CANNABIS SCIENCE, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization and General Description of Business

Cannabis Science, Inc. (We or the Company), was incorporated under the laws of the State of Colorado, on February 29, 1996, as Patriot Holdings, Inc. On August 26, 1999, the Company changed its name to National Healthcare Technology, Inc. On June 6, 2007, the Company changed its name from National Healthcare Technology, Inc., to Brighton Oil & Gas, Inc., and converted to a Nevada corporation. On March 25, 2008 the Company changed its name to Gulf Onshore, Inc. On April 7, 2009, the Company changed its name to Cannabis Science, Inc., and obtained a new CUSIP number. On May 7, 2009 the Company common shares commenced trading under the new stock symbol OTCBB: CBIS.

Cannabis Science, Inc. is at the forefront of medical marijuana research and development. The Company works with world authorities on phytocannabinoid science targeting critical illnesses, and adheres to scientific methodologies to develop, produce, and commercialize phytocannabinoid-based pharmaceutical products. In sum, we are dedicated to the creation of cannabis-based medicines, both with and without psychoactive properties, to treat disease and the symptoms of disease, as well as for general health maintenance.

The Company formed two operating subsidiaries Cannabis Science BV and Cannabis Science International Holding BV in The Netherlands on May 10th and May 6th, 2013, respectively, to pursue business opportunities in Europe and worldwide. There are currently minimal operations in the subsidiaries. Mario Lap, director of the Company and director and officer of the EU subsidiaries operates and manages the subsidiaries. Currently, Mario Lap is developing the Company's business and operations in Netherlands and Spain along with products for commercial release.

On November 15, 2013, the Company submitted a patent application N2010968 in Europe entitled "Composition for the Treatment of Neurobehavioral Disorders." The subject of the patent is development of cannabinoid-based formulations to treat a variety of neurobehavioral disorders, such as attention deficit hyperactivity disorder (ADHD), anxiety, and sleep disorders.

On November 20, 2014, the Company signed an amendment to the license agreement with Apothecary Genetics Investments LLC. Pursuant to the amendment, the Company is acquiring all property, building, and equipment of Apothecary. The Company anticipates closing the purchase in fiscal 2015 once all assets are identified with supported fair market values and the transfer of land title is completed.

On February 20, 2015, the Company closed on the acquisition of additional 30.1% interest in Michigan Green Technologies LLC (MGT), bringing the Company's ownership position to 50.1% controlling interest. MGT is working on various Michigan initiatives with state government to legalize and commercialize medical cannabis business, as was done in Colorado, Washington State, and other U.S. states. The Company recognized \$51,367 in goodwill related to the MGT acquisition.

On May 27, 2015, the Company entered into a collaborative drug development deal with IGX Bio and its GenePro®, a DNA-based immunotherapeutic that recently received FDA IND approval to enter into human trials. The companies intend to develop a joint protocol to demonstrate potential synergistic effects of their respective drug candidates in HIV, as well as potential new drug candidates. The collaboration between IGX Bio and the Company will provide a scientific evaluation of GenePro® and CS-TATI-1 to demonstrate the enhanced potential of therapeutic vaccination and the anti-inflammatory effects of cannabinoids to deter disease progression in AIDS patients unable to control HIV replication.

B. Basis of Presentation

These consolidated financial statements and related notes are presented in accordance with accounting principles generally accepted in the United States, and are expressed in U.S. dollars. The Company's fiscal year end is December 31.

Interim Financial Reporting

While the information presented in the accompanying interim consolidated financial statements is unaudited, it includes all adjustments, which are, in the opinion of management, necessary to present fairly the financial position, results of operations and cash flows for the interim periods presented in accordance with generally accepted accounting principles in the United States of America ("GAAP"). These interim financial statements follow the same accounting policies and methods of application as used in the December 31, 2014 audited financial statements of Cannabis Science, Inc. (the Company). All adjustments are of a normal, recurring nature. Interim financial statements and the notes thereto do not contain all of the disclosures normally found in year-end audited financial statements and these Notes to Financial Statements are abbreviated and contain only certain disclosures related to the three month periods ended March 31, 2015 and 2014. It is suggested that these interim financial statements be read in conjunction with the Company's audited financial statements and related notes for the year ended December 31, 2014 included in our Form 10-K filed with the SEC on file no. 000-28911 on April 21, 2015. Operating results for the three months ended March 31, 2015 are not necessarily indicative of the results that can be expected for the year ending December 31, 2015.

