Message from Management

GOL's second quarter results reflect the Company's right-sizing to current Brazilian economic and airline industry conditions and to improve liquidity.

In the period, which is seasonally the weakest in the year, GOL had net revenue of R\$2.1 billion, 2.0% lower than in the same period of 2015. The recurring operating loss in the second quarter of 2016 was R\$149.6 million, with an operating margin of minus 7.2% - an improvement of 5.1 percentage points versus same period last year. Non-recurring losses resulting from the restructuring of our fleet were R\$21.8 million.

The restructuring plan begun in 2015 completed the following initiatives: (i) the exchange of USD-denominated unsecured debt that reduced GOL's debt by US\$101.8 million and generated annual interest savings of US\$9.3 million (ii) the renegotiation of debentures with Brazilian banks, postponing R\$225 million in 2016 and 2017 amortizations to 2019, and (iii) the renegotiation of leased aircraft, with 7 aircraft already returned.

We finished the quarter in the final stage of negotiations to accelerate the return of 15 additional aircraft under operating leases, which will permit GOL to operate 122 aircraft at year-end end 2016, compared to 144 at the end of 2015.

Based on our values *Servir* ('To Serve') and *Inteligência* ('Intelligence'), the new flight network launched on May 1, 2016 brings a greater convenience to our customers.

At Congonhas, the main domestic airport in São Paulo, we adjusted service to provide the best options to key business markets, becoming the leader in number of destinations (at 33) and seat availability to the North and Northeast regions of Brazil, by swapping off-peak short-haul flights to leisure markets, enhancing fleet usage through a longer stage length (+41% YoY at Congonhas and +14.2% overall) and generating a lower CASK due to increased cost dilution.

At the two airports in Rio de Janeiro, the second largest market in Brazil, Santos Dumont (domestic airport) and Galeão (domestic and international airport), we have combined with our strategic partners Air France/ KLM and Delta, to become the most comprehensive network for domestic and international passengers, as we now have the largest number of non-stop flights departing from Rio: 8 international and 25 domestic. For domestic passengers, we have adapted flight times for corporate passengers and created a hub of connections, providing better options between the Southern and Northern regions of Brazil.

At the end of May we began a new route between Recife and Montevideo. Recife is our first base in the Northeast with non-stop flights to the Uruguayan capital, which already has non-stop flights from Guarulhos-São Paulo and Rio de Janeiro.

We maintained our leadership in the number of passengers transported in the domestic market in 1H16 with more than 15 million clients - according to the ANAC (Brazilian Civil Aviation Agency), as well as in the number of tickets issued to corporate customers. It is noteworthy that for the first time in a semester we lead in sales volume to the corporate

segment. According to data from the Brazilian Association of Corporate Travel Agencies (ABRACORP), our sales volume share reached 30.1% and in number of tickets our share was 32.3% for the first six months of the year.

1

In recognition of our efforts to enhance customer experience, we received for the third time the CIC Brasil 2016 Award, awarded by Cliente SA magazine, in the category "Best Customer Experience Project", receiving a gold medal for "Integrated Cell: Ensuring the best flying experience".

The US Federal Aviation Administration (FAA) approved GOL to perform "C-Check" Heavy Check maintenance procedures on our aircraft at our Aircraft Maintenance Center (CMA). With this certification, we can now provide lease return checks and maintenance services to our leased aircraft, opening opportunities for costs savings.

At the end of July we announced the election of Richard Lark to the position of Executive Vice-President, CFO and IRO, replacing Edmar Lopes, who held these positions since 2012 and will assume new responsibilities within the Group.

In compliance with the Group's corporate governance practices, Richard stepped out of his position as an independent Director and financial expert on the Statutory Audit Committee. André Jánosky and Anna Luiza Constantino have been appointed Directors on the Board.

The completion of our comprehensive restructuring plan will make us even stronger, more competitive and better prepared to create shareholder value and provide an increasingly superior flight experience for our customers.

We would like to thank our employees for their dedication, commitment and engagement. They spare no efforts to take GOL to an even higher level of service quality. We would also like to thank our shareholders and stakeholders for their support and trust.

CEO of GOL Linhas Aéreas Inteligentes S.A.

Domestic market - GOL

Domestic supply decreased by 8.9% in the quarter and 6.3% in the semester, reflecting the network adjustments in May 2016 with the aim of reducing supply between 5% and 8% over the year.

In the second quarter of 2016 domestic demand decreased by 11.2% and 8.4% in 1H16, resulting in a domestic load factor of 76.0%, a decrease of 2.0 p.p. compared to 2Q15, and 76.7%, a decrease of 1.8 p.p. compared to 1H15, respectively.

GOL transported 6.9 million passengers in the domestic market in the quarter, representing a decrease of 22.3% when compared to the same period in 2015. The Company maintained its leadership position in the number of transported passengers in Brazil's domestic aviation market.

International market - GOL

GOL's international supply decreased 12.2% in the quarter and 15.6% in 1H16, compared to 2015. International demand showed a decrease of 10.6% between April and June, registering load factor of 69.3%, and, in 1H16, a decrease of 11.4%, leading the international load factor to 74.1%.

During the quarter, GOL transported 420.5 thousand passengers in the international market, 9.2% less than in 2015. For 1H16, the Company transported 962.2 thousand passengers, a decrease of 7.7% compared to the same period in 2015.

Volume of departures and Total seats - GOL

The volume of departures in the overall system was reduced by 21.0% and 14.4% in the second quarter and 1H16, respectively. The total number of seats available of the market fell 20.8% in 2Q16 and 14.3% in the first half of 2016.

PRASK, Yield and RASK

Net PRASK grew by 6.9% and 12.3%, RASK improved 8.1% and 12.0% and yield increased by 9.2% and 13.8%, in comparison with 2Q15 and 1H15, respectively. It is worth noting the ASK decreased 9.3% in the quarter and 7.5% in the semester.

*Non-operational

At the end of 2Q16, out of a total of 139 Boeing 737-NG aircraft, GOL was operating 119 aircraft on its routes. Of the 20 remaining aircraft, 11 were in the process of being returned to the lessors and 9 were sub-leased to other airlines (of which, 1 will be redelivered to its lessor).

GOL has 102 aircraft under operating leases and 37 under finance leases, 31 of which have a purchase option for when their leasing contracts expire.

The average age of the fleet was 8.0 years at the end of 2Q16. In order to maintain this average low, the Company has 120 firm aircraft acquisition orders with Boeing for fleet renewal by 2027.

Capex

GOL posted a negative net investment of R\$380.0 million in the year. For more details on changes in property, plant and equipment, see Note 15 of the interim financial statements. The next aircraft is expected to be received by the Company in July, 2018.

