Credit Suisse Debt Investor Presentation David Mathers, Chief Financial Officer December 8, 2016

Disclaimer (1/2) The data presented in this presentation relating to the Swiss Universal Bank refers to the division of Credit Suisse Group as the same is currently managed within Credit Suisse Group. The scope, revenues and expenses of the Swiss Universal Bank vary from the planned scope of Credit Suisse (Schweiz) AG and its subsidiaries, planned to be subject to a partial IPO, market conditions permitting. Any such IPO would involve the sale of a minority stake and would be subject to, among other things, all necessary approvals. It is therefore not possible to make a like-for-like comparison of the Swiss Universal Bank as a division of Credit Suisse Group on the one hand and Credit Suisse (Schweiz) AG as a potential IPO vehicle on the other hand. Cautionary statement regarding forward-looking statements This presentation contains forward-looking statements that involve inherent risks and uncertainties, and we might not be able to achieve the predictions, forecasts, projections and other outcomes we describe or imply in forward-looking statements. A number of important factors could cause results to differ materially from the plans, objectives, expectations, estimates and intentions we express in these forward-looking statements, including those we identify in "Risk Factors" in our Annual Report on Form 20-F for the fiscal year ended December 31, 2015 and in "Cautionary statement regarding forward-looking information" in our media release relating to Investor Day, published on December 7, 2016 and filed with the US Securities and Exchange Commission, and in other public filings and press releases. We do not intend to update these forward-looking statements except as may be required by applicable law. In particular, the terms "Illustrative", "Ambition", "Outlook" and "Goal" are not intended to be viewed as targets or projections, nor are they considered to be Key Performance Indicators. All such illustrations, ambitions and goals are subject to a large number of inherent risks, assumptions and uncertainties, many of which are completely outside of our control. Accordingly, this information should not be relied on for any purpose. We do not intend to update these illustrations, ambitions or goals. We may not achieve the benefits of our strategic initiatives We may not achieve all of the expected benefits of our strategic initiatives. Factors beyond our control, including but not limited to the market and economic conditions, changes in laws, rules or regulations and other challenges discussed in our public filings, could limit our ability to achieve some or all of the expected benefits of these initiatives. Estimates and assumptions In preparing this presentation, management has made estimates and assumptions that affect the numbers presented. Actual results may differ. Figures throughout presentation may also be subject to rounding adjustments. Cautionary Statements Relating to Interim Financial Information This presentation contains certain unaudited interim financial information as of or for periods after September 30, 2016, the date of our last published quarterly financial statements. This information has been derived from management accounts, is preliminary in nature, does not reflect the complete results of the fourth quarter of 2016 and is subject to change, including as a result of any normal quarterly adjustments in relation to the financial statements for the fourth quarter of 2016. This information has not been subject to any review by our independent registered public accounting firm. There can be no assurance that the final results for these periods will not differ from these preliminary results, and any such differences could be material. Quarterly financial results for the fourth quarter of 2016 will be included in our 4Q16 Earnings Release, and audited consolidated financial statements for full-year 2016 will be included in our Annual Report on Form 20-F for the year ended December 31, 2016, when they are published. These interim results of operations are not necessarily indicative of the results to be achieved for the remainder of the fourth quarter or the full year 2016.

