04.01 NOTES TO QUARTERLY INFORMATION**1. PRESENTATION OF THE QUARTERLY FINANCIAL INFORMATION****Significant accounting policies**

The quarterly information has been produced in accordance with the accounting practices adopted in Brazil, in conformity with Brazilian Corporation Law and the standards and procedures laid down by the Brazilian Securities and Exchange Commission - CVM.

No changes were made to the main accounting guidelines followed by the Company in relation to those stated in the 2006 annual report.

Certain balances relating to prior periods were reclassified in order to properly compare the interim financial information between the periods.

FEDERAL PUBLIC SERVICE**BRAZILIAN SECURITIES COMMISSION (CVM)****ITR - QUARTERLY INFORMATION - As of - 09/30/2007****Corporate Law****COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY**

Local short term investments provide immediate liquidity and are mainly comprised of quotas in exclusive funds, which funds are invested in federal public bonds and financial derivative operations, executed by fund managers and tied to US Dollar futures contracts and Interbank Deposits (DI) guaranteed by the Brazilian Stock and Futures Exchange (BM&F). Exclusive funds do not have any significant financial obligations and are limited to daily obligations of adjustments to the positions of the BM&F (Stock and Futures Exchange), auditing services, services fees regarding custody of assets and execution of financial operations and other administrative expenses. Short-term investments balances are recorded at cost plus accrued income, which is recognized proportionately up to the balance sheet date at amounts not exceeding their respective market values.

At September 30, 2007 and June 30, 2007, the Company and its subsidiary PifCo had amounts invested abroad in an exclusive investment fund that held, among others, debt securities of some of the Petrobras Group companies and a Special Purpose Company established in connection with the Company's projects, mainly CLEP and Malhas project, in the amount equivalent to R\$7.048.781 thousand and R\$ 6.059.479 thousand, respectively. This amount refers to consolidated companies and was offset against the balance of financing classified under current and non-current liabilities.

3. ACCOUNTS RECEIVABLE, NET

Accounts receivable are broken down as follows:

| | R\$ thousand | | | |
|--|---------------------|-------------------|-----------------------|-------------------|

4. RELATED PARTIES

Petrobras carries out commercial transactions with its subsidiaries, affiliated companies and special purpose companies on normal market terms. The transactions for purchase of oil and oil products from the subsidiary PifCo carried out by Petrobras feature longer term for settlement, since PifCo is a subsidiary created for this purpose, considering the levy of the related changes in the period. The amount related to export prepayments and international market funding are made at the same rate obtained by the subsidiary. The value, income and charges in connection with other transactions, especially intercompany loans, are established at arm's length and/or in accordance with applicable legislation.

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY**

Corporate Law

a) Bolivia-Brazil Gas pipeline

The Bolivian section of the gas pipeline is the property of Gás Transboliviano S.A. (GTB), in which Gaspetro holds a minority interest (11%).

A US\$ 350 million turn-key contract for the construction of the Bolivian section of the pipeline was signed by Petrobras and Yacimientos Petrolíferos Fiscales Bolivianos (YPFB), which assigned its rights under this contract to GTB, to be paid over 12 years, from January 2000 onwards, in the form of transportation services.

On September 30, 2007, the balance of the rights to future transportation services, on account of costs already incurred in the construction up to that date, including interest of 10,07% p.a., is R\$ 542.720 thousand (R\$ 586.324 thousand on June 30, 2007), being R\$ 425.418 thousand (R\$ 463.451 thousand on June 30, 2007) classified under non-current assets as advances to suppliers. This amount also includes R\$ 116.317 thousand (R\$ 122.816 thousand on June 30, 2007) relating to the anticipated acquisition of the right to transport 6 million cubic meters of gas over a 40-year period (TCO - Transportation Capacity Option).

The Brazilian section of the gas pipeline is the property of Transportadora Brasileira Gasoduto Bolívia-Brasil S.A. (TBG), a Gaspetro subsidiary. On September 30, 2007, Petrobras' total receivables from TBG for management, recharge of costs and financing relating to the construction of the gas pipeline and anticipated acquisition of the right to transport 6 million cubic meters of gas over a 40-year period (TCO) amounted to R\$ 965.792 thousand

(R\$ 1.048.069 thousand on June 30, 2007), classified under non-current assets as accounts receivable net.

6. PETROLEUM AND ALCOHOL ACCOUNT - STN**Settlement of accounts with the Federal Government**

In order to conclude the settlement process, as established by Provisional Measure No. 2.181, of August 24, 2001, Petrobras after having provided all needed information required by the Secretary of the National Treasury - STN is in discussions with this office seeking to resolve the remaining outstanding differences existing between the parts.

The balance of the account as at September 30, 2007 of R\$ 796.190 thousand (R\$ 793.102 thousand as at June 30, 2007) may be settled by the Federal Government with National Treasury Bonds issued in the same amount of the final balance of the settlement of accounts or by offsetting with other amounts that might be owed by Petrobras to the Federal Government, at the time, including those related to taxes, or a combination of the foregoing options.

7. MARKETABLE SECURITIES

Marketable securities classified as non-current assets are comprised as follows:

| | R\$ thousand | | Parent Company | |
|-----------------|---------------------|-------------------|-----------------------|-------------------|
| | Consolidated | | | |
| | 09.30.2007 | 06.30.2007 | 09.30.2007 | 06.30.2007 |
| NTN-B | 2.919.444 | | 2.919.444 | |
| Bank securities | 488.100 | 146.134 | | |
| B Certificates | 168.137 | 176.119 | | |
| NTN-P | 8.100 | 7.969 | 3.434 | 3.372 |
| Other | 151.499 | 255.103 | 4.815 | 4.815 |
| | 3.735.280 | 585.325 | 2.927.693 | 8.187 |

The B Series National Treasury Notes will be maintained in the Company's portfolio and will be used in the future to guarantee future long term agreements entered into with Petros, to settle amounts owed by Petrobras. The nominal value of the NTN-Bs is restated based on variations in the Amplified Consumer Price Index (IPCA). Interest coupons will be paid at half-yearly intervals based on the set rates for buy transactions and range from 6,12% to 7,13% p.a.. The due dates of these notes are 2024 and 2035, with withdrawal to be made in full on their respective maturity dates.

Bank and corporate securities have a maturity date of 2014 and an interest yield of 5,60% to 8,50% p.a.

The B certificates, which were received by Brasoil on account of the sale of platforms in 2000 and 2001, have semi-annual maturity dates until 2011 and yield interest equivalent to the Libor rate plus 2,5% p.a. to 4,25% p.a..

8. PROJECTS FINANCINGS

Petrobras develops projects together with local and international finance agencies and companies in the oil and energy sector to establish operational partnerships for the purpose of making viable investments necessary in the business areas in which the Company operates.

Considering that the projects financings are implemented by Special Purpose Companies, whose activities are, essentially, controlled by Petrobras, the expenses incurred by the Company on projects being negotiated or which have been negotiated with third parties are classified in the consolidated financial statements as non-current assets - property, plant and equipment.

Corporate Law

8.1. Reimbursements receivable and ventures under negotiation

The receivable balance, net of advances received, referring to the costs incurred by Petrobras on projects already negotiated with third parties, is classified in the non-current assets, as Projects Financings, and is broken down as follows:

| Projects/companies | R\$ thousand | |
|--|-----------------------|-------------------|
| | Parent Company | |
| | 09.30.2007 | 06.30.2007 |
| Cayman Cabiunas Investment Co. Ltda. | 751.837 | 815.078 |
| PDET Offshore S.A. | 939.660 | 829.237 |
| Other | 168.610 | 168.820 |
| Total | 1.860.107 | 1.813.135 |
| Advances | (595.023) | (620.074) |
| Total net reimbursements receivable | 1.265.084 | 1.193.061 |
| Ventures under negotiation | 84.539 | (* 62.461 |
| Total projects financings | 1.349.623 | 1.255.522 |

(*) Includes expenses already incurred by Petrobras on projects for which partners have not yet been specified.

8.2. Projects financings obligations

| | Project | R\$ thousand | |
|--------------------------|----------------|-----------------------|-------------------|
| | | Parent Company | |
| | | 09.30.2007 | 06.30.2007 |
| PDET Offshore S.A. | PDET | 1.198.357 | 1.198.357 |
| NovaMarlim Petr leo S.A. | NovaMarlim | 208.017 | 249.603 |
| Total | | 1.406.374 | 1.447.960 |

a) NovaMarlim Project

NovaMarlim Petr leo S.A. provided funding for the project, the balance of which, net of operating costs already incurred by Petrobras in the amount of R\$ 1.906.518 thousand (R\$ 1.864.931 thousand as of June 30, 2007) and transferred assets of R\$ 49.465 thousand, reached R\$ 208.017 thousand (R\$ 249.603 thousand as of June 30, 2007) classified in the current liabilities as Projects Financings.

Of the total amount related to legal actions of approximately R\$ 895.795 thousand as at September 30, 2007, some R\$ 80.159 thousand had been withdrawn from the Company's accounts as a result of judicial rulings of advance relief, which were annulled as a result of an appeal filed by the Company.

Petrobras, with the support of the state and federal authorities, has succeeded in stopping the execution of other withdrawals, and is making all possible efforts to obtain reimbursement of the amounts that had been unduly withdrawn from its accounts.

10.4. Other Information**a) Investments in Ecuador***a.1) Agreement with Teikoku Oil Co. Ltd. on operations in Ecuador*

On January 11, 2007, the Ecuadorian Ministry of Mines approved the previous agreement executed in January 2005 for the sale by Petrobras Energia S.A. (PESA), an indirect subsidiary of Petrobras, to Teikoku of 40% of the rights and obligations of the participation contracts in blocks 18 and 31, in Ecuador and the transfer of 40% of the oil transportation contract with Oleoducto de Crudos Pesados Ltd. (OCP). As a result of this approval, the parties are currently carrying out the necessary actions to obtain the amendments to these participation contracts, which have to be approved by Petroecuador, to incorporate Teikoku as a partner in these blocks. Once these amendments have been made, the economic terms and conditions of this transaction will start to take effect

Corporate Law

a.2.) New Hydrocarbons Law

In April 2006, the Law which amended the Hydrocarbons Law (Ley de Hidrocarburos) was enacted in Ecuador and regulated in July 2006, which establishes that the Government shall hold a minimum interest of 50% in the extraordinary revenues generated by increases to the sale price of Ecuadorian oil as compared to the monthly average oil sale price established at the date the respective oil sale contracts were executed, stated in the currency of the month of settlement.

In January 2007, EcuadorTLC, a subsidiary of PESA, paid the amount equivalent to R\$ 47.811 thousand charged by Petroecuador, relating to the period from April to December 2006, and from this date onwards, EcuadorTLC, began making the payments based on the criteria established by Petroecuador.

In July 2007, Petroecuador notified EcuadorTLC of the differences in the value calculated for the Palo Azul field relating to the period from January to June 2007 totaling R\$ 29.422 thousand, using a different method to calculate the shares. EcuadorTLC requested that Petroecuador reconsider the criteria utilized for the calculation, as it maintains that it had applied the criteria suggested by the Attorney General and the same method of calculation used by Petroecuador in January and February 2007.

On October 19, 2007 the Dirección Nacional de Hidrocarburos (DNH) notified EcuadorTLC of a new charge, relating to the period from April 25, 2006 to December 31, 2006, including interest, which implies an additional expense of US\$ 30,5 million. On October 22, 2007 EcuadorTLC formalized its disagreement with this second charge to the DNH.

On October 18, 2007 the president of the Republic of Ecuador announced an amendment to the rules for applying Law No. 42/2006 to the Hydrocarbons Law, which from that date onwards, increased the State's share in the extraordinary surpluses in the price of the oil to 99%, thus reducing the share of the oil companies to 1%.

The set of changes brought about by the above-mentioned amendment, if put into effect, will substantially alter the terms established by the parties with regard to the approval of the respective share contracts, affecting projections of the future development of business in Ecuador and, consequently, the ability to recoup the investments made. The board of directors of the Company is currently in the process of assessing the effects thereof and possible courses of action. The financial statements as at September 30, 2007 do not record any effects arising from the the additional charge made by the DNH or the abovementioned revision of the rules of Law 42/2006.

Corporate Law

b) Investments in Bolivia

b.1) New Hydrocarbons Law

Supreme Decree 28.701 came into force in Bolivia on May 01, 2006, which nationalized all natural hydrocarbon resources, obliging companies currently producing gas and oil to transfer ownership of the entire hydrocarbon production to YPFB.

In addition, by means of the above mentioned decree, the Bolivian government nationalized the shares required for YPFB to gain control, with at least 50% plus 100% of the shares, of Petrobras Bolivia Refinación S.A. (PBR), in which Petrobras, indirectly, is the sole shareholder (Petrobras Bolivia Inversiones e Servicios S.A. 51% e Petrobras Energia Internacional S.A. 49%).

On October 28, 2006, Petrobras Bolivia and its partners signed operating agreements with YPFB for the operations of the San Alberto, San Antonio, Rio Honda and Ingre blocks, that are operated by Petrobras, which were registered and came into effect on May 02, 2007. These contracts establish that the revenues, royalties, shareholdings, IDH, transportation and compression will be absorbed by YPFB, reimbursing the production costs and investments made by the Company to the titleholder (Petrobras), and paying remuneration calculated in accordance with the variable participation table, specified in the contracts.

**FEDERAL PUBLIC SERVICE
BRAZILIAN SECURITIES COMMISSION (CVM)
ITR - QUARTERLY INFORMATION - As of - 09/30/2007
COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY**

Corporate Law

On August 31, 2007 saw the enactment of Law No. 3.740 on Sustainable Development of the Hydrocarbons Sector, revoking the *Impuesto a las Utilidades Extraordinarias por Extracción de Recursos Naturales no Renovables* and enabling YPFB to participate in the revenues originating from the abovementioned operating contracts.

As at September 30, 2007, the *Acordos de Entrega de Hidrocarburos* provided for in the operating contracts for the San Alberto and San Antonio blocks are in abeyance. These are applicable to the Bolivian market, both for natural gas and liquid hydrocarbon products, and for exports of natural gas to Brazil (GSA).

As a result of Supreme Decree 29.122, issued on May 6, 2007, which established that YPFB would be the sole exporter of reconstituted petroleum and white gas, the main products commercialized by PBR, on May 7, 2007, Petrobras presented an offer to sell all the shares of PBR to YPFB, which was accepted by the Bolivian Government on May 12, 2007, by means of Supreme Decree 29.128. On June 25, 2007, a share purchase agreement for the shares of PBR was signed, transferring all the shares to YPFB for the amount of US\$ 112 million in two installments, the first of which was settled on June 11, 2007 and the second on August 13, 2007.

The capital gains made by Petrobras in the sale of the shares of PBR is recorded in Other Non-Operating Income in the amount equivalent to R\$ 68.722 thousand on September 30, 2007 (US\$ 37.371 thousand).

In addition, the contract stipulates that the net income calculated by PBR for the period from April 01 to June 25, 2007, in the amount equivalent to R\$ 38.000 thousand, is to be paid to the seller by May 31, 2008.

Petrobras is currently in the process of closing down its distribution operations of oil and gas products in Bolivia.

c) Investments in Argentina

c.1) Sale of shareholding in a power company in Argentina

Compañía Inversora em Transmisión Eléctrica S.A. (Citelec)

On July 19, 2007, the Board of Directors of Petrobras Energia S.A. - PESA approved the sale of its interest (50%) in Compañía Inversora em Transmisión Eléctrica S.A. (Citelec) to Energia Argentina S.A. (ENARSA) and Electroingeniería S.A., in equal parts.

**FEDERAL PUBLIC SERVICE
BRAZILIAN SECURITIES COMMISSION (CVM)
ITR - QUARTERLY INFORMATION - As of - 09/30/2007
COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY**

Corporate Law

Citelec has a 52,67% interest in Compañía de Transporte en Energía Eléctrica en Alta Tensión -Transener S.A.

