BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. Description of the Business and Basis of Presentation

Description of the Business - Bloomin' Brands, Inc., through its subsidiaries ("Bloomin' Brands" or the "Company"), owns and operates casual, upscale casual and fine dining restaurants. The Company's restaurant portfolio has four concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill and Fleming's Prime Steakhouse & Wine Bar. Additional Outback Steakhouse, Carrabba's Italian Grill and Bonefish Grill restaurants in which the Company has no direct investment are operated under franchise agreements.

Basis of Presentation - The accompanying interim unaudited consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles in the United States ("U.S. GAAP") for complete financial statements. In the opinion of the Company, all adjustments necessary for the fair presentation of the Company's results of operations, financial position and cash flows for the periods presented have been included and are of a normal, recurring nature. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. These financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 27, 2015.

Recently Issued Financial Accounting Standards Not Yet Adopted - In March 2016, the Financial Accounting Standards Board ("the FASB") issued Accounting Standards Update ("ASU") 2016-09, Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting ("ASU No. 2016-09"). ASU No. 2016-09 simplifies several aspects related to the accounting for share-based payment transactions, including the accounting for income taxes, statutory tax withholding requirements and classification on the statement of cash flows. ASU No. 2016-09 will be effective for the Company in fiscal year 2017. The Company is currently evaluating the impact that the adoption of ASU No. 2016-09 will have on its financial position, results of operations and cash flows.

In February 2016, the FASB issued ASU No. 2016-02: "Leases (Topic 842)" ("ASU No. 2016-02"). ASU No. 2016-02 requires the lease rights and obligations arising from lease contracts, including existing and new arrangements, to be recognized as assets and liabilities on the balance sheet. ASU No. 2016-02 is effective for the Company in fiscal year 2019 and must be adopted using a modified retrospective approach. The Company is currently evaluating the impact of ASU No. 2016-02 on its financial position, results of operations and cash flows.

In August 2014, the FASB issued ASU No. 2014-15: "Presentation of Financial Statements-Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern" ("ASU No. 2014-15"). ASU No. 2014-15 will explicitly require management to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern, and to provide related footnote disclosures in certain circumstances. The new standard is applicable for all entities and will be effective for the Company's fiscal year 2016 annual reporting period. The Company does not expect ASU No. 2014-15 to have a material impact on its financial position, results of operations and cash flows.

In May 2014, the FASB issued ASU No. 2014-09 "Revenue Recognition (Topic 606), Revenue from Contracts with Customers" ("ASU No. 2014-09"). ASU No. 2014-09 provides a single source of guidance for revenue arising from contracts with customers and supersedes current revenue recognition standards. Under ASU No. 2014-09, revenue is recognized in an amount that reflects the consideration an entity expects to receive for the transfer of goods and

services. On July 9, 2015, the FASB agreed to delay the effective date of ASU 2014-09 by one year. As a result, the new guidance will be effective for the Company in fiscal year 2018 and is applied retrospectively to each period presented or as a cumulative effect adjustment at the date of adoption. The Company has not selected a transition method and is evaluating the impact this guidance will have on its financial position, results of operations and cash flows.

(2) Dividend yield is the level of dividends expected to be paid on the Company's common stock over the expected term of the option.

(3) Expected term represents the period of time that the options are expected to be outstanding. The simplified method of estimating the expected term is used since the Company does not have significant historical exercise experience for its stock options.

PRP Mortgage Loan - On February 11, 2016, New Private Restaurant Partners, LLC, an indirect wholly-owned subsidiary of the Company ("PRP"), as borrower, and Wells Fargo Bank, National Association, as lender (the "Lender"), entered into a loan agreement (the "PRP Mortgage Loan"), pursuant to which PRP borrowed \$300.0 million. The PRP Mortgage Loan has an initial maturity date of February 11, 2018 (the "Initial Maturity") with an option to extend the Initial Maturity for one twelve-month extension period (the "Extension") provided that certain conditions are satisfied. The PRP Mortgage Loan is collateralized by certain properties owned by PRP ("Collateral Properties"). PRP has also made negative pledges with respect to certain properties ("Unencumbered Properties").

The proceeds of the PRP Mortgage Loan were used, together with borrowings under the Company's revolving credit facility, to prepay a portion, and fully defease the remainder, of the 2012 CMBS loan. In connection with the defeasance, the Company recognized a loss of \$26.6 million during the thirteen weeks ended March 27, 2016. Following the defeasance of the 2012 CMBS loan, \$19.3 million of restricted cash was released.

