"Safe Harbor" Statement under the Private Securities Reform Act of 1995

Certain of the statements contained in this Quarterly Report (other than the financial statements and statements of historical fact), including, without limitation, statements as to management expectations and beliefs presented under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations", are forward-looking statements. Forward-looking statements are made based upon management's expectations and belief concerning future developments and their potential effect upon the Corporation. There can be no assurance that future developments will be in accordance with management's expectations or that the effect of future developments on the Corporation will be those anticipated by management.

The Corporation wishes to caution readers that the assumptions which form the basis for forward-looking statements with respect to or that may impact earnings for the year ended December 31, 2002 and thereafter include many factors that are beyond the Corporation's ability to control or estimate precisely. These risks and uncertainties include, but are not limited to, changes in US or international economic or political conditions, such as the general level of economic activity, inflation or fluctuations in interest or foreign exchange rates; the costs and other effects of legal and administrative cases and proceedings, settlements and investigations; disruptions in operations due to labor disputes; the market demand and acceptance of the Corporation's existing and new products; changes in the pricing of the products of the Corporation or its competitors; the impact of competitive products; the impact on production output and costs from the availability of energy sources and related pricing; changes in the market for raw or packaging materials which could impact the Corporation's manufacturing costs; changes in the product mix; the loss of a significant customer or supplier; production delays or inefficiencies; the ability to achieve anticipated revenue growth, synergies and other cost savings in connection with acquisitions; the costs and other effects of complying with environmental regulatory requirements; and losses due to natural disasters where the Corporation is self-insured.

While the Corporation periodically reassesses material trends and uncertainties affecting the Corporation's results of operations and financial condition in connection with its preparation of management's discussion and analysis contained in its quarterly reports, the Corporation does not intend to review or revise any particular forward-looking statement referenced herein in light of future events.

BAIRNCO CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

JUNE 29, 2002

(Unaudited)

(1) Basis of Presentation

The accompanying consolidated condensed financial statements include the accounts of Bairnco Corporation and its subsidiaries ("Bairnco" or the "Corporation") after the elimination of all material intercompany accounts and transactions.

The unaudited consolidated condensed financial statements included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission for interim financial reporting. Certain financial information and note disclosures which are normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations, although management believes that the disclosures made are adequate to make the information presented not misleading. Management believes the financial statements include all adjustments of a normal and recurring nature necessary to present fairly the results of operations for all interim periods presented.

The quarterly financial statements should be read in conjunction with the December 31, 2001 audited consolidated financial statements. The consolidated results of operations for the quarter and six-month period ended June 29, 2002 are not necessarily indicative of the results of operations for the full year.

#### New Accounting Pronouncements:

Effective January 1, 2002, the Corporation adopted Statement of Financial Accounting Standards ("SFAS") No. 142, *Goodwill and Other Intangible Assets*. SFAS No. 142 provides for the non-amortization of goodwill. Goodwill will now be subject to at least an annual assessment for impairment by applying a fair-value based test. Other intangible assets will be amortized over their useful lives (other than indefinite life assets). Other intangible assets with indefinite lives will be subject to a lower of cost or market impairment test. This annual impairment testing of goodwill and other indefinite lived intangible assets could result in more volatility in reported income, as impairment losses could occur irregularly and in varying amounts.

The Corporation used the expected present value of future cash flows for estimating the fair value of its reporting units. Other than the elimination of approximately \$0.5 million of annual goodwill amortization expense, the adoption of SFAS No. 142 had no impact on the results of operations and financial position of the Corporation for the quarter and six month period ended June 29, 2002. Goodwill amortization expense for the quarter and six month period ended June 29, 2002 was approximately \$121,000 and \$242,000 respectively. A reconciliation of prior period reported net income and earnings per share to adjusted net income and earnings per share excluding the impact of goodwill is a follows:

	<u>Quarter Ended</u> <u>June 29, 2002</u>	<u>Quarter Ended</u> <u>June 30, 2001</u>	<u>Six Months</u> <u>Ended June 29,</u> <u>2002</u>	<u>Six Months</u> <u>Ended June 30,</u> <u>2001</u>

Impact of exchange rate fluctuations on foreign goodwill	--	94,000	94,000
	\$5,992,000	\$ 6,868,000	\$12,860,000

In June 2001, the FASB issued SFAS No. 143, *Accounting for Asset Retirement Obligations*. SFAS 143 addresses the financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated retirement costs. SFAS No. 143 is effective for fiscal years beginning after June 15, 2002. The adoption of SFAS No. 143 had no financial impact on the results of operations and financial position of the Corporation for the quarter and six-month period ended June 29, 2002.

