Earnings per diluted share were increased \$0.03 in the second quarter of fiscal 2011 by a gain realized upon the sale of the Company's equity interest in Lloyd George Management (BVI) Limited ( Lloyd George Management ) during the quarter. The Company earned \$0.80 per diluted share in the first six months of fiscal 2011 compared to \$0.66 per diluted share in the first six months of fiscal 2010. Net inflows in the second quarter of fiscal 2011 and the first quarter of fiscal 2011 reflect a \$0.3 billion and \$0.8 billion decrease in fund leverage, respectively. The Company's annualized internal growth rate (four times quarterly long-term net inflows divided by beginning of period long-term assets managed) was 6 percent in the second quarter of fiscal 2011.

Assets under management on April 30, 2011 were \$203.0 billion, a new record high. This represents an increase of 15 percent from the \$176.2 billion of managed assets as of April 30, 2010 and an increase of 6 percent from the \$191.7 billion of managed assets as of January 31, 2011.

Long-term fund net inflows of \$2.2 billion in the second quarter of fiscal 2011 compare to \$3.2 billion of long-term fund net inflows in the second quarter of fiscal 2010, and reflect \$9.9 billion of fund sales and other inflows, \$7.4 billion of fund redemptions and other outflows, and a decrease in fund leverage of \$0.3 billion. Retail managed account net inflows were \$0.8 billion in the second quarter of fiscal 2011 compared to \$0.5 billion of retail managed account net inflows in the second quarter

of fiscal 2010. Retail managed account gross inflows of \$2.3 billion in the second quarter of fiscal 2011 were reduced by \$1.5 billion of outflows. Tables 1-4 on pages 8 and 9 summarize the Company's assets under management and asset flows by investment mandate.

Revenue in the second quarter of fiscal 2011 increased \$52.8 million, or 19 percent, to \$325.8 million from revenue of \$273.0 million in the second quarter of fiscal 2010. Investment advisory and administration fees increased 19 percent to \$251.7 million, reflecting a 17 percent increase in average assets under management. Distribution and underwriter fees increased 6 percent due to an increase in average fund assets on which distribution fees are collected, partly offset by a reduction in underwriter fees collected on Class A fund sales. Service fee revenue increased 6 percent due to an increase in average fund assets subject to service fees. Other revenue, which increased by \$9.9 million, included \$7.3 million of net gains on investments of consolidated funds in the second quarter of fiscal 2011 compared to \$0.2 million of net gains on investments of consolidated funds in the second quarter of fiscal 2010.

Operating expenses increased \$16.9 million, or 9 percent, to \$208.8 million in the second quarter of fiscal 2011 compared to operating expenses of \$191.9 million in the second quarter of fiscal 2010. Compensation expense increased 10 percent due to increases in employee headcount and base salaries, adjusted operating income-based bonus accruals, stock-based compensation, employee benefits and payroll taxes. Distribution expense increased 10 percent from the prior fiscal year's second quarter due primarily to increases in intermediary marketing support payments, Class C distribution fees and marketing expenses. Service fee expense increased 4 percent, in line with the increase in assets subject to service fees. Amortization of deferred sales commissions increased 15 percent, reflecting an increase in Class C amortization as a result of Class C fund share sales growth. Fund expenses decreased 2 percent from the second quarter of fiscal 2010 due to a decrease in fund expenses borne by the Company. Other expenses increased 8 percent, reflecting increases in consulting, travel, information technology and facilities.

Operating income in the second quarter of fiscal 2011 was \$117.0 million, an increase of 44 percent over operating income of \$81.1 million in the second quarter of fiscal 2010. The Company's operating margin improved to 35.9 percent in the second quarter of fiscal 2011 from 29.7 percent in the second quarter of fiscal 2010.

