ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2015

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission File Number: 001-37530

Amplify Snack Brands, Inc.
(Exact Name of Registrant as Specified in its Charter)

Delaware
(State or other jurisdiction
of incorporation or organization)

47-1254894
(I.R.S. Employer
Identification No.)

500 West 5th Street, Suite 1350
Austin, Texas 78701
(Address of principal executive offices)
512.600.9893
(Registrant's Telephone number, including area code)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.
Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).
Yes No

Edgar Filing: Amplify Snack Brands, INC - Form 10-K

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The aggregate market value of the voting and non-voting common equity held by non-affiliates of the Registrant, based on the closing price of the shares of common stock on August 5, 2015 as reported by the New York Stock Exchange on such date was approximately \$300.0 million. The Registrant has elected to use August 5, 2015, which was the initial trading date on the New York Stock Exchange, as the calculation date because on June 30, 2015 (the last business day of the Registrant's most recently completed second fiscal quarter), the Registrant was a privately held company. Shares of the Registrant's common stock held by each executive officer, director and holder of 5% or more of the outstanding common stock have been excluded in that such persons may be deemed to be affiliates. This calculation does not reflect a determination that certain persons are affiliates of the Registrant for any other purpose.

As of March 22, 2016, there were 74,843,470 outstanding shares of the Company's common stock, par value \$0.0001 per share.

DOCUMENTS INCORPORATED BY REFERENCE

Part III of this report incorporates information by reference from the definitive Proxy Statement to be filed within 120 days after the end of the Registrant's fiscal year ended December 31, 2015.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, which statements involve substantial risks and uncertainties. Forward-looking statements generally relate to future events or our future financial or operating performance. In some cases, you can identify forward-looking statements because they contain words such as “may,” “will,” “should,” “expects,” “plans,” “anticipate,” “could,” “intends,” “target,” “projects,” “contemplates,” “believes,” “estimates,” “predicts,” “potential” or “continue” or the use of these words or other similar terms or expressions that concern our expectations, strategy, plans or intentions. Forward-looking statements contained in this Annual Report on Form 10-K include, but are not limited to, statements about:

- our future financial performance, including our net sales, cost of goods sold, gross profit or gross profit margin, operating expenses, ability to generate positive cash flow and ability to achieve and maintain profitability;
- our ability to maintain, protect and enhance our brands;
- our ability to attract and retain customers;
- the sufficiency of our cash and cash equivalents to meet our liquidity needs and service our indebtedness;
- our ability to produce sufficient quantities of our products to meet demands;
- demand fluctuations for our products;
- our ability to successfully innovate and compete in the food industry;
- changing trends, preferences and tastes in the food industry;
- our ability to successfully expand in our existing markets and into new U.S. and international markets;
- worldwide economic conditions and their impact on consumer spending;
- our expectations concerning relationships with third parties;
- our ability to effectively manage our growth and future expenses;
- future acquisitions of or investments in complementary companies or products;
- changes in regulatory requirements in our industry and our ability to comply with those requirements; and
- the attraction and retention of qualified employees and key personnel

We caution you that the foregoing list may not contain all of the forward-looking statements made in this Annual Report on Form 10-K.

You should not rely upon forward-looking statements as predictions of future events. We have based the forward-looking statements contained in this Annual Report on Form 10-K primarily on our current expectations and projections about future events and trends that we believe may affect our business, financial condition, results of operations and prospects. The outcome of the events described in these forward-looking statements is subject to risks, uncertainties and other factors described in “Risk Factors” and elsewhere in this Annual Report on Form 10-K. Moreover, we operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible for us to predict all risks and uncertainties that could have an impact on the forward-looking statements contained in this Annual Report on Form 10-K. We cannot assure you that the results, events and circumstances reflected in the forward-looking statements will be achieved or occur, and actual results, events, or circumstances could differ materially from those described in the forward-looking statements.

The forward-looking statements made in this Annual Report on Form 10-K relate only to events as of the date on which the statements are made. We undertake no obligation to update any forward-looking statements made in this Annual Report on Form 10-K to reflect events or circumstances after the date of this Annual Report on Form 10-K or to reflect new information or the occurrence of unanticipated events, except as required by law. We may not actually achieve the plans, intentions, or expectations disclosed in our forward-looking statements and you should not place

undue reliance on our forward-looking statements. Our forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures or investments we may make.

Table of Contents

PART I

Item 1. Business

Our Company

Amplify Snack Brands, Inc., a Delaware corporation, and its wholly-owned subsidiaries (collectively, the "Company", "we", "us" and "our") is a high growth, snack food company focused on developing and marketing products that appeal to consumers' growing preference for Better-For-You ("BFY") snacks. Our BFY-focused snacking platform consists of two brands: SkinnyPop and Paqui. Our anchor brand, SkinnyPop is a rapidly growing, highly profitable and market leading BFY ready-to-eat ("RTE"), popcorn brand. Through its simple, major allergen-free and non-GMO ingredients, SkinnyPop embodies our BFY mission and has amassed a loyal and growing customer base across a wide range of food distribution channels in the United States. In April 2015, we acquired Paqui LLC ("Paqui"), an emerging BFY tortilla chip brand that has many of the same key taste and BFY attributes as SkinnyPop. Paqui allows us to leverage our infrastructure to help us grow into an adjacent snacking sub-segment with a second innovative BFY brand. We believe that our focus on building a portfolio of exclusively BFY snack brands differentiates us and will allow us to leverage our platform to realize material synergies across our family of BFY brands, as well as allow our retail customers to consolidate their vendor relationships in this large and growing category.

Corporate History

On July 17, 2014, SkinnyPop Popcorn LLC was acquired by investment funds affiliated with TA Associates, L.P., a leading growth private equity firm ("TA Associates"). This transaction is hereinafter referred to as the "Sponsor Acquisition". The business of SkinnyPop Popcorn LLC prior to the Sponsor Acquisition is hereinafter referred to as the "Predecessor". The business of the Company and its consolidated subsidiaries, including SkinnyPop Popcorn LLC, following the Sponsor Acquisition is hereinafter referred to as the "Successor".

In April 2015, we acquired Paqui, a BFY tortilla chip brand for approximately \$11.9 million. We may be required to pay additional earn-out consideration in 2019, which is contingent upon the achievement of a defined contribution margin during 2018. Refer to Note 3 in the accompanying Notes to Consolidated Financial Statements contained in Item 8, for additional details regarding this transaction.

On August 4, 2015, we completed our initial public offering ("IPO") in which 15,000,000 common shares from the 75,000,000 common shares then issued, were sold by selling stockholders to the public at a price of \$18.00 per share. We did not receive any proceeds from the sale of shares in this offering. Refer to Note 1 in the accompanying Notes to Consolidated Financial Statements contained in Item 8, for additional details regarding our IPO.

Industry Overview

Our brands compete in the salty snack segment, which includes products such as potato chips, tortilla chips, popcorn, cheese snacks and pretzels. In the United States, BFY brands within the salty snack segment have recently experienced a higher rate of growth relative to the overall salty snack segment. Growth in BFY snacks is driven by various factors, including the increasing importance of snacking in many consumers' diets, heightened awareness of the importance of a healthier diet, coupled with increased understanding and focus on the importance of nutrition to long-term health and wellness. Consumers are increasingly aware of their snacking choices, are demanding great tasting BFY products that can meet specific dietary requirements and are focusing on products with simple and more easily understandable ingredients.

Products

Our products are comprised of our cornerstone brand, SkinnyPop, and our recently acquired brand, Paqui.

The SkinnyPop brand was created in 2010 and is one of the leading brands in the growing RTE popcorn category. SkinnyPop is cooked with three core ingredients: popcorn, sunflower oil and salt. The SkinnyPop portfolio is currently comprised of seven flavors: Original, White Cheddar flavor, Black Pepper and Sea Salt, Naturally Sweet, Dusted Dark Chocolate flavor, Jalapeño and Hatch Chile, a seasonal offering. We offer our products in a variety of bag sizes and pack types which are sold across all channels. While the ingredients are simple, we have developed a unique combination of proprietary cooking process and carefully selected premium ingredients to achieve a desirable taste

Table of Contents

profile. Additionally, our SkinnyPop products are major allergen-free, non-GMO, gluten-free, and artificial preservative-free, making them a tasty BFY snack.

The Paqui brand was created in 2007 and acquired by us in 2015. Paqui, which is derived from the Aztec word that means “to be happy”, produces tortilla chips that taste great but are also non-GMO, gluten-free, trans fats-free, cholesterol-free and contain no MSG or artificial flavors. Paqui currently offers six core flavors: Sea Salt Delights, Nacho Cheese Especial, Roasted Jalapeño, Grilled Habanero, Very Verde Good and Haunted Ghost Pepper. Paqui provides our entry point into the \$4.7 billion tortilla chip sub-market, where we believe no clear BFY market leader has emerged.

Product Innovation

Given that we compete in the global snack category, innovation is, and will continue to be, an important component of our growth strategy moving forward. Our innovation strategy is based on our ongoing research into consumers’ BFY snacking needs. We will continue to conduct extensive consumer research in order to develop successful new products including product flavor and concept testing, marketing and trend analyses and consumer prototype testing. As part of our innovation process we collaborate with nationally recognized third-party flavor houses and product development firms for new product development and then conduct our own proprietary consumer research to identify and improve upon winning new product concepts.

Customers and Distribution

We market our products predominantly throughout the United States to a variety of channels including natural and conventional grocery, drug, convenience, club, mass merchandise and a variety of alternative channels. Our net sales breakdown by channel for the year ended December 31, 2015 was comparable to the year ended December 31, 2014.

Our largest customer, Costco Wholesale, accounted for approximately 31% and 35% of our net sales for the year ended December 31, 2015 and 2014, respectively. A second customer, Sam’s Club, an affiliate of Wal-Mart Stores, Inc., accounted for 18% and 21% of our net sales for the year ended December 31, 2015 and 2014, respectively. No other customer accounted for more than 10% of net sales during the years ended December 31, 2015 and 2014.

We sell our products directly to retailers and to distributors.

Direct Sales: We rely largely on our direct sales force in combination with traditional sales brokerage firms to sell to and service our customers directly.

Distributor: The majority of our natural grocery retailers, some regional conventional grocery retailers and the majority of our alternative channels are serviced through independent food distributors that purchase products from us for resale to retailers.

Marketing and Advertising

Our marketing organization is aligned by brand and is responsible for driving each brand’s growth through strategic planning. As we continue to build out our brands, we aim to create impactful marketing communication and activation to drive awareness, trial and repeat purchases and cement brand loyalty. We believe we have significant opportunity to grow our business by increasing communications about our brand and product attributes to a wider audience of consumers.

Supply Chain

Raw Materials: The principal ingredients to manufacture our products include popcorn kernels, white corn, sunflower oil, canola oil and seasonings. Our packaging supplies consists of flexible film, cartons, trays and pouches. All of our raw materials are purchased according to rigorous standards to assure food quality and safety. These raw materials are generally available in adequate quantities from numerous sources and are often contracted out three to twelve months. We visit with major suppliers to procure competitively priced, quality materials that meet our standards.

Manufacturing: We rely on independent manufacturers, referred to as co-manufacturers in our industry, to manufacture our products. Outsourcing allows us to operate an asset-light business model and focus our efforts on innovation, marketing and sales. Our co-manufacturers are regularly audited by third parties and are required to follow rigorous

Table of Contents

food safety guidelines. We believe our co-manufacturers have the capacity to meet our current and near-term supply needs. We monitor capacity and performance of our manufacturing partners and will qualify alternate suppliers as needed. We have two different arrangements with our co-manufacturers. For the majority of our business, we supply the raw materials and the co-manufacturer is paid an agreed-upon tolling charge for each item produced. Other co-manufacturers supply items to us for a negotiated price.

Quality Control: Our products are manufactured in facilities that have programs and controls in place regarding consistent quality and food safety. Product attributes, such as taste, aroma, texture and appearance are regularly monitored. Good Manufacturing Practices ("GMP") and comprehensive Food Safety programs are designed to produce a safe, wholesome product. Our suppliers are required to have equally robust processes in place and confirm their compliance with product specifications with Letters of Guaranty and Certificates of Analysis for shipments of raw materials to be used in our Products. Finally, random samples of our finished goods are sent regularly to a third-party laboratory for testing.

Competition

We operate in a highly competitive environment and face competition in each of our product categories. We have numerous competitors of varying sizes, including manufacturers of private-label products, as well as manufacturers of other branded food products, that compete for trade merchandising support and consumer dollars. We compete with large conventional consumer packaged foods companies such as Frito Lay, Inc., a subsidiary of PepsiCo, Inc., The Kellogg Company, ConAgra Foods, Inc., General Mills, Inc. and Snyder's-Lance, Inc. We also compete directly with smaller, local or regional BFY snack companies including Popcorn Indiana and Angie's as well as private-label products manufactured by retailers, some of which are our customers. An increasing focus on BFY products in the marketplace will likely increase these competitive pressures within the category in future periods.

Competitive factors in our industry include product quality and taste, brand awareness and loyalty among consumers, product variety, ingredients, interesting or unique product names, innovation of on-trend snacks, product packaging, access to supermarket shelf space, reputation, price, advertising, promotion and nutritional claims. We believe that we currently compete effectively with respect to each of these factors.

Employees

As of December 31, 2015, we had 45 employees, 24 of whom are located in our Austin, Texas headquarters, six of whom are in our customer service center in Chicago and 15 of whom are sales personnel throughout the country who work remotely. We are continuing to build our workforce with experienced individuals in order to serve our operations. None of our employees is represented by a labor union with respect to his or her employment with us. We believe our relationship with our employees is satisfactory.

Trademarks and Other Intellectual Property

We believe that our intellectual property has substantial value and has contributed significantly to the success of our business. Our primary trademarks include "SKINNYPOP", "SKINNYPACK", "THE BIG SKINNY" and "DON'T WORRY BE PAQUI", all of which are registered with the U.S. Patent and Trademark Office. Our trademarks are valuable assets that reinforce the distinctiveness of our brand and our consumers' favorable perception of our products and brands. Certain of our marks are also pending registration in Canada. Our web content and the domain name, www.amplifysnackbrands.com, are owned by us and the content is copyright protected. We also rely on unpatented proprietary expertise, recipes and formulations, continuing innovation and other trade secrets to develop and maintain our competitive position.

Table of Contents

Government Regulation

Along with our co-manufacturers, brokers, distributors and ingredients and packaging suppliers, we are subject to extensive laws and regulations in the United States by federal, state and local government authorities. In the United States, the federal agencies governing the manufacture, distribution and advertising of our products include, among others, the FTC, the FDA, the USDA, the U.S. Environmental Protection Agency and the Occupational Safety and Health Administration and similar state and local agencies. Under various statutes, these agencies, among other things, prescribe the requirements and establish the standards for quality and safety and regulate our marketing and advertising to consumers. Certain of these agencies, in certain circumstances, must not only approve our products, but also review the manufacturing processes and facilities used to produce these products before they can be marketed in the United States. We are also subject to the laws of Canada, including the Canadian Food Inspection Agency, as well as provincial and local regulations.

We are subject to labor and employment laws, laws governing advertising, privacy laws, safety regulations and other laws, including consumer protection regulations that regulate retailers or govern the promotion and sale of merchandise. Our operations, and those of our contract co-manufacturers, distributors and suppliers, also are subject to various laws and regulations relating to environmental protection and worker health and safety matters. We monitor changes in these laws and believe that we are in material compliance with applicable laws.

Geographic Information

Refer to Note 14 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 for a description of our net sales and long-lived assets by geographic area.

Additional Information

Our website is located at <http://www.amplifysnackbrands.com>, and our investor relations website is located at <http://investors.amplifysnackbrands.com/>. Copies of our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and amendments to these reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, are available, free of charge, on our investor relations website as soon as reasonably practicable after we file such material electronically with or furnish it to the Securities and Exchange Commission, or the SEC. The SEC also maintains a website that contains our SEC filings. The address of the site is <http://www.sec.gov>. Further, a copy of this Annual Report on Form 10-K is located at the SEC's Public Reference Room at 100 F Street, NE, Washington, D.C. 20549. Information on the operation of the Public Reference Room can be obtained by calling the SEC at 1-800-SEC-0330.

We webcast our earnings calls and certain events we participate in or host with members of the investment community on our investor relations website. Additionally, we provide notifications of news or announcements regarding our financial performance, including SEC filings, investor events, press and earnings releases, and blogs as part of our investor relations website. Amplify has used, and intends to continue to use, our investor relations website as means of disclosing material non-public information and for complying with its disclosure obligations under Regulation FD. Further corporate governance information, including our certificate of incorporation, bylaws, governance guidelines, board committee charters, and code of business conduct and ethics, is also available on our investor relations website under the heading "Corporate Governance." The contents of our websites are not intended to be incorporated by reference into this Annual Report on Form 10-K or in any other report or document we file with the SEC, and any references to our websites are intended to be inactive textual references only.

Item 1A. Risk Factors

Certain factors may have a material adverse effect on our business, financial condition and results of operations. You should carefully consider the risks and uncertainties described below, together with all of the other information in this Annual Report on Form 10-K, including our consolidated financial statements and related notes. Any of the following risks could materially and adversely affect our business, operating results, financial condition, or prospects and cause the value of our common stock to decline, which could cause investors to lose all or part of their investment.

Table of Contents

Risks Related to Our Business

Risks Related to Our Products

We rely on sales to a limited number of distributors and retailers for the substantial majority of our net sales, and the loss of one or more such distributors or retailers may harm our business.

A substantial majority of our sales are generated from a limited number of distributors and retailers, which we refer to as customers. For the year ended December 31, 2015, sales to our two largest customers, Costco and Sam's Club, represented approximately 31% and 18% of our net sales, respectively. In addition, these two customers accounted for approximately 28% of our accounts receivable as of December 31, 2015. Although the composition of our significant customers may vary from period to period, we expect that most of our net sales and accounts receivable will continue to come from a relatively small number of customers for the foreseeable future. We do not have commitments or minimum volumes that ensure future sales of our products to any of our customers. Consequently, our financial results may fluctuate significantly from period to period based on the actions of one or more significant customers. A customer may take actions that affect us for reasons that we cannot always anticipate or control, such as their financial condition, changes in their business strategy or operations, the introduction of competing products or the perceived quality of our products. In addition, despite operating in different channels, our retailers sometimes compete for the same consumers. As a result of actual or perceived conflicts resulting from this competition, customers may take actions that negatively affect us. The loss of, or a reduction in sales or anticipated sales to, one or more of our most significant distributors or retailers may have a material adverse effect on our business, results of operation and financial condition.

Further, through our brand SkinnyPop, we have relatively new relationships with some of the largest U.S. retail chains such as Walmart, Target and CVS Pharmacy, and these customers may find, as they gain more experience selling our products, that their respective abilities to sell SkinnyPop products does not meet their expectations or they may not continue to place orders for our products.

Sales of a limited number of SkinnyPop products and flavors contributed almost all of our historical profitability and cash flow. A reduction in the sale of our SkinnyPop products would have a material adverse effect on our ability to remain profitable and achieve future growth.

Almost all of our net sales for the year ended December 31, 2015 resulted from sales of our SkinnyPop products. The majority of our SkinnyPop branded net sales came from a variety of stock-keeping-units, or SKUs, under our Original flavor. Most of our secondary flavors, White Cheddar Flavor, Naturally Sweet, Black Pepper and a rotational Hatch Chile flavored SKU, were first introduced in late 2013 or 2014, and Dusted Dark Chocolate and Jalapeño, were introduced in late 2015, represent a relatively small portion of our sales. We cannot be certain that we will be able to continue to commercialize or expand distribution of our existing flavors of popcorn products or that any of our future food products and flavors will be accepted in their markets. Any inability on our part to stay current with food and consumer trends through new products could have a material adverse effect on our business performance. Because sales of our SkinnyPop products make up all of our historical profitability and cash flows, reductions in sales of these products will have an adverse effect on our profitability and ability to generate cash to fund our product development, research and development efforts or potential acquisitions.

