Dear Fellow Shareholder:

The Board of Directors of Proto Labs, Inc. joins me in extending a cordial invitation to attend our 2019 Annual Meeting of Shareholders (the “Annual Meeting”), which will be held at our headquarters, 5540 Pioneer Creek Drive, Maple Plain, Minnesota 55359, on Wednesday, May 15, 2019 at 8:30 a.m. local time.

We will be using the “Notice and Access” method of furnishing proxy materials via the Internet to our shareholders. We believe that this process will provide you with a convenient and quick way to access your proxy materials and vote your shares, while allowing us to reduce the environmental impact of our Annual Meeting and the costs of printing and distributing the proxy materials. On or about April 5, 2019, we will mail to our shareholders a Notice of Internet Availability of Proxy Materials (the “Notice”) containing instructions on how to access our Proxy Statement and Annual Report on Form 10-K and vote electronically via the Internet. The Notice also contains instructions on how to receive a paper copy of your proxy materials.

It is important that your shares be represented at the Annual Meeting whether or not you plan to attend in person. Please vote electronically via the Internet or, if you receive a paper copy of the proxy card by mail, you may vote by Internet or telephone or by returning your signed proxy card in the envelope provided. If you do attend the Annual Meeting and desire to vote in person, you may do so by following the procedures described in the Proxy Statement even if you have previously sent a proxy.

We hope that you will be able to attend the Annual Meeting and we look forward to seeing you.

Very truly yours,

Sven A. Wehrwein

Chairman of the Board

PROXY STATEMENT

The board of directors of Proto Labs, Inc. is soliciting proxies for use at the Annual Meeting to be held on May 15, 2019, and at any adjournment or postponement of the meeting.

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING AND VOTING

Q: Who can vote?

A: You can vote if you were a shareholder at the close of business on the record date of March 20, 2019 (the “Record Date”). There were a total of 26,918,564 shares of our common stock outstanding on the Record Date. The Notice of Internet Availability of Proxy Materials (the “Notice”), notice of annual meeting, this Proxy Statement and accompanying proxy card and the Annual Report on Form 10-K for 2018 were first mailed or made available to you beginning on or about April 5, 2019. This Proxy Statement summarizes the information you need to vote at the Annual Meeting.

Q: Who can attend the Annual Meeting?

A: All shareholders as of the Record Date, or their duly appointed proxies, may attend the Annual Meeting. If you hold your shares in street name, then you must request a legal proxy from your broker or nominee to attend and vote at the Annual Meeting.

Q: What am I voting on?

A: You are voting on:

Election of seven nominees as directors to hold office until the next Annual Meeting of Shareholders or until their successors are duly elected.

Ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm for fiscal 2019.

Approval on an advisory basis of the compensation of our officers disclosed in this Proxy Statement, which we refer to as a “say-on-pay” vote.

Q: How does the board of directors recommend I vote on the proposals?

A: The board is soliciting your proxy and recommends you vote:

FOR the director nominees;

FOR the ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm for fiscal 2019; and

FOR the say-on-pay proposal.

Table of Contents

Q: Why did I receive a notice in the mail regarding the Internet availability of proxy materials instead of a paper copy of the proxy materials?

A: “Notice and Access” rules adopted by the United States Securities and Exchange Commission (the “SEC”) permit us to furnish proxy materials, including this Proxy Statement and our Annual Report on Form 10-K for 2018, to our shareholders by providing access to such documents on the Internet instead of mailing printed copies. Shareholders will not receive printed copies of the proxy materials unless they request them. Instead, the Notice will instruct you as to how you may access and review all of the proxy materials on the Internet. The Notice also instructs you as to how you may submit your proxy on the Internet. If you would like to receive a paper or email copy of our proxy materials, you should follow the instructions for requesting such materials in the Notice. Any request to receive proxy materials by mail will remain in effect until you revoke it.

Q: How many shares must be voted to approve each proposal?

A: *Quorum.* A majority of the shares entitled to vote, represented in person or by proxy, is necessary to constitute a quorum for the transaction of business at the Annual Meeting. As of the Record Date, 26,918,564 shares of our common stock were issued and outstanding. A majority of those shares will constitute a quorum for the purpose of electing directors and adopting proposals at the Annual Meeting. If you submit a valid proxy or attend the Annual Meeting, your shares will be counted to determine whether there is a quorum.

Vote Required. Generally, directors are elected by a majority of the votes cast with respect to the director, meaning that the votes cast “for” a director must exceed the votes cast “against” the director. However, in a contested election of directors in which the number of nominees exceeds the number of directors to be elected, the directors are elected by a plurality of the votes present in person or by proxy at the meeting. A plurality means that the nominees with the greatest number of votes are elected as directors up to the maximum number of directors to be chosen at the Annual Meeting. The proposal to ratify the selection of our independent registered public accounting firm and, other than the say-on-pay proposal, all other items that are properly presented at the Annual Meeting, will be determined by the affirmative vote of the greater of (a) the holders of a majority of the shares of our common stock present in person or by proxy at the Annual Meeting and entitled to vote or (b) a majority of the minimum number of shares of common stock entitled to vote that would constitute a quorum. If the advisory say-on-pay resolution in this Proxy Statement receives more votes “for” than “against,” then it will be deemed to be approved. The say-on-pay vote is advisory and is not binding on the board of directors.

Q: What is the effect of broker non-votes and abstentions?

A: A “broker non-vote” occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have or does not exercise discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner. If a broker returns a “non-vote” proxy indicating a lack of authority to vote on a proposal, then the shares covered by such a “non-vote” proxy will be deemed present at the Annual Meeting for purposes of determining a quorum, but not present for purposes of calculating the vote with respect to any non-discretionary proposals. Nominees will not have discretionary voting power with respect to any matter to be voted upon at the Annual Meeting, other than the ratification of the

selection of our independent registered public accounting firm. Broker non-votes will have no effect on the election of directors, the ratification of the independent registered accounting firm, approval of the advisory say-on-pay resolution, or any other item properly presented at the Annual Meeting.