Effective January 1, 2002, the Corporation adopted SFAS No. 144, *Accounting for the Disposal or Impairment of Long-Lived Assets*. SFAS No. 144 supersedes SFAS No. 121 and requires that one accounting impairment model be used for long-lived assets to be held and used and to be disposed of by sale, whether previously held and used or newly acquired, and broadens the presentation of discontinued operations to include more disposal transactions. The adoption of SFAS No. 144 had no impact on the results of operations and financial position of the Corporation for the quarter and six-month period ended June 29, 2002.

(2) Earnings per Common Share

Earnings per share data is based on net income and not comprehensive income. Computations of earnings per share for the quarters and six-month periods ended June 29, 2002 and June 30, 2001 are included as Exhibit 11.1 and Exhibit 11.2, respectively, to this Quarterly Report on Form 10-Q.

Basic earnings per common share were computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted earnings per common share include the effect of all dilutive stock

options.

### (3) Comprehensive Income

Comprehensive income includes net income as well as certain other transactions shown as changes in stockholders' investment. For Bairnco, comprehensive income includes net income plus the change in net asset values of foreign divisions as a result of translating the local currency values of net assets to US dollars at varying exchange rates. Accumulated other comprehensive income consists solely of foreign currency translation adjustments. There are currently no tax expenses or benefits associated with the foreign currency translation adjustments.

### 4. Accounting for Derivatives

In June 1998, the Financial Accounting Standards Board issued SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("SFAS 133"), which requires the Corporation to recognize all derivatives as either assets or liabilities in the balance sheet and measure those instruments at fair value. Derivatives that are not designated as part of a hedging relationship must be adjusted to fair value through income. If the derivative is a hedge, depending on the nature of the hedge, the effective portion of the hedge's change in fair value is either (1) offset against the change in fair value of the hedged asset, liability or firm commitment through income or (2) held in equity until the hedged item is recognized in income. The ineffective portion of a hedge's change in fair value is immediately recognized in income. SFAS 133, as amended by SFAS No. 137, "Accounting for Derivative Instruments and Hedging Activities - Deferral of the Effective Date of SFAS 133," is effective for all fiscal years beginning after June 15, 2000. SFAS 133 should not be applied retroactively to financial statements of prior periods.

The Corporation adopted SFAS 133, as amended, on January 1, 2001. The implementation of SFAS No. 133 had no impact on the Corporation's results of operations and financial position in 2001 or for the six months ended June 29, 2002.

### (5) Acquisitions

On January 10, 2001, Bairnco purchased selected net assets ("Viscor") of Viscor, Inc. Viscor's engineered, coated products include transfer adhesives, single and double-coated foam and film tapes, and other custom coated products. Viscor's sales for the six months ended December 31, 2000 were approximately \$3.4 million. The transaction was accounted for as a purchase and was financed with long-term debt. The purchase price exceeded the fair value of net assets acquired by approximately \$0.4 million and the resultant goodwill is being amortized on a straight-line basis over 15 years. The terms of Viscor's asset purchase agreement provide for additional consideration to be paid by Bairnco if Viscor's results of operations exceed certain targeted levels. Such additional consideration will be paid semi-annually in cash and is recorded when earned as additional purchase price. The maximum amount of contingent consideration is approximately \$4.5 million payable over the 5-year period ended December 31, 2005. The results of operations of Viscor are included in the accompanying consolidated financial statements from the date of acquisition.

