Item 5.02(e). Compensatory Arrangements of Certain Officers.

On June 13, 2012, the Compensation Committee of the Board of Directors of Genta Incorporated (the “Company”) approved the grant of restricted stock to the executive officers of the Company as follows: Raymond P. Warrell, Jr. M.D. (800,000,000 shares); Loretta M. Itri, M.D. (650,000,000 shares); and Gary Siegel (550,000,000 shares). The number of shares were determined relative to the fully-diluted capital stock of the Company, assuming conversion of the outstanding securities into common stock of the Company (approximately 67 billion shares in the aggregate).

The restricted stock is intended to incentivize and retain the Company’s executive officers through the approval of the Company’s lead product candidate, and therefore, the restricted stock vests 100% upon the approval by the U.S. FDA of tesetaxel for any indication. The executive officers must be employed on the vesting date, and such equity automatically accelerates upon a change of control (as defined in the grant award document) of the Company.

The grant of the restricted stock was issued outside of the Company’s stock plan, and therefore, has not been registered under the Securities Act of 1933, as amended (the “Securities Act”), or any state securities laws, and may not be offered or sold in the United States absent an effective registration statement or an applicable exemption from registration requirements. The issuance of the securities in this transaction was exempt from registration under Section 4(2) of the Securities Act.

Item 3.02. Unregistered Sales of Equity Securities.

See Item 5.02.