The following factors, among others, could affect continued market acceptance and profitability of SkinnyPop products:

• the introduction of competitive products;

• changes in consumer preferences among RTE popcorn and other snack food products;

- changes in consumer eating and snacking habits, including trends away from certain categories, including major allergen-free, gluten-free and non-GMO products;

- changes in awareness of the social effects of farming and food production;
- changes in consumer perception about trendy snack products;
- changes in consumer perception regarding the healthfulness or BFY nature of our products;
- the level and effectiveness of our sales and marketing efforts;
- any unfavorable publicity regarding RTE popcorn products or similar products;
- any unfavorable publicity regarding the SkinnyPop brand;

Table of Contents

litigation or threats of litigation with respect to our products;
the price of our products relative to other competing products;
price increases resulting from rising commodity costs;
any changes in government policies and practices related to our products, labeling and markets;
regulatory developments affecting the manufacturing, labeling, marketing or use of our products;
new science or research that disputes the healthfulness of our products; and
adverse decisions or rulings limiting our ability to promote the benefits of popcorn products.

Adverse developments with respect to the sale of SkinnyPop products would significantly reduce our net sales and profitability and have a material adverse effect on our ability to maintain profitability and achieve our business plan.

We currently depend primarily on one third-party co-manufacturer with one location to manufacture the substantial majority of our SkinnyPop products. The loss of this co-manufacturer or the inability of this co-manufacturer to fulfill our orders would adversely affect our ability to make timely deliveries of our product and would have a material adverse effect on our business.

Currently, the substantial majority of our SkinnyPop products are produced by one third-party co-manufacturer, which maintains only one facility for all of its customers. Our agreement with our primary third-party co-manufacturer provides that we will order a minimum amount of products each year during the agreement's term. If we do not meet the minimum order amount, we must pay a penalty fee if such third-party co-manufacturer is no longer our exclusive manufacturer. The agreement may be terminated by us upon written notice and the payment of a termination fee. There can be no assurance that the third-party co-manufacturer's capacity will be sufficient to fulfill our orders, and while we recently added an additional co-manufacturer, any supply shortfall could materially and adversely affect our business, results of operations and financial condition.

Additionally, we face the risk of disruption to our production and sales processes if our primary third-party co-manufacturer is unable or unwilling to produce sufficient quantities of our products in a timely manner or renew contracts with us or suffers a natural disaster, fire, power interruption, work stoppage or other unanticipated catastrophic event. In addition, we are responsible for any increase in either of our third-party co-manufacturers' costs and may not be able to pass these costs on to our customers. In order to continue manufacturing our products in the event of a disruption to our production and sales processes, we would have to increase our reliance on our other third-party co-manufacturer or identify and qualify new manufacturers, including obtaining third party certifications for claims, which we may be unable to do in a timely manner, if at all.

From time to time, we need to seek new manufacturers or enter into new arrangements with our existing manufacturers. However, only a limited number of manufacturers may have the ability to produce our products at the volumes we need, and it could take a significant period of time to locate and qualify such alternative production sources. Moreover, it may be difficult or expensive to find manufacturers to produce small volumes of our new products. Manufacturers may impose minimum order requirements and any failure on our part to meet these requirements could increase our costs. There can also be no assurance that we would be able to identify and qualify new manufacturers in a timely manner or that such manufacturers could allocate sufficient capacity in order to meet our requirements, which could materially adversely affect our ability to make timely deliveries of product. In addition, we may be unable to negotiate pricing or other terms with our existing or new manufacturers as favorable as what we currently enjoy. Furthermore, there is no guarantee a new third-party manufacturing partner could accurately replicate the production process and taste profile of our existing products.

Given our primary third-party co-manufacturer operates from a single site, shipments to and from the warehouses where our products are stored could be delayed for a variety of reasons, including weather conditions, strikes and shipping delays. Any significant delay in the shipments of product would have a material adverse effect on our

business, results of operations and financial condition and could cause our sales and profitability to fluctuate during a particular period or periods.

Table of Contents

We rely, in part, on our third-party co-manufacturers to maintain the quality of our products. The failure or inability of these co-manufacturers to comply with the specifications and requirements of our products could result in product recall and could adversely affect our reputation.

Our third-party co-manufacturers are required to maintain the quality of our products and to comply with our product specifications and requirements for certain certifications. Our third-party co-manufacturer are also required to comply with all federal, state and local laws with respect to food safety. Additionally, certain retail customers, such as Costco, require our third-party co-manufacturers to maintain minimum independent certifications, such as SQF Level 2 Certification or Hazard Analysis and Critical Control Points ("HACCP"), certification. However, our third-party co-manufacturers may not continue to produce products that are consistent with our standards or that are in compliance with required certification programs or applicable laws, and we cannot guarantee that we will be able to identify instances in which our third-party co-manufacturers fail to comply with such programs or laws. Any such failure, particularly if it is not identified by us, could harm our brand and reputation as well as our customer relationships. We would have these same issues with any new co-manufacturer, and they may be exacerbated due to the newness of the relationship. The failure of any manufacturer to produce products that conform to our standards could materially and adversely affect our reputation in the marketplace and result in product recalls, product liability claims and severe economic loss.

We do not have any contracts with our customers that require the purchase of a minimum amount of our products. The absence of such contracts could result in periods during which we must continue to pay costs and service indebtedness with reduced sales.

Our customers do not provide us with firm, long-term or short-term volume purchase commitments. As a result of the absence of such contracts, we could have periods during which we have no or limited orders for our products, but we will continue to have to pay our costs, including those to maintain our work force and service our indebtedness with reduced sales. We cannot assure you that we will be able to timely find new customers to supplement periods where we experience no or limited purchase orders or that we can recover fixed costs as a result of experiencing reduced purchase orders. Periods of no or limited purchase orders for our products could have a material adverse effect on our net income, cause us to incur losses or result in violations of the covenants contained in our Credit Facility.

Conversely, we may experience unanticipated increased orders for our products from these customers that can create supply chain problems and may result in orders we may be unable to meet. Unanticipated fluctuations in product requirements by our customers could result in fluctuations in our results from quarter to quarter.

Because we rely on a limited number of raw materials to create our products and a limited number of third-party suppliers to supply our raw materials, we may not be able to obtain raw materials on a timely basis, at cost effective pricing or in sufficient quantities to produce our products.

The principal ingredients to manufacture our products include popcorn kernels, white corn, sunflower oil, canola oil and seasonings. There may be a limited market supply of any of our core ingredients, including in particular the specific popcorn kernel we use. In addition to the market limitations of the raw materials used to make our products, we rely on a limited number of third-party suppliers to supply us with such raw materials. Although we have multiple suppliers for our popcorn seasoning, we have two suppliers for the sunflower oil and two key suppliers for the popcorn kernels used in our products. As of December 31, 2015, one vendor accounted for approximately 36% of our accounts payable. Any ordering error on our part or disruption in the supply of sunflower oil, popcorn kernels in general, or our specific type of popcorn kernel, could have a material adverse effect on our business, particularly our profitability and our margins. Our financial performance depends in large part on our ability to arrange for the purchase of raw materials in sufficient quantities at competitive prices. We are not assured of continued supply, pricing or exclusive access to raw materials from these sources. Any of our suppliers could discontinue or seek to alter

their relationships with us. Additionally, we may be adversely affected if there are increases in demand for the specific raw materials we use in our products, there is a reduction in overall supply of our required raw materials or our suppliers raise their prices, stop selling to us or our third-party manufacturer or enter into arrangements that impair their abilities to provide us or our third-party manufacturer with raw materials.

Events that adversely affect our suppliers could impair our ability to obtain raw material inventory in the quantities that we desire. Such events include problems with our suppliers' businesses, finances, labor relations, ability to import raw materials, costs, production, insurance, reputation and weather conditions during growing, harvesting or shipping, including flood, drought, frost and earthquakes, as well as natural or man-made disasters or other catastrophic occurrences.

Table of Contents

If we experience significant increased demand for our products, or need to replace an existing supplier, there can be no assurance that additional supplies of raw materials will be available when required on acceptable terms, or at all, or that any supplier would allocate sufficient capacity to us in order to meet our requirements, fill our orders in a timely manner or meet our strict quality standards. Even if our existing suppliers are able to expand their capacities to meet our needs or we are able to find new sources of raw materials, we may encounter delays in production, inconsistencies in quality and added costs. We are not able to pass increased costs onto the customer immediately, if at all, which may decrease or eliminate our profitability in any period. Any delays or interruption in, or increased costs of, our supply of raw materials could have an adverse effect on our ability to meet consumer demand for our products and result in lower net sales and profitability both in the short and long term.

As a food production company, all of our products must be compliant with regulations by the Food and Drug Administration, or FDA, and in addition a number of our products rely on independent certification that they are non-GMO, gluten-free or Kosher. Any non-compliance with the FDA or the loss of any such certification could harm our business.

We must comply with various FDA rules and regulations, including those regarding product manufacturing, food safety, required testing and appropriate labeling of our products. It is possible that regulations by the FDA and its interpretation thereof may change over time. As such, there is a risk that our products could become non-compliant with the FDA's regulations and any such non-compliance could harm our business. In addition, we rely on independent certification of our non-GMO, gluten-free and Kosher products and must comply with the requirements of independent organizations or certification authorities in order to label our products as such. Currently, the FDA does not directly regulate the labeling of Kosher or non-GMO products as such. The FDA has defined the term "gluten-free" and we must comply with the FDA's definition if we include this label on our products. Our products could lose their non-GMO and gluten-free certifications if our raw material suppliers lose their product certifications for those specified claims. We could also lose our Kosher product certification if a contract manufacturing plant is found to be in violation of required manufacturing or cleaning processes. The loss of any of these independent certifications, including for reasons outside of our control, could harm our business.

We must expend resources to create consumer awareness, build brand loyalty and generate interest in our products. In addition, competitors may offer significant price reductions, and we cannot ensure that consumers will find our products suitably differentiated from products of our competitors.

Our ability to develop, market and sell new and existing products at an appropriate price may be hampered by unfavorable terms of sale imposed by our customers, the inability to obtain shelf space or preferable shelf placement for our products at a reasonable cost or, once placed, the failure to have an attractive price set for our products. Competitors, many of whom have greater resources than us, vie for the same shelf placement and may offer incentives to the retailers that we cannot match. In addition, unattractive shelf placement and pricing may put us at a disadvantage to our competitors.

Even if we do obtain shelf space or preferable shelf placement, our new and existing products may fail to achieve the sales expectations set by our retailers, potentially causing these retailers to remove our products from the shelf. Additionally, an increase in the number and quality of private-label products in the product categories in which we compete could create more pressure for shelf space and placement for branded products within each such category, which could adversely affect our sales.

To obtain and keep shelf placement for our products, we may need to increase our marketing and advertising spending in order to create consumer awareness, protect and grow our existing market share or to promote new products, which could impact our operating results. In addition, we consistently evaluate our product lines to determine whether or not to discontinue certain products. Discontinuing product lines may increase our profitability but could reduce our sales and hurt our brand, and a reduction in sales of certain products could result in a reduction in sales of other products.

We cannot assure you that the discontinuation of product lines will not have an adverse effect on our business.

Ingredient and packaging costs are volatile and may rise significantly, which may negatively impact the profitability of our business.

We purchase large quantities of raw materials, including ingredients such as popcorn kernels, white corn, sunflower oil, canola oil, seasonings and salt. In addition, we purchase and use significant quantities of film and corrugate to package our products. In recent periods, the prices of yellow corn (which impacts the price of popcorn kernels), white corn, canola oil, sunflower oil and fuel have been priced below their respective historical five-year averages and we

Table of Contents

have realized some benefits from these low prices in the form of reduced cost of goods sold and resulting higher gross profit margins. Costs of ingredients and packaging are volatile and can fluctuate due to conditions that are difficult to predict, including global competition for resources, weather conditions, natural or man-made disasters, consumer demand and changes in governmental trade and agricultural programs. In particular, the availability, quality and cost of our specific type of popcorn kernels and sunflower oil are subject to risks inherent to farming, such as crop size, quality and yield fluctuations caused by poor weather and growing conditions, pest and disease problems and other factors beyond our control. Continued volatility in the prices of raw materials and other supplies we purchase could increase our cost of goods sold and reduce our profitability.

We currently secure raw materials capacity and pricing for up to three years forward on certain raw materials and not more than a year forward on other raw materials. We do not hedge pricing or availability of any raw materials. As such, any material upward movement in raw materials pricing could negatively impact our margins, if we are not able to pass these costs on to our customers, or sales if we are forced to increase our prices. Additionally, should raw materials prices move meaningfully lower, there is no guarantee our customers will not ask us to pass some or all of our savings on to them in the form of price reductions. If we are not successful in managing our ingredient and packaging costs, if we are unable to increase our prices to cover increased costs or if such price increases reduce our sales volumes, then such increases in costs will adversely affect our business, results of operations and financial condition.

Certain of our raw material contracts have minimum purchase commitments that could require us to continue to purchase raw materials even if our sales have declined. Future raw material prices may be impacted by new laws or regulations, suppliers' allocations to other purchasers, interruptions in production by suppliers, natural disasters, volatility in the price of crude oil and related petrochemical products and changes in exchange rates.

Our future business, results of operations and financial condition may be adversely affected by reduced availability of our core ingredients.

Our ability to ensure a continuing supply of our core ingredients at competitive prices depends on many factors beyond our control, such as the number and size of farms that grow crops, the vagaries of these farming businesses (including poor harvests), changes in national and world economic conditions and our ability to forecast our ingredient requirements. The popcorn kernels and other ingredients used in our products are vulnerable to adverse weather conditions and natural disasters, such as floods, droughts, frosts, earthquakes, hurricanes and pestilences. Adverse weather conditions and natural disasters can lower crop yields and reduce crop size and quality, which in turn could reduce the available supply of our core ingredients. In addition, we compete with other food producers in the procurement of ingredients, such as sunflower oil, which are often less plentiful in the open market than conventional ingredients. If supplies of our core ingredients are reduced or there is greater demand for such ingredients from us and others, we may not be able to obtain sufficient supply on favorable terms, or at all, which could impact our ability to supply products to distributors and retailers and may adversely affect our business, results of operations and financial condition.

Failure by our transportation providers to deliver our products on time or at all could result in lost sales.

We currently rely on third-party transportation providers for a significant portion of our product shipments. Our utilization of delivery services for shipments is subject to risks, including increases in fuel prices, which would increase our shipping costs, and employee strikes and inclement weather, which may impact the ability of providers to provide delivery services that adequately meet our shipping needs. We may, from time to time, change third-party transportation providers, and we could therefore face logistical difficulties that could adversely affect deliveries. In addition, we could incur costs and expend resources in connection with such change. Moreover, we may not be able to obtain terms as favorable as those we receive from the third-party transportation providers that we currently use,

which in turn would increase our costs and thereby adversely affect our operating results.

Severe weather conditions and natural disasters such as fires, floods, droughts, hurricanes, earthquakes and tornadoes can affect crop supplies, manufacturing facilities and distribution activities, and negatively impact the operating results of our business.

Severe weather conditions and natural disasters, such as fires, floods, droughts, frosts, hurricanes, earthquakes, tornadoes, insect infestations and plant disease, may affect the supply of raw materials on which we depend to make food products, or may curtail or prevent the manufacturing or distribution of food products by us. Competing manufacturers might be affected differently by weather conditions and natural disasters, depending on the location of their sources of supplies and manufacturing or distribution facilities. If supplies of raw materials available to us are

Table of Contents

reduced, we may not be able to find enough supplemental supply sources on favorable terms, which could adversely affect our business and operating results.

Risks Related to Our Brands

Changes in consumer preferences and discretionary spending may have a material adverse effect on our brand loyalty, net sales, results of operations and financial condition.

We compete in a market that relies on innovation and evolving consumer preferences. We focus on products that are or are perceived to be BFY, an industry term not defined by the Food and Drug Administration. However, the food processing industry in general, and the snacking and dietary-need specific industries (including the Kosher, major allergen-free and gluten-free industries) in particular, are subject to changing consumer trends, demands and preferences. Therefore, products once considered BFY may over time become disfavored by consumers or no longer perceived as BFY. Trends within the food industry change often and our failure to anticipate, identify or react to changes in these trends could, among other things, lead to reduced demand and price reductions, and could have a material adverse effect on our business, results of operations and financial condition. Factors that may affect consumer perception of BFY products include dietary trends and attention to different nutritional aspects of foods, concerns regarding the health effects of specific ingredients and nutrients, trends away from gluten-free or non-GMO products, trends away from specific ingredients in products and increasing awareness of the environmental and social effects of product production. Consumer perceptions of the nutritional profile of gluten-free and non-GMO products may shift, and consumers may perceive food products with fewer carbohydrates, higher levels of protein, lower levels of fat and additional fiber as BFY. Our success depends, in part, on our ability to anticipate the tastes and dietary habits of consumers and to offer products that appeal to their needs and preferences on a timely and affordable basis. A change in consumer discretionary spending, due to economic downturn or other reasons may have a material effect on sales. If consumer demand for our products decline, our sales and business would be negatively affected.

We may not be able to compete successfully in the highly competitive snack food industry.

The market for snack foods is large and intensely competitive. Competitive factors in the snack food industry include product quality and taste, brand awareness among consumers, access to supermarket shelf space, price, advertising and promotion, innovation of on-trend snacks, variety of snacks offered, nutritional content, product packaging and package design. We compete in that market principally on the basis of product taste and quality, but also brand recognition and loyalty, marketing, advertising, price and the ability to satisfy specific consumer dietary needs (including Kosher, major allergen-free and gluten-free needs) against numerous multinational, regional and local companies. Substantial advertising and promotional expenditures may be required to maintain or improve a brand's market position or to introduce a new product to the market, and participants in our industry are engaging with new media, including consumer outreach through social media and web-based channels. Our ability to compete may be also dependent on whether our products are placed in the BFY snack aisle or in the traditional snack food aisle, or both. An increasing focus on BFY products in the marketplace will likely increase these competitive pressures within the category in future periods.

A substantial majority of sales in the snack food industry is concentrated among large food companies, including Frito-Lay, Inc., a subsidiary of PepsiCo, Inc., The Kellogg Company, ConAgra Foods, Inc., Diamond Foods, Inc., General Mills, Inc., Snyder's-Lance, Inc. and others that have substantially greater financial and other resources than us and sell brands that are more widely recognized than ours. These and numerous other companies that are actual or potential competitors of ours, many of which have greater financial and other resources (including more employees and more extensive facilities) than us, offer products similar to ours or a wider range of products than we offer. Local or regional markets often have significant smaller competitors, many of whom offer products similar to ours and may have unique ties to regional or national retail chains. Additionally, many of our retail customers, such as Costco and

Whole Foods, have historically emphasized private-label offerings across categories as a key part of their strategy and these customers may create or expand competitive RTE popcorn and tortilla chip private-label offerings. With expansion of our operations into new markets, we have and will continue to encounter significant competition from multinational, national, regional and local competitors that may be greater than that encountered by us in our existing markets. In addition, these competitors may challenge our position in our existing markets.

All of our sales involve the sale of BFY snack food products, which has various risks and uncertainties.

All of our sales involve the sale of products designed to be BFY snack food options. While BFY snack food products are currently popular and sales of such products have been increasing rapidly, consumers may not continue to be

Table of Contents

interested in BFY snack food products. Consumers may in the future choose to purchase other products that they perceive to be BFY or more “trendy” at a future time. Consumers may prefer products with fewer carbohydrates, higher levels of protein, lower levels of certain nutrients including fat, additional fiber or different nutritional characteristics that do not favor our products or RTE popcorn in general. In addition, our business could be adversely affected if larger, well-capitalized companies elect to either enter into the healthier snack food space or competed in irrational ways that could damage our margins, or if lower-priced private-label products gain market share. We also face the risk that competitors may significantly improve the taste and quality of the BFY snack foods they sell that are competitive with our products. Additionally, we face the risk our retail customers may request or require our products to deliver certain new “on trend” attributes in our products, which may either be impossible for us to achieve or cost prohibitive for us to deliver.

Our reputation as a producer of BFY products may be diminished due to real or perceived quality or health issues with our products or a change in consumers’ perception of what is BFY itself, which could have an adverse effect on our business and operating results.

