.p., respectively, of market share in 12 months.

Mobile Accesses **BrT Móvel reached 2,460.0 thousand mobile accesses in service**, representing a net addition of 247.2 thousand accesses in the quarter. This figure represents 31.4% of the target estimated for December 2006. At the end of 1Q06, **BrT Móvel's customer portfolio was 11.2% higher than that of 4Q05** and, compared to the same quarter of 2005, **there was a 145.1% increase**. During 12 months, BrT Móvel sold 1.9 million accesses.

Customer Base Mix	By the end of March, the mobile plant was composed of 820.2 thousand postpaid plan subscribers (33.3% of the BrT Móvel s customer base) which showed the highest share in postpaid among the operators present in Brazil which disclose information.
Coverage	During 1Q06, BrT Móvel increased to 3,333 the number of points of sale and maintained its coverage area in 782 locations, reaching 86% of the population in the Region II.
Market Share	By the end of 1Q06, BrT Móvel reached a 9.4% market share in its operating area, compared to 4.8% in 1Q05. In the Midwest and North Regions, BrT Móvel reached an 11.9% share, surpassing the third operator.

DATA

Broadband

ADSL Accesses During 1Q06, **Brasil Telecom added 70.2 thousand accesses to its plant, amounting to 1,084.1 thousand broadband accesses in service by the end of March 2006**, a 6.9% and 73.4% increase compared to 4Q05 and 1Q05, respectively.

The residential market had a 93.7% share in the total broadband accesses at the end of 1Q06, and the corporate market had a 6.3% share.

Internet Providers

BrTurbo, iG and iBest **Brasil Telecom Internet is a leader in the provision of dialed internet access in the Brazilian market and generated, by means of its three providers, 9 billion minutes in 1Q06.** There are approximately 1 million customers of paid services, which include the provision of broadband access and value-added services.

iBest consolidated its position as the largest dialed access provided in the Region II, with a market share estimated at 52% in 1Q06. It is present in more than 1,800 cities, it has approximately 11 million registered users and 1.5 million active users.

iG generated, in 1Q06, a traffic of 4.6 billion minutes, being the leader in this concept in the Regions I and III. It is present in more than 1,200 cities, it has 16.2 registered users and 2.0 million active users. **The customer base of broadband access of iG grew 16% compared to 2005, reaching 209 thousand customers at the end of 1Q06.**

BrTurbo reached 580 thousand customers in the Region II at the end of 1Q06, a 6% growth compared to the 2005 base. Approximately 57% of broadband access customers of Brasil Telecom were subscribers of BrTurbo.

At the end of **1Q06, Brasil Telecom counted on 793 thousand broadband customers all over Brazil.**

ECONOMIC-FINANCIAL PERFORMANCE

Revenues

Local Service

The local service gross revenue reached R\$ 1,769.1 million in 1Q06, 2.8% lower than that recorded in 4Q05. Out of the total of the local service revenue, 70.6% came from subscription and service measured revenue, and 28.5% represented revenues with VC-1 calls.

Gross revenue with VC-1 calls reached R\$ 503.5 million in 1Q06, 3.2% lower than the one in 4Q05, reflecting the traffic drop. The fall trend of VC-1 traffic has been proved since the second half of 2005, as a reflection of the aggressive promotional campaigns of mobile operators focused on mobile-mobile traffic. **Compared to 1Q05, the gross revenue with VC-1 calls was 2.4% lower**, in spite of the 7.99% readjustment in the VC-1 fee applied as from July 12, 2005.

In the first quarter, subscription gross revenue reached R\$ 893.3 million, a 0.9% reduction compared to the R\$ 901.2 million recorded in 4Q05, due to the reduction of 17 thousand lines in the service plant, as well as due to the increase of 42.6 thousand hybrid lines, whose monthly subscription of R\$ 28.00 is 27.4% lower than the fee charged in the basic plan, taking as basis the Federal District. **It is important to mention a reclassification promoted by Brasil Telecom in 1Q06, which transferred from the subscription revenue, the revenue coming from the Additional Franchise plan to the service measured.**

The gross revenue with service measured totaled R\$ 355.6 million in 1Q06, 5.9% lower than the one in 4Q05, reflecting the seasonal effect of the period and the commercialization of ADSL accesses, which caused a 4.2% drop in the volume of exceeding pulses, and the average fee lower than the Local Basic Plan practiced in the Additional Franchise plans. **Compared to 1Q05, the gross revenue with service measured was 4.5% higher**, mainly due to the 7.27% fee readjustment applied as from July 3, 2005.

