# AMERISERV FINANCIAL REPORTS EARNINGS FOR THE THIRD QUARTER AND FIRST NINE MONTHS OF 2010 

JOHNSTOWN, PA AmeriServ Financial, Inc. (NASDAQ: ASRV) reported a second consecutive quarter of profitability in the third quarter of 2010 by posting net income of $\$ 609,000$ or $\$ 0.02$ per diluted common share. This represents a significant improvement of $\$ 3.4$ million from the third quarter 2009 net loss of $\$ 2.8$ million or $(\$ 0.15)$ per diluted common share. For the nine month period ended September 30, 2010, the Company reported net income of $\$ 168,000$ or ( $\$ 0.03$ ) per diluted share which also represents an increase of $\$ 3.4$ million when compared with the net loss of $\$ 3.2$ million or $(\$ 0.19)$ per diluted common share reported for the same nine month period in 2009. The following table highlights the Company s financial performance for both the three and nine month periods ended September 30, 2010 and 2009:

$$

Glenn L. Wilson, President and Chief Executive Officer, commented on the 2010 third quarter financial results, Our disciplined approach to monitoring our loan portfolio continued this quarter as we aggressively identify and seek prompt resolution to problem credits in order to limit actual losses. As a result of this proactive monitoring, we have been able to carefully adjust downward the provision for loan losses for four consecutive quarters while still maintaining solid loan loss reserve coverage ratios. Specifically, the allowance for loan losses provided $85 \%$ coverage of non-performing loans at September 30, 2010 and represented $2.97 \%$ of total loans outstanding. The continued growth of deposits throughout our community bank network was a positive factor contributing to our strong balance sheet liquidity and good net interest margin performance. I was also pleased with our capital strength and the revenue contribution of our retail bank which benefitted from a strong quarter of residential mortgage loan production. The recent opening of our 19 th branch office on North Atherton Street in State College provides further evidence of our strategic commitment to community banking

The Company s net interest income has improved modestly in 2010 increasing by $\$ 98,000$ in the third quarter and $\$ 115,000$ for the first nine months of 2010 compared to the same periods in 2009. Careful management of funding costs during a period when interest revenues are declining has allowed the Company to increase its net interest margin by 12 basis points to average $3.77 \%$ for the first nine months of 2010 . This solid net interest margin performance is reflective of the Company s strong liquidity position and its ability to reduce its funding costs during a period of deposit growth. Specifically, total deposits averaged $\$ 801$ million in the first nine months of 2010, an increase of $\$ 45$ million or $5.9 \%$ over the same period in 2009. The Company believes that uncertainties in the economy have

## Edgar Filing: AMERISERV FINANCIAL INC /PA/ - Form 8-K

contributed to growth in money market accounts, certificates of deposit and demand deposits as consumers and businesses have looked for safety in well capitalized community banks like AmeriServ Financial. Overall, total loans have declined by $\$ 24$ million or $3.3 \%$ since December 31, 2009 as the Company has focused on reducing its commercial real estate exposure during this period of economic weakness.

