### 1) BASIS OF PRESENTATION

The accompanying unaudited interim financial statements as of June 30, 2016 and for the three and six months ended June 30, 2016 and 2015 have been prepared in conformity with accounting principles generally accepted in the United States ("GAAP") for interim financial statements. The financial information as of December 31, 2015 is derived from the audited financial statements presented in the Willamette Valley Vineyards, Inc. (the "Company") Annual Report on Form 10-K for the year ended December 31, 2015. Certain information or footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the accompanying financial statements include all adjustments necessary (which are of a normal recurring nature) for the fair statement of the results of the interim periods presented. The accompanying financial statements should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2015, as presented in the Company's Annual Report on Form 10-K.

Operating results for the three and six months ended June 30, 2016 are not necessarily indicative of the results that may be expected for the entire year ending December 31, 2016, or any portion thereof.

The Company's revenues include direct-to-consumer sales and national sales to distributors. These sales channels utilize shared resources for production, selling and distribution.

Basic earnings per share after preferred stock dividends are computed based on the weighted-average number of common shares outstanding each period. Diluted earnings per share are computed using the weighted average number of shares of common stock and dilutive common shares outstanding during the period. Dilutive shares from stock options and other instruments are excluded from the computation when their effect is anti-dilutive. There were no anti-dilutive shares outstanding as of June 30, 2016 and 2015. 4,069 and 74,602 potentially dilutive shares are included in the computation of dilutive earnings per share for the three month periods ended June 30, 2016 and 2015, respectively. 3,980 and 69,665 potentially dilutive shares are included in the computation of dilutive earnings per share for the six month periods ended June 30, 2016 and 2015, respectively.

The terms of this contract include exclusive rights to distribute Willamette Valley Vineyard's wines in Oregon and Washington for seven years. In an effort to facilitate the transition, with as little disruption as possible, Young's Market Company agreed to compensate Willamette Valley Vineyards for ongoing Oregon sales and branding efforts. All stock options have an exercise price that is equal to the fair market value of the Company's stock on the date the options were granted. Administration of the plan, including determination of the number, term, and type of options to be granted, lies with the Board of Directors or a duly authorized committee of the Board of Directors. Options were generally granted based on employee performance with vesting periods ranging from date of grant to seven years. At the date of the grant, the maximum term before expiration is ten years.

## 8) SEGMENT REPORTING

The Company has identified two operating segments, Direct Sales and Distributor Sales, based upon their different distribution channels, margins and selling strategies. Direct Sales includes retail sales in the tasting room and remote sites, Wine Club sales, on-site events, kitchen and catering sales and other sales made directly to the consumer without the use of an intermediary, including sales of bulk wine or grapes. Distributor Sales include all sales through a third party where prices are given at a wholesale rate.

The two segments reflect how the Company's operations are evaluated by senior management and the structure of its internal financial reporting. The Company evaluates performance based on the gross profit of the respective business segments. Selling expenses that can be directly attributable to the segment, including depreciation of segment specific assets, are included, however, centralized selling expenses and general and administrative expenses are not allocated between operating segments. Therefore, net income information for the respective segments is not available. Discrete financial information related to segment assets, other than segment specific depreciation associated with selling, is not available and that information continues to be aggregated.

The following table outlines the sales, cost of sales, gross margin, directly attributable selling expenses, and contribution margin of the segments for the three and six month periods ending June 30, 2016 and 2015. Sales figures are net of related excise taxes.

### Critical Accounting Policies

The foregoing discussion and analysis of the Company's financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company's management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to revenue recognition, collection of accounts receivable, valuation of inventories, and amortization of vineyard development costs. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. A description of the Company's critical accounting policies and related judgments and estimates that affect the preparation of the Company's financial statements is set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. Such policies were unchanged during the three months ended June 30, 2016.

### Overview

The Company's wines are made from grapes grown in vineyards owned, leased or contracted by the Company, and from grapes purchased from other nearby vineyards. The grapes are harvested, fermented and made into wine at the Company's winery in Turner Oregon (the "Winery") and the wines are sold principally under the Company's Willamette Valley Vineyards label, but also under the Griffin Creek and Tualatin Estates labels. The Company also owns the Tualatin Estate Vineyards and Winery, located near Forest Grove, Oregon. The Company generates revenues from the sales of wine to wholesalers and direct to consumers. Removing the effect of incidental bulk wine sales to other wineries, which occurred in 2015 but not in 2016, income from operations for the first six months increased by \$511,096 or 48.3%.