The sale will be realized at a fixed price of US\$ 54 million (equivalent to R\$ 99.301 thousand) plus an additional amount relating to the result from the integral tariff review determined for Transener and its subsidiary Empresa de Transporte de Energía Eléctrica por Distribución Troncal de la Provincia de Buenos Aires S.A. (Transba), applicable until June 30, 2008.

The transfer of the Citelec shares will require approval by the regulatory organizations and the competent authorities.

Hidroneuquén S.A.

In January 2007, PESA signed a share purchase and sale agreement with a consortium formed by Merrill Lynch, Pierce, Fenner & Smith Inc and Sociedad Argentina de Energía S.A. to transfer its interest (9,19%) in Hidroneuquén S.A., which holds 59% of the capital stock of Hidroeléctrica Piedra del Aquila S.A.. This agreement specifies a sales price of US\$ 15 million.

d) Investments in Venezuela

d.1) Review of the operating partnerships in Venezuela

In April 2005, the Ministry of Energy and Petroleum of Venezuela (MEP) instructed the company Petróleos de Venezuela S.A. (PDVSA) to review the thirty-two operating partnerships executed by PDVSA's affiliates with oil companies between 1992 and 1997.

Pag: 34

(A free translation of the original report in Portuguese)

FEDERAL PUBLIC SERVICE

BRAZILIAN SECURITIES COMMISSION (CVM)

ITR - QUARTERLY INFORMATION - As of - 09/30/2007

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

In March, 2006, through its subsidiaries and affiliated companies in Venezuela, PESA executed with PDVSA and Corporación Venezolana del Petróleo S.A. (CVP), Memoranda of Understanding (MOU) for the purpose of completing the migration of the operating partnerships to the form of mixed capital companies. The MOU establish that the interest held by the private partners in the mixed capital companies is 40%, with the Venezuelan government holding an interest of 60%. According to the terms of the MOU, CVP recognized divisible credits transferable to the private companies with shareholdings in the mixed capital companies, on which no interest is charged and which may be used as payment of the acquisition bonus for any new mixed capital company project, to develop oil exploration and production activities or to license the development of gas exploration and production operations in Venezuela. The credits assigned to PESA correspond to US\$ 88,5 million.

The migration of the contracts produced economic effects as from April 01, 2006. In August 2006, the conversion contracts for Oritupano Leona, La Concepción, Acema and Mata had been executed. Later, the companies Petroritupano S.A., Petrowayú S.A., Petrovenbras S.A. and Petrokariña S.A. were formed, which will each operate in the abovementioned areas, respectively.

According to the corporate and governance structure specified for the mixed capital companies, as from April 01, 2006, PESA no longer recorded the assets, liabilities and results referring to the aforesaid operations in its consolidated statements, presenting them as corporate investments in associated companies appraised according to the equity method. From this date onwards and until the mixed companies became operational, the activities were directed by a transitory executive committee mainly comprised of PDVSA representatives.

Recovery of these investments is strongly tied to the volatility of oil prices, social, economic and regulatory conditions in Venezuela and, in particular, to shareholders' interest in developing the oil reserves. On September 30, 2007 the business plans of the mixed capital companies were in the process of reevaluation.

Reductions in the price of oil, fluctuations in the economy and measures adopted by the Venezuelan government, and especially the development of the oil reserves of the mixed-capital companies, could compromise the recoverability of these investments, and consequently, PESA's results.

The operating results of the mixed companies for the period from January to September 2007 were estimated based on best available accounting information. The materialization of certain estimates depends upon future facts, some of which are beyond the Company's direct control.

e) New Projects Overseas

An indirect subsidiary of Petrobras, Petrobras Energia S.A. (PESA) acquired from Conoco Phillips for US\$ 77,6 million, its interests of 25,67% and 52,37% in the assets in Sierra Chata and Parva Negra, respectively. This transaction is currently awaiting approval from the regulatory authorities. Following this acquisition, PESA will have an interest of 45,55% in Sierra Chata and 100% in Parva Negra. Sierra Chata is an active natural gas producer in Bacia Neuquina, with total proven reserves as of December 31, 2006 of 56 million barrels of oil and major potential reserves. Parva Negra is a lot adjacent to and north of the Sierra Chata block, which has two drilled wells with signs of natural gas.

On May 18, 2007, Petrobras signed an agreement with the Portuguese companies Galp Energia and Partex for oil exploration and production in four blocks in the Lusitanian basin, on the Portuguese coast, north of Lisbon. Petrobras will be the operator, with a 50% interest, Galp Energia holding 30% and Partex 20%. The contract specifies an eight-year exploration period, involving seismic acquisition and drilling of exploratory wells. This will be the first oil exploration and production activity ever carried out on the Portuguese coast.

On June 4, 2007, in New Delhi, Petrobras signed a partnership agreement with Oil and Natural Gas Corporation Ltda (ONGC), India's largest oil and gas company. Six deep water exploration blocks will be operated, three of which in Brazil and three off the east coast of India.

At an auction held on August 20, 2007 by the North American regulatory body for activities at sea, Minerals Management Service, Petrobras secured a 100% share and the role of operator in 20 blocks, as well as a partnership (50%) with the US company, Devon Energy, which will be the operator in another 14 blocks in the Gulf of Mexico. Of the blocks purchased, 13 are located in shallow waters, for exploration of deep natural gas reserves, and 21 in deep and ultra-deep water, for oil exploration. As soon as these blocks receive confirmation from the MMS, they will be incorporated in the Petrobras portfolio of exploration projects.

At the Ronda Caribe auction held by the *Agencia Nacional de Hidrocarburos* (ANH) in Colombia on September 18, 2007, Petrobras bought four blocks, of which two as operator and with a 40% share (the other shareholders are Ecopetrol and Hess Corporation), and the other two as non-operator shareholder, with interests of 30% (with British Petroleum and Ecopetrol each holding 35%) and 20% (the other shareholders will be ONGC and Ecopetrol with 40% each).

f) Operations of Thermoelectric Power Stations

In order to raise its energy generation capacity and optimize gas supply commitments, Petrobras has been expanding its portfolio of investments in thermoelectric power stations.

Acquisition of Termoçu S.A.

On March 07, 2007, the shareholders approved the capital increase of Termoçu S.A. to the total amount of R\$ 53.569 thousand, increasing Petrobras equity interest from 62,43% to 65,70%.

On July 31, 2007, the share capital was increased by R\$ 65.461 thousand, to supplement that needed to enable the completion of the works on the thermoelectric station, increasing Petrobras equity interest to 72,10%.

Acquisition of Termocabo Ltda.

In May 2007, Brasympe Energia S.A., a company in which Petrobras Distribuidora S.A. holds an interest of 20%, acquired 60% of the common shares of Termocabo S.A. for the sum of R\$ 29.100 thousand.

Termocabo S.A., which has its main offices in the city of Rio de Janeiro, began operations in July 2002 and has a thermoelectric power plant with an installed capacity of 49,5 MW, located in the municipality of Cabo do Santo Agostinho, in the state of Pernambuco.

g) Other information

g.1) Ipiranga Group

On April 18, 2007, Ultrapar (on its own behalf), having Braskem S.A. and Petróleo Brasileiro S.A. Petrobras (both through a commission agreement) as intervening parties, acquired control of the companies comprising the Ipiranga Group. The value of transaction is being disbursed in three installments totaling R\$ 5.486.235 thousand. On that date, Ultrapar, Braskem and Petrobras effected payment of the first installment amounting to R\$ 2.071.107 thousand, purchasing the shares held by the majority shareholders of the Ipiranga Group, of which R\$ 742.747 thousand was paid by Petrobras.

Under the agreement signed by Ultrapar, Braskem and Petrobras, Ultrapar took control over the fuel and lubricant distribution businesses in the South and South-East regions (Southern Distribution Assets) of Distribuidora de Produtos de

**FEDERAL PUBLIC SERVICE
BRAZILIAN SECURITIES COMMISSION (CVM)
ITR - QUARTERLY INFORMATION - As of - 09/30/2007
COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY**

Corporate Law

Ultrapar is responsible for the corporate reorganization of the companies acquired in order to segregate the assets set aside for each company. This reorganization consists of the following stages:

- a) A Mandatory Tender Offer (Tag-Along) to purchase the common shares in RPI, DPPI and CBPI;
- b) Ultrapar will take over the shares of RPI, DPPI and CBPI;
- c) The assets will be segregated as follows: (i) the capital of RPI and CBPI will be reduced to transfer the petrochemical assets directly to Ultrapar, which will be later delivered to Braskem and Petrobras under the terms of the commission agreement, and (ii) CBPI will be split to transfer the Northern Distribution Assets to a company controlled by Petrobras.

This operation is currently in the process of concluding a Public Offering (PO) of the outstanding common shares issued by RPI, DPPI and CBPI. With regard to the first two of these, the CVM granted the registration of the PO on September 14, 2007 and the date of the auction was set for October 22, 2007 with the financial settlement beginning on October 25, 2007. 1.274.718 common shares of DPPI were purchased, equivalent to 77% of the shares, and 2.771.781 shares of RPI, equivalent to 82% of the shares, both through bid offers, for a total amount of R\$ 440.763 thousand, of which Petrobras is due R\$ 161.561 thousand. The total estimated payout is approximately R\$ 549.008 thousand, of which Petrobras is due R\$ 201.238 thousand, subject to the actual value of the shares purchased at the auction. As regards CBPI, the registration of the PO was granted on October 08, 2007, and the auction was held on November 08, 2007, with the financial settlement scheduled for November 13, 2007. The total payout is estimated in around R\$ 195.586 thousand, with R\$ 71.692 thousand due to Petrobras, subject to the same restrictions mentioned above.

With regard to the petrochemical businesses, on April 18, 2007, Petrobras and Braskem filed a request with the CVM to register a PO to close the capital of Copesul. The CVM granted the registration on August 10, 2007 and the auction for the common share issue was held on October 05, 2007. The value of the transaction was estimated in R\$ 1.294.236 thousand and the vehicle used for the acquisition was a special purpose company named EDSP58 Participações Ltda, the quotaholders of which are Braskem (60%) and Petrobras (40%). As regards IPQ, the same companies filed for a Tag-Along PO, on May 18, 2007, allowing private parties to purchase shares held by the minority shareholders as at June 28, 2007, with the financial settlement and transfer of the shares by the shareholders. The value of the transaction was R\$ 118.000 thousand and the vehicle utilized for the purchase was a special purpose company named EDSP67 Participações S.A., a subsidiary of Ipiranga Quimica S.A. On July 04, 2007, the

Pag: 39

**FEDERAL PUBLIC SERVICE
BRAZILIAN SECURITIES COMMISSION (CVM)
ITR - QUARTERLY INFORMATION - As of - 09/30/2007
COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY**

Corporate Law

CVM granted the application to waive this PO and, on July 18, 2007, the company's registration as a quoted company was cancelled.

After the first phase of the acquisition, in the petrochemical businesses, Petrobras holds 8,94% of the total capital and 27,13% of the voting capital of Ipiranga Química, recording the amount of R\$ 429.405 thousand in the Balance Sheet as an advance under Investments and an equity adjustment of R\$ 14.945 thousand in the accounts as at September 30, 2007 (R\$ 7.662 thousand as at June 30, 2007), and amortizing the goodwill thereon of R\$ 8.096 thousand as at September 30, 2007 (R\$ 4.048 thousand as at June 30, 2007). The calculation of the goodwill was estimated taking into account the installment paid in the first phase, the forecasted total value of the transaction, its percentage of total capital considered for equity adjustment and Petrobras' shareholding at the end of the process (40%).

In the refinery businesses, Petrobras holds 10,01% of the total capital of RPI, and now consolidates proportionally the pro-forma financial statements of the refinery assets of RPI due to the shared control exercised by Petrobras, Braskem and Ultrapar. As a result, the goodwill of R\$ 3.013 thousand was reported and amortized in full, making a provision for loss in investments in the same amount due to the negative equity adjustment, reverting R\$ 190 thousand due to the results obtained through the refining operation in the second and third quarters of 2007.

As regards the fuel distribution market, the CADE explained that injunction 087000.001507/2007-80 regarding acts of concentration, did not impede Petrobras and Ultrapar - the companies that had acquired the distribution businesses of the Ipiranga Group - from entering into understandings with the objective to formulate a structure of corporate governance that eliminates any risk to competition. The CADE authorized Petrobras and Ultrapar to hold meetings to discuss the matter and present an proposal.

On May 16, 2007, CADE unanimously approved an agreement replacing the terms of the injunction that impeded Petrobras from taking part in the strategic and commercial decisions relating to the acquisition of the distribution assets of the Ipiranga Group.

The document entitled Agreement to Preserve Reversibility of Transaction (APRO) allows Petrobras to choose a manager and negotiate the implementation of a governance policy that ensures the preservation of the assets and the rights of the minority shareholders. The timetable for the performance of the transaction remains unaltered.

g.2) Exercise of option to purchase shares of EVM Leasing Co.

On June 18, 2007, for US\$ 123 million (equivalent to R\$ 234.278 thousand) and on the recommendation of Petrobras, Braspetro Oil Company (BOC) exercised its option to purchase all the shares of EVM Leasing Co., the owner of the assets, financed by the investors and financiers of the EVM project financing, in light of the conclusion of the financing structure and other contractual obligations of the project settled by Petrobras.

In the financial statements of Petrobras, the assets and liabilities of EVM were consolidated, as required under the terms of CVM Instruction No. 408/2004. On June 30, 2007, EVM became a direct subsidiary of BOC, which holds 100% of its voting capital, fully paid-up, and its consolidation was in compliance with CVM Instruction No. 247/96.

g.3) Acquisition of Suzano Petroquímica S.A.

On August 03, 2007, Petrobras entered into a share purchase agreement to acquire all the shares comprising the share capital of Suzano Petroquímica S.A., held, directly or indirectly, by its controlling shareholders.

Due to the sale of the direct and indirect shareholdings of Suzano Petroquímica S.A., Petrobras, in compliance with the legal provisions applicable to this case (Article 254-A of Law No. 6.404/76 and CVM Instruction No. 361, BOVESPA Level 2 Regulations on Differentiated Corporate Governance Practices, will hold a public offer for the purchase of common and preference shares held by the minority shareholders Suzano Petroquímica S.A. (Tag Along PO), and at the same time, a public offering for canceling the registration of Suzano Petroquímica S.A. as a quoted company (PO to close capital)

The purchase value of 100% of the shares of Suzano Petroquímica S.A. is estimated in R\$ 2,7 billion, subject to a reduction of up to 7% due to adjustments made as a result of the due diligence process and procedures that are due to take place up to the time the transaction is completed, scheduled for November 30, 2007.

The Extraordinary General Meeting of the Shareholders of Petrobras held on October 29, 2007 approved the ratification of the Share Purchase Agreement for Suzano Petroquímica S.A., as well as the nomination of the ABN Amro Bank as the specialist company to issue the assessment report on the transaction, as specified in Article 256 of Law No. 6.404/76.

The equipment and fixtures relating to oil and gas production captive to the respective wells developed, are depreciated according to the monthly production volume in relation to each production field's proven and developed reserves. The straight-line method is used for assets with a useful life shorter than the life of the field or that are tied to fields at various stages of production. Other equipment and assets not related to oil and gas production are depreciated according to their estimated and useful life.

The relevant expenses incurred on scheduled stoppages to maintain the industrial plants and ships, which include spare parts, and assembly and disassembly services, among others, are registered in the fixed assets.

These stoppages occurred in scheduled periods occurring once every four years on average and the respective expenses are depreciated as production cost until the following stoppage.