The PRP Mortgage Loan bears interest, payable monthly, at a variable rate equal to 250 basis points above the seven-day LIBOR, subject to adjustment in certain circumstances.

The PRP Mortgage Loan permits the Company to refinance or sell the Collateral Properties and the Unencumbered Properties, subject to certain terms and conditions, including that specified release proceeds are applied against the outstanding loan balance. If the PRP Mortgage Loan balance exceeds \$210.0 million on March 1, 2017 or \$160.0

million on September 1, 2017, PRP's rental income is required to be applied against the outstanding loan balance.

9. Derivative Instruments and Hedging Activities

Interest Rate Risk - The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company manages economic risks, including interest rate risk, primarily by managing the amount, sources and duration of its debt funding and through the use of derivative financial instruments. The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish these objectives, the Company primarily uses interest rate swaps.

Currency Exchange Rate Risk - The Company is exposed to foreign currency exchange rate risk arising from transactions and balances denominated in currencies other than the U.S. dollar. The Company may use foreign currency forward contracts to manage certain foreign currency exposures.

DESIGNATED HEDGES

Cash Flow Hedges of Interest Rate Risk - On September 9, 2014, the Company entered into variable-to-fixed interest rate swap agreements with eight counterparties to hedge a portion of the cash flows of the Company's variable rate debt. The swap agreements have an aggregate notional amount of \$400.0 million, a start date of June 30, 2015, and mature on May 16, 2019. Under the terms of the swap agreements, the Company pays a weighted-average fixed rate of 2.02% on the \$400.0 million notional amount and receives payments from the counterparty based on the 30-day

LIBOR rate.

The interest rate swaps, which have been designated and qualify as a cash flow hedge, are recognized on the Company's Consolidated Balance Sheets at fair value and are classified based on the instruments' maturity dates. Fair value changes

Balances in AOCL are subsequently reclassified to earnings in the same period that the hedged interest payments affect earnings. The Company estimates \$5.5 million will be reclassified to interest expense over the next twelve months.

The following table presents the fair value, accrued interest and classification of the Company's interest rate swaps:

(1) During the thirteen weeks ended March 27, 2016 and March 29, 2015, the Company did not recognize any gain or loss as a result of hedge ineffectiveness.

The Company records its derivatives on the Consolidated Balance Sheets on a gross balance basis. The Company's derivatives are subject to master netting arrangements. As of March 27, 2016, the Company did not have more than one derivative between the same counterparties and as such, there was no netting.

By utilizing the interest rate swaps, the Company is exposed to credit-related losses in the event that the counterparty fails to perform under the terms of the derivative contract. To mitigate this risk, the Company enters into derivative contracts with major financial institutions based upon credit ratings and other factors. The Company continually assesses the creditworthiness of its counterparties. As of March 27, 2016, all counterparties to the interest rate swaps had performed in accordance with their contractual obligations.

The Company has agreements with each of its derivative counterparties that contain a provision where the Company could be declared in default on its derivative obligations if the repayment of the underlying indebtedness is accelerated by the lender due to the Company's default on indebtedness.

Edgar Filing: Bloomin' Brands, Inc. - Form 10-Q

As of March 27, 2016 and December 27, 2015, the fair value of the Company's interest rate swaps in a net liability position, which includes accrued interest but excludes any adjustment for nonperformance risk, was \$13.8 million and \$10.9 million, respectively. As of March 27, 2016 and December 27, 2015, the Company has not posted any collateral related to these agreements. If the Company had breached any of these provisions as of March 27, 2016 and December 27, 2015, it could have been required to settle its obligations under the agreements at their termination value of \$13.8 million and \$10.9 million, respectively.

NON-DESIGNATED HEDGES

Non-deliverable Foreign Currency Forward Contracts - The Company has entered into non-deliverable foreign currency forward contracts to partially offset the foreign currency exchange gains and losses generated by the remeasurement of certain assets and liabilities denominated in non-functional currencies. The Company's foreign currency forward contracts are subject to master netting arrangements.

10. Fair Value Measurements

Fair value is the price that would be received for an asset or paid to transfer a liability, or the exit price, in an orderly transaction between market participants on the measurement date. Fair value is categorized into one of following three levels based on the lowest level of significant input:

Level 1 Unadjusted quoted market prices in active markets for identical assets or liabilities

Level 2 Observable inputs available at measurement date other than quoted prices included in Level 1

Level 3 Unobservable inputs that cannot be corroborated by observable market data

Fair value of each class of financial instrument is determined based on the following:

FINANCIAL INSTRUMENT METHODS AND ASSUMPTIONS

Fixed income funds and Money market funds Carrying value approximates fair value because maturities are less than three months.