We believe consumers of our products rely on us to provide them with high-quality, BFY food products containing no GMOs, gluten or major allergens. Concerns regarding the ingredients used in our products or the healthfulness, safety or quality of our products or our supply chain may cause consumers to stop purchasing our products, even if the basis for the concern is unfounded, has been addressed or is outside of our control. Although we believe we have a rigorous quality control process, there can be no assurance that our products will always comply with the standards we set for our products. Adverse publicity about the healthfulness, safety or quality of our products, whether or not ultimately based on fact, may discourage consumers from buying our products and have an adverse effect on our brand, reputation and operating results.

We have no control over our products once purchased by consumers. Accordingly, consumers may store our products for long periods of time, which may adversely affect the quality of our products. If consumers do not perceive our products to be of high quality, then the value of our brand would be diminished, and our business, results of operations and financial condition could be adversely affected.

Any loss of confidence on the part of consumers in the ingredients used in our products or in the safety and quality of our products may be difficult and costly to overcome. Any such adverse effect could be exacerbated by our position in the market as a purveyor of high-quality, BFY food products and may significantly reduce our brand value. Issues regarding the safety of any of our products, regardless of the cause, may have a substantial and adverse effect on our brand, reputation and operating results.

Our SkinnyPop brand is of significant value and our brand and reputation may be diminished due to possible consumer disagreement with the use of the word “Skinny” on our product, differences in opinion as to what products are “Skinny” or increased negative connotation with the word “Skinny”. We may be subject to claims or litigation concerning our branding or labeling practices. Food product companies are, from time to time, subject to class action lawsuits related their branding or labeling. In 2014, we settled one such lawsuit for a nominal amount. Related or similar claims or lawsuits may be brought against us in the future. Additionally, changes in applicable laws or regulations, or evolving interpretations thereof, could necessitate changes to our branding or labeling. While we have never claimed that SkinnyPop is a low fat product, the FDA and FTC currently have no definition of the word “Skinny” and could, in the future, define the term in a way that is not favorable to our existing product branding or labeling.

Consumers’ loyalty to our SkinnyPop and Paqui brands may change due to factors beyond our control, which could have a material adverse effect on our business and operating results.

Our business currently depends in a large part on repeat purchases by the same consumers. We believe this purchasing pattern is indicative of brand loyalty. However, these consumers are under no obligation to continue to repeatedly purchase our product and could stop purchasing our product at any time. These consumers could cease purchasing our product for any number of reasons, some of which are beyond our control, including changing consumer trends, negative publicity regarding our brand, real or perceived quality or health issues with our products, a change in consumers' perception of BFY, or the availability of lower priced alternative snack products, or for no reason at all. Erosion of our brand loyalty and the resulting decreased sales to consumers could have an adverse effect on our business and operating results.

Table of Contents

We face competition in our business from generic or store branded products which may result in decreased demand for our products and pricing pressures.

We are subject to competition from companies, including from some of our customers, that either currently manufacture or are developing products directly in competition with our products. These generic or store-branded products may be a less expensive option for consumers than our products making it more difficult to sell our product. For example, Costco is well known for its Kirkland Signature brand, which offers high-quality products across a variety of categories at lower price points than many branded products. The development of competing Kirkland Signature products may cause Costco to decrease their orders of our products, require us to reduce the pricing of our products or drive Costco to change the shelf placement of our products in a detrimental way. Kroger, one of our largest customers, already competes with us through their Simple Truth RTE popcorn brand. Similarly, other large retail customers could follow similar private-label strategies. In future years, we may experience competition-induced pricing pressure from our customers due to such competition, which could have a material and adverse effect on our operating results.

If our brand or reputation is damaged, the attractive characteristics that we offer retailers may diminish, which could adversely affect the value of our platform.

We are currently an attractive brand for our customers because our products generate a high level of retail sales at a premium margin relative to their shelf space. This is due to both our premium price point and our sales velocity. If our brand or reputation is damaged for any reason, consumers may no longer be willing to pay a premium price for our products and we may no longer be able to generate a high sales velocity at our then-current prices. If we no longer offer these characteristics, customers may decrease their orders of our products and downgrade the in-store placement of our products, which could have an adverse effect on our business and platform.

Risks Related to Our Business Generally

Our gross profit and Adjusted EBITDA margins may be impacted by a variety of factors, including but not limited to variations in raw materials pricing, retail customer requirements and mix, sales velocities and required promotional support.

We have operated our company with strong gross profit and Adjusted EBITDA margins as compared to other food and snacking companies. While we expect our gross profit to increase in absolute dollars in future periods, we expect that our gross profit as a percentage of net sales has and will fluctuate and has and may decrease as a result of the competitive and other factors described herein. Our gross profit is impacted by a number of factors, including product pricing, raw material, labor, packaging and fuel costs. Should the competitive dynamic change in our industry (which could impact our margins through forces including but not limited to requiring us to alter our pricing strategy or requiring additional promotional activity), raw materials prices increase dramatically, or any of our customer relationships change materially, then we may not be able to continue to operate at our current margins. Additionally, should unforeseen events require our company to make significant and unplanned investments in additional infrastructure or marketing activities, our gross profit and Adjusted EBITDA margins could be materially reduced.

We may be subject to significant liability should the consumption of any of our products cause or be claimed to cause illness or physical harm.

We sell products for human consumption, which involves risks such as product contamination or spoilage, product tampering, other adulteration, mislabeling and misbranding. Under certain circumstances, we may be required to, or may voluntarily, recall or withdraw products. A widespread product recall or product withdrawal may negatively and significantly impact our sales and profitability for a period of time and could result in significant losses depending on

the costs of the recall, the destruction of product inventory, product availability, competitive reaction and customer and consumer reaction. We may also be subject to claims or lawsuits resulting in liability for actual or claimed injuries, illness or death. Any of these events may result in a material adverse effect on our business. Even if a product liability claim or lawsuit is unsuccessful or is not fully pursued, the negative publicity surrounding any assertion that our products caused illness or physical harm could adversely affect our reputation with existing and potential customers and consumers and our corporate and brand image. Moreover, claims or liabilities of this sort might not be covered by our insurance or by any rights of indemnity or contribution that we may have against others. We maintain product liability insurance in an amount that we believe to be adequate. However, we cannot be sure that we will not incur claims or liabilities for which we are not insured or that exceed the amount of our insurance coverage. A product liability judgment against us or a product recall could have a material adverse effect on our business, consolidated financial condition, results of operations or liquidity.

Table of Contents

Litigation or legal proceedings could expose us to significant liabilities and have a negative impact on our reputation.

From time to time, we may be party to various claims and litigation proceedings. We evaluate these claims and litigation proceedings to assess the likelihood of unfavorable outcomes and to estimate, if possible, the amount of potential losses. Based on these assessments and estimates, we establish reserves, as appropriate. These assessments and estimates are based on the information available to management at the time and involve a significant amount of management judgment. Actual outcomes or losses may differ materially from our current assessments and estimates. For example, in 2014, a putative class action lawsuit was filed against our Predecessor related to the compliance of its product labels with various state and federal laws. The case settled for a nominal amount and was later dismissed with prejudice in July 2014 after SkinnyPop Popcorn LLC updated its product labels. From time to time, we have received threats by plaintiffs' attorneys to bring similar class action lawsuits related to other alleged product label claims, including relating to the BFY nature of our products. We would vigorously defend any threatened lawsuit if brought. Such a lawsuit or related or similar claims or lawsuits may be brought against us in the future and the cost of defending against any such claims could be significant.

There is an additional risk that these types of suits may lead to consumer confusion, distrust and additional legal challenges for companies faced with them. Should we become subject to related or additional unforeseen lawsuits, including claims related to our products or their labeling or advertising, consumers may avoid purchasing our products or seek alternative products, even if the basis for the claims against us is unfounded. Additionally, adverse publicity about any lawsuit in which we are involved may further discourage consumers from buying our products. Any loss of confidence on the part of consumers in the truthfulness of our labeling or ingredient claims would be difficult and costly to overcome and may significantly reduce our brand value. Uncertainty as to the ingredients used in our products, regardless of the cause, may have a substantial and adverse effect on our brand and our business, results of operations and financial condition. In addition, some lawsuits have been filed against companies who make "natural" claims on their products. We make no "natural" claims on our products.

We have also been a party to several claims and proceedings in both the US Patent and Trademark Office and federal court regarding competitors' attempted or actual infringement of the "SKINNYPOP" trademark. Each of these proceedings has resulted in a resolution whereby the competitor has expressly acknowledged our exclusive trademark rights to use "SKINNY" with respect to popcorn products. In some instances, however, we have expressly acknowledged the competitor's rights to the term "SKINNY" with respect to non-popcorn snack foods. Additional matters may continue to arise from time to time where other competitors use the term "SKINNY" to refer to their products, and we may or may not be able to assert our trademark rights based on the specific facts in each case. We will continue to monitor and address such facts on a case-by-case basis.

We may not be able to adequately protect our intellectual property and other proprietary rights that are material to our business.

Our ability to compete effectively depends in part upon protection of our rights in trademarks, trade dress, copyrights and other intellectual property rights we own or license. Our use of contractual provisions, confidentiality procedures and agreements, and trademark, copyright, unfair competition, trade secret and other laws to protect our intellectual property and other proprietary rights may not be adequate. We may not be able to preclude third parties from using the term "SKINNY" with respect to food or beverage products, and may not be able to leverage our branding beyond our current product offerings. Litigation may be necessary to enforce our intellectual property rights and protect our proprietary information, or to defend against claims by third parties that our products or our use of intellectual property infringe their intellectual property rights. Any litigation or claims brought by or against us could result in substantial costs and diversion of our resources. A successful claim of trademark, copyright or other intellectual property infringement against us could prevent us from providing our products, which could harm our business, financial condition or results of operations. In addition, a breakdown in our internal policies and procedures may lead

to an unintentional disclosure of our proprietary, confidential or material non-public information, which could in turn harm our business, financial condition or results of operations.

Table of Contents

We may not be successful in implementing our growth strategy, including without limitation, enhancing our brand recognition, increasing distribution of our products, attracting new consumers to our brands, and introducing new products and product extensions, either on a timely basis or at all.

Our future success depends in large part on our ability to implement our growth strategy, including without limitation, enhancing our brand recognition, increasing distribution of our products, attracting new consumers to our brands, driving repeat purchase of our products and introducing new products and product extensions. Our ability to implement our growth strategy depends, among other things, on our ability to develop new products, identify and acquire additional product lines and businesses, secure shelf space in grocery stores and supermarkets, increase customer awareness of our brands, enter into distribution and other strategic arrangements with third-party retailers and other potential distributors of our products and compete with numerous other companies and products. In late 2014 and early 2015, SkinnyPop achieved significant distribution gains with some of the largest U.S. retail chains, including Walmart, Target and CVS Pharmacy. We cannot provide assurances to you that these customers will achieve performances comparable to our more seasoned retail customers nor that we will continue to expand retail distribution by adding more retail locations or SKU varieties as we have done with several other key customers in the past. We also cannot assure you that we will be able to successfully implement our growth strategy and continue to maintain growth in our sales. If we fail to implement our growth strategy, our sales and profitability may be adversely affected.

We may be unable to successfully identify and execute or integrate acquisitions.

On April 17, 2015, we acquired Paqui. In addition, we plan to selectively pursue acquisitions in the future, to continue to grow and increase our profitability. Our acquisition strategy is based on identifying and acquiring brands with products that complement our existing products and identifying and acquiring brands in new categories and in new geographies for purposes of expanding our platform of healthier snacks. However, although we regularly evaluate multiple acquisition candidates, we cannot be certain that we will be able to successfully identify suitable acquisition candidates, negotiate acquisitions of identified candidates on terms acceptable to us, or integrate acquisitions that we complete.

Acquisitions involve numerous risks and uncertainties, including intense competition for suitable acquisition targets, which could increase prices and/or adversely affect our ability to consummate deals on favorable or acceptable terms, the potential unavailability of financial resources necessary to consummate acquisitions in the future, the risk that we improperly value and price a target, the potential inability to identify all of the risks and liabilities inherent in a target company notwithstanding our due diligence efforts, the diversion of management's attention from the operations of our business and strain on our existing personnel, increased leverage due to additional debt financing that may be required to complete an acquisition, dilution of our stockholder's net current book value per share if we issue additional equity securities to finance an acquisition, difficulties in identifying suitable acquisition targets or in completing any transactions identified on sufficiently favorable terms and the need to obtain regulatory or other governmental approvals that may be necessary to complete acquisitions.

In addition, any future acquisitions may pose risks associated with entry into new geographic markets, including outside the United States, distribution channels, lines of business or product categories, where we may not have significant or any prior experience and where we may not be as successful or profitable as we are in businesses and geographic regions where we have greater familiarity and brand recognition. Potential acquisitions may also entail significant transaction costs and require a significant amount of management time, even where we are unable to consummate or decide not to pursue a particular transaction.

In addition, even when acquisitions, such as the acquisition of Paqui, are completed, integration of acquired entities can involve significant difficulties, such as failure to achieve financial or operating objectives with respect to an

acquisition, strain on our personnel, systems and operational and managerial controls and procedures, the need to modify systems or to add management resources, difficulties in the integration and retention of customers or personnel and the integration and effective deployment of operations or technologies, amortization of acquired assets (which would reduce future reported earnings), possible adverse short-term effects on cash flows or operating results, diversion of management's attention from the operations of our business, integrating personnel with diverse backgrounds and organizational cultures, coordinating sales and marketing functions and failure to obtain and retain key personnel of an acquired business. Failure to manage these acquisition growth risks could have an adverse effect on us.

Table of Contents

Our continued success depends to a large extent on our ability to innovate successfully and on a cost-effective basis.

The food industry and retailers in the grocery industry use new products as a way of creating excitement and variety of choices in order to attract consumers. Therefore, a key element of our growth strategy is to introduce new products and to successfully innovate our existing products and to keep up with changing consumer tastes and trends. Success in product development is affected by our ability to anticipate consumer preferences, to leverage our research and development capabilities, and to utilize our management's ability to launch new or improved products successfully and on a cost-effective basis. It is possible that we will be unable to develop new products to address consumer demands.

The development and introduction of new products requires substantial research and development and marketing expenditures, which we may be unable to recover if the new products do not achieve commercial success and gain widespread market acceptance. Product innovation may also result in increased costs resulting from the use of new manufacturing techniques, capital expenditures, new raw materials and ingredients, new product formulas and possibly new manufacturers. There may also be regulatory restrictions on the production and advertising of our new products, and our new products may cannibalize sales of our existing products. In addition, underperformance of new product launches would damage overall brand credibility with customers and consumers.

Further, new products may not achieve success in the marketplace, due to lack of demand, failure to meet consumer tastes or otherwise. If we are unsuccessful in our product innovation efforts and demand for our products declines, our business would be negatively affected.

Additionally, we do not have exclusive rights to the term "SKINNY" and therefore other companies in the food and beverage categories could use the term, which would inherently limit our ability to enter new categories with our anchor brand.

Slotting fees and customer charges or charge-backs for promotion allowances, cooperative advertising and damaged, undelivered or unsold food products may have a significant impact on our operating results and may disrupt our customer relationships.

Retailers in the grocery industry charge slotting fees for access to shelf space and often enter into promotional and advertising arrangements with manufacturers that result in the sharing of promotional and advertising costs among the retail customer, distributor or manufacturer. As the retail grocery industry has consolidated and become more competitive, retail customers have sought greater participation by manufacturers in cooperative promotional and advertising arrangements, and are more inclined to pass on unanticipated increases in promotional and advertising costs to manufacturers. Additionally, retailers are exhibiting a greater willingness to take deductions for damaged, undelivered and unsold products or to return unsold products to manufacturers. If we are charged significant and unanticipated promotional allowances or advertising charges by retail customers, or if our customers take substantial charge-backs or return material amounts of our products, the operating results and liquidity of our business could be harmed, perhaps substantially. Moreover, an unresolved disagreement with a retail customer concerning promotional allowances, advertising charges, charge-backs or returns could significantly disrupt or cause the termination of a customer relationship, immediately reducing our sales and liquidity. Because of the limited number of retail customers in the U.S. grocery market, the loss of even a single retail customer could have a long-term negative impact on our financial condition and net sales.

Changes in retail distribution arrangements can result in the temporary loss of retail shelf space and disrupt sales of food products, causing our sales to fall.

From time to time, retailers change distribution centers that supply some of their retail stores. If a new distribution center has not previously distributed our products in that region, it may take time to get a retailer's distribution center

to begin distributing new products in its region. Even if a retailer approves the distribution of products in a new region, product sales may decline while the transition in distribution takes place. If we do not get approval to have our products offered in a new distribution region or if getting this approval takes longer than anticipated, our sales and operating results may suffer.

Table of Contents

Fluctuations in our results of operations from quarter to quarter because of changes in our promotional activities may impact, and may have a disproportionate effect on, our overall financial condition and results of operations.

Our business is subject to quarterly fluctuations due to the timing of and demand for customer-driven promotional activities, which may have a disproportionate effect on our results of operations. Historically, we have offered a variety of sales and promotion incentives to our customers and to consumers, such as price discounts, consumer coupons, volume rebates, cooperative marketing programs, slotting fees and in-store displays. Our net sales are periodically influenced by the introduction and discontinuance of sales and promotion incentives. Reductions in overall sales and promotion incentives could impact our net sales and affect our results of operations in any particular fiscal quarter.

While we expect our net sales to increase in absolute dollars in future periods, we expect that our net sales growth rate will not keep pace with our net sales growth rate in prior periods, due to the increasing cumulative size of the net sales base on which future growth rates will be measured.

Historical quarter-to-quarter and period-over-period comparisons of our sales and operating results are not necessarily indicative of future quarter-to-quarter and period-over-period results. You should not rely on the results of a single fiscal quarter or period as an indication of our annual results or our future performance.

Our future results of operations may be adversely affected by increased fuel costs.

Many aspects of our business have been, and may continue to be, directly affected by the rising cost of fuel. Increased fuel costs result in increased costs for the products and services we receive from our third-party providers including, but not limited to, increased distribution costs for our products and increased packaging costs. As the cost of doing business increases, we may not be able to pass these higher costs on to our customers and, therefore, any such cost increases may adversely affect our earnings. In addition, if fuel costs decline we may not benefit from these decreases because our customers may require us to pass on the benefit of lower prices to them.

Changes in the legal and regulatory environment could limit our business activities, increase our operating costs, reduce demand for our products or result in litigation.

The conduct of our businesses, including the production, storage, distribution, sale, display, advertising, marketing, labeling, health and safety practices, transportation and use of many of our products, are subject to various laws and regulations administered by federal, state and local governmental agencies in the United States, as well as to laws and regulations administered by government entities and agencies outside the United States in markets in which our products or components thereof (such as packaging) may be made, manufactured or sold. These laws and regulations and interpretations thereof may change, sometimes dramatically, as a result of a variety of factors, including political, economic or social events. Such changes may include changes in:

- food and drug laws (including FDA regulations);
- laws related to product labeling;
- advertising and marketing laws and practices;
- laws and programs restricting the sale and advertising of certain of our products;
- laws and programs aimed at reducing, restricting or eliminating ingredients present in certain of our products;
- laws and programs aimed at discouraging the consumption of products or ingredients or altering the package or portion size of certain of our products;
- increased regulatory scrutiny of, and increased litigation involving, product claims and concerns regarding the effects on health of ingredients in, or attributes of, certain of our products;
- state consumer protection and disclosure laws;
-

taxation requirements, including the imposition or proposed imposition of new or increased taxes or other limitations on the sale of our products; competition laws;
anti-corruption laws;
employment laws;
privacy laws;

Table of Contents

laws regulating the price we may charge for our products; and farming and environmental laws.

New laws, regulations or governmental policy and their related interpretations, or changes in any of the foregoing, including taxes or other limitations on the sale of our products, ingredients contained in our products or commodities used in the production of our products, may alter the environment in which we do business and, therefore, may impact our operating results or increase our costs or liabilities.

Loss of our key management or other personnel, or an inability to attract and retain such management and other personnel, could negatively impact our business.