Glossary of industry terms

- | **AIRCRAFT LEASING:** an agreement through which a company (the lessor), acquires a resource chosen by its client (the lessee) for subsequent rental to the latter for a determined period.
- | **AIRCRAFT UTILIZATION:** the average number of hours operated per day by the aircraft.
- | **AVAILABLE SEAT KILOMETERS (ASK):** the aircraft seating capacity multiplied by the number of kilometers flown.
- | **AVERAGE STAGE LENGTH:** the average number of kilometers flown per flight.
- | **BLOCK HOURS:** the time an aircraft is in flight plus taxiing time.
- | **BREAKEVEN LOAD FACTOR:** the passenger load factor that will result in passenger revenues being equal to operating expenses.
- | **BRENT:** oil produced in the North Sea, traded on the London Stock Exchange and used as a reference in the European and Asian derivatives markets.
- | **CHARTER:** a flight operated by an airline outside its normal or regular operations.
- | **EBITDAR:** earnings before interest, taxes, depreciation, amortization and rent. Airlines normally present EBITDAR, since aircraft leasing represents a significant operating expense for their business.
- | **LESSOR:** the party renting a property or other asset to another party, the lessee.
- | **LOAD FACTOR:** the percentage of aircraft seating capacity that is actually utilized (calculated by dividing RPK by ASK).
- | **LONG-HAUL FLIGHTS:** long-distance flights (in GOL's case, flights of more than four hours' duration).
- | **OPERATING COST PER AVAILABLE SEAT KILOMETER (CASK):** operating expenses divided by the total number of available seat kilometers.
- | **OPERATING COST PER AVAILABLE SEAT KILOMETER EX-FUEL (CASK EX-FUEL):** operating cost divided by the total number of available seat kilometers excluding fuel expenses.
- | **OPERATING REVENUE PER AVAILABLE SEAT KILOMETER (RASK):** total operating revenue divided by the total number of available seat kilometers.
- | **PASSENGER REVENUE PER AVAILABLE SEAT KILOMETER (PRASK):** total passenger revenue divided by the total number of available seat kilometers.

| **REVENUE PASSENGERS:** the total number of passengers on board who have paid more than 25% of the full flight fare.

| **REVENUE PASSENGER KILOMETERS (RPK):** the sum of the products of the number of paying passengers on a given flight and the length of the flight.

| **SALE-LEASEBACK:** a financial transaction whereby a resource is sold and then leased back, enabling use of the resource without owning it.

| **SLOT:** the right of an aircraft to take off or land at a given airport for a determined period of time.

| **SUB-LEASE:** an arrangement whereby a lessor in a rent agreement leases the item rented to a third party.

| **TOTAL CASH:**the sum of cash, financial investments and short and long-term restricted cash.

| **WTI Barrel:** West Texas Intermediate – the West Texas region, where US oil exploration is concentrated. Serves as a reference for the US petroleum byproduct markets.

| **Yield pEr PASSENGER KILOMETER:** the average value paid by a passenger to fly one kilometer.

Report on the review of the quarterly information

To

The Shareholders, Board of Directors and Officers

GOL Linhas Aéreas Inteligentes S.A.

São Paulo - SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of GOL Linhas Aéreas Inteligentes S.A. ("Company"), identified as Company and Consolidated, respectively, contained in the Quarterly Information (ITR) for the quarter ended June 30, 2016, which comprises the balance sheet as at June 30, 2016 and the related income statement and statement of comprehensive income (loss) for the three and six-month period then ended, the statement of changes in equity and cash flow statement for the six-month period then ended, including explanatory notes.

Company management is responsible for the preparation of interim individual financial information in accordance with the Technical Pronouncement of the Accounting Pronouncements Committee (CPC) 21 (R1) – Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21 (R1) and IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the presentation of these information in compliance with the rules issued by the Brazilian Securities Commission ("CVM"), applicable to the preparation of Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Review Engagements (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and

other review procedures. The scope of a review is significantly narrower than an audit conducted in accordance with Brazilian and International Standards on Auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might have been identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual and consolidated interim financial information

Based on our review, nothing came to our attention that causes us to believe that the accompanying individual and consolidated interim financial information included in the Quarterly Information referred to above was not prepared, in all material respects, in accordance with CPC 21(R1) and IAS 34 applicable to the preparation of Quarterly Financial Information (ITR), consistently with the standards issued by the Brazilian Securities Commission (CVM).

Other matters

Statements of value added

We have also reviewed the individual and consolidated statements of value added for the six-month period ended June 30, 2016, prepared under the responsibility of management, the presentation of which in the interim financial information is required by rules issued by the Brazilian Securities Commission (CVM) applicable to the preparation of Quarterly Financial Information (ITR), and as supplementary information by IFRS, whereby no statement of value added presentation is required. These statements have been subjected to the same review procedures previously described and, based on our review, nothing has come to our attention that causes us to believe that they are not prepared, in all material respects, in accordance with the overall accompanying interim individual and consolidated interim financial information.

Notes to the quarterly information - ITR

June 30, 2016

(In millions of Brazilian Reais - R\$, except when otherwise indicated)

1. Operations

Gol Linhas Aéreas Inteligentes S.A. (the “Company” or “GLAI”) is a publicly-listed company established on March 12, 2004, in accordance with Brazilian corporate legislation. The Company is engaged in controlling its subsidiaries: (i) VRG Linhas Aéreas S.A. (“VRG”), which essentially explores (a) the regular and nonregular flight transportation services of passengers, cargo and mailbags, domestically or internationally, according to the concessions granted by the competent authorities and (b) complementary activities of flight transport services provided in its By-laws and (ii) Smiles S.A., which mainly operates (a) the development and management of its own or third party’s customer loyalty program, and (b) the sale of redemption rights of awards related to the loyalty program.

Additionally, the Company is the direct parent Company of the wholly-owned subsidiaries GAC Inc. (“GAC”), Gol Finance Inc. (“Gol Finance”), Gol LuxCo S.A. (“Gol LuxCo”) and Gol Dominicana Lineas Aereas SAS (“Gol Dominicana”), and indirect parent Company of Webjet Participações S.A. (“Webjet”).

The Company’s registered office is at Pça.Comandante Linneu Gomes, s/n, portaria 3, prédio 24, Jardim Aeroporto, São Paulo, Brazil.

The Company’s shares are traded on the BM&FBOVESPA and on the New York Stock Exchange (“NYSE”). The Company adopted Level 2 Differentiated Corporate Governance Practices from BM&FBOVESPA and is included in the Special Corporate Governance Stock Index (“IGC”) and the Special Tag Along Stock Index (“ITAG”), which were created to identify companies committed to the differentiated corporate governance practices.

1.1. Short-term business plan

The Company has been severely affected by the devaluation of the Brazilian Real, since its costs denominated in U.S. dollars in 2015 accounted for approximately 50% against around 10% of revenues, even though this downward trend has been partly reversed during the period ended June 30, 2016. In addition, events such as the fall in Brazil's GDP (shrinkage of the economy), oversupply in the market, and the worsening of the economic crisis, which has affected demand by corporate customers and government, have created a difficult situation for the Company's operations.