The Company has appropriately strengthened its allowance for loan losses over the past year in response to ongoing careful monitoring of the commercial loan and commercial real estate portfolios in this weak economic environment. When determining the provision for loan losses, the Company considers a number of factors some of which include periodic credit reviews, non-performing, delinquency and charge-off trends, concentrations of credit, loan volume trends and broader local and national economic trends. Overall, the Company recorded a $\$ 1.0$ million provision for loan losses in the third quarter of 2010 compared to a $\$ 6.3$ million provision in the third quarter of 2009 , or a decrease of $\$ 5.3$ million. For the nine month period ended September 30, 2010, the Company recorded a $\$ 5.3$ million provision for loan losses compared to an $\$ 11.4$ million provision for the first nine months of 2009, or a decrease of $\$ 6.2$ million. Actual credit losses realized through charge-offs in 2010, however, are running below the provision level but are higher than the prior year. For the first nine months of 2010, net charge-offs amounted to $\$ 4.2$ million or $0.79 \%$ of total loans compared to net charge-offs of $\$ 1.1$ million or $0.19 \%$ of total loans for the first nine months of 2009. The higher charge-offs in 2010 primarily relate to two non-performing commercial real-estate loans, one of which was completely resolved in the first quarter ( $\$ 1.2$ million charge-off) and the second of which relates to a student housing project ( $\$ 2.3$ million charge-off) which the Company is striving to resolve through a note sale by the end of 2010. During the third quarter, total non-performing assets increased by $\$ 5.5$ million to $\$ 25.3$ million or $3.61 \%$ of total loans as certain commercial borrowers continue to be impacted by the weak economy. Of the total $\$ 5.5$ million increase, $\$ 3.5$ million relates to three commercial real estate loans that are each current on their payments but we still elected to transfer to non-performing status given our concern regarding the borrowers ultimate ability to service the debt. In summary, the allowance for loan losses provided $85 \%$ coverage of non-performing loans and was $2.97 \%$ of total loans at September 30, 2010, compared to $115 \%$ of non-performing loans and $2.72 \%$ of total loans at December 31, 2009.

The Company s non-interest income in the third quarter of 2010 increased by $\$ 59,000$ from the prior year s third quarter and for the first nine months of 2010 decreased by $\$ 305,000$ when compared to the first nine months of 2009. The largest item negatively impacting both periods was a reduced level of deposit service charges which were down $\$ 147,000$ in the third quarter and $\$ 347,000$ for the first nine months of 2010. Customers have maintained higher balances in their checking accounts which have resulted in fewer overdraft fees in 2010. Additionally, the third quarter 2010 deposit service charges were also impacted by regulatory changes which took effect in mid-August and are designed to limit customer overdraft fees on debit card transactions. Non-interest income has also been negatively impacted by a decrease in trust fees as a result of reductions in the market value of certain real estate assets we manage in our specialty real estate funds in 2010. The impact was less significant on the quarterly results as trust fees were $\$ 20,000$ lower in the third quarter but $\$ 190,000$ lower for the nine month period. These negative items were partially offset by increased revenue generated on residential mortgage loan sales into the secondary market. As a result of increased mortgage loan production, the realized gain on loan sales was $\$ 65,000$ higher in the third quarter of 2010 and $\$ 74,000$ higher for the first nine months of 2010 . This increased residential mortgage loan production also contributed to the increase in other income due to higher underwriting and document preparation fees.

Total non-interest expense in the third quarter of 2010 increased by $\$ 208,000$ or $2.2 \%$ from the prior year s third quarter and for the first nine months of 2010 increased by $\$ 960,000$ or $3.4 \%$ when compared to the first nine months of 2009. Total salaries and benefits were up by $\$ 301,000$ for the third quarter and $\$ 661,000$ for the nine month period

## Edgar Filing: AMERISERV FINANCIAL INC /PA/ - Form 8-K

as a result of higher medical insurance costs, increased pension expense, and modest merit salary increases in 2010. Professional fees were down modestly in the third quarter but up $\$ 407,000$ for the nine month period due to increased consulting expenses and recruitment costs in the Trust company and higher legal fees and workout costs at the Bank in 2010. Overall, the total level of non-interest expense has been relatively consistent for each of the three quarters in 2010.

ASRV had total assets of $\$ 963$ million and shareholders equity of $\$ 108$ million or a book value of $\$ 4.13$ per common share at September 30, 2010. The Company continued to maintain strong capital ratios that exceed the regulatory defined well capitalized status with a risk based capital ratio of $15.97 \%$, an asset leverage ratio of $11.07 \%$ and a tangible common equity to tangible assets ratio of $7.86 \%$ at September 30, 2010.

This news release may contain forward-looking statements that involve risks and uncertainties, as defined in the Private Securities Litigation Reform Act of 1995, including the risks detailed in the Company's Annual Report and Form $10-\mathrm{K}$ to the Securities and Exchange Commission. Actual results may differ materially.