The following subsidiaries and controlling interests are included with the consolidated financial statements of the Company for the three months ended March 31, 2015:

On May 6, 2013, the Company formed Cannabis Science International Holdings B.V. and on May 10, 2013, the Company formed Cannabis Science B.V. for the purpose of wholly-owned operating subsidiaries for the Company's European and world-wide operations. Minimal business and operating activities have commenced in the subsidiaries as of March 31, 2015.

On August 6, 2014, the Company signed a proposal letter with Michigan Green Technologies, LLC (MGT) to acquire an additional 30.1% equity in MGT that would increase the Company's equity ownership to 50.1%. As consideration for acquiring the additional 30.1% equity, the Company agreed to issue shares to the principals and shareholders of MGT.

On February 20, 2015, the Company formalized the August 6, 2014 proposal letter and closed on the acquisition of MGT. As consideration for the additional 30.1% equity in MGT, increasing the Company's ownership to a 50.1% controlling interest, the Company issued 1,200,000 shares of common stock with a fair market value of \$60,000 to shareholders of MGT for services rendered pursuant to two-year consulting agreements. The Company closed on the acquisition of MGT on February 20, 2015.

On March 3, 2015, the Company entered into a 10-year management agreement with John Dalaly, principal of MGT, and issued 12,500,000 shares of common stock with a fair market value of \$625,000 for services to be rendered related to the MGT business and operations.

For other accounting policies please refer to the Company's Form 10-K with the SEC on file no. 000-28911 April 21, 2015.

The Company qualifies as an emerging growth company as defined in Section 101 of the Jumpstart our Business Startups Act (JOBS Act) as we do not have more than \$1,000,000,000 in annual gross revenue and did not have such amount as of December 31, 2014, our last fiscal year. We are electing to use the extended transition period for complying with new or revised accounting standards under Section 102(b)(1) of the JOBS Act.

2. GOING CONCERN

The accompanying consolidated financial statements have been prepared in conformity with generally accepted accounting principles, which contemplate the continuation of the Company as a going concern. The Company reported an accumulated deficit of \$113,734,775 and had a stockholders' deficit of \$2,452,177 at March 31, 2015.

In view of the matters described, there is substantial doubt as to the Company's ability to continue as a going concern without a significant infusion of capital. At March 31, 2015, the Company had insufficient operating revenues and cash flow to meet its financial obligations. There can be no assurance that management will be successful in implementing its plans. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The Company raised \$250,000 through a private sale of common stock in the three months ended March 31, 2015. Notwithstanding, we anticipate that we will have to raise additional capital to fund research and development and

operations over the next 12 months. To the extent that we are required to raise additional funds to acquire research and growing facilities, and to cover costs of operations, we intend to do so through additional public or private offerings of debt or equity securities. There are no commitments or arrangements for other offerings in place, no guaranties that any such financings would be forthcoming, or as to the terms of any such financings. Any future financing may involve substantial dilution to existing investors. We had been relying on our common stock to pay third parties for services that has resulted substantial dilution to existing investors.

3. FAIR VALUE MEASUREMENTS AND DISCLOSURES

ASC Topic 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

4. RELATED PARTY TRANSACTIONS

7. DEPOSITS

On February 9, 2012, the Company signed a license agreement with Apothecary to produce several Cannabis Science Brand Formulations for the California medical cannabis market. As well, Apothecary will provide research and development facilities with full circle operations including a California laboratory facility for internal research and development, along with 16 unique genetic strains specifically generated and maintained by a cancer survivor who

recognizes the importance of proper growth and breeding in addition to investing \$250,000 in research and development in the first 24 months.

Apothecary failed to meet several contract provisions including investing \$250,000 in R&D, setting up a laboratory facility, and reporting and remitting license fees owing to the Company. On November 20, 2014, the Company signed an amendment to the license agreement. Pursuant to the amendment, the Company is acquiring all property, building, and equipment of Apothecary in exchange for 14,500,000 Rule 144 restricted stock with a fair market value of \$971,500. Per the amendment, the Company also agreed to provide Apothecary with a minimum of \$150,000 and maximum of \$300,000 of working capital each calendar quarter commencing December 31, 2014. The Company recorded an equivalent deposit for the year ended December 31, 2014 until the acquisition of assets closes, which is anticipated during fiscal 2015 once all assets are identified with supported fair market values and the transfer of land title is completed. No additional working capital has been paid beyond December 31, 2014.

