Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of  
Kinder Morgan, Inc. Savings Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Kinder Morgan, Inc. Savings Plan (the "Plan") at December 31, 2003 and 2002, and the changes in net assets available for benefits for the year ended December 31, 2003 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets held for investment purposes and reportable transactions are presented for the

purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## 1. Description of the Plan

### General

The Employees Retirement Fund Trust Profit Sharing Plan (the "Profit Sharing Plan") of K N Energy, Inc. was established in 1945 for the benefit of eligible employees (as defined in the Profit Sharing Plan indenture). Effective with K N Energy, Inc.'s acquisition of Kinder Morgan (Delaware), Inc., formerly Kinder Morgan, Inc., a Delaware corporation, K N Energy, Inc. changed its name to Kinder Morgan, Inc. (the "Company").

The Profit Sharing Plan has been amended and restated, and has been renamed the Kinder Morgan, Inc. Savings Plan (the "Plan"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

On January 31, 2002, benefits were transferred to the Plan from the Plantation Pipe Line Company - Employees Thrift Plan (the "Plantation Plan") at the election of Plantation Plan participants, and on July 1, 2002, the Plan was merged with the Laser Materials Services, Inc. 401(k) Profit Sharing Plan (the "Laser Plan"). All assets transferred from the Plantation and Laser Plans were invested in the Plan pursuant to the participants' directions.

Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation. Refer to the Plan agreement for a more complete description of the Plan's provisions.

### Plan Administration

The Plan is administered by the Kinder Morgan Fiduciary Committee. The Plan's recordkeeper is Putnam Defined Contribution Servicing. Plan assets are maintained under the custody of Putnam Fiduciary Trust Company ("Trustee"). The Trustee makes payments as authorized by the Plan.

### Contributions

Participants may elect to make pretax contributions totaling from 1 percent to 50 percent of their annual compensation, limited by requirements of the Internal Revenue Code ("IRC"). Participants may discontinue their election to contribute at any time. Effective July 1, 2003, all new employees are automatically enrolled in the Plan with a pretax contribution of 2 percent of their annual compensation. Within the first 30 days of hire, employees may opt out of automatic enrollment.

The Company makes Qualified Non-Elective Contributions ("QNEC") to the Plan on behalf of each eligible employee. The QNEC is equal to 4 percent of eligible compensation and is allocated as of each pay period (certain collectively bargained employees receive a 3 percent QNEC contribution, and certain other collectively bargained employees receive a 25% Company match on contributions up to 6% of eligible compensation). All QNEC and other Company contributions are initially invested in Kinder Morgan, Inc. common stock,

-4-

---

## **Kinder Morgan, Inc. Savings Plan**

### **Notes to Financial Statements**

which is immediately transferable to other available investments at the employee's discretion. In addition to the QNEC, the Company may also make discretionary contributions to the Plan, based on the Company's

performance. For the year ended December 31, 2003, Company contributions totaled approximately \$11.5 million.

Participants may invest in Kinder Morgan, Inc. common stock held in the ESOP portion of the Plan as described under Section 4967 (e)(7) of the IRC. Dividends on Kinder Morgan, Inc. common stock are reinvested in Kinder Morgan, Inc. common stock, unless the participant elects direct dividend payment as allowed by the Plan. All Company matching contributions are used to purchase Kinder Morgan, Inc. common stock. At any time, a participant may, by a change in investments direction, direct that shares of Kinder Morgan, Inc. common stock be converted to cash and the proceeds less any applicable sales expenses be invested in another investment option.

Under Internal Revenue Service regulation, annual additions under the Plan and all other qualified plans sponsored by the Company are limited to the lesser of 100 percent of eligible compensation or \$41,000 for each employee. Annual additions are defined as employer contributions and employee contributions.

#### Benefits/Vesting

Participants are fully and immediately vested in all participant contributions and all Company contributions made after July 1, 2000. Participants who were employed by the former K N Energy, Inc. and received Company contributions between January 1, 1995 and June 30, 2000 are subject to a four-year vesting provision (25 percent per year of service) on those contributions. Participant contributions may be withdrawn, with the approval of the Fiduciary Committee, in the event of unusual expenses connected with illness or disability, for college expenses for a participant or his or her dependents, or for the purchase of a primary residence, as defined in the Plan document. If not withdrawn earlier, a participant's account will be distributed in the event of termination of employment, death, or termination of the Plan. If a participant's account is \$5,000 or less, a lump-sum distribution will automatically be made. If a participant's account is greater than \$5,000, the participant's distribution options are: lump-sum distribution, partial distributions, or periodic installments. Upon retirement, participants whose accounts exceed \$5,000 may choose to leave their accounts in the Plan until age 70 1/2, when minimum distributions are required under the IRC.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

### **Notes to Financial Statements**

#### Loans

Participants may borrow, from the vested portion of their Plan accounts, a minimum of \$500 up to a maximum equal to the lesser of 50 percent of their vested balance or \$50,000. All loans are charged a variable interest rate equal to the prime rate published on the first of each month. The loans are subject to certain restrictions as defined in the Plan document and applicable restrictions under the IRC.

#### **Forfeitures**

Forfeitures of non-vested employer contributions remain in the Plan and earn interest income. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company QNEC contributions. During 2003, \$70,002 of employer contributions was forfeited by employees who were terminated before those amounts became vested. The entire forfeiture balance of \$70,002 was used to reduce employer contributions, leaving a

forfeiture balance at December 31, 2003 of \$0.