Public Telephony **Public telephony gross revenue reached R\$ 127.9 million in 1Q06, 12.2% lower than the revenue reached in 4Q05 and 47.1% higher than the revenue of 1Q05.** The variation compared to 4Q05 is mainly explained by the 8.4% reduction in credits sales. **The increase against 1Q05 was influenced by the fee readjustment of 7.37% in the credit rate of payphone card and by the launch of Brasil Virtual Cel**, which transferred, in that quarter, R\$ 42.6 million from the public telephony revenue to BrT Móvel. Brasil Virtual Cel was discontinued in April 2005.

Long Distance **Gross revenue from LD services amounted to R\$ 703.9 million in 1Q06**, representing a 0.3% reduction compared to 4Q05. This performance was affected by the 0.8% drop in traffic. Compared to 1Q05, LD revenue was 6.8% lower due to the 11.7% reduction in traffic, offset by the 2.94% fee readjustment applied as from July 3, 2005.

Interconnection **Interconnection revenue in 1Q06 was R\$ 108.5 million**, a 26.9% and 34.1% reduction compared to 4Q05 and to 1Q05, which was due to the TU-RL drop. This fee started corresponding to 50% of the value of the local minute of the Basic Plan as from January 1, 2006. TU-RL is R\$ 0.03679, against R\$ 0.04548 in 4Q05.

Data Communication **In 1Q06, gross revenue from data communication and other services of the main activity added up to R\$ 538.4 million, a 2.6% reduction compared to the previous quarter and a 28.0% increase compared to 1Q05.** Compared to 4Q05 the performance reflects the reduction of R\$ 23.9 million in the revenue coming from traffic fomentation in internet

providers, which had their agreements with the other telecommunications operators renegotiated at the end of 2005. With the drop of TU-RL, the risk resulting from the interconnection regime was reduced, generating a pressure in the prices practiced. On the other hand, we point out the growth of network formation services (IP Turbo, Serviço Plus, IP Dedicado) and the 6.9% raise in ADSL accesses in service.

Mobile Telephony **In 1Q06, mobile telephony consolidated gross revenue totaled R\$ 227.6 million**, of which R\$ 173 million referred to services and R\$ 54.6 million to handsets and accessories sales. This performance represents a 9.8% reduction compared to 4Q05 and a 54.8% increase compared to 1Q05.

Compared to 4Q05 and 1Q05, the mobile telephony services gross revenue of 1Q06 surpassed by 26.6% and 73.7%, respectively, due to the increase in the customer portfolio. The gross revenue with handsets and accessories sales was 52.8% lower than the one recorded in 4Q05, for sales channels were provided by purchases made at the end of 2005.

Mobile Telephony ARPU **Total mobile telephony ARPU recorded in 1Q06 was R\$ 26.6**. ARPU referring to postpaid accesses was R\$ 40.0 and ARPU related to prepaid was R\$ 20.1. Compared to 4Q05, postpaid ARPU decreased by 7.5% due to the higher representativeness of the Control Plan in the total of postpaid accesses.

Consolidated Net Revenue **The consolidated net revenue of Brasil Telecom reached R\$ 2,476.9 million in 1Q06**, 4.4% lower than in 4Q05 and 1.2% higher than the one in 1Q05.

Costs and Expenses

Operating Costs and Expenses **In 1Q06, operating costs and expenses totaled R\$ 2,316.3 million, against R\$ 2,948.7 million in 4Q05 and R\$ 2,287.2 million in 1Q05**. The items that considerably influenced the variation of 1Q06 compared to 4Q05 were: provisions and losses (-61.8%), other (-53.8%), material (-49.2%), advertising and marketing (-68.1%) and personnel (+17.1%).

Number of Employees **At the end of 1Q06, 5,420 employees worked in the fixed telephony segment of Brasil Telecom**, compared to 5,803 in the previous quarter. **BrT Móvel ended 1Q06 with 735 employees**, against 1,069 in 4Q05. By the end of March, 6,155 people worked in the Group, a **10.4% reduction compared to December**.

