☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2018
OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 0-2585

THE DIXIE GROUP, INC.

(Exact name of Registrant as specified in its charter)

Tennessee

62-0183370

(State or other jurisdiction of incorporation or organization)

(I.R.S. Employer Identification No.)

475 Reed Road, Dalton, Georgia

30720

(706) 876-5800

(Address of principal executive offices)

(zip code)

(Registrant's telephone number, including area code)

Not Applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. R Yes ☐ No

Indicate by check mark whether the registrant has submitted electronically and posted on its Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). R Yes ☐ No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐

Accelerated filer ☐

Non-accelerated filer ☐ (Do not check if a smaller reporting company)

Smaller reporting company ☒

Emerging growth company ☐

Edgar Filing: DIXIE GROUP INC - Form 10-Q

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act.) ☐
Yes ☐ No ☐

The number of shares outstanding of each of the issuer's classes of Common Stock as of the latest practicable date.

Class	Outstanding as of April 26, 2018
Common Stock, \$3 Par Value	15,482,073 shares

THE DIXIE GROUP, INC.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(UNAUDITED)

(amounts in thousands, except per share data)

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited consolidated condensed financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") for interim financial statements which do not include all the information and notes required by such accounting principles for annual financial statements. In the opinion of management, all adjustments (generally consisting of normal recurring accruals) considered necessary for a fair presentation have been included in the accompanying financial statements. The accompanying financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2017 Annual Report on Form 10-K filed with the Securities and Exchange Commission for the fiscal year ended December 30, 2017. Operating results for the three-month period ended March 31, 2018 are not necessarily indicative of the results that may be expected for the entire 2018 year.

Based on applicable accounting standards, the Company has determined that it has one reportable segment, Floorcovering comprising of two operating segments, Residential and Commercial. Pursuant to accounting standards, the Company has aggregated the two operating segments into one reporting segment because they have similar economic characteristics, and the operating segments are similar in all of the following areas: (a) the nature of the products and services; (b) the nature of the production processes; (c) the type or class of customer for their products and services; (d) the methods used to distribute their products or provide their services; and (e) the nature of the regulatory environment.

NOTE 2 - RECENT ACCOUNTING PRONOUNCEMENTS

Accounting Standards Adopted in Fiscal 2018

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers (Topic 606)". The ASU requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU and all subsequently issued clarifying ASUs replaced most existing revenue recognition guidance in U.S. GAAP. The ASU was effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. The standard permits the use of either the retrospective or cumulative effect transition method. The ASU also required expanded disclosures relating to the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. Additionally, qualitative and quantitative disclosures are required for customer contracts, significant judgments and changes in judgments. The Company adopted the new standard effective December 31, 2017, the first day of the Company's fiscal year, using the full retrospective method approach and expanded its financial statement disclosures in order to comply with the ASU. (See Note 3.) The adoption of this ASU did not have a significant impact on the Company's consolidated financial statements. The majority of the Company's revenue arrangements generally consist of a single performance obligation to transfer promised goods or services. Based on the Company's evaluation process and review of its contracts with customers, the timing (point in time) and amount of revenue recognized previously is consistent with how revenue is recognized under the new standard.

Therefore, no changes were required to its reported revenues as a result of the adoption. However, the adoption resulted in the recognition of an asset related to certain product returns by increasing the returns liability for December 30, 2017 and recognizing a corresponding asset for the estimated value of the returns from customers; this gross up had no corresponding impact on the Consolidated Condensed Statement of Operations. The Consolidated Balance

Edgar Filing: DIXIE GROUP INC - Form 10-Q

Sheet as of December 30, 2017 has been adjusted to reflect retrospective application of the new accounting standard as follows:

	December 30, 2017		
	As Previously Reported	Adjustments	As Adjusted
ASSETS			
Prepays and other current assets	\$3,600	\$ 1,069	\$ 4,669
LIABILITIES AND STOCKHOLDERS' EQUITY			
Accrued expenses	\$30,291	\$ 1,069	\$ 31,360

As part of the adoption of the ASU, the Company elected to use the following practical expedients (i) to exclude disclosures of transaction prices allocated to remaining performance obligations when the Company expects to recognize such revenue for all periods prior to the date of initial application of the ASU; (ii) not to adjust the promised amount of consideration for the effects of a significant financing component when the Company expects, at contract inception, that the period between the Company's transfer

Table of Contents 7

THE DIXIE GROUP, INC.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(UNAUDITED)

(amounts in thousands, except per share data) (Continued)

of a promised product or service to a customer and when the customer pays for that product or service will be one year or less; (iii) to expense costs as incurred for costs to obtain a contract when the amortization period would have been one year or less; (iv) not to recast revenues for contracts that begin and end in the same fiscal year; and (v) not to assess whether promised goods or services are performance obligations if they are immaterial in the context of the contract with the customer. The Company's revenue is recognized at a point in time based on the transfer of control whereby the Company does not invest in contract costs that are recoverable. In addition, performance obligations and customer payments are within one year or less. For these reasons, there is not a significant impact as a result of electing these practical expedients.

In January 2016, the FASB issued ASU No. 2016-01, "Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities," which addresses the recognition, measurement, presentation and disclosure of financial assets and liabilities. This ASU primarily affects the accounting for equity investments, financial liabilities under the fair value option and the presentation and disclosure requirements for financial instruments. In addition, this ASU clarifies the valuation allowance assessment when recognizing deferred tax assets resulting from unrealized losses on available-for-sale debt securities. This ASU is effective for public companies for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The adoption of this ASU did not have a significant impact on the financial statements.

In August 2016, the FASB issued ASU No. 2016-15, "Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments," which provides clarification guidance on certain cash flow presentation issues that have developed due to diversity in practice. These issues include certain cash receipts and payments for debt prepayment or extinguishment costs, the maturing of a zero coupon bond, the settlement of contingent liabilities arising from a business combination, proceeds from insurance settlements, distributions from certain equity method investees and beneficial interests obtained in a financial asset securitization. ASU 2016-15 clarifies that when cash receipts and cash payments have aspects of more than one class of cash flows and cannot be separated, classification will depend on the predominant source or use. For public entities, ASU 2016-15 is effective for annual periods beginning after December 15, 2017, including interim periods within those fiscal years, with early adoption permitted. The adoption of this ASU did not have a significant impact on the financial statements.

In November 2016, the FASB issued ASU No. 2016-18, "Statement of Cash Flows (Topic 230): Restricted Cash," which clarifies guidance on the classification and presentation of restricted cash in the statement of cash flows. Under the ASU, changes in restricted cash and restricted cash equivalents would be included along with those of cash and cash equivalents in the statement of cash flows. In addition, a reconciliation between the balance sheet and the statement of cash flows would be disclosed when the balance sheet includes more than one line item for cash and cash equivalents and restricted cash and cash equivalents. For public entities, ASU 2016-18 is effective for annual periods beginning after December 15, 2017, including interim periods within those fiscal years with early adoption permitted. Entities are required to apply the standard's provisions on a retrospective basis. Since the Company has no restricted cash, the adoption of this ASU did not have an impact on the financial statements.

In February 2017, the FASB issued ASU No. 2017-05, "Other Income-Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20): Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets." This ASU clarifies the scope and application of ASC 610-20 on the sale or transfer of nonfinancial assets and in substance nonfinancial assets to noncustomers, including partial sales. The amendments are effective at the same time as the new revenue standard. For public entities, the amendments are

effective for fiscal years beginning after December 15, 2017, including interim reporting periods within those fiscal years. The adoption of this ASU did not have a significant impact on the financial statements.

In March 2017, the FASB issued ASU No. 2017-07, "Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost," which changed the presentation of net periodic benefit cost related to employer sponsored defined benefit plans and other postretirement benefits. Service cost are included within the same income statement line item as other compensation costs arising from services rendered during the period, while other components of net periodic benefit pension cost are presented separately outside of operating income. Additionally, only service costs may be capitalized in assets. ASU 2017-07 is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Effective December 31, 2017, the first day of the Company's fiscal year, the Company adopted this ASU. The Company adopted this ASU retrospectively, utilizing the practical expedient by using the amounts disclosed in the postretirement plan note for the prior comparative periods as the estimation basis for applying the retrospective presentation requirements. which resulted in an immaterial amount being reclassified between selling and administrative expenses and other (income) expense, net in the Company's Consolidated Condensed Statements of Operations.

In May 2017, the FASB issued ASU No. 2017-09, "Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting." This ASU provides amendments to the current guidance on determining which changes to the terms and conditions of share-based payment awards require the application of modification accounting. The effects of a modification should be accounted for unless there are no changes between the fair value, vesting conditions, and classification of the modified award and the original award immediately before the original award is modified. ASU 2017-09 is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years, with early adoption permitted. The adoption of this ASU did not have an impact on the financial statements.

THE DIXIE GROUP, INC.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(UNAUDITED)

(amounts in thousands, except per share data) (Continued)

Accounting Standards Yet to Be Adopted

In February 2016, the FASB issued ASU No. 2016-02, "Leases (Topic 842)," which requires lessees to recognize on the balance sheet a right-of-use asset, representing the right to use the underlying asset for the lease term, and a lease liability for all leases with terms greater than 12 months. The guidance also requires qualitative and quantitative disclosures designed to assess the amount, timing, and uncertainty of cash flows arising from leases. The standard requires the use of a modified retrospective transition approach, which includes a number of optional practical expedients that entities may elect to apply. ASU 2016-02 is effective for annual periods beginning after December 15, 2018, including interim periods within those fiscal years. Early application is permitted. The Company is continuing to evaluate the impact of the adoption of this ASU on its financial statements. The Company has developed a project team relative to the process of adopting this ASU and is currently completing a detailed review of the Company's leasing arrangements, which consist primarily of building and equipment leases, to determine the impact.