A properly executed proxy marked “ABSTAIN” with respect to a proposal will be counted for purposes of determining whether there is a quorum and will be considered present in person or by proxy and entitled to vote, but will not be deemed to have been voted in favor of such proposal. Abstentions will have no effect on the voting for the election of directors or approval of the advisory say-on-pay resolution. Abstentions will have the same effect as voting against the proposal to ratify the selection of our independent registered public accounting firm and any other item properly presented at the Annual Meeting.

Q: How will the proxies vote on any other business brought up at the Annual Meeting?

A: By submitting your proxy, you authorize the proxies to use their judgment to determine how to vote on any other matter brought before the Annual Meeting, or any adjournments or postponements thereof. We do not know of any other business to be considered at the Annual Meeting. The proxies’ authority to vote according to their judgment applies only to shares you own as the shareholder of record.

Table of Contents

Q: How do I cast my vote?

A: If you are a shareholder whose shares are registered in your name, you may vote using any of the following methods:

Internet. You may vote by going to the web address *www.proxyvote.com* 24 hours a day, seven days a week, until 11:59 p.m. Eastern Time on May 14, 2019 and following the instructions for Internet voting shown on your proxy card.

Telephone. You may vote by dialing 1-800-690-6903 24 hours a day, seven days a week, until 11:59 p.m. Eastern Time on May 14, 2019 and following the instructions for telephone voting shown on your proxy card.

Mail. If you requested printed proxy materials and you receive a paper copy of the proxy card, then you may vote by completing, signing, dating and mailing the proxy card in the envelope provided or return it to Vote Processing, c/o Broadridge, 51 Mercedes Way, Edgewood, NY 11717. If you vote by Internet or telephone, please do not mail your proxy card.

In person at the Annual Meeting. If you are a shareholder whose shares are registered in your name, you may vote in person at the Annual Meeting.

If your shares are held on account at a brokerage firm, bank or similar organization you will receive voting instructions from your bank, broker or other nominee describing how to vote your shares. You must follow those instructions to vote your shares. You will receive the Notice that will tell you how to access our proxy materials on the Internet and vote your shares via the Internet. It will also tell you how to request a paper copy of our proxy materials.

Proxies that are voted via the Internet or by telephone in accordance with the voting instructions provided, and proxy cards that are properly signed, dated and returned, will be voted in the manner specified.

Q: Can I vote my shares by filling out and returning the Notice?

A: No. The Notice identifies the items to be voted on at the Annual Meeting, but you cannot vote by marking the Notice and returning it. The Notice provides instructions on how to vote by Internet, by requesting and returning a paper proxy card or voting instruction card, or by submitting a ballot in person at the Annual Meeting.

Q: Can I revoke or change my vote?

A: You can revoke your proxy at any time before it is voted at the Annual Meeting by:

submitting a new proxy with a more recent date than that of the first proxy given before 11:59 P.M. Eastern Time on May 14, 2019 by (1) following the Internet voting instructions or (2) following the telephone voting instructions;

completing, signing, dating and returning a new proxy card to us, which must be received by us before the time of the Annual Meeting; or

if you are a registered shareholder, by attending the Annual Meeting in person and delivering a proper written notice of revocation of your proxy.

Attendance at the Annual Meeting will not by itself revoke a previously granted proxy. Unless you decide to vote your shares in person, you should revoke your prior proxy in the same way you initially submitted it—that is, by Internet, telephone or mail.

Q: Who will count the votes?

A: Broadridge Financial Solutions, Inc., our independent proxy tabulator, will count the votes. John Way, our Chief Financial Officer, will act as inspector of election for the Annual Meeting.

Table of Contents

Q: Is my vote confidential?

A: All proxies and all vote tabulations that identify an individual shareholder are confidential. Your vote will not be disclosed except:

•To allow Broadridge Financial Solutions, Inc. to tabulate the vote;

•To allow John Way to certify the results of the vote; and

•To meet applicable legal requirements.

Q: What shares are included on my proxy?

A: Your proxy will represent all shares registered to your account in the same social security number and address.

Q: What happens if I don't vote shares that I own?

A: *For shares registered in your name.* If you do not vote shares that are registered in your name by voting in person at the Annual Meeting or by proxy through the Internet, telephone or mail, your shares will *not* be counted in determining the presence of a quorum or in determining the outcome of the vote on the proposals presented at the Annual Meeting.

For shares held in street name. If you hold shares through a broker, you will receive voting instructions from your broker. If you do not submit voting instructions to your broker and your broker does not have discretion to vote your shares on a particular matter, then your shares will *not* be counted in determining the outcome of the vote on that matter at the Annual Meeting. See "What is the effect of broker non-votes and abstentions?" as described above. Your broker will not have discretion to vote your shares for any matter to be voted upon at the Annual Meeting other than the ratification of the selection of our independent registered public accounting firm. Accordingly, it is important that you provide voting instructions to your broker for the matters to be voted upon at the Annual Meeting.

Q: What if I do not specify how I want my shares voted?

A: If you are a registered shareholder and submit a signed proxy card or submit your proxy by Internet or telephone but do not specify how you want to vote your shares on a particular matter, we will vote your shares as follows:

FOR all of the director nominees;

FOR the ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm for fiscal 2019; and

FOR the say-on-pay proposal.

If any matters not described in this Proxy Statement are properly presented at the Annual Meeting, the proxy holders will use their own judgment to determine how to vote your shares. If the Annual Meeting is adjourned, the proxy holders can vote your shares on the new meeting date as well, unless you have revoked your proxy instructions, as described under “Can I revoke or change my vote?”

If you hold shares through a broker, please see above under “What happens if I don’t vote shares that I own?”

Q: What does it mean if I get more than one Notice or proxy card?

A: Your shares are probably registered in more than one account. You should provide voting instructions for all Notices and proxy cards you receive.

Q: How many votes can I cast?

A: You are entitled to one vote per share on all matters presented at the Annual Meeting or any adjournment or postponement thereof. There is no cumulative voting.