In this context, the Company reassessed its business plan and incorporated strategies that, once implemented, should be sufficient to ensure the continuity of the Company's operations. Among the short-term strategies, we highlight four pillars to recover operating margin for 2016 and 2017, as well as to maintain the solvency:

(a) Liquidity initiatives: negotiations with strategic customers and suppliers to maintain short-term solvency, in particular through agreements to delay delivery of aircraft in the next few years, negotiating the advanced purchase of tickets by Smiles, extending maturity dates for payments to suppliers, and bringing forward payment of receivables from customers.

Notes to the quarterly information - ITR

June 30, 2016

(In millions of Brazilian Reais - R\$, except when otherwise indicated)

(b) The Company has adjusted its flight network to focus on the more profitable routes. The Company began operating its new flight network in May 2016.

(c) As a result of these changes, the Company is also working to reduce the number of aircraft used for its operations, so as to reduce the number of seats available and bring supply into line with demand in the domestic market. The Company anticipates returning at least 20 aircraft. These measures will lead to a significant reduction in fleet maintenance costs. The intention is to adjust the Company's structure to sustainable levels.

(d) Readjustment of the structure of debt and leasing for the purpose of revising the amounts related to lease agreements that are part of the Company's debt structure. As a result, the Company made the hiring of the Sky Works business services for review of existing lease agreements. Additionally, in the six months ended June 30, 2016, the Company prepaid ended the financial lease of 8 aircraft, of which 6 were converted into operating lease of short and medium-term contracts, as described in Note 15. As part of the realignment initiative of the debt structure, the Company also made the offer to exchange securities, enabling an effective reduction of US\$102 (R\$327), according to Note 31a.

It should be noted that, however realistic the business plan, the political and economic uncertainties in Brazil may adversely affect the anticipated results. Additionally, the extreme volatility of the macroeconomic variables creates uncertainty and could jeopardize future results and the stability of the cash position.

The Company's Management believes that the business plan prepared, submitted and approved by the Board of Directors on February 18, 2016 shows strong elements of the Company's going concern. Management believes that its plans are feasible and that, once completed, should lead the Company to the level of strength required to respond more effectively the high volatility of the economic conditions and/or adverse events. Management believes that the non-implementation of these measures can compromise the profitability and solvency of the operation and thus reinforces its commitment to implement all the necessary measures to ensure the implementation of the plan and implement the necessary efforts to

ensure the expected return.

2. Approval and summary of significant accounting policies applied in preparing the quarterly information

This quarterly information form was approved by the Board of Directors and had its publication authorized at a meeting held on August 12, 2016.

2.1. Basis of preparation

The Company's individual and consolidated quarterly information for the six-month period ended June 30, 2016, has been prepared in accordance with International Accounting Standards ("IAS") No. 34, and Accounting Pronouncement No. 21 (R1) (CPC 21), which deals with interim statements, and the standards issued by the Brazilian Securities and Exchange Commission, applicable to the preparation of quarterly information.

Notes to the quarterly information - ITR

June 30, 2016

(In millions of Brazilian Reais - R\$, except when otherwise indicated)

This quarterly information was prepared based on historical cost, except for certain financial assets and liabilities that are measured at fair value and investments measured using the equity method.

The individual and consolidated quarterly information does not include all the information or disclosures required in the individual and consolidated annual financial statements, and it should therefore be read in conjunction with the individual and consolidated financial statements for the year ended December 31, 2015, and approved on March 28, 2016, which were prepared in accordance with the accounting practices generally accepted in Brazil and the international financial reporting standards (IFRS). There were no changes between December 31, 2015, and June 30, 2016, in the accounting practices adopted, with the exception of the new standards, amendments and interpretations described in Note 2.2. The Company has not adopted in advance any standard, amendment or interpretation issued but not yet in force.

Shareholders' equity shown in the individual and consolidated quarterly information is the same except for the interest of non-controlling shareholders in Smiles S.A., which appears in consolidated shareholders' equity.

IFRS 7 Financial instruments – disclosure: (i) clarifies that a servicing contract that includes a fee can constitute continuing involvement in a financial asset; and (ii) the applicability of the amendments to IFRS 7 to condensed interim financial statements. This amendment must be applied retrospectively;

IAS 34 Preparation and disclosure of interim financial reporting: This amendment must be applied retrospectively;

Amendments to IAS 1 – Disclosure Initiative: The amendments are applicable prospectively to annual periods beginning on January 1, 2016, with early adoption permitted;

Amendments to IFRS 10, IFRS 12 and IAS 28 – Investment Entities: Applying the Consolidation Exception: The amendments are applicable prospectively to annual periods beginning on January 1, 2016, with early adoption permitted.

3. Seasonality

The Company expects revenues and operating profit or loss from its flights to be at their highest levels in the summer and winter months of January and July, respectively, and during the year-end holiday period in the last fortnight of December. Given the high proportion of fixed costs, this seasonality tends to drive variations in operating profits or losses across fiscal-year quarters.

4. Cash and cash equivalents

	Parent Company		Consolidated	
	06/30/2016	12/31/2015	06/30/2016	12/31/2015
Cash and bank deposits	51	370	338	629
Cash equivalents	4	17	269	443
	55	387	607	1,072

The breakdown of cash equivalents is as follows:

	Parent Company		Consolidated	
	06/30/2016	12/31/2015	06/30/2016	12/31/2015
Private bonds	-	17	98	208
Investment funds	4	-	171	235
	4	17	269	443

As of June 30, 2016, the private securities were comprised by private bonds (Bank Deposit Certificates - "CDBs") and repos remunerated at post-fixed rates between 90% and 103% (75% and 103% as of December 31, 2015) of the Interbank Deposit Certificate rate ("CDI") paid on investments in financial institutions domiciled in Brazil.

Investment funds classified as cash equivalents have high liquidity and, according to the Company's assessment, are readily convertible to a known amount of cash with insignificant risk of change in value.

Current	-	59	-	59
Noncurrent	33	24	361	676

(a) Denominated in U.S. dollars, remunerated by Libor rate (average remuneration of 0.5% p.a.).

(b) In the period ended June 30, 2016, the Company repaid its loan from Banco Safra and therefore redeemed the amount of R\$116 for the guarantee related to the loan, and R\$63 related to guarantees of Webjet's operations. Additionally, the Company redeemed R\$41 relating to Finimp transactions settled (see Note 17). The remaining amounts relate primarily to court deposits related to labor claims and Finimp agreements.

(c) The amount of R\$28 (parent company and consolidated) refers to a contractual guarantee for STJs related to PIS and Cofins on interest attributable to shareholders' equity paid to GLAI as described in Note 21b. The other amounts relate to guarantees of VRG letters of credit.

(d) Related to a letter of credit for aircraft operating leases from VRG.

(e) The balance as of December 31, 2015 refers to additional escrow deposits with Delta Air Lines for issuing credit with surety as per Note 17. As of June 30, 2016, the Company had not exceeded the contractual limits that would require a deposit of this type, therefore the balance was fully redeemed.