### (6) Inventories

Inventories consisted of the following as of June 29, 2002 and December 31, 2001:

	2002	2001
Raw materials and supplies	\$ 5,624,000	\$ 5,864,000
Work in process	8,014,000	7,614,000

Finished goods	11,854,000	12,141,000
Total inventories	\$ 25,492,000	\$ 25,619,000

(7) Accrued Expenses

Accrued expenses consisted of the following as of June 29, 2002 and December 31, 2001:

	2002	2001
Salaries and wages	\$ 1,516,000	\$ 1,158,000
Income taxes	365,000	466,000
Insurance	2,258,000	2,754,000
Litigation	3,195,000	5,221,000
Other accrued expenses	5,316,000	4,190,000
Total accrued expenses	\$ 12,650,000	\$ 13,789,000

## Accrued expenses-litigation:

The Corporation accrues for the estimated costs to defend existing lawsuits, claims and proceedings where it is probable that it will incur such costs in the future. These non-discounted accruals are management's best estimate of the most likely cost to defend the litigation based on discussions with counsel. Such estimates are reviewed and evaluated in light of ongoing experiences and expectations and could substantially exceed the current best estimates which would have a material impact on the results of operations of the period in which the change in estimate was recorded. Any changes in estimates from this review process are reflected in operations currently.

In the fourth quarter of 1998, Bairnco recorded a \$7,500,000 pre-tax provision for litigation costs. After recognition of related tax benefits, the litigation provision reduced net income in 1998 by \$4.7 million or approximately \$.54 diluted earnings per common share. In the fourth quarter of 2000, Bairnco recorded an additional \$1,000,000 pre-tax provision for litigation costs. After recognition of related tax benefits, the litigation provision reduced net income in 2000 by \$640,000 or approximately \$.09 diluted earnings per common share. An additional \$6,200,000 pre-tax provision for litigation costs was taken in the third quarter of 2001. After recognition of related tax benefits, the litigation provision reduced net income for 2001 by \$3,968,000 or approximately \$0.54 per share. The litigation provisions added to the existing reserves for asbestos-related litigation expenditures due to changes in the estimates to defend the Transaction Lawsuit (refer to Part II, Item 1 ("Legal Proceedings") of this filing). Through June 29, 2002, approximately \$12.6 million of the litigation reserve had been spent. The remaining reserves are included in accrued expenses in the Corporation's consolidated balance sheet. The level of reserves assumes a vigorous defense of the case through discovery, summary judgment motions and trial at the beginning of 2003.

## Accrued expenses-insurance:

The Corporation's US insurance programs for general liability, automobile liability, workers compensation and certain employee related health care benefits are effectively self-insured. Claims in excess of self-insurance levels are fully insured. Accrued expenses-insurance represents the estimated costs of known and anticipated claims under these insurance programs. The Corporation provides reserves on reported claims and claims incurred but not reported at each balance sheet date based upon the estimated amount of the probable claim or the amount of the deductible, whichever is lower. Such estimates are reviewed and evaluated in light of emerging claim experience and existing circumstances. Any changes in estimates from this review process are reflected in operations currently.

(8) Reportable Segment Data

Bairnco's segment disclosures are prepared in accordance with Statement of Financial Accounting Standards No. 131. There are no differences to the 2001 annual report in the basis of segmentation or in the basis of measurement of segment profit or loss included herein. Financial information about the Corporation's operating segments for the quarters and six-month periods ended June 29, 2002 and June 30, 2001 as required under SFAS 131 is as follows:

(10) Contingencies

Bairnco Corporation and its subsidiaries are defendants in certain legal actions which are discussed more fully in Part II, Item 1 ("Legal Proceedings") of this filing.

Item 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIALCONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the accompanying Consolidated Condensed Financial Statements and related notes and with Bairnco's Audited Consolidated Financial Statements and related notes for the year ended December 31, 2001.

Bairnco Corporation is a diversified multinational company that operates two distinct businesses under the names Arlon and Kasco.

Engineered materials and components are designed, manufactured and sold under the Arlon brand identity to electronic, industrial and commercial markets. These products are based on common technologies in coating, laminating, polymers and dispersion chemistry. Arlon's principal products include high performance materials for the printed circuit board industry, cast and calendered vinyl film systems, custom-engineered laminates, and calendered and extruded silicone rubber insulation products used in a broad range of industrial, consumer and commercial products.

Replacement products and services are manufactured and distributed under the Kasco name principally to retail food stores and meat, poultry and fish processing plants throughout the United States, Canada and Europe. The principal products include replacement band saw blades for cutting meat, fish, wood and metal, and on site maintenance services primarily in the meat and deli departments. Kasco also distributes equipment to the food industry in Canada and France. These products are sold under a number of brand names including Kasco in the United States and Canada, Atlantic Service in the United Kingdom, and Bertram & Graf and Biro in Continental Europe.