In evaluating operating performance, the Company considers operating income and net income, which are calculated on a basis consistent with accounting principles generally accepted in the United States of America (GAAP), as well as adjusted operating income, an internally derived non-GAAP performance measure. Adjusted operating income is defined as operating income excluding the results of consolidated funds and collateralized loan obligation (CLO) entities and adding back closed-end fund structuring fees, stock-based compensation, write-offs of intangible assets and other items that we consider non-operating in nature. The Company believes that adjusted operating income is a key indicator of the Company's ongoing profitability and therefore uses this measure as the basis for calculating performance-based management incentives. Adjusted operating income is not, and should not be construed to be, a substitute for operating income computed in accordance with GAAP. However, in assessing the performance of the business, management and the Board of Directors look at adjusted operating income as a measure of underlying performance, since operating results of consolidated funds and CLO entities and amounts resulting from one-time events do not necessarily represent normal results of operations. In addition, when assessing performance, management and the Board look at performance both with and without stock-based compensation, a non-cash operating expense.

Adjusted operating income of \$120.0 million in the second quarter of fiscal 2011 was 30 percent higher than the \$92.4 million of adjusted operating income in the second quarter of fiscal 2010. The Company's adjusted operating margin improved to 36.8 percent in the second quarter of fiscal 2011 from 33.9 percent in the second quarter of fiscal 2010.

The following table provides a reconciliation of operating income to adjusted operating income for the periods presented:

Interest income increased 15 percent in the second quarter of fiscal 2011 compared to the second quarter of fiscal 2010 due to an increase in average cash balances. In the second quarter of fiscal 2011, the Company recognized \$2.0 million of net investment gains, including a \$5.5 million gain recognized upon the sale of the Company's equity interest in Lloyd George Management, compared to \$1.6 million of net investment gains in the second quarter of fiscal 2010. Also included in other income and expenses for the second quarter of fiscal 2011 are net losses of \$17.0 million associated with the consolidation of a CLO entity, which recognized losses due to an increase in the fair market value of the note obligations issued by the entity. As discussed below, this loss is offset by a comparable gain in net income (loss) attributable to non-controlling and other beneficial interests, as these losses are largely borne by outside investors.

The Company's effective tax rate, calculated as a percentage of income before income taxes and equity in net income (loss) of affiliates, was 44.0 percent and 38.4 percent in the second quarter of fiscal 2011 and fiscal 2010, respectively. The increase in the Company's effective tax rate was due primarily to losses recognized by the consolidated CLO entity, which are not subject to tax.

In the second quarter of fiscal 2011, net income attributable to non-controlling and other beneficial interests decreased \$18.7 million from the second quarter of fiscal 2010. The decrease can be primarily attributed to an \$18.0 million decrease in non-controlling beneficial interest associated with the consolidated CLO entity and a \$3.3 million increase in non-controlling beneficial interest associated with consolidated funds. Also included in non-controlling and other beneficial interests in the second quarter of fiscal 2011 and the second quarter of fiscal 2010 are \$2.4 million and \$9.1 million, respectively, that relate to non-controlling interest value adjustments in our subsidiary Parametric Risk Advisors that are attributable to its profit growth over the respective preceding twelve months ended April 30.

Net income attributable to Eaton Vance Corp. shareholders in the second quarter of fiscal 2011 was \$62.5 million, compared to net income attributable to Eaton Vance Corp. shareholders of \$36.0 million in the second quarter of fiscal 2010.

**Comparison to First Quarter of Fiscal 2011**

Long-term fund net inflows of \$2.2 billion in the second quarter of fiscal 2011 compare to \$1.4 billion of long-term fund net inflows in the first quarter of fiscal 2011. The \$0.3 billion of institutional separate account net outflows in the second quarter of fiscal 2011 compare to institutional separate account net inflows of \$0.5 billion in the first quarter of fiscal 2011. The \$0.2 billion of net inflows into high-net-worth separate accounts in the second quarter of fiscal 2011 were unchanged from the first quarter of fiscal 2011. Retail managed account net inflows were \$0.8 billion in the second quarter of fiscal 2011 compared to \$0.1 billion of net outflows in the first quarter of fiscal 2011. Tables 1-4 on pages 8 and 9 summarize the Company's assets under management and asset flows by investment mandate.