(b) The R\$29 portion of taxes on unrealized profits from transactions between VRG and Smiles is recognized directly in "Consolidated" (R\$26 as of December 31, 2015).

The Company and its directly held subsidiary VRG and indirectly held subsidiary Webjet show income tax losses and negative basis of social contribution on taxable income to be offset against 30% of annual taxable income, with no prescription period, in the following amounts:

	Parent Company		Directly held subsidiary		Indirectly held subsidiary	
	(GLAI)		(VRG)		(Webjet)	
	06/30/2016	12/31/2015	06/30/2016	12/31/2015	06/30/2016	12/31/2015

The Company's Management considers that the deferred assets and liabilities recognized as of June 30, 2016 arising from temporary differences will be realized in proportion to realization of their bases and the expectation of future results.

Notes to the quarterly information - ITR

June 30, 2016

(In millions of Brazilian Reais - R\$, except when otherwise indicated)

The analysis of the realization of deferred tax assets was prepared on a company basis, as follows:

GLAI: the Company has tax credits of R\$74, of which R\$73 is related to tax losses and negative base for social contribution and R\$1 is related to temporary differences, with realization supported by the long-term plan of the Company. However, the Company assessed the projections of results and did not recognize the amount of R\$67 related to credits on tax losses and negative base for social contribution.

VRG: VRG has tax-loss carryforward and negative calculation base for social contribution in the amount of R\$1,300. However, in view of recent events on the political scenario in Brazil, instability of the economic environment, constant fluctuations in the U.S. dollar exchange rate and other variables that significantly affect the projections of future results, as well as the history of losses in recent years, VRG did not recognize tax-loss carryforward and negative calculation base for social contribution in their entirety. Additionally, the Company analyzed the realization of deferred tax assets on temporary differences and limited the recognition based on the expected realization of deferred tax liabilities on temporary differences. As a result, the Company did not recognize the net amount of R\$504 of deferred income and social contribution taxes on temporary difference assets.

Smiles: Smiles does not have tax losses and negative calculation base for social contribution. Therefore, the deferred tax credit is composed only by temporary differences which, according to the history and projections of taxable results, have an expectation of realization.

Webjet: the forecast did not present sufficient taxable income to be realized over future periods and, as a result, tax credits of R\$293 have not been recorded.

The reconciliation of effective income tax rates and social contribution charges for the three-month and six-month ended June 30, 2016 and 2015 is as follows:

a) Judicial deposits

Judicial deposits and blocked escrows represent guarantees of lawsuits related to tax, civil and labor claims deposited in escrow until the resolution of the related claims. Part of the judicial deposits is related to civil and labor claims arising from the succession orders on claims against Varig S.A. and proceedings filed by employees that are not related to the Company or any related party (third-party claims). As the Company is not correctly classified as the defendant of these lawsuits, whenever such blockages occur, the exclusion of such is requested in order to release the resources. As of June 30, 2016, the blocked amounts regarding Varig's succession lawsuit and third-party lawsuits were R\$97 and R\$73, respectively (R\$92 and R\$75 as of December 31, 2015, respectively).

b) Maintenance deposits

Notes to the quarterly information - ITR

June 30, 2016

(In millions of Brazilian Reais - R\$, except when otherwise indicated)

The Company made deposits in U.S. dollars for maintenance of aircraft and engines that will be used in future events as set forth in some lease contracts.

The maintenance deposits do not exempt the Company, as lessee, neither from the contractual obligations relating to maintenance nor from risk associated with maintenance activities. The Company holds the right to select any of the maintenance service providers or to perform such services internally.

c) Deposits in guarantee for lease agreements

As required by its lease agreements, the Company holds guarantee deposits in U.S. dollars on behalf of the leasing companies, whose full refund occurs upon the contract expiration date.

11. Transactions with related parties

11.1. Loan agreements - noncurrent assets and liabilities

Parent Company

The Company's asset and liability inter-company accounts with VRG have no sureties or guarantees, as shown in the table below:

	Assets		Liabilities	
	06/30/2016	12/31/2015	06/30/2016	12/31/2015

Gol LuxCo - VRG	1,445	723	-	-
	1,754	883	(21)	(27)

Additionally, the Parent company has inter-company accounts involving Gol LuxCo, Gol Finance and GAC, as shown below:

	Assets		Liabilities	
	06/30/2016	12/31/2015	06/30/2016	12/31/2015
GAC - GLAI	-	3	121	151
GAC - Gol Finance	-	-	1,080	1,298

Gol LuxCo - Gol Finance	655	795	724	880
	1,271	2,217	1,925	2,329

These transactions are eliminated in the Parent company's accounts since they took place in offshore entities considered extensions of the Company's own operations.

11.2. Transportation and consulting services

All agreements related to transportation and consulting services are held by VRG. The related parties for these services are:

Notes to the quarterly information - ITR

June 30, 2016

(In millions of Brazilian Reais - R\$, except when otherwise indicated)

Breda Transportes e Serviços S.A.: provides passenger and luggage transportation services between airports, and transportation of employees. Prices may be adjusted at 12-month intervals to hold for the same period through an amendment signed by the parties, annually adjusted based on the IGPM fluctuation (General Market Price Index from Getulio Vargas Foundation). This agreement is currently being renewed.

Expresso União Ltda.: provides transportation to employees, and the agreement expires on August 1, 2016.

Pax Participações S.A.: provides consulting and advisory services, and the agreement expires on April 30, 2017.

Vaud Participações S.A.: provides executive administration and management services, and the agreement expires on October 1, 2016.

In the period ended June 30, 2016, the VRG subsidiary recognized a total expense related to these services in the amount of R\$7 (R\$8 in the quarter ended June 30, 2015). On the same date, the balance payable to the 'related companies - suppliers' line item was R\$1 (R\$2 as of December 31, 2015), and was mainly related to services provided by Breda Transportes e Serviços S.A.

11.3. Agreements to open UATP ("Universal Air Transportation Plan") account with credit limit granted

In September 2011, VRG entered into agreements with the related parties Pássaro Azul Taxi Aéreo Ltda. and Viação Piracicabana Ltda., both with no expiration date, with the purpose of issuing credits to be used in the UATP ("Universal Air Transportation Plan") system. The UATP account (virtual card) is accepted as a payment method on the purchase of airline tickets and related services, seeking to simplify billing and facilitate payment between participating companies.

11.4. Financing contract for engine maintenance

VRG has a line of funding for maintenance of engines services, which is drawn on by issuing Guaranteed Notes. As of June 30, 2016, VRG holds one series of Guaranteed Notes for maintenance of engines issued on March 13, 2015, maturing within three years. Delta Air Lines is the guarantor for the Guaranteed Notes.

As of June 30, 2016, the balance of engine maintenance funding recorded under "loans and borrowings" item was R\$74 (R\$137 as of December 31, 2015), as described in Note 17.

In the period ended June 30, 2016, expenses incurred for engine maintenance services provided by Delta Air Lines amounted to R\$53 (R\$178 in the period ended June 30, 2015).