FEDERAL PUBLIC SERVICE

BRAZILIAN SECURITIES COMMISSION (CVM)

ITR - QUARTERLY INFORMATION - As of - 09/30/2007

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

The expenditure on exploration and development of oil and gas production is recorded according to the successful efforts method. This method determines the development costs for all the production wells and the successful exploration wells linked to economically viable reserves should be capitalized, while the costs of geological and geophysical work are to be considered as expenses for the period in which they were incurred and the costs of dry exploration wells and those related to non-commercial reserves are to be recorded in the income statement when they are identified as such.

The capitalized costs and the related assets are reviewed annually, on a field-by-field basis, to identify potential losses under the recovery, based on the estimated future cash flow.

The capitalized costs are depreciated using the units produced method in relation to proven and developed reserves. These reserves are estimated by company geologists and petroleum engineers according to international standards and reviewed annually or when there are signs of significant alterations.

In accordance with the accounting practice adopted, supported by statement SFAS 143 *Accounting for Asset Retirement Obligations* issued by the *Financial Accounting Standards Boards - FASB*, the future liability for abandoning wells and dismantling the production area is accounted for at its present value, discounted at a risk-free rate, and is fully recorded at the time of the declaration of commerciality of each field, as part of the cost of the related assets (property, plant and equipment) as a balancing item to the provision, recorded in the liabilities, which shall support these expenses.

The interest expense on the provision for the liability to the amount of R\$ 153.820 thousand from January to September 2007 has been classified as operating expenditure expenses on prospecting and drilling to extract oil (item 3.06.05.04 of the Statement of Income Quarterly Financial Information Parent Company).

11.4. Depreciation**

Corporate Law

The depreciation expenses from January to September 2007 and 2006 are as follows:

| | R\$ thousand | | | |
|---|---------------------|---------------------|-----------------------|---------------------|
| | Consolidated | | Parent Company | |
| | Jan-Sep/2007 | Jan-Sep/2006 | Jan-Sep/2007 | Jan-Sep/2006 |
| Portion absorbed in costing: | | | | |
| Of assets | 3.569.376 | 3.609.455 | 1.145.310 | 1.333.530 |
| Of exploration and production costs | 2.365.674 | 1.865.542 | 1.875.503 | 1.420.137 |
| Of capitalization of/provision for well abandonment | 232.223 | 150.822 | 218.770 | 145.320 |
| | 6.167.273 | 5.625.819 | 3.239.583 | 2.898.987 |
| Portion recorded directly in income statement | 1.028.781 | 998.598 | 563.340 | 488.343 |
| | 7.196.054 | 6.624.417 | 3.802.923 | 3.387.330 |

11.5. Leasing of platforms and ships

As of September 30, 2007 and June 30, 2007, direct and indirect subsidiaries had leasing contracts for offshore platforms and ships chartered to Petrobras, and the commitment assumed by the Parent Company is equivalent to the amount of the contracts. The Parent Company also had leasing contracts with third parties for other offshore platforms.

The balances of the property, plant and equipment, net of depreciation, and liabilities relating to offshore platforms which, if they were recorded as assets purchased under capital leases, are as follows:

| | R\$ thousand | | | |
|--|---------------------|-------------------|-----------------------|-------------------|
| | Consolidated | | Parent Company | |
| | 09.30.2007 | 06.30.2007 | 09.30.2007 | 06.30.2007 |
| Property, plant and equipment, Net of depreciation | 1.301.162 | 1.384.878 | 136.997 | 196.484 |

Financing:

| | | | | |
|-------------------------|------------------|------------------|----------------|----------------|
| Short-term (current) | 500.671 | 465.392 | 39.066 | 67.415 |
| Long-term (non-current) | 1.131.513 | 1.514.522 | 91.945 | 278.362 |
| | 1.632.184 | 1.979.914 | 131.011 | 345.777 |

Prepaid expenditures on platform charters incurred prior to the operational startup are recorded as prepaid expenses and amount to R\$ 1.090.848 thousand as of September 30, 2007 (R\$ 1.154.117 thousand as of June 30, 2007), with R\$ 836.150 thousand recorded in the non-current assets as of September 30, 2007 (R\$ 898.161 thousand as of June 30, 2007).

11.6. Lawsuits abroad

a) In the United States P-19 and P-31

On July 25, 2002, Braspetro Oil Service Co. (Brasoil) and Petrobras won related lawsuits filed with an American lower court by the insurance companies United States Fidelity & Guaranty Company and American Home Assurance Company, which had, since 1997, attempted to obtain a legal judgment in the United States to exempt them from the obligation to indemnify Brasoil for the construction (performance bond) of platforms P-19 and P-31, and from Petrobras, the refund of any amounts that they might be ordered to pay in the performance bond proceeding.

A court decision by the first level of the Federal Court of the District of New York recognized the right of Brasoil and Petrobras to receive indemnity for losses and damages in the amount of US\$ 237 million, plus interest and reimbursement of legal expenses on the date of effective receipt, relating to the performance bond, totaling approximately US\$ 370 million.

The insurance companies have filed appeals against the decision with the United States Court of Appeals for the Second Circuit. A decision was handed down on May 20, 2004, when the Court partly maintained the verdict, confirming the insurance companies liability to pay the performance bonds and exempting the insurance companies from the obligation to pay liquidated damages, attorney s fees and expenses, reducing the indemnity to US\$ 245 million.

The insurance companies appealed against this decision to the full court, which rejected the appeal, thus confirming the unfavorable verdict as mentioned. In April 2005, the parties (Insurance companies and Brasoil) began discussions seeking to settle the credit of Brasoil, resulting in the execution of a Memorandum of Understanding, the effects of which, however, led to further queries and issues to be settled in court. On July 21, 2006, the U.S. Court delivered an executive decision specifying the points of divergence, and the interest due. However, it made payment of the amounts owed to Brasoil subject to the permanent discontinuance of the legal proceedings involving identical claims in progress before the Brazilian courts, which the parties proceeded to do.

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

b) Lawsuit in London P-36

Brasoil and Petrobras participate in several contracts relating to the conversion and acquisition of the P-36 Platform, which suffered a total loss in an accident (sinking) during 2001. Under these contracts, Brasoil and Petrobras had undertaken to deposit any insurance reimbursement, in the event of an accident, in favor of a Security Agent for the payment of creditors, in accordance with contractual terms. A legal action brought by companies that claiming part of these payments is currently in progress in a London Court, since Brasoil and Petrobras understand that they are entitled to these amounts in accordance with the distribution mechanism already mentioned.

In April 2003, Brasoil provided the Court with a bank guarantee obtained from a financial institution for the payment of insurance indemnity, and provided the financial institution with counter-guarantees in the amount of US\$ 175 million. Pursuant to the verdict handed down by the foreign Court on December 15, 2005, payments were made to Brasoil, on account of the bank guarantee, amounting to US\$ 171 million. On January 4, 2006, the guarantee provider confirmed that the guarantee was cancelled.

The trial was divided into two stages. The first stage was in October 2003 with a decision being handed down on February 2, 2004. The terms of the decision are complex and subject to appeal. In summary: (i) neither Petrobras nor Brasoil have been considered to have defaulted on their obligations; (ii) Petromec and Maritima are subject to reimbursing Brasoil for approximately US\$ 58 million plus interest; and (iii) Petromec and Maritima are not liable for delays or unfinished work.

On July 15, 2005 a verdict was handed down determining that the insurance indemnification belongs to Brasoil, except the amount of US\$ 629 thousand plus interest that should be paid to the other parties in the litigation, as well as an additional amount of US\$ 1,5 million that should be held on deposit until the result of certain pending matters.

Following the trial in February 2004, Petromec amended the legal suit claiming the amount of US\$ 131 million plus interest and/or financial costs up to the date of the trial in additional costs for upgrading work carried out and, alternatively, for damages for perjury, but without stipulating the amount of damages. The perjury trial took place between January 16 and February 09, 2006 and the verdict delivered on June 16, 2006 ruled Petromec's claims to be without merit. Petromec did not submit an appeal and this decision is final.

A preliminary judgment on the method to be used to calculate the Petromec's claim was held on June 26 and 27, 2007. On July 6, 2007 the Court handed down its decision in favor of the methodology defended by Petrobras and Brasoil.

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

Petromec obtained permission to appeal the decision and the Court decided to suspend the process until the appeal is judged, which will probably occur during November 2007.

Judgment of the claim for additional costs is scheduled to take place from October 2008 onwards, however, the abovementioned appeal could lead to the postponement of the judgment.

c) Other indemnity lawsuits

Pursuant to the construction and conversion of vessels into FPSO - Floating Production, Storage and Offloading and FSO - Floating, Storage and Offloading, considering the contractual default of the constructors, by September 30, 2007, Brasoil had contributed, on behalf of the constructors, with financial resources in the amount of US\$ 614 million, equivalent to R\$ 1.129.861 thousand on September 30, 2007 (R\$ 1.179.432 thousand on June 30, 2007), paid directly to the suppliers and subcontractors in order to avoid further delays in the construction/conversion activities and consequently losses to Brasoil.

Based on the opinion of Brasoil's legal advisers, these expenses should be reimbursed, since they represent a right of Brasoil with respect to the constructors, for which reason lawsuits filed with international courts to obtain financial reimbursement. However, as a result of the litigious nature of the assets and the uncertainties as regards to the probability of receiving all the amounts disbursed, the company conservatively recorded a allowance for doubtful accounts for all credits that are not backed by collateral, in the amount of US\$ 542 million, equivalent to R\$ 997.384 thousand on September 30, 2007 (R\$ 1.040.666 thousand on June 30, 2007).

BRAZILIAN SECURITIES COMMISSION (CVM)

ITR - QUARTERLY INFORMATION - As of - 09/30/2007

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

The estimated fair value for the Parent Company and Consolidated's long-term loans on September 30, 2007 were, respectively, R\$ 4.687.654 thousand, and R\$ 28.122.489 thousand, calculated at the market rates in force, taking into consideration the nature, term and risks, similar to those in the registered contracts and may be compared to their book values of R\$ 4.394.791 thousand and R\$ 27.098.991 thousand.

The contracted hedge operations in connection with Notes issued abroad in foreign currency are disclosed in Note 23.

13.4. Export prepayments

Petrobras and Petrobras Finance Ltd. (PFL) have contracts (*Master Export Contract and Prepayment Agreement*) between themselves and a Special Purpose Company not related with Petrobras, named *PF Export Receivables Master Trust (PF Export)*, relating to the prepayment of export receivables to be generated by PFL by means of sales on the international market of fuel oil acquired from Petrobras.

On September 30, 2007, the balance of export prepayments amounted to R\$ 763.115 thousand in the non-current liabilities (R\$ 831.175 thousand as of June 30, 2007) and R\$ 125.484 thousand in the current liabilities (R\$ 131.138 thousand as of June 30, 2007).

13.5. Other information

The loans and financing are mainly intended to acquire raw materials, develop oil and gas production projects, construct ships and pipelines in addition to expanding industrial plants.

a) Debentures

The debentures issued through BNDES, for the anticipated-acquisition of the right to use the Bolivia-Brazil pipeline, over a 40-year period, to transport 6 million cubic meters of gas per day (*TCO - Transportation Capacity Option*), totaled R\$ 430.000 thousand (43.000 thousand of notes with par value of R\$ 10) maturing February 15, 2015. Gaspetro, as the intermediary in the transaction, provided a guarantee to the BNDES, secured on common shares issued by Transportadora Brasileira Gasoduto Bolívia-Brasil S.A. - TBG and held by Gaspetro, in respect of these debentures.

FEDERAL PUBLIC SERVICE

BRAZILIAN SECURITIES COMMISSION (CVM)

ITR - QUARTERLY INFORMATION - As of - 09/30/2007

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

Petrobras is not required to provide guarantees to foreign financial institutions. Financing obtained from the National Economic and Social Development Bank (BNDES) is secured by the assets being financed (carbon steel tubes for the Bolivia-Brazil Pipeline and vessels).

On account of the guarantee contract issued by the Federal Government in favor of the Multilateral Credit Agencies, as a result of the loans raised by TBG, counter-guarantee contracts have been signed by the Federal Government, TBG, Petrobras, Petroquisa and Banco do Brasil S.A., whereby TBG undertakes to tie its revenues to the order of the National Treasury until the settlement of the obligations guaranteed by the Federal Government.

On August 02, 2006, the Extraordinary General Meeting held by Alberto Pasqualini Refap S.A. approved the value of the private issue of simple, nominative, book entry debentures to the amount of R\$ 852.600 thousand. The debentures are being issued in order to expand and modernize the company's industrial facilities and to raise its oil processing capacity from 20.000 m³/day to 30.000 m³/day.

The issue was made on the following terms: issue on September 08, 2006 and amortization over 96 months plus a six-month grace period; 90% of the debentures were subscribed by the BNDES with interest at the Brazilian Long-term Interest Rate (TJLP) + 3,8% p.a.; 10% of the debentures were subscribed by BNDESPAR at the interest rate of the BNDES basket of currencies plus 2,3% p.a..

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

b) Indebtedness of CIESA and TGS

In order to clean up the finances of Compañía de Inversiones de Energia S.A. - CIESA, a jointly-controlled company), PESA transferred its interest of 7,35% in the capital of Transportadora de Gás Del Sur S.A. - TGS, a subsidiary of CIESA, to ENRON, and ENRON simultaneously transferred 40% of its interest in the capital of CIESA to a trustee. In a second stage of the process, once the approvals required from Ente Nacional Regulador del Gas - ENARGAS (National Gas Regulatory Agency) and Comisión Nacional de Defensa de la Competencia (National Competition Defense Commission) have been obtained, ENRON shall transfer the remaining 10% interest in CIESA to the financial creditors in exchange for 4,3% of the class B common shares in TGS that CIESA will hand over to its financial creditors, in part payment of the debt. The remaining balance of the financial debt shall be capitalized by the creditors.

ENARGAS sent the order to the *Unidade de Renegociación de Contratos de Serviços Públicos* - UNIREN in order to issue it, as it is a matter of its competence. This was concluded in January 2007 and is currently awaiting action by ENARGAS.

As it is operating under long-term constraints which significantly hinder its capacity to transfer capital to investors, and until the process to clean up the finances of the company is not concluded, CIESA will continue to be excluded from the consolidation process of Petrobras, pursuant to CVM Instruction 247/96.

The Extraordinary General Meeting of the TGS Shareholders held on December 21, 2006 approved the creation of a global program for issuing marketable obligations to the amount of US\$ 650 million, as authorized by the Comisión Nacional de Valores - CNV on January 18, 2007. On September 30, 2007, the financial debt of TGS was comprised, primarily, of US\$ 500 million in marketable obligations, issued through the abovementioned program.

c) PESA Issues Marketable Obligations

On May 07, 2007 Petrobras Energia S.A. - PESA, a company indirectly controlled by Petrobras, issued Marketable Obligations amounting to US\$ 300 million with a term of 10 years and 5,875% interest p.a.. Interest will be paid semiannually and the capital will be paid in a single installment at maturity.

(A free translation of the original report in Portuguese)

FEDERAL PUBLIC SERVICE

BRAZILIAN SECURITIES COMMISSION (CVM)

ITR - QUARTERLY INFORMATION - As of - 09/30/2007

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

The marketable obligations are guaranteed by Petrobras through a Standby Purchase Agreement. Under the agreement, in the event of failure to pay the capital, interest or any other commitments undertaken by PESA, Petrobras will be required to buy the rights to receive such payments from the note holders.

The issuance was made both in the Argentinean market and the international market.

d) Global Notes

The subsidiary Petrobras International Finance Company (PifCo) made a note exchange offer, with the transaction being settled on February 07, 2007. PifCo consequently received and accepted offers to the amount of US\$ 399 million (face value). The old securities received under the exchange were cancelled on the same date and as a result PifCo issued new securities on the transaction settlement date maturing in 2016 with a coupon of 6,125% p.a. to the amount of US\$ 399 million. The securities constitute a single, fungible issuance with the US\$ 500 million issued on October 06, 2006, amounting to US\$ 899 million in securities issued with maturity in 2016. PifCo also paid investors the amount equal to US\$ 56 million as a result of the offering to exchange the securities.

e) Loan to Petrobras Netherlands BV (PNBV)

On September 12, 2007 the subsidiary Petrobras Netherlands BV (PNBV) signed a loan agreement with Banco Bilbao Vizcaya Argentaria (BBVA) for the amount of US\$ 200 million, with interest of 5,94% p.a. and a term of four years.