Table of Contents

Q: When are shareholder proposals and nominees due for the 2020 Annual Meeting of Shareholders?

A: If you want to submit a shareholder proposal or nominee for the 2019 Annual Meeting of Shareholders, you must submit the proposal in writing to our Secretary, Proto Labs, Inc., 5540 Pioneer Creek Drive, Maple Plain, Minnesota 55359, so it is received by the relevant dates set forth below under “*Submission of Shareholder Proposals and Nominations.*”

Q: What is “householding”?

A: We may send a single Notice, as well as other shareholder communications, to any household at which two or more shareholders reside unless we receive other instruction from you. This practice, known as “householding,” is designed to reduce duplicate mailings and printing and postage costs, and conserve natural resources. If your Notice is being householded and you wish to receive multiple copies of the Notice, or if you are receiving multiple copies and would like to receive a single copy, or if you would like to opt out of this practice for future mailings, you may contact:

Q: How is this proxy solicitation being conducted?

A: We will pay for the cost of soliciting proxies and we will reimburse brokerage houses and other custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses for forwarding proxy and solicitation materials to our shareholders. In addition, some of our employees may solicit proxies. We may solicit proxies in person, via the Internet, by telephone and by mail. Our employees will not receive special compensation for these services, which the employees will perform as part of their regular duties.

CORPORATE GOVERNANCE

Board Leadership Structure

Sven Wehrwein leads our board of directors in his role as Chairman. Our board of directors believes that its leadership structure is the appropriate one for our company in light of the importance of maintaining independent board leadership and engagement.

As Chairman, Mr. Wehrwein:

- presides at all meetings of the board of directors, including executive sessions of the independent directors;

- conducts the annual performance review of the Chief Executive Officer, with input from the other independent directors;

- sets the board agenda and frequency of meetings, in consultation with the committee chairs as applicable; and

- has the authority to convene meetings of the independent directors at every meeting.

Risk Oversight

Our management is responsible for defining the various risks facing our company, formulating risk management policies and procedures, and managing our risk exposures on a day-to-day basis. The board's responsibility is to monitor our risk management processes by using board meetings, management presentations and other opportunities to educate itself concerning our material risks and evaluating whether management has reasonable controls in place to address the material risks; the board is not responsible, however, for defining or managing our various risks. The full board is responsible for monitoring management's responsibility in the area of risk oversight. In addition, the audit committee and compensation committee have risk oversight responsibilities in their respective areas of focus, on which they report to the full board. Management reports from time to time to the full board, audit committee and compensation committee on risk management. The board focuses on the material risks facing our company, including operational, credit, liquidity, legal and cybersecurity risks, to assess whether management has reasonable controls in place to address these risks.

Nominating Process and Board Diversity

In consultation with other members of the board of directors, the nominating and governance committee is responsible for identifying individuals who it considers qualified to become board members. The nominating and governance committee will screen potential director candidates, including those recommended by shareholders, and recommend to the board of directors suitable nominees for the election to the board of directors. The nominating and governance committee uses a variety of methods for identifying and evaluating nominees for directors. The nominating and governance committee regularly assesses the appropriate size and composition of the board of directors, the needs of the board of directors and the respective committees of the board of directors, and the qualifications of candidates in light of these needs. Candidates may come to the attention of the nominating and governance committee through shareholders, management, current members of the board of directors, or search firms. The evaluation of these candidates may be based solely upon information provided to the committee or may include discussions with persons familiar with the candidate, an interview of the candidate or other actions the committee deems appropriate, including the use of third parties to review candidates.

In considering whether to recommend an individual for election to the board, the nominating and governance committee considers, as required by the corporate governance guidelines and its charter, the board's overall balance of diversity of perspectives, backgrounds and experiences, although it does not have a formal policy regarding the consideration of diversity of board members. The nominating and governance committee views diversity expansively and considers among other things, breadth and depth of relevant business and board skills and experiences, educational background, employment experience and leadership performance as well as those intangible factors that it deems appropriate to develop a heterogeneous and cohesive board such as integrity, achievements, judgment, intelligence, personal character, the interplay of the candidate's relevant experience with the experience of other board members, the willingness of the candidate to devote sufficient time to board duties, and likelihood that he or she will be willing and able to serve on the board for an extended period of time.

Table of Contents

The nominating and governance committee will consider a recommendation by a shareholder of a candidate for election as a Proto Labs director. Shareholders who wish to recommend individuals for consideration by the nominating and governance committee to become nominees for election to the board may do so by submitting a written recommendation to our Secretary. Recommendations must be received by the Secretary within the timelines specified in our by-laws to be considered by the nominating and governance committee for possible nomination at our Annual Meeting of Shareholders the following year. Our by-laws provide that such notice should be received no less than 90 days prior to the first anniversary of the preceding year's Annual Meeting, except in certain circumstances. All recommendations must contain the information required in our by-laws and corporate governance guidelines, including, among other things, the identification of the nominee, a written consent by the recommended individual to agree to be named in our proxy statement and to serve as director if elected, and the name and address of the shareholder submitting the nomination. Shareholders may also have the opportunity to include nominees in our proxy statement by complying with the requirements set forth in Section 2.17 of our by-laws. Recommendations must be received by the Secretary within the timeframes noted under "Submission of Shareholder Proposals and Nominations."

Proxy Access

Our by-laws include a "proxy access" provision for director nominations under which eligible shareholders may nominate candidates for election to our board and inclusion in our proxy statement. The "proxy access" provision permits an eligible shareholder, or an eligible group of up to 20 shareholders, owning continuously for at least three years shares of our company representing an aggregate of at least three percent of the voting power entitled to vote in the election of directors, to nominate and include in our annual meeting proxy materials director nominees not to exceed the greater of (i) two or (ii) 25 percent of the number of directors then serving on our board, or, if such amount is not a whole number, the closest whole number below 25 percent, but not less than two. Such nominations are subject to certain eligibility, procedural, and disclosure requirements set forth in section 2.17 of our by-laws, including the requirement that our company must receive notice of such nominations not less than 120 calendar days prior to the anniversary date of the prior year's annual proxy materials mailing, except as otherwise provided in section 2.17 of our by-laws.