(In millions of Brazilian Reais - R\$, except when otherwise indicated)

11.5. Term loan guarantee

On August 31, 2015, through its Gol LuxCo subsidiary, the Company issued a term loan in the amount of US\$300 million, with a term of 5 years and effective interest rate of 6.5% p.a. The Company had an additional backstop guarantee from Delta Air Lines, as per Note 17.

11.6. Strategic business partnership

On February 19, 2014, the Company signed a strategic partnership agreement for long-term business cooperation with Air France-KLM with the purpose of improving sales activities and expanding flight and benefits sharing through mileage programs between companies for the customers in the Brazilian and European markets.

The agreement provides for the incentive investment in the Company in the amount of R\$112, payment of which was divided in three installments: the first installment in the amount of R\$74 was received in June 2014, the second installment in the amount of R\$18 was received in June 2015 and the third installment in the amount of R\$27 was received in June 2016. The agreement will mature within 5 years and the installments will be amortized on a monthly basis. As of June 30, 2016, the Company has deferred revenues in the amount of R\$22 and R\$43 recorded under "Other liabilities" in the current and noncurrent liabilities, respectively (R\$28 and R\$49 as of December 31, 2015, in the current and noncurrent liabilities, respectively).

11.7. Remuneration of key management personnel

	11	11	22	19

As of June 30, 2016 and 2015, the Company did not offer post-employment benefits, and there were no severance benefits or other long-term benefits for Management or other employees.

12. Share-based payments

The Company has two share-based payment plans offered to its management personnel: the Stock Option Plan and the Restricted Shares Plan. Both plans stimulate and promote the alignment of the Company's goals with management and employees, mitigate risks for the Company's added value resulting from the loss of executives and strengthen the productivity and commitment of these executives to long-term results.

a) Stock options plan

The beneficiaries of the Company's stock option plan are allowed to purchase shares at the price agreed on the grant date after three years from the grant date, provided that the beneficiary maintains its employment relationship up to the end of this period.

The stock options become vested 20% as from the first year, an additional 30% as from the second year, and the remaining 50% as from the third year. All stock options may also be exercised within 10 years after the grant date. In all option plans, the expected volatility of the options is based on the historical volatility of 252 working days of the Company's shares traded on the BM&FBOVESPA.

13. Investments

Investments in the GAC, Gol Finance and Gol LuxCo offshore subsidiaries were essentially seen as an extension of the Company and summed line by line with the GLAI parent company. Therefore, only Smiles, VRG and GOL Dominicana are treated as investments in the GLAI parent company.

The balance of investments in the consolidated figures reflects the 21.3% share of the capital of Netpoints Fidelidade S.A. held by the Smiles subsidiary, together with the investment in SCP Trip held by the VRG subsidiary, both recognized by the equity equivalence method.

(a) Corresponds to transactions involving revenue from mileage redemption for airline tickets by participants in the Smiles Program which, for the purposes of consolidated statements are only accrued when program participants are actually transported by VRG.

(b) Adjusted shareholders' equity corresponds to the percentage share of total shareholders' equity net of unrealized profits.

(c) The GAC subsidiary has a net balance of deferred losses and gains on sale-leaseback transactions that may be deferred subject to VRG repaying contractual installments. Therefore, the net balance is essentially part of the parent company's net investment in VRG.

14.Earnings per share

Although there are differences between common and preferred shares in terms of voting rights and priority in case of liquidation, the Company's preferred shares are not entitled to receive any fixed dividends. Preferred shares hold economic power and the right to 35 times more dividends than common shares. The Company believes that the economic power of preferred shares is more than that of common shares.

Basic earnings per share are calculated by dividing the period's net income attributable to controlling shareholders by the weighted average number of all classes of shares outstanding during the period.

Diluted earnings per share are calculated by adjusting the weighted average number of shares outstanding by instruments potentially convertible into shares. The Company has only one category of potentially dilutive shares, namely stock options, as described in Note 12. However, since these options are for amounts below market price (out of money), these instruments issued by the parent company have no dilutive effect and therefore are not included in the total quantity of outstanding shares.

(a) The Company changed lessors for 6 agreements classified as financial lease agreements in the quarter ended June 30, 2016 through sale-leaseback transactions. Although the Company will continue to have these aircraft in its fleet, factors such as exchanging lessors, new contractual terms and particularly shorter contractual durations characterize these agreements as new contracts under IAS17 and CPC06 criteria. As of February 11, 2016, therefore, these aircraft have been classified as operating leases and the related payments are now recognized under costs as "aircraft leases". In addition, the Company terminated an agreement for 2 aircraft early and did not enter into any other types of agreement.

(b) Refers to provisions made by the Company in order to present its assets according to their actual capacity for generating economic benefits.

17.1. Covenants

On June 30, 2016, long-term debt (excluding perpetual bonds and finance leases) in the total amount of R\$3,770 (R\$4,704 as of December 31, 2015) involved restrictive covenants, including but not limited to those that require the Company to maintain the liquidity requirements and the coverage of expenses with interest.

Notes to the quarterly information - ITR

June 30, 2016

(In millions of Brazilian Reais - R\$, except when otherwise indicated)

The Company has restrictive covenants on the Term Loan and Debentures VI with the following financial institutions: Bradesco and Banco do Brasil, with semi-annual measurements, the most recent of which was carried out in the second half of 2016. On June 30, 2016, Debentures VI were subject to the following covenants: (i) net debt/EBITDAR below 7.76 and (ii) debt coverage ratio (ICSD) of at least 1.56. The ratios obtained in the latest measurements carried out on June 30, 2016 were as follows: (i) net debt/EBITDAR of 7.43; and (ii) debt coverage ratio (ICSD) of 1.07. As a result, the Company did not meet the minimum levels required by the abovementioned covenants. At the General Debenture Holders' Meeting of June 29, 2016, however, the holders of all outstanding debentures resolved, without restrictions or opposition, not to declare the early maturity of the debentures and changes on amortization amounts. Accordingly, the Company maintained the classification of Debentures VI as noncurrent liabilities.

17.2. New loans and financing during the six-month period ended June 30, 2016

During the six-month period ended June 30, 2016, the Company's new funding was as follows:

Import financing (Finimp): through its VRG subsidiary, the Company renegotiated contracts of this type that are part of a credit line maintained by the Company for import financing in order to purchase spare parts and aircraft equipment. These renegotiations are shown below:

Original date of funding	Financial institution	Amount funded		Interest Rate (p.a.)	New date of Maturity
		(US\$)	(R\$)		
03/9/2015	Banco do Brasil	5	17	4.20%	2/11/2017

05/18/2015 Banco do Brasil	9	31	4.19%	2/1/2017

04/28/2016 Banco do Brasil	4	14	4.23%	4/20/2017

Other loans and borrowings have not been affected by contractual alterations during the six-month period ended June 30, 2016.