In addition, PNBV contracted a line of credit with Banco Santander Overseas Bank, Inc. - SANTANDER for up to US\$ 300 million. On September 25, 2007, the subsidiary utilized US\$ 150 million. In October 2007, the remaining US\$ 150 million were used. The term is for one year and may be extended for up to two years in the full amount, and partially, for the full term of six years. The rate of interest charged is 5,30% p.a..

These funds were used in full settlement of the intercompany loans with Braspetro Oil Services Company (Brasoil), contracted by PNBV to purchase platforms P-34 and P-35.

Brasoil used these monies in settlement of intercompany loans with the Parent Company, Petrobras, and Petrobras International Finance Company (PifCo), which used them to pay commitments with third parties.

FEDERAL PUBLIC SERVICE**BRAZILIAN SECURITIES COMMISSION (CVM)****ITR - QUARTERLY INFORMATION - As of - 09/30/2007****Corporate Law****COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY****c) Realization of deferred income tax and social contribution**

At the Parent Company level, realization of deferred tax credits amounting to R\$ 2.692.201 thousand does not depend on future income since these credits will be absorbed annually by realizing the deferred tax liability.

For the portion exceeding the Parent Company's balance, when applicable, in the Consolidated statements the management of the subsidiaries expects to carry forward these credits up to ten years, based on the projections made.

R\$ thousand**Realization expectation**

| | Consolidated | | Parent Company | |
|--------------------------|---|--|---|--|

| Total | 6.143.377 | 11.646.907 | 3.048.643 | 9.607.438 |

The subsidiary Petrobras Energia S.A. (PESA) and its subsidiaries have tax credits resulting from accumulated tax losses of approximately R\$ 508.119 thousand that are not recorded in its assets. As the specific tax legislation in Argentina and other countries where PESA has investments, stipulate a limitation period for such credits, they may only be used to offset future taxes, due until 2007, in the amount of R\$ 372.361 thousand, and from 2008 onwards, R\$ 135.758 thousand.

The subsidiary Petrobras América Inc. (PAI) has tax credits resulting from accumulated tax losses of approximately R\$ 154.630 thousand (US\$ 84million) that are not recorded in its assets and which in accordance with US legislation, will lapse in 2026.

17. EMPLOYEE BENEFITS**17.1. Pension Plan - Fundação Petrobras de Seguridade Social - Petros****a) Petros Plan**

Fundação Petrobras de Seguridade Social - Petros, set up by Petrobras, introduced the Petros Plan, a defined-benefit pension plan, in July of 1970 to ensure members a supplement to the benefits provided by Social Security.

As at September 30, 2007, the Petros Plan is represented by the following sponsor companies in the Petrobras Group: Petrobras, the subsidiaries Petrobras Distribuidora S.A. (BR), Petrobras Química S.A. (Petroquisa), and Alberto Pasqualini - Refap S.A., a subsidiary of Downstream Participações Ltda.

The Petros Plan is now closed to new employees of the Petrobras system who have joined since September 2002, and as from July 01, 2007, the Company

BRAZILIAN SECURITIES COMMISSION (CVM)

ITR - QUARTERLY INFORMATION - As of - 09/30/2007

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

introduced a new private pension plan, Petros-2 for those employees without supplementary plans.

Evaluation of the Petros costing plan is performed by independent actuaries based on a capitalization system for the majority of the benefits, and currently, this Foundation receives monthly contributions from the sponsoring companies of the Petros Plan amounting to 12,93% of the payroll of employees who participate in the plan and contributions from employees and retirees. As at September 30, 2007, the ratio between contributions from sponsors and those from participants in the Petros Plan, taking into account only those attributable to Petrobras and its subsidiaries, was 1,05.

If a deficit is determined in the defined benefit plan, as stipulated in Constitutional Amendment N° 20 of 1998, it should be settled by an adjustment to the normal contributions, to be equally shouldered by the sponsors and the participants.

The assets guaranteeing the pension plan are shown as reducers of the net actuarial liability. The actuarial commitments with respect to the pension and retirement plan benefits, and those related to the healthcare plan are, described in greater detail later, provided for in the Company's balance sheet based on calculations prepared by independent actuaries. Their calculations are based on the projected unit of credit method, net of the assets guaranteeing the plan, when applicable, with the obligation increasing from year to year, in a manner that is proportional to the length of service of the employees during their working period.

The actuarial gains and losses generated by the differences between the values of the obligation and assets, determined on the basis of actuarial premises (biometric and economic assumptions), evolution of healthcare expenditure, and other projections, and the actual figures are respectively included or excluded from the calculation of the net actuarial liability. These gains and losses are amortized over the average remaining time of service of the active employees.

As of September 30, 2007, Petrobras had an advance balance for the pension plan to the amount of R\$ 1.300.686 thousand (R\$ 1.269.048 thousand as of June 30, 2007), which may be used to settle Petrobras' commitments with retirement benefits and pensions.

FEDERAL PUBLIC SERVICE

BRAZILIAN SECURITIES COMMISSION (CVM)

ITR - QUARTERLY INFORMATION - As of - 09/30/2007

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

The Board of Directors of Petrobras presented to employee participants and retired members, a proposal which sought to afford equilibrium to the current Petros Plan. Among the various conditions to the feasible and effective implementation of the plan is the renegotiation of the Regulations of the Petros Plan, with respect to means of readjusting the retirement benefits and pensions (detachment from the INSS and indexation based on the Amplified Consumer Price Index - IPCA).

In return for accepting the renegotiation, the participants, retired members and pensioners received financial incentives as at September 30, 2007, totaling R\$ 968.493 thousand at the Parent Company and R\$ 1.047.302 thousand in the Consolidated statement.

On September 12, 2007 Petrobras and the subsidiaries sponsoring the Petros Plan, trade union organizations and Petros signed a Settlement Agreement that will cover commitments with pension plans in the amount of R\$ 4.766.152 thousand, which will be paid in installments over the next 20 years, as previously agreed during the renegotiation process.

As of September 30, 2007 Petrobras had a balance of R\$ 2.919.444 linked to B Series National Treasury Notes, purchased to set against amounts owed to Petros, which will be held in the Company's portfolio and used in the future as a guarantee for the abovementioned Settlement Agreement. In addition, on October 03, 2007, Petrobras purchased R\$ 401.000 thousand in B Series National Treasury Notes.

On September 30, 2007, R\$ 663.141 thousand was recorded in the accounts for the Parent Company and R\$ 697.241 thousand in the Consolidated statement, as the cost of past service as a result of the reduction in the age limit for retirement from 55 years to 53 years for participants who joined the Petros Plan between January 24, 1978 and November 28, 1979, the change in the calculation of the death benefit and the change in the form by which benefits are restated, retroactive to September 2006 for pensioners and retired members who were included in the renegotiation.

b) New benefits plan (Petros Plan 2)

On June 22, 2007, the Supplementary Pensions Office approved the introduction of a new supplementary pension plan called Petros Plan 2, which as from July 01, 2007, the Company initiated the campaign to include those employees who had no plan.

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

This Plan was formulated according to the Variable Contribution (CV), or mixed model, with the resources capitalized through particular accounts, retirement pensions established according to the account balances, in addition to the coverage for social security risks (disability and mortality before retirement) and the benefit payment options in case of perpetual assistance system, with estimated pension reversal for dependents after the death of the holder, in addition to the guarantee of a minimum benefit, or the quotas receiving regiment, for an unlimited period.

Petrobras and the other sponsors will fully assume the contributions corresponding to the period in which the new participants had no plan, from August 2002 or the date of admission onwards, up to August 29, 2007.

The disbursements relating to the cost of past service will be conducted over the first months for contributions up to the total months the participant had no plan, and shall cover the portion relating to the participants and sponsor.

The impacts generated by implementing this new plan were assessed by independent actuaries and reported in the accounts as at September 30, 2007 as an expense totaling R\$ 51.369 thousand at the Parent Company and R\$ 53.691 thousand in the Consolidated statement.

17.2. Transportadora Brasileira Gasoduto Bolívia-Brasil (TBG)

The new TBG Pension Plan is a defined contributions plan, with equal contributions and not linked to Government pension plan, has been approved by the Company's Board of Directors and by the Deliberative Council of Petros.

The risk contributions, for incidents of job-related death, illness or disability will be passed to an Insurer, which will bear the financial consequences of the risks involved.

The TBG Pension Plan has received assent from the Ministry of Mining and Energy and at present is being examined by the Department of Coordination and Governance of State Companies (DEST), after which the Regulations of the Plan will be sent to the Secretary for Supplementary Pension Funds (SPC).

17.3. Transpetro

Transpetro maintains a defined-contribution private pension plan with Petros called Plano Transpetro, which receives monthly contributions from the company

17.4. Petrobras Energia S.A.**

Corporate Law

a) Defined contribution pension plan

In November 2005 the executive board of Petrobras Energia S.A. (PESA), an indirect subsidiary of Petrobras, approved implementation of a defined contribution plan which all Company employees, who meet certain conditions, could voluntarily join. Through this plan PESA makes contributions to a trustee. The contributions are made at amounts equal to the contributions of the employees participating in the plan, whether in mutual investment funds or Pension Retirement Fund Administrator (AFJP). The contributions are made according to the defined contribution plan for each wage level. Participating employees may make voluntary contributions in excess of those established in the contribution plan, although the Company is not required to match them.

The plans' costs are recorded periodically and correspond to the contributions the Company makes to trust. As at September 30, 2007 PESA had recorded the amount equal to R\$ 2.790 thousand.

b) Defined benefit pension plan

b.1) Indemnity" Plan

This is a benefit plan through which employees meeting certain conditions are eligible to receive at retirement one month's salary for each year they have worked for the Company, on a sliding scale, according to the number of years the plan has existed, at the time of the retirement.

b.2) Compensating Fund

This benefit is available to all PESA employees who joined the defined contribution plans in force in the past and who joined the company prior to May 31, 1995 and have accumulated the required service time. The benefit is calculated based on the last wage of the workers participating in the plan and the number of years of service. The plan is supplementary. This means that the benefit received by the employee consists of the amount determined according to the plan's provisions, after deducting the benefits awarded under the aforementioned defined contribution plan and the retirement system, so that the total benefits received by each employee is equal to the amount defined in the plan.

FEDERAL PUBLIC SERVICE

BRAZILIAN SECURITIES COMMISSION (CVM)

ITR - QUARTERLY INFORMATION - As of - 09/30/2007

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

The plan requires the Company contribute to a fund, to which the employees do not make any contribution whatsoever. The employees are simply required to contribute to the official public or private pension plan, based on their total salaries. The fund's assets have been attributed to a trustee, whose investment premises include the obligation to maintain the capital in US dollars, maintain liquidity and obtain the maximum market yield for 30-day investments. As a result of this, the funds are mainly invested in bonuses, marketable securities, common investment funds and fixed term deposits. The trustee is the Bank of New York.

In accordance with the PESA Bylaws, the company contributes to the fund based on a proposal made to the Meeting by the Executive Board up to the maximum amount equal to 1,5% of the net income in each year.

If a surplus is recorded and duly certified by an independent actuary in the funds allocated to trusts for payment of the defined benefits awarded by the plan, PESA may use these funds by simply notifying the trustee of this fact.

17.5. Healthcare benefits plan

a) *Assistência Multidisciplinar de Saúde (AMS)*

Petrobras and its subsidiaries Petrobras Distribuidora S.A. - BR, Petrobras Química S.A. - Petroquisa, and Alberto Pasqualini - Refap S.A., controlled by Downstream Participações Ltda., maintain a healthcare benefit plan (AMS), which offers defined benefits and covers all employees of the companies in Brazil (active and inactive) and their dependents. The plan is managed by the Company, with the employees contributing a fixed amount to cover the principal risks and a portion of the costs relating to other types of coverage in accordance with participation tables defined by certain parameters including salary levels, in addition to the pharmacy benefit that provides special terms for AMS plan holders to purchase certain medications in registered pharmacies, distributed throughout the country.

The commitment of the Company relating to future benefits due to the employees participating in the plan is calculated annually by an independent actuary, based on the method of Projected Credit Unit, in a manner similar to the calculations made for the commitments with pensions and retirements, described earlier.

The medical assistance plan is not covered by guaranteeing assets. The payment of the benefits is made by the Company based on the costs incurred by the participants.

(A free translation of the original report in Portuguese)

FEDERAL PUBLIC SERVICE**BRAZILIAN SECURITIES COMMISSION (CVM)****ITR - QUARTERLY INFORMATION - As of - 09/30/2007****Corporate Law****COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY**

The actuarial gains and losses arising from the difference between the total of liabilities based in actuarial premises and those effectively occurred, are respectively included or excluded when defining the net actuarial liability. These gains and losses are amortized over the average remaining time of service of the active employees.

b) Liquigás Distribuidora S.A.

The commitment of Liquigás Distribuidora S.A. relating to medical assistance for the active and retired employees managed by the Company itself, is calculated annually by an independent actuary. The method adopted to calculate the expenses and the items of an actuarial nature is the Projected Unit Credit. This method defines the cost of the benefit that will be allocated during the employee's active career, from the period between the date of admission to the company and the date of full eligibility for the benefit, which is established by the Collective Bargaining Agreements resulting from the union negotiations with the employees of the LPG category.

circulation for future cancellation, using funds from the profit reserves subject to the following terms:

- (a) Objective: reduce the excess cash and enhance the capital structure, helping reduce the cost of Petrobras' capital;
- (b) Amount: up to 91.500.000 preferred shares, corresponding to 4,9% of the total of this class of share in circulation, which is 1.850.364.698 shares;
- (c) Price: the acquisition will occur on the Stock Exchange, at market values on the acquisition dates throughout the buyback term;
- (d) Term: up to 365 (three hundred and sixty-five) days as from December 15, 2006.

18.3. Capital reserve - fiscal incentives

Includes an investments subsidy incentive in the Northeast, within the region covered by the Northeast Development Agency (ADENE), granting a 75% reduction in income tax payable, calculated on the profits of the exploration of the incentive activities, in the amount of R\$ 1.031.441 thousand as at September 30, 2007, and which may only be utilized to offset losses or for a capital increase, as provided for in Article 545 of the Income Tax Regulations.

On May 10, 2007, the Brazilian Federal Revenue Office recognized Petrobras' right to deduct this incentive from income tax payable, covering the tax years of 2006 until 2015.

18.4. Dividends

On July 25, 2007 and September 21, 2007, the Board of Directors of the Company approved early payment of dividends to shareholders, as interest on share capital, in the amount of R\$ 2.193.519 thousand, each installment, as provided for under Article 9 of Law No. 9.249/95 and Decrees No. 2.673/98 and 3.381/00.

The first installment of dividends will be made available to the shareholders by January 31, 2008, and the second installment by March 31, 2008, based on the stockholders' position as of August 17, 2007 and October 05, 2007, respectively, each installment corresponding to R\$ 0,50 per common and preference share, and will be deducted from the dividends to be distributed at the end of the financial year of 2007, restated according to variations in the Selic interest rate, if paid prior to December 31, 2007, from the actual date of payment to the end of that financial year. If paid out in 2008, the amount to be paid will be restated monthly according to variations in the Selic interest rate, from December 31, 2007 up to the date on which payment commences.

This interest on share capital is subject to 15% (fifteen percent) income tax, except for those shareholders who can claim immunity or exemption.