In June 2016, the FASB issued ASU No. 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments," which amends the impairment model to utilize an expected loss methodology in place of the current incurred loss methodology, which will result in the more timely recognition of losses. For public entities, ASU 2016-13 is effective for annual periods beginning after December 15, 2019, including interim periods within those fiscal years. Early application will be permitted for all organizations for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. The Company does not believe the adoption of this ASU will have a significant impact on the financial statements due to the nature of the Company's customers and the limited amount of write-offs in past years.

In August 2017, the FASB issued ASU No. 2017-12, "Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities." The amendments in this ASU update current guidance by more closely aligning the results of cash flow and fair value hedge accounting with risk management activities through changes to both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results. ASU 2017-12 is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years, with early adoption permitted. The Company does not believe the adoption of this ASU will have a significant impact on the financial statements.

NOTE 3 - REVENUE

Revenue Recognition Policy

The Company derives its revenues primarily from the sale of floorcovering products and processing services. Revenues are recognized when control of these products or services is transferred to its customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those products and services. Sales, value add, and other taxes the Company collects concurrent with revenue-producing activities are excluded from revenue. Shipping and handling fees charged to customers are reported within revenue. Incidental items that are immaterial in the context of the contract are recognized as expense. The Company does not have any significant financing components as payment is received at or shortly after the point of sale. The Company determined revenue recognition through the following steps:

1. Identification of the contract with a customer

- Identification of the performance obligations in the contract
- Determination of the transaction price
- Allocation of the transaction price to the performance obligations in the contract
- Recognition of revenue when, or as, the performance obligation is satisfied

Disaggregation of Revenue from Contracts with Customers

The following table disaggregates the Company's revenue by end-user markets for the three months ended March 31, 2018 and April 1, 2017:

	Three Months Ended	
	March 31, 2018	April 1, 2017
Residential floorcovering products	\$67,095	\$62,539
Commercial floorcovering products	31,287	34,516
Other services	476	486
Total net sales	\$98,858	\$97,541

THE DIXIE GROUP, INC.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(UNAUDITED)

(amounts in thousands, except per share data) (Continued)

Residential floorcovering products. Residential floorcovering products include broadloom carpet, rugs, luxury vinyl flooring and engineered hardwood. These products are sold into the designer, retailer, mass merchant and builder markets.

Commercial floorcovering products. Commercial floorcovering products include broadloom carpet, carpet tile, rugs, and luxury vinyl flooring. These products are sold into the corporate, hospitality, healthcare, government, education markets through the use of designers and architects.

Other services. Other services include carpet yarn processing and carpet dyeing services.

Contract Balances

Other than receivables that represent an unconditional right to consideration, which are presented separately (See Note 4), the Company does not recognize any contract assets which give conditional rights to receive consideration, as the Company does not incur costs to obtain customer contracts that are recoverable. The Company often receives cash payments from customers in advance of the Company's performance for limited production run orders resulting in contract liabilities. These contract liabilities are classified in accrued expenses in the Consolidated Condensed Balance Sheet based on the timing of when the Company expects to recognize revenue, which is typically less than a year. The decrease in the contract liabilities is primarily driven by the timing of cash payments received in advance of satisfying the Company's performance obligations and a decline in sales, partially offset by revenues recognized that were included in the contract liability balance at the beginning of the period. The activity in the advanced deposits for the three months ended March 31, 2018 and April 1, 2017 is as follows:

	Three Months Ended	
	March 31, 2018	April 1, 2017
Beginning contract liability	\$5,717	\$8,212
Revenue recognized from contract liabilities included in the beginning balance	(4,484)	(6,311)
Increases due to cash received, net of amounts recognized in revenue during the period	4,063	5,671
Ending contract liability	\$5,296	\$7,572

Performance Obligations

For performance obligations related to residential floorcovering and commercial floorcovering products, control transfers at a point in time. To indicate the transfer of control, the Company must have a present right to payment, legal title must have passed to the customer and the customer must have the significant risks and rewards of ownership. The Company's principal terms of sale are FOB Shipping Point and FOB Destination and the Company transfers control and records revenue for product sales either upon shipment or delivery to the customer, respectively. Revenue is allocated to each performance obligation based on its relative stand-alone selling prices. Stand-alone selling prices are based on observable prices at which the Company separately sells the products or services.

Variable Consideration

The nature of the Company's business gives rise to variable consideration, including rebates, allowances, and returns that generally decrease the transaction price which reduces revenue. These variable amounts are generally credited to the customer, based on achieving certain levels of sales activity, product returns or price concessions.

Variable consideration is estimated at the most likely amount that is expected to be earned. Estimated amounts are included in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. Estimates of variable consideration are estimated based upon historical experience and known trends.

Warranties

The Company generally provides product warranties related to manufacturing defects and specific performance standards for its products for a period up to two years. The Company accrues for estimated future assurance warranty costs in the period in which the sale is recorded. The costs are included in Cost of Sales in the Consolidated Condensed Statements of Operations and the product warranty reserve is included in accrued expenses in the Consolidated Condensed Balance Sheets. The Company calculates its accrual using the portfolio approach based upon historical experience and known trends. (See Note 9.) The Company does not provide an additional service-type warranty.

Bill-and-Hold Arrangement

At the customer's request, the Company had a bill-and-hold arrangement with one customer during the three months ended March 31, 2018. The Company recognized revenue of \$630 but retained physical possession of the inventory. The Company segregated the inventory and no longer had the ability to use or direct it to another customer. The inventory was available to be physically transferred to the customer. None of the inventory had been shipped as of March 31, 2018.

NOTE 4 - RECEIVABLES, NET

Receivables are summarized as follows:

	March 31, December 30,	
	2018	2017
Customers, trade	\$45,286	\$ 43,683
Other receivables	2,768	2,930
Gross receivables	48,054	46,613
Less: allowance for doubtful accounts	(171)	(133)
Receivables, net	\$47,883	\$ 46,480

Bad debt expense was \$60 and \$30 for the three months ended March 31, 2018 and April 1, 2017, respectively.

NOTE 5 - INVENTORIES, NET

Inventories are summarized as follows:

	March 31, December 30,	
	2018	2017
Raw materials	\$40,884	\$ 39,264
Work-in-process	22,510	24,454
Finished goods	67,060	65,172
Supplies and other	155	143
LIFO reserve	(13,621)	(15,376)
Inventories, net	\$116,988	\$ 113,657

NOTE 6 - PROPERTY, PLANT AND EQUIPMENT, NET

Property, plant and equipment consists of the following:

	March 31, December 30,	
	2018	2017
Land and improvements	\$7,886	\$ 7,886
Buildings and improvements	63,226	62,852
Machinery and equipment	189,980	188,971
Assets under construction	1,811	2,443
	262,903	262,152

Edgar Filing: DIXIE GROUP INC - Form 10-Q

Accumulated depreciation	(171,381)	(168,367)	)
Property, plant and equipment, net	\$91,522	\$ 93,785	

Depreciation of property, plant and equipment, including amounts for capital leases, totaled \$3,015 in the three months ended March 31, 2018 and \$3,083 in the three months ended April 1, 2017.

(UNAUDITED)

(amounts in thousands, except per share data) (Continued)

Revolving Credit Facility

The revolving credit facility provides for a maximum of \$150,000 of revolving credit, subject to borrowing base availability. The borrowing base is currently equal to specified percentages of the Company's eligible accounts receivable, inventories, fixed assets and real property less reserves established, from time to time, by the administrative agent under the facility. The revolving credit facility matures on September 23, 2021. The revolving credit facility is secured by a first priority lien on substantially all of the Company's assets.

At the Company's election, advances of the revolving credit facility bear interest at annual rates equal to either (a) LIBOR for one, two or three-month periods, as selected by the Company, plus an applicable margin ranging between 1.50% and 2.00%, or (b) the higher of the prime rate, the Federal Funds rate plus 0.5%, or a daily LIBOR rate plus 1.00%, plus an applicable margin ranging between 0.50% and 1.00%. The applicable margin is determined based on availability under the revolving credit facility with margins increasing as availability decreases. As of March 31, 2018, the applicable margin on our revolving credit facility was 1.75%. The Company pays an unused line fee on the average amount by which the aggregate commitments exceed utilization of the revolving credit facility equal to 0.375% per annum. The weighted-average interest rate on borrowings outstanding under the revolving credit facility was 4.26% at March 31, 2018 and 4.12% at December 30, 2017.

The revolving credit facility includes certain affirmative and negative covenants that impose restrictions on the Company's financial and business operations. The revolving credit facility restricts the Company's borrowing availability if its fixed charge coverage ratio is less than 1.1 to 1.0. During any period that the fixed charge coverage ratio is less than 1.1 to 1.0, the Company's borrowing availability is reduced by \$16,500. As of March 31, 2018, the unused borrowing availability under the revolving credit facility was \$28,794; however, since the Company's fixed charge coverage ratio was less than 1.1 to 1.0, the unused availability accessible by the Company was \$12,294 (the amount above \$16,500) at March 31, 2018.