Director Independence

Our board of directors has reviewed the materiality of any relationship that each of our directors has with us, either directly or indirectly. Based on this review, our board has determined that, with the exception of Victoria M. Holt, our current Chief Executive Officer, and Donald G. Krantz, who served as our Executive Vice President and Technology Officer from January 2015 until his retirement in June 2016, all of the directors are "independent directors" as defined by Section 303A.02 of the New York Stock Exchange Listed Company Manual.

Code of Business Conduct and Ethics

We have adopted a code of ethics and business conduct relating to the conduct of our business by our employees, officers and directors, which is posted on our website at www.protolabs.com under the investor relations section. We plan to post to our website at the address described above any future amendments or waivers to our code of ethics and business conduct.

Communications with the Board and Corporate Governance Guidelines

Under our Corporate Governance Guidelines, a process has been established by which shareholders and other interested parties may communicate with members of the board of directors. Any shareholder or other interested party who desires to communicate with the board, individually or as a group, may do so by writing to the intended member or members of the board, c/o Secretary, Proto Labs, Inc., 5540 Pioneer Creek Drive, Maple Plain, Minnesota 55359. A copy of our Corporate Governance Guidelines is available at www.protolabs.com under the investor relations section.

All communications received in accordance with these procedures will initially be received and processed by the office of our Secretary to determine that the communication is a message to one or more of our directors and will be relayed to the appropriate director or directors. The director or directors who receive any such communication will have discretion to determine whether the subject matter of the communication should be brought to the attention of the full board or one or more of its committees and whether any response to the person sending the communication is appropriate.

Board Meetings

During 2018, the full board of directors met four times in person and held one meeting via teleconference. All four of the in-person meetings were preceded and/or followed by an executive session of the independent directors, chaired by Mr. Wehrwein or the acting chair of the meeting. Each of our incumbent directors attended at least 75% percent of the meetings of the board and any committee on which they served in 2018. We do not maintain a formal policy regarding the board's attendance at annual shareholder meetings; however, board members are expected to regularly attend all board meetings and meetings of the committees on which they serve and are encouraged to make every effort to attend the Annual Meeting of Shareholders. All of our directors serving at the time of the 2018 Annual Meeting of Shareholders attended the meeting, except for Sven Wehrwein.

No related person transaction will be consummated without the approval or ratification of our audit committee. Under our related person policy, a related person includes any of our directors, director nominees, executive officers, any beneficial owner of more than 5% of our common stock and any immediate family member of any of the foregoing. Say-on-Pay Results

At our 2018 annual meeting, the say-on-pay proposal received the approval of approximately 99% of the shares voted on the proposal. Our compensation committee considered this result to be an endorsement by our shareholders of our compensation program and maintained the fundamental features of our 2017 program for 2018. Further, since the Company began holding the say-on-pay vote, our shareholders have been overwhelmingly supportive of our program, with the Company receiving greater than 90% in each year.

Executive Compensation Philosophy and Objectives

We believe our success depends in large measure on our ability to attract, retain and motivate a talented senior management team to effectively lead our company in a dynamic and changing business environment, and that a competitive executive compensation program is essential to that effort. We believe that our executive compensation program should support our short- and long-term strategic and operational objectives, and reward corporate and individual performance that contributes to creating value for our shareholders.

Consistent with this philosophy, our executive compensation program incorporates the following key principles and objectives:

Structure the compensation program so as to align the interests of our executive officers with those of our customers, employees, and shareholders;

Provide a competitive total cash compensation opportunity that includes target incentive goals that are reasonably achievable yet represent appreciable and appropriate improvement over prior periods;

Utilize equity-based awards in a manner designed to motivate long-term company performance, increase shareholder value and emphasize their long-term retentive function;

Recognize and reward the achievement of company and business unit goals as well as individual performance;

Provide compensation commensurate with the level of business performance achieved;

Provide greater compensation opportunities for individuals who have the most significant responsibilities and therefore the greatest ability to influence our achievement of strategic and operational objectives;

Structure the compensation program so that it is understandable and easily communicated to executives, shareholders and other constituencies;

Place increasing emphasis on incentive/variable compensation for positions of increasing responsibility; and

Make benefit programs available to executive officers consistent with those provided to salaried employees.

Compensation Decisions and Processes

The compensation committee of our board of directors, which consists solely of independent directors, generally has been responsible for overseeing our executive compensation program, including annually reviewing the ongoing compensation arrangements for each of our executive officers, including our CEO, and reporting those arrangements to our board.

Our compensation committee regularly receives and considers input from our CEO regarding the compensation and performance of the other executive officers, including recommendations as to compensation levels that the CEO believes are commensurate with an individual's job performance, skills, experience, qualifications, criticality to our company and development/career opportunities, as well as with our compensation philosophy, external market data and considerations of internal equity. With the assistance of our CFO, our CEO also has provided recommendations to the compensation committee regarding the establishment of performance goals for the annual cash incentive plan based on the operating budget approved by our board of directors. Our CEO regularly attends meetings of our compensation committee, except where the CEO's own compensation is being considered or times when the committee meets in executive session. Our CEO makes no recommendations to the compensation committee regarding her own compensation. The compensation committee communicates its views and decisions regarding compensation arrangements for our executive officers to our CEO, who generally has been responsible for implementing the arrangements.