Derivative instruments The Company's derivative instruments include interest rate swaps, foreign currency forward contracts and commodities. Fair value measurements are based on the contractual terms of the derivatives and use observable market-based inputs. The interest rate swaps are valued using a discounted cash flow analysis on the expected cash flows of each derivative using observable inputs including interest rate curves and credit spreads. The foreign currency forwards are valued by comparing the contracted forward exchange rate to the current market exchange rate. Key inputs for the valuation of the foreign currency forwards are spot rates, foreign currency forward rates, and the interest rate curve of the domestic currency. The Company incorporates credit valuation adjustments to reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. As of March 27, 2016 and December 27, 2015, the Company has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives.

Fair Value Measurements on a Nonrecurring Basis - Assets and liabilities that are measured at fair value on a nonrecurring basis relate primarily to property, fixtures and equipment, goodwill and other intangible assets, which are remeasured when carrying value exceeds fair value. The following table summarizes the Company's assets measured at fair value by hierarchy level on a nonrecurring basis:

	THIRTEEN WEEKS ENDED MARCH 29, 2015	
(dollars in thousands)	CARRYING VALUE	TOTAL IMPAIRMENT
Assets held for sale	\$1,564	\$ 171
Property, fixtures and equipment	950	1,124
	\$2,514	\$ 1,295

Carrying value approximates fair value with all assets measured using Level 2 inputs. A third-party market (1) appraisal (Level 2) and a purchase contract (Level 2) were used to estimate the fair value. There were no impaired assets for the thirteen weeks ended March 27, 2016.

Interim Disclosures about Fair Value of Financial Instruments - The Company's non-derivative financial instruments as of March 27, 2016 and December 27, 2015 consist of cash equivalents, restricted cash, accounts receivable, accounts payable and current and long-term debt. The fair values of cash equivalents, restricted cash, accounts receivable and accounts payable approximate their carrying amounts reported in the Consolidated Balance Sheets due to their short duration.

CMBS loan	Assumptions derived from current conditions in the real estate and credit markets, changes in the underlying collateral and expectations of management.

Litigation and Other Matters - The Company had \$4.7 million and \$4.5 million of liability recorded for various legal matters as of March 27, 2016 and December 27, 2015, respectively. During the thirteen weeks ended March 27, 2016 and March 29, 2015, the Company recognized \$0.3 million and \$0.2 million, respectively, in Other restaurant operating in its Consolidated Statements of Operations and Comprehensive Income for legal settlements.

On October 4, 2013, two then-current employees (the "Nevada Plaintiffs") filed a purported collective action lawsuit against the Company, OSI Restaurant Partners, LLC ("OSI"), and two of its subsidiaries in the U.S. District Court for

the District of Nevada (Cardoza, et al. v. Bloomin' Brands, Inc., et al., Case No.: 2:13-cv-01820-JAD-NJK). The complaint alleges violations of the Fair Labor Standards Act by requiring employees to work off the clock, complete on-line training without pay, and attend meetings in the restaurant without pay. The nationwide collective action permitted all hourly employees in all Outback Steakhouse restaurants to join. The suit seeks an unspecified amount in

back pay for the employees that joined the lawsuit, an equal amount in liquidated damages, costs, expenses, and attorney's fees. The Nevada Plaintiffs also filed a companion lawsuit in Nevada state court alleging that the Company violated the state break time rules. In November 2015, the Company reached a tentative settlement agreement resolving all claims and the cost of class administration for \$3.2 million. The parties submitted the settlement to the Court for approval in February 2016 and received conditional approval on April 11, 2016. The parties are proceeding with the class notice and administration process before seeking final approval from the Court.

In addition, the Company is subject to legal proceedings, claims and liabilities, such as liquor liability, sexual harassment and slip and fall cases, which arise in the ordinary course of business and are generally covered by insurance if they exceed specified retention or deductible amounts. In the opinion of management, the amount of ultimate liability with respect to those actions will not have a material adverse impact on the Company's financial position or results of operations and cash flows.