Petrobras and its subsidiaries are involved in several legal actions for civil, tax, labor and environmental issues arising in the normal course of business. Based on the advice of its internal legal counsel and management's best judgment, the Company has recorded provisions in amounts sufficient to cover losses that are considered probable. As of September 30, 2007 these provisions are presented as follows, according to the nature of the lawsuits:

| | Consolidated | | Parent Company | |
|-------------------------------|---------------------|-------------------|-----------------------|-------------------|
| | 09.30.2007 | 06.30.2007 | 09.30.2007 | 06.30.2007 |
| Other pension liabilities | 54.000 | 54.000 | 54.000 | 54.000 |
| Total current liabilities | 54.000 | 54.000 | 54.000 | 54.000 |
| Labor claims | 89.801 | 89.263 | 11.524 | 11.141 |
| Tax proceedings | 156.636 | 149.883 | 9.601 | 9.253 |
| Civil proceedings (*) | 230.971 | 215.995 | 162.883 | 163.373 |
| Other contingencies | 91.695 | 88.748 | | |
| Total non-current liabilities | 569.103 | 543.889 | 184.008 | 183.767 |
| Total | 623.103 | 597.889 | 238.008 | 237.767 |

(*) Net of the judicial deposit related to the provisioned for judicial proceeding according to CVM Pronouncement nº 489/05

Fishermen Federation of Rio de Janeiro - FEPERJ

On behalf of its members, FEPERJ is making several claims for indemnification as a result of the oil spill in Guanabara Bay which occurred on January 18, 2000. At that time, Petrobras paid out extrajudicial indemnification to everyone who proved to be fishermen when the accident occurred. According to the records of the national fishermen's register, only 3.339 could claim indemnification.

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

On February 02, 2007 a decision, partly accepting the expert report, was published and, on the pretext of quantifying the value of the sentence, established the parameters for the calculation thereof, which, based on these criteria, would result in a value of R\$ 1.102.207 thousand. Petrobras appealed against this decision before the Rio de Janeiro Court of Appeal, as the parameters stipulated in the decision are different to those that had already been specified by the Rio de Janeiro Court of Appeal itself. The appeal was accepted. The decision handed down by the First Civil Chamber of the Court of Appeals of the State of Rio de Janeiro was published on June 29, 2007, denying approval of the appeal filed by Petrobras and approving the appeal filed by FEPERJ, which represents a significant increase in the value of the damages to be awarded, since in addition to having maintained the 10 years indemnification period, it increased the number of fishermen included in the claim. In September 2007, Petrobras obtained annulment of this decision, the court determining that the appeals be re-examined by the original court. We are waiting further expert accounting audits to redefine the amounts. Based on the Company's experts' assistants calculation, the recorded amount of R\$ 28.740 thousand was maintained, as representing the amount that we understand will be set by the higher courts at the end of the process.

19.2. Legal suits not provided for**

Corporate Law

The chart on the following page shows the situation of the main lawsuits not considered as probable losses:

| Description | Nature | Probability of Loss | Current Situation |
|--|--------|---------------------|---|
| <p>Plaintiff: Porto Seguro Imóveis Ltda. Porto Seguro, a minority shareholder of Petroquisa, filed a lawsuit against Petrobras, relating to alleged losses deriving from the sale of the equity interest held by Petroquisa in several petrochemical companies in the National Privatization Programme. The Plaintiff filed the aforesaid lawsuit to obtain a n o r d e r obliging Petrobras, as the majority shareholder of Petroquisa, to compensate the loss inflicted on the assets of Petroquisa by the acts which approved the minimum sale price for its equity interest in the capital of the privatized companies.</p> | Civil | Possible | <p>On March 30, 2004, the Rio de Janeiro Court of Appeal unanimously granted the new appeal brought by Porto Seguro, ordering Petrobras to indemnify Petroquisa to an amount equal to US\$2.370 million plus 5% as a premium and 20% attorneys fees.</p> <p>Petrobras filed a Special and Extraordinary Appeal before the High Court of Justice (STJ) and the Federal Supreme Court (STF), which were rejected. It then filed an Interlocutory Appeal against this decision before the STJ and STF.</p> <p>In performance of the decision published on June 05, 2006, we are now awaiting assignment of the agenda to re-examine the matter relating to the blocking of Petrobras Special Appeal before the High Court of Justice and the Federal Supreme</p> |

Court.

Based on the opinion of its attorneys, the Company does not expect an unfavorable final decision in this proceeding.

If the award is not reversed, the indemnity estimated to Petroquisa, including monetary correction and interest, would be R\$ 10.903.441 thousand as at 30 September, 2007. As Petrobras owns 100% of Petroquisa's share capital, a portion of the indemnity estimated at R\$ 7.196.271 thousand, will not represent a disbursement from Petrobras's Group.

Additionally, Petrobras would

a) Environmental issues

The Company is subject to several environmental laws and regulations, that regulate activities involving the discharge of oil, gas and other materials, and establish that the effects caused to the environment by the Company's operations should be remedied or mitigated by the Company.

As a result of the July 16, 2000 oil spill at the São Francisco do Sul Terminal of Presidente Getúlio Vargas refinery - Repar, located about 24 kilometers from Curitiba, capital of Paraná state approximately 1,06 million gallons of crude oil was poured into the surrounding area. Approximately R\$ 74.000 thousand were spent to clean up the affected area and to cover the fines applied by the environmental authorities. The following lawsuit refers to this spill:

| Description | Nature | Probability of Loss | Current Situation |

On February 16, 2001, the company's Araucária Paranaçu pipeline ruptured due to a seismic movement and caused the spill of approximately 15.059 gallons of fuel oil in several rivers in the state of Paraná. On February 20, 2001 the clean up services of the surface of the river were concluded, recovering approximately, 13.738 gallons of oil. As a result of the accident, the following suit was filed against the Company:

| Description | Nature | Probability of Loss | Current Situation |
|---|---------------|---------------------|--|
| Plaintiff: Paraná Environmental Institute - IAP Fine levied on alleged environmental damages. | Environmental | Possible | Defense partly accepted by the lower court, reducing the fine. Appeal by Petrobras pending judgment at the court of appeal. Petrobras maximum exposure including monetary restatement as of September 30, 2007 is R\$ 164.931 thousand. The court determined an association with the proceedings brought by AMAR and that the suits be tried as one. |

On March 20, 2001, platform P-36 sank in the Campos Basin. As a result of the accident, the following lawsuit was filed against the Company:

| Description | Nature | Probability of Loss | Current Situation |
|---|--------|---------------------|--|
| Plaintiff: Federal Public Attorney's Office/RJ Indemnification for damages to environment - P-36. | Civil | Possible | According to that published on May 23, 2007, the claim was considered to have grounds, in part, to sentence Petrobras to pay the amount of R\$ 100.000 thousand in damages for the damage caused to the environment, to be restated monthly and with 1% per month interest on arrears as counted from the date on which the event took place. Petrobras filed a motion for clarification, which is pending judgment. Petrobras maximum exposure including monetary restatement as of September 30, 2007 is R\$ 169.054 mil. |

b) Recovery of PIS and COFINS

Petrobras and its subsidiary Gaspetro filed an ordinary lawsuit against the government before the Rio de Janeiro judiciary branch in order to recover, by means of an offset, the amounts paid as PIS on financial revenue and exchange

variance gains between February 1999 and November 2002, and COFINS

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

between February 1999 and January 2004, in light of the ruling that Law 9.718/98, article 3, paragraph 1 is unconstitutional.

On November 09, 2005, the Brazilian Supreme Court - STF considered the abovementioned paragraph 1 of article 3 of Law N° 9.718/98 to be unconstitutional.

The amounts of R\$ 1.963.559 thousand, for Petrobras and R\$ 64.453 thousand for Gaspetro, relating to the aforesaid cases, are not reflected in the financial statements as at September 30, 2007.

20. COMMITMENTS UNDERTAKEN BY THE ENERGY SEGMENT

20.1. Commitments to acquire natural gas

Petrobras and Yacimientos Petrolíferos Fiscales Bolivianos - YPFB executed contracts, in force until 2019, entailing the acquisition of natural gas, undertaking to acquire minimum volumes at a price calculated according to a formula tied to the price of fuel oil.

Between 2002 and 2005, Petrobras did not acquire the minimum volume specified in the contract with YPFB and paid US\$ 81.409 thousand (equal to R\$ 159.639 thousand as of September 30, 2007) on account of unshipped volumes, the credits of which will be realized through withdrawals of future volumes.

| Gas acquisition commitments | 2007 | 2008 | 2009 | 2010 | 2011 | 2019 |
|--|-------------|-------------|-------------|-------------|-------------|-------------|
| Mandatory Volume (million m ³ /day) | 24 | 24 | 24 | 24 | | 24/per year |

20.2. Electricity Purchase Contracts in a Regulated Environment - CCEAR

On December 16, 2005, the National Electrical Energy Agency - ANEEL held an auction to procure energy for the National Interconnected System - SIN, in the Regulated Procurement Environment - ACR.

By way of its ventures (Baixada Santista Energia Ltda. - BSE, Sociedade Fluminense de Energia Ltda. - SFE, Termoeará Ltda., Termorio S.A. and Unidade de Negócios Três Lagoas), Petrobras sold energy capacity of 1.391 MW. at this first new energy auction. In return for selling the capacity of its power stations, the final result of the auction will provide the Company with fixed revenue for 15 years at present values of R\$ 199.843/year as from 2008 through

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

the sale of 352 MW, an additional R\$ 210.878/year as from 2009 through the sale of a further 469 MW and an increase of R\$ 277.928/year as from 2010 through the sale of 570 MW. The contracts were executed on March 13, 2006.

By way of its ventures Termomacaé Ltda and Usina Termoelétrica Bahia I, a subsidiary of Fafen Energia S.A., Petrobras sold energy capacity of 205 MW at the third auction for new energy. By selling the capacity of its power stations, the final result of the auction will provide the Company with fixed revenue for the term of 15 years in present day values of R\$ 113.133 thousand/year as from 2011.

By way of its affiliated company Termoelétrica Potiguar and its stake in the consortia Goiana II and Camaçari Pólo de Apoio I (interest of 30%), Camaçari Muricy I and II (interest of 50%) and Pecem II (interest of 45%), the subsidiary Petrobras Distribuidora sold energy capacity of 211,4 MW. The final result of the auction will provide the company with fixed revenue for the term of 15 years in present day values of R\$ 142.197 thousand/year as from 2009.

Additionally, Petrobras will be remunerated for the effective output of its power stations for its variable operating costs.

At the fifth new energy auction held on October 16, 2007, none of its three bids to sell energy were successful.

20.3. The Gasene Project

On December 14, 2006, Petrobras announced the obtainment of two financing loans amounting to R\$ 1.360.000 thousand, to be extended by the National Economic and Social Development Bank (BNDES) to the special purpose company Transportadora Gasene S.A., responsible for implementing the Gasene Southeast-Northeast Interconnection Gas Pipeline Project.

The Gasene Project consists of constructing pipelines to transport natural gas with a total length of 1,4 thousand km and transportation capacity of 20 million cubic meters per day, connecting the Cabiúnas Terminal in Rio de Janeiro to the city of Catu, in the state of Bahia. The project is comprised of the following sections: Cabiúnas (RJ) - Vitória (ES) gas pipeline; Vitória (ES) - Cacimbas (ES) gas pipeline - (under construction with completion projected for end of 2007); and the Cacimbas (ES) - Catu (BA) gas pipeline.

One of the loans, to the amount of R\$ 1.050.000 thousand, will be used to acquire pipes for the Cacimbas (ES) - Catu (BA) Gascac pipeline which is some 940 km in length and requires an estimated investment of R\$ 3.500.000

thousand. The other loan, to the amount of R\$ 312.000 thousand, will be used to build the Cabiúnas (RJ) - Vitória (ES) - Gascav pipeline, which is some 300 km in length and requires overall investment of R\$ 1.500.000 thousand.

In addition to the BNDES joint funding, on October 17, 2006 Transportadora Gasene S.A. signed a contract in order to release credit from the BB Fund SPC, by issuing foreign bonds on the international market in the amount equivalent to R\$ 800.000 thousand. On October 23, 2006, these bonds were traded, totaling US\$ 210 million.

On April 17, 2006 Petrobras and the Chinese state company Sinopec Group entered into an engineering, supply, construction and procurement contract Engineering Procurement Construction EPC, regarding the Cabiúnas-Vitória (Gascav) gas pipeline, which is the first part of the Gasene project.

The maximum flow of the trunk pipeline will be 20 million m³/day of gas, with the implementation of two compression stations. The Cabiúnas-Vitória section already has a preliminary license, installation license and construction permit. The construction work is underway and completion is projected for the end of 2007.

The investments relating to this project are detailed in Petrobras business plan approved for the period 2007-2011 and all the initiatives comply with the Company's strategy of developing and leading the Brazilian natural gas market by creating a basic network for the shipment thereof, integrating the existing gas pipelines and those in expansion in the southeast and northeast of Brazil.

20.4. Early Repayment by Termobahia to the IDB

On May 15, 2007, Termobahia made early repayment of its debt with the Inter-American Development Bank (IDB), corresponding to the principal and interest, using funds in the amount of R\$ 300.000 thousand, which came from its shareholder Petrobras.

The decision to make early repayment was based on the fact that the interest rates were higher than the current rates.

21. GUARANTEES ON CONCESSION CONTRACTS FOR OIL EXPLORATION

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

Petrobras granted guarantees to the National Petroleum Agency ANP in the amount of R\$ 5.140.884 thousand for the minimum exploration and/or expansion programs defined in the concession contracts for exploration areas, with R\$ 3.105.276 thousand, remaining in force, net of commitments already undertaken. Of the total amount, R\$ 2.353.369 thousand refers to a lien on the oil from previously identified fields already in production, and R\$ 751.907 thousand refer to bank guarantees.

22. SEGMENT INFORMATION

Petrobras is an operationally integrated company, and the greater part of the production of crude oil and gas of the Exploration and Production Segment is transferred to other segments of Petrobras.

In the financial statements by business segment, the Company's operations are presented according to the organization and management structure approved on October 23, 2000 by the Board of Directors of Petrobras, comprising the following business units:

(a) Exploration and production: covers, by means of Petrobras, Brasoil, PNBV, PifCo, PIB B.V., BOC and Special Purpose Companies, the activities of exploration, production development and production of oil, liquefied natural gas (LNG) and natural gas in Brazil, for the purpose of supplying the refineries in Brazil as a priority, and also commercializing the surplus of crude oil as well as oil products produced at their natural gas processing plants;

(b) Supply: comprises, by means of Petrobras, Downstream (Refap), Transpetro, Petroquisa, PifCo, PIB B.V., Refinaria Ipiranga and PNBV, the activities of refining, logistics, transport and sale of oil products, crude oil and alcohol, in addition to interests in petrochemical companies in Brazil and two fertilizer plants;

(c) Gas and Energy: includes, by means of Petrobras, Gaspetro, Petrobras Comercializadora de Energia, Petrobras Distribuidora, Special Purpose and Thermoelectric Companies, the transportation and sale of natural gas produced in Brazil or imported, the production and sale of electrical power, equity interests in natural gas transport and distribution companies and in thermoelectric plants;

(d) Distribution: responsible for the distribution of oil products, alcohol and vehicular natural gas in Brazil, represented by the operations of Petrobras Distribuidora;

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

(e) International: comprises, by means of PIB B.V., PifCo, 5283 Participações, BOC and Petrobras, the activities of exploration and production of oil and gas, supply, gas and energy and distribution occurring overseas, in several countries in the Americas, Africa, Europe and Asia.

The items that cannot be attributed to the other areas are allocated to the group of corporate entities, especially those linked with corporate financial management, overhead relating to central administration and other expenses, including actuarial expenses relating to the pension and healthcare plans intended for retirees and beneficiaries.

The accounting information by business area was prepared based on the assumption of controllability, for the purpose of attributing to the business areas only items over which these areas have effective control.