Direct to consumer sales primarily include sales through the Company's tasting rooms and wine club. Direct to consumer sales are more profitable to the Company due to prices received being closer to retail than those prices paid by wholesalers. The Company continues to emphasize growth in direct to consumer sales through the Company's recently remodeled 35,642 square foot hospitality facility at the Winery and expansion and growth in wine club membership. Additionally, the Company's preferred stock sales since August 2015 have resulted in approximately 3,425 new preferred stockholders many of which the Company believes are wine enthusiasts. When considering joint ownership, these new shareholders represent approximately 5,000 potential customers of the Company. Membership in the Company's wine club increased by approximately 43 net members, or .7%, to a total of 6,413 members for the six months ending June 30, 2016. The Company believes the increase in preferred shareholders, who receive enhanced discounts, has reduced the number of people who would otherwise become Wine Club members. However, management anticipates that new preferred shareholders will purchase the Company's wines over a longer period of time, than the average Wine Club member, making their enhanced winery status beneficial to the Company.

Periodically, the Company will sell grapes or bulk wine, due to them not meeting Company standards or being excess to production targets, however this is not a significant part of the Company's activities. The Company had no bulk wine sales for the three months ended June 30, 2015 and \$390,825 in bulk wine sales in the second quarter of 2016. The Company had no bulk wine sales for the six months ended June 30, 2015 and \$638,963 in bulk wine sales in the same period of 2015.

The Company sold approximately 65,116 and 58,952 cases of produced wine during the six months ended June 30, 2016 and 2015, respectively, an increase of 6,164 cases, or 10.5% in the current year period over the prior year period. The increase in wine sales was primarily the result of increased direct to consumer sales as well as increased sales through distributors in 2016.

Cases sold in 2016 include approximately 43 cases of unfulfilled “futures”, where a customer prepays for a wine not yet released. Cases sold in 2015 include approximately 33 cases of unfulfilled “futures”, where a customer prepays for a wine not yet released. Proceeds from these sales are not recognized as revenue until shipped and are reflected as unearned revenue. Selling expenses for these sales are recognized in the period in which the expense is incurred.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - continued

Cost of sales includes grape costs, whether purchased or grown at Company vineyards, winemaking and processing costs, bottling, packaging, warehousing and shipping and handling costs. For grapes grown at Company vineyards, costs include farming expenditures and amortization of vineyard development costs.

At June 30, 2016, wine inventory includes approximately 86,868 cases of bottled wine and 232,500 gallons of bulk wine in various stages of the aging process. Case wine is expected to be sold over the next 12 to 24 months and generally before the release date of the next vintage. The Winery bottled approximately 84,562 cases during the six months ended June 30, 2016.

Core retail sales, sales through distributors, and gross margins increased for the three and six months ended June 20, 2016 when compared 2015. This growth was partially offset by bulk wine sales, to other wineries, that generated revenues of \$390,825 and \$639,701 for the three and six months ended June 30, 2015, respectively, that did not recur in 2016. Bulk wine sales, and related costs, are included as part of direct sales.

Net income for the three months ended June 30, 2016 and 2015 was \$477,172 and \$510,231, respectively, a decrease of \$33,059, or 6.5%, in the current year period over the prior year period. Net income for the six months ended June 30, 2016 and 2015 was \$965,062 and \$824,469, respectively, an increase of \$140,593, or 17.1%, in the current year period over the prior year period.

Income applicable to common shareholders for the three months ended June 30, 2016 and 2015 was \$362,481 and \$510,231, respectively, a decrease of \$147,750, or 29.0%, in the current year period over the prior year period. Income applicable to common shareholders for the six months ended June 30, 2016 and 2015 was \$771,476 and \$824,469, respectively, a decrease of \$52,993, or 6.4%, in the current year period over the prior year period.

Gross profit for the three months ended June 30, 2016 and 2015 was \$2,924,301 and \$2,759,653, respectively, an increase of \$164,648, or 6.0%, in the current year period over the prior year period. Gross profit as a percentage of net sales for the three months ended June 30, 2016 and 2015 was 63.0% and 58.5%, an increase of 4.5 percentage points, in the current year period over the prior year period. Gross profit for the six months ended June 30, 2016 and 2015 was \$5,523,349 and \$5,063,687, respectively, an increase of \$459,662, or 9.1%, in the current year period over the prior year period. Gross profit as a percentage of net sales for the six months ended June 30, 2016 and 2015 was 62.6% and 58.7%, an increase of 3.9 percentage points, in the current year period over the prior year period.

The Company generated \$0.07 and \$0.10 in basic earnings per share after preferred dividends during the three months ended June 30, 2016 and 2015, respectively. The Company generated \$0.15 and \$0.17 in basic earnings per share after preferred dividends during the six months ended June 30, 2016 and 2015, respectively.