In determining executive compensation, our compensation committee reviews and considers a number of factors, including individual and corporate performance, input from our CEO, compensation market data from third party compensation surveys (including Pearl Meyer, our independent compensation consultant), our compensation philosophy and key principles, the pay practices of a set of comparable companies, feedback received from shareholders concerning say-on-pay, and the committee's collective experience and knowledge. We have used market data primarily as a reference point to assess whether our compensation practices are reasonable, competitive and likely to achieve our objectives, and actually deliver compensation in amounts that are consistent with the compensation committee's assessment of our company's relative performance. As part of these assessments, we assumed that target total compensation levels were likely to be reasonable and competitive if they approximated the market median we calculated from the surveys and other compensation data we utilized which for us generally meant a range between 85% and 115% of the market median. The utilization of a range is largely in recognition of the limitations of the survey data that include companies with limited degrees of comparability to our company and position titles that may encompass positions with responsibilities that differ to varying degrees from the responsibilities of a similarly titled position within our company. As a result, we did not establish specific compensation amounts or parameters for any executive officer position based on market data in 2018, recognizing that factors unique to each individual will ultimately determine that individual's compensation, which may not necessarily be within the median range.

Our compensation committee also approves all awards to our executive officers under our 2012 Long-Term Incentive Plan, as amended to date (the "LTIP"), including the awards of PSUs to each of our named executive officers in 2018 as summarized below in "Elements of Executive Compensation—Long-Term Equity-Based Compensation." Our

compensation committee has delegated authority to our CEO and the chair of the compensation committee under the LTIP to award stock options to employees (other than our executive officers) at their discretion, subject to individual and aggregate maximum amounts in each year. The CEO and the chair of the compensation committee typically exercise their discretion to grant these awards in connection with new hires and promotions, to invest in and retain our future leaders, and in recognition of extraordinary individual achievements.

Peer Group

In 2017, the compensation committee requested that its independent compensation consultant, Pearl Meyer, review our peer group used for executive compensation. Pearl Meyer used a multi-step process to construct a peer group that we believe fits our market position and profile. The compensation committee and our board of directors reviewed information relating to this peer group when establishing base salaries, annual equity awards and target annual incentive compensation for 2018.

When constructing the peer group, Pearl Meyer first identified U.S.-based, publicly-traded technology, hardware and equipment, software and services, and capital goods companies. Second, it looked at companies with scope criteria approximately 1/3 to 3 times that of Proto Labs: annual revenues between \$100 million and \$900 million, and with market capitalizations between \$600 million and \$5.4 billion.

Pearl Meyer's review resulted in a peer group of the following 15 companies:

3D Systems Corporation	Monotype Imaging Holdings, Inc.	Shutterstock, Inc.
Ellie Mae, Inc.*	NN Inc.	SPS Commerce, Inc.
ESCO Technologies, Inc.*	Power Integrations, Inc.	Sun Hydraulics Corporation
FARO Technologies, Inc.	Raven Industries, Inc.*	Tessera Technologies
Gogo, Inc.	RBC Bearings Incorporated*	Universal Display Corp.

* Reflects new addition to peer group

Table of Contents

This peer group also reflects the following exclusions from the previous peer group:

Coherent, Inc., Cognex Corporation, and the Ultimate Software Group, Inc. were excluded because they no longer fit the size criteria used for selecting peer companies.

InvenSense, Inc. and Ultratech, Inc. were excluded because they had been acquired.

Below is information about the companies in the peer group, as well as the corresponding information for Proto Labs that Pearl Meyer referenced when constructing the peer group:

	Annual Revenue⁽¹⁾	Market Capitalization⁽¹⁾
25th percentile	\$247 million	\$1.0 billion
75th percentile	\$611 million	\$2.3 billion
Proto Labs	\$306 million	\$1.8 billion

(1) Amounts shown in this table are for the twelve-month period ended as of the most recently disclosed quarter prior to the 2017 meeting at which Pearl Meyer presented the peer group information to the compensation committee.

The compensation committee uses data about executive compensation at peer group companies as a tool to assess the reasonableness of the total compensation paid to our executive officers. As discussed above, we do not establish a percentile which any part of our executive’s compensation or any executive’s overall compensation must meet or exceed.

Elements of Executive Compensation

Our executive compensation program historically has been comprised of three primary elements—base salary, annual cash incentive, and equity-based long-term incentives. The primary elements of our compensation program for 2018 were consistent with our 2017 compensation program. While all elements of our executive compensation program are intended to collectively achieve our overriding purpose of attracting, retaining and motivating talented executives, the table below identifies the additional specific purposes of each element as reflected in our 2018 compensation program.

Compensation Component	Form of Compensation	Purpose
Base Salary	Cash	•

Compensate each named executive officer relative to individual responsibilities, experience and performance

• Provide steady cash flow not contingent on short-term variations in company performance

Annual Incentive Cash

- Align compensation with our annual corporate financial performance
- Reward achievement of short-term financial objectives
- Provide participants with a meaningful total cash compensation opportunity (base salary plus annual incentive)

Long-Term Incentives

and Performance
Stock Units

- Align compensation with our long-term returns to shareholders
- Encourage long-term retention
- Create a long-term performance focus
- Provide executive ownership opportunities

Our compensation committee has not adopted a formal or informal policy for allocating compensation among the various elements, or between cash and non-cash elements or between long- and short-term compensation; however, the committee considers total compensation and then adjusts the mix among each element of compensation based on market comparisons, individual role and performance. As noted earlier, however, we do place greater emphasis on incentive-based and variable forms of compensation for executives with more significant responsibilities, reflecting their greater capacity to affect our performance and results.

Table of Contents**Base Salaries**

At the time an executive officer is first hired, his or her base salary generally is established through individual negotiations between us and the executive officer, taking into account judgments as to the executive officer's qualifications, experience, responsibilities, prior salary history, internal pay equity considerations and market factors.

The compensation committee annually reviews the base salaries of our executive officers near the end of each year and bases any adjustments for the following year on merit and market considerations. Merit-based adjustments primarily reflect an assessment of an individual's performance. Any market-based adjustments reflect an assessment of the competitive positioning of an individual's salary with comparable positions in the market based on market data provided to the compensation committee by the compensation consultant and other market surveys the compensation committee might use.

The annual base salary of each of our named executive officers was increased for 2018 compared to 2017 as a result of merit-based increases based on such officer's contributions to our company, our company's overall success in 2017 and expected success in 2018, and changes in the competitive market.