## 2. Significant Accounting Policies

### Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

### Investment Valuation and Income Recognition

Investments are accounted for at fair market values as determined by quoted market prices in an active market. Participant loans are valued at cost, which approximates fair market value. Life insurance contracts are stated at contract value (see Note 3). Unrealized appreciation (depreciation) is the difference between the fair value of the investment at the end of the current year and the cost of the investment if acquired during the Plan year, or the fair value of the investment at the beginning of the Plan year. The accompanying supplemental schedule of assets held for investment purposes reflects cost basis determined utilizing a historical cost approach as required by ERISA.

Purchases and sales of the funds are reflected on a trade date basis. Gain or loss on sale of investments is based on average cost.

The Plan presents in the accompanying Statement of Changes in Net Assets Available for Benefits the net appreciation in the fair value of investments, which consists of realized gains and losses, and the net change in unrealized appreciation (depreciation) on investments (see Note 3).

### Notes to Financial Statements

### Administrative Expenses

Accounting and certain administrative services for the Plan are provided by the Company at no cost to the Plan. All other expenses are paid by the Plan.

### Other

The Company's annual discretionary contribution, if any, is determined when annual net income and payroll amounts are known. The contribution is allocated to participants subsequent to year-end. The Company did not make a discretionary contribution in 2003.

## 3. Investments

Participants may designate their contributions and their allocated portion of the employer contributions, in percentage increments divisible by five, to one or more of the eligible investment programs. New Plan participants may elect to transfer investments from other qualified plans into the Plan.

The investment programs of the Plan and the number of participants in each program at December 31, 2003 and 2002 are briefly described as follows:

## **Kinder Morgan, Inc. Savings Plan**

### **Notes to Financial Statements**

Royce Low-Priced Stock Fund

- This program consists of investments in common stocks of small companies whose average price is less than \$20 per share. At December 31, 2003, 642 participants held 561,466 shares with a cost of \$6,664,367 and a market value of \$7,849,294. At December 31, 2002, 222 participants held 87,347 shares with a cost of \$877,514 and a market value of \$851,631.

Self-Directed Brokerage Account

- This program consists of participant-directed investments in individual stocks. At December 31, 2003, 89 participants held securities in this program with a market value of \$4,769,736. At December 31, 2002, 80 participants held securities in this program with a market value of \$2,469,826.

In 1970, the Plan entered into a deposit administration investment contract (the "Contract") with Principal Financial Group ("Principal"). Prior to January 1, 1987, participants had the option of purchasing life insurance through the Contract. Thereafter, the segment of the Plan allowing for the purchase of a life insurance policy on the life of the participant was frozen so that no new policies could be written. Participants with policies at December 31, 1986, had the following options: 1) allow the policy to remain in force with a frozen face value and fixed premium payments, 2) elect to use the cash surrender value ("CSV") of the policy to purchase paid-up life insurance or 3) reinvest the CSV of the policy in another fund. Principal maintains the contributions in a group account.

The Contract is included in the Statements of Net Assets Available for Benefits at contract value (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses) because it is fully benefit responsive. There are no reserves against contract value for credit risk of Principal or otherwise. The value of the Contract at December 31, 2003 and 2002 was \$700,346 and \$683,283, respectively.

The following presents the fair value of investments that represent 5 percent or more of the Plan's net assets:

## Kinder Morgan, Inc. Savings Plan

### Notes to Financial Statements

#### 5. Tax Status

The Plan is qualified under the IRC as exempt from federal income taxes, and the Plan received a favorable determination letter from the Internal Revenue Service on November 26, 2002. The Plan has been amended since receiving this determination; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the administrator believes that the Plan was tax exempt as of the financial statement dates.

Employer contributions to the Plan and all earnings from Plan investments are not taxable to participants until a partial or complete distribution of such contributions or earnings is made.

#### 6. Party-in-Interest Transactions

Certain Plan investments are shares of Kinder Morgan, Inc. common stock. Certain Plan investments are shares of mutual funds and money market funds managed by Putnam Investments, Inc. Putnam Fiduciary Trust Company (the Trustee of the Plan) is a subsidiary of Putnam Investments, Inc. and, therefore, these transactions qualify as party-in-interest. Any purchases and sales of these investments are open market transactions at fair

market value. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

**7. Risks and Uncertainties**

The Plan provides for various investment options in mutual funds, money market funds and Company common stock. Investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts shown in the Statements of Net Assets Available for Benefits.

**8. Reconciliation of the Plan Financial Statements to Form 5500**

The following is a reconciliation of the Plan's net assets available for benefits per the accompanying financial statements at December 31, 2003 and 2002 to Form 5500:

	December 31,	
	2003	2002
Net assets available for benefits per the financial statements	\$457,585,904	\$360,548,724
Deemed distributions of participant loans	<u>(110,043)</u>	<u>(222,396)</u>
	)	)
Net assets available for benefits per Form 5500	\$457,475,861	\$360,326,328

**Kinder Morgan, Inc. Savings Plan  
Notes to Financial Statements**

The following is a reconciliation of the change in net assets available for benefits per the accompanying financial statements for the year ended December 31, 2003 to Form 5500:

	Year Ended December 31, 2003
Net increase in net assets available for benefits per the financial statements	\$ 97,037,180
Deemed distributions of participant loans	<u>112,353</u>
Net increase, net of transfer of assets per Form 5500	97,149,533
	=====

Amounts allocated to deemed distributions of participant loans are recorded as an investment in the accompanying financial statements and recorded as an expense on Form 5500.

A participant loan is deemed distributed during the plan year under the provisions of IRC section 72(p) and Treasury Regulation section 1.72(p) if the participant loan is treated as a direct investment solely of the participant's individual account and the participant has discontinued payment of the loan as of the end of the

year. For financial statement purposes, the loan balance is still considered as an outstanding loan until the loan obligation has been satisfied and is not treated as an actual distribution until such time the participant separates from employment and the participant's vested account balance is fully distributed.