Management believes earnings per share will continue to be effectively reduced by preferred stock dividends until funds from the sale of preferred stock are deployed in new wineries and begin generating a return on those funds.

The Company continues to receive positive recognition through national magazines, regional publications, local newspapers and online bloggers.

The Company won the 2016 Sunset Travel Award for Best Vineyard/Tasting Room Experience by Sunset Magazine, the premier guide to living in the West. The Sunset Travel Awards honor the West's top destinations in lodging, dining, cultural tourism, outdoor adventure and attractions. ## RESULTS OF OPERATIONS

### Revenue

Sales for the three months ended June 30, 2016 and 2015 were \$4,639,028 and \$4,721,154, respectively, a decrease of \$82,126, or 1.7%, in the current year period over the prior year period. This decrease was caused by increases in core retail sales (direct sales less bulk sales) of \$40,028, and sales through distributors of \$275,691, being more than offset by a bulk wine and miscellaneous sales decrease of \$397,845, in the current year three month period ended June 30, 2016 compared to the same period in the prior year. Sales for the six months ended June 30, 2016 and 2015 were \$8,822,797 and \$8,633,655, respectively, an increase of \$189,142, or 2.2%, in the current year period over the prior year period. This increase was primarily caused by an increase in core retail sales (direct sales less bulk sales) of \$231,015 and sales through distributors of \$602,048, being partially offset by a decrease in bulk wine and miscellaneous sales of \$643,921 in the first six months of 2016 compared to the same period in the prior year. The increase in core retail sales during both periods of 2016 was primarily the result of increased wine club, tasting room

and other direct sales. The decrease in bulk wine sales in the second quarter and first half of 2016, when compared to the same periods in 2015, was primarily the result of greater wine inventories than bottling needs in 2015 and timing differences in bulk wine sales between the two periods. The increase in sales through distributors was not attributable to an isolated factor.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - continued

Cost of Sales

Cost of Sales for the three months ended June 30, 2016 and 2015 were \$1,714,727 and \$1,961,501, respectively, a decrease of \$246,774, or 12.6%, in the current period over the prior year period. Cost of Sales for the six months ended June 30, 2016 and 2015 were \$3,299,448 and \$3,569,968, respectively, a decrease of \$270,520, or 7.6%, in the current period over the prior year period. This decrease in the second quarter and first half of 2016, compared to same periods of 2015, were primarily the result of an overall increase in margins of vintages currently being sold which was mainly caused by the release of vintages in 2016 with higher profit margins.

Gross Profit

Gross profit for the three months ended June 30, 2016 and 2015 was \$2,924,301 and \$2,759,653, respectively, an increase of \$164,648, or 6.0%, in the current year period over the prior year period. Gross profit for the six months ended June 30, 2016 and 2015 was \$5,523,349 and \$5,063,687, respectively, an increase of \$459,662, or 9.1%, in the current year period over the prior year period. The increase in both periods was primarily the result of an overall increase in core retail sales and sales through distributors in addition to the release of vintages with higher profit margins in 2016 that more than offset the decrease in bulk wine sales during the year.

Gross profit as a percentage of net sales for the three months ended June 30, 2016 and 2015 was 63.0% and 58.5%, an increase of 4.5 percentage points, in the current year period over the prior year period. Gross profit as a percentage of net sales for the six months ended June 30, 2016 and 2015 was 62.6% and 58.7%, an increase of 3.9 percentage points, in the current year period over the prior year period. The increase in gross profit percentage during 2016 over the comparable periods in 2015 was primarily the result of the release of vintages with higher profit margins in 2016.

Selling, General and Administrative Expense

Selling, general and administrative expense for the three months ended June 30, 2016 and 2015 was \$2,096,097 and \$1,914,769, respectively, an increase of \$181,328, or 9.5%, in the current year period over the prior year period. Selling, general and administrative expense for the six months ended June 30, 2016 and 2015 was \$3,953,069 and \$3,720,136, respectively, an increase of \$232,933, or 6.3%, in the current year period over the prior year period. The increase in both periods in 2016 compared to the same periods in 2015 was primarily the result of increased retail selling efforts and general marketing in 2016.

Interest Expense

Interest expense for the three months ended June 30, 2016 and 2015 was \$72,154 and \$77,975, respectively, a decrease of \$5,821 or 7.5%, in the current year period over the prior year period. Interest expense for the six months ended June 30, 2016 and 2015 was \$145,165 and \$155,009, respectively, a decrease of \$9,844 or 6.4%, in the current year period over the prior year period. The reduction in interest expense in both periods of 2016 compared to the same periods in 2015 was primarily the result of reduced debt in the current year when compared to the prior year.