Our success is substantially dependent on the continued service of certain members of our senior management, including Thomas Ennis, our Chief Executive Officer ("CEO"); and Brian Goldberg, our Chief Financial Officer ("CFO"). These executives have been primarily responsible for determining the strategic direction of our business and for executing our growth strategy and are integral to our brand and culture, and the reputation we enjoy with suppliers, contract manufacturers, distributors, retailers and consumers. The loss of the services of any of these executives could have a material adverse effect on our business and prospects, as we may not be able to find suitable individuals to replace them on a timely basis, if at all. In addition, any such departure could be viewed in a negative light by investors and analysts, which may cause the price of our common stock to decline. We have employment agreements with our key senior executives, including our CEO, CFO and Jason Shiver, our Executive Vice President of Sales and Marketing. However, we do not maintain key-person life insurance with respect to any of them. We also had employment agreements with each of our founders, which expired on December 31, 2015. As discussed in more detail in Note 17 in the accompanying Notes to Consolidated Financial Statements contained in Item 8, in March 2016 we paid the founders \$23.0 million of the \$25.2 million estimated obligation accrued at December 31, 2015.

Additionally, we also depend on our ability to attract and retain qualified personnel to operate and expand our business. If we fail to attract talented new employees, our business and results of operations could be negatively affected.

As a result of our rapid growth over the past few years, we need to continue developing an infrastructure and workforce sufficient to meet the growing demands for our products.

We have experienced rapid growth in the past few years, which involves various risks related to ensuring that our infrastructure and personnel are sufficient to meet the growing demand for our products. For example, we must seek to identify our personnel needs in light of expected demand for our products, and we will need to identify, recruit, train and retain qualified employees in order to serve this anticipated demand, in all areas of our operations. Because we may hire additional employees in order to meet potential future needs and to ensure that our sales growth does not outgrow our infrastructure, we may experience higher levels of costs of goods sold and general and administrative expense as we build this infrastructure. While we do not anticipate extensive management needs, as we grow, we may add additional layers of management, process and bureaucracy into our governing structure. In doing so, we risk losing qualified employees and members of management who were attracted to our entrepreneurial culture but who may not want to remain at a larger company.

In addition, with sales and demand growing rapidly, we need to ensure that we have sufficient manufacturing capacity, both internal capacity and manufacturing arrangements, to meet actual and potential demand for our products. This could require us to make significant capital expenditure investments in order to make sure we have sufficient manufacturing capacity. If growth does not materialize as planned, these large investments could increase our cost of goods sold without increasing our profitability.

There can be no assurance that we will be successful in all of these efforts, and any failure to maintain sufficient infrastructure and personnel will have an adverse effect on our ability to grow and improve our profitability.

A failure of our new enterprise resource planning, or ERP, system could impact our ability to operate our business, lead to internal control and reporting weaknesses and adversely affect our results of operations and financial condition.

We have recently implemented a new ERP system to provide for greater depth and breadth of functionality and effectively manage our business data, communications, supply chain, order entry and fulfillment, inventory and warehouse management and other business processes. A failure of our new system to perform as we anticipate may

Table of Contents

result in transaction errors, processing inefficiencies and sales losses, may otherwise disrupt our operations and materially and adversely affect our business, results of operations and financial condition and may harm our ability to accurately forecast sales demand, manage our supply chain and production facilities, fulfill customer orders and report financial and management information on a timely and accurate basis. In addition, due to the systemic internal control features within ERP systems, we may experience difficulties that may affect our internal control over financial reporting, which may create a significant deficiency or material weakness in our overall internal controls. The risks associated with a new ERP system are greater for us as a newly public company.

We have a limited operating history, and our historical financial information is not necessarily representative of the results we may achieve in the future.

We have been in operation since 2010. However, we only have three years of available audited consolidated financial statements. Our relatively limited available historical financial information does not necessarily reflect our future financial position, results of operations, or cash flows, and the occurrence of any of the risks discussed in this “Risk Factors” section, or any other event, could cause our future financial position, results of operations, or cash flows to materially differ from our historical financial information. While we have been profitable in the past, we cannot assure you that our profits will continue, at a similar level or at all.

We rely on information technology systems, and any inadequacy, failure, interruption or security breach of those systems may harm our ability to effectively operate our business.

We are dependent on various information technology systems, including, but not limited to, networks, applications and outsourced services in connection with the operation of our business. A failure of our information technology systems to perform as we anticipate could disrupt our business and result in transaction errors, processing inefficiencies and sales losses, causing our business to suffer. In addition, our information technology systems may be vulnerable to damage or interruption from circumstances beyond our control, including fire, natural disasters, systems failures, viruses and security breaches. Any such damage or interruption could have a material adverse effect on our business.

In addition, we sell our products over the internet through third-party websites, including those operated by Amazon.com. The website operations of such third parties may be affected by reliance on other third-party hardware and software providers, technology changes, risks related to the failure of computer systems through which these website operations are conducted, telecommunications failures, electronic break-ins and similar disruptions. Furthermore, the ability of our third-party partners to conduct these website operations may be affected by liability for online content and state and federal privacy laws.

Further, because of our rapid growth, we need to ensure that we have sufficient personnel to manage our growing IT infrastructure, and that our systems generate sufficient information and reports so that our management team can better anticipate future business needs. As we grow, we may decide in the future to install a new company-wide information technology system. Any future migration to a new company-wide information technology system would be costly and potentially disruptive to our business.

Our indebtedness could adversely affect our financial condition and ability to operate our company, and we may incur additional debt.

As of December 31, 2015 and December 31, 2014, we had outstanding indebtedness in the aggregate principal amount of \$201 million and \$200 million, respectively. Our debt level and the terms of our financing arrangements could adversely affect our financial condition and limit our ability to successfully implement our growth strategy. In addition, our ability to increase the uncommitted portion of our revolving facility may be limited by our debt level or other factors.

Our ability to meet our debt service obligations will depend on our future performance, which will be affected by the other risk factors described herein. If we do not generate enough cash flow to pay our debt service obligations, we may be required to refinance all or part of our existing debt, sell our assets, borrow more money or raise equity. There is no guarantee that we will be able to take any of these actions on a timely basis, on terms satisfactory to us, or at all.

Our outstanding indebtedness under the Credit Agreement bears interest at variable rates. If market interest rates increase, variable rate debt will create higher debt service requirements, which could adversely affect our cash flow.

Table of Contents

The Credit Agreement governing our credit facility contains various covenants that impose restrictions on us that may affect our ability to operate our business if we fail to meet those covenants or otherwise suffer a default thereunder.

We are required to comply with certain financial maintenance covenants pursuant to the Credit Agreement as of the end of each fiscal quarter, including a total funded debt ratio and a minimum fixed charge coverage ratio. The Credit Agreement contains other negative incurrence-based covenants that, among other things, limit our ability to:

- borrow money or guarantee debt;
- create liens;
- make specified types of investments and acquisitions;
- pay dividends on or redeem or repurchase stock;
- enter into new lines of business;
- enter into transactions with affiliates; and
- sell assets or merge with other companies.

Should we be in default under any of such covenants, Jefferies Finance LLC shall have the right, upon written notice and after the expiration of any applicable period during which such default may be cured, to demand immediate payment of all of the then-unpaid principal and accrued but unpaid interest under the Credit Agreement and would permit lenders to foreclose upon the collateral securing the debt. As of December 31, 2015, we are in compliance with all covenants of the Credit Agreement.

As we execute our business strategy, we may not be able to remain in compliance with our financial covenants because various risks, uncertainties and events beyond our control could affect our ability to comply with these covenants. These restrictions on the operation of our business through the requirement that we meet certain ratios to take certain actions could harm us by, among other things, limiting our ability to take advantage of financing, merger and acquisition opportunities and other corporate opportunities. Additionally, any acceleration of the borrowings under the Credit Agreement prior to the applicable maturity dates could have a material adverse effect upon our business, financial condition and results of operations. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations-Indebtedness”.

To the extent we further grow our business outside of the United States and Canada, we will face risks associated with conducting business in foreign markets.

We currently conduct most of our business in the United States and Canada, but we are evaluating the possibility of doing business in certain other foreign countries. The substantial up-front investment required, the lack of consumer awareness of our products in jurisdictions outside of the United States and Canada, differences in consumer preferences and trends between the United States and Canada and other jurisdictions, the risk of inadequate intellectual property protections and differences in packaging, labeling, food and related laws, rules and regulations are all substantial matters that need to be evaluated prior to doing business in new territories. To the extent we grow our business outside of the United States and Canada, we could be adversely affected by economic, legal, political and regulatory developments in the countries in which we do business in the future or in which we expand our business, particularly those countries that have historically experienced a high degree of political or economic instability.

Examples of risks inherent in doing business outside of North America include changes in the political and economic conditions in the countries in which we operate, unexpected changes in regulatory requirements, changes in tariffs, the adoption of foreign or U.S. laws limiting exports to or imports from certain foreign countries, fluctuations in currency exchange rates and the value of the U.S. dollar, restrictions on repatriation of earnings, expropriation of property without fair compensation, weak protection of intellectual property rights and the acceptance of business practices that are not consistent with or are antithetical to prevailing business practices we are accustomed to in the United States,

including export compliance and anti-bribery practices and governmental sanctions. We may also face difficulties in operations and diversion of management time in connection with establishing our business in countries where we have not operated before.

Doing business outside the United States requires us to comply with the laws and regulations of the U.S. government and various foreign jurisdictions, which place restrictions on our operations, trade practices, partners and investment decisions. In particular, our operations are subject to U.S. and foreign anti-corruption and trade control laws and regulations, such as the Foreign Corrupt Practices Act, or FCPA, export controls and economic sanctions programs, including those administered by the U.S. Treasury Department's Office of Foreign Assets Control, or OFAC. As a result

Table of Contents

of doing business in foreign countries and with foreign partners, we are exposed to a heightened risk of violating anti-corruption and trade control laws and sanctions regulations. The FCPA prohibits us from providing anything of value to foreign officials for the purposes of obtaining or retaining business or securing any improper business advantage.

In addition, the United Kingdom Bribery Act, or the Bribery Act, extends beyond bribery of foreign public officials and also applies to transactions with individuals that a government does not employ. The provisions of the Bribery Act are also more onerous than the FCPA in a number of other respects, including jurisdiction, non-exemption of facilitation payments and penalties. Our continued expansion outside the United States, including in developing countries, and our development of new partnerships and joint venture relationships worldwide, could increase the risk of FCPA, OFAC or Bribery Act violations in the future. Violations of anti-corruption and trade control laws and sanctions regulations are punishable by civil penalties, including fines, denial of export privileges, injunctions, asset seizures, debarment from government contracts and revocations or restrictions of licenses, as well as criminal fines and imprisonment.

Period-to-period comparisons may not be meaningful given the Sponsor Acquisition of SkinnyPop by TA Associates in 2014 and may not be representative of our future performance.

Due to the Sponsor Acquisition, which was consummated on July 17, 2014, it may be difficult for you to compare our Successor and Predecessor financial results. The Sponsor Acquisition was accounted for utilizing acquisition method accounting, which resulted in recording the assets and liabilities of SkinnyPop at their fair values on July 17, 2014.

In addition, we recognized the Founder Contingent Compensation ratably over the 18 months after the date of completion of the Sponsor Acquisition. Accordingly, our historical financial information may be of limited use in evaluating our historical performance and comparing it to other periods. Additionally, due to the new valuations for the assets and liabilities of SkinnyPop, our Predecessor financial results may not be representative of our future performance.

The pro forma financial information in this Annual Report on Form 10-K is presented for illustrative purposes only and does not represent what the results of operations of the combined company would have been had the Sponsor Acquisition, the December 2014 Special Dividend and the May 2015 Special Dividend occurred on January 1, 2014, the date assumed for purposes of that pro forma information, nor does it represent the actual financial position or results of operations of the combined company following the Sponsor Acquisition.

The pro forma financial information in this Annual Report on Form 10-K is derived from our consolidated results of operations giving pro forma effect to the Sponsor Acquisition, the December 2014 Special Dividend and the May 2015 Special Dividend, more fully described in Note 1 in the accompanying Notes to Consolidated Financial Statements contained in Item 8, as if such transactions occurred on January 1, 2014. It is presented for illustrative purposes only and contains certain estimates and assumptions about the Sponsor Acquisition, the December 2014 Special Dividend and the May 2015 Special Dividend. It does not give effect to our recent initial public offering, and in particular, the impact of the tax receivable agreement. The preparation of this pro forma financial information is based on certain assumptions and estimates that we believe are reasonable. Our assumptions may prove to be inaccurate over time and may be affected by other factors. Accordingly, the pro forma financial information may not reflect what our results of operations, financial positions and cash flows would have been had the Sponsor Acquisition, the December 2014 Special Dividend and the May 2015 Special Dividend, respectively, occurred during the periods presented or what our results of operations, financial positions and cash flows will be in the future. The pro forma information contained in this Annual Report on Form 10K is based on adjustments that our management believes are reasonable. Our estimate of these adjustments and allocation may differ from actual amounts that we report in the future.

Our tax receivable agreement will require us to make cash payments to a counterparty in respect of certain tax benefits to which we may become entitled, and we expect that the payments we will be required to make will be substantial.

In August 2015, we entered into a tax receivable agreement with the former holders of units of TA Topco 1, LLC ("Topco"), our former parent entity. In December 2015, all of the former holders of units of Topco collectively assigned their interests to a new counterparty. Pursuant to the tax receivable agreement, we are required to make cash payments to the counterparty equal to 85% of the tax benefits, if any, that we actually realize, or in some circumstances are deemed to realize, as a result of certain tax attributes that were generated when SkinnyPop was acquired by affiliates of TA Associates in July 2014.

Table of Contents

The amount of the cash payments that we are required to make under the tax receivable agreement is expected to be significant. Assuming no material changes in the relevant tax law and that we earn sufficient taxable income to realize all tax benefits that are subject to the tax receivable agreement, we expect that the reduction in tax payments for us associated with the federal, state and local tax benefits described above would aggregate to approximately \$113.1 million through 2030. Under such scenario we would be required to pay the counterparty 85% of such amount, or \$96.1 million through 2030.

Payments under the tax receivable agreement may vary from the foregoing estimates and will be based on the tax reporting positions that we determine, which tax reporting positions will be based on the advice of our tax advisors. Any payments made by us to the counterparty under the tax receivable agreement will generally reduce the amount of overall cash flow that might have otherwise been available to us. If the Internal Revenue Service ("IRS"), were to successfully challenge the tax benefits that give rise to any payments under the tax receivable agreement, our future payments under the tax receivable agreement to the counterparty would be reduced by the amount of such payments, but the tax receivable agreement does not require the counterparty to reimburse us for the amount of such payments to the extent they exceed any future amounts payable under the tax receivable agreement.

Our obligation to make timely payments under the tax receivable agreement is not conditioned upon, and will not be modified based upon, our historical net income for any previous period or our ability to generate net income in any future period. If, however, we fail to make any payments on a timely basis under the tax receivable agreement because we do not have sufficient funds to make such payment despite using reasonable best efforts to obtain funds to make such payment (including by causing our subsidiaries to distribute or lend funds to us for such payment and accessing any sources of available credit to fund such payment), such failure will not be deemed to be a breach of a material obligation under the tax receivable agreement that would give rise to an acceleration of our payment obligations under the agreement. To the extent that we are unable to make timely payments under the tax receivable agreement for this or any other reason, the unpaid amounts will be deferred and will accrue interest until paid by us.

Furthermore, our future obligation to make payments under the tax receivable agreement could make us a less attractive target for an acquisition, particularly in the case of an acquirer that cannot use some or all of the tax benefits that may be deemed realized under the tax receivable agreement. Unless earlier terminated in accordance with its terms, the tax receivable agreement will continue in force and effect until there is no further potential for tax benefit payments to be made by us to the counterparty in respect of the U.S. federal, state and local tax benefits that are the subject of such agreement.

Based on current tax rules and regulations as of the date of this Annual Report on Form 10-K, we would expect the potential for tax benefit payments to cease no later than 2030 (or approximately fifteen years after the date of our initial public offering). For more information see Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources.

Disruptions in the worldwide economy may adversely affect our business, results of operations, and financial condition.

Adverse and uncertain economic conditions may impact distributor, retailer and consumer demand for our products. In addition, our ability to manage normal commercial relationships with our suppliers, contract manufacturers, distributors, retailers, consumers and creditors may suffer. Consumers may shift purchases to lower-priced or other perceived value offerings during economic downturns, making it more difficult to sell our premium products. During economic downturns, it may be more difficult to convince consumers to switch to our brands or convince new users to choose our brands without expensive sampling programs and price promotions. In particular, consumers may reduce the amount of products with no GMOs, gluten, or preservatives that they purchase when there are conventional offerings of similar products, which generally have lower retail prices. In addition, consumers may choose to purchase

private-label products rather than branded products because they are generally less expensive. Distributors and retailers may become more conservative in response to these conditions and seek to reduce their inventories. For example, during the economic downturn from 2007 through 2009, distributors and retailers significantly reduced their inventories. Our results of operations depend upon, among other things, our ability to maintain and increase sales volume with our existing distributors and retailers, to attract new consumers and to provide products that appeal to consumers at prices they are willing and able to pay. Prolonged unfavorable economic conditions may have an adverse effect on our sales and profitability.

Table of Contents

An impairment of goodwill could materially adversely affect our net income.

We have significant goodwill, which amounted to 13.1% and 13.5% of our total assets as of December 31, 2015 and December 31, 2014, respectively. Goodwill represents the excess of the purchase price over the fair value of the assets acquired and the liabilities assumed. In accordance with GAAP, we first assess qualitative factors to determine whether it is more likely than not that the fair value of our reporting units are less than their carrying amounts as a basis to determine whether it is necessary to perform the two-step goodwill impairment test, which we perform annually in the third fiscal quarter and whenever events or changes in circumstances indicate the carrying value of goodwill may not be recoverable. Future events that may trigger impairment include, but are not limited to, significant adverse change in customer demand, the business climate or a significant decrease in expected cash flows. When impaired, the carrying value of goodwill is written down to fair value. In the event that an impairment to goodwill is identified, an immediate charge to earnings would be recorded, which would adversely affect our operating results. See Note 6 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 for further information.

An impairment of indefinite-lived intangibles could materially adversely affect our net income.

We have significant indefinite-lived intangible assets, which amounted to 58.7% and 59.9% of our total assets as of December 31, 2015 and December 31, 2014, respectively. Indefinite-lived intangibles are tested for impairment annually in the third fiscal quarter and whenever events or changes in circumstances indicate the carrying value of the indefinite-lived intangible assets may not be recoverable. When impaired, the carrying value of indefinite-lived intangible assets is written down to fair value. In the event that an impairment is identified, an immediate charge to earnings would be recorded, which would adversely affect our operating results. See Note 6 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 for further information.

We rely on sales agents for our products and there could be a disruption in our ability to sell products to our customers if our relationship with a major sales agent is terminated.

We are represented by 22 sales agents who represent almost all of our product line to supermarkets and food stores. There are a very limited number of national sales agents in the snack food industry. Our agreements with these agents are terminable by either us or them after satisfaction of a short notice period. The termination of these agreements would require us to seek other sales agents, likely causing significant disruption to our business, and could affect our relationships with our customers. New sales agents would also potentially face conflicts of interest with respect to their existing customers.

A determination that the employees of our current third-party manufacturer or any future third-party co-manufacturers constitute our employees could have a material adverse effect on us.

We currently outsource the manufacturing of all of our products to a third-party co-manufacturer and we expect that we will continue to outsource the manufacturing of all of our products to one or more third-party manufacturers in the future. We do not consider employees of these third-party manufacturers to be our employees. As such, we do not withhold federal or state income or other employment related taxes, make federal or state unemployment tax or Federal Insurance Contributions Act payments, provide workers' compensation insurance or other employee-related benefits with respect to these manufacturers' employees. Recently, there has been an increase in litigation against companies across industries claiming that certain individuals associated with outsourced business functions should be considered employees. Although we are not unique in our outsourcing of certain aspects of our business, such as manufacturing operations, to third parties, there is a risk that such claims may be brought against us. This risk would be increased to the extent that any of the employees of our third-party manufacturers work exclusively on the manufacture of our products. In the event of a determination by a court, federal or state taxing authorities or other

relevant governmental authorities that the employees of our third-party manufacturers constitute our employees, we may be adversely affected and subject to retroactive taxes and penalties.