Comparison of Second Quarter 2002 to Second Quarter 2001

Sales in the second quarter 2002 were \$41,632,000, an increase of 4.5% from \$39,826,000 in 2001. Arlon's sales increased 2.9% from last year with small improvements in the general industrial markets and reduced drag from customer's inventory liquidations that were present last year. Kasco's sales increased 10.5% as compared to the second

quarter last year due primarily to improvements in its European operations as their markets are recovering from "mad cow" and "hoof and mouth" disease outbreaks during 2000 and 2001. The weakening US dollar also positively impacted the currency translation of Kasco's foreign sales.

Gross profit increased 2.8% to \$12,317,000 from \$11,977,000 due to the increased sales and cost reductions that were partially offset by lower prices due to competition. The gross profit margin as a percent of sales decreased to 29.6% from 30.1%.

Selling and administrative expenses increased 5.0% to \$10,264,000 from \$9,771,000 due primarily to additional bad debt expense and increased severance costs. As a percent of sales, selling and administrative expenses increased to 24.7% from 24.5%. Consequently, operating profit declined \$153,000 or 6.9% to \$2,053,000 from \$2,206,000 in 2001.

Interest expense decreased to \$279,000 in 2002 as compared to \$724,000 in 2001 due to debt reductions in 2001 and 2002 from strong cash generation and lower average interest rates.

Net income increased 19.6% to \$1,224,000 as compared to \$1,023,000 in the second quarter of 2001. Diluted earnings per common share increased 21.4% to \$.17 from \$.14 as a result of improved earnings. No shares were repurchased on the open market during the second quarter of 2002.

#### Comparison of First Six Months 2002 to First Six Months 2001

Sales for the first half of 2002 decreased 6.9% to \$78,249,000 from \$84,044,000 in 2001 due primarily to the declines in the telecommunications and electronics markets that were still reasonably strong in the first quarter of 2001.

Gross profit decreased 6.5% to \$22,908,000 from \$24,511,000 in the first half of 2001 due to the reduced sales during the period. The gross profit margin as a percent of sales increased slightly to 29.3% from 29.2%.

Selling and administrative expenses decreased \$288,000 or 1.4% to \$19,595,000 from \$19,883,000 in 2001. The lower expenses from reduced sales and cost reduction actions taken throughout 2001 were partially offset by the additional bad debt expense and increased severance costs in the second quarter of 2002. As a percent of sales, selling and administrative expenses increased to 25.0% from 23.7%.

Net interest expense decreased to \$552,000 as compared to \$1,672,000 in the first half of 2001 due to debt reductions and lower average interest rates.

Net income decreased 6.6% to \$1,905,000 from \$2,040,000 and diluted earnings per common share decreased 7.1% to \$.26 from \$.28 in 2001.

#### Dividend

The second quarter cash dividend of \$.05 per share was paid on June 28, 2002 to stockholders of record on June 3, 2002.

#### Liquidity and Capital Resources

At June 29, 2002, Bairnco had working capital of \$27.4 million compared to \$25.8 million at December 31, 2001. The increases in accounts receivable reflect the impact of increased sales during the second quarter of 2002 versus the fourth quarter of 2001. Current deferred income taxes decreased as the related legal accruals and net operating tax loss carryovers were reduced. The increase in other current assets primarily reflects the timing of payments for insurance premiums that are amortized over the respective policy periods and the reclassification of a fiscal year 2000 estimated

tax overpayment which was netted against the current taxes payable (accrued expenses) at yearend 2001. The reduction in accrued expenses is due to payments of attorney's fees.

During the first six months of 2002 Bairnco repurchased no shares of its common stock on the open market. The Board has authorized management to continue its stock repurchase program subject to market conditions and capital requirements of the business.

At June 29, 2002, Bairnco's total debt outstanding was \$31,089,000 compared to \$33,584,000 at the end of 2001. The decrease was due to strong cash generation from operating activities during the second quarter 2002. Current maturities of long-term debt increased to \$7,500,000 from \$4,000,000, due primarily to the reclassification of Arlon's \$3,000,000 Industrial Revenue Bond, which matures in April 2003, from Long-term Debt. At June 29, 2002 approximately \$31.8 million was available for borrowing under the Corporation's secured revolving credit agreement, as amended (the "Credit Agreement"). In addition, approximately \$4.2 million was available under various short-term domestic and foreign uncommitted credit facilities.