8. EQUITY METHOD INVESTEE

On November 5, 2014, the Company accounted for its investment and loans in OmniCanna Health Solutions, Inc. (formerly Endocan Corporation) using the equity method pursuant to ASC 323 Investments Equity Method and Joint Ventures. In accordance with ASC 323, when the Company does not have a controlling financial interest in an entity but exerts significant influence over the entity's operating and financial policies, the Company accounts for its investment in accordance with the equity method of accounting. This generally applies to cases in which the Company owns a voting or economic interest of between 20 and 50 percent.

The accounting using the equity method is in conjunction with appointment of Raymond Dabney as CEO and director of the Company on November 5, 2014, in addition to Mr. Dabney being a controlling shareholder of the Company since September 2009 and a controlling shareholder of Endocan Corporation since June 2013. Therefore, the Company was deemed to have significant influence and control of Endocan Corporation.

On November 5, 2014, the Company recorded \$247,500 in marketable securities and \$86,469 in loans to OHS to its equity method investee account in accordance with ASC 323.

An impairment of \$48,750 in the equity method investee account was recognized for the three months ended March 31, 2015 and an impairment of \$90,000 was recognized for the year ended December 31, 2014 due to the non-temporary decline in the value of OHS marketable securities.

9. COMMITMENTS

The Company has lease commitments for its European operations under private companies MLS Lap B.V. and MJR B.V. owned and controlled by Mario Lap, director and director and officer of EU subsidiaries. Negotiations are ongoing in regards to preparing finalized agreements between the Company and Mr. Lap's companies.

10. SUBSEQUENT EVENTS

On April 20, 2015, the Company entered into an agreement with American Education Lawyers Group LLC and agreed to issued 5,000,000 shares of Rule 144 restricted common stock as a one-time retainer to cover legal services

in regards to Cannabis Science endeavors in California.

On April 29, 2015, the Company issued 40,000,000 shares of common stock pursuant to a debt settlement agreement with Intrinsic Capital Corp. to settle \$40,000 in debt owing under December 31, 2013 note payable. The Company recognized a loss on settlement of debt of \$1,360,000 under the agreement.

On May 4, 2015, the Company issued a total of 52,948,000 common shares to executives and various consultants pursuant to existing contracts.

On May 21, 2015, Cannabis Science, Inc. (the Company), entered into a Joint Development Agreement (the Agreement) with IGXBio, Inc., a Delaware corporation (IGX). Pursuant to the Agreement the Company and IGX will jointly develop and conduct a clinical protocol for an anti-inflammatory utilizing cannabinoids and GenePro®, a DNA based immunotherapy with a FDA IND number. Each company will retain ownership of their respective intellectual property and equally own any new products or drugs derived from the Agreement. The term of the Agreement is initially for 4 years with an automatic renewal provision. On June 3, 2015, the Company issued 5 million Rule 144 restricted common shares to IGX pursuant to the Agreement and will have 50/50 in any new products developed under the Agreement.

Although we believe that our opinions and expectations reflected in the forward-looking statements are reasonable as of the date of this Report, we cannot guarantee future results, levels of activity, performance or achievements, and our actual results may differ substantially from the views and expectations set forth in this Interim Report on Form 10-Q. We expressly disclaim any intent or obligation to update any forward-looking statements after the date hereof to conform such statements to actual results or to changes in our opinions or expectations.

Readers should carefully review and consider the various disclosures made by us in this Report, set forth in detail in Part I, under the heading Risk Factors, as well as those additional risks described in other documents we file from time to time with the Securities and Exchange Commission, which attempt to advise interested parties of the risks, uncertainties, and other factors that affect our business. We undertake no obligation to publicly release the results of any revisions to any forward-looking statements to reflect anticipated or unanticipated events or circumstances occurring after the date of such statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This section of this report includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like: believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements, which apply only as of the date of this report. These forward-looking states are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or our predictions.

Overview of the Company's Business

Cannabis Science, Inc. (formerly Gulf Onshore, Inc.) (We or the Company), was incorporated under the laws of the State of Colorado, on February 29, 1996, as Patriot Holdings, Inc. On August 26, 1999, the Company changed its name to National Healthcare Technology, Inc. On June 6, 2007, the Company changed its name from National Healthcare Technology, Inc., to Brighton Oil & Gas, Inc., and converted to a Nevada corporation. On March 25, 2008 the Company changed its name to Gulf Onshore, Inc. On April 7, 2009, the Company changed its name to Cannabis Science, Inc.