Table of Contents

Risks Related to Ownership of Our Common Stock

Our stock price may be volatile or may decline regardless of our operating performance, and you may lose part or all of your investment.

The market price of our common stock may fluctuate significantly in response to a number of factors, most of which we cannot control, including:

- market conditions or trends in the BFY packaged food industry or in the economy as a whole;
- actions by competitors;
- actual or anticipated growth rates relative to our competitors;
- the public's response to press releases or other public announcements by us or third parties, including our filings with the Securities and Exchange Commission, or SEC;
- economic, legal and regulatory factors unrelated to our performance;
- any future guidance we may provide to the public, any changes in such guidance or any difference between our guidance and actual results;
- changes in financial estimates or recommendations by any securities analysts who follow our common stock;
- speculation by the press or investment community regarding our business;
- litigation;
- changes in key personnel; and
- future sales of our common stock by our officers, directors and significant stockholders.

In addition, the stock markets, including the NYSE, have experienced extreme price and volume fluctuations that have affected and continue to affect the market prices of equity securities of many companies. In the past, stockholders have instituted securities class action litigation following periods of market volatility. If we were involved in securities litigation, we could incur substantial costs and our resources and the attention of management could be diverted from our business.

Future sales of our common stock, or the perception in the public markets that these sales may occur, may depress our stock price.

The market price of our common stock could decline significantly as a result of sales of a large number of shares of our common stock in the market in the future. These sales, or the perception that these sales might occur, could depress the market price of our common stock. These sales, or the possibility that these sales may occur, also might make it more difficult for us to sell equity securities in the future at a time and at a price that we deem appropriate.

Additionally, the shares of common stock subject to outstanding options and restricted stock awards under our equity incentive plans and the shares reserved for future issuance under our equity incentive plans will become eligible for sale in the public market in the future, subject to certain legal and contractual limitations.

Also, in the future, we may issue shares of our common stock in connection with investments or acquisitions. The amount of shares of our common stock issued in connection with an investment or acquisition could constitute a material portion of our then-outstanding shares of our common stock.

Concentration of ownership among our existing executive officers, directors and principal stockholders, and our stockholders agreement with TA Associates, may prevent new investors from influencing significant corporate decisions.

As of December 31, 2015, our directors, officers and holders of 10% or more of our outstanding stock beneficially owned, in the aggregate, approximately 74.7% of our outstanding common stock. As a result, these stockholders are able to exercise significant control over all matters requiring stockholder approval, including the election of directors, amendment of our amended and restated certificate of incorporation and approval of significant corporate transactions

and will have significant control over our management and policies. This concentration of influence could be disadvantageous to other stockholders with interests different from those of the principal stockholders. As a result of these ownership positions, these stockholders could take actions that have the effect of delaying or preventing a

Table of Contents

change in control of us or discouraging others from making tender offers for our shares, which could prevent stockholders from receiving a premium for their shares. These actions may be taken even if other stockholders oppose them. The concentration of voting power held by the principal stockholders may have an adverse effect on the price of our common stock. The interests of these stockholders may not be consistent with the interests of other stockholders.

In addition, we and entities affiliated with TA Associates have entered into a stockholders agreement, which we refer to as our stockholders agreement. Under our stockholders agreement, TA Associates has the right to designate three of the members of our board of directors if TA Associates owns at least 50% or more of the shares they held immediately following our initial public offering regardless of the percentage such shares represent of our total outstanding shares, two members of our board of directors if TA Associates owns between 25% and 50% of the shares they held immediately following our initial public offering regardless of the percentage such shares represent of our total outstanding shares, and one member of our board of directors if TA Associates owns between 12.5% and 25% of the shares they held immediately following our initial public offering regardless of the percentage such shares represent of our total outstanding shares.

Our stockholders agreement also provides that so long as the entities affiliated with TA Associates hold at least 25% of the shares they held immediately following our initial public offering regardless of the percentage such shares represent of our total outstanding shares, we, and our subsidiaries, shall not take the following actions (or enter into an agreement to take such actions) without the approval of at least one director designated by TA Associates:

- increase or decrease the authorized number of members of our board of directors;
- amend our amended and restated certificate of incorporation or amended and restated bylaws or the organizational documents of any of our subsidiaries;
- issue, create or assume any debt or equity security or debt obligation, or refinance, repurchase or prepay any security (other than repurchases of our common stock in accordance with agreements previously approved by our board of directors, including at least one director designated by TA Associates) or debt obligation;
- pay or declare any dividend or make any distribution on, or repurchase or redeem shares of our common stock (other than repurchases of our common stock in accordance with agreements previously approved by our board of directors, including at least one director designated by TA Associates);
- effect any sale, liquidation or dissolution of the Company, or sell, transfer or otherwise dispose of any of the material assets or properties of the Company or any of its subsidiaries, or merge with or into, or consolidate with, another entity or effect any recapitalization, reorganization, change of form of organization, forward or reverse split, dividend or similar transaction;
- acquire any business, material assets or property for consideration in excess of \$15,000,000, whether by acquisition of assets, capital stock or otherwise, and whether in consideration of the payment of cash, the issuance of capital stock or otherwise or make any investment in any person or entity in an amount in excess of \$15,000,000;
- hire or terminate any our executive officers, or enter into, amend or modify, or waive any material term of any employment agreement or material term of employment with any of our executive officers; or
- take any action to initiate, to cause or that would result in, the voluntary bankruptcy, insolvency, dissolution, liquidation or winding up of the Company or any of its subsidiaries.

Accordingly, our stockholders agreement will limit our ability to engage in significant transactions, such as a merger, acquisition or liquidation. Conflicts of interest could arise between us and TA Associates, and any conflict of interest may be resolved in a manner that does not favor us. Any decision that TA Associates may make at some future time regarding their ownership of us will be in their absolute discretion.

We identified a material weakness in connection with our 2014 audit. If the measures we have taken to remediate that material weakness are not successful or if we fail to otherwise establish and maintain effective internal controls in accordance with Section 404 of the Sarbanes-Oxley Act of 2002, it could have a material adverse effect on our business and stock price.

As a public company, we are required to document and test our internal control procedures in order to satisfy the requirements of Section 404 of the Sarbanes-Oxley Act of 2002, which will require, beginning with our Annual Report on Form 10-K for the year ended December 31, 2016, annual management assessments of the effectiveness of our

Table of Contents

internal control over financial reporting. Additionally, as of the later of the filing of such Annual Report and the date we are no longer an “emerging growth company” we will require a report by our independent registered public accounting firm that addresses the effectiveness of our internal control over financial reporting. During the course of our testing, we may identify deficiencies that we may not be able to remediate in time to meet our deadline for compliance with Section 404.

Testing and maintaining internal control can divert our management’s attention from other matters that are important to the operation of our business. We also expect the regulations to increase our legal and financial compliance costs, make it more difficult to attract and retain qualified executive officers and members of our Board, particularly to serve on our audit committee, and make some activities more difficult, time-consuming and costly. We may not be able to conclude on an ongoing basis that we have effective internal control over financial reporting in accordance with Section 404 and, when applicable to us, our independent registered public accounting firm may not be able or willing to issue an unqualified report on the effectiveness of our internal control over financial reporting. If we conclude that our internal control over financial reporting is not effective, we cannot be certain as to the timing of completion of our evaluation, testing and remediation actions or their effect on our operations because there is presently no precedent available by which to measure compliance adequacy.

In connection with the 2014 audit of our financial statements, we identified a material weakness in our internal control over financial reporting. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. This material weakness related to our presentation and classification of certain promotional obligations in the consolidated financial statements as well as our accounting for pricing concessions. We remediated this material weakness by implementing significant changes to our internal control over financial reporting throughout the course of the year ended December 31, 2015. Refer to Item 9A contained herein, for additional details regarding the changes made to our internal control over financial reporting.

Our costs will increase significantly as a result of operating as a public company, and our management will be required to devote substantial time to complying with public company regulations.

As a public company with SEC reporting, regulatory and stock exchange listing requirements, we are incurring additional legal, accounting, compliance and other expenses that we did not incur historically. We are obligated to file with the SEC annual and quarterly information and other reports that are specified in Section 13 and other sections of the Exchange Act, and therefore need to have the ability to prepare consolidated financial statements that are compliant with all SEC reporting requirements on a timely basis. In addition, we are subject to other reporting and corporate governance requirements, including certain requirements of the and certain provisions of Sarbanes-Oxley and the regulations promulgated thereunder, which impose significant compliance obligations upon us.

We are an emerging growth company, and we cannot be certain if the reduced disclosure requirements applicable to emerging growth companies will make our common stock less attractive to investors.

We are an emerging growth company ("EGC"), as defined in the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not EGCs, including not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. We cannot predict if investors will find our common stock less attractive because we may rely on these exemptions. If some investors find our common stock less attractive as a result, there may be a less active trading market for our common stock, and our stock price may be more volatile.

Although the JOBS Act permits an EGC such as us to take advantage of an extended transition period to comply with new or revised accounting standards applicable to public companies, we have chosen to “opt out” of this provision, and, as a result, we will comply with new or revised accounting standards as required when they are adopted. This decision to opt out of the extended transition period under the JOBS Act is irrevocable.

Table of Contents

If securities or industry analysts do not publish research or publish unfavorable research about our business, our stock price and trading volume could decline.

The trading market for our common stock is influenced by the research and reports that industry or securities analysts publish about us or our business. If one or more of these analysts ceases coverage of our company or fails to publish reports on us regularly, we could lose visibility in the financial markets, which in turn could cause our stock price or trading volume to decline. Moreover, if our operating results do not meet the expectations of the investor community, one or more of the analysts who cover our company may change their recommendations regarding our company, and our stock price could decline.

Provisions of our amended and restated certificate of incorporation, amended and restated bylaws, our stockholders agreement and the General Corporation Law of the State of Delaware could prevent an acquisition or other change in control of our Company that may be beneficial to our stockholders.

Our amended and restated certificate of incorporation, amended and restated bylaws and provisions of the General Corporation Law of the State of Delaware, or the DGCL, to which we are subject contain provisions that could discourage, delay, or prevent a change in control of our Company or changes in our board of directors and management that the stockholders of our Company may deem advantageous.

For as long as TA Associates continues to own a substantial number of shares of our common stock, representing a substantial number of votes entitled to be cast by holders of our common stock, it will have the ability to control decisions regarding an acquisition of us by a third party that are subject to a vote of our stockholders. In addition, our stockholders agreement provides that so long as the entities affiliated with TA Associates hold at least 25% of the shares they held immediately following our initial public offering regardless of the percentage such shares represent of our total outstanding shares, we, and our subsidiaries, shall not, without the approval of at least one director designated by TA Associates, amend our amended and restated certificate of incorporation or amended and restated bylaws or effect any sale, liquidation or dissolution of the Company, or sell, transfer or otherwise dispose of any of the material assets or properties of the Company or any of its subsidiaries. Accordingly, even though TA Associates may own a small percentage of our total outstanding shares of our common stock, they will continue to have substantial influence on our business and strategy.

In addition, our amended and restated certificate of incorporation, amended and restated bylaws and the DGCL contain provisions that could make it more difficult for a third party to acquire us without the consent of our board of directors. These provisions include a classified board of directors with each class serving three-year staggered terms, restrictions on the ability of our stockholders to remove directors, the inability of our stockholders to fill vacancies on our board of directors, in certain instances supermajority voting requirements for stockholders to amend our amended and restated certificate of incorporation and amended and restated bylaws, prohibition on action by our stockholders by written consent, advance notice requirements for stockholder proposals and director nominations, and the inability of our stockholders to call special meetings of stockholders. In addition, our board of directors has the right to issue preferred stock without stockholder approval, which could be used to dilute the stock ownership of a potential hostile acquirer. Moreover, we are subject to the restrictions on business combinations set forth in Section 203 of the DGCL, which generally will prohibit us from engaging in a business combination with a person who owns in excess of 15% of our outstanding voting stock for a period of three years after the time of the transaction in which the person acquired in excess of 15% of our outstanding voting stock, unless, among other exceptions, the transaction is approved in a prescribed manner. Although we believe these provisions protect our stockholders from coercive or otherwise unfair takeover tactics and thereby provide for an opportunity to receive a higher bid by requiring potential acquirers to negotiate with our board of directors, these provisions apply even if the offer may be considered beneficial by some stockholders.

Futures sales or other issuances of our common stock or issuances of securities convertible into our common stock would result in dilution to our stockholders and could adversely impact the market price of our common stock.

As of December 31, 2015, we had outstanding 74,843,470 shares of our common stock, including 4,991,858 shares of restricted stock. In the future we may sell additional shares of our common stock or securities convertible into our common stock to raise capital or issue additional shares of our common stock or securities convertible into our common stock as consideration for future acquisitions, which would dilute the voting power and ownership percentage of our stockholders. We cannot predict the size of future issuances of our common stock or securities convertible into our common stock or the effect, if any, that such future issuances might have on the market price for our common stock.

Table of Contents

The issuance and sale of substantial amounts of our common stock or securities convertible into our common stock, or the perception that such issuances and sales may occur, could also materially and adversely affect the market price of our common stock and impair our ability to raise capital through the issuance of additional equity securities.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

Our corporate headquarters are located in Austin, Texas in approximately 11,000 square feet of leased office space. Our customer service call center is located in Skokie, Illinois in approximately 2,200 square feet of leased office space. We believe our facilities are sufficient for our current needs.

Item 3. Legal Proceedings

From time to time, we may be subject to legal proceedings and claims in the ordinary course of business. We have received, and may in the future continue to receive, claims from third parties asserting, among other things, infringement of their intellectual property rights. Future litigation may be necessary to defend ourselves, our partners and our customers by determining the scope, enforceability and validity of third-party proprietary rights or to establish our proprietary rights. The results of any current or future litigation cannot be predicted with certainty and regardless of the outcome, litigation can have an adverse impact on us because of defense and settlement costs, diversion of management resources, and other factors.

Item 4. Mine Safety Disclosures

Not applicable.

Table of Contents

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market Information

Shares of our common stock are listed and traded on the New York Stock Exchange ("NYSE") under the symbol "BETR" and have been so traded since our IPO on August 5, 2015. The following table sets forth the high and low trading prices in dollars on the NYSE of shares of our common stock for each of the quarterly periods indicated.

	High	Low
Fiscal Year 2015		
Period from August 5, 2015 to September 30, 2015	\$16.56	\$10.00
Quarter ended December 31, 2015	13.44	10.24

Holders

According to the records of our transfer agent, we had 35 holders of record of our common stock as of March 14, 2016, including Cede & Co. as nominee for The Depository Trust Company (DTC). Cede & Co. as nominee for DTC holds shares of our common stock on behalf of participants in the DTC system, which in turn hold the shares of common stock on behalf of beneficial owners.

Distributions

Except as described below, we have not declared or paid a cash dividend on our capital stock. Any future determination to declare cash dividends will be made at the discretion of our board of directors, subject to applicable laws, and will depend on a number of factors, including our financial condition results of operations, capital requirements, contractual restrictions, general business conditions and other factors that our board of directors may deem relevant. The Credit Agreement governing our credit facility prohibits the payment of any dividends without obtaining the prior written consent of the lenders representing a majority of the outstanding principal under the Credit Agreement, other than dividends payable solely in our common stock.

In December 2014, SkinnyPop made a \$59.8 million distribution to the Company in connection with the second amendment to our Credit Agreement. The Company then distributed such amount to Topco, which then distributed such amount to its members. We refer to this distribution as the December 2014 Special Dividend.

In May 2015, SkinnyPop made a \$22.3 million distribution to the Company in connection with our Third Amended Credit Facility. The Company then distributed such amount to Topco, which then distributed such amount to its members. We refer to this distribution as the May 2015 Special Dividend.

We do not currently intend to declare or pay any similar special dividends in the foreseeable future.

Table of Contents

Performance Graph

The graph set forth below compares the cumulative total stockholder return on our common stock between August 5, 2015 (the date of our IPO) and December 31, 2015, with the cumulative total return of (i) the S&P Packaged Foods & Meats Index and (ii) the S&P Small Cap 600 Index. This graph assumes the investment of \$100 on August 5, 2015 in our common stock at our IPO offering price of \$18.00 per share, the S&P Packaged Foods & Meats Index and the S&P Small Cap 600 Index, and assumes the reinvestment of dividends, if any. The stock price performance shown in the following graph is not intended to forecast or be indicative of possible future stock price performance.

Equity Compensation Plan Information

See Item 12, “Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters” for information regarding securities authorized for issuance.

Item 6. Selected Financial Data

The following tables set forth our historical consolidated financial data. We have derived the selected (1) statements of income data for the year ended December 31, 2015 and the period July 17, 2014 to December 31, 2014 for the Successor (as discussed below) and for the period January 1, 2014 to July 16, 2014 and year ended December 31, 2013 for the Predecessor (as discussed below) and (2) balance sheet data as of December 31, 2015 and December 31, 2014 from our audited consolidated financial statements and related notes included elsewhere in this Annual Report on Form 10-K.

Our financial data prior to the date of the Sponsor Acquisition, which are the year ended December 31, 2013 and the period January 1, 2014 to July 16, 2014, are presented as the financial data of the Predecessor, which includes the results of the then-existing SkinnyPop Popcorn LLC. The financial data after the date of the Sponsor Acquisition, which is the period July 17, 2014 to December 31, 2014 and the year ended December 31, 2015, are presented as the financial data of the Successor. The balance sheet data as of December 31, 2015 and December 31, 2014 are presented as the balance sheets of the Successor. The Successor and Predecessor financial data has been prepared on different accounting bases and therefore the sum of the data for the two reporting periods should not be used as an indicator of our full year performance.

After the consummation of the Sponsor Acquisition, the Company along with its subsidiary SkinnyPop Popcorn LLC, are referred to collectively in this Annual Report on Form 10-K as the “Successor”. Prior to the consummation of the Sponsor Acquisition, SkinnyPop Popcorn LLC is referred to in this Annual Report on Form 10-K as the “Predecessor”.

Table of Contents

We applied Financial Accounting Standards Board ("FASB"), Accounting Standards Codification Topic 805, "Business Combinations" on July 17, 2014, the closing date of the Sponsor Acquisition, and as a result, the merger consideration in the Sponsor Acquisition was allocated to the respective fair values of the assets acquired and liabilities assumed from the Predecessor. The fair value of identifiable intangibles totaled approximately \$265.3 million and amortization of finite-lived intangibles was approximately \$4.2 million for the year ended December 31, 2015 and \$1.9 million for the Successor period July 17, 2014 to December 31, 2014. As a result of the application of acquisition method accounting, the Successor balances and amounts presented in the audited consolidated financial statements and footnotes are not comparable with those of the Predecessor. Our historical results are not necessarily indicative of the results that may be expected in the future.

You should read the following selected consolidated financial data below in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations", "Risk Factors" and all of our audited consolidated financial statements and related notes included elsewhere in this Annual Report (in thousands, except shares/units outstanding and per share/unit information).

Compensation discussed more fully in Notes 1 and 2 in the accompanying Notes to Consolidated Financial Statements contained in Item 8, current portion of the tax receivable obligation discussed more fully in Note 10 in the accompanying

Notes to Consolidated Financial Statements contained in Item 8 and other current liabilities.

⁽²⁾ Consists of goodwill, intangible assets- net, deferred tax assets- net, deferred financing costs- net and other non-current assets.

⁽³⁾ Consists of the current and non-current portion of indebtedness.

⁽⁴⁾ Consists of deferred tax liabilities- net, contingent consideration, equity awards liability, non-current portion of the tax receivable obligation discussed more fully in Note 10 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 and other non-current liabilities.

⁽⁵⁾ Represents the recognizable portion of Founder Contingent Compensation as of December 31, 2014, which was based on the maximum potential obligation allowable under the employment agreements. Refer to Notes 1 and 2 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 for a more detailed discussion regarding Founder Contingent Compensation.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this Annual Report on Form 10-K. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those discussed below. Factors that could cause or contribute to such differences include, but are not limited to, those identified below and those discussed in Item 1A. "Risk Factors" included elsewhere in this Annual Report on Form 10-K.

