**BRASIL TELECOM MOBILE SURPASSES ANOTHER MILESTONE:
4 MILLION CLIENTS**

Brasil Telecom Participações S.A. (Bovespa: BRTP3 and BRTP4 / NYSE: BRP) and **Brasil Telecom S.A.** (Bovespa: BRTO3 and BRTO4 / NYSE: BTM) announce that, after completing three years of operation, Brasil Telecom Mobile surpassed the milestone of 4 million clients.

The entry of Brasil Telecom Mobile represented a revolution in mobile service in Region II, when innovative products and promotions were launched such as the Pula-Pula, some convergent offers, the single card (cartão único), banking solution for all clients, wap show, among others. In 2007, Brasil Telecom's vocation for innovation continued with: Use the Public Phone for Free (Fale de Graça no Orelhão), Talk for Free at Night and on Sundays (Fale de Graça à Noite and Fale de Graça aos Domingos).

The success of sales this year is the result of widening our customer care network, of the convergence strategy and our innovative offers.

Brasília, Brazil, October 8th, 2007.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