Notes Payable - Buildings

On November 7, 2014, the Company entered into a ten-year \$8,330 note payable to purchase a previously leased distribution center in Adairsville, Georgia. The note payable is scheduled to mature on November 7, 2024 and is secured by the distribution center. The note payable bears interest at a variable rate equal to one-month LIBOR plus 2.0% and is payable in equal monthly installments of principal of \$35, plus interest calculated on the declining balance of the note, with a final payment of \$4,165 due on maturity. In addition, the Company entered into an interest rate swap with an amortizing notional amount effective November 7, 2014 which effectively fixes the interest rate at 4.50%.

On January 23, 2015, the Company entered into a ten-year \$6,290 note payable to finance an owned facility in Saraland, Alabama. The note payable is scheduled to mature on January 7, 2025 and is secured by the facility. The note payable bears interest at a variable rate equal to one-month LIBOR plus 2.0% and is payable in equal monthly installments of principal of \$26, plus interest calculated on the declining balance of the note, with a final payment of \$3,145 due on maturity. In addition, the Company entered into an interest rate swap with an amortizing notional amount effective January 7, 2017 which effectively fixes the interest rate at 4.30%.

Acquisition Note Payable - Robertex

On July 1, 2013, the Company signed a 4.50% seller-financed note of \$4,000, which was recorded at a fair value of \$3,749, with Robert P. Rothman related to the acquisition of Robertex Associates, LLC ("Robertex") in Calhoun, Georgia. The note is payable in five annual installments of principal of \$800 plus interest. The note matures June 30, 2018.

Notes Payable - Equipment and Other

The Company's equipment financing notes have terms ranging from 1 to 7 years, bear interest ranging from 1.00% to 7.68% and are due in monthly installments through their maturity dates. The Company's equipment financing notes are secured by the specific equipment financed and do not contain any financial covenants.

Capital Lease Obligations

The Company's capitalized lease obligations have terms ranging from 3 to 7 years, bear interest ranging from 3.55% to 7.37% and are due in monthly or quarterly installments through their maturity dates. The Company's capital lease obligations are secured by the specific equipment leased.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(UNAUDITED)

(amounts in thousands, except per share data) (Continued)

NOTE 11 - FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange value of an asset or a liability in an orderly transaction between market participants. The fair value guidance outlines a valuation framework and establishes a fair value hierarchy in order to increase the consistency and comparability of fair value measurements and disclosures. The hierarchy consists of three levels as follows:

Level 1 - Quoted market prices in active markets for identical assets or liabilities as of the reported date;

Level 2 - Other than quoted market prices in active markets for identical assets or liabilities, quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and other than quoted prices for assets or liabilities and prices that are derived principally from or corroborated by market data by correlation or other means; and

Level 3 - Measurements using management's best estimate of fair value, where the determination of fair value requires significant management judgment or estimation.

The following table reflects the fair values of assets and liabilities measured and recognized at fair value on a recurring basis on the Company's Consolidated Condensed Balance Sheets as of March 31, 2018 and December 30, 2017:

	March 31, 2018	December 30, 2017	Fair Value Hierarchy Level
Assets:			
Interest rate swaps (1)	\$ 120	\$ —	Level 2
Liabilities:			
Interest rate swaps (1)	\$ 1,304	\$ 2,229	Level 2
Contingent consideration (2)	25	25	Level 3

The Company uses certain external sources in deriving the fair value of the interest rate swaps. The interest rate swaps were valued using observable inputs (e.g., LIBOR yield curves, credit spreads). Valuations of interest rate swaps may fluctuate considerably from period-to-period due to volatility in underlying interest rates, which are driven by market conditions and the duration of the instrument. Credit adjustments could have a significant impact on the valuations due to changes in credit ratings of the Company or its counterparties.

As a result of the Robertex acquisition in 2013, the Company recorded a contingent consideration liability at fair value. This fair value measurement was based on calculations that utilize significant inputs not observable in the market including forecasted revenues, gross margins and discount rates and thus represent Level 3 measurements. This fair value measurement is directly impacted by the Company's estimates. Accordingly, if the estimates within the fair value measurement are higher or lower, the Company would record additional charges or benefits, respectively, as appropriate.

Changes in the fair value measurements using significant unobservable inputs (Level 3) during the three months ending March 31, 2018 and April 1, 2017 were as follows:

	March 31, 2018	April 1, 2017
Beginning balance	\$ 25	\$ 200
Fair value adjustments	—	3
Ending balance	\$ 25	\$ 203

Table of Contents 14

THE DIXIE GROUP, INC.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(UNAUDITED)

(amounts in thousands, except per share data) (Continued)

There were no transfers of assets or liabilities between Level 1, Level 2 and Level 3 during the three months ending March 31, 2018 or April 1, 2017. If any, the Company recognizes the transfers in or transfers out at the end of the reporting period.

The carrying amounts and estimated fair values of the Company's financial instruments are summarized as follows:

	March 31, 2018		December 30, 2017	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets:				
Cash and cash equivalents	\$ 21	\$ 21	\$ 19	\$ 19
Notes receivable	282	282	282	282
Interest rate swaps	120	120	—	—
Financial liabilities:				
Long-term debt and capital leases, including current portion	134,703	131,083	133,257	131,203
Interest rate swaps	1,304	1,304	2,229	2,229

The fair values of the Company's long-term debt and capital leases were estimated using market rates the Company believes would be available for similar types of financial instruments and represent level 2 measurements. The fair values of cash and cash equivalents and notes receivable approximate their carrying amounts due to the short-term nature of the financial instruments.

NOTE 12 - DERIVATIVES

The Company's earnings, cash flows and financial position are exposed to market risks relating to interest rates. It is the Company's policy to minimize its exposure to adverse changes in interest rates and manage interest rate risks inherent in funding the Company with debt. The Company addresses this risk by maintaining a mix of fixed and floating rate debt and entering into interest rate swaps for a portion of its variable rate debt to minimize interest rate volatility.

The following is a summary of the Company's interest rate swaps as of March 31, 2018:

Type	Notional Amount	Effective Date	Fixed Rate	Variable Rate
Interest rate swap	\$ 25,000	September 1, 2016 through September 1, 2021	3.105%	1 Month LIBOR
Interest rate swap	\$ 25,000	September 1, 2015 through September 1, 2021	3.304%	1 Month LIBOR
Interest rate swap	\$ 6,942	(1) November 7, 2014 through November 7, 2024	4.500%	1 Month LIBOR
Interest rate swap	\$ 5,294	(2) January 7, 2017 through January 7, 2025	4.300%	1 Month LIBOR

(1) Interest rate swap notional amount amortizes by \$35 monthly to maturity.

(2) Interest rate swap notional amount amortizes by \$26 monthly to maturity.

THE DIXIE GROUP, INC.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(UNAUDITED)

(amounts in thousands, except per share data) (Continued)

The following table summarizes the fair values of derivative instruments included in the Company's financial statements:

	Location on Consolidated Balance Sheets	Fair Value	
		March 31, 2018	December 31, 2017
Asset Derivatives:			
Derivatives designated as hedging instruments:			
Interest rate swaps	Other Assets	\$ 120	\$ —
Total Asset Derivatives		\$ 120	\$ —
Liability Derivatives:			
Derivatives designated as hedging instruments:			
Interest rate swaps, current portion	Accrued Expenses	\$ 606	\$ 842
Interest rate swaps, long-term portion	Other Long-Term Liabilities	698	1,387
Total Liability Derivatives		\$ 1,304	\$ 2,229

The following tables summarize the pre-tax impact of derivative instruments on the Company's financial statements:

	Amount of Gain or (Loss) Recognized in AOCIL on the effective portion of the Derivative Three Months Ended March 31, 2018	April 1, 2017
Derivatives designated as hedging instruments:		
Cash flow hedges - interest rate swaps	\$ 804	\$ 57

	Amount of Gain or (Loss) Reclassified from AOCIL on the effective portion into Income (1)(2) Three Months Ended March 31, April 1, 2018 2017	
--	--	--

- (1) The amount of gain (loss) reclassified from AOCIL is included in interest expense on the Company's financial statements.
- (2) The amount of loss expected to be reclassified from AOCIL into earnings during the next 12 months subsequent to March 31, 2018 is \$606.

The amount of gain (loss) recognized in income on the ineffective portion of interest rate swaps, if any, is included in other expense, net on the Company's Consolidated Condensed Statements of Operations. There was no ineffective portion for the periods presented.

NOTE 13 - EMPLOYEE BENEFIT PLANS

Defined Contribution Plans

The Company sponsors a 401(k) defined contribution plan that covers approximately 85% of the Company's current associates. This plan includes a mandatory Company match on the first 1% of participants' contributions. The Company matches the next 2% of participants' contributions if the Company meets prescribed earnings levels. The plan also provides for additional Company contributions above the 3% level if the Company attains certain additional performance targets. Matching contribution expense for this 401(k) plan was \$264 and \$233 for the three months ended March 31, 2018 and April 1, 2017, respectively.

Additionally, the Company sponsors a 401(k) defined contribution plan that covers approximately 15% of the Company's current associates at one facility who are under a collective-bargaining agreement. Under this plan, the Company generally matches participants' contributions, on a sliding scale, up to a maximum of 2.75% of the participant's earnings. Matching contribution expense for the collective-bargaining 401(k) plan was \$29 and \$18 for the three months ended March 31, 2018 and April 1, 2017, respectively.