Our Company and Our Business

Amplify Snack Brands is a high growth, snack food company focused on developing and marketing products that appeal to consumers' growing preference for BFY snacks. Our anchor brand, SkinnyPop, is a rapidly-growing, highly-profitable and market-leading BFY RTE popcorn brand. In April 2015, we acquired Paqui, an emerging BFY tortilla chip brand, that has many of the same key taste and BFY attributes as SkinnyPop. We believe that our focus on building a portfolio of exclusively BFY snack brands will allow us to leverage our platform to realize material synergies across our family of BFY brands, as well as allow our retail customers to consolidate their vendor relationships in this large and growing segment.

Recent Developments

As discussed more fully in Note 1 in the accompanying Notes to Consolidated Financial Statements contained in Item 8, we completed our initial public offering ("IPO") on August 4, 2015, in which 15,000,000 common shares from the

Table of Contents

75,000,000 common shares then issued, were sold by selling stockholders to the public at a price of \$18.00 per share. We did not receive any proceeds from the sale of shares in this offering.

As discussed more fully in Note 3 in the accompanying Notes to Consolidated Financial Statements contained in Item 8, we acquired Paqui, an emerging BFY tortilla chip brand, in April 2015 for total consideration of approximately \$11.9 million. We may be required to pay additional earn-out consideration in 2019, which is contingent upon the achievement of a defined contribution margin during 2018. We plan to leverage our existing sales force and relationships with retail customers and distributors to help gain distribution for Paqui.

UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL INFORMATION

The unaudited pro forma consolidated statements of income for the year ended December 31, 2014 present our consolidated results of operations giving pro forma effect to the Sponsor Acquisition, the December 2014 Special Dividend and the May 2015 Special Dividend, as more fully described in Note 1 in the accompanying Notes to Consolidated Financial Statements contained in Item 8, as if such transactions had occurred as of January 1, 2014. The pro forma adjustments are based on available information and upon assumptions that our management believes are reasonable in order to reflect, on a pro forma basis, the impact of these transactions on the historical financial information of our Predecessor and Successor entities, as applicable.

The unaudited pro forma consolidated financial information should be read together with “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, “Risk Factors” and the historical consolidated financial statements and related notes included elsewhere in this Annual Report on Form 10K.

The Sponsor Acquisition was accounted for using the acquisition method of accounting. The initial estimated fair values of the acquired assets and assumed liabilities as of the date of acquisition, which are based on the consideration paid and estimates and our assumptions, are reflected herein. As explained in more detail in Note 1 in the accompanying Notes to Consolidated Financial Statements contained in Item 8, the total purchase price of approximately \$320 million to acquire the SkinnyPop business has been allocated to the assets acquired and assumed liabilities of SkinnyPop based upon estimated fair values at the date of acquisition. Independent valuation specialists conducted analyses in order to assist our management in determining the fair values of the acquired assets and liabilities assumed. The Company has completed its review of the purchase consideration and estimated fair value of assets acquired and liabilities assumed at the date of acquisition.

The unaudited pro forma consolidated financial information is included for informational purposes only and does not purport to reflect the results of operations of Amplify Snack Brands, Inc. that would have occurred had the Sponsor Acquisition, the December 2014 Special Dividend or the May 2015 Special Dividend occurred as of January 1, 2014. The unaudited pro forma consolidated financial information contains a variety of adjustments, assumptions and estimates, is subject to numerous other uncertainties and the assumptions and adjustments as described in the accompanying notes hereto and should not be relied upon as being indicative of our results of operations had the Sponsor Acquisition, the December 2014 Special Dividend and the May 2015 Special Dividend occurred on the dates assumed. The unaudited pro forma consolidated financial information also does not project our results of operations for any future period or date. The acquisition of Paqui occurred in April 2015. The unaudited pro forma consolidated financial information for the year ended December 31, 2014 does not include results of the Paqui acquisition. The consolidated financial information for the year ended December 31, 2015 includes the results of Paqui from April 17, 2015, the date of acquisition, through December 31, 2015, but was not given pro forma effect as if the acquisition had occurred as of January 1, 2014. We evaluated the impact of the Paqui acquisition to the Company’s financial statements and concluded that the impact was not significant enough to require or separately warrant the inclusion of pro forma financial results inclusive of Paqui under applicable SEC rules and regulations or under GAAP. The pro forma adjustments give effect to the following items in connection with the Sponsor Acquisition, the December 2014 Special Dividend and the May 2015 Special Dividend:

- the asset and liability valuations and related purchase price allocations associated with the Sponsor Acquisition;
- the exclusion of non-recurring Sponsor Acquisition-related expenses;
- the effect of the incurrence of a \$150 million term loan and \$7.5 million borrowing under our revolving facility in connection with the Sponsor Acquisition;

the incurrence of an incremental \$50 million under the Credit Agreement governing the \$150 million term loan, increasing the aggregate term loan to \$200 million, as part of the December 2014 Special Dividend;

Table of Contents

the incurrence of an incremental \$7.5 million under the Credit Agreement governing the \$200 million term loan, increasing the aggregate term loan to \$207.5 million and the incurrence of a \$15 million borrowing under our revolving facility increasing the aggregate revolving facility to \$25 million, each as part of the May 2015 Special Dividend;

the estimated compensation expense associated with the Founder Contingent Compensation in connection with the Sponsor Acquisition, based on our achievement of certain contribution margin benchmarks during the fiscal year 2015, and the tax benefit, to the extent realized by us, associated with the arrangement; and

the associated income tax expense effect of the above adjustments.

Net income	\$4,738	\$30,581	\$(21,711)	\$13,608
Basic and diluted earnings per share/unit	\$0.07	\$76,452.74		\$0.20
Basic and diluted weighted average shares/units outstanding	68,716,568	400		68,716,568

(1) The amounts in these columns represent our Successor's and Predecessor's historical results of operations for the periods reflected.

This adjustment reflects the incremental amortization expense associated with allocation of purchase price to finite-lived identified intangible assets consisting of customer relationships and non-competition agreements entered into with the founders.

This adjustment reflects the incremental compensation expense associated with the Founder Contingent Compensation that would have been recognized if the employment agreements with the founders had been in effect on January 1, 2014. The total estimated obligation of \$26.8 million was recognized ratably over the 18-month contractual service, which concluded on December 31, 2015.

This adjustment reflects the exclusion of non-recurring Sponsor Acquisition-related expenses consisting of transaction bonuses paid to employees in connection with the Sponsor Acquisition, and legal, accounting, tax, insurance and other diligence fees paid to consultants in connection with the Sponsor Acquisition.

This adjustment reflects the following adjustments to increase interest expense as a result the following financing activities; which for purposes of the Pro Forma adjustment are presumed to have been entered into effective January 1, 2014:

¹ Incurrence of a \$150 million term loan and a \$7.5 million borrowing under our revolving credit facility in connection with the Sponsor Acquisition;

ii. Incurrence of an incremental \$50 million term loan, increasing the aggregate term loan to \$200 million, in connection with the financing of the December 2014 Special Dividend; and

iii. Incurrence of an incremental \$7.5 million term loan, increasing the aggregate term loan to \$207.5 million, as well as the incurrence of a \$15 million borrowing under our revolving credit facility, each in connection with the financing of the May 2015 Special Dividend.

Table of Contents

Pro forma interest expense components:

Interest expense incurred in connection with term loan and revolving credit facility borrowings described above	\$12,026	
Amortization of capitalized debt issuance costs associated with term loan amortized over five years	758	
Revolving credit facility unused commitment fee	50	
Other administrative fees	50	
Total pro forma interest expense	12,884	
Less: actual interest expense for the period	(4,253)
Net pro forma adjustment to interest expense	\$8,631

Results of Operations

Our results of operations prior to the date of the Sponsor Acquisition are presented as the results of the Predecessor, SkinnyPop Popcorn LLC. The results of operations, including the Sponsor Acquisition and results thereafter, are presented as the results of the Successor, the Company and its consolidated subsidiaries. The Pro Forma Year Ended December 31, 2014 represent the unaudited pro forma consolidated statement of income for the year ended December 31, 2014 after giving pro forma effect to the Sponsor Acquisition, the December 2014 Special Dividend and the May 2015 Special Dividend as if such transactions had occurred on January 1, 2014, as more fully described in “Unaudited Pro Forma Consolidated Financial Information”, which section includes a comparative presentation showing all pro forma adjustments made to our historical statement of income for the Predecessor and Successor periods in accordance with the rules and regulations of the SEC. We believe it provides useful information in assessing our business.

The unaudited pro forma consolidated statement of income is included for informational purposes only and does not purport to reflect the results of operations of Amplify Snack Brands, Inc. that would have occurred had the Sponsor Acquisition, the December 2014 Special Dividend and the May 2015 Special Dividend occurred on January 1, 2014. The unaudited pro forma consolidated statement of income contains a variety of adjustments, assumptions and estimates, are subject to numerous other uncertainties and the assumptions and adjustments as described in the accompanying notes hereto and should not be relied upon as being indicative of our results of operations had the Sponsor Acquisition, the December 2014 Special Dividend and the May 2015 Special Dividend occurred on the date assumed. The unaudited pro forma consolidated statement of income also does not project our results of operations for any future period or date. The unaudited pro forma consolidated statement of income does not include results of the Paqui acquisition. We evaluated the impact of the Paqui acquisition to our financial statements and concluded that the impact was not significant enough to require or separately warrant the inclusion of pro forma financial results inclusive of Paqui under applicable SEC rules and regulations or under GAAP.

Table of Contents

Comparison of Year Ended December 31, 2015 to Pro Forma Year Ended December 31, 2014 (unaudited)

The following table compares our results of operation, including as a percentage of net sales, for the year ended December 31, 2015 to the pro forma year ended December 31, 2014 (unaudited). Amounts are in thousands except percentage information.

	Successor		Pro Forma Combined		
	Year Ended December 31, 2015	% of Net Sales	Year Ended December 31, 2014	% of Net Sales	
Net sales	\$183,915	100.0	% \$132,357	100.0	%
Cost of goods sold	80,972	44.0	58,153	43.9	
Gross profit	102,943	56.0	74,204	56.1	
Sales & marketing expenses	18,527	10.1	12,638	9.6	
General & administrative expenses	46,261	25.1	27,238	20.6	
Sponsor acquisition-related expenses	—	—	510	0.4	
Loss on change in fair value of contingent consideration	1,521	0.8	—	—	
Total operating expenses	66,309	36.0	40,386	30.6	
Operating income	36,634	20.0	33,818	25.5	
Interest expense	12,428	6.8	12,884	9.7	
Income before income taxes	24,206	13.2	20,934	15.8	
Income tax expense	14,321	7.8	7,326	5.5	
Net income	\$9,885	5.4	% \$13,608	10.3	%

Net Sales

Net sales increased \$51.6 million, or 39.0%, from \$132.4 million for the pro forma year ended December 31, 2014 (unaudited) to \$183.9 million for the year ended December 31, 2015. Our net sales growth was primarily driven by volume increases resulting from increases in both the number of distribution points and sales to existing customers and the addition of new customers, primarily in the club, conventional grocery and mass merchandiser channels. Total distribution points increased 77% from 136 at December 31, 2014 to 240 at December 31, 2015. Product price changes did not significantly impact sales growth from period to period. We expect to see continued growth in net sales from our SkinnyPop brand in 2016 when compared to 2015 for the reasons discussed above. In addition, we expect the national launch of our Paqui tortilla chip brand to contribute additional net sales in 2016.

Cost of Goods Sold/Gross Profit

Gross profit increased \$28.7 million, or 38.7%, from \$74.2 million for the pro forma year ended December 31, 2014 (unaudited) to \$102.9 million for the year ended December 31, 2015. This increase was primarily related to the increase in net sales discussed above. Gross profit as a percentage of net sales decreased approximately 10 basis points, from 56.1% for the pro forma year ended December 31, 2014 (unaudited) to 56.0% for the year ended December 31, 2015. The decrease in gross profit as a percentage of net sales was primarily driven by product mix shift from expansion into lower margin products and higher transportation costs from geographic and channel expansion, partially offset by improved rates on materials and ingredients. We expect gross profit as a percentage of net sales to decrease slightly in 2016 when compared to 2015 for the reasons discussed above, as well as the national launch of our Paqui tortilla chip brand, which has a more typical snacking industry gross profit profile than our SkinnyPop brand.

Sales and Marketing Expenses

Sales and marketing expenses increased \$5.9 million, or 46.6%, from \$12.6 million for the pro forma year ended December 31, 2014 (unaudited) to \$18.5 million for the year ended December 31, 2015. The increase was due primarily to an increase in compensation expense associated with our efforts to build out our internal sales team and an increase in consumer marketing expenses to drive brand awareness and trial. Sales and marketing expenses as a percentage of net sales increased from 9.6% for the pro forma year ended December 31, 2014 (unaudited) to 10.1%

for the year ended December 31, 2015.

Table of Contents

We anticipate that sales and marketing expenses will increase in both absolute dollars and as a percentage of net sales in 2016, when compared to 2015, as we build out our internal sales team further and continue our consumer marketing efforts to drive brand awareness and trial of our SkinnyPop and Paqui brands.

General and Administrative Expenses

General and administrative expenses increased \$19.0 million, or 69.8%, from \$27.2 million for the pro forma year ended December 31, 2014 (unaudited) to \$46.2 million for the year ended December 31, 2015. The increase was primarily due to the incurrence of costs related to our IPO of approximately \$9.3 million, which closed in August 2015, as well as infrastructure investments, including personnel and systems, and new administrative costs required to operate effectively as a public company. General and administrative expenses as a percentage of net sales was 20.6% for the pro forma year ended December 31, 2014 (unaudited) and 25.1% for the year ended December 31, 2015.

We expect our general and administrative expenses to decrease significantly in both absolute dollars and as a percentage of net sales in 2016, when compared to 2015, as the contingent compensation arrangement with the founders of the SkinnyPop brand was fully accrued as of December 31, 2015. In addition, we will not incur IPO related costs in 2016. These decreases in general and administrative expenses will be partially offset by the full year impact of our investments in personnel and systems required to support the growth of our business. We also expect to see the full year impact of costs associated with operating as a public company.

Sponsor Acquisition-Related Costs

The Sponsor Acquisition-related costs of \$0.5 million for the pro forma year ended December 31, 2014 (unaudited) included a supplemental transaction payment and related expenses paid to Precision Capital, an advisor to the Predecessor, in connection with the Sponsor Acquisition. There were no such costs for the year ended December 31, 2015.

Loss on Change in Fair Value of Contingent Consideration

In addition to the base purchase price consideration paid at closing for Paqui in April 2015, the acquisition agreement requires that we pay additional purchase price earn-out consideration contingent upon the achievement of a defined contribution margin during 2018. We established the fair value of the contingent consideration based on the facts and circumstances that existed as of the acquisition date. At December 31, 2015, we remeasured the fair value of the contingent consideration based on our revised forecast of Paqui operating results in 2018, which resulted in a non-cash loss of approximately \$1.5 million. Refer to Notes 2 and 3 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 for a more detailed discussion about the Paqui acquisition and the related contingent consideration.

Interest Expense

Interest expense decreased \$0.5 million, or 3.5%, from \$12.9 million for the pro forma year ended December 31, 2014 (unaudited) to \$12.4 million for the year ended December 31, 2015. The decrease in interest expense was primarily due to pay downs on our revolving facility and scheduled quarterly principal payments on our term loan, partially offset by interest expense associated with notes payable issued to the sellers of Paqui in April 2015. Assuming we do not borrow under our revolving credit facility to fund acquisition opportunities or other efforts in 2016, we anticipate interest expense will decrease in 2016 when compared to 2015, as we expect to continue making scheduled quarterly principal payments on our term loan in 2016.

Income Tax Expense

Income tax expense increased \$7.0 million, or 95.5%, from \$7.3 million for the pro forma year ended December 31, 2014 (unaudited) to \$14.3 million for the year ended December 31, 2015. The effective tax rate was 35.0% for the pro forma year ended December 31, 2014 (unaudited) and 59.2% for the year ended December 31, 2015. The increase to the effective tax rate was primarily due to significant IPO-related costs as well as equity-based compensation charges, both of which are not tax deductible. We anticipate income tax expense will increase significantly in absolute dollars in 2016 when compared to 2015 based on our business growth expectations.

Table of Contents

Comparison of Pro Forma Year Ended December 31, 2014 to Year Ended December 31, 2013

The following table compares our results of operation, including as a percentage of net sales, for the pro forma year ended December 31, 2014 to the year ended December 31, 2013. Amounts are in thousands except percentage information.

	Pro Forma Combined		Predecessor	
	Year Ended December 31, 2014	% of Net Sales	Year Ended December 31, 2013	% of Net Sales
Net sales	\$ 132,357	100.0 %	\$ 55,710	100.0 %
Cost of goods sold	58,153	43.9	23,054	41.4
Gross profit	74,204	56.1	32,656	58.6
Sales & marketing expenses	12,638	9.5	5,938	10.7
General & administrative expenses	27,238	20.6	1,960	3.5
Sponsor acquisition-related expenses	510	0.4	—	—
Total operating expenses	40,386	30.5	7,898	14.2
Operating income	33,818	25.6	24,758	44.4
Interest expense	12,884	9.7	—	—
Income before income taxes	20,934	15.8	24,758	44.4
Income tax expense	7,326	5.5	—	—
Net income	\$ 13,608	10.3 %	\$ 24,758	44.4 %

Net Sales

Net sales increased \$76.6 million, or 138.0%, from \$55.7 million for the year ended December 31, 2013 to \$132.4 million for the pro forma year ended December 31, 2014 (unaudited). Our net sales growth was primarily driven by volume increases resulting from increases in both the number of distribution points and sales to existing customers and the addition of new customers, primarily in the drug, conventional grocery and mass merchandiser channels. Volume growth resulted in an increase in net sales of approximately \$73.0 million. Total distribution points increased 178% from 49 at December 31, 2013 to 136 at December 31, 2014. New customers acquired during 2014 accounted for approximately \$3.6 million of the increase in net sales. Product price changes did not significantly impact sales growth from period to period.

Cost of Goods Sold/Gross Profit

Gross profit increased \$41.5 million, or 127.0%, from \$32.7 million for the year ended December 31, 2013 to \$74.2 million for the pro forma year ended December 31, 2014 (unaudited). This increase was primarily related to the increase in net sales discussed above. Gross profit as a percentage of net sales decreased approximately 2.5%, from 58.6% for year ended December 31, 2013 to 56.1% the pro forma year ended December 31, 2014 (unaudited). The decrease in gross profit as a percentage of net sales was primarily driven by product mix shift from expansion into lower margin products and higher transportation costs from geographic and channel expansion, partially offset by improved rates on materials and ingredients.

Sales and Marketing Expenses

Sales and marketing expenses increased \$6.7 million, or 112.8%, from \$5.9 million for the year ended December 31, 2013 to \$12.6 million for the pro forma year ended December 31, 2014 (unaudited). The increase was due primarily to increases in demonstrations expense of \$2.0 million and broker fees of \$3.0 million related to the increase in net sales. Compensation expense for sales and marketing personnel also increased \$1.0 million as we began to build out our internal sales team in 2014. Sales and marketing expenses as a percentage of net sales decreased from 10.7% for the year ended December 31, 2013 to 9.5% for the pro forma year ended December 31, 2014 (unaudited).

General and Administrative Expenses

General and administrative expenses increased \$25.3 million, or 1,289.7%, from \$2.0 million for the year ended December 31, 2013 to \$27.2 million for the pro forma year ended December 31, 2014 (unaudited). The increase was

Table of Contents

due primarily to an increase in compensation expense associated with the Founder Contingent Compensation of \$18.4 million, an increase in amortization expense of intangibles of \$4.2 million associated with the Sponsor Acquisition, an increase in compensation expense of \$1.2 million and an increase in professional fees of \$1.2 million due to increased headcount and professional services to support our growth and operations. General and administrative expenses as a percentage of net sales increased from 3.5% for the year ended December 31, 2013 to 20.6% for the pro forma year ended December 31, 2014 (unaudited). The increase was a result of the factors described above.