Personnel **In 1Q06, personnel costs and expenses reached R\$ 189.2 million, a 17.1% increase compared to the previous quarter**. This variation results from indemnities due to the reduction in the staff which totaled R\$ 44.1 million. In addition, personnel costs and expenses were influenced by Collective Bargaining Agreement in force as from January 2006, which resulted in an average salary adjustment of 6.0%.

Third-party Services **Costs and expenses with third-party services, excluding interconnection and advertising & marketing, totaled R\$ 540.9 million in 1Q06**, 10.8% lower than the amounts assessed in the previous quarter. The variation in third-party costs and services in 1Q06 compared to 4Q05, results from:

Reduction of R\$ 28.3 million in costs and expenses with **negotiation and intermediation**, due to the 39.7% drop in the volume of handsets sold in 1Q06, which generated expenses with commission of sales lower than the ones recorded in 4Q05;
Reduction of R\$ 4.3 million in costs and expenses with **consulting**; and

Reduction of R\$ 5.0 million in costs and expenses with **call center services**.

Interconnection **Interconnection costs totaled R\$ 498.5 million in 1Q06**, a 3.1% and 13.5% reduction compared to 4Q05 and 1Q05, respectively. This better performance reflects the scale gain of BrT Móvel, the 19.1% drop in TU-RL and the change in the profile of VC traffic, in which VC-1 calls, responsible for the larger portion of the interconnection cost (VU-M), reduced their share compared to the total traffic.

Advertising and Marketing **Advertising & marketing expenses totaled R\$ 20.4 million in 1Q06, a 68.1% reduction** compared to 4Q05 resulting from the integrated communication strategy between the fixed and mobile operations and the seasonality observed in the last quarter of the year due to Christmas advertising campaigns.

Accounts Receivable Losses(PCCR)/ Operating Gross Revenue (ROB) **The Accounts Receivable Losses (PCCR) and the gross revenue ratio in 1Q06 was 3.1%**, against 4.1% in 4Q05. The accounts receivable losses totaled R\$ 112.8 million in 1Q06, 28.4% lower than in 4Q05. In December, Brasil Telecom made additional provisions in the amount of R\$ 74 million, relating to risks of losses in accounts of customers submitted to co-billing. Not considering the extraordinary effect, PCCR of 1Q06 would have surpassed by R\$ 29.4 million PCCR of 4Q05.

Provisions for Contingencies **In 1Q06, provisions for contingencies totaled R\$ 75.1 million**, a R\$ 259.7 million reduction compared to 4Q05, when extraordinary adjustments of R\$ 275 million were recorded: (i) R\$ 198 million relating to probable risks resulting from judicial and administrative proceedings and (ii) R\$ 77 million resulted from reversal of tax credits, specially ICMS on consumption of electric power and materials used in the plant maintenance. **Not considering the extraordinary effect, the provisions for contingencies accounted in 1Q06 surpassed by R\$ 15.3 million the ones of the previous quarter, reflecting updates in the judicial proceedings in course.**

Materials **Material costs and expenses totaled R\$ 83.9 million in 1Q06**, a 49.2% reduction compared to 4Q05, mainly explained by the 39.7% reduction in the number of cell phones sold in the period. **Material costs and expenses of BrT Móvel totaled R\$ 60.8 million, representing 72.6% of the total material costs and expenses recorded by the Group.**

Other Operating Costs and Expenses/Revenues **Other operating costs and expenses amounted to R\$ 126.0 million in 1Q06**, a 53.8% reduction compared to 4Q05. In 4Q05, provisions which totaled R\$ 210 million were made, R\$ 171 million of which was related to adjustments in actuarial calculations and R\$ 39.4 million referring, mainly, to provisions related to the change in the calculation base of FUST (Fund for Universalization of Telecommunications Service). Not considering the extraordinary effect, other operating costs and expenses in 1Q06 were R\$ 63.5 million worse compared to the previous quarter. This difference results from agreements entered into in 4Q05 with operators of the sector, as well from the reception of bonus arising from the achievement of cell phone sales targets in the same quarter. **In 1Q06, R\$ 17.0 million referring to burden resulting from the postponement of concession agreements was recorded**, equivalent to 2% , every two years, of the STFC revenue, net of taxes and social contributions.