Revenue in the second quarter of fiscal 2011 increased \$13.5 million, or 4 percent, to \$325.8 million from \$312.3 million in the first quarter of fiscal 2011. Investment advisory and administration fees increased 4 percent to \$251.7 million, reflecting a 5 percent increase in average assets under management and a reduction in the number of fee days in the quarter. Distribution and underwriter fees decreased 4 percent due to fewer fee days in the quarter, partly offset by an increase in average fund assets that pay these fees. Service fee revenue decreased 2 percent due to a decrease in the number of fee days in the quarter, offset by an increase in average fund assets subject to service fees. Other revenue, which increased \$6.7 million from the prior quarter, included \$7.3 million of net gains on investments of consolidated funds recognized in the second quarter of fiscal 2011 compared to \$2.3 million of net gains on investments of consolidated funds in the first quarter of fiscal 2011.

Operating expenses decreased \$0.5 million to \$208.8 million in the second quarter of fiscal 2011 from \$209.3 million in the first quarter of fiscal 2011. Compensation expense was substantially unchanged from first quarter of fiscal 2011, reflecting increases in adjusted operating income-based bonus accruals, sales-based incentives and payroll taxes offset by decreases in salaries, stock-based compensation and employee benefits. Distribution expenses increased 3 percent from the prior fiscal quarter due primarily to increases in intermediary marketing support payments, Class C distribution fees and marketing expenses. Service fee expense decreased 2 percent due to a decrease in the number of fee days in the quarter, offset by an increase in assets subject to service fees. Amortization expense decreased 7 percent from the prior fiscal quarter due to a decrease in Class B and Class C amortization. Fund expenses increased 10 percent from the first quarter of fiscal 2011 due to an increase in fund expenses contractually borne by the Company. Other expenses decreased 2 percent from the first quarter, due to decreases in information technology and facilities expenses.

Operating income in the second quarter of fiscal 2011 was \$117.0 million, an increase of 14 percent from operating income of \$103.0 million in the first quarter of fiscal 2011. The Company's operating margin improved to 35.9 percent in the second quarter of fiscal 2011 from 33.0 percent in the first quarter of fiscal 2011. Adjusted operating income of \$120.0 million in the second quarter of fiscal 2011 was 5 percent higher than the \$114.8 million of adjusted operating income in the first quarter of fiscal 2011. The Company's adjusted operating margin of 36.8 percent in the second quarter of fiscal 2011 was unchanged from the first quarter of fiscal 2011.

Interest income increased 14 percent in the second quarter of fiscal 2011 compared to the first quarter of fiscal 2011 due to an increase in average cash balances. In the second quarter of fiscal 2011, the Company recognized \$2.0 million of net investment gains, including a \$5.5 million gain recognized upon the sale of the Company's equity interest in Lloyd George Management. In the first quarter of fiscal 2011, the Company recognized \$3.1 million of net investment losses. Also included in other income and expenses for the second quarter of fiscal 2011 are net losses of \$17.0 million associated with the consolidation of a CLO entity, which recognized losses due to an increase in the fair market value of the note obligations issued by the entity. As discussed below, this loss is offset by a comparable gain in net income (loss) attributable to non-controlling and other beneficial interests, as these losses are largely borne by outside investors.

The Company's effective tax rate, calculated as a percentage of income before income taxes and equity in net income (loss) of affiliates, was 44.0 percent and 37.3 percent in the second quarter of fiscal 2011 and first quarter of fiscal 2011, respectively. The increase in the Company's effective tax rate was due primarily to losses recognized by a consolidated collateralized loan obligation entity, which are not subject to tax.

Net income attributable to non-controlling and other beneficial interests decreased \$30.5 million in the second quarter of fiscal 2011 compared to the prior quarter. The decrease can be primarily attributed to a \$17.4 million decrease in non-controlling beneficial interest associated with the consolidated CLO entity and a \$2.0 million increase in non-controlling beneficial interest associated with consolidated funds. Also included in non-controlling and other beneficial interests are non-controlling interest value adjustments of \$2.4 million in the second quarter of fiscal 2011 and \$19.1 million the first quarter of fiscal 2011 relating, respectively, to our subsidiaries Parametric Risk Advisors and Parametric Portfolio Associates.