17.3. Finance leases

The future payments of finance agreements indexed to U.S. Dollar are detailed as follows:

	Consolidated

Noncurrent portion	1,614	2,505

Notes to the quarterly information - ITR

June 30, 2016

(In millions of Brazilian Reais - R\$, except when otherwise indicated)

The discount rate used to calculate present value of the minimum lease payments was 4.48% as of June 30, 2016 (4.91% as of December 31, 2015). There are no significant differences between the present value of minimum lease payments and the fair value of these financial liabilities.

The Company extended the maturity date of the financing for some of its aircraft leased for 15 years using the SOAR framework (mechanism for extending financing amortization and repayment), which enables the performance of calculated withdrawals to be settled by payment in full at the end of the lease agreement. As of June 30, 2016, amounts of withdrawals for the repayment at maturity date of the lease agreements totaled R\$230 (R\$277 as of December 31, 2015) and they have been added to the 'loans and financing' line item in Noncurrent liabilities.

(In millions of Brazilian Reais - R\$, except when otherwise indicated)

(a) Provision for aircraft and engines return

Provision for returns considers the costs that meet the contractual conditions for the return of engines maintained under operating leases, as well as the costs to reconfigure aircraft when returned as described in the return conditions of the lease contracts. The corresponding debit entry is capitalized in property, plant and equipment (aircraft reconfigurations/overhauling).

(b) Provision for legal proceedings

As of June 30, 2016, the Company and its subsidiaries are parties to 28,687 (8,555 labor and 20,132 civil) lawsuits and administrative proceedings. The lawsuits and administrative proceedings are classified into Operational (those arising from the Company's normal course of operations), and Succession (those arising from claims for recognition of the succession of former Varig S.A. obligations).

Under this classification, the number of proceedings is as follows:

	Operational	Succession	Total
Civil lawsuits	18,321	226	18,547
Civil proceedings	1,584	1	1,585
Labor lawsuits	5,541	2,798	8,339
Labor proceedings	214	2	216
	25,660	3,027	28,687

The civil lawsuits are primarily related to compensation claims generally related to flight delays and cancellations, baggage loss and damage. The labor claims primarily consist of discussions related to overtime, hazard pay, risk premium and wage differences.

The provisions related to civil and labor suits, whose likelihood of loss is assessed as probable are as follows:

	06/30/2016	12/31/2015
Civil	77	70
Labor	88	74
	165	144

Provisions are reviewed based on the progress of the proceedings and history of losses based on the best current estimate for labor and civil lawsuits.

There are other civil and labor lawsuits assessed by Management and its legal counsel as possible risk of loss, in the estimated amount of R\$30 for civil claims and R\$65 for labor claims as of June 30, 2016 (R\$22 and R\$54 as of December 31, 2015, respectively), for which no provisions are recognized.

The tax lawsuits below were evaluated by the Company's Management and its legal counsels as being relevant and with possible risk of loss as of June 30, 2016:

- GLAI is discussing the non-occurrence of taxation of PIS and COFINS on revenues generated by interest attributable to shareholders' equity in the amount of R\$54 related to the years from 2006 to 2008, paid by its subsidiary GTA Transportes Aéreos S.A., succeeded by VRG on September 25, 2008, 2014 and 2015. According to the opinion of the Company's legal counsel and based on the jurisprudence occurred in recent events, the Company classified this case as possible loss, without a provision registered for the related amount. Additionally, the Company maintains escrow deposits with Bic Banco with a partial guarantee on the lawsuit of R\$28 as disclosed in Note 6.
- Tax on Services (ISS), the amount of R\$19 (R\$17 as of December 31, 2015) arising from assessment notices issued by the Municipality of São Paulo against the Company, in the period from January 2007 to December 2010 regarding a possible ISS taxation on

partnerships. The classification of possible risk of loss is a result from the matters under discussion and are interpretative, and involve discussions of factual and evidential materials on which there is no final positioning of the Superior Courts.

- Customs Penalty in the amount of R\$43 (R\$18 as of December 31, 2015) relating to assessment notices issued against the Company for alleged breach of customs rules regarding procedures for temporary import of aircraft. The classification of possible risk is a result of the absence of a final positioning of the Superior Courts.

26.Segments

Operating segments are defined as business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the relevant decision makers to evaluate performance and allocate resources to the segments. The Company holds two operating segments: flight transportation and the Smiles loyalty program.

The accounting policies of the operating segments are the same as those applied to consolidated quarterly information. Additionally, the Company has distinct natures between the two reportable segments, so there are no common costs and revenues between operating segments.

The Company is the controlling shareholder of Smiles, and the non-controlling interests of Smiles was 46.0% and 45.9% as of June 30, 2016 and 2015, respectively.

The information below presents the summarized financial position related to reportable segments for the periods ended June 30, 2016 and 2015:

(a) Eliminations are related to transactions between VRG and Smiles.

(b) Includes depreciation and amortization expenses in the amount of R\$225 in 2016 allocated to the following segments: R\$223 for flight transportation and R\$3 for the Smiles loyalty program (R\$197 and R\$1, respectively, as of June 30, 2015).

In the individual quarterly forms of the subsidiary Smiles, which corresponds to the Loyalty Program segment, and in information provided to the main operational decision makers, revenue is recognized when miles are redeemed by participants. From the perspective of the loyalty segment, this measurement is appropriate since this is when the revenue recognition cycle is complete, and Smiles transfers to VRG the obligation to provide services or deliver products to its customers.

However, from a consolidated perspective, the revenue recognition cycle related to miles exchanged for flight tickets is only complete when the passengers are effectively transported. Therefore, for purposes of reconciliation of the consolidated assets, liabilities and results, as well as for consolidation and equity accounting purposes, the Company performed, in addition to eliminations, an adjustment to results as yet unrealized in the Smiles Program's revenues. As a result, from the consolidated perspective, the miles used to redeem airline tickets are only recognized in revenues when passengers are transported by VRG in accordance with accounting practices adopted by the Company.

27.Commitments

As of June 30, 2016, the Company had 121 firm orders for aircraft acquisitions with Boeing. These aircraft acquisition commitments include estimated contractual price increases during the construction phase. The approximate amount of firm orders, not including contractual discounts, is R\$47,580 (corresponding to US\$14,823 on balance sheet date), classified by period as shown below:

	06/30/2016	12/31/2015
2016	274	1,338
2017	-	-
2018	1,760	2,142

2020	823	1,001
2021 onwards	4,392	4,660

6,943

7,381

The portion financed by long-term loans with U.S. Ex-Im Bank guarantees for aircraft corresponds to approximately 85% of the aircraft total cost. Other agents finance the acquisitions with equal or higher percentages, reaching up to 100%.

The Company makes payments for aircraft acquisitions using its own funds, loans, cash provided by operating activities, short-and medium-term credit facilities and supplier financing.