Bairnco made \$1,109,000 of capital expenditures during the second quarter of 2002 bringing the total capital expenditures for the first half of 2001 to \$1,970,000. Total capital expenditures for 2002 are now expected to approximate \$4.5 million.

Cash provided by operating activities plus the amounts available under the existing credit facilities are expected to be sufficient to fulfill Bairnco's anticipated cash requirements in 2002.

#### Other Matters

Bairnco Corporation and its subsidiaries are defendants in a number of legal actions and proceedings which are discussed in more detail in Part II, Item 1 ("Legal Proceedings") of this filing. Management of Bairnco believes that the disposition of these actions and proceedings will not have a material adverse effect on the consolidated results of operations or the financial position of Bairnco Corporation and its subsidiaries as of June 29, 2002.

#### Outlook

The second quarter results showed some small improvements in Bairnco's general industrial markets. The drag from inventory liquidation appears to have ended in all markets served. Our served electronics, communications and graphics markets all appear to have bottomed but show no real signs of recovery. We still anticipate the continuation of a very modest recovery for the balance of 2002.

Continuous improvement programs are ongoing and new product development programs will be maintained to grow our business and meet the needs of our customers. Further cost reductions are being considered in light of ongoing competitive pricing pressures.

Given the outlook for the economy and the markets served and the continuation of low interest rates, we continue to expect improved results for the balance of the year as compared to last year. We expect to continue to generate cash and to pay down debt. Bairnco management plans to continue managing all spending and investments prudently to balance the need for short-term profitability and cash generation while supporting the long-term growth of its businesses. Bairnco remains in strong financial condition.

Item 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

## Impact of Interest Rates

The interest on the Corporation's bank debt is floating and based on prevailing market interest rates. For market rate based debt, interest rate changes generally do not affect the market value of the debt but do impact future interest expense and hence earnings and cash flows, assuming other factors remain unchanged. A theoretical one-percentage point change in market rates in effect on June 29, 2002 would change interest expense and hence change net income of the Corporation by approximately \$215,000 per year.

The following table summarizes the principal cash flows of the Corporation's financial instruments outstanding at June 29, 2002, categorized by type of instrument and by year of maturity. There have been no changes in market risk factors for the six-month period ended June 29, 2002.

	<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>	<u>Total</u>	<u>Fair Value</u>	
Short Term Debt	931	-	-	-	931	931	
Industrial Revenue Bond (interest at 1.63%)	-	3,000	-	-	3,000	3,000	
Long Term Debt:							
Term Loan (interest at 3.1875%)	3,000	4,000	6,000	-	13,000	13,000	
Revolving line of credit (interest ranging from 3.0% to 4.5625%)	-	-	-	14,158	14,158	14,158	

## Effect of Inflation

General inflation has had minimal impact on Bairnco's operating results in the last three years. Sales prices and volumes have been more strongly influenced specific market supply and demand and by foreign currency exchange rate fluctuations than by inflationary factors.

## Impact of Euro

Each of our European operations has successfully converted to the Euro. All computer systems have been updated to ensure Euro compliance effective January 1, 2002. All marketing and operational policies and procedures were reviewed to ensure we continue to successfully conduct all aspects of our business in the Euro market. The total cost of the Euro conversion was not material and the conversion from the legacy currencies has been completed without any adverse impact.

#### Impact of Foreign Currency Exchange Rates

The Corporation's sales denominated in a currency other than U.S. dollars were approximately 16.4% and 16.3%, respectively, of total sales for the quarter and six month period ended June 29, 2002. Net assets maintained in a functional currency other than U.S. dollars at June 29, 2002 were approximately 14.6% of total net assets. The effects of changes in foreign currency exchange rates have not historically been significant to the Corporation's operations or net assets.