Sponsor Acquisition-Related Costs

The Sponsor Acquisition-related costs of \$0.5 million for the pro forma year ended December 31, 2014 (unaudited) included a supplemental transaction payment and related expenses paid to Precision Capital, an advisor to the Predecessor, in connection with the Sponsor Acquisition. There were no such costs for the year ended December 31, 2013.

Interest Expense

Interest expense was \$12.9 million for the pro forma year ended December 31, 2014 (unaudited). There was no interest expense for the year ended December 31, 2013. Interest expense increased in 2014 due to the incurrence of term loan and revolver borrowings in connection with the Sponsor Acquisition, the December 2014 Special Dividend and the May 2015 Special Dividend.

Income Tax Expense

Income tax expense was \$7.3 million for the pro forma year ended December 31, 2014 (unaudited). There was no income tax expense for the year ended December 31, 2013. Our effective tax rate was 42.4% for the Successor period July 17, 2014 to December 31, 2014. The difference between the consolidated effective income tax rate for the Successor period and the U.S. federal statutory rate is primarily attributable to state taxes, net of federal benefit. The Predecessor was not subject to federal income tax.

Liquidity and Capital Resources

Liquidity represents our ability to generate sufficient cash from operating activities to satisfy obligations, as well as our ability to obtain appropriate financing. Therefore, liquidity cannot be considered separately from capital resources that consist primarily of current and potentially available funds for use in achieving our objectives. Currently, our liquidity needs arise mainly from working capital requirements, primarily related to our purchases of ingredients and interest and principal payments on our outstanding indebtedness and, to a lesser extent, to capital expenditures. We believe our cash on hand and cash to be provided from our operations, in addition to borrowings available under our credit facility, will be sufficient to fund our contractual commitments, including with respect to the Founders Contingent Compensation and the tax receivable agreement, repay our obligations as required and meet our operational requirements for at least the next 12 months. In addition, we have an uncommitted incremental revolving facility that we believe would be available if we requested it from lenders. As of December 31, 2015 and December 31, 2014, \$25.0 million and \$7.5 million, respectively, was available for borrowing under our revolving credit facility and we had \$18.8 million and \$5.6 million of cash and cash equivalents on hand, respectively.

The interest expense on our outstanding indebtedness for the year ended December 31, 2014 on a pro forma basis would have been \$12.9 million had the \$207.5 million aggregate principal amount of debt under the Credit Facility been incurred on January 1, 2014. The interest expense on our outstanding indebtedness for the year ended December 31, 2015 was \$11.6 million. In 2016, we expect to use approximately \$25.2 million in cash to pay the Founder Contingent Compensation, which we expect to fund through a combination of borrowings under our revolving facility and cash on hand. In addition, we expect to use cash to make payments under the tax receivable agreement and such amounts are expected to be significant over the next fifteen years.

Table of Contents

Historical Cash Flow

Comparison of Year Ended December 31, 2015 to Year Ended December 31, 2014 (Combined)

The following table summarizes our cash flows from operating, investing and financing activities:

(In thousands)	Successor Year Ended December 31, 2015	July 17, 2014 to December 31, 2014	Predecessor January 1, 2014 to July 16, 2014	Combined Year Ended December 31, 2014	Change
Cash flows provided by (used in):					
Operating activities	\$46,999	\$12,719	\$26,339	\$39,058	\$7,941
Investing activities	(8,607)	(294,630)	(278)	(294,908)	286,301
Financing activities	(25,256)	287,526	(28,533)	258,993	(284,249)
Net increase (decrease) in cash	\$13,136	\$5,615	\$(2,472)	\$3,143	\$9,993

Operating Activities

Net cash provided by operating activities increased \$7.9 million from \$39.1 million for the year ended December 31, 2014 (combined) to \$47.0 million for the year ended December 31, 2015. The increase in cash provided by operating activities was primarily driven by increased sales partially offset by the payment of IPO related transaction costs and new costs associated with operating as a public company.

Investing Activities

Net cash used in investing activities decreased \$286.3 million from \$294.9 million for the year ended December 31, 2014 (combined) to \$8.6 million for the year ended December 31, 2015. During the year ended December 31, 2015, we used \$7.8 million to acquire Paqui, net of cash acquired, and made capital expenditures of \$0.8 million. Capital expenditures consisted primarily of the purchase of furniture and office equipment for our new corporate headquarters in Austin, Texas.

During the Successor period July 17, 2014 to December 31, 2014, we used \$294.4 million to acquire the Predecessor in connection with the Sponsor Acquisition, net of cash acquired, and capital expenditures of \$0.2 million, which was primarily for production equipment located at our co-manufacturer's facility.

During the Predecessor period January 1, 2014 to July 16, 2014, we used \$0.3 million to purchase capital, primarily consisting of production equipment located at our co-manufacturer's facility.

Financing Activities

Net cash provided by financing activities was \$259.0 million for the year ended December 31, 2014 (combined) compared to net cash used in financing activities of \$25.3 million for the year ended December 31, 2015, resulting in a decrease in cash provided by financing activities of \$284.3 million for the comparable periods. Net cash used in financing activities for the year ended December 31, 2015 included \$22.3 million of distributions paid to members of Topco in May, \$10.2 million of scheduled principal payments toward the outstanding balance on our term loan and pay downs totaling \$15.0 million on our revolving facility. These cash outflows were partially offset by borrowings of \$22.5 million from our term loan and revolving facility which were used to fund the distributions paid to members of Topco in May.

Net cash provided by financing activities for the Successor period July 17, 2014 to December 31, 2014 included an equity contribution of \$151.0 million in connection with the Sponsor Acquisition and proceeds from the issuance of term loans totaling \$200.0 million, net of fees and expenses of \$3.7 million. These cash inflows were partially offset by a \$59.8 million distribution paid to members of Topco.

Cash used in financing activities for the Predecessor period January 1, 2014 to July 16, 2014 included cash paid as distributions to the members of the Predecessor entity.

Table of Contents

Comparison of Year Ended December 31, 2014 (Combined) to Year Ended December 31, 2013

The following table summarizes our cash flows from operating, investing and financing activities:

(In thousands)	Combined Year Ended December 31, 2014	Successor July 17, 2014 to December 31, 2014	Predecessor January 1, 2014 to July 16, 2014	Year Ended December 31, 2013	Change
Cash flows provided by (used in):					
Operating activities	\$39,058	\$12,719	\$26,339	\$22,469	\$16,589
Investing activities	(294,908)	(294,630)	(278)	(456)	(294,452)
Financing activities	258,993	287,526	(28,533)	(19,362)	278,355
Net increase (decrease) in cash	\$3,143	\$5,615	\$(2,472)	\$2,651	\$492

Operating Activities

Net cash provided by operating activities increased \$16.6 million, from \$22.5 million for the year ended December 31, 2013 to \$39.1 million for the year ended December 31, 2014 (combined). The increase in cash provided by operating activities was primarily driven by increased sales and business activity as evidenced by increases in accounts receivable, inventory, accounts payable and accrued liabilities.

Investing Activities

Net cash used in investing activities increased \$294.5 million, from \$0.5 million for the year ended December 31, 2013 to \$294.9 million for the year ended December 31, 2014 (combined).

During the Successor period July 17, 2014 to December 31, 2014, we used \$294.4 million to acquire the Predecessor in connection with the Sponsor Acquisition, net of cash acquired, and capital expenditures of \$0.2 million, which was primarily for production equipment located at our co-manufacturer's facility.

During the Predecessor periods January 1, 2014 to July 16, 2014 and year ended December 31, 2013, we used \$0.3 and \$0.5 million, respectively, to purchase capital, primarily consisting of production equipment located at our co-manufacturer's facility.

Financing Activities

Net cash provided by financing activities was \$259.0 million for the year ended December 31, 2014 (combined) compared to net cash used in financing activities of \$19.4 million for the year ended December 31, 2013, resulting in an increase in cash provided by financing activities of \$278.4 million for the comparable periods.

Net cash provided by financing activities for the Successor period July 17, 2014 to December 31, 2014 included an equity contribution of \$151.0 million in connection with the Sponsor Acquisition and proceeds from the issuance of term loans totaling \$200.0 million, net of fees and expenses of \$3.7 million. These cash inflows were partially offset by a \$59.8 million distribution paid to members of Topco in December.

Net cash used in financing activities for the Predecessor periods January 1, 2014 to July 16, 2014 and year ended December 31, 2013 included cash paid as distributions to the members of the Predecessor entity.

Indebtedness

On July 17, 2014, SkinnyPop Popcorn LLC entered into the Credit Agreement, which provided for a \$150.0 million term loan facility and a \$7.5 million revolving facility. These senior secured credit facilities, or the Credit Facility, were guaranteed by the Company. The Credit Facility will mature on July 17, 2019, with an option to extend the maturity of the term loan with the consent of lenders willing to provide such extension.

The Credit Facility replaced our prior line of credit, which had a zero balance immediately prior to the entry into the Credit Facility. Immediately after the closing of the Credit Facility, total outstanding debt under the Credit Facility was \$150.0 million in term loan debt. There were no borrowings under the revolving facility.

Table of Contents

On August 18, 2014, we amended the Credit Facility, or the Amended Credit Facility, to remove certain total funded debt-to-EBITDA interest rate reductions and implement a static interest rate margin based on either the Eurodollar Rate or the Base Rate (as each is defined in the Amended Credit Facility).

On December 23, 2014, we amended the Amended Credit Facility to increase our term loan borrowings by \$50.0 million to a total of \$200.0 million, with such borrowings having the same interest rate as the original term loans under the Amended Credit Facility. In addition, we amended the financial covenants in the Amended Credit Facility to increase the total funded debt-to-EBITDA covenant for each quarterly period to reflect our higher leverage. The Amended Credit Facility, as so amended is referred to as the Second Amended Credit Facility.

On May 29, 2015, we amended the Second Amended Credit Facility to increase our term loan borrowings by \$7.5 million to a total of \$205 million, net of principal payments made in the first quarter of 2015 totaling \$2.5 million, and our revolving facility by \$17.5 million to a total of \$25 million. The Second Amended Credit Facility, as so amended, is referred to as the Third Amended Credit Facility. At the closing of the Third Amended Credit Facility, we borrowed \$15 million under our revolving facility, which, along with our term loan borrowings, have the same interest rate as the term and revolving loans under the Second Amended Credit Facility. The interest rate on our outstanding indebtedness was 5.5% per annum at December 31, 2015 and December 31, 2014.

Proceeds from the initial term loan borrowings were primarily used to finance the Sponsor Acquisition and to pay fees and expenses in connection therewith. Proceeds of the Second and Third Amended Credit Facilities were primarily used to pay the December 2014 and May 2015 Special Dividends to the equity holders of Topco.

In the future, we may use the revolving facility for working capital and for other general corporate purposes, including acquisitions, investments, dividends and distributions, to the extent permitted under the Third Amended Credit Facility. The Third Amended Credit Facility also provides that, upon satisfaction of certain conditions, we may increase the aggregate principal amount of the loans outstanding thereunder by an amount not to exceed \$50 million, subject to receipt of additional lending commitments for such loans.

Interest

Outstanding term loan and revolving facility borrowings under the Third Amended Credit Facility bear interest at a rate per annum equal to (a) the Eurodollar Rate plus 4.50% or (b) the Base Rate (equal in this context to the greater of (i) the prime rate, (ii) the federal funds rate plus 1/2 of 1.00% and (iii) the Eurodollar Rate plus 1.00%) (but subject to a minimum of 2.00%) plus 3.50%. The term loans under the Third Amended Credit Facility, amortize in equal quarterly installments of approximately \$2.6 million, with the balance due at maturity.

We are required to pay a commitment fee of the unused commitments under the revolving facility at a rate equal to 0.50% per annum.

Guarantees

The loans and other obligations under the Third Amended Credit Facility (including in respect of hedging agreements and cash management obligations) are (a) guaranteed by the Company and its existing and future wholly-owned U.S. subsidiaries and (b) secured by substantially all of the assets of the Company and its existing and future wholly-owned U.S. subsidiaries, in each case subject to certain customary exceptions and limitations.

Covenants

As of the last day of any fiscal quarter of the Company, the terms of the Third Amended Credit Facility require the Company and its subsidiaries (on a consolidated basis and subject to certain customary exceptions) to maintain (x) a maximum total funded debt to consolidated EBITDA ratio of not more than 4.25 to 1.0, initially, and decreasing to 2.25 to 1.0 over the term of the Third Amended Credit Facility and (y) a minimum fixed charge coverage ratio of not less than 1.10 to 1.00. As of December 31, 2015 and December 31, 2014, we were in compliance with our financial covenants.

In addition, the Third Amended Credit Facility contains (a) customary provisions related to mandatory prepayment of the loans thereunder with (i) 50% of Excess Cash Flow (as defined in the Third Amended Credit Facility), subject to step-downs to 25% and 0% of Excess Cash Flow at certain leverage-based thresholds and (ii) the proceeds of asset sales and casualty events (subject to certain customary limitations, exceptions and reinvestment rights) and (b) certain covenants that, among other things, restrict additional indebtedness, liens and encumbrances, investments, acquisitions, loans and advances, mergers, consolidations and asset dispositions, dividends and other restricted

payments, transactions with affiliates and other matters customarily restricted in such agreements, in each case,

Table of Contents

subject to certain customary exceptions. Based on our calculation of Excess Cash Flow and our Senior Secured Leverage Ratio (as defined in the Third Amended Credit Facility) as of December 31, 2015, we will make a prepayment on our term loan of \$2.5 million, no later than May 6, 2016.

Although the Third Amended Credit Facility generally prohibits payments and dividends and distributions, we are permitted, subject to certain customary conditions such as the absence of events of default and compliance with financial covenants, to make payments, dividends or distributions including (a) earnout payments, (b) payments, dividends or distributions in cash from retained excess cash flow and certain proceeds from distributions from or sales of investments, (c) payments, dividends or distributions in an unlimited amount from the proceeds of equity issuances and (d) payments, dividends or distributions not to exceed \$5.0 million in the aggregate.

Under the Third Amended Credit Facility, the Founder Contingent Compensation may be paid at any time so long as no payment default under the Third Amended Credit Facility has occurred and is continuing and, immediately after giving effect to such payment, the Company has at least \$5.0 million of cash and cash equivalents subject to a first priority lien in favor of the lenders party thereto plus availability under the revolving facility. In the event we are not permitted to pay the Founder Contingent Compensation under the Third Amended Credit Facility we will no longer be obligated to make such payment under the employment agreements with the founders subject to limited exceptions. The Third Amended Credit Facility also contains customary events of default, including payment defaults, breaches of representations and warranties, covenant defaults, cross-defaults to certain material indebtedness in excess of specified amounts, certain events of bankruptcy and insolvency, certain ERISA events, judgments in excess of specified amounts, certain impairments to the guarantees or collateral documents and change in control defaults.

Other

Certain of the lenders under the Third Amended Credit Facility (or their affiliates) may provide, certain commercial banking, financial advisory and investment banking services in the ordinary course of business for us and our subsidiaries, for which they receive customary fees and commissions.

Notes Payable

In April 2015, we issued approximately \$3.9 million in unsecured notes payable to the sellers of Paqui in connection with its acquisition. The notes bear interest at a rate per annum of 1.5% with principal and interest due at maturity on March 31, 2018. We recorded an acquisition-date fair value discount of approximately \$0.2 million based on market rates for debt instruments with similar terms, which is amortized to interest expense over the term of the notes using the effective-interest method.

Contractual Obligations and Other Long-Term Liabilities

The following table summarizes our contractual obligations as of December 31, 2015 (amounts in thousands):

	Payments Due by Period				Total
	2016	2017 - 2018	2019 - 2020	Thereafter	
Long-term debt	\$12,750	\$24,405	\$164,062	\$—	\$201,217
Interest on long-term debt	11,020	20,084	5,057	—	36,161
Operating leases ⁽¹⁾	361	709	724	1,312	3,106
Purchase commitments ⁽²⁾	12,787	6,565	—	—	19,352
Founder contingent compensation ⁽³⁾	25,197	—	—	—	25,197
Tax receivable obligation ⁽⁴⁾	6,632	13,413	13,413	62,672	96,130
Total contractual obligations	\$68,747	\$65,176	\$183,256	\$63,984	\$381,163

Operating leases include total future minimum rent payments under non-cancellable operating lease agreements.

(1) We lease our corporate headquarters located in Austin, Texas and our customer service call center located in Skokie, Illinois. Refer to Notes 10 and 11 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 for a more detailed discussion about these contractual obligations.

(2) We have non-cancellable purchase commitments to purchase ingredients to be used in the future to manufacture products. We have not reflected any minimum purchase requirements, termination fees or penalty fees under our contract with this co-manufacturer. Refer to Note 11 in the accompanying Notes to Consolidated Financial

Statements contained in Item 8 for a more detailed discussion about these contractual obligations.

Table of Contents

In connection with the Sponsor Acquisition, the Company's two founders entered into employment agreements with the Company through December 31, 2015. Under the terms of these agreements, the two founders are each eligible to receive up to \$10 million upon the Company's achievement of certain contribution margin benchmarks during (3) the period commencing on January 1, 2015 and ending on December 31, 2015. The founders are also eligible to receive further payment contingent on the potential future tax savings associated with the deductibility of the payments under these agreements. Refer to Note 1 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 for a more detailed discussion about these contractual obligations.

Immediately prior to the consummation of the IPO in August 2015, we entered into a Tax Receivable Agreement ("TRA") with the former holders of units in Topco. In December 2015, all of the former holders of units of Topco collectively assigned their interests to a new counterparty. The TRA generally provides for the payment by the (4) Company to the counterparty of 85% of the U.S. federal, state and local tax benefits realized by us and our subsidiaries from the utilization of certain tax attributes that were generated when SkinnyPop Popcorn LLC was acquired by affiliates of TA Associates in July 2014. The table above reflects the full and undiscounted amount of expected future payments. Refer to Note 10 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 for a more detailed discussion about this contractual obligation.

Off-Balance Sheet Arrangements

Through December 31, 2015, we did not have any relationships with unconsolidated organizations or financial partnerships, such as structured finance or special purpose entities that would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

Critical Accounting Policies and Estimates

We prepare our consolidated financial statements in accordance with accounting principles generally accepted in the United States ("GAAP"). In the preparation of these consolidated financial statements, we are required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, costs and expenses and related disclosures. To the extent that there are material differences between these estimates and actual results, our financial condition or results of operations would be affected. We base our estimates on past experience and other assumptions that we believe are reasonable under the circumstances, and we evaluate these estimates on an ongoing basis. We believe that the accounting policies discussed below are critical to understanding our historical and future performance, as these policies relate to the more significant areas involving our judgments and estimates.

Recognition of Net Sales, Sales Incentives and Trade Accounts Receivable

Net sales are recognized when the earnings process is complete and the risks and rewards of ownership have transferred to the customer, which occurs upon the receipt and acceptance of product by the customer. Our customers are primarily businesses that are stocking our products. The earnings process is generally complete once the customer order has been placed and approved and the product shipped has been received by the customer. In certain circumstances the earnings process is completed when product is picked up by our customers at our co-manufacturers. Product is sold to customers on credit terms established on a customer-by-customer basis. The credit factors used include historical performance, current economic conditions and the nature and volume of the product.

We offer our customers a variety of sales and incentive programs, including price discounts, coupons, slotting fees, in-store displays and trade advertising. The more significant programs we offer include:

Price discounts—certain price discounts are provided in the form of allowances at the time of invoicing while others are provided based on future consumer purchasing activity.

Coupons—we participate in coupon programs with customers, including "multi-vendor mailer" coupon programs with club retailers.

