quarter schedule. The release is as follows:

### GM's 'Industry Leading Truck Lineup' Sets Calendar Year Industry Sales Record

- GM Sets Industry Calendar Year SUV Record
- Best Calendar Year Full-Size Pickup sales since 1978
- December Total Sales Up Seven Percent; Retail Up 15 percent

### GM Announces December, Fourth-Quarter, 2001 Production; Reaffirms First-Quarter Schedule

DETROIT -- General Motors dealers sold 362,169 new cars and trucks in December in the United States. GM total sales were up seven percent for the month with a 15 percent retail increase. Buoyed by exceptional retail sales performance and an improved vehicle mix, GM's industry leading lineup of trucks broke the industry calendar year record for truck sales.

"Several years ago, GM committed to regaining truck leadership, and in 2001 we accomplished this important goal, setting a new industry benchmark for truck sales," said Bill Lovejoy, group vice president of North America Vehicle Sales, Service and Marketing. "We not only set an industry record for overall truck and SUV sales, but we had the best industry full-size pickup sales since 1978, which gives us great momentum going into 2002."

Lovejoy continued, "Despite some moderation in the industry, GM's retail volume will be up for the second consecutive year and our inventories are in terrific shape for 2002. This is an accomplishment we could not have achieved without the exceptional performance of our entire GM organization and the outstanding sales efforts of our dealers."

### GM Truck Sales Highlights

-----

GM achieved truck leadership with 2,631,535 sales in 2001, giving GM the best industry truck sales ever. For December, GM's industry-leading truck lineup maintained its exceptional sales pace, with deliveries up 31 percent.

Robust sport utility vehicle (SUV) sales for the year (1,019,228 units) resulted in GM shattering the all-time industry SUV sales record -- and GM became the first manufacturer to sell more than one million SUVs in a calendar year. GM's full-size utilities (93,280 units - up 28 percent over last year) dominated the industry once again in December. The Chevrolet Tahoe and Suburban, GMC Yukon, Yukon XL as well as the all-new Cadillac Escalade (537,193 units -- up 29 percent for the calendar year) gave GM the all-time industry record for full-size utilities, breaking the record for the fifth consecutive year.

GM's all-new midsize SUVs, the Chevrolet TrailBlazer, GMC Envoy, Oldsmobile Bravada and Buick Rendezvous again made major contributions to an all-time GM record for midsize utility sales (429,274 units -- up 23 percent). GM also led the industry in full-size pickup sales for the first time since 1994 with sales of 979,706 -- up 18 percent over last year, and had the best full-size pickup sales of any manufacturer since 1978.

### GM Car Sales Highlights

-----

For 2001, GM car deliveries were down 10 percent, and down 19 percent for December. Passenger car sales were negatively impacted by the industry decline in daily rentals. Chevrolet Impala, Malibu and Cavalier, as well as the Pontiac Grand Am remained in the top-10 best selling cars for the year. GM is the only manufacturer with four vehicles in the top ten.

## Edgar Filing: GENERAL MOTORS CORP - Form 8-K

Building on the strength of the industry leading truck lineup, GM is expecting to build momentum in the luxury and entry level markets with all-new vehicles. Cadillac CTS and Escalade EXT, Saturn Vue and Pontiac Vibe are all coming to market within the next few months.