13. Segment Reporting

The Company has two reportable segments, U.S. and International, which reflects how the Company manages its business, reviews operating performance and allocates resources. The U.S. segment includes all brands operating in the U.S. while brands operating outside the U.S. are included in the International segment. Resources are allocated and performance is assessed by the Company's Chief Executive Officer ("CEO"), whom the Company has determined to be its Chief Operating Decision Maker ("CODM"). Following is a summary of reporting segments:

SEGMENT	CONCEPT	GEOGRAPHIC LOCATION
U.S.	Outback Steakhouse	United States of America, including Puerto Rico
	Carrabba's Italian Grill	
	Bonefish Grill	
	Fleming's Prime Steakhouse & Wine Bar	
International	Outback Steakhouse (1)	Brazil, South Korea, Hong Kong, China
	Carrabba's Italian Grill (Abbraccio)	Brazil

(1) Includes international franchise locations in 18 countries and Guam.

Segment accounting policies are the same as those described in Note 2 - Summary of Significant Accounting Policies in the Company's Annual Report on Form 10-K for the year ended December 27, 2015. Revenues for all segments include only transactions with customers and include no intersegment revenues. Excluded from net income from operations for U.S. and International are certain legal and corporate costs not directly related to the performance of the segments, interest and other expenses related to the Company's credit agreements and derivative instruments, certain stock-based compensation expenses and certain bonus expenses.

Prior to 2016, certain insurance expenses were not allocated to the Company's concepts as these expenses were reviewed and evaluated on a Company-wide basis and therefore, these costs were excluded from segment restaurant-level operating margin and income from operations. In 2016, the Company's management changed how insurance expenses related to its restaurants are reviewed and now considers those costs when evaluating the operating performance of the Company's concepts. Accordingly, the Company has recast all prior period segment information to reflect this change.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

Overview

We are one of the largest casual dining restaurant companies in the world with a portfolio of leading, differentiated restaurant concepts. As of March 27, 2016, we owned and operated 1,331 restaurants and franchised 171 restaurants across 48 states, Puerto Rico, Guam and 22 countries. We have four founder-inspired concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill and Fleming's Prime Steakhouse & Wine Bar.

The casual dining restaurant industry is a highly competitive and fragmented industry and is sensitive to changes in the economy, trends in lifestyles, seasonality and fluctuating costs. Operating margins for restaurants can vary due to competitive pricing strategies, labor costs and fluctuations in prices of commodities and other necessities to operate a restaurant, such as natural gas or other energy supplies. Restaurant companies tend to be focused on increasing market share, comparable restaurant sales growth and new unit growth. Our industry is characterized by high initial capital investment, coupled with high labor costs. As a result, we focus on driving increased sales at existing restaurants in order to raise margins and profits, because the incremental contribution to profits from every additional dollar of sales above the minimum costs required to open, staff and operate a restaurant is relatively high. Historically, we have focused on restaurant growth with strong unit level economics.

Executive Summary

Our financial results for the thirteen weeks ended March 27, 2016 ("first quarter of 2016") include the following:

A decrease in total revenues of 3.2% to \$1.2 billion in the first quarter of 2016, as compared to the first quarter of 2015, was primarily due to: (i) the effect of foreign currency translation, due to the depreciation of the Brazil Real, (ii) U.S. comparable restaurant sales being 1.5% lower, primarily due to a decline in customer traffic and (iii) the closing of 43 restaurants since December 28, 2014. The decrease in restaurant sales was partially offset by the opening of 78 new restaurants not included in our comparable restaurant sales base.

Income from operations of \$86.7 million in the first quarter of 2016, as compared to \$97.7 million in the first quarter of 2015, was primarily due to a decrease in operating margin at the restaurant level and higher General and administrative expense, partially offset by lower impairments and restaurant closing costs.

Following is a summary of significant actions we have taken and other factors that impacted our operating results and liquidity to date in 2016:

PRP Mortgage Loan - On February 11, 2016, PRP entered into the PRP Mortgage Loan, pursuant to which PRP borrowed \$300.0 million. The proceeds of the PRP Mortgage Loan were used, together with borrowings under our revolving credit facility, to prepay a portion, and fully defease the remainder, of the 2012 CMBS loan. In connection with the defeasance, we recognized a loss of \$26.6 million during the first quarter of 2016.

The PRP Mortgage Loan bears interest, payable monthly, at a variable rate equal to 250 basis points above the seven-day LIBOR, subject to adjustment in certain circumstances. As a result of these transactions, we anticipate interest savings of approximately \$12.0 million in fiscal year 2016.