EBITDA

R\$ 830.3 million EBITDA **Brasil Telecom s consolidated EBITDA was R\$ 830.3 million in 1Q06. The consolidated EBITDA margin reached 33.5% in 1Q06.** In 4Q05, the adjusted EBITDA reached R\$ 874.9 million, representing an adjusted EBITDA margin of 33.8%.

EBITDA of BrT Móvel stood negative at R\$ 40.3 million in 1Q06, representing a negative EBITDA margin of 18.1%. Despite of not being a mature operation yet, the performance of BrT Móvel in 1Q06 was a lot higher than the one observed in the previous quarter, due to the increase in the subscriber base, lower customer acquisition cost and lower negotiation, intermediation, advertising and marketing expenses.

Indebtedness

Total Debt	By the end of March 2006, Brasil Telecom's consolidated gross debt totaled R\$ 4,649.5 million, 5.3% lower than that registered by the end of December.
Net Debt	Brasil Telecom closed 1Q06 with a cash of R\$ 1,031.5 million, against R\$ 1,730.1 million at the end of December. The variation results, mainly, from the payment of interest on shareholders' equity (JSCP) in the amount of R\$ 386.4 million on January 13, 2006 and from the payment of R\$ 408.6 million to suppliers. The consolidated net debt totaled R\$ 3,618.1 million, 13.8% higher than that recorded in December 2005.
Long-term debt	In March, 67.2% of the total debt was allocated in the long term.
Accumulated Cost of Debt	The Company's consolidated debt had in 1Q06 an accumulated cost of 9.5% p.a. equivalent to 57.0% of the CDI.
Financial Leverage	At the end of March 2006, Brasil Telecom's financial leverage, represented by the ratio of its net debt to shareholders' equity, was equal to 65.8%, against 57.8% in the previous quarter.

17.01 SPECIAL REVIEW REPORT UNQUALIFIED

(Convenience Translation into English from the Original Previously Issued in Portuguese)

INDEPENDENT ACCOUNTANTS REVIEW REPORT

To the Management and Shareholders of
Brasil Telecom S.A.
Brasília DF

1. We have performed a special review of the accompanying interim financial statements of Brasil Telecom S.A. and subsidiaries (Company and Consolidated), consisting of the balance sheets as of March 31, 2006, and the related statements of income for the quarter then ended and the performance report, all expressed in Brazilian reais and prepared in accordance with Brazilian accounting practices under the responsibility of the Company's management.
2. We conducted our review in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council, which consisted principally of: (a) inquiries of and discussions with persons responsible for the accounting, financial and operating areas as to the criteria adopted in preparing the interim financial statements, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and results of operations of the Company and its subsidiaries.
3. Based on our special review, we are not aware of any material modifications that should be made to the interim financial statements referred to in paragraph 1 for them to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory interim financial statements.
4. We conducted our special review for the purpose of issuing a special review report on the mandatory interim financial statements. Supplemental disclosure of cash flow information is presented for purposes of additional analysis. Such supplemental information for the quarter ended March 31, 2006 has been subjected to the same review procedures applied to the interim financial statements and, based on our special review, is fairly presented, in all material respects, in relation to the interim financial statements taken as a whole.
5. The balance sheets as of December 31, 2005, presented for comparative purposes, were audited by other independent auditors, whose report thereon, dated March 27, 2006, was unqualified and contained an emphasis of matter paragraph regarding the agreement entered into on April 28, 2005, establishing the merger of the subsidiary 14 Brasil Telecom Celular S.A. into Tim Brasil Serviços e Participações S.A. In addition, the statements of income and cash flows for the quarter ended March 31, 2005, presented for comparative purposes, were reviewed by other independent auditors, whose special review report thereon, dated May 5, 2005, was unqualified and contained an emphasis of matter paragraph regarding the publication in the Official Gazette on April 14, 2005 of the decision rendered by the Board of Directors of the National Telecommunications Agency (ANATEL), which approved (i) the replacement of fund managers and administrators, who have an indirect interest in the entity that controls Brasil Telecom Participações S.A. (parent company of Brasil Telecom S.A.) and Brasil Telecom S.A., and (ii) changes arising from shareholders' agreements entered into by the controlling group's investors, under dispute by investors that belong to the controlling group of Brasil Telecom S.A. and its parent company Brasil Telecom Participações S.A., as well as an emphasis of matter paragraph related to the