The Company leases its entire fleet of aircraft through the combination of operating and finance lease agreements. As of June 30, 2016, the total fleet consisted of 139 aircraft, 102 of which were operating leases and 37 finance leases, of which 33 aircraft are under financial leases with purchase options. During the period ended June 30, 2016, the Company performed the following movement in its aircraft fleet: i) receipt 2 aircraft; ii) return of 7 aircraft, of which 4 classified operating lease contracts and 3 under finance lease contracts.

27.1. Operational leases

Future payments of non-cancelable operational lease contracts denominated in US dollars are as follows:

	06/30/2016	12/31/2015
2016	524	1,270
2017	989	1,128
2018	888	1,001
2019	819	905
2020	780	855
2021 onwards	2,489	2,591
Total minimum lease repayments	6,489	7,750

27.2. Sale-leaseback transactions

The Company recorded a net gain of R\$213 arising from 7 aircraft sale-leaseback transactions (net gain of R\$19 related to 4 aircraft in the period ended June 30, 2015). Since gains or losses on sale-leaseback transactions will not be offset against future lease payments and were negotiated at fair value of aircraft, these gains were recognized directly in the profit or loss for the period.

28. Financial instruments and risk management

Operational activities expose the Company and its subsidiaries to market risk (fuel prices, currency exchange rate and interest rate), credit risk and liquidity risk. These risks may be mitigated through the use oil, US dollar and interest-rate swap derivatives, futures and options.

Financial instruments are managed by the Risk Committee in line with the Risk Management Policy approved by the Risk Policy Committee and submitted to the Board of Directors. The Risk Policy Committee sets guidelines and limits and monitors controls, including mathematical models used to continuously monitor exposures and potential financial impacts, and also prevents the use of financial instruments for speculative trading.

The Company does not hedge its total risk exposure, and is, therefore, subject to market fluctuations for a significant portion of its exposed assets and liabilities. Decisions on the portion to be hedged depend on the financial risks and costs of hedging and are determined and reviewed at least quarterly in line with Risk Policy Committee strategies. Gains or losses arising from these transactions and the application of risk management controls are part of the Committee's monitoring remit and have been satisfactory to the proposed objectives.

The accounting classifications of the Company's consolidated financial instruments on June 30, 2016 and December 31, 2015 are shown below:

(a) The Company manages part of its financial investments as 'held for trading' in order to meet its near-term cash needs.

(b) Excluding judicial deposits, as described in Note 10.

(c) Items classified as amortized cost refer to credits, obligations or debt issues involving private institutions in which, in any cases of early settlement, there are no substantial alterations in relation to the amounts recognized except amounts related to Perpetual Bonds and Senior Notes as disclosed in Note 17. Fair values are approximately the same as book values due to the short term-maturities of these assets and liabilities.

As of June 30, 2016 and December 31, 2015, the Company did not have financial assets classified as available for sale.

The Company may adopt hedge accounting for derivatives contracted to hedge cash flow and that qualify for this classification as per CPC38 - Financial Instruments - Recognition and Measurement. As of June 30, 2016, the Company uses interest rate as cash flow hedge and

foreign exchange and fuel derivatives as economic hedges.

The Company holds hedge margin deposits in guarantee for derivative transactions as per Note 6.

a) Market risks

i. Fuel risk

Aircraft fuel prices vary due to the volatility of the price of crude oil and its by-products. In order to mitigate any losses from changes in the fuel market, the Company contracts derivative financial instruments referenced mainly to crude oil and, eventually, to their by-products (Heating Oil). The local supplier is also procured for future fuel deliveries at predetermined prices. During the period ended June 30, 2016, the Company had no outstanding fuel derivatives.

ii. Foreign currency risk

Notes to the quarterly information - ITR

June 30, 2016

(In millions of Brazilian Reais - R\$, except when otherwise indicated)

Currency risk arises from the possibility of unfavorable fluctuation of foreign currencies to which the Company's liabilities or cash flows are exposed. The Company contracts derivative financial instruments in US dollars. In the period ended June 30, 2016, the Company recognized a loss on foreign exchange hedges in the amount of R\$43 (a gain of R\$58 in the period ended June 30, 2015).

Exchange rate (R\$/ US\$)	3.2098	3.9048	3.2098	3.9048

iii. Interest rate

The Company is exposed to future finance lease transactions including installments to be paid that are exposed to LIBOR variations through the date of aircraft delivery. In order to mitigate these risks, the Company holds swap derivatives based on LIBOR. In the period ended June 30, 2016, the Company recognized a total loss with interest hedge transactions in the amount of R\$27 (a loss of R\$2 in the period ended June 30, 2015).

As of June 30, 2016, the Company and its subsidiaries hold LIBOR derivatives recorded as hedge accounting.

b) Credit risk

Notes to the quarterly information - ITR

June 30, 2016

(In millions of Brazilian Reais - R\$, except when otherwise indicated)

The credit risk is inherent in the Company's operating and financing activities, mainly represented by trade receivables, cash and cash equivalents, and short-term investments. Trade receivables credit risk consists of amounts falling due from credit card operators, travel agencies, installments sales and government entities, which leaves the Company exposed to a small portion of the credit risk of individuals and other entities. Credit limits are set for all customers based on internal credit rating criteria. Customer creditworthiness is assessed based on an internal system of extensive credit rating. Outstanding trade receivables are frequently monitored by the Company.

Derivative financial instruments are contracted in the over-the-counter market (OTC) with counterparties rated investment grade or higher, or in a commodities and futures exchange (BM&FBOVESPA or NYMEX), thus substantially mitigating credit risk. Financial assets are realized with counterparties rated investment grade or higher by S&P or Moody's. The Company's obligation is to evaluate counterparty risk involved in financial instruments and periodically diversify its exposure.

c) Liquidity risk

The Company is exposed to two different types of liquidity risk: (i) market liquidity, which varies depending on the types of assets and markets in which assets are traded, and (ii) cash flow liquidity related to difficulties in meeting our contracted operating obligations at the maturity dates. There are uncertainties that affect the Company's solvency and measures to mitigate these uncertainties are shown in Note 1.1. In order to manage liquidity risk, the Company invests its funds in liquid assets (government bonds, CDBs and investment funds with daily liquidity) and its Cash Management Policy requires the weighted average maturity of its debt to be longer than the weighted average term of its investment portfolio.

The schedule of maturity of the Company's financial liabilities on June 30, 2016 is as follows:

	Less than 6 months	6 to 12 months	1 to 5 years	More than 5 years	Total
Short and long-term debt	282	716	3,770	2,186	6,954
Suppliers	866	-	-	-	866
Salaries	148	108	-	-	256
Tax payable	118	-	42	-	160
Taxes and airport fees	278	-	-	-	278
Obligations arising from derivative transactions	178	-	-	-	178
Provisions	93	68	193	398	752
Other liabilities	81	45	31	21	178
As of June 30, 2016	2,044	937	4,036	2,605	9,622

d) Capital management

The Company uses alternative sources of capital to meet its operational requirements and to ensure that its capital structure takes into account suitable parameters for the financial costs, the maturities of funding and its guarantees. The Company monitors its financial leverage ratio, which corresponds to net debt, including short and long-term debt, divided by total equity (deficit).