Name	2018 Annual Base Salary	2017 Annual Base Salary	Percentage	
			Change from 2017 Annual Base Salary to 2018 Annual Base Salary	
Victoria M. Holt	\$550,000	\$530,450	4.00	%
John A. Way	\$351,880	\$335,124	5.00	%
David M. Fein	\$360,500	\$350,000	3.00	%
Arthur R. Baker III	\$300,300	\$286,000	5.00	%
Robert Bodor	\$300,456	\$278,200	8.00	%(1)

- (1) The percentage change from 2017 annual base salary to 2018 annual base salary was greater for Dr. Bodor than for our other named executive officers in order to remain market competitive.

Annual Incentive Program

2018 Annual Incentive Program

All of our named executive officers participate in our annual incentive program. The annual incentive program payouts were a function of two metrics:

75% of the annual bonus target was based on annual revenue growth, calculated without regard to foreign currency exchange rates. We refer to this aspect of the annual incentive program as the revenue factor.

25% of the annual bonus target was based on budgeted adjusted operating income margin. We refer to this aspect of the annual incentive program as the adjusted operating income margin (“AOI”) factor. For purposes of calculating attainment of the AOI portion of the annual incentives, AOI is defined as operating income before incentive compensation expense, stock-based compensation expense, amortization expense, acquisition expenses and other one-time expenses not indicative of core operations, expressed as a percentage of revenue.

Revenue growth and AOI were selected as the primary financial objectives for determining the 2018 annual incentive payouts because our primary objective continues to be to grow our company profitably.

The compensation committee approved 2018 revenue and AOI objectives for our company as a whole and for each of our major geographic business units (the United States, Europe and Japan). The inclusion of business unit performance objectives enables us to tailor annual incentive opportunities so as to reward each executive officer for the performance of those portion(s) of our company for which the officer had the most direct responsibility. All of our named executive officers had an AOI target based on our consolidated company-wide results. All of our named executive officers other than Dr. Bodor had a revenue target based on our consolidated company-wide results. Dr. Bodor had a revenue target based 65% on our operating results in the United States, the region for which he is primarily responsible, and 35% on consolidated results.

Table of Contents

A target payout expressed as a percentage of annual base salary is established for each named executive officer annually. For 2018, their target payout percentages were as follows:

Name	Target Payout as % of 2018 Salary
Victoria M. Holt	100%
John A. Way	75%
David M. Fein	75%
Arthur R. Baker III	50%
Robert Bodor	60%

The target payout percentages for each named executive officer, other than Dr. Bodor, remained unchanged from the 2017 percentages in light of the compensation committee's determination that the target percentages from 2017 remained competitive. The compensation committee determined that the target payout percentage for Dr. Bodor should be increased from 50% to 60% in order to remain competitive and to recognize Dr. Bodor's significant impact on the achievement of our annual revenue objectives.

The payout is zero for 2018 revenue below specified threshold amounts for our company as a whole and each of its business units, is 30% at those threshold amounts, and increases (with no maximum) in amounts specified by the compensation committee to the degree revenue exceeds the respective threshold amounts. The revenue factor is 100% at targeted revenue growth on a consolidated basis or for each region, as applicable, for each individual.

For the AOI factor, the payout is zero for 2018 AOI below a specified threshold amount for our company as a whole, is 40% at the threshold amount, and increases (with no maximum) in amounts specified by the compensation committee to the degree that AOI exceeds the threshold amount. The AOI factor is 100% at targeted AOI on a consolidated basis for each individual.

For 2018, the compensation committee approved the following thresholds and targets for the revenue factor.

Objective⁽¹⁾	2018	2018	2018	2018
	Threshold	Threshold	Target	Target
	Growth	Amount	Growth	Amount
Consolidated Revenue Growth	18.5	% \$ 408.4M	28.3	% \$442.0M
United States Revenue Growth	22.7	% \$ 322.8M	32.8	% \$349.4M

- (1) The final payout factor for 2018 was based on the dollar amount of actual performance, as opposed to the growth percentage.

The following table summarizes our actual performance during 2018 in terms of both revenue and AOI, as well as the related payout factors:

Objective	Actual Performance⁽¹⁾	Final Payout Factor	
Consolidated Revenue ⁽²⁾	\$ 444.2M	101.1	% ⁽³⁾
United States Revenue ⁽⁴⁾	\$ 350.6M	100.7	%
AOI	25.8	% 85.7	%

- (1) Our actual performance is equal to our 2018 revenue calculated using 2018 budgeted foreign currency exchange rates. Actual AOI performance is listed as a percentage of targeted AOI.

For consolidated revenue performance between threshold and target, the payout factor would increase (2)proportionately between 30% and 100%, or about 2.1 percentage points for each \$1 million in additional consolidated revenue.

The final payout factor represents the percentage of the target payout that would be made based on the actual company-wide or business unit revenue for 2018, without regard to foreign currency exchange rates. Including (3)the impact of foreign currency exchange rates would have increased the incentive for each named executive officer, other than Dr. Bodor, by approximately 0.5%. Including the impact of foreign currency exchange rates would have increased Dr. Bodor's incentive by approximately 0.2%.

For United States revenue performance between threshold and target, the payout factor would increase (4)proportionately between 30% and 100%, or about 2.6 percentage points for each \$1 million in additional United States revenue.

Table of Contents

As discussed above in “Compensation Decisions and Processes,” we have used market data primarily as a reference point to assess whether our compensation practices are reasonable, competitive and likely to achieve our objectives, and actually deliver compensation in amounts that are consistent with the compensation committee’s assessment of our company’s relative performance. As part of these assessments, we assumed that base salary and target total cash compensation levels were likely to be reasonable and competitive if together they approximated the market median we calculated from the surveys and other compensation data. For 2018, all named executives with the exception of Dr. Bodor were within 15% of the market median for target total cash compensation. Dr. Bodor’s target cash compensation was below that threshold and thus the compensation committee approved an above average base salary adjustment, as well as an adjustment to his 2018 target bonus from of his base salary to 60%.