THE DIXIE GROUP, INC.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(UNAUDITED)

(amounts in thousands, except per share data) (Continued)

Non-Qualified Retirement Savings Plan

The Company sponsors a non-qualified retirement savings plan that allows eligible associates to defer a specified percentage of their compensation. The obligations owed to participants under this plan were \$17,002 at March 31, 2018 and \$17,010 at December 30, 2017 and are included in other long-term liabilities in the Company's Consolidated Condensed Balance Sheets. The obligations are unsecured general obligations of the Company and the participants have no right, interest or claim in the assets of the Company, except as unsecured general creditors. The Company utilizes a Rabbi Trust to hold, invest and reinvest deferrals and contributions under the plan. Amounts are invested in Company-owned life insurance in the Rabbi Trust and the cash surrender value of the policies was \$18,067 at March 31, 2018 and \$18,232 at December 30, 2017 and is included in other assets in the Company's Consolidated Condensed Balance Sheets.

Multi-Employer Pension Plan

The Company contributes to a multi-employer pension plan under the terms of a collective-bargaining agreement that covers its union-represented employees. Expenses related to the multi-employer pension plan were \$92 and \$66 for the three months ended March 31, 2018 and April 1, 2017, respectively.

NOTE 14 - INCOME TAXES

On December 22, 2017, the President signed the Tax Cuts and Jobs Act (the "Tax Act"). The Tax Act, among other things, lowered the U.S. corporate income tax rate from 35% to 21% effective January 1, 2018. While the Company has substantially completed its provisional analysis of the income tax effects of the Tax Act and recorded a reasonable estimate of such effects during the fourth quarter of 2017, the charge related to the Tax Act may differ, possibly materially, due to, among other things, further refinement of its calculations, changes in interpretations and assumptions that the Company has made or additional guidance that may be issued related to the Tax Act. Pursuant to Staff Accounting Bulletin No. 118, the Company will complete its analysis over a one-year measurement period from the enactment date, and any adjustments during this measurement period will be included in income from continuing operations as an adjustment to income tax expense in the reporting period when such adjustments are determined.

The benefit rate for the three months ending March 31, 2018 was 5.4% compared with a benefit rate of 22.1% for the three months ending April 1, 2017. During the fourth quarter of 2017, the Company recorded a full valuation allowance against the deferred tax assets resulting in only refundable credits and a small amount of state taxes being recognized in the tax benefit for the first quarter of 2018. The three months ended April 1, 2017 included \$164 of tax expense related to the adoption of ASU No. 2016-09 which requires a shortfall of tax benefits related to stock compensation to be recognized in income tax expense instead of additional paid-in capital. The Company is in a net deferred tax liability position of \$1,112 and \$1,105 at March 31, 2018 and December 30, 2017, respectively which is included in other liabilities in Company's Consolidated Balance Sheets.

The Company accounts for uncertainty in income tax positions according to FASB guidance relating to uncertain tax positions. Unrecognized tax benefits were \$419 and \$414 at March 31, 2018 and December 30, 2017, respectively. Such benefits, if recognized, would affect the Company's effective tax rate. There were no significant interest or penalties accrued as of March 31, 2018 and December 30, 2017.

The Company and its subsidiaries are subject to United States federal income taxes, as well as income taxes in a number of state jurisdictions. The tax years subsequent to 2013 remain open to examination for U.S. federal income taxes. The majority of state jurisdictions remain open for tax years subsequent to 2013. A few state jurisdictions remain open to examination for tax years subsequent to 2012.

NOTE 15 - EARNINGS (LOSS) PER SHARE

The Company's unvested stock awards that contain non-forfeitable rights to dividends or dividend equivalents, whether paid or unpaid, are considered participating securities and are included in the computation of earnings per share. Accounting guidance requires additional disclosure of earnings (loss) per share ("EPS") for common stock and unvested share-based payment awards, separately disclosing distributed and undistributed earnings. Undistributed earnings represent earnings that were available for distribution but were not distributed. Common stock and unvested share-based payment awards earn dividends equally. All earnings were undistributed in all periods presented.

(1) Includes Common and Class B Common shares, excluding 488 unvested participating securities, in thousands.

Shares issuable under stock option plans where the exercise price is greater than the average market price of the

(2) Company's Common Stock during the relevant period and directors' stock performance units have been excluded to the extent they are anti-dilutive. Aggregate shares excluded for the three months ended March 31, 2018 and April 1, 2017 were 448 and 220, respectively, in thousands.

NOTE 16 - STOCK COMPENSATION EXPENSE

The Company recognizes compensation expense relating to share-based payments based on the fair value of the equity instrument issued and records such expense in selling and administrative expenses in the Company's Consolidated Condensed Financial Statements. The number of shares to be issued is determined by dividing the specified dollar value of the award by the market value per share on the grant date. The Company's stock compensation expense was \$227 for the three months ended March 31, 2018 and \$288 for the three months ended April 1, 2017.

On March 12, 2018, the Company granted 297,292 shares of restricted stock to certain key employees of the Company. The grant-date fair value of the awards was \$832, or \$2.800 per share, and will be recognized as stock compensation expense over a weighted-average period of 6.1 years from the date the awards were granted. Each award is subject to a continued service condition. The fair value of each share of restricted stock awarded was equal to the market value of a share of the Company's Common Stock on the grant date.

Balance at March 31, 2018	\$(555)	\$ 280	\$(275)

NOTE 18 - CONTINGENCIES

Contingencies

The Company assesses its exposure related to legal matters, including those pertaining to product liability, safety and health matters and other items that arise in the regular course of its business. If the Company determines that it is probable a loss has been incurred, the amount of the loss, or an amount within the range of loss, that can be reasonably estimated will be recorded.

Environmental Remediation

The Company accrues for losses associated with environmental remediation obligations when such losses are probable and estimable. Remediation obligations are accrued based on the latest available information and are recorded at undiscounted amounts. The Company regularly monitors the progress of environmental remediation. If studies indicate that the cost of remediation has changed from the previous estimate, an adjustment to the liability would be recorded in the period in which such determination is made. (See Note 21).

Legal Proceedings

The Company has been sued, together with the 3M Company and approximately 30 other carpet manufacturers, by the Gadsden (Alabama) Water Works in the circuit court of Etowah County Alabama [The Water Works and Sewer Board of the City of Gadsden v. 3M Company, et al, civil action No. 31-CV-2016-900676.00] and by the Town of Centre (Alabama) Water Works in the circuit court of Cherokee County Alabama [The Water Works and Sewer Board of the Town of Centre v. 3M Company, et al, civil action No. 13-CV-2017-900049.00]. Both cases seek monetary damages and injunctive relief related to the use of certain chemical compounds in the manufacture and finishing of carpet products “in and around Dalton Georgia.” On motion of the defendants, the cases were removed to the U.S. District Court for the Northern District of Alabama (Middle Division) Case No. 4:16-CV-01755-SGC and Case No. 4:17-CV-01026-KOB. Subsequently, the Gadsden Water Works filed a motion to have the case remanded back to the state court and such motion has been granted. The lawsuits allege that perfluorinated compounds (“PFC”), perfluorinated acid (“PFOA”) and perfluorooctane sulfonate (“PFOS”) manufactured by 3M were used in certain finishing

and treatment processes by the defendants and, as a consequence of such use, were subsequently either discharged into or leached into the water systems around Dalton, Georgia. The Complaints seeks damages that exceed \$10, but are otherwise unspecified in amount in addition to injunctive relief and punitive damages. The Company intends to defend the matters vigorously and is unable to estimate the potential exposure to loss, if any, at this time.

The Company has received a class action complaint filed by Carlos Garcia, a current employee, individually and on behalf of others similarly situated against Fabrica [Carlos Garcia et al. vs. Fabrica International, Inc., et al., in the Superior Court of Orange County, California, Case No. 30-2017-00949461 CU-OE-CXC]. The complaint alleges causes of actions on behalf of classes of Fabrica's current and former employees during the four-year period immediately preceding the filing of the complaint for failure to pay proper overtime wages, failure to compensate for all meal periods and rest periods, failure to pay all proper overtime and double time, and for the provision and maintaining of inaccurate wage statements. Finally, the complaint asserts a cause of action for unfair competition by means of the above actions and seeks restitution of monies supposedly unlawfully withheld and demands attorneys' fees and costs. The Company has denied liability, is defending the matters vigorously and is unable to estimate the potential exposure to loss, if any, at this time.

The Company is one of multiple parties to two current lawsuits filed in Madison County Illinois, styled Brenda Bridgeman, Individually and as Special Administrator of the Estate of Robert Bridgeman, Deceased, vs. American Honda Motor Co., Inc., f/k/a Metropolitan

(amounts in thousands, except per share data) (Continued)

Life Insurance Co. et al No. 15-L-374 and styled Danny Atkins and Pamela Atkins, Pltfs., vs. Aurora Pump Company, et al. No. 18-L-2. Both lawsuits entail a claim for damages to be determined in excess of \$50 filed on behalf of either a former employee or the estate of an individual which alleges that the deceased contracted mesothelioma as a result of exposure to asbestos while employed by the Company. Discovery in each matter is ongoing, and a tentative trial date has been set for one of the cases. The Company has denied liability, is defending the matters vigorously and is unable to estimate its potential exposure to loss, if any, at this time. In March of 2018, a similar lawsuit styled Charles Anderson, Pltf., vs. 3M Company, et al, No. 17-L-525 was dismissed.