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

We set forth below the main criteria used in determining net income by business segments:

- (a) Net operating revenues: these were considered to be the revenues from sales to third parties, plus revenues between the business segments, based on the internal transfer prices established by the segments, the calculation methods for which are based on market parameters.
- (b) Operating income includes net operating revenue, the costs of products and services sold, calculated per business segment, based on the internal transfer price and the other operating costs of each segment, as well as operating expenses, based on the expenses actually incurred in each segment.
- (c) The financial results are allocated to the corporate group.
- (d) Assets: covers the assets referring to each segment. The financial equity accounts are allocated to the corporate group.

23. DERIVATIVE INSTRUMENTS, HEDGING AND RISK MANAGEMENT ACTIVITIES

In 2004, Petrobras Executive Board organized a Risk Management Committee comprising executive managers of all business areas and of several corporate areas for the purpose of ensuring an integrated management of risk exposures and formalizing the main guidelines adopted by the Company to handle uncertainties regarding its activities.

The Risk Management Committee has been created with a view to concentrating risk management information and discussions, facilitating communications with the Board of Directors and the Executive Board concerning corporate governance best practices.

Several commissions created by the Risk Management Committee are developing specific targets for management of credit, company assets and liability risks, commodities, foreign exchange and interest rate prices, in order to bring the operational and commercial activities closer in line with the company for corporate risk management policy.

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

23.1. Characteristics of the markets in which Petrobras operates

The Company is exposed to a series of market risks arising from the normal course of business. Such market risks mainly involve the possibility that changes in interest rates, currency exchange rates or commodity prices will adversely affect the value of the Company's financial assets and liabilities or future cash flows and earnings. Petrobras maintains an overall risk management policy that is evolving under the direction of the Company's executive officers.

Most of Petrobras' revenues are obtained in the Brazilian market through the sale of oil products, in local currency. Other revenues are generated from product exports and sales of products through international activities where, in both cases, prices keep close similarity to those in the international markets.

Considering the oil price deregulation implemented as of January 2002, most prices charged locally also keep close ties with those in the international market. Since then, exchange rate and international market reference price variations are compensated in the local market prices, even if belatedly.

As a consequence of the characteristics of the markets where Petrobras operates, the following aspects apply:

(a) A considerable amount of Petrobras' total debt is expressed in US Dollars, or in currencies closely tied to it. Future operating cash flow is expressed in dollars.

(b) A devaluation of the real against the dollar has a relevant short-term impact in the financial statements. In the medium term, the Company's operating cash flow contributes to mitigating foreign currency risks, considering that the Company's revenues in US Dollars are significantly higher than costs and expenses denominated in that currency.

23.2. Financial risk management policy

The risk management policy adopted by Petrobras aims at seeking an adequate balance between the Company's growth and return perspectives and the related risk level exposure, whether these risks underlie the Company's own activities or arise from the context in which it operates, in such a way that the Company can attain its strategic goals by effectively allocating its physical, financial and human resources.

ITR - QUARTERLY INFORMATION - As of - 09/30/2007

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

In addition to ensuring adequate cover for the Company's fixed assets, facilities, operations and management and to managing exposure to financial, tax, regulatory, market and credit risks, among others, the objective of the risk management policy adopted by Petrobras is to supplement structural actions that will create solid financial and economic foundations in order to ensure that full advantage is taken of growth opportunities, regardless of adverse external conditions.

This policy's objective is to guide decisions on risk transfer and is supported by structured actions that are grounded on capital discipline processes and on debt management, including:

- (a) Low cost production – the capital discipline guarantees competitive costs to all products traded.
- (b) Realistic definition of future investment levels, considering the balance among profitability, growth and strategic adherence to the project portfolio, and maintenance of the strength of the Company's balance sheet, thus creating the conditions necessary to ensure sustainable growth.
- (c) Wise debt management, seeking to match debts to operating cash flows, including volumes, currencies, term, indices, thus reducing insolvency risks.

Other important risk management characteristics of Petrobras:

- (a) Integrated management of market risks, quantifying total exposures, observing the existence of natural hedges and acting on the Company's net exposure, avoiding isolated actions of the Business Units that do not contribute to corporate risk enhancement.
- (b) Respecting the concepts of efficient market and diversification. Petrobras believes that it operates in some of the most liquid global markets, where the possibility of systematic forecast of future prices is very restricted. As a result, its risk management concentrates on eliminating extremely undesirable events instead of mitigating the change in income, cash flow, etc.
- (c) High transparency standards in disclosing the Company's potential exposures.

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

23.3. Risk assessment

Assessment of the financial risks related to the Company's strategic plan is conducted by means of a probabilistic analysis of its cash flow forecast for a two-year period.

Should there be future cash balances at amounts less than the minimum adequate level, actions to reduce this risk to acceptable grounds are proposed, thereby minimizing the possibility of postponing or interrupting the Company's investment plan.

The benchmark for risk management (Cash Flow at Risk or CFaR) considers fluctuations in the most significant factors for cash generation: price, quantities (production and markets), exchange rates and interest.

Cash balances are projected for numerous scenarios considering the main risk factors through the Monte Carlo Simulation process. Thus, the estimated cash balance is defined for the intended level of reliability, and the periods during which cash may be below minimum adequate levels are identified.

Among the various alternative options to preserve the minimum pre-defined cash balance, for example, derivative transactions, additional funding and optimized distribution of disbursement periods are to be noted.

Economic and financial estimates are restated annually during the strategic planning review process.

Operations involving derivative instruments are not exclusively associated to the above-described processes. As previously mentioned, the Company's risk philosophy relies on the strength of some corporate foundations, which consider that derivatives are important tools used in the protection of transactions and in the consistency of assets and liabilities.

Exposures relating specifically to treasury investments are assessed by a traditional value at risk (VaR) system and the economic proceeds from investment projects are, in some specific cases, assessed by risk assessment models that are adequate to each business segment based on the Monte Carlo Simulation.

a) Management of market risks for petroleum and derivatives

Like all of its peers, Petrobras is subject to the volatility of the international energy prices (mainly oil), which may materially affect the Company's cash flow.

(A free translation of the original report in Portuguese)

FEDERAL PUBLIC SERVICE

BRAZILIAN SECURITIES COMMISSION (CVM)

ITR - QUARTERLY INFORMATION - As of - 09/30/2007

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

Petrobras policy for the risk management of the price of oil and oil products consists basically in protecting the import and export margins in some specific short-term positions (up to six months). Future contracts, swaps, and options are the instruments used in these hedges. These operations are always tied to actual physical transactions, that is, they are economic hedge transactions (not speculative), in which all positive or negative results are offset by the reverse results of the actual physical market transaction.

In the period from January to September 2007, hedge transactions were conducted for 27,53% at Petrobras and 46,76% at Petrobras, PifCo and Petrobras America Inc. of the total volume sold (imports and exports). On September 30, 2007 the open positions on the futures market, as compared to market value, would have presented a loss of approximately R\$ 12.948 thousand at Petrobras and R\$ 16.485 thousand at Petrobras, PifCo and Petrobras America Inc., if they had been settled on this date.

In compliance with specific business conditions, an exceptional long-term economic hedge operation, still outstanding, was effected by the sale of put options for 52 million barrels of WTI oil over the period from 2004 to 2007, to obtain price protection for this quantity of oil to provide the funding institutions of the Barracuda/Caratinga project with a minimum guaranteed margin to cover the debt servicing.

As of September 30, 2007, this transaction, if settled at market values, would represent a positive result equivalent to R\$ 53.549 thousand deriving from the premiums.

b) Foreign currency risk management

In 2000, Petrobras contracted economic hedge operations to cover Notes issued abroad in Italian lira, in order to reduce its exposure to the appreciation of these currencies in relation to the US Dollar.

The economic hedge operation is known as a Zero Cost Collar purchase and sale of options, with no initial cost, and establish a minimum and a ceiling for the variation of one currency against another, limiting the loss on the devaluation of the US Dollar, while making it possible to take advantage of some part of the appreciation of the future curve of the American currency.

The hedge of the loan in Italian lira was based on the Euro, because that currency only circulated until February 28, 2002.

The hedge transaction of the Italian lira-denominated debt had a positive market value of R\$ 64.987 thousand on September 30, 2007.

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

In September 2006, the subsidiary PifCo contracted a hedge operation called a cross currency swap to cover the yen bonds issued in order to fix the Company's costs in this operation in US Dollars.

Interest rates in different currencies are swapped under the cross currency swap. The exchange rate between the yen and the US Dollar is set at the start of the transaction and remains fixed throughout its term.

On September 30, 2007 this transaction had a fair value, which if it were recorded would result in a gain of R\$ 9.502 thousand. The Company does not intend to settle these contracts before they expire.

In the 3rd quarter of 2007, the subsidiary Petrobras Distribuidora contracted hedge currency transactions with a positive fair value of R\$ 5.105 thousand as of September 30, 2007. These transactions consist of the sale of forward short-term PTAX dollar contracts, which allow a fixed exchange rate and hedging against a possible devaluation in the period.

The fair value of derivatives is based on usual market conditions, at values prevailing at the closing of the period considered for relevant underlying quotations.

Petrobras Energia S.A. - PESA, an indirect subsidiary of Petrobras, carries out forward and sale operations of US Dollars in exchange for Argentinean pesos. As of September 30, 2007, the nominal value of the standing contracts amounted to US\$ 10 million (equivalent to R\$ 18.389 thousand) at an average exchange rate of 3,25 Argentinean pesos per US Dollar. PESA recognized a gain equal to R\$ 427 thousand for the period from January to September 2007.

c) Interest rate risk management

The Company's interest rate risk is a function of its long-term debt and, to a lesser extent, of its short-term debt. The Company's foreign currency floating rate debt is mainly subject to fluctuations in Libor and the Company's floating rate debt denominated in Reais is mainly subject to fluctuations in the Brazilian long-term interest rate (TJLP), as fixed by the Banco Central do Brasil. The Company currently does not use any derivative financial instruments to manage its exposure to fluctuations in interest rates.

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

d) Derivative instruments

The Company may use derivative and non-derivative instruments to implement its overall risk management strategy. However, by using derivative instruments, the Company exposes itself to credit and market risk. Credit risk is the failure of a counterparty to perform under the terms of the derivative contract. Market risk is the adverse effect on the value of a financial instrument that results from a change in interest rates, currency exchange rates or commodity prices. The Company addresses credit risk by restricting the counterparties to such derivative financial instruments to major financial institutions. Market risk is managed by the Company's executive officers. The Company does not hold or issue financial instruments for trading purposes.

24. ENVIRONMENT, HEALTH AND SAFETY (SMS)

The continued improvement in Petrobras' environmental performance, as specified in its Strategic Plan, is associated to the implementation of two major programs: Process Safety (PSP) and Excellence in Operational Safety and Environmental Management (Pegaso).

In September, Petrobras' place in the group of companies that forms the Dow Jones Sustainability Index (DJSI) was ratified, in recognition of the advances made by the company also in the areas of the environment, health, safety, transparency and corporate governance.

From January to September 2007, excluding expenditure on healthcare for employees and support given to external environmental projects, the Company's investment in environment, health and safety (SMS) totaled R\$ 2.964.879 thousand, of which R\$ 644.389 thousand refers to actions of the Excellence in Operational Safety and Environmental Management Program (Pegaso).

25 . OTHER INFORMATION

Special participation in the Marlim Field

This governmental participation was established by the Brazilian Law on Oil No. 9.478/97 and is collected as a means of compensation for oil production activities, incident upon high volume production fields.

(A free translation of the original report in Portuguese)

FEDERAL PUBLIC SERVICE

BRAZILIAN SECURITIES COMMISSION (CVM)

ITR - QUARTERLY INFORMATION - As of - 09/30/2007

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

The method used by Petrobras to calculate the special participation due for the Marlim field, is based on the legally legitimate interpretation of Directive 10 of January 14, 1999, approved by the National Petroleum Agency (ANP) itself.

On September 06, 2005, the Board of Directors of the ANP determined the constitution of a Work Group with the mission to demonstrate, by means of technical criteria, the methodology to be applied in the calculation of the Special Participation in the Marlim field, as well as endorse the amounts paid by Petrobras on account of this participation.

The Work Group produced the Report on the Certification of the Payment of the Special Participation in the Marlim Field, approved by the Full Board of Directors of the ANP, by means of Board Resolution 267/2006 of August 16, 2006 and circulated to Petrobras on August 18, 2006. The methodology used by Petrobras is the same as that contained in the report approved by the ANP.

In summary, the Report established the methodology to be applied with regard to the Special Participation in Marlim, and also determined that Petrobras make an additional payment in the amount of R\$ 400 million, relating to underpayments by Petrobras as a result of having used the calculation method initially determined by the ANP.

Petrobras accepted the order of the ANP, on the grounds that the new methodology applied by the Work Group had not been applied retroactively, thus ensuring compliance with constitutional principles such as legal security and the perfect legal act.

A consequence of the additional payment was the settlement in full of the additional amounts charged, in accordance with the final decision at the highest level of decision-making at the ANP – its Full Board of Directors.

On July 18, 2007, Petrobras was notified of a new ANP Board Resolution stipulating the payment of further sums considered due, retroactively to 1998, annulling the earlier Board Resolution on August 16, 2006.

Ordinance 10 of January 14, 1999 approved by Board Resolution 267/2006 of August 16, 2006, is legitimate and legal and therefore may not be revoked or annulled, under penalty of total violation of the above mentioned constitutional principles. Its annulment imparts total legal uncertainty, not only for Petrobras, but to all the concessionaires.

Petrobras is taking legal advice on this issue, not having discarded the possibility of filing a lawsuit to disclose the validity of the procedures adopted by the Company and to protect the interests of its shareholders.

26. SUBSEQUENT EVENTS**

Corporate Law

26.1 Acquisition of the Juiz de Fora Thermoelectric Power Station

On October 04, 2007, Petrobras purchased from Energisa S.A. 100% of the shares of the Juiz de Fora Thermoelectric Power Station, a natural gas powered power station, with an installed power-generation capacity of 87 MW, and which has supply contracts to sell energy until 2022.

In addition, Petrobras Comercializadora de Energia Ltda. and Energisa S.A. entered into a contract for use of the rights to sell energy with the subsidiaries of Energisa in the Northeast of Brazil.

The total value of the transaction was R\$ 204.487 thousand.

26.2 Credit facility agreement to finance exports

On October 03, 2007 Petrobras contracted a credit facility of R\$ 500.000 thousand with the Banco do Brasil. The transaction was ensured by an Export Credit Note (NCE), the sole purpose of which is to increase Petrobras' exports of ethanol, in light of the future prospects for growth of biofuel business, as highlighted in the company's strategic plan.

This transaction marks the return of Petrobras to credit facility contracting in the local market and was negotiated with the following terms:

Term: 2 years, with settlement of the principal and interest at the end of the term;

Interest rate: 96,2% of the CDI;

Clause providing for early repayment as from 180 days of the withdrawal with no penalties;

Exemption of IOF tax; and

Waiver of guarantees.

26.3. Investment in the Gulf of Mexico

On October 03, 2007 Petrobras acquired a further 26 blocks in the Gulf of Mexico at an auction held by Minerals Management Service (MMS). Of the 26 blocks, Petrobras secured a 100% share and the role of operator in 20 blocks. The remaining blocks (six) were purchased in partnership with Devon Energy, of which two will be operated by Petrobras and four by Devon, and participations will be shared equally with 50% for each.

26.4. Platform P-56 construction project

On October 30, 2007 Petrobras signed an agreement with FSTP Consortium (Keppel Fels and Technip) for the construction of the P-56 semi-submersible platform to allow production to be anticipated at Module 3 of the Marlim Sul field, worth approximately R\$ 1,2 billion, including the platform's engineering, supply, construction and assembly (hull and process plant) services. The construction work will involve two other agreements, one being for the provision and supply of the gas compression modules, worth R\$ 141 million, with Nuovo Pignone S.p.A., and the other for the provision, assembly, operation, and maintenance of the power modules, worth US\$140 million, with Rolls-Royce Energy Systems Inc. and UTC Engenharia S.A..