Name	2018	2018	2018 Total
	Actual	Actual	Cash
	Salary	Incentive	Compensation
	Amount	Amount	Amount

John A. Way	\$351,880	\$256,740	\$ 608,620
David M. Fein	\$360,500	\$262,940	\$ 623,440
Arthur R. Baker III	\$300,300	\$146,021	\$ 446,321

Long-Term Equity-Based Compensation

The annual equity grants made to our named executive officers for 2018 are summarized below in “Elements of Executive Compensation—Long-Term Equity-Based Compensation.” We generally have not utilized a formulaic approach to determine the size of individual equity awards to our executives. Our compensation committee considers the employee’s total compensation and then adjusts the mix among base salary, annual incentive and long-term incentive based on market comparisons, individual role and performance. Our compensation committee generally has determined the size of individual grants using its collective business judgment and experience, taking into account factors such as the role and responsibility of the individual executive, an evaluation of the expected and actual performance of each executive, internal pay equity considerations and market factors.

Beginning in 2014, we modified our historic practice of granting equity compensation only in the form of stock options and granted awards in the form of both stock options and time-based restricted stock units, or RSUs, in order to mitigate the incentive our named executive officers have to take excessive risks, more directly align the interests of our shareholders and our named executive officers, and mitigate the potential dilution that our executive compensation program has on our shareholders by providing equity compensation to our named executive officers in a manner that could result in the issuance of fewer shares. In 2014 and 2015, 65% of the annual equity awards we granted were made in the form of stock options, based on the Black-Scholes value of the options on the grant date, and 35% were

made in the form of RSUs, based on the closing price of the stock on the date of grant. For 2016, the compensation committee changed the mix of long-term equity grants to 50% stock options and 50% RSUs. For 2017, the compensation committee changed the mix of long-term equity grants to 25% stock options and 75% RSUs and introduced PSUs to Ms. Holt's mix of long-term equity grants to ensure the alignment of her interests with those of our shareholders in creating value for our company over a multi-year period. In 2018, the compensation committee made the decision to cascade this approach to the rest of our named executive officers to create alignment across the entire leadership team in focusing on creating value for our company over a multi-year period.

In addition to annual equity awards, in certain cases we have granted equity awards in connection with an individual's initial employment with us, upon promotions or other changes in responsibilities, or in recognition of significant achievements. These additional equity awards are made outside our typical annual grant cycle, and are subject to our equity award approval policy summarized below in "Other Compensation and Equity-Related Policies—Equity Award Approval Policy."

The equity grants made to our named executive officers for 2018 were granted in February 2018 and were as follows:

Name	Grant Date	Number of RSUs	Number of	
			Shares Subject to Stock	Target Number of PSUs
			Option	
Victoria M. Holt	\$2,500,180	6,242	7,151	14,185
John A. Way	\$800,147	3,745	4,291	1,892
David M. Fein	\$500,190	2,341	2,682	1,183
Arthur R. Baker III	\$600,125	2,809	3,218	1,419
Robert Bodor	\$560,128	2,622	3,004	1,324

Table of Contents

The February 2018 awards of PSUs to each of our named executive officers were approved by our board of directors under the terms of the LTIP. The compensation committee believes that this grant of PSUs to our named executive officers will incent the achievement of long-term shareholder value, because the PSUs are only earned and vest upon achievement of organic revenue growth targets and adjusted Earnings Per Share (“EPS”) growth targets set forth in the Performance Stock Unit Agreement approved by our board of directors. The compensation committee carefully considered various incentive metrics that could be utilized in the PSU plan. Although revenue is a key component of our annual incentive plan, the committee determined that including revenue in the PSU plan as well is appropriate because of its importance to overall shareholder value creation and organizational health. The compensation committee believes that these two metrics are substantially differentiated in that the measurement period for revenue in the annual incentive plan is one-year, while the PSU plan metric utilizes a 3-year measurement period reflecting sustained revenue growth. Lastly, the committee also reflected on the fact that while revenue is a metric in both the annual incentive and PSU plans, there are other metrics in each plan that are different and serve to provide a balance to the overall incentive metric profile.

Each award of PSUs is expressed in terms of a target number of PSUs (in the case of the February 2018 awards, as set forth in the table above), with between 0% and 150% of that target number capable of being earned and vesting at the end of a three-year performance period (in the case of the February 2018 awards, January 1, 2018 to December 31, 2020) depending on our company’s organic revenue and adjusted EPS performance in the final year of the performance period and the award recipient’s continued employment. The number of PSUs determined to have been earned at the end of the performance period will vest at that time. Each vested PSU will be paid out in one share of our common stock.

A PSU award will be forfeited if the award recipient’s employment ends before the scheduled vesting date except in situations involving retirement, disability, a qualifying termination under a severance agreement, death or a change in control. If employment ends due to retirement, disability or a qualifying termination under a severance agreement before the scheduled vesting date, a pro rata portion of the number of PSUs that would have been earned at the end of the performance period if employment had continued will vest on the scheduled vesting date. The pro rata portion will be based on the portion of the performance period that elapsed prior to the date of termination. If employment ends due to an award recipient’s death, a pro rata portion (determined in the same manner) of the target number of PSUs will vest at that time.

If a change in control of our company occurs before the scheduled vesting dates of the award, the performance period will be truncated and a pro rata portion of the number of PSUs determined to have been earned during the truncated performance period will vest as of the date of the change in control. The pro rata portion will be based on the portion of original performance period that elapsed prior to the date of the change in control.

Other Executive Benefits

Our named executive officers generally receive health and welfare benefits under the same programs and subject to the same terms as our other salaried employees. These benefits include medical, dental and vision benefits, short- and long-term disability insurance, accidental death and dismemberment insurance and basic life insurance. Our named executive officers are also eligible to participate in our 401(k) retirement plan, under which our company provides a matching contribution in an amount equal to 100% of the first 3% of compensation contributed by a participant and 50% of the next 2% of compensation contributed. We also provide supplemental benefits to our executive officers who are based outside of the United States as part of compensation packages that are intended to be competitive in the respective local markets.