On April 24th, 2018, following the end of the quarter, a law firm claiming to represent one of the Company's shareholders owning 50 shares, sent a request for information concerning the Company's equity incentive plans, and equity awards granted under those plans to the Company's chairman and chief operating officer, alleging that the law firm is investigating "possible breaches of fiduciary duty" in approving such plans and such awards. All such equity plans were approved by shareholders, and all such awards were made in accordance with the applicable terms of the plans. The Company is responding to the request in accordance with applicable law. No claim or suit has been filed.

Other expense (income), net	\$2	\$ (1)

NOTE 20 - FACILITY CONSOLIDATION AND SEVERANCE EXPENSES, NET

2014 Warehousing, Distribution & Manufacturing Consolidation Plan

The Company developed a plan to align its warehousing, distribution and manufacturing to support its growth and manufacturing strategy resulting in improved distribution capabilities and customer service. The key element and first major step of this plan was the acquisition of a facility to serve as a finished goods warehouse and a cut-order and distribution center in Adairsville, Georgia. Costs related to the consolidation included moving and relocation expenses, information technology expenses and expenses relating to conversion and realignment of equipment. In addition, this plan included the elimination of both carpet dyeing and yarn dyeing in the Company's Atmore, Alabama facility designed to more fully accommodate the distribution and manufacturing realignment. As a result, the dyeing operations in Atmore were moved to the Company's continuous dyeing facility, skein dyeing operation and other outside dyeing processors.

To complete the Warehousing, Distribution & Manufacturing Consolidation Plan, the Company moved its Saraland rug operation from an expiring leased building to an owned facility in March 2016. The Company completed this consolidation plan during 2016. As a result of eliminating its dyeing operations in Atmore, Alabama, the Company disposed of its waste water treatment plant in 2014. Subsequently, after extensive testing, it was determined that the Company still had some contaminants above background levels and installed a soil cap to finalize the cleanup of the site of the Company's former waste water treatment plant.

2015 Corporate Office Consolidation Plan

In April 2015, the Company's Board of Directors approved the Corporate Office Consolidation Plan, to cover the costs of consolidating three of the Company's existing leased divisional and corporate offices to a single leased facility located in Dalton, Georgia. The Company paid a fee to terminate one of the leased facilities, did not renew a second facility and vacated the third facility. Related to the vacated facility, the Company recorded the estimated costs related to the fulfillment of its contractual lease obligation and on-going facility maintenance, net of an estimate of sub-lease expectations. Accordingly, if the estimates differ, the Company would record an additional charge or benefit, as appropriate. Costs related to the consolidation included the lease termination fee, contractual lease obligations and moving costs.

2017 Profit Improvement Plan

During the fourth quarter of 2017, the Company announced a Profit Improvement Plan to improve profitability through lower cost and streamlined decision making and aligning processes to maximize efficiency. The plan includes consolidating the management of the Company's two commercial brands, Atlas Carpet Mills and Masland Contract, under one management team, sharing operations in sales, marketing, product development and manufacturing. Specific to this plan includes focusing nearly all commercial solution dyed make-to-order production in our Atmore, Alabama operations where the Company has developed such make-to-order capabilities over the last 5 years. Further, the Company is aligning its west coast production facilities, better utilizing its west coast real estate by moving production to its Porterville, California and Atmore, Alabama operations and preparing for more efficient distribution of its west coast products. Furthermore, the Company is re-configuring its east coast distribution facilities to provide more efficient distribution of its products. In addition, the Company had reductions in related support functions such as accounting and information services.

Costs related to the facility consolidation plans are summarized as follows:

	Accrued Balance at December 30, 2017	2018 Expenses To Date	2018 Cash Payments	Accrued Balance at March 31, 2018	As of March 31, 2018 Total Costs Incurred To Date	Total Expected Costs
Warehousing, Distribution & Manufacturing Consolidation Plan	\$ —	\$ —	\$ —	\$ —	\$7,440	\$7,440
Corporate Office Consolidation Plan	171	—	18	153	807	807
Profit Improvement Plan	\$ 334	\$ 216	\$ 316	\$ 234	\$852	\$1,921

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(UNAUDITED)

(amounts in thousands, except per share data) (Continued)

NOTE 21 - DISCONTINUED OPERATIONS

The Company has either sold or discontinued certain operations that are accounted for as "Discontinued Operations" under applicable accounting guidance. Discontinued operations are summarized as follows:

	Three Months Ended	
	March 31, 2018	April 1, 2017
Loss from discontinued operations:		
Workers' compensation costs (credits) from former textile operations	\$7	\$ (27)
Environmental remediation costs from former textile operations	(30)	(21)
Loss from discontinued operations, before taxes	\$(23)	\$(48)
Income tax benefit	—	(19)
Loss from discontinued operations, net of tax	\$(23)	\$(29)

Undiscounted reserves are maintained for the self-insured workers' compensation obligations related to the Company's former textile operations. These reserves are administered by a third-party workers' compensation service provider under the supervision of Company personnel. Such reserves are reassessed on a quarterly basis. Pre-tax cost incurred for workers' compensation as a component of discontinued operations primarily represents a change in estimate for each period from unanticipated medical costs associated with the Company's obligations.

Reserves for environmental remediation obligations are established on an undiscounted basis. The Company has an accrual for environmental remediation obligations related to discontinued operations of \$1,741 as of March 31, 2018 and \$1,746 as of December 30, 2017. The liability established represents the Company's best estimate of possible loss and is the reasonable amount to which there is any meaningful degree of certainty given the periods of estimated remediation and the dollars applicable to such remediation for those periods. The actual timeline to remediate, and thus, the ultimate cost to complete such remediation through these remediation efforts, may differ significantly from our estimates. Pre-tax cost for environmental remediation obligations classified as discontinued operations were primarily a result of specific events requiring action and additional expense in each period.

NOTE 22 - RELATED PARTY TRANSACTIONS

The Company is a party to a five-year lease with the seller of Atlas Carpet Mills, Inc. to lease three manufacturing facilities as part of the acquisition in 2014. The lessor is controlled by an associate of the Company. Rent paid to the lessor during the three months ended March 31, 2018 and April 1, 2017 was \$251 and \$226, respectively. The lease was based on current market values for similar facilities.

The Company purchases a portion of its product needs in the form of fiber, yarn and carpet from Engineered Floors, an entity substantially controlled by Robert E. Shaw, a shareholder of the Company. An affiliate of Mr. Shaw holds approximately 7.3% of the Company's Common Stock, which represents approximately 3.3% of the total vote of all classes of the Company's Common Stock. Engineered Floors is one of several suppliers of such materials to the Company. Total purchases from Engineered Floors during the three months ended March 31, 2018 were approximately \$1,715 ; or approximately 2.2%, respectively, of the Company's cost of goods sold. Total purchases

from Engineered Floors during the three months ended April 1, 2017 were approximately \$1,995; or approximately 2.8%, respectively, of the Company's cost of goods sold. Purchases from Engineered Floors are based on market value negotiated prices. The Company has no contractual commitments with Mr. Shaw associated with its business relationship with Engineered Floors. Transactions with Engineered Floors are reviewed annually by the Company's board of directors.

The Company is a party to a ten-year lease with the Rothman Family Partnership to lease a facility as part of the Robertex acquisition in 2013. The lessor is controlled by an associate of the Company. Rent paid to the lessor during the three months ended March 31, 2018 and April 1, 2017 was \$69 and \$67, respectively. The lease was based on current market values for similar facilities. In addition, the Company has a note payable to Robert P. Rothman related to the acquisition of Robertex Inc. (See Note 10).

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with our consolidated condensed financial statements and related notes appearing elsewhere in this report.

FORWARD-LOOKING INFORMATION

This Report contains statements that may be considered forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements include the use of terms or phrases such as "expects," "estimates," "projects," "believes," "anticipates," "intends," and similar terms and phrases. Such forward-looking statements relate to, among other matters, our future financial performance, business prospects, growth strategies or liquidity. The following important factors may affect our future results and could cause those results to differ materially from our historical results; these factors include, in addition to those "Risk Factors" detailed in item 1A of this report, and described elsewhere in this document, the cost and availability of capital, raw material and transportation costs related to petroleum price levels, the cost and availability of energy supplies, the loss of a significant customer or group of customers, ability to attract, develop and retain qualified personnel, materially adverse changes in economic conditions generally in carpet, rug and floorcovering markets we serve and other risks detailed from time to time in our filings with the Securities and Exchange Commission.

OVERVIEW

Our business consists principally of marketing, manufacturing and selling floorcovering products to high-end residential and commercial customers through our various sales forces and brands. We focus exclusively on the upper-end of the floorcovering market where we believe we have strong brands and competitive advantages with our style and design capabilities and customer relationships. Our Fabrica, Masland, and Dixie Home brands have a significant presence in the high-end residential floorcovering markets. Our Atlas Carpet Mills and Masland Contract brands, participate in the upper-end specified commercial marketplace. Dixie International sells all of our brands outside of the North American market.

Our business is primarily concentrated in areas of the soft floorcovering markets which include broadloom carpet, carpet tiles and rugs. However, over the past few years, there has been a significant shift in the flooring marketplace as hard surface products have grown at a rate much faster than soft surface products. We have responded to this accelerated shift to hard surface flooring by launching several initiatives in both our residential and commercial brands. Our commercial brands offer luxury vinyl flooring ("LVF") products under the Calibr  brand in the commercial markets. Our residential brands, Dixie Home and Masland Residential, offer Stainmaster® PetProtect™ luxury vinyl flooring. During 2018, our residential brand, Fabrica, will begin offering a high-end engineered wood line.