Dividend and Share Repurchase Programs - On February 12, 2016, the Board canceled the remaining \$30.0 million of authorization under the 2015 Share Repurchase Program and approved a \$250.0 million authorization (the "2016 Share Repurchase Program"). The 2016 Share Repurchase Program will expire on August 12, 2017. As of March 27, 2016, \$75.0 million of our common stock has been repurchased under the 2016 Share Repurchase Program.

Bonefish Restructuring - On February 12, 2016, we decided to close 14 Bonefish restaurants. We expect to substantially complete these restaurant closings by the first quarter of 2019. In connection with the Bonefish Restructuring, we recognized pre-tax restaurant and other closing costs of approximately \$3.6 million during the thirteen weeks ended

Key Performance Indicators

Key measures that we use in evaluating our restaurants and assessing our business include the following:

• Average restaurant unit volumes—average sales per restaurant to measure changes in customer traffic, pricing and development of the brand;

• Comparable restaurant sales—year-over-year comparison of sales volumes for Company-owned restaurants that are open 18 months or more in order to remove the impact of new restaurant openings in comparing the operations of existing restaurants;

• System-wide sales—total restaurant sales volume for all Company-owned and franchise restaurants, regardless of ownership, to interpret the overall health of our brands;

• Adjusted restaurant-level operating margin, Adjusted income from operations, Adjusted net income and Adjusted diluted earnings per share—non-GAAP financial measures utilized to evaluate our operating performance, and for which definitions, usefulness and reconciliations are described in more detail in the “Non-GAAP Financial Measures” section below; and

• Customer satisfaction scores—measurement of our customers' experiences in a variety of key attributes.

primarily due to additional depreciation expense related to the opening of new restaurants and the remodel of existing restaurants, partially offset by lower depreciation for Bonefish assets impaired in connection with the restructuring.

General and administrative

General and administrative expense includes salaries and benefits, management incentive programs, related payroll tax and benefits, other employee-related costs and professional services. Following is a summary of the change in general and administrative expense:

	THIRTEEN WEEKS ENDED MARCH 27, 2016

Life insurance and deferred compensation	(1.4)
Legal and professional fees	(1.2)
Other	2.6	
For the period ended March 27, 2016	\$	75.0

During the thirteen weeks ended March 27, 2016, general and administrative expense increased from the thirteen weeks ended March 29, 2015, primarily from the following items:

• Conference expense was higher due to the timing of our annual managing partner conference.

• Foreign exchange primarily includes the depreciation of the Brazil Real.

On February 12, 2016, we decided to close 14 Bonefish restaurants. In connection with the Bonefish Restructuring, we recognized pre-tax restaurant and other closing costs of approximately \$3.6 million during the thirteen weeks ended March 27, 2016.

Following is a summary of expenses related to the Bonefish Restructuring and International and Domestic Restaurant Closure Initiatives recognized in Provision for impaired assets and restaurant closings in our Consolidated Statements of Operations and Comprehensive Income for the periods indicated (dollars in millions):

	BONEFISH	INTERNATIONAL	INTERNATIONAL	DOMESTIC	
Facility closure and other expenses	\$3.6	\$ (0.5)	\$ 6.4	\$ 1.3

The remaining restaurant impairment and closing charges resulted from: (i) the carrying value of a restaurant's assets exceeding its estimated fair market value, primarily due to locations identified for relocation and closure and (ii) lease

We currently expect to incur additional charges of \$2.5 million to \$4.5 million for the Bonfish Restructuring over the next five years, including costs associated with lease obligations and other closure related obligations.

The decrease in income from operations during the thirteen weeks ended March 27, 2016 as compared to the thirteen weeks ended March 29, 2015 was primarily due to a decrease in operating margin at the restaurant-level and higher General and administrative expense, partially offset by lower impairments and restaurant closing costs.

Loss on defeasance, extinguishment and modification of debt

In connection with the defeasance of our 2012 CMBS loan, we recognized a loss on defeasance, extinguishment and modification of debt of \$26.6 million for the thirteen weeks ended March 27, 2016. See Note 6 - Long-term Debt, Net of the Notes to Consolidated Financial Statements for further information.