Severance and Change in Control Benefits

In connection with hiring Ms. Holt and Mr. Way in 2014, we entered into agreements with each of them in recognition of the need to provide these executives with certain protection if the executive's employment with us is involuntarily terminated without "cause" or terminated by the executive for "good reason," including in connection with a change in control of our company. The agreements provide Ms. Holt and Mr. Way certain cash payments based on the executive's base salary and target annual incentive payments and the continuation of certain benefits following termination. We believed this protection was necessary to induce each executive to forego other employment opportunities and assume a critical position in our organization. We also believe the change in control-related benefits are beneficial to our shareholders by encouraging Ms. Holt and Mr. Way to remain focused on shareholders' interests in the face of a potential change in control, and the benefits promote stable leadership during a possible transition period.

We have entered into severance agreements with each of our executive officers other than Ms. Holt and Mr. Way. We entered into a severance agreement with Dr. Bodor in 2015. We entered into severance agreements with Dr. Baker and Mr. Fein in connection with their hirings in 2016. For a summary of the material terms and conditions of our agreements with the named executive officers providing for payments in connection with termination of employment and changes in control of our company, see "Potential Payments upon Termination or Change in Control."

The award agreements under the LTIP provide for "double trigger" acceleration of vesting and exercisability of stock options in connection with a change in control, meaning that both a change in control and either a failure to continue, assume or replace outstanding awards or a termination of employment are necessary before acceleration will occur. The compensation committee believes that the double trigger structure avoids an unintended windfall to executives who retain their employment and their equity awards in the event of a friendly change in control, but still provides them appropriate incentives to cooperate in negotiating any change in control in which they believe they could lose their jobs.

Other Compensation and Equity-Related Policies

Clawback Policy

During 2014, we adopted an Executive Officer Incentive Compensation Recovery Policy (the “Clawback Policy”) for recovery of incentive compensation from our executive officers under certain circumstances. The Clawback Policy provides that we will, in all appropriate circumstances as determined by the compensation committee, and to the extent permitted by applicable law, require reimbursement or forfeiture of all or a portion of any incentive compensation awarded to our executive officers after November 12, 2014, which is the date our board adopted the Clawback Policy, where the compensation committee has determined that all of the following factors are present:

We are required to prepare an accounting restatement due to material noncompliance with any financial reporting requirement under the securities laws;

The award, vesting or payment of the incentive compensation was predicated upon the achievement of certain financial results that were the subject of the restatement and such award, vesting or payment occurred or was received during the three-year period preceding the date on which we were required to prepare the restatement; and

A smaller award, vesting or payment would have occurred or been made to the executive officer based upon the restated financial results.

In those circumstances, we will, to the extent deemed appropriate by the compensation committee, seek to recover or cancel the amount(s) by which an executive officer’s incentive compensation that was awarded, vested or paid during the three-year period referenced above exceeded the amount(s) that would have been awarded, vested or paid based on the restated financial results, net of taxes paid or payable by the executive officer with respect to the recoverable compensation.

Executive Stock Ownership Guidelines

During 2014, we adopted stock ownership guidelines applicable to our executive officers, which we updated in 2018. The guidelines are applicable to each of our executive officers and provide that each executive officer is expected to own shares of our common stock with a value at least equal to the amount shown below:

CEO – Five times annual base salary

All other executive officers – One times annual base salary

In 2018, we adjusted the stock ownership guidelines applicable to our CEO, who is now expected to own shares of our common stock with a value at least equal to five times annual base salary (an increase from three times annual base salary). Each executive officer has five years from the date he or she becomes subject to the guidelines to achieve compliance with the guidelines. As of December 31, 2018, all of our named executive officers were either in compliance with the guidelines or within the five-year period to achieve compliance with the guidelines.

Equity Award Approval Policy

Our equity award approval policy permits us to make equity-based awards at any time other than during “blackout periods” provided for in our insider trading policy, which generally run from the eleventh of the month in which each fiscal quarter closes through the end of the second trading day following the public release of our financial results for that quarter. The policy does, however, permit us to approve an award during a blackout period, provided the effective date of the grant and the concurrent pricing of the grant occur on the first trading day after the blackout period ends.

Other Equity-Related Policies

We prohibit our executive officers from engaging in certain types of transactions in our stock, including short sales, pledges of our stock and other hedging transactions with respect to our stock. This policy is intended to prevent our executive officers from reducing the effect that decreases in the value of our stock have on their financial position. The LTIP requires that all stock options granted under the plan have an exercise price that is not less than the fair market value of a share of our common stock on the date the grant is made. The LTIP also prohibits re-pricing or exchanging underwater stock options without shareholder approval.

Tax Considerations

Section 162(m) of the Code, as in effect prior to the enactment of the Tax Cuts and Jobs Act of 2017 (the “Tax Cuts Act”) in December 2017, generally disallowed a tax deduction to public companies for compensation of more than \$1 million paid in any taxable year to each “covered employee,” consisting of the CEO and the three other highest paid executive officers employed at the end of the year (other than the CFO). Amounts that qualified as “performance-based compensation” were exempt from this deduction limitation if the company met specified requirements set forth in the Code and applicable treasury regulations.

Table of Contents

The Tax Cuts Act retained the \$1 million deduction limit, but repealed the “performance-based compensation” exemption from the deduction limit and expanded the definition of “covered employees,” effective for taxable years beginning after December 31, 2017. Consequently, compensation paid in fiscal 2018 and later years to our named executive officers in excess of \$1 million will not be deductible unless it qualifies for transitional relief applicable to certain binding, written performance-based compensation arrangements that were in place as of November 2, 2017. No assurance can be given that the compensation associated with these awards will qualify for the transitional relief, due to ambiguities and uncertainties as to the application and interpretation of the revised Section 162(m) and the related requirements for transitional relief.

Risk Assessment

In 2018, we completed an assessment of our compensation policies and practices including the bonus plan eligibility requirements, performance measures, the corporate governance and the framework to mitigate risk. The assessment concluded there are no risks that are likely to cause a material adverse outcome on our company.