During the first quarter of 2018, our net sales increased 1.4% compared with the first quarter of 2017. Sales of residential products increased 7.3% during the quarter versus prior year quarter while, we estimate, the industry was flat. We continue to anticipate the residential housing market will have steady but moderate growth over the next year. Commercial product sales decreased 9.4% during the quarter while, we believe, the industry was down in the mid-single digits. We anticipate the commercial market to continue to be weak over the next year.

RESULTS OF OPERATIONS

Three Months Ended March 31, 2018 Compared with Three Months Ended April 1, 2017

	Three Months			
	Ended			
	March 31,		April 1,	
	2018		2017	
Net sales	100.0	%	100.0	%
Cost of sales	78.2	%	74.2	%
Gross profit	21.8	%	25.8	%
Selling and administrative expenses	23.4	%	25.1	%
Other operating (income) expense, net	(0.3	)%	0.1	%
Facility consolidation and severance expenses, net	0.2	%	—	%
Operating income (loss)	(1.5	)%	0.6	%

Net Sales

Net sales for the quarter ended March 31, 2018 was \$98.9 million, an increase of 1.4% compared with net sales of \$97.5 million for the year-earlier quarter. In the first quarter of 2018, residential floorcovering sales increased 7.3% and net sales of commercial floorcovering decreased 9.4% compared with the first quarter of 2017. Order entry through the first four weeks of the second quarter have improved for commercial products relative to this same time last year.

[Table of Contents](#) 23

Gross Profit

Gross profit as a percentage of net sales was 21.8% in the first quarter of 2018 compared with 25.8% in the first quarter of 2017, or a 4.0 percentage point decrease as a percentage of sales. During the first quarter of 2018, our sales and costs were negatively impacted by severe weather, which affected several of our east coast facilities in January. In addition, the launch of numerous new difficult to manufacture residential products severely impacted the throughput of our manufacturing operations in January and February, resulting in unabsorbed fixed costs. In addition, we had higher waste and off-quality issues as a result of the intensive effort to launch these new products during the quarter. We were further impacted by the quality initiative, begun in the fourth quarter of 2017 and completed in February of 2018, to reformulate all of our dye formulas to improve color matching through our continuous dye facility. Finally, our commercial sales were slow during the quarter, therefore, we had unabsorbed fixed costs through our facilities that produce primarily commercial products due to the lower production levels required to meet the lower demand.

Selling and Administrative Expenses

Selling and administrative expenses were \$23.1 million in first quarter 2018 compared with \$24.5 million in the year earlier period, a decrease of 1.7 percentage points as a percentage of sales. Selling and administrative expenses decreased as a percentage of sales primarily as a result of lower selling expenses during the quarter. The lower expenses were partially related to cost savings from the actions taken in the Profit Improvement Plan during the fourth quarter of 2017.

Other Operating (Income) Expense, Net

Other operating (income) expense, net was an income of \$241 thousand in the first quarter of 2018 compared with net expense of \$52 thousand in the first quarter of 2017. The first quarter of 2018 included a gain of \$48 from company-owned life insurance and a gain of \$355 from a vendor settlement.

Facility Consolidation and Severance Expenses, Net

Facility consolidation and severance expenses increased \$216 thousand in the first quarter of 2018 compared with the year-earlier period as a result of the expenses associated with the Profit Improvement Plan which began in October 2017.

Operating Income (Loss)

We reported an operating loss of \$1.5 million in the first quarter of 2018 compared with operating income of \$623 thousand in the first quarter of 2017. During the first quarter of 2018, our sales and costs were negatively impacted by severe weather, which affected several of our east coast facilities in January. In addition, the launch of numerous new difficult to manufacture residential products severely impacted the throughput of our manufacturing operations in January and February, resulting in unabsorbed fixed costs. In addition, we had higher waste and off-quality issues as a result of the intensive effort to launch these new products during the quarter. We were further impacted by the quality initiative, begun in the fourth quarter of 2017 and completed in February of 2018, to reformulate all of our dye formulas to improve color matching through our continuous dye facility. Finally, our commercial sales were slow during the quarter, therefore, we had unabsorbed fixed costs through our facilities that produce primarily commercial products due to the lower production levels required to meet the lower demand.

Interest Expense

Interest expense increased \$171 thousand in the first quarter of 2018 compared with the first quarter of 2017 principally a result of higher interest rates and higher levels of debt in 2018.

Income Tax Provision (Benefit)

On December 22, 2017, the President signed the Tax Cuts and Jobs Act (the “Tax Act”). The Tax Act, among other things, lowered the U.S. corporate income tax rate from 35% to 21% effective January 1, 2018. While we have substantially completed our provisional analysis of the income tax effects of the Tax Act and recorded a reasonable estimate of such effects during the fourth quarter of 2017, the charge related to the Tax Act may differ, possibly materially, due to, among other things, further refinement of our calculations, changes in interpretations and assumptions that we have made or additional guidance that may be issued related to the Tax Act. Pursuant to Staff Accounting Bulletin No. 118, we will complete our analysis over a one-year measurement period from the enactment date, and any adjustments during this measurement period will be included in income from continuing operations as an adjustment to income tax expense in the reporting period when such adjustments are determined.

The benefit rate applied to the pretax loss for the first quarter of 2018 was 5.4% compared with a benefit rate of 22.1% in the year-earlier quarter. During the fourth quarter of 2017, we recorded a full valuation allowance against the deferred tax assets resulting in only refundable credits and a small amount of state taxes being recognized in the tax benefit for the first quarter of 2018. The first quarter of 2017 included \$164 of tax expense related to the adoption of ASU No. 2016-09 which required a shortfall of tax benefits related to stock compensation to be recognized in income tax expense instead of additional paid-in capital.

Net Income (Loss)

Continuing operations reflected a loss of \$2.9 million, or \$0.18 per diluted share, in the first quarter of 2018 compared with a loss of \$575 thousand, or \$0.04 per diluted share, in the same period in 2017. Discontinued operations reflected a loss of \$23 thousand, or \$0.00 per diluted share, in the first quarter of 2018 compared with a loss of \$29 thousand, or \$0.00 per diluted share, in the same period in 2017. Including discontinued operations, we had net loss of \$2.9 million, or \$0.18 per diluted share, in the first quarter of 2018 compared with a net loss of \$604 thousand, or \$0.04 per diluted share, in the first quarter of 2017.

LIQUIDITY AND CAPITAL RESOURCES

During the three months ended March 31, 2018, cash used in operations was \$2.9 million. Accounts receivable increased \$1.5 million and inventories increased \$3.3 million which was offset by an increase in accounts payable and accrued expenses of \$2.1 million. The increase in accounts receivable was due to the higher sales volumes during the first quarter of 2018. We increased inventories and accounts payable to build inventories to prepare for the spring and summer selling seasons.

Capital asset acquisitions for the three months ended March 31, 2018 were \$762 thousand. Depreciation and amortization for the three months ended March 31, 2018 were \$3.1 million. We expect capital expenditures to be approximately \$6.0 million in 2018 while depreciation and amortization is expected to be approximately \$13.0 million. Planned capital expenditures in 2018 are primarily for new equipment.

During the three months ended March 31, 2018, cash provided by financing activities was \$3.6 million. We had net borrowings on our revolving credit facility of \$3.8 million. These proceeds were offset by payments on other debt obligations of \$2.4 million. The cash provided by financing was used to fund the operations during the quarter.

We believe our operating cash flows, credit availability under our revolving credit facility and other sources of financing are adequate to finance our anticipated liquidity requirements under current operating conditions. As of March 31, 2018, the unused borrowing availability under our revolving credit facility was \$28.8 million. Our revolving credit facility requires us to maintain a fixed charge coverage ratio of 1.1 to 1.0 during any period that borrowing availability is less than \$16.5 million. As of the date hereof, our fixed charge coverage ratio was less than 1.1 to 1.0, accordingly the unused availability accessible by us was \$12.3 million (the amount above \$16.5 million) at March 31, 2018. Significant additional cash expenditures above our normal liquidity requirements or significant deterioration in economic conditions could affect our business and require supplemental financing or other funding sources. There can be no assurance that such supplemental financing or other sources of funding can be obtained or will be obtained on terms favorable to us.

Contractual Obligations

The following table summarizes our future minimum payments under contractual obligations as of March 31, 2018.

	Payments Due By Period						
	(dollars in millions)						
	2018	2019	2020	2021	2022	Thereafter	Total
Debt	\$4.2	\$2.8	\$1.9	\$103.2	\$1.0	\$ 8.8	121.9
Interest - debt (1)	4.0	5.1	5.0	3.8	0.4	0.7	19.0
Capital leases	3.2	3.4	3.2	2.5	0.9	0.2	13.4
Interest - capital leases	0.5	0.5	0.3	0.2	—	—	1.5

Edgar Filing: DIXIE GROUP INC - Form 10-Q

Operating leases	2.9	2.9	2.4	1.9	1.5	3.5	15.1
Purchase commitments	2.6	—	—	—	—	—	2.6
Totals	17.4	14.7	12.8	111.6	3.8	13.2	173.5

(1) Interest rates used for variable rate debt were those in effect at March 31, 2018.