## PART II - OTHER INFORMATION

### Item 1: LEGAL PROCEEDINGS

Bairnco and its subsidiaries are among the defendants in a lawsuit pending in the U.S. District Court for the Southern District of New York (the "Transactions Lawsuit") in which it is alleged that Bairnco and others are derivatively liable for the asbestos-related claims against its former subsidiary, Keene Corporation ("Keene"). The plaintiffs in the Transactions Lawsuit are the trustees of the Keene Creditors Trust (the "KCT"), a successor in interest to Keene. In the Transactions Lawsuit complaint, the KCT alleges that certain sales of assets by Keene to other subsidiaries of Bairnco were fraudulent conveyances and otherwise in violation of state law, as well as being in violation of the civil RICO statute, 18 U.S.C. Section 1964. The complaint seeks compensatory damages of \$700 million, interest, punitive damages, and trebling of the compensatory damages pursuant to civil RICO. In a series of decisions that remain subject to appeal, the court has dismissed plaintiff's civil RICO claims; dismissed 14 of the 21 defendants named in the complaint; and partially granted defendants' motions for summary judgment on statute of limitations grounds. Discovery is essentially complete as to the remaining claims and defendants. All defendants recently filed motions for summary judgment, and those motions are scheduled to be fully briefed by October 2002. The court has set a trial date for January 13, 2003.

Keene was spun off from Bairnco in 1990, filed for relief under Chapter 11 of the Bankruptcy Code in 1993, and emerged from Chapter 11 pursuant to a plan of reorganization approved in 1996 (the "Keene Plan"). The Keene Plan provided for the creation of the KCT, and transferred the authority to prosecute the Transactions Lawsuit from the Official Committee of Unsecured Creditors of Keene (which initiated the lawsuit in the Bankruptcy Court in 1995) to the KCT. The Keene Plan further provided that only the KCT, and no other entity, can sue Bairnco in connection with the claims in the Transactions Lawsuit complaint. Therefore, although a number of other asbestos-related personal injury and property damage cases against Bairnco nominally remain pending in courts around the country, it is expected that the resolution of the Transactions Lawsuit will resolve all such claims.

Bairnco also is the defendant in a separate action by the KCT (the "NOL Lawsuit"), also pending in the United States District Court for the Southern District of New York, in which the KCT seeks the exclusive benefit of tax refunds attributable to the carryback by Keene of certain net operating losses ("NOL Refunds"), notwithstanding applicable tax sharing agreements between Keene and Bairnco. (As with the Transactions Lawsuit, the NOL Lawsuit was commenced during Keene's Chapter 11 case and, pursuant to the Keene Plan, the KCT became the plaintiff in the lawsuit and the lawsuit was moved from the Bankruptcy Court to the District Court.) Pending resolution of the NOL Lawsuit, any refunds actually received are to be placed in escrow. Through March 30, 2002, approximately \$28.5 million of NOL Refunds had been received and placed in an interest-bearing escrow account. There can be no

assurance whatsoever that resolution of the NOL Lawsuit will result in the release of any portion of the NOL Refunds to Bairnco. Discovery in the NOL Lawsuit is nearing completion. The court has not yet set a date for completion of such discovery or for trial.

Bairnco and its Arlon subsidiary previously were among the defendants in a third action by the KCT (the "Properties Lawsuit"), commenced December 8, 1998 in the United States District Court for the Southern District of New York. Through the Properties Lawsuit, the KCT sought a declaratory judgment that it owns certain patents and real property purchased by Arlon from Keene in 1989, based on the allegations that technical title to these assets was not conveyed at the time of the sale and that no proof of claim specifically referencing these assets was filed during Keene's Chapter 11 case. In an answer and counterclaims, Bairnco and Arlon denied the KCT's claims and requested a declaratory judgment that full title to the patents and real property in question in fact was transferred to Arlon at the time of the 1989 asset sale. By agreement, the case between the KCT and Bairnco and Arlon has been dismissed without prejudice, and the issues raised in the Properties Lawsuit complaint will be resolved in the Transactions Lawsuit.

Management believes that Bairnco has meritorious defenses to all claims or liability purportedly derived from Keene and that it is not liable, as an alter ego, successor, fraudulent transferee or otherwise, for the asbestos-related claims against Keene or with respect to Keene products.

Bairnco Corporation and its subsidiaries are defendants in a number of other actions. Management of Bairnco believes that the disposition of these other actions, as well as the actions and proceedings described above, will not have a material adverse effect on the consolidated results of operations or the financial position of Bairnco Corporation and its subsidiaries as of June 29, 2002.