Disclaimer (2/2) Statement regarding non-GAAP financial measures This presentation also contains non-GAAP financial measures, including adjusted results. Information needed to reconcile such non-GAAP financial measures to the most directly comparable measures under US GAAP or a reference thereto can be found in this presentation in the Appendix, which is available on our website at credit-suisse.com. Statement regarding capital, liquidity and leverage As of January 1, 2013, Basel 3 was implemented in Switzerland along with the Swiss “Too Big to Fail” legislation and regulations thereunder (in each case, subject to certain phase-in periods). As of January 1, 2015, the Bank for International Settlements (BIS) leverage ratio framework, as issued by the Basel Committee on Banking Supervision (BCBS), was implemented in Switzerland by FINMA. Our related disclosures are in accordance with our interpretation of such requirements, including relevant assumptions. Changes in the interpretation of these requirements in Switzerland or in any of our assumptions or estimates could result in different numbers from those shown in this presentation. Capital and ratio numbers for periods prior to 2013 are based on estimates, which are calculated as if the Basel 3 framework had been in place in Switzerland during such periods. Unless otherwise noted, leverage exposure is based on the BIS leverage ratio framework and consists of period-end balance sheet assets and prescribed regulatory adjustments. Leverage amounts for 4Q14, which are presented in order to show meaningful comparative information, are based on estimates which are calculated as if the BIS leverage ratio framework had been implemented in Switzerland at such time. Beginning in 2015, the Swiss leverage ratio is calculated as Swiss total capital, divided by period-end leverage exposure. The look-through BIS tier 1 leverage ratio and CET1 leverage ratio are calculated as look-through BIS tier 1 capital and CET1 capital, respectively, divided by end-period leverage exposure. Selling restrictions This document, and the information contained herein, is not an offer to sell or a solicitation of offers to purchase or subscribe for securities of Credit Suisse Group AG or Credit Suisse (Schweiz) AG in Switzerland, the United States or any other jurisdiction. This document is not a prospectus within the meaning of article 652a of the Swiss Code of Obligations, nor is it a listing prospectus as defined in the listing rules of the SIX Swiss Exchange AG or any other exchange or regulated trading facility in Switzerland or a prospectus or offering document under any other applicable laws. Represents the amount recognized in regulatory capital Note: In May 2016 the Swiss Federal Council amended the Capital Adequacy Ordinance (CAO) which recalibrates and expands the existing “Too Big to Fail” regime in Switzerland. The amended CAO came into effect on July 1, 2016, subject to phase-in and grandfathering provisions for certain outstanding instruments, and has to be fully applied by January 1, 2020. After January 1, 2020, the low-trigger Tier 2 instruments receive gone concern treatment and the Group’s gone concern requirement is reduced by a factor of 0.5 for the outstanding amount of these instruments in relation to risk-weighted assets and leverage exposure. In effect, the low-trigger Tier 2 instruments receive 1.5x value in the gone concern ratio Outstanding regulatory capital instruments as of end-3Q16 New TBTF

Notes Throughout the presentation rounding differences may occur All risk-weighted assets (RWA) and leverage exposure figures shown in this presentation are as of the end of the respective period and on a “look-through” basis Gross and net margins are shown in basis points (bps) Gross margin = adj. net revenues annualized / average AuM; net margin = adj. pre-tax income annualized / average AuM Mandates penetration reflects advisory and discretionary mandates as percentage of total AuM, excluding AuM from the external asset manager (EAM) business General notes * “Adjusted operating expenses at constant FX rates” include adjustments as made in all our disclosures for restructuring expenses, major litigation expenses and a goodwill impairment taken in 4Q15 as well as adjustments for FX, applying the following main currency exchange rates for 1Q15: USD/CHF 0.9465, EUR/CHF 1.0482, GBP/CHF 1.4296, 2Q15: USD/CHF 0.9383, EUR/CHF 1.0418, GBP/CHF 1.4497, 3Q15: USD/CHF 0.9684, EUR/CHF 1.0787, GBP/CHF 1.4891, 4Q15: USD/CHF 1.0000, EUR/CHF 1.0851, GBP/CHF 1.5123, 1Q16: USD/CHF 0.9928, EUR/CHF 1.0941, GBP/CHF 1.4060, 2Q16: USD/CHF 0.9756, EUR/CHF 1.0956, GBP/CHF 1.3845, 3Q16: USD/CHF 0.9728, EUR/CHF 1.0882, GBP/CHF 1.2764. These currency exchange rates are unweighted, i.e. a straight line average of monthly rates. We apply this calculation consistently for the periods under review † Regulatory capital reflects the worst of 10% of RWA and 3.5% of leverage exposure. Return on regulatory capital is based on (adjusted) returns after tax assuming a tax rate of 30% for all periods and capital allocated based on the worst of 10% of average RWA and 3.5% of average leverage exposure. Adjusted results are non-GAAP financial measures that exclude goodwill impairment and certain other revenues and expenses included in our reported results. Management believes that adjusted results provide a useful presentation of our operating results for purposes of assessing our Group and divisional performance consistently over time, on a basis that excludes items that management does not consider representative of our underlying performance. Provided below is a reconciliation of our adjusted results to the most directly comparable US GAAP measures.

Swisscard deconsolidation impact Impact of the deconsolidation on the Swiss Universal Bank Note: Adjusted results are non-GAAP financial measures. A reference to the reconciliation to reported results for other adjustments not relating to Swisscard is included in the Notes of this presentation † See Appendix This is an illustrative pro-forma presentation of the impact of the deconsolidation of the card issuing business on the historical results of SUB as if it had occurred on December 31, 2014. Given that as of July 1, 2015 the business has been deconsolidated and transferred to the equity method investment, Swisscard AECS GmbH and the transaction does not qualify for discontinued operations, the historical results are not restated in this respect. The reduction in pre-tax income in the Private Banking business of Swiss Universal Bank is offset by the reduction in minority interest from the deconsolidation at the Group level, therefore there is no material impact on the Group's net income attributable to shareholders. These illustrative figures cannot be seen as being indicative of future trends or results 1 Pro-forma impact of the card issuing business deconsolidation in CHF