The platform is dimensioned to operate for 25 years.

This production unit, one of the largest of its dimensions in the world, is expected to start its commercial operations in late 2010 and to contribute to Petrobras reaching the oil and gas production goals specified in the Company's Strategic Plan.

26.5. US\$ 1 billion Global Notes issue

On November 01, 2007 Petrobras, through its wholly-owned subsidiary Petrobras International Finance Company (PifCo) concluded its bond issue of US\$ 1 billion in senior debt, unsecured Global Notes on the international market, due March 01, 2018, with the following characteristics: (i) coupon of 5,875% p.a. (ii) yield of 6,059% p.a.; and (iii) issue price of 98,612%. Interest will be paid on March 01 and September 01 of each year, with the first payout due March 01, 2008. This notes issuance is in line with Petrobras' strategies to access the long-term capital markets, refinance the early repayment of old debts and reduce the cost of its capital. The offer was distributed to over 120 investors, the majority being high grade account investors.

26.6 Analysis of the TUPI area

A Petrobras concluded the analysis of the formation test data on the second well in the area referred to as TUPI in Block BM-S-11, located in Santos Basin, and estimates volumes of recoverable light oil, 28 degrees API, of between 5 and 8 billion barrels of oil and natural gas. Petrobras is the operator in the area and holds a 65% interest, with BG Group holding 25% and Petrogal - Galp Energia holding 10%.

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

Petrobras also conducted a regional analysis of the potential of the pre-salt areas of the South and Southeast basins in Brazil. The estimated volumes of recoverable oil and gas of the pre-salt rocks, if confirmed, would significantly increase existing oil reserves in Brazilian basins.

These areas are currently in the exploration phase and more detailed studies and new wells are still needed to demarcate and evaluate the best means of developing the field. From the exploration phase to the end of the development of the proven reserves of the field, several years of research and investment are necessary before commercial production of oil and gas can begin.

(1) Before financial income and expenses and equity pick-up.

The main factors that contributed towards generating net income in the period from January to September 2007, in relation to the same period in 2006, were as follow:

A 3% increase in net operating revenue:

International market sales volumes increased by 19%, petroleum contributing strongly towards that performance due to the increase in production and overseas processing of national acidic crude oils.

Increase in volume sold on the local market, particularly aviation fuel (9%), fuel oil (6%), diesel (5%) and LPG (3%).

Offset by the effect of exchange rate fluctuations on the price of commodities in the international market.

A reduction of 1% in the average unit costs of the products sold, as a result of:

Lower spending on Government Participations as a result of the effects of the appreciation of the Brazilian currency on reference prices for national petroleum that are indexed to the price of Brent on the international market and also, of one-off adjustments in 2006 relating to the new interpretation by the National Petroleum Agency (ANP) on the deductibility of project financing costs for the Marlim field in the calculation of the special participations (R\$ 426 million), and spending on gas produced and injected back into tanks at the Solimões, Campos and Espirito Santo Basins (R\$408 million);

Offset by the following factors:

Higher spending on imports, due to the processing difficulties relating to the new flows of national petroleum and to meet the growing demand for diesel;

Higher spending on depreciation and depletion, particularly on the incorporation of new assets due to upgrading of the refineries and the start of production in the Roncador, Voador and Espadarte fields;

Higher spending on platform chartering, especially units P-34, P-47, P-50, FPSO Capixaba, FPSO and FPSO RJ

Increase in the following expenses:

General and administrative (R\$ 598 million), payroll (R\$ 226 million); outsourced services (R\$ 156 million), primarily IT, financial and administrative consulting and data processing (R\$ 66 million), including infrastructure, support, maintenance and licenses;

Exploration costs (R\$ 119 million), particularly geological and geophysical expenses (R\$ 222 million), monetary restatement of the provision for abandonment (R\$ 49 million), offset by the reduction in write-offs of dry wells (R\$ 152 million);

Research and development costs (R\$ 109 million), for projects in universities and research institutes accredited by the ANP (R\$ 59 million) and expenses with payroll (R\$ 43 million);

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

Other operating expenses (R\$ 1.890 million), particularly spending relating to the renegotiation of the Petros Plan (R\$ 972 million), institutional relations and corporate projects (R\$ 111 million), collective labor agreements (R\$ 286 million), Environment, Health and Safety (R\$ 105 million), leasing of assets and installations (R\$ 166 million), extraordinary revenue in 2006: (a) bonuses received from partnerships with Shell and Esso (R\$ 101 million); (b) recovery of the exploration expenses (R\$ 57 million); and (c) sale of materials (R\$ 40 million).

Negative impact of R\$ 2.332 million on financial income, due to:

Strengthening of the Brazilian Real and gains obtained in short-term investments and transactions between Petrobras and subsidiaries abroad due in foreign exchange variations (R\$ 3.058 million)

Part of this impact was offset by:

Financial revenue (R\$ 726 million), mainly due to the additional revenues of R\$ 533 million generated by the increase in the balances of loans with subsidiaries and by the increase of R\$ 292 million in short term investments.

A decrease of R\$ 273 million in shareholdings in subsidiaries, primarily due to foreign exchange losses in converting the net worth of the subsidiaries abroad as a result of the strengthening of the Real in 2007.

 ITR - QUARTERLY INFORMATION - As of - 09/30/2007
 COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY
 2. ECONOMIC INDICATORS

Corporate Law

Business conducted by Petrobras totaled, in 2007, R\$ 30 billion of income before financial income and expenses, earnings from shareholdings, taxes, depreciations and amortizations (EBITDA), representing a reduction of 7,8% in relation to the same period of 2006.

| 2Q 2007 | 3 rd Quarter | | | Jan - Sep | |
|---------|-------------------------|--------|----------------------|-----------|--------|
| | 2007 | 2006 | | 2007 | 2006 |
| 48 | 45 | 42 | Gross margin (%) | 46 | 47 |
| 31 | 27 | 27 | Operating margin (%) | 29 | 33 |
| 22 | 17 | 28 | Net Margin (%) | 18 | 23 |
| 11.354 | 10.386 | 10.300 | EBITDA R\$ million | 30.229 | 32.804 |

The gross margin fell by 1 percentage point, reflecting the reduction in the Average Realization Price (ARP) of basic oil products on the local market and exports, partially offset by the increase in the total volume of sales.

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

On September 30, 2007, the Company's market capitalization totaled R\$ 285,333 million. The Petrobras System invested R\$30,606 million in the third quarter, 35% up year-on-year, with an emphasis on the expansion of future oil and natural gas production in Brazil (R\$ 14,295 million). In order to sustain production growth, in the next three months three major production systems will begin operations through platforms P-52, P-54 and FPSO-Cidade de Vitória adding a joint production capacity of 460 thousand barrels per day. There is also the project to expand natural gas production in the Peroá field, in Espírito Santo, to 8 million m³ per day.

Petrobras posted a 3Q-2007 consolidated net income of R\$ 5,528 million, 22% down year-on-year due to the foreign exchange losses variation on net dollar-denominated assets, reflecting the appreciation of the Real against the US dollar, lower provisions for interest on equity and expenses arising from the amendments to the pension plan regulations.

Domestic oil and NGL production averaged 1,797 thousand barrels/day in the third quarter, 1% up on the 3Q-2006. The P-50, FPSO-Capixaba, P-34 and FPSO-Cidade do Rio de Janeiro platforms produced 1.480 more than last year, which was partially offset by the natural decline from mature fields and the occurrence of operational problems.

Domestic production of oil products increased by 3% over the 3Q-2006, thanks to Refap's new converters and the greater operational reliability of the refineries.

Distribution Segment recorded record sales of 9.4 million m³ in the 3Q-2007, 12% up year-on-year.

On September 21, 2007, the Board of Directors approved the advance payment to shareholders of R\$ 2,194 million in the form of interest on equity. The first installment of this amount, already provisioned in the 2Q-2007, will be available to shareholders until January 31, 2008, and the second installment until March 31, 2008, based on

shareholding positions on August 17 and October 5, 2007, respectively.

The acquisition of R\$ 2,909 million in long-term securities to set against the liabilities with Petros recognized in the balance sheet, reduced cash and cash equivalents by 20% over the June 30, 2007 figure.

Value added by the Petrobras System totaled R\$ 90,358 million, R\$ 52,340 million of which went to government participations and federal, state, and municipal taxes; R\$ 10,084 million to suppliers and financial institutions for financial charges, rent and charters; R\$ 17,914 million to shareholders; and R\$ 10,020 million to salaries, bonuses and benefits.

FEDERAL PUBLIC SERVICE**BRAZILIAN SECURITIES COMMISSION (CVM)****ITR - QUARTERLY INFORMATION - As of - 09/30/2007****Corporate Law****COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY****08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER**

The year-on-year reduction in 9M-2007 consolidated net income reflected the expenses related to the Petros Plan regulation amendments and the impact of the appreciation of the Real on export prices and net dollar-denominated assets. These and other factors are listed below:

A R\$ 700 million growth in gross profit:

| Main Items | Net Revenues | Cost of Goods Sold | Gross Profit |
|--|--------------|--------------------|--------------|
| . Domestic Market: - effect of volumes sold | 1.809 | (959) | 850 |
| - effect of prices | (197) | - | (197) |
| . Intl. Market: - effect of export volumes | 3.975 | (1.744) | 2.231 |
| - effect of export price | (2.521) | - | (2.521) |
| . Increase in expenses: (*) | - | (385) | (385) |
| . Extraordinary items: - adjustment to special participations ⁽¹⁾ | - | 426 | 426 |
| - expenses with re-injected gas ⁽²⁾ | - | 408 | 408 |
| . Increase in profitability of Distribution Segment | 404 | (113) | 291 |
| . Increase in operations of commercialization abroad | 1.260 | (1.047) | 213 |
| . Decrease in international sales | 6.293 | (6.306) | (13) |
| . FX effect on controlled companies abroad | (2.497) | 2.031 | (466) |
| . Others | (563) | 426 | (137) |
| | 7.963 | (7.263) | 700 |

| (*) Expenses Composition: | Value |
|--|---------|
| - domestic government take | 2.138 |
| - third-party services | 413 |
| - transportation: maritime and pipelines ⁽³⁾ | (163) |
| - non-oil products, including alcohol | (330) |

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

An increase in the following expenses:

Selling expenses (R\$ 252 million) to meet increased export volume (R\$ 158 million) and operations abroad (R\$ 104 million), R\$ 74 million of which in off-shore operations, offset by the reduction in distribution expenditure (R\$ 74 million);

General and administrative expenses (R\$ 791 million) from personnel in Brazil (R\$ 265 million) and abroad (R\$ 72 million); greater expenditure on third-party services (R\$ 242 million), especially IT and consulting services; and new companies abroad (R\$ 43 million);

Exploration costs (R\$ 280 million), related to higher expenditure in Brazil (R\$ 84 million) and abroad (R\$ 362 million) and the monetary restatement of provisions for abandonment (R\$ 49 million), offset by the reduction in the write-off of dry wells in the US and Bolivia in 2007 (R\$ 211 million);

R& D (R\$ 109 million), most of which went to projects in ANP-accredited universities and institutes (R\$ 59 million) and personnel (R\$ 43 million);

The Pension and Health Plan (R\$ 598 million), due to the amendments to the Petros Plan regulations;

Other operating expenses (R\$ 1,817 million), especially from the amendments to the Petros Plan (R\$ 1,051 million) and the Collective Bargaining Agreements (R\$ 287 million); contractual charges related to natural gas and electricity supply (R\$ 263 million); and the addition to the provisions for legal contingencies (R\$ 125 million), offset by the recovery of ICMS tax credits (R\$ 101 million), pursuant to the agreement with the Ceará State Finance Department.

A negative impact of R\$ 1,823 million on the net financial result, due to:

The appreciation of the Real and the increase in dollar credit exposure, especially in operations between Petrobras and its overseas subsidiaries (R\$ 2,566 million);

Part of this impact was offset by the reduction in financial expenses (R\$ 742 million), reflecting the restructuring of the debt profile and increased financing for ongoing projects, resulting in higher interest capitalization.

Recognition of exchange losses from the conversion of foreign subsidiaries shareholders equity (R\$ 137 million), reflected in the Special Participations result.

FEDERAL PUBLIC SERVICE**BRAZILIAN SECURITIES COMMISSION (CVM)****ITR - QUARTERLY INFORMATION - As of - 09/30/2007****Corporate Law****COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY****08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER**

Net income for the 3Q-2007 totaled R\$ 5,528 million, 19% down on the R\$ 6,800 million declared in the 2Q-2007, due to the expenses related to the Petros Plan regulation amendments and oil product imports. These and other factors are listed below:

R\$ 104 million reduction in gross profit:

**CHANGES 3Q-2007 X 2Q-2007
MAIN INFLUENCES**

| Main Items | R\$ million | | |
|--|--------------|--------------------|--------------|
| | Net Revenues | Cost of Goods Sold | Gross Profit |
| . Domestic Market: - effect of volumes sold | 1.123 | (709) | 414 |
| - effect of prices | 473 | - | 473 |
| . Intl. Market: - effect of export volumes | 626 | (294) | 332 |
| - effect of export price | 372 | - | 372 |
| . Increase in expenses: (*) | - | (1.281) | (1.281) |
| . Increase in profitability of Distribution Segment | 216 | (138) | 78 |
| . Decrease in operations of commercialization abroad | 654 | (1.001) | (347) |
| . Decrease in international sales | 169 | (434) | (265) |
| . FX effect on controlled companies abroad | (888) | 1.198 | 310 |
| . Others | (74) | (116) | (190) |
| | 2.671 | (2.775) | (104) |

| (*) Expenses Composition: | Value |
|--|---------|
| - materials, services and depreciation | 457 |
| - third-party services | 133 |
| - salaries, benefits and charges | 85 |
| - transportation: maritime and pipelines ⁽¹⁾ | (5) |
| - domestic government take | (65) |
| - non-oil products, including alcohol | (80) |
| - import of gas, crude oil and oil products ⁽²⁾ | (1.806) |

(1.281)

- (1) Expenditures on cabotage, terminals and pipelines.
- (2) CIF value.

Growth in operating expenses, due to:

Selling expenses (R\$ 192 million) thanks to higher sales volume;

The Pension and Health Plan (R\$ 695 million) due to the commitments related to the Reciprocal Obligation Agreement (R\$ 697 million).

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Exploration and Production thousand barrels/day

Year-to-date domestic oil and NGL production increased by 2% (33 thousand barrels/day) over the 9M-2006 due to the operational start-up of the platforms P-50 (East Albacora), FPSO-Capixaba (Golfinho), P-34 (Jubarte), and FPSO-Cidade do Rio de Janeiro (Espadarte) which jointly added around 200 thousand barrels/day, more than offsetting the natural decline in production.

Third-quarter domestic oil and NGL production remained virtually flat over the 2Q-2007.

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Corporate Law

Year-to-date consolidated international oil production fell 16% over the 9M-2006, due to the exclusion of Venezuelan output as of April/06.

Third-quarter consolidated international oil output dropped 5% over the 2Q-2007, due to storm-driven production stoppages in the United States.

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Refining, Transportation and Supply thousand barrels/day

The year-to-date volume of processed crude in domestic refineries (primary processing) edged up by 1% over the 9M-2006. Despite the higher number of programmed stoppages in the refineries, the new Refap converters, which started up in the 3Q-2006, allowed this volume to move up. The refineries were also more operationally reliable.

Domestic processed crude in the 3Q-2007 also inched up by 1% over the previous quarter, chiefly due to the lower number of scheduled maintenance stoppages.