Cannabis Science, Inc. is at the forefront of medical cannabis research and development. The Company works with world authorities on phytocannabinoid science targeting critical illnesses, and adheres to scientific methodologies to develop, produce, and commercialize phytocannabinoid-based pharmaceutical products. In sum, we are dedicated to the creation of cannabis-based medicines, both with and without psychoactive properties, to treat disease and the symptoms of disease, as well as for general health maintenance.

Cannabis Science, Inc., takes advantage of its unique understanding of metabolic processes to provide novel treatment approaches to a number of illnesses for which current treatments and understanding remain unsatisfactory. The Company works with leading experts in drug development, medicinal characterization, and clinical research to develop, produce, and commercialize novel therapeutic approaches for the treatment for illnesses caused by infections as well as for age-related illness. Our initial focus is on skin cancers and neurological conditions.

Cannabis Science, Inc. takes advantage of its unique understanding of metabolic processes to provide innovative treatment options for unmet medical needs.

Cannabis use has an extensive history dating back thousands of years, and currently there are thousands of peer-reviewed scientific publications that document the underlying biochemical pathways that cannabinoids modulate.

At Cannabis Science, we use an inquiring approach to discover and develop novel cannabinoid-based therapies to improve patients' lives. From the initiation, our founders have been committed to fostering and maintaining a bold, pioneering spirit fostering the true nature of innovation from which cutting edge ideas flourish and translate into evidence-based solutions.

We are dedicated to working closely with local, national and international regulatory agencies to provide access to high quality, first class cannabinoid pharmaceuticals to those critically in need of new treatments for life threatening and debilitating conditions. Cannabis Science's clinical trial material comes from the cultivation and production facilities that are GMP compliant, surpassing high quality standard industrial and food processing requirements.

The Company works with leading experts in drug development, medicinal characterization, and clinical research to develop, produce, and commercialize novel therapeutic approaches for the treatment of multiple critical ailments from cancer and infections to age-related illnesses.

Our products, broadly described, are medical cannabinoid formulations developed from one or more of the cannabinoid compounds found in the cannabis plant. Our immediate focus is to treat one of the most important diseases in the world, cancer.

CS-S/BCC1 is in preparation to enter phase I clinical trials within one to two years. This product is formulated for topical administration to be tested in phase I study, with an indication for skin cancer.

CS-TAT11 is in preclinical development with the indication for infectious disease. Consistent with data published in March by researchers at the Mount Sinai School of Medicine found that cannabinoids inhibit TAT induced migration to TAT via cannabinoid 2 receptors (CB2) which has potential applications in HIV and other infectious diseases.

In November 2013, Cannabis Science submitted patent application N2010968 in Europe entitled "Composition for the Treatment of Neurobehavioral Disorders." The subject of the patent is development of cannabinoid-based formulations to treat a variety of neurobehavioral disorders, such as attention deficit hyperactivity disorder (ADHD) and anxiety. The first formulation in the series of neurobehavioral disorder-targeted products is the pre-clinical development and use of the invention in food products through a licensing agreement with a strategic partner and related company, OmniCanna Health Solutions, Inc. Cannabis Science will move forward at the same time with

pharmaceutical grade product development.

Cannabis plants have extensive history of medical and agricultural use dating back thousands of years.

To date hundreds of natural constituents covering several chemical classes have been isolated and identified from the Cannabis plant.

Some key phytocannabinoids are:

.

tetrahydrocannabinol (THC)

.

cannabidiol (CBD)

.

cannabigerol (CBG)

.

cannabichromene (CBC)

.

cannabinol (CBN)

These cannabinoids belong to the chemical class of terpenophenolics, of which 85 have been uniquely identified in cannabis, including the most psychoactive cannabinoid, THC.

Some applications of cannabinoids have been well established in peer-reviewed literature such as for alleviating nausea and stimulating the appetite for people with AIDS and cancer. Other well-known uses include easing chronic pain and reducing muscle spasms associated with multiple sclerosis and spinal cord injuries.

The pharmacology of THC has been widely studied, while many other identified cannabinoids are still poorly characterized pharmacologically and biologically, with new activities for cannabinoids consistently being discovered.

Cannabis Science is developing novel cannabis based approaches to treat the world's most deadly illnesses. We learn from patients about the healing properties of cannabis medicines. Our immediate focus is the development of cutting edge cancer treatments.

The Company continues work on developing its CBN patent and pharmaceutical development with ImmunoClin Limited under its Laboratory Service Agreement.

The Company has announced an historic collaborative drug development deal with IGXBio and its GenePro®, a DNA-based immunotherapeutic that recently received FDA IND approval to enter into human trials. The companies intend to develop a joint protocol to demonstrate potential synergistic effects of their respective drug candidates in HIV, as well as new drug candidates.