SEGMENT PERFORMANCE

We have two reportable segments, U.S. and International, which reflects how we manage our business, review operating performance and allocate resources. The U.S. segment includes all brands operating in the U.S. while brands operating outside the U.S. are included in the International segment. Resources are allocated and performance is assessed by our CEO, whom we have determined to be our CODM. Following is a summary of reporting segments:

SEGMENT	CONCEPT	GEOGRAPHIC LOCATION
U.S.	Outback Steakhouse	United States of America, including Puerto Rico
	Carrabba's Italian Grill	
	Bonefish Grill	
	Fleming's Prime Steakhouse & Wine Bar	
International	Outback Steakhouse (1)	Brazil, South Korea, Hong Kong, China
	Carrabba's Italian Grill (Abbraccio)	Brazil

(1) Includes international franchise locations in 18 countries and Guam.

Revenues for both segments include only transactions with customers and include no intersegment revenues. Excluded from net income from operations for U.S. and International are legal and certain corporate costs not directly related to the performance of the segments, interest and other expenses related to our credit agreements and derivative instruments, certain stock-based compensation expenses and certain bonus expenses.

Prior to 2016, certain insurance expenses were not allocated to our concepts as these expenses were reviewed and evaluated on a Company-wide basis and therefore, these costs were excluded from segment restaurant-level operating margin and income from operations. In 2016, management changed how insurance expenses related to our restaurants are reviewed and now considers those costs when evaluating the operating performance of our concepts. Accordingly, we have recast all prior period segment information to reflect this change.

Restaurant-level operating margin

The decrease in U.S. restaurant-level operating margin in the thirteen weeks ended March 27, 2016 as compared to the thirteen weeks ended March 29, 2015, was primarily due to: (i) higher kitchen and labor costs due to higher wage rates and additional hiring and training, (ii) product mix, (iii) commodity inflation and (iv) higher advertising. The decrease was partially offset by the impact of certain cost savings initiatives and menu price increases.

Income from operations

The decrease in U.S. income from operations generated in the thirteen weeks ended March 27, 2016 as compared to the thirteen weeks ended March 29, 2015 was primarily due to lower restaurant-level operating income, partially offset by lower General and administrative expense.

The decrease in restaurant sales was partially offset by: (i) the opening of 46 new

Restaurant-level operating margin

The decrease in International restaurant-level operating margin in the thirteen weeks ended March 27, 2016 as compared to the thirteen weeks ended March 29, 2015 was primarily due to: (i) higher commodity and labor inflation, (ii) higher marketing, (iii) higher utilities and (iv) the opening of Abbraccio restaurants. The decrease was partially offset by (i) menu price increases, (ii) the impact of certain cost savings initiatives and (iii) higher average unit volumes.

The increase in International income from operations in the thirteen weeks ended March 27, 2016 as compared to the thirteen weeks ended March 29, 2015 was primarily due to a decrease in impairment and restaurant closing costs related to the International Restaurant Closure Initiative, partially offset by lower restaurant-level operating income and higher depreciation and amortization.

Non-GAAP Financial Measures

In addition to the results provided in accordance with U.S. GAAP, we provide non-GAAP measures which present operating results on an adjusted basis. These are supplemental measures of performance that are not required by or presented in accordance with U.S. GAAP and include the following: (i) system-wide sales, (ii) Adjusted restaurant-level operating margins, (iii) Adjusted income from operations and the corresponding margins, (iv) Adjusted net income and (v) Adjusted diluted earnings per share.

Although we believe these non-GAAP measures enhance investors' understanding of our business and performance, these non-GAAP financial measures are not intended to replace accompanying U.S. GAAP financial measures. These metrics are not necessarily comparable to similarly titled measures used by other companies.

System-Wide Sales

System-wide sales is a non-GAAP financial measure that includes sales of all restaurants operating under our brand names, whether we own them or not. Management uses this information to make decisions about future plans for the development of additional restaurants and new concepts, as well as evaluation of current operations. System-wide sales comprise sales of Company-owned and franchised restaurants. Following is a summary of sales of Company-owned restaurants:

Other Non-GAAP Financial Measures

The following information provides a reconciliation of non-GAAP financial measures to the most comparable financial measure calculated and presented in accordance with GAAP. The use of other non-GAAP financial measures permits investors to assess the operating performance of our business relative to our performance based on U.S. GAAP results and relative to other companies within the restaurant industry by isolating the effects of certain items that vary from period to period without correlation to core operating performance or that vary widely among similar companies. However, our inclusion of these adjusted measures should not be construed as an indication that our future results will be unaffected by unusual or infrequent items or that the items for which we have made adjustments are unusual or infrequent. We believe that the disclosure of these non-GAAP measures is useful to investors as they form the basis for how our management team and the Board evaluate our operating performance, allocate resources and establish employee incentive plans.