Income Taxes

The income tax expense for the three months ended June 30, 2016 and 2015 was \$317,397 and \$292,397, respectively, an increase of \$25,000 or 8.6%, in the current year period over the prior year period. The Company's estimated federal and state combined income tax rate was 39.9% and 36.4% for the three months ended June 30, 2016 and 2015,

respectively. The Company's estimated federal and state combined income tax rate was 38.0% and 36.9% for the six months ended June 30, 2016 and 2015, respectively.

#### Net Income

Net income for the three months ended June 30, 2016 and 2015 was \$477,172 and \$510,231, respectively, a decrease of \$33,059, or 6.5%, in the current year period over the prior year period. Net income for the six months ended June 30, 2016 and 2015 was \$965,062 and \$824,469, respectively, an increase of \$140,593, or 17.1%, in the current year period over the prior year period. The increase in the first half of 2016, compared to the same period in 2015, was primarily the result of an overall increase in sales of wines combined with higher margins in the current period compared to the prior year period. The decrease in the second quarter of 2016, compared to the same period of 2015, was primarily the result of increased core retail wine sales and sales through distributors combined with higher margins, being more than offset by reduced bulk wine sales and higher selling and general administrative expenses during the current period.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - continued

Income Applicable to Common Shareholders

Income applicable to common shareholders for the three months ended June 30, 2016 and 2015 was \$362,481 and \$510,231, respectively, a decrease of \$147,750, or 29.0%, in the current quarter over the same quarter in the prior year, mainly as a result of lower net income combined with the accrual of preferred stock dividends in the second quarter of 2016. Income applicable to common shareholders for the six months ended June 30, 2016 and 2015 was \$771,476 and \$824,469, respectively, a decrease of \$52,993, or 6.4%, in the current year period over the prior year period. The decrease in the six months ended June 30, 2016 compared to the same period in 2015 was primarily the result of increased net income, in the current period when compared to the prior year period, being more than offset by the accrual of preferred stock dividends.

Liquidity and Capital Resources

At June 30, 2016, the Company had a working capital balance of \$16.7 million and a current working capital ratio of 6.41:1. At December 31, 2015, the Company had a working capital balance of \$14.0 million and a current working capital ratio of 4.43:1.

At June 30, 2016, the Company had a cash balance of \$6,527,533 compare to a cash balance of \$4,010,664 at December 31, 2015. This change was primarily the result of proceeds from the sale of preferred stock partially offset by spending on capital improvements and operating activities.

Total cash provided by operating activities in the six months ended June 30, 2016 was \$1,203,111. Cash provided by operating activities from operations for the six months ended June 30, 2016 was primarily associated with income from operations and the receipt of receivables that were partially used to pay grape contracts and other liabilities.

Total cash used in investing activities in the six months ended June 30, 2016 was \$2,115,870. Cash used in investing activities for the six months ended June 30, 2016 primarily consisted of property and equipment purchases and vineyard development.

Property and equipment assets net of accumulated depreciation increased to \$17,801,004 as of June 30, 2016 compared to \$16,729,162 as of December 31, 2015, mainly as a result a \$1,345,161 increase in assets categorized as land, improvements and other buildings during the first half of 2016. During the second quarter of 2016, the Company purchased approximately 53 acres of land, including 25 plantable acres, for future vineyard development, which was part of the Company's long term plan to increase the portion of grapes derived from its own vineyards in order to better control costs and quality as well as reduce grape supply risks. The Company also purchased an option to buy approximately 17 acres of land, including 15 acres of planted Pinot Noir, in the Dundee Hills AVA of Oregon during the second quarter of 2016.

Total cash provided by financing activities in the six months ended June 30, 2016 was \$3,429,628. Cash provided by financing activities for the six months ended June 30, 2016 consisted primarily of proceeds from the sale of preferred stock and the exercise of stock options partially offset by the repurchase of common stock and the payment of debt.

Non-cash investing and financing activities in the six months ended June 30, 2016 was \$161,436. This change was primarily the result of timing differences in the payment of invoices.

The Company has an asset-based loan agreement (the “line of credit”) with Umpqua Bank that allows it to borrow up to \$2,000,000. The Company renewed this agreement, in February of 2014, until July 31, 2017. The index rate of prime plus zero, with a floor of 3.25%, at June 30, 2016 is 3.5%. The loan agreement contains certain restrictive financial covenants with respect to total equity, debt-to-equity and debt coverage that must be maintained by the Company on a quarterly basis. As of June 30, 2016, the Company was in compliance with all of the financial covenants.

At June 30, 2016 and December 31, 2015 the Company had no balance outstanding on the line of credit. At June 30, 2016, the Company had \$2,000,000 available on the line of credit.