Changes to Critical Accounting Policies

Our critical accounting policies were outlined in Management's Discussion and Analysis of Results of Operations and Financial Condition in our 2017 Annual Report on Form 10-K filed with the Securities and Exchange Commission. During the first quarter ended March 31, 2018, we adopted the provisions of ASC 606, "Revenue from Contracts with Customers". See Note 2, Recent Accounting Pronouncements and Note 3, Revenue, in the notes to the Consolidated Condensed Financial Statements, related to the impact of the adoption on our financial statements and accounting policies.

Table of Contents 25

Recent Accounting Pronouncements

Recent accounting pronouncements are disclosed in Note 2 to the Consolidated Condensed Financial Statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk (Dollars in thousands)

Our earnings, cash flows and financial position are exposed to market risks relating to interest rates, among other factors. It is our policy to minimize our exposure to adverse changes in interest rates and manage interest rate risks inherent in funding our Company with debt. We address this financial exposure through a risk management program that includes maintaining a mix of fixed and floating rate debt and the use of interest rate swap agreements (See Note 12 to the Consolidated Condensed Financial Statements).

At March 31, 2018, \$51,493, or approximately 38% of our total debt, was subject to floating interest rates. A one-hundred basis point fluctuation in the variable interest rates applicable to this floating rate debt would have an annual after-tax impact of approximately \$381.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms and is accumulated and communicated to management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Our management, under the supervision and with the participation of our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as such terms are defined in Rules 13(a)-15(e) and 15(d)-15(e)) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") as of March 31, 2018, the date of the financial statements included in this Form 10-Q (the "Evaluation Date"). Based on that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of the Evaluation Date.

No changes in our internal control over financial reporting occurred during the quarter covered by this report that materially affected, or are reasonably likely to affect, our internal control over financial reporting.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures, as well as diverse interpretation of U. S. generally accepted accounting principles by accounting professionals. It is also possible that internal control over financial reporting can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. Furthermore, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. These inherent limitations are known features of the financial reporting process; therefore, while it is possible to design into the process safeguards to reduce such risk, it is not possible to eliminate all risk.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We have been sued, together with the 3M Company and approximately 30 other carpet manufacturers, by the Gadsden (Alabama) Water Works in the circuit court of Etowah County Alabama [The Water Works and Sewer Board of the City of Gadsden v. 3M Company, et al, civil action No. 31-CV-2016-900676.00] and by the Town of Centre (Alabama) Water Works in the circuit court of Cherokee County Alabama [The Water Works and Sewer Board of the Town of Centre v. 3M Company, et al, civil action No. 13-CV-2017-900049.00]. Both cases seek monetary damages and injunctive relief related to the use of certain chemical compounds in the manufacture and finishing of carpet products “in and around Dalton Georgia.” On motion of the defendants, the cases were removed to the U.S. District Court for the Northern District of Alabama (Middle Division) Case No. 4:16-CV-01755-SGC and Case No. 4:17-CV-01026-KOB. Subsequently, the Gadsden Water Works filed a motion to have the case remanded back to the state court and such motion has been granted. The lawsuits allege that perflourinated compounds (“PFC”), perflourinated acid (“PFOA”) and perfluorooctane sulfonate (“PFOS”) manufactured by 3M were used in certain finishing and treatment processes by the defendants and, as a consequence of such use, were subsequently either discharged into or leached into the water systems around Dalton, Georgia. The Complaints seeks damages that exceed \$10,000, but are otherwise unspecified in amount in addition to injunctive relief and punitive damages. We intend to defend the matters vigorously and are unable to estimate our potential exposure to loss, if any, at this time.

We have received a class action complaint filed by Carlos Garcia, a current employee, individually and on behalf of others similarly situated against Fabrica [Carlos Garcia et al. vs. Fabrica International, Inc., et al., in the Superior Court of Orange County, California, Case No. 30-2017-00949461 CU-OE-CXC]. The complaint alleges causes of actions on behalf of classes of Fabrica’s current and former employees during the four-year period immediately preceding the filing of the complaint for failure to pay proper overtime wages, failure to compensate for all meal periods and rest periods, failure to pay all proper overtime and double time, and for the

Table of Contents 26

provision and maintaining of inaccurate wage statements. Finally, the complaint asserts a cause of action for unfair competition by means of the above actions and seeks restitution of monies supposedly unlawfully withheld and demands attorneys' fees and costs. We have denied liability, are defending the matters vigorously and are unable to estimate our potential exposure to loss, if any, at this time.

We are one of multiple parties to two current lawsuits filed in Madison County Illinois, styled Brenda Bridgeman, Individually and as Special Administrator of the Estate of Robert Bridgeman, Deceased, vs. American Honda Motor Co., Inc., f/k/a Metropolitan Life Insurance Co., et al No. 15-L-374 and styled Danny Atkins and Pamela Atkins, Pltfs., vs. Aurora Pump Company, et al. No. 18-L-2. Both lawsuits entail a claim for damages to be determined in excess of \$50,000 filed on behalf of either a former employee or the estate of an individual which alleges that the deceased contracted mesothelioma as a result of exposure to asbestos while employed by us. Discovery in each matter is ongoing, and a tentative trial date has been set for one of the cases. We have denied liability, are defending the matters vigorously and are unable to estimate our potential exposure to loss, if any, at this time. In March of 2018, a similar lawsuit styled Charles Anderson, Pltf., vs. 3M Company, et al, No. 17-L-525 was dismissed.

On April 24th, 2018, following the end of the quarter, a law firm claiming to represent one of our shareholders owning 50 shares, sent a request for information concerning our equity incentive plans, and equity awards granted under those plans to our chairman and to our chief operating officer, alleging that the law firm is investigating "possible breaches of fiduciary duty" in approving such plans and such awards. All such equity plans were approved by shareholders, and all such awards were made in accordance with the applicable terms of the plans. We are responding to the request in accordance with applicable law. No claim or suit has been filed.

Item 1A. Risk Factors

In addition to the other information provided in this Report, the following risk factors should be considered when evaluating the results of our operations, future prospects and an investment in shares of our Common Stock. Any of these factors could cause our actual financial results to differ materially from our historical results, and could give rise to events that might have a material adverse effect on our business, financial condition and results of operations.

The floorcovering industry is sensitive to changes in general economic conditions and a decline in residential or commercial construction activity or corporate remodeling and refurbishment could have a material adverse effect on our business.

The floorcovering industry, in which we participate, is highly dependent on general economic conditions, such as consumer confidence and income, corporate and government spending, interest rate levels, availability of credit and demand for housing. We derive a majority of our sales from the replacement segment of the market. Therefore, economic changes that result in a significant or prolonged decline in spending for remodeling and replacement activities could have a material adverse effect on our business and results of operations.

The floorcovering industry is highly dependent on construction activity, including new construction, which is cyclical in nature. The U.S. and global economies, along with the residential and commercial markets in such economies, can negatively impact the floorcovering industry and our business. Although the impact of a decline in new construction activity is typically accompanied by an increase in remodeling and replacement activity, these activities typically lag during a cyclical downturn. Although the difficult economic conditions have improved since the last cyclical downturn in 2008, there may be additional downturns that could cause the industry to deteriorate in the foreseeable future. A significant or prolonged decline in residential or commercial construction activity could have a material adverse effect on our business and results of operations.

We have significant levels of sales in certain channels of distribution and reduction in sales through these channels could adversely affect our business.

A significant amount of our sales are generated through certain retail and mass merchant channels of distribution. A significant reduction of sales through such channels could adversely affect our business.

We have significant levels of indebtedness that could result in negative consequences to us.

We have a significant amount of indebtedness relative to our equity. Insufficient cash flow, profitability or the value of our assets securing our loans could materially adversely affect our ability to generate sufficient funds to satisfy the terms of our senior loan agreements and other debt obligations. Additionally, the inability to access debt or equity markets at competitive rates in sufficient amounts to satisfy our obligations could adversely impact our business.

Uncertainty in the credit market or downturns in the economy and our business could affect our overall availability and cost of credit.

Uncertainty in the credit markets could affect the availability and cost of credit. Despite recent improvement in overall economic conditions, market conditions could impact our ability to obtain financing in the future, including any financing necessary to refinance existing indebtedness. The cost and terms of such financing is uncertain. Continued operating losses could affect our ability to

Table of Contents 27

continue to access the credit markets under our current terms and conditions. These and other economic factors could have a material adverse effect on demand for our products and on our financial condition and operating results.

We face intense competition in our industry, which could decrease demand for our products and could have a material adverse effect on our profitability.

The floorcovering industry is highly competitive. We face competition from a number of domestic manufacturers and independent distributors of floorcovering products and, in certain product areas, foreign manufacturers. Significant consolidation within the floorcovering industry has caused a number of our existing and potential competitors to grow significantly larger and have greater access to resources and capital than we do. Maintaining our competitive position may require us to make substantial additional investments in our product development efforts, manufacturing facilities, distribution network and sales and marketing activities. These additional investments may be limited by our access to capital, as well as restrictions set forth in our credit facilities. Competitive pressures and the accelerated growth of hard surface alternatives, have resulted in decreased demand for our soft floorcovering products and in the loss of market share to hard surface products. As a result, competition from providers of other soft surfaces has intensified and may result in decreased demand for our products. In addition, we face, and will continue to face, competitive pressures on our sales price and cost of our products. As a result of any of these factors, there could be a material adverse effect on our sales and profitability.