In-store displays—we authorize in-store displays and pay a fee to the customer for the promotional feature. The costs of these programs are recognized at the time the related sales are recorded and are classified as a reduction in net sales. These program costs are recorded based on estimated participation and performance levels of the offered programs, based upon factors such as historical trends with similar promotions, expectations regarding customer and consumer participation and sales and payment trends with similar previously offered programs. We maintain a sales and promotional incentive allowance at the end of each period for the estimated trade program costs incurred but unpaid, which is recorded as a reduction in our trade accounts receivable balance. Evaluating these estimates requires management judgment and, as such, actual results may differ from our estimates. Historically, differences between

Table of Contents

estimated and actual trade program costs are generally not material and are recognized as a change in net sales and promotional incentive allowance in the period such differences are determined.

We extend unsecured credit to our customers in the ordinary course of business and make efforts to mitigate the associated credit risk by performing credit checks and actively pursuing past due accounts. Accounts are charged to bad debt expense as they are deemed uncollectible based upon a periodic review of aging and collections.

Inventories

Inventories are valued at the lower of cost or market using the weighted-average cost method.

Write-downs are provided for finished goods expected to become non-saleable due to age and provisions are specifically made for slow moving or obsolete raw ingredients and packaging. We also adjust the carrying value of our inventories when we believe that the net realizable value is less than the carrying value. These adjustments are estimates that require management judgment. Actual results could vary from our estimates and additional inventory write-downs could be required.

Tax Receivable Agreement

In August 2015, we entered into a Tax Receivable Agreement (“TRA”) with the former holders of units in Topco. We estimated the liability incurred by the Company under the TRA at approximately \$96.1 million, based on the full and undiscounted amount of expected future payments under the TRA, in consideration of a reduction in our future U.S. federal, state and local taxes resulting from the utilization of certain tax attributes. We accounted for the amount payable under the TRA as a dividend and have determined, in consultation with outside counsel, there are no relevant state laws or Company bylaws that address the specific equity account for which distributions to stockholders can be made. Accordingly, we have made an accounting policy election for such special dividend transactions to be recorded against additional paid in capital.

Goodwill and Intangible Assets

In connection with the Sponsor Acquisition in July 2014 and the acquisition of Paqui in April 2015, we recorded goodwill totaling \$47.4 million resulting from the excess of aggregate purchase consideration over the fair value of the assets acquired and liabilities assumed.

Goodwill is tested annually for impairment or more frequently if events or changes in circumstances indicate, more likely than not, that impairment may have occurred. Events or circumstances that might indicate an interim valuation is warranted include unexpected changes in business conditions, economic factors or a sustained decline in our market capitalization below our carrying value. We have the option to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. Otherwise, the impairment analysis for goodwill includes a comparison of our carrying value (including goodwill) to the estimated fair value of our reporting units.

The estimate of the fair values of our reporting units are based on the best information available as of the date of the assessment. We generally use a blended analysis of the present value of discounted cash flows (or income approach) and the market approach. The discounted cash flow model uses the present values of estimated future cash flows. Considerable management judgment is necessary to evaluate the impact of operating and external economic factors in estimating our future cash flows. The assumptions we use in our evaluations include projections of growth rates and profitability, our estimated working capital needs, as well as our weighted average cost of capital. The market approach indicates the fair value of a reporting unit based on a comparison to comparable publicly traded firms in similar businesses. Estimates used in the market approach include the identification of similar companies with comparable business factors. If the fair value does not exceed the carrying value, then an additional analysis would be performed to allocate the fair value to all of our assets and liabilities as if it had been acquired in a business combination and the fair value was our purchase consideration. If the excess of the fair value of our identifiable assets and liabilities is less than the carrying value of recorded goodwill, an impairment charge is recorded for the difference. We completed the annual impairment testing of our reporting units as of July 1, 2015. Based on the valuations performed, the fair value of our SkinnyPop and Paqui reporting units exceeded their recorded carrying values by approximately \$765 million or 235% and \$38 million or 317%, respectively. Thus, we did not record an impairment.

Although we believe our assumptions are reasonable, different assumptions or changes in the future may result in different conclusions and expose us to impairment charges in the future.

Table of Contents

Intangible assets are comprised of both finite and indefinite-lived intangible assets. Indefinite-lived intangible assets, including our trade names, are not amortized. We have the option to first assess the qualitative factors to determine whether it is more likely than not that the fair value of an indefinite-lived intangible asset is less than its carrying amount. Otherwise, indefinite-lived intangible assets are tested annually for impairment, or more frequently if events or changes in circumstances indicate, in management's judgment, that the asset might be impaired.

We use the excess earnings approach to measure the fair value of our trade names. Considerable management judgment is necessary to evaluate the impact of operating and external economic factors in estimating our future cash flows. The assumptions we use in our evaluations include projections of growth rates and profitability, estimated rates of return on customer relationships, working capital and property, plant and equipment, as well as our weighted average cost of capital.

An intangible asset is determined to have an indefinite useful life when there are no legal, regulatory, contractual, competitive, economic, or any other factors that may limit the period over which the asset is expected to contribute directly or indirectly to our future cash flows. In each reporting period, we also evaluate the remaining useful life of an intangible asset that is not being amortized to determine whether events and circumstances continue to support an indefinite useful life. If an intangible asset that is not being amortized is determined to have a finite useful life, the asset will be amortized prospectively over the estimated remaining useful life and accounted for in the same manner as intangible assets subject to amortization.

We completed the annual impairment testing of our SkinnyPop and Paqui trade names as of July 1, 2015. Based on the valuations performed, the fair value of our SkinnyPop and Paqui trade names exceeded their recorded carrying values by approximately \$454.9 million or 224.2% and \$9.5 million or 105.6%, respectively. Thus, we did not record an impairment. Although we believe our assumptions are reasonable, different assumptions or changes in the future may result in different conclusions and expose us to impairment charges in the future.

Income Taxes

Deferred income taxes are provided for the differences between the basis of assets and liabilities for financial reporting and income tax purposes. A valuation allowance is established when necessary to reduce deferred tax assets to the amount expected to be realized. We record a liability for all tax positions if it is not "more likely than not" that the position is sustainable based on its technical merits. At December 31, 2015, we had no valuation allowance nor any uncertain tax positions.

Considerable management judgment is necessary to assess the inherent uncertainties related to the interpretations of complex tax laws, regulations and taxing authority rulings, as well as to the expiration of statutes of limitations in the jurisdictions in which we operate.

Non-GAAP Financial Measures

We include Adjusted EBITDA, which we refer to as a non-GAAP metric, in this report because it is an important measure upon which our management assesses our operating performance. We use Adjusted EBITDA as a key performance metric because we believe it facilitates operating performance comparisons from period-to-period by excluding potential differences primarily caused by variations in capital structures, tax positions, the impact of depreciation and amortization expense on our fixed assets and the impact of equity-based compensation expense. In addition, our Credit Agreement contains financial maintenance covenants, including a total funded debt ratio and a minimum fixed charged ratio, that use Adjusted EBITDA as one of their inputs. Because this non-GAAP metric facilitates internal comparisons of our historical operating performance on a more consistent basis, we also use it for business planning purposes, to incentivize and compensate our management personnel, and in evaluating acquisition opportunities. In addition, we believe this non-GAAP metric and similar measures are widely used by investors, securities analysts, ratings agencies and other parties in evaluating companies in our industry as a measure of financial performance and debt-service capabilities.

Our use of this non-GAAP metric has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

Adjusted EBITDA metric does not reflect our cash expenditures for capital equipment or other contractual commitments;

Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and Adjusted EBITDA does not reflect capital expenditure requirements for such replacements;

Table of Contents

Adjusted EBITDA metrics may not reflect changes in, or cash requirements for, our working capital needs; Adjusted EBITDA does not reflect the interest expense or the cash requirements necessary to service interest or principal payments on our indebtedness; and Other companies, including companies in our industry, may calculate Adjusted EBITDA differently, which reduces its usefulness as a comparative measure.

In evaluating this non-GAAP metric, you should be aware that in the future we will incur expenses similar to the adjustments in this presentation. Our presentation of any non-GAAP metric should not be construed as an inference that our future results will be unaffected by these expenses or any other expenses, whether or not they are unusual or non-recurring items. When evaluating our performance, you should consider this non-GAAP metric alongside other financial performance measures, including our net income and other GAAP results.

Adjusted EBITDA

Adjusted EBITDA is a financial performance measure that is not calculated in accordance with GAAP. We define Adjusted EBITDA as net income adjusted to exclude, when appropriate, interest expense, income tax expense, depreciation, amortization of intangible assets, Founder Contingent Compensation expense, inventory fair value adjustment, equity-based compensation expenses, expenses related to the Sponsor Acquisition and other non-operational items. Below, we have provided a reconciliation of Adjusted EBITDA to our net income, the most directly comparable financial measure calculated and presented in accordance with GAAP. Adjusted EBITDA should not be considered as an alternative to net income or any other measure of financial performance calculated and presented in accordance with GAAP. Our Adjusted EBITDA may not be comparable to similarly titled measures of other organizations because other organizations may not calculate Adjusted EBITDA in the same manner as we calculate the measure.

The following tables present a reconciliation of Adjusted EBITDA to net income, the most directly comparable GAAP measure, for each of the periods indicated (amounts in thousands):

	Year Ended December 31, 2015	Pro Forma Combined Year Ended December 31, 2014	Year Ended December 31, 2013
Net income	\$9,885	\$13,608	(1) \$24,758
Non-GAAP adjustments:			
Interest expense	12,428	12,884	(1) —
Income tax expense	14,321	7,326	(1) —
Depreciation	310	177	47
Amortization of intangible assets	4,228	4,166	(1) —
Inventory fair value adjustment	—	401	—
Equity-based compensation expenses	3,305	235	—
Founder contingent compensation	18,261	18,408	(1) —
Loss on change in fair value of contingent consideration	1,521	—	—
Transaction-related expenses:			
Sponsor acquisition-related expenses	—	510	(1) —
IPO related expenses (2)	9,339	—	—
Professional services (3)	349	—	—
Executive recruitment (4)	742	646	—
Recapitalization expenses (5)	91	178	—
Severance expenses (6)	112	—	—
Adjusted EBITDA	\$74,892	\$58,539	\$24,805

(1)

Edgar Filing: Amplify Snack Brands, INC - Form 10-K

Represents pro forma amounts as presented in the unaudited pro forma consolidated statement of operations. Refer to the Unaudited Pro Forma Consolidated Financial Information contained in Item 7 herein.

Table of Contents

Includes performance bonuses and related payroll taxes paid to employees upon the completion of the IPO, a
(2) financial advisory fee paid to an advisor in connection with the IPO, and legal, accounting, consulting, printing, filing and listing fees paid in connection with the IPO process.

(3) Represents transaction costs associated with legal and accounting services.

Represents the recognized expense associated with sign-on and retention bonuses for certain executive hires and certain recruiting fees. We are permitted to add back expenses of this type in determining Adjusted EBITDA under
(4) the Credit Agreement governing our term loan. Adjusted EBITDA (as defined therein) is used thereunder in determining our financial maintenance covenants and for calculating ratios in our debt incurrence covenants and is therefore an important measure of our financial performance and our ability to take certain actions in operating our business. Refer to the Indebtedness discussion contained in Item 7 herein.

(5) Represents the expenses we incurred in connection with the May 2015 Special Dividend.

Represents severance expenses related to the acquisition of Paqui. We are permitted to add back expenses of this type in determining Adjusted EBITDA under the Credit Agreement governing our term loan. Adjusted EBITDA
(6) (as defined therein) is used thereunder in determining our financial maintenance covenants and for calculating ratios in our debt incurrence covenants and is therefore an important measure of our financial performance and our ability to take certain actions in operating our business. Refer to the Indebtedness discussion contained in Item 7 herein.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to certain market risks in the ordinary course of our business. These risks primarily include market sensitivities as follows:

Ingredient Risk

We purchase ingredients, including popcorn kernels, white corn, sunflower oil, canola oil, seasoning and packaging materials used in the contract manufacturing of our products. These ingredients are subject to price fluctuations that may create price risk. We do not attempt to hedge against fluctuations in the prices of the ingredients by using future, forward, option or other derivative instruments. Market risk is estimated as a hypothetical 10% increase or decrease in the weighted-average cost of our primary ingredients as of December 31, 2015 and December 31, 2014, which would have resulted in an increase or decrease to cost of goods sold for the years ended December 31, 2015 and 2014 of approximately \$3.9 million and \$2.9 million, respectively. We seek to mitigate the impact of ingredient cost increases through forward-pricing contracts and taking physical delivery of future ingredient needs. We strive to offset the impact of ingredient cost increases with a combination of cost savings initiatives and efficiencies and price increases to our customers.

Interest Rate Risk

We currently do not engage in any interest rate hedging activity and currently have no intention to do so in the foreseeable future. Based on the average interest rate on the Credit Facility during the year ended December 31, 2015 and to the extent that borrowings were outstanding, we do not believe that a 1.0% change in the interest rate would have a material effect on our results of operations or financial condition. Holding other variables constant (such as debt levels), a one percentage point variance in interest rates (100 basis points) would increase the annual interest expense on the variable rate portion of our long-term borrowings under the Credit Facility by approximately \$2.1 million.

We do not enter into investments for trading or speculative purposes and have not used any derivative financial instruments to manage our interest rate risk exposure. We have not been exposed nor do we anticipate being exposed to material risks due to a change in interest rates.

Foreign Exchange Risk

Our sales and costs are denominated in U.S. dollars and are not subject to foreign exchange risk. However, to the extent our sourcing strategy changes or we commence generating net sales outside of the United States and Canada that are denominated in currencies other than the U.S. dollar, our results of operations could be impacted by changes in exchange rates.

Table of Contents

Inflation

Inflationary factors, such as increases in the cost of goods sold and selling, general and administrative expenses, may adversely affect our operating results. Although we do not believe that inflation has had a material impact on our financial position or results of operations to date, a high rate of inflation in the future may have an adverse effect on our ability to maintain current levels of gross profit margin and selling, general and administrative expenses as a percentage of net sales if the selling prices of our products do not increase to cover these increased costs.

Item 8. Financial Statements and Supplementary Data

The information required by this item is incorporated by reference to the consolidated financial statements and accompanying notes set forth on pages F-1 through F-36 of this Annual Report on Form 10-K.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As a public company, we will be required to document and test our internal control procedures in order to satisfy the requirements of Section 404 of the Sarbanes-Oxley Act of 2002, which will require, beginning with our Annual Report on Form 10-K for the year ended December 31, 2016, annual management assessments of the effectiveness of our internal control over financial reporting. Additionally, as of the later of the filing of such Annual Report and the date we are no longer an “emerging growth company” we will require a report by our independent registered public accounting firm that addresses the effectiveness of our internal control over financial reporting. During the course of our testing, we may identify deficiencies that we may not be able to remediate in time to meet our deadline for compliance with Section 404.

We have established disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and that information relating to the Company is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures as of December 31, 2015, the end of the period covered by this Annual Report on Form 10-K. Based upon such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of December 31, 2015.

Changes in Internal Control Over Financial Reporting

In connection with the 2014 audit of our financial statements, we identified a material weakness in our internal control over financial reporting. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. This material weakness related to our presentation and classification of certain promotional obligations in the consolidated financial statements as well as our accounting for pricing concessions.

We were able to remediate this material weakness by making the following changes to our internal control over financial reporting throughout the course of the year ended December 31, 2015:

Hired and developed additional finance and accounting personnel, including a corporate controller, a director of finance, an accounting manager and a financial planning and analysis manager with the requisite experience and skills to improve our processes, procedures and internal control environment.

Designed and implemented controls and procedures to improve communication between the sales and finance departments with regard to the impact and timing of sales and incentive programs offered to our customers.

Table of Contents

Implemented an ERP system to enable our finance and accounting personnel to gather, analyze and communicate sales and incentive activity more timely and with a greater level of precision in order to ensure proper financial reporting classification.

Designed and implemented controls to compare actual trade program results to our promotional incentive allowance, assess the accuracy of our estimates and investigate any material differences to help determine if we should change our assumptions regarding estimated participation and performance levels of the offered sales and incentive programs.

We continue to work diligently to design and implement procedures and controls that we believe will further strengthen and improve our internal control structure and environment.

Item 9B. Other Information

Compensatory Arrangements of Certain Executive Officers

On March 24, 2016, the Compensation Committee of our Board of Directors (the “Board”) approved, effective January 1, 2016: (i) an increase to the target annual cash incentive bonus (as a percentage of each named executive officer’s annual base salary) for Thomas Ennis (our Chief Executive Officer), Brian Goldberg (our Chief Financial Officer) and Jason Shiver (our Executive Vice President of Sales and Marketing) from 50%, 50% and 50%, respectively, to 85%, 60% and 60%, respectively and (ii) an increase in the annual base salary for Mr. Shiver from \$250,000 to \$300,000.

2016 Annual Meeting of Stockholders

We will be holding our 2016 Annual Meeting of Stockholders on May 12, 2016 at 8:00 am Central Time at the JW Marriott Austin at 110 E. 2nd Street, Austin, Texas 78701. Additional information with respect to the 2016 Annual Meeting of Stockholders will be contained in the definitive Proxy Statement to be filed with the SEC within 120 days of the fiscal year ended December 31, 2015.

Table of Contents

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information required by this item is incorporated by reference to our Proxy Statement for the 2016 Annual Meeting of Stockholders to be filed with the SEC within 120 days of the fiscal year ended December 31, 2015.

Our Board of Directors has adopted a Code of Business Conduct and Ethics applicable to all officers, directors and employees, which is available on the investor relations section of our website, which is located at <http://investors.amplifysnackbrands.com>. We intend to satisfy the disclosure requirement under Item 5.05 of Form 8-K regarding amendment to, or waiver from, a provision of our Code of Business Conduct and Ethics by posting such information on our website at the address and location specified above.

Item 11. Executive Compensation

The information required by this item is incorporated by reference to our Proxy Statement for the 2016 Annual Meeting of Stockholders to be filed with the SEC within 120 days of the fiscal year ended December 31, 2015.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information pertaining to security ownership of management and certain beneficial owners of our common stock with respect to this item is incorporated by reference to our Proxy Statement for the 2016 Annual Meeting of Stockholders to be filed with the SEC within 120 days of the fiscal year ended December 31, 2015.

Securities Authorized for Issuance Under Equity Compensation Plans

The Company maintains the Amplify Snack Brands, Inc. 2015 Stock Option and Incentive Plan (the "2015 Plan"), as discussed in more detail in Note 13 in the accompanying Notes to Consolidated Financial Statements contained in Item 8. The following table presents equity compensation plan information as of December 31, 2015.

	Equity Compensation Plan Information		
	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights (a)	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights (b)	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (excluding securities reflected in column (a)) (c)
Equity Compensation Plans Approved by Security Holders	5,240,358	(1) \$10.72	(2) 5,546,767
Equity Compensation Plans Not Approved by Security Holders	—	—	—
Total	5,240,358	\$10.72	5,546,767

(1) Consists of restricted stock awards, restricted stock units and stock options granted to our officers, employees, non-employee directors and consultants.

(2) Reflects the weighted-average exercise price of 150,000 stock options outstanding as of December 31, 2015, under the 2015 Plan. Restricted stock awards and restricted stock units do not have an exercise price and are

not included in the calculation of the weighted-average exercise price set forth in column (b).

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required by this item is incorporated by reference to our Proxy Statement for the 2016 Annual Meeting of Stockholders to be filed with the SEC within 120 days of the fiscal year ended December 31, 2015.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Amplify Snack Brands, Inc.
Austin, Texas

We have audited the accompanying consolidated balance sheets of Amplify Snack Brands, Inc. and subsidiaries (the "Company") as of December 31, 2015 and 2014 (Successor), and the related consolidated statements of comprehensive income, shareholders'/members' equity and cash flows for the year ended December 31, 2015 (Successor), for the period from July 17, 2014 to December 31, 2014 (Successor), for the period from January 1, 2014 to July 16, 2014 (Predecessor), and for the year ended December 31, 2013 (Predecessor). These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Amplify Snack Brands, Inc. and subsidiaries as of December 31, 2015 and 2014 (Successor), and the results of their operations and their cash flows for the year ended December 31, 2015 (Successor), for the period from July 17, 2014 to December 31, 2014 (Successor), for the period from January 1, 2014 to July 16, 2014 (Predecessor), and for the year ended December 31, 2013 (Predecessor), in conformity with accounting principles generally accepted in the United States of America.