In the first nine months, processed crude in the overseas refineries (primary processing) jumped by 93% year-on-year, due to the inclusion of the Pasadena refinery (USA) as of October/06 and the upturn in Argentinean refining capacity, offset by the sale of the Bolivian refineries in June/07.

In relation to the previous quarter, total processed throughput in the overseas refineries dropped by 18%, thanks to the above-mentioned sale of the Bolivian refineries.

Costs

Lifting Cost (US\$/barrel)

The year-to-date unit lifting cost in Brazil, excluding government participations, increased by 16% in relation to the first nine months of 2006. Excluding the impact of the appreciation of the Real, the unit lifting cost climbed by 10%, pushed by higher operating expenses due to the heating up of the industry and the increase in the workforce needed to operate new projects.

In comparison with the 2Q-2007, the third-quarter unit domestic lifting cost, excluding government participations, climbed by 4%. Excluding the effects of the period appreciation of the Real, the unit lifting cost would have increased by 2%, mainly due to greater use of services and support vessels related to well maintenance.

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Corporate Law

The year-to-date international unit lifting cost climbed 34% over the 9M-2006, due to higher oil industry costs, the return to normal operations, which had been jeopardized by the partial production stoppage in 2006; the operational start-up of the Cottonwood field in February/07, with its greater average costs; and maintenance services and the recovery of mature wells in Angola.

Compared to the 2Q-2007, the third-quarter international unit lifting cost remained virtually flat.

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Refining Costs (US\$/Barrel)

Domestic unit refining costs moved up 20% year-on-year in the first nine months of 2007 due to increased operating expenses, linked to higher quality products, plus environmental and market demands, as well as the increased number of scheduled maintenance stoppages. Excluding the impact of the appreciation of the Real on Real-denominated refining costs, these costs would have climbed by 12%.

In the third quarter, the domestic unit refining cost fell 5% over the 2Q-2007, reflecting the reduction in programmed stoppages and the increase in processed crude.

Average unit international refining costs climbed 90% year-on-year in the first nine months, due to the inclusion of the Pasadena refinery (USA).

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

In quarter-over-quarter terms, average unit international refining costs increased by 18% in the 3Q-2007 due to scheduled and unscheduled stoppages in the USA and the sale of the Bolivian refineries.

Corporate Overhead Parent Company (US\$ million)

In comparison with the same period in 2006, year-to-date corporate overhead climbed by 29%. If we exclude the impact of the appreciation of the Real, overhead rose by 18%. This increase reflected the growth in the Company's activities, reflected in higher personnel costs, due to the bigger workforce, as well as expenses from third-party services.

(A free translation of the original report in Portuguese)

FEDERAL PUBLIC SERVICE

ITR - QUARTERLY INFORMATION - As of - 09/30/2007

Corporate Law

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

In the third quarter, corporate overhead grew by 17% over the 2Q-2007, primarily due to higher expenses from personnel and materials, as well as the impact of the 3Q-2007 appreciation of the Real.

Sales Volume thousand barrels/day

Domestic sales volume in the first nine months moved up 3% year-on-year, led by diesel, LPG, aviation fuel and fuel oil, reflecting population growth, higher earnings among the less favored income groups, increased demand from the manufacturing industry and the expansion of tourism, in turn leveraged by the appreciation of the Real against the dollar.

Export volume rose by 13%, thanks to increased production and the reduced share of domestic crude oil in total processed throughput.

International sales volume climbed by 33% due to the inclusion of the PRSI Trading and the Pasadena refinery, as of October/06, the distributors acquired from Shell in Paraguay, Uruguay and Colombia, and offshore operations, all of which aimed at capturing opportunities abroad. This was partially offset by the elimination of operations in Venezuela and the sale of the Bolivian refinery.

Third-quarter oil product sales moved up 3% year-on-year, led by diesel whose sales were pushed by the upturn in agricultural activity.

Natural gas sales increased 10% over the 2Q-2007, due to higher consumption of gas as an industrial fuel, replacing fuel oil.

Period exports climbed by 14%, due to the shipment of national oil stocks, some of which formed in the 2Q-2007, due to the difficulty in processing new streams of oil with higher acidity.

(1) Comments on the results by business area begin on page 16 and their respective financial statements on page 26.

(2) In the international business segment, given that all operations are executed abroad, comparisons between the periods are influenced by foreign exchange variations in dollars or in the currency of those countries in which the companies in question are headquartered. As a result, there may be substantial variations in Reais, primarily arising from and reflecting changes in the exchange rate.

(3) Expenses from the creation of new jobs by Petrobras are now allocated in accordance with each employee's area of activity and are no longer allocated in their entirety to corporate administrative expenses. In order to facilitate comparisons between the periods, we have adapted the previous financial statements to the new criteria.

RESULTS BY BUSINESS AREA

Petrobras is a company that operates in an integrated manner, with the greater part of oil and gas production in the Exploration and Production area being transferred to other Company areas.

The main criteria used to report results per business area are as follows:

a) Net operating revenues: revenues from sales to external clients, plus intra-Company sales and transfers, using internal transfer prices established between the various areas as a benchmark, with assessment methodologies based on market parameters;

- b) Operating income: net operating revenues, plus the cost of goods and services sold, which are reported per business area considering the internal transfer price and other operating costs for each area, plus the operating expenses effectively incurred by each area;
- c) The entire financial result is allocated to the corporate group;
- d) Assets: refers to the assets as identified by each area. Equity accounts of a financial nature are allocated to the corporate group.

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Year-to-date net income from Exploration and Production totaled R\$ 18,756 million, 7% down on the first nine months of 2006 (R\$ 20,098 million), due to the following factors:

The R\$ 1,576 million reduction in gross profit, due to the decline in average domestic oil prices in Reais due to the appreciation of the Real against the US dollar, partially offset by the 2% upturn in oil and NGL output, the reduction in government participations and higher average transfer prices for natural gas;

Expenses of R\$ 220 million, comprising financial incentives to pension plan participants in exchange for accepting the amendments to the plan's regulations.

The spread between the average domestic oil sale/transfer price and the average Brent widened from US\$ 10.08/bbl in the first nine months of 2006, to US\$ 10.61/bbl in the 9M-2007.

In comparison with the previous quarter, 3Q-2007 net income moved up 13% due to higher average domestic oil prices and the 2% increase in the volume of oil and NGL transferred to the domestic and export markets.

The spread between the average domestic oil sale/transfer price and the average Brent price fell from US\$ 11.72/bbl in the 2Q-2007 to US\$ 10.45/bbl in the 3Q-2007.

COMMERCIAL, INDUSTRIAL & OTHER TYPES OF COMPANY

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Corporate Law

The Supply segment recorded year-to-date net income of R\$ 5,631 million, 22% up on the R\$ 4,632 million recorded in the first nine months of 2006, reflecting increased sales volume and the reduction in average costs in Reais associated with oil acquisitions and oil product imports, due to the 8% appreciation of the Real against the dollar.

These effects were partially offset by the following factors:

The 1% reduction in the average oil products sale price.

Increased oil products import volume;

Higher refining costs;

Higher selling and general and administrative expenses, chiefly due to the upturn in sales volume, and increased personnel and third-party service expenses.

In comparison with the 2Q-2007, third-quarter net income fell by 43%, pulled down by increased expenditure on oil acquisitions and oil product imports, given higher international oil prices and the greater volume of diesel needed to meet growing domestic demand. These effects were partially offset by the upturn in oil product sales volume, the increase in the average oil product sale price and the sale, in the 3Q-2007, of inventories acquired at a lower cost.

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Corporate Law

Gas and Energy recorded a year-to-date loss of R\$ 895 million, very close to the R\$ 882 million loss recorded in the first nine months of last year). The improvement in the energy sales margin due to the lower electricity acquisition cost and energy exports to Argentina, was offset by the increase in the average domestic natural gas transfer cost, the reduction in gas sales volume and the rise in the inter-company gas pipeline operation and maintenance fee, as well as the payment of contractual charges related to gas and electricity supply (R\$ 263 million).

The 3Q-2007 result was a net loss of R\$ 364 million (versus a loss of R\$ 215 million in the 2Q-2007), due to:

The payment of contractual charges related to gas and electricity supply (R\$ 263 million);

The increase in the inter-company gas pipeline operation and maintenance fee.

These effects were partially offset by higher electricity sales margins due to energy exports to Argentina, the increase in the average sales price and volume of natural gas.

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

The Distribution segment posted a year-to-date net income of R\$ 673 million, 48% more than the R\$ 455 million declared in the 9M-2006, pushed by the 12% upturn in sales volume and the reduction in selling expenses.

The segment recorded a 34.5% share of the national fuel distribution market (in line with the new criterion which reviewed the volume of the ethanol market) versus 31.9% in the first nine months of 2006 (33.1% according to the previous criterion).

In the third quarter, net income moved up 25% over the 2Q-2007 due to the 9% upturn in sales volume, partially offset by the increase in selling expenses.

The segment's period share of the fuel distribution market increased from 34.2%, in the 2Q-2007, to 35.2% .

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Corporate Law

The International segment recorded a year-to-date loss of R\$ 83 million, versus a 9M-2006 net income of R\$ 597 million.

This reversal was caused by:

The R\$ 460 million decrease in gross profit due to the impact of the 15% appreciation of the Real against the US dollar on the financial statement currency conversion process;

The R\$ 161 million increase in prospecting and drilling expenses due to heightened activity in Turkey, Angola, Iran, the United States, Libya and Venezuela, attenuated by reduced write-offs of dry wells.

The R\$ 142 million increase in selling and general and administrative expenses, due to the expansion of international operations, corporate acquisitions, the constitution of new firms and other ongoing projects.

These effects were partially offset by capital gains of R\$ 88 million from the sale of the Bolivian refineries and the Hydroneuquen plant in Pesa-Argentina.

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

The International segment posted a 3Q-2007 net loss of R\$ 58 million, versus net income of R\$ 235 million in the 2Q-2007. This reversal was due to i) reduced results from the USA, thanks to lower sales volume and narrower refining margins (R\$ 213 million) and the decrease in the E&P segment (R\$ 43 million) due to production stoppages caused by storms and pipeline maintenance; and ii) capital gains from the sale of the Bolivian refineries (R\$ 68 million).

These effects were partially offset by the R\$ 78 million reduction in exploratory costs in Nigeria and Turkey.

Year-to-date Corporate activities generated a loss of R\$ 6,798 million, versus a loss of R\$ 3,343 million in the 9M-2006, as a result of:

Expenses of R\$ 642 million from the financial incentive to pension plan participants in exchange for their acceptance of the amended plan

The R\$ 1,823 million increase in net financial expenses, as detailed on page 6

3. Government Participations

| R\$ million | | | | | | | |
|---------------|--------------|--------------|------|-------------------------|---------------|---------------|------|
| Third Quarter | | | | Jan-Sep | | | |
| 2Q-2007 | 2007 | 2006 | Δ % | | 2007 | 2006 | Δ % |
| | | | | Country | | | |
| 1.778 | 1.985 | 2.049 | (3) | Royalties | 5.392 | 5.789 | (7) |
| 1.647 | 1.955 | 2.219 | (12) | Special Participation | 5.111 | 6.365 | (20) |
| 28 | 28 | 28 | 0 | Surface Rental Fees | 86 | 79 | 9 |
| 3.453 | 3.968 | 4.296 | (8) | Subtotal Country | 10.589 | 12.233 | (13) |
| 186 | 117 | 363 | (68) | Foreign | 603 | 890 | (32) |
| 3.639 | 4.085 | 4.659 | (12) | Total | 11.192 | 13.123 | (15) |

Third-quarter government participations in the country increased by 15% over the 2Q-2007, due to the 10% increase in the reference price for local oil, which averaged R\$ 118.83 (US\$ 62.08) in the 3Q-2007, versus R\$ 108.12 (US\$ 56.81) in the previous three months, reflecting the average Brent price on the international market, associated with higher Marlim Field productivity, increasing the royalties and special participation levels.

Year-to-date government participations in the country fell by 13% over the 9M-2006, due to the 9% decrease in the reference price for local oil, which averaged R\$ 108.38 (US\$ 54.43), versus R\$ 119.56 (US\$ 54.77) in the same period in 2006, reflecting the average Brent price on the international market, associated with the reduction in the tax rate, especially in the Marlim field, due to the natural decline in production.

4. Reconciliation of Consolidated Shareholders' Equity and Net Income

| | R\$ million | |
|---|----------------------|--------|
| | Shareholders' Equity | Result |
| According to PETROBRAS information as of 09.30.2007 | 112.897 | 16.860 |
| Profit in the sales of products in affiliated inventories | (399) | (399) |
| Reversal of profits on inventory in previous years | - | 362 |
| Capitalized interest | (913) | (222) |
| Absorption of negative net worth in affiliated companies [§] | (99) | (82) |
| Other eliminations | (665) | (60) |

According to consolidated information as of 09.30.2007

110.821

16.459

* Pursuant to CVM Instruction 247/96, losses considered temporary on investments evaluated by the equity method, where the investee shows no signs of stoppage or the need for financial support from the investor, must be limited to the amount of the controlling company's investment. Thus losses generated by unfunded liabilities (negative shareholders' equity) of the controlled companies did not affect the results or shareholders' equity of Petrobras on September 30, 2007, generating a conciliatory item between the Financial Statements of Petrobras and the Consolidated Financial Statements.

5. Performance of Petrobras Shares and ADRs

| Nominal Change | | | | | |
|----------------|--------|--------|----------------------------|--------|--------|
| Third Quarter | | | Jan-Sep | | |
| 2Q-2007 | 2007 | 2006 | | 2007 | 2006 |
| 13,61% | 17,90% | -6,30% | Petrobras ON | 27,18% | 9,81% |
| 11,92% | 14,64% | -6,00% | Petrobras PN | 18,88% | 9,08% |
| 21,87% | 24,52% | -6,14% | ADR- Level III - ON | 46,62% | 17,62% |
| 19,40% | 21,30% | -6,26% | ADR- Level III - PN | 39,50% | 16,27% |
| 18,75% | 11,17% | -0,49% | IBOVESPA | 35,96% | 8,95% |
| 8,53% | 3,63% | 4,74% | DOW JONES | 11,49% | 8,97% |
| 7,50% | 3,77% | 3,97% | NASDAQ | 11,85% | 2,41% |

Petrobras shares had a book value of R\$ 25.73 per share on September 30, 2007.

6. Acquisition of Suzano Petroquímica

On August 3, 2007, PETROBRAS entered into a Share Purchase Agreement to acquire all the capital stock of Suzano Petroquímica S.A. held directly or indirectly by its controlling shareholders.

As a result of the direct and indirect sale of a controlling interest in Suzano Petroquímica, in accordance with article 254-A of Law 6.404/76, CVM Instruction 361 and the Regulations of the BOVESPA's Level II of Corporate Governance, PETROBRAS will hold a public tender offer for the acquisition of the common and preferred shares held by the minority shareholders of Suzano Petroquímica (tag along offer), and, jointly, a public tender offer for the delisting of Suzano Petroquímica (delisting offer).

The total price for the acquisition of 100% of Suzano Petroquímica's capital stock is estimated at R\$ 2.7 billion, subject to a reduction of up to 7% due to adjustments arising from the due diligence process and procedures that will occur until the finalization of the transaction, scheduled for November 30, 2007.

An Extraordinary Meeting of PETROBRAS Shareholders on October 29, 2007, approved the ratification of the Share Purchase Agreement for the acquisition of a controlling interest in Suzano Petroquímica, and nominated the bank ABN as the specialized firm to draw up an evaluation report of the transaction, pursuant to article 256 of Law 6.404/76.

The transaction was presented to the Brazilian fair trading authorities (the CADE Administrative Council for Economic Defense; the SDE Secretariat for Economic Rights; and the SEAE Secretariat for Economic Monitoring) within the deadline and under the conditions established by the prevailing legislation. The process is already in the

CADE s instruction phase.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