If we are unable to anticipate consumer preferences and successfully develop and introduce new, innovative and updated products, we may not be able to maintain or increase our net revenues and profitability.

Our success depends on our ability to identify and originate product trends as well as to anticipate and react to changing consumer demands in a timely manner. All of our products are subject to changing consumer preferences that cannot be predicted with certainty. In addition, long lead times for certain of our products may make it hard for us to quickly respond to changes in consumer demands. Our new products may not receive consumer acceptance as consumer preferences could shift rapidly to different types of flooring products or away from these types of products altogether, and our future success depends in part on our ability to anticipate and respond to these changes. Failure to anticipate and respond in a timely manner to changing consumer preferences could lead to, among other things, lower sales and excess inventory levels, which could have a material adverse effect on our financial condition.

Raw material prices may vary and the inability to either offset or pass on such cost increases or avoid passing on decreases larger than the cost decrease to our customers could materially adversely affect our business, results of operations and financial condition.

We require substantial amounts of raw materials to produce our products, including nylon and polyester yarn, as well as wool yarns, synthetic backing, latex, and dyes. Substantially all of the raw materials we require are purchased from outside sources. The prices of raw materials and fuel-related costs vary significantly with market conditions. The fact that we source a significant amount of raw materials means that several months of raw materials and work in process are moving through our supply chain at any point in time. We are sourcing the majority of our new luxury vinyl flooring and wood product lines from overseas. We are not able to predict whether commodity costs will significantly increase or decrease in the future. If commodity costs increase in the future and we are not able to reduce or eliminate the effect of the cost increases by reducing production costs or implementing price increases, our profit margins could decrease. If commodity costs decline, we may experience pressures from customers to reduce our selling prices. The timing of any price reductions and decreases in commodity costs may not align. As a result, our margins could be affected.

Unanticipated termination or interruption of our arrangements with third-party suppliers of nylon yarn could have a material adverse effect on us.

Nylon yarn is the principal raw material used in our floorcovering products. A significant portion of such yarn is purchased from one supplier. Our yarn supplier is one of the leading fiber suppliers within the industry and is the exclusive supplier of certain innovative branded fiber technology upon which we rely. We believe our offerings of this innovative fiber technology contribute materially to the competitiveness of our products. While we believe there are other sources of nylon yarns, an unanticipated termination or interruption of our current supply of branded nylon yarn could have a material adverse effect on our ability to supply our product to our customers and have a material adverse impact on our competitiveness if we are unable to replace our nylon supplier with another supplier that can offer similar innovative and branded fiber products. An interruption in the supply of these or other raw materials or sourced products used in our business or in the supply of suitable substitute materials or products would disrupt our operations, which could have a material adverse effect on our business.

We rely on information systems in managing our operations and any system failure or deficiencies of such systems may have an adverse effect on our business.

Our businesses rely on sophisticated systems to obtain, rapidly process, analyze and manage data. We rely on these systems to, among other things facilitate the purchase, manufacture and distribution of our products; receive, process and ship orders on a timely basis; and to maintain accurate and up-to-date operating and financial data for the compilation of management information. We rely on our computer hardware, software and network for the storage, delivery and transmission of data to our sales and

Table of Contents 28

distribution systems, and certain of our production processes are managed and conducted by computer. Any damage by unforeseen events or system failure which causes interruptions to the input, retrieval and transmission of data or increase in the service time, whether caused by human error, natural disasters, power loss, computer viruses, intentional acts of vandalism, various forms of cybercrimes including and not limited to hacking, intrusions and malware or otherwise, could disrupt our normal operations. There can be no assurance that we can effectively carry out our disaster recovery plan to handle the failure of our information systems, or that we will be able to restore our operational capacity within sufficient time to avoid material disruption to our business. The occurrence of any of these events could cause unanticipated disruptions in service, decreased customer service and customer satisfaction and harm to our reputation, which could result in loss of customers, increased operating expenses and financial losses. Any such events could in turn have a material adverse effect on our business, financial condition, results of operations, and prospects.

The long-term performance of our business relies on our ability to attract, develop and retain qualified personnel.

To be successful, we must attract, develop and retain qualified and talented personnel in management, sales, marketing, product design and operations. We compete with other floorcovering companies for these employees and invest resources in recruiting, developing, motivating and retaining them. The failure to attract, develop, motivate and retain key employees could negatively affect our business, financial condition and results of operations.

We may experience certain risks associated with internal expansion, acquisitions, joint ventures and strategic investments.

We have recently embarked on several strategic and tactical initiatives, including aggressive internal expansion, acquisitions and investment in new products, to strengthen our future and to enable us to return to sustained growth and profitability. Growth through expansion and acquisition involves risks, many of which may continue to affect us after the acquisition or expansion. An acquired company, operation or internal expansion may not achieve the levels of revenue, profitability and production that we expect. The combination of an acquired company's business with ours involves risks. Further, internally generated growth that involves expansion involves risks as well. Such risks include the integration of computer systems, alignment of human resource policies and the retention of valued talent. Reported earnings may not meet expectations because of goodwill and intangible asset impairment, other asset impairments, increased interest costs and issuance of additional securities or debt as a result of these acquisitions. We may also face challenges in consolidating functions and integrating our organizations, procedures, operations and product lines in a timely and efficient manner.

The diversion of management attention and any difficulties encountered in the transition and integration process could have a material adverse effect on our revenues, level of expenses and operating results. Failure to successfully manage and integrate an acquisition with our existing operations or expansion of our existing operations could lead to the potential loss of customers of the acquired or existing business, the potential loss of employees who may be vital to the new or existing operations, the potential loss of business opportunities or other adverse consequences that could have a material adverse effect on our business, financial condition and results of operations. Even if integration occurs successfully, failure of the expansion or acquisition to achieve levels of anticipated sales growth, profitability or productivity, or otherwise perform as expected, may have a material adverse effect on our business, financial condition and results of operations.

We are subject to various environmental, safety and health regulations that may subject us to costs, liabilities and other obligations, which could have a material adverse effect on our business, results of operations and financial condition.

We are subject to various environmental, safety and health and other regulations that may subject us to costs, liabilities and other obligations which could have a material adverse effect on our business. The applicable requirements under these laws are subject to amendment, to the imposition of new or additional requirements and to changing interpretations of agencies or courts. We could incur material expenditures to comply with new or existing regulations, including fines and penalties and increased costs of our operations. Additionally, future laws, ordinances, regulations or regulatory guidelines could give rise to additional compliance or remediation costs that could have a material adverse effect on our business, results of operations and financial condition. For example, producer responsibility regulations regarding end-of-life disposal could impose additional cost and complexity to our business.

Various federal, state and local environmental laws govern the use of our current and former facilities. These laws govern such matters as:

- Discharge to air and water;
- Handling and disposal of solid and hazardous substances and waste, and
- Remediation of contamination from releases of hazardous substances in our facilities and off-site disposal locations.

Our operations also are governed by laws relating to workplace safety and worker health, which, among other things, establish noise standards and regulate the use of hazardous materials and chemicals in the workplace. We have taken, and will continue to take, steps to comply with these laws. If we fail to comply with present or future environmental or safety regulations, we could be subject to future liabilities. However, we cannot ensure that complying with these environmental or health and safety laws and requirements will not adversely affect our business, results of operations and financial condition.

We may be exposed to litigation, claims and other legal proceedings in the ordinary course of business relating to our products or business, which could have a material adverse effect on our business, results of operations and financial condition.

In the ordinary course of business, we are subject to a variety of work-related and product-related claims, lawsuits and legal proceedings, including those relating to product liability, product warranty, product recall, personal injury, environmental and other matters that are inherently subject to many uncertainties regarding the possibility of a loss to our business. Such matters could have a material adverse effect on our business, results of operations and financial condition if we are unable to successfully defend against or resolve these matters or if our insurance coverage is insufficient to satisfy any judgments against us or settlements relating to these matters. Although we have product liability insurance, the policies may not provide coverage for certain claims against us or may not be sufficient to cover all possible liabilities. Further, we may not be able to maintain insurance at commercially acceptable premium levels. Additionally, adverse publicity arising from claims made against us, even if the claims are not successful, could adversely affect our reputation or the reputation and sales of our products.

Our business operations could suffer significant losses from natural disasters, catastrophes, fire or other unexpected events.

Many of our business activities involve substantial investments in manufacturing facilities and many products are produced at a limited number of locations. These facilities could be materially damaged by natural disasters, such as floods, tornadoes, hurricanes and earthquakes, or by fire or other unexpected events such as adverse weather conditions or other disruptions to our facilities, supply chain or our customer's facilities. We could incur uninsured losses and liabilities arising from such events, including damage to our reputation, and/or suffer material losses in operational capacity, which could have a material adverse impact on our business, financial condition and results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Repurchases of Common Stock

The following table provides information regarding our repurchases of shares of our Common Stock during the three months ended March 31, 2018:

Month Ending	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Maximum Number (or approximate dollar value) of Shares That May Yet Be Purchased Under Plans or Programs
February 3, 2018	—	\$	—	
March 3, 2018	—	—	—	
March 31, 2018	19,726	2.85	19,726	
Three Months Ended March 31, 2018	19,726	\$	—19,726	\$ 2,172,047

(1) During the three months ended March 31, 2018, 19,726 shares were withheld from employees in lieu of cash payments for withholding taxes due for a total amount of \$56,219.

Item 3. Defaults Upon Senior Securities

None.