Cannabis Science is one of the longest standing companies in the cannabis business. We feel that the correct way is to look at the industry from a bio-pharmaceutical standpoint, in a manner that allows cannabinoid-based products to modulate the endocannabinoid system to treat multiple conditions.

On March 30, 2009, the Company entered into an agreement with Cannex Therapeutics, LLC, (Cannex) a California limited liability company, and its principal, medical cannabis pioneer and entrepreneur Steven W. Kubby, to acquire all of their interest in certain assets used to conduct a cannabis research and development business. The asset purchase agreement includes all of Cannex's and Kubby's intellectual property rights, formulas, patents, trademarks, client base, hardware and software, including the website www.phytiva.com. The Company and its largest shareholder, K & D Equities, Inc., exchanged a total of 10,600,000 shares of common stock for the assets of Cannex; the Company issued 2,100,000 shares to Cannex, and K & D transferred 8,500,000 shares to Cannex and others. A Form 8-K reflecting this transaction was timely filed.

As part of the Agreement, on April 1, 2009, the Company appointed Mr. Kubby as President and CEO, Richard Cowan as Director and CFO, and Robert Melamede Ph. D., as Director and Chief Science Officer. Each of them was also appointed as a director. All of the Company's current directors then resigned. On April 7, 2009, the Company changed its name to Cannabis Science, Inc., and obtained a new CUSIP number. Its shares now trade under the symbol CBIS.OB. A Form 8-K was timely filed, with a copy of the Asset Acquisition Agreement and Board Resolution ratifying the Agreement provided as exhibits thereto.

On April 7, 2009, the Company changed its name to Cannabis Science, Inc., reflecting its new business mission: Cannabis Science, Inc. is at the forefront of medical marijuana research and development. The Company works with world authorities on phytocannabinoid science targeting critical illnesses, and adheres to scientific methodologies to develop, produce, and commercialize phytocannabinoid-based pharmaceutical products. In sum, we are dedicated to the creation of cannabis-based medicines, both with and without psychoactive properties, to treat disease and the symptoms of disease, as well as for general health maintenance. The Company obtained a new CUSIP number as well. Cannabis Science Inc. launched its new website www.cannabisscience.com reflecting its new name.

On May 7, 2009, the Company common shares commenced trading under the new stock symbol OTC: CBIS.

The Company formed two operating subsidiaries Cannabis Science BV and Cannabis Science International Holding BV in The Netherlands on May 10th and May 6th, 2013, respectively, to pursue business opportunities in Europe and worldwide.

There are minimal operating activities in the subsidiaries as of March 31, 2015. Mario Lap, a director of the Company and director and officer its European subsidiaries, is conducting various business activities of the Company in Spain under his personal name and/or his personal holding companies MLS Lap B.V. and MJR B.V. until such time as the Company is able to establish a Spanish subsidiary to conduct its own business operations and activities, including but not limited to: operating lease for farms, asset purchases, office and equipment, personnel employment and other business and operating activities as may be required from time-to-time.

Edgar Filing: CANNABIS SCIENCE, INC. - Form 10-Q

On August 6, 2014, the Company signed a proposal letter with Michigan Green Technologies, LLC (MGT) to acquire an additional 30.1% equity in MGT that would increase the Company's equity ownership to 50.1%. As consideration for acquiring the additional 30.1% equity, the Company has agreed to issue a total of twenty million (20,000,000) shares to the principals and shareholders of MGT over 12 months (see Form 8-K with the SEC on file no. 000-28911 August 8, 2014). On February 20, 2015, the Company closed on the acquisition and now owns a controlling 50.1% of MGT.

On May 27, 2015, Cannabis Science, Inc. (the Company), entered into a Joint Development Agreement (the Agreement) with IGXBio, Inc., a Delaware corporation (IGX). Pursuant to the Agreement the Company and IGX will jointly develop and conduct a clinical protocol for an anti-inflammatory utilizing cannabinoids and GenePro®, a DNA based immunotherapy with a FDA IND number. Each company will retain ownership of their respective intellectual property and equally own any new products or drugs derived from the Agreement. The term of the Agreement is initially for 4 years with an automatic renewal provision. The Company will share 50/50 with IGX in any new products developed under the Agreement.

The Company continues work on its pharmaceutical feasibility study and potential product development under the ImmunoClin Limited Laboratory Service Agreement. Should any success product feasibility be established then the Company will move forward with the Unistraw joint venture to further develop and market any resulting products.