Notes to the quarterly information - ITR

June 30, 2016

(In millions of Brazilian Reais - R\$, except when otherwise indicated)

The following table shows the financial leverage ratio as of June 30, 2016 and December 31, 2015:

	Consolidated	
	06/30/2016	12/31/2015
Total loans and financing	6,954	9,305
Cash and cash equivalents	(607)	(1,072)
(-) Short-term investments	(397)	(492)
(-) Restricted cash	(361)	(735)
A - Net debt	5,589	7,006
B - Total equity (deficit)	(3,387)	(4,323)
C = (A + B) - Total capital	2,202	2,683

The Company remains committed to maintaining high liquidity and an amortization profile without pressure on the short-term refinancing.

e) Sensitivity analysis of financial instruments

The sensitivity analysis of financial instruments has been prepared in accordance with CVM Instruction 475/08 in order to estimate the impact on fair value of financial instruments traded by the Company in three scenarios for each risk variable: the most likely scenario in the Company's assessment (which is levels of demand remaining unchanged); a 25% deterioration (possible adverse scenario) in the risk variable; a 50% deterioration (remote adverse scenario).

The estimates shown do not necessarily reflect amounts to be stated in the next quarterly reports. The use of different methodologies may have a material effect on estimates.

The tables below show sensitivity analyses for exposure to foreign currency exchange rates, outstanding derivatives positions and interest rate variations as of June 30, 2016 for market risks that management believes are material. The positive amounts shown are net asset exposures (assets greater than liabilities) while negative values shown are net liability exposures (liabilities greater than assets).

Parent Company

Currency risk

As of June 30, 2016, the Company has a net foreign exchange exposure of R\$3,359. On the same date, the Company adopted the R\$3.2098/US\$ exchange rate corresponding to the month's closing rate announced by the Central Bank of Brazil, as probable scenario, and other scenarios shown as follows:

		Exposure	-50%	-25%	+25%	+50%
Instrument	Risk	Amount				
		(*)	R\$2.4074/USD	R\$1.6049/USD	R\$2.4074/USD	R\$4.8147/USD
Liabilities, net	US dollar appreciation	(3,359)	(1,680)	(2,519)	(4,199)	(5,039)

(*) Negative amounts correspond to net losses expected in case of dollar variation.

Consolidatedi) *Fuel risk*

As of June 30, 2016, the Company had no derivative instruments to hedge fuel price risk.

ii) *Currency risk*

As of June 30, 2016, the Company holds US dollar derivative contracts in the notional amount of US\$54 maturing through September 2016, and a net foreign exchange exposure of R\$5,391. On the same date, the Company adopted the R\$3.2098/US\$ exchange rate corresponding to the month's closing rate announced by the Central Bank of Brazil, as probable scenario, and other scenarios shown as follows:

Instrument	Exposure amount (*)	-50% R\$1.6049/USD	-25% R\$2.4074/USD	+25% R\$4.0123/USD	+50% R\$4.8147/USD
Liabilities, net	(5,391)	(2,696)	(4,043)	(6,739)	(8,087)
Derivatives	(178)	(89)	(134)	(223)	(267)
	(5,569)	(2,785)	(4,177)	(6,961)	(8,354)

(*) The Company believes that its liabilities exposed to the US dollar on June 30, 2016 correspond to the probable scenario.

(**) Negative amounts correspond to net losses expected in case of dollar variation.

iii) *Interest-rate risk*

As of June 30, 2016, the Company holds financial investments and debt with different types of rates and position in LIBOR derivatives. Its sensitivity analysis of non-derivative financial instruments examined the impact on annual interest rates only for positions with material amounts on June 30, 2016 (see Note 17) that were exposed to fluctuations in interest rates, as the scenarios below show:

Instrument	Risk	Exposure amount	Possible adverse scenario	Remote adverse scenario
			25%	50%
Financial debt net of short-term investments (*)	Increase in the CDI rate	(274)	(127)	(152)
Derivatives	Decrease in the LIBOR rate	(161)	(10)	(29)

(*) Total invested and raised in the financial market at the CDI rate. A negative amount means more funding than investment.

Fair value measurement of financial instruments

In order to comply with the disclosure requirements for financial instruments measured at fair value, the Company and its subsidiaries must classify its instruments in Levels 1 to 3, based on observable fair value levels:

Notes to the quarterly information - ITR

June 30, 2016

(In millions of Brazilian Reais - R\$, except when otherwise indicated)

- Level 1: Fair value measurements obtained from prices quoted (not adjusted) in identical active or passive markets;
- Level 2: Fair value measurements obtained through variables other than the price quotes included in Level 1 that are observable for the asset or liability, either directly (such as prices) or indirectly (derived from prices); and
- Level 3: Fair value measurements obtained by using valuation methods that include the asset or liability but are not based on observable market data (unobservable data).

The following table shows a summary of the Company's and its subsidiaries' financial instruments measured at fair value, including their respective classifications of valuation methods as of June 30, 2016 and December 31, 2015:

	06/30/2016		12/31/2015	
	Book	Other	Book	Other
	value	significant	value	significant
		observable		observable
		factors		factors
		(Level 2)		(Level 2)
Cash and cash equivalents	379	379	737	737
Short-term investments	216	216	228	228
Restricted cash	361	361	735	735
Rights arising from derivative transactions	-	-	2	2
Obligations arising from derivative transactions	(178)	(178)	(141)	(141)

29. Non-cash transactions

Consolidated

In the period ended June 30, 2016, the Company increased its property and equipment by R\$65 (R\$18 in the period ended June 30, 2015) related to additional provisions for return of aircraft.

In the period ended June 30, 2016, the subsidiary Smiles acquired the right of use and additional licenses of software used in the operation, totaling R\$22. The full outstanding amount is in the "suppliers" line.

Additionally, the Company renegotiated finance lease agreements in the amount of R\$445, with a counter entry in assets as property and equipment under finance lease.

30. Insurance

As of June 30, 2016, insurance coverage, by nature, for the aircraft fleet and in relation to maximum indemnifiable amounts denominated in US dollars is as follows:

Aviation	In Brazilian Reais	In US dollars
Guarantee - hull/war	14,252	4,440
Civil liability per event/aircraft (*)	2,407	750
Inventories (local) (*)	449	140

31. Subsequent events

- a) On July 07, 2016, the Company announced the result of the proposal for the swap of Senior Bonds maturing in 2017, 2020, 2022 and 2023, together with Perpetual Bonds. The result of the swap offers will reduce the Company's total debt by US\$102 (R\$327), with a cash consumption of US\$14, and will result in savings in annual interest expenses of US\$9.

- b) On July 22, 2016, the subsidiary Smiles approved the granting of loan to its associate Netpoints, in the total net amount of R\$4, with an interest rate equivalent to the CDI, and maturing on September 10, 2016.