Liquidity and Capital Resources

LIQUIDITY

Our liquidity sources consist of cash flow from our operations, cash and cash equivalents and credit capacity under our credit facilities. We expect to use cash primarily for general operating expenses, remodeling or relocating older restaurants, the development of new restaurants and new markets, principal and interest payments on our debt, share repurchases and dividend payments, obligations related to our deferred compensation plans and investments in technology.

BLOOMIN' BRANDS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

We believe that our expected liquidity sources are adequate to fund debt service requirements, operating lease obligations, capital expenditures and working capital obligations for at least the next 12 months. However, our ability to continue to meet these requirements and obligations will depend on, among other things, our ability to achieve anticipated levels of revenue and cash flow and our ability to manage costs and working capital successfully.

Cash and Cash Equivalents - As of March 27, 2016, we had \$128.8 million in cash and cash equivalents, of which \$66.5 million was held by foreign affiliates, primarily in Brazil and South Korea, a portion of which would be subject to additional taxes if repatriated to the United States. The international jurisdictions in which we have significant cash do not have any known restrictions that would prohibit the repatriation of cash and cash equivalents.

The aggregate undistributed earnings of our foreign subsidiaries for which no deferred tax liability has been recorded is \$153.9 million as of March 27, 2016. We consider the undistributed earnings related to our foreign affiliates to be permanently reinvested and are expected to continue to be permanently reinvested. However, if we decide to exit a market, initiate a foreign corporate reorganization or identify an exception to our reinvestment policy of undistributed earnings, additional tax liabilities will be recorded. It is not practical to determine the amount of unrecognized deferred income tax liabilities on the undistributed earnings.

Bonefish Restructuring - On February 12, 2016, we decided to close 14 Bonefish restaurants. We expect to substantially complete these restaurant closings through the first quarter of 2019. Total future cash expenditures of \$11.1 million to \$13.4 million, primarily related to lease liabilities, are expected to occur through October 2024.

Capital Expenditures - We estimate that our capital expenditures will total between \$235.0 million and \$255.0 million in 2016. The amount of actual capital expenditures may be affected by general economic, financial, competitive, legislative and regulatory factors, among other things, including restrictions imposed by our borrowing arrangements. We expect to continue to review the level of capital expenditures throughout 2016.

Credit Facilities - Our credit facilities consist of the Senior Secured Credit Facility and the PRP Mortgage Loan. See Note 6 - Long-term Debt, Net of the Notes to Consolidated Financial Statements for further information. Following is a summary of principal payments and debt issuance from December 27, 2015 to March 27, 2016:

(1) Represents the weighted-average interest rate.

Credit Agreement - As of March 27, 2016, we had \$188.2 million in available unused borrowing capacity under our revolving credit facility, net of letters of credit of \$29.3 million.

The Credit Agreement contains mandatory prepayment requirements for Term loan A and Term loan A-1. We are required to prepay outstanding amounts under Term loan A and Term loan A-1 with 50% of our annual excess cash flow, as defined in the Credit Agreement. The amount of outstanding Term loan A and Term loan A-1 required to be prepaid may vary based on our leverage ratio and year end results. Other than the required minimum amortization premiums of \$22.5 million, we do not anticipate any other payments will be required through March 26, 2017.

PRP Mortgage Loan - On February 11, 2016, PRP, as borrower, and Wells Fargo Bank, National Association, as Lender, entered into the PRP Mortgage Loan, pursuant to which PRP borrowed \$300.0 million. The PRP Mortgage Loan has an Initial Maturity date of February 11, 2018 with an option to extend the Initial Maturity for one twelve-month Extension provided that certain conditions are satisfied. The PRP Mortgage Loan is collateralized by certain properties owned by PRP. PRP has also made negative pledges with respect to certain unencumbered properties.

The proceeds of the PRP Mortgage Loan were used, together with borrowings under our revolving credit facility, to prepay a portion, and fully defease the remainder, of the 2012 CMBS loan. In connection with the defeasance, we recognized a loss of \$26.6 million during the thirteen weeks ended March 27, 2016. Following the defeasance of the 2012 CMBS loan, \$19.3 million of restricted cash was released.

The PRP Mortgage Loan bears interest, payable monthly, at a variable rate equal to 250 basis points above the seven-day LIBOR, subject to adjustment in certain circumstances.