The Company is working on several business acquisition and development projects to increase business and revenue generation in 2015 and beyond, including but not limited to: product licensing and royalty agreements, private label hemp product line, consulting, and other strategic acquisitions to support product development, production, and distribution of newly acquired or manufactured cannabis and hemp based products. There can be no assurance that these will be successful in generating revenues in 2015.

Liquidity

The Company has a working capital deficit of \$3,618,896 as of March 31, 2015 compared to a working capital deficit of \$3,788,922 for the year ended December 31, 2014. There are insufficient liquid assets to meet current liabilities or sustain operations through 2015 and beyond and the Company must raise additional capital to cover the working capital deficit. Management is working on plans to raise additional capital through private placements and lending facilities. The Company currently is relying on existing cash and loans from stockholders to meet its obligations and sustain operations.

The Company has promissory note payment commitments of \$1,400,658 due to stockholders and currently in default. The Company is negotiating with the debtors to extend the notes payable.

Contractual Obligations

The Company has various commitments under consulting contracts, debt settlement, licensing agreements, laboratory services agreement, joint development, and joint venture agreement.

Capital Resources

On January 15, 2015, the Company sold 10,000,000 units at \$0.25 per unit. Each unit is comprised of one share of common stock and one non-transferable warrant with each one warrant to purchase one share of the Company's common stock at an exercise price of \$0.50. The warrants shall expire 2 years from the date of issuance of the warrant certificate (collectively Offered Units). Gross proceeds of \$1,000,000 were received by the Company under the offering on January 27, 2015.

The Company has additional capital resource requirements for personnel, supplies, laboratory and scientific equipment of approximately \$1,250,000 over the next 12 months. These capital disbursements are dependent on management's successful raising of capital through private placements and/or lending facilities.

The Company is not currently in good short-term financial standing. We anticipate that we may only generate limited revenues in the near future and we will not have enough positive internal operating cash flow until we can generate substantial revenues, which may take the next two years to fully realize. Notwithstanding, there is no assurance we will achieve profitability. We have historically financed our operations primarily by cash flows generated from the sale of our equity securities and through cash infusions from officers and outside investors in exchange for debt and/or common stock.

Results of Operations

For the three months ended March 31, 2015 (2015) as compared to the prior year three months ended March 31, 2014 (2014):

The Company had revenues of \$0 for 2015 compared to \$1,031 for 2014. This decrease in revenue is due to a decrease in license revenue from Apothecary Genetics Investments LLC (AGI) from 2015 to 2014. The Company is currently working on finalizing the acquisition of properties, assets, and operations from AGI to increase revenues

under the license agreement.

Net loss on settlement of debt increased by \$241,576 to \$2,358,076 for the three months ended March 31, 2015 compared to \$2,116,500 for the three months ended March 31, 2014. This increase is due to the higher share price of the Company's stock and relative loss related to settling debt at a lower share price.

General and administrative expenses decreased by \$1,406,999 to \$1,651,092 for the three months ended March 31, 2015 compared to \$3,058,091 for the three months ended March 31, 2014. This decrease is due to decreased stock compensation expense pursuant to management consulting and bonus agreements.

The Company is working on several business development projects to generate revenues, including: signing a new license agreement with Apothecary Genetics Investments LLC that will generate increased license and royalty revenue, a hemp product line, and other strategic acquisitions to support product development, production, and distribution of newly acquire or manufactured cannabis and hemp based products. The Company's drug development with the pending joint venture with Unistraw is also ongoing through its laboratory services agreement with ImmunoClin Limited in London, UK. In addition, the Company signed an agreement with Equi-Pharma for the commercialization of pet products for distribution in California. Notwithstanding, there can be no assurance that these will be successful in generating revenues in 2015.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Our Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report, have concluded that, based on the evaluation of these controls and procedures, that our disclosure controls and procedures were not effective.

There were no changes in our internal controls or in other factors during the last fiscal quarter covered by this report that have materially affected, or are likely to materially affect the Company's internal controls over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company received a letter from Charles Murphy and Robert Sfire regarding their filing a case against John Dalaly, Michigan Green Technologies, and the Company. While proper service to the Company is in question, the filing is for default on payment to be received for fees due to the settlement of a case Mr. Murphy and Mr. Sfire previously brought against John Dalaly. Michigan Green Technologies and the Company are co-signers on the settlement note. The Company expects that the issue will be resolved within the next 90 days with the full payment of the settlement fees.