The PRP Mortgage Loan permits us to refinance or sell the Collateral Properties and the Unencumbered Properties, subject to certain terms and conditions, including that specified release proceeds are applied against the outstanding loan balance. If the PRP Mortgage Loan balance exceeds \$210.0 million on March 1, 2017 or \$160.0 million on September 1, 2017, PRP's rental income will be required to be applied against the outstanding loan balance.

(1) Subsequent to March 27, 2016, we made a payment of \$87.6 million on our PRP Mortgage Loan, primarily with proceeds from a sale-leaseback transaction.

We intend to fund payment of the PRP Mortgage Loan with proceeds from sale-leaseback transactions of our real estate portfolio.

Debt Covenants - Our Credit Agreement and PRP Mortgage Loan contain various financial and non-financial covenants. A violation of these covenants could negatively impact our liquidity by restricting our ability to borrow under the revolving credit facility and cause an acceleration of the amounts due under the credit facilities. See Note 12 - Long-term Debt, Net in our Annual Report on Form 10-K for the year ended December 27, 2015 for further information.

As of March 27, 2016 and December 27, 2015, we were in compliance with our debt covenants. We believe that we will remain in compliance with our debt covenants during fiscal year 2016.

Cash Flow Hedges of Interest Rate Risk - On September 9, 2014, we entered into variable-to-fixed interest rate swap agreements with eight counterparties to hedge a portion of the cash flows of our variable rate debt. The swap agreements have an aggregate notional amount of \$400.0 million, a start date of June 30, 2015, and mature on May 16, 2019. Under the terms of the swap agreements, we pay a weighted-average fixed rate of 2.02% on the \$400.0 million notional amount and receive payments from the counterparty based on the 30-day LIBOR rate. We estimate \$5.5 million will be reclassified to interest expense over the next twelve months. See Note 9 - Derivative Instruments and Hedging Activities of the Notes to Consolidated Financial Statements for further information.

These increases were partially offset by the timing of accounts payable payments.

Net cash used in financing activities was partially offset by proceeds from the PRP Mortgage loan and drawdowns on our revolving credit facility.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

FINANCIAL CONDITION

Following is a summary of our current assets, current liabilities and working capital:

(dollars in thousands)	MARCH 27, DECEMBER 27,	
	2016	2015
Current assets	\$ 300,676	\$ 418,644
Current liabilities	803,104	814,166
Working capital (deficit)	\$ (502,428)	\$ (395,522)

Working capital (deficit) totaled (\$502.4) million and (\$395.5) million as of March 27, 2016 and December 27, 2015, respectively, and included Unearned revenue from unredeemed gift cards of \$279.6 million and \$382.6 million as of March 27, 2016 and December 27, 2015, respectively. We have, and in the future may continue to have, negative working capital balances (as is common for many restaurant companies). We operate successfully with negative working capital because cash collected on restaurant sales is typically received before payment is due on our current liabilities, and our inventory turnover rates require relatively low investment in inventories. Additionally, ongoing cash flows from restaurant operations and gift card sales are used to service debt obligations and to make capital expenditures.

Deferred Compensation Programs

The deferred compensation obligation due to managing and chef partners was \$126.4 million and \$133.2 million at March 27, 2016 and December 27, 2015, respectively. We invest in various corporate-owned life insurance policies, which are held within an irrevocable grantor or "rabbi" trust account for settlement of our obligations under the deferred compensation plans. The rabbi trust is funded through our voluntary contributions. The unfunded obligation for managing and chef partners' deferred compensation was \$66.5 million at March 27, 2016.

We use capital to fund the deferred compensation plans and currently expect annual cash funding of \$18.0 million to \$22.0 million. Actual funding of the deferred compensation obligations and future funding requirements may vary significantly depending on the actual performance compared to targets, timing of deferred payments of partner contracts, forfeiture rates, number of partner participants, growth of partner investments and our funding strategy.

DIVIDENDS AND SHARE REPURCHASES

In August 2015, our Board approved the 2015 Share Repurchase Program under which we were authorized to repurchase up to \$100.0 million of our outstanding common stock. Our Board canceled the remaining \$30.0 million of authorization under the 2015 Share Repurchase Program and approved a new \$250.0 million authorization on February 12, 2016. The 2016 Share Repurchase Program will expire on August 12, 2017. As of March 27, 2016, \$75.0 million of shares has been repurchased under the 2016 Share Repurchase Program.

The following table presents our dividends and share repurchases from December 27, 2014 through March 27, 2016:
